Bucknell Favored Over Albright In Opener

LAWRENCEN SEEM TO BE THE BEST IN YEARS

by Stratton White

The Bucknell Bison open up their 1957 football season this Saturday night at home against Albright. Bucknell's team should certainly live up to their nickname of the Bisons. Bucknell's opponents should find the Herd a tough team to beat.

Team is Strong

The team started workouts September 1 and Coach Harry Lawrence thinks that they have improved a great deal in the past two weeks. There were 34 men on the squad at the beginning of practice, but now there are 37 due to the return of veterans Bill Kelly, Bruce Neely and Bob Holmes. Neely has been converted from end to fullback behind Fitzsimmons. Look for Neely to be a surprise because of his natural football ability and experience. Neely has the edge over sophomore surprise Tony Rinaldi. Red Holmes underwent an appendectomy recently and has been out of action. Coach Lawrence hopes to have Red ready for the Gettysburg game.

Sophomore But Tough

The sophomores, although green, are a very pleasant surprise because of their willingness to make it rough for the opposition. They are a very spirited and hard hitting group.

Starting Lineup

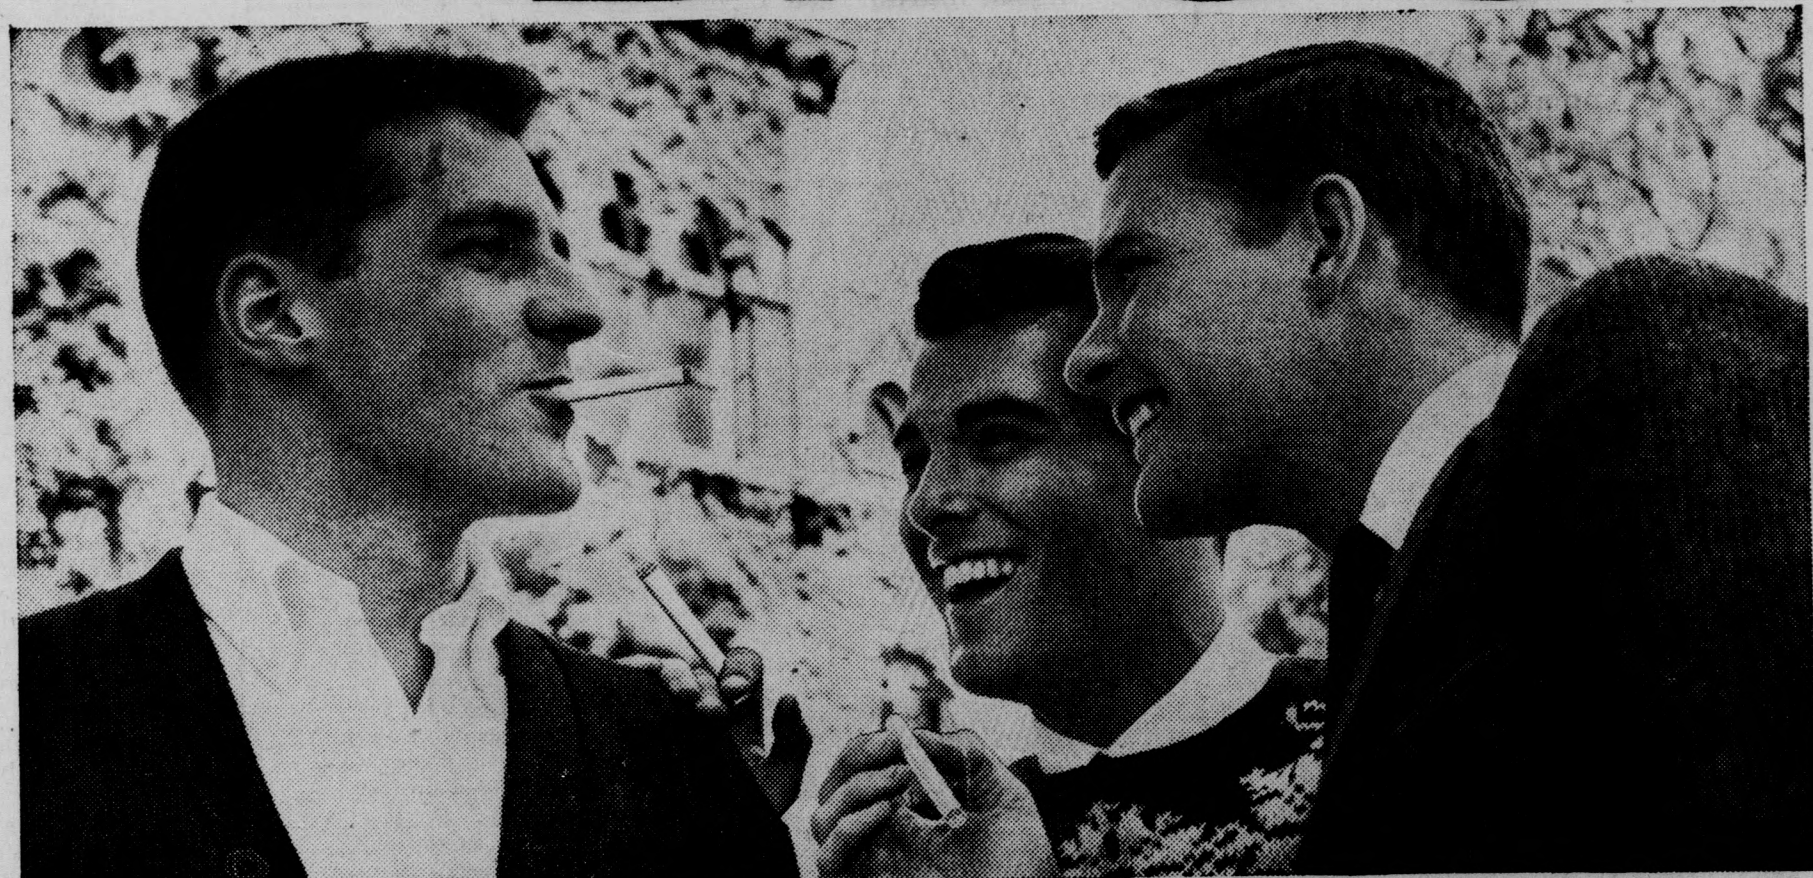

The starting team for this Saturday night's game is as follows: ends, Rogers Frassenei and Jim Brady; Frassenei although small for a lineman is one of the most durable men on the team. Brady, a sophomore sensation, has wonderful coordination and speed for a big man. Tackles are Bill Walsack and Dick

NUMBER 2

HONORARY DEGREES PRESENTED TO FOUR: BRONK DELIVERS TALK

Dr. Delux Wulf Bronk, president of the Rockefeller Institute for Medical Research, delivered the address at the annual convocation of Bucknell University, Wednesday morning, September 25, in Davis Gymnasium. He was introduced by Dr. Merle M. Odgers, president of the University, as exemplifying the "synthesis of education."

Hunt Hall president, Doris Wilkins, vice president, Barbara Cosic, social chairman, Nancy Jane Brown; secretary-treasurer, Dabbe Bartleson.

Walker Street president, Wilma Nive, vice president, Lee Hodapp; social chairman, Carol Burrows; secretary-treasurer, Joyce Anderson.

Taylor Street president, Sally Anderson, vice president, Buzz Martin; social chairman, Carol Turner; secretary-treasurer, Jane Sutherland.

Spanish House president, Sue Welles; vice president, Cynthia Orr. (Continued on Page 8.)

Women Choose Dorm Officers

Most of the upperclass women's dormitories and houses have held elections for their officers. Elections for the presidents and social chairmen were held last spring; the vice presidents and secretary-treasurers, except for a few who will be elected soon, were chosen this fall. Here are the results of the elections:

Hunt Hall president, Doris Wilkins, vice president, Barbara Cosic, social chairman, Nancy Jane Brown; secretary-treasurer, Dabbe Bartleson.

Walker Street president, Wilma Nive, vice president, Lee Hodapp; social chairman, Carol Burrows; secretary-treasurer, Joyce Anderson.

Taylor Street president, Sally Anderson, vice president, Buzz Martin; social chairman, Carol Turner; secretary-treasurer, Jane Sutherland.

Spanish House president, Sue Welles; vice president, Cynthia Orr. (Continued on Page 8.)

SFC To Sponsor Leadership Confab

This Sunday a group of students will get together at Cowan to discuss some of the more pressing of campus problems. Those who will attend the SFC Leadership Conference will be all the fraternity and sorority presidents, the members of WSGA Senate and Honor Council, the members of the MSA Executive Council and Judicial Board, and the members of Student-Faculty Congress.

In previous years the conference has tended toward discussion of the theory of leadership. This year the aim is to come up with some concrete suggestions for solving the problems under discussion.

For a long time now, many students have felt that there are far too many organizations and clubs on campus that serve no real purpose, and, in essence, almost non-functioning. This will be one of the major topics of discussion on Sunday.

SFC wants to establish some criteria to determine which organizations should be discontinued, so that action can be taken in the near future.

Other topics up for discussion are:

1. Student Elections
- A. How can the lack of interest be eliminated?
- B. How can we get a larger number of students to vote?
- C. How can outlandish campaigning be eliminated?
- D. What is the best kind of campaign? (Continued on page 8)

Dean of Denison To Present Talk At Next Chapel

Rev. Harry H. Krueger, Dean of the Chapel, Denison University, will speak in chapel on Wednesday, October 2. Rev. Krueger is a native of Brooklyn, New York, and holds degrees from Haverford College, Andover-Newton Theological School, and was granted his Masters in Sacred Theology in 1954 from Boston University.

During his junior year at Haverford College, Rev. Krueger was elected to Phi Beta Kappa. Rev. Krueger has had fifteen years of experience as a Baptist minister in Massachusetts and Ohio. He has served as a trustee of Denison University and Andover-Newton where he is a former president.

This year Rev. Krueger was elected to the Executive Committee of the National Association of College and University Chaplains.

Meetings for the board of directors for the mothers and fathers are planned Saturday morning.

"Ole Shoe" Tussle

Football—the Bisons challenging Temple, will highlight the afternoon. Adding excitement to the game is the annual contest for the "ole shoe" trophy to be awarded to the winning team. At the halftime the Women's Glee Club, combined with the Bison Band and Majorettes, will present special entertainment.

Dine With Dad

Reservations for the Dad's Day banquet, held in Davis Gym at 6:30 Saturday night, may be made at the bank in West Wing starting Monday, September 30. Tickets will be sold for 1000 places at \$1.50 per person.

Following the dinner is entertainment—free to all. Included in the program are skits by individual students and by student groups.

Sunday morning, all parents are invited to 9:30 Class. Dr. James A. Gehring, political science professor, will speak about "Relationship Between Politics and Religion." The churches in town are also open to all visitors.

Former Cap and Dagger storage room in the basement of Harris Hall has been remodeled into a student lounge with modern furniture and a TV set. The art room in the Engineering Building has been re-vamped into a drawing room for students in mechanical engineering.

Other projects include the building of a new food for the portables, including an address before the academic deans of Pennsylvania colleges, for the coming month.

The Bucknell dean will visit Wesleyan College at Middletown, Conn. on October 5 to speak at the annual luncheon on Parents Day at that institution. Karl Drew Hartzell, Jr., eldest son of Dean and Mrs. Hartzell, has just begun his sophomore year at Wesleyan.

The second annual conference of Pennsylvania Academic Deans, to be held at Wilson College, October 14, will feature a talk by Dean Hartzell on the topic: "Raising Our Sights on Academic Standards and Achievement."

The Bucknell dean will go to Corning, N. Y., October 23, to speak at the fifth annual College Day for which the Corning Branch of the American Association of University Women and the Corning Glass Works Foundation will be the co-sponsors. Dr. Hartzell will present the advantages of the smaller, co-educational universities during a special session planned particularly for men students planning to enroll in institutions of higher learning.

Another senior, Elaine Longenecker, who is new to the squad this fall, is one of the few Business Education majors at Bucknell. Elaine's hometown is Littleton, Pennsylvania. Elaine is active in women's sports and participates in the Swim Club and W. R. A. sports. Elaine also plays in the Concert Band.

Junior, Carol Burrows, from Ridgewood, New Jersey, is also an elementary education major. Tall and slender Carol works for the L'Allegria and the Handbook and is Social Chairman of Walker House. Representing the sophomore class is Margie de Groot who hails from Roselle Park, New Jersey. This five-foot-seven blonde likes to dance and displays her talents in the Modern Dance Club. She joined the squad last spring.

The freshmen can be proud of Carol Ann Bouquet from Merrick, Long Island. Carol Ann attended the Wellington C. Metham High School and has been twirling since she was five years old. Carol is majoring in secondary education and is planning to work for the L'Allegria.

Under the Pennsylvania Motor Vehicle Code, a motor vehicle owner who moves into Pennsylvania from another state is required to register in Pennsylvania and pay the Pennsylvania motor vehicle license fees within thirty days. A similar provision applies to the operators license. New members of the Bucknell staff and married students who have established residence in the Lewisburg area are advised that the Pennsylvania State Police in prior years have conducted a campaign in the vicinity of the Bucknell campus check-up on new Pennsylvania residents who have failed to comply with this requirement. Students with motor vehicle registration in other states are not subject to this check-up. (Continued on Page 8.)

Records by the Chapel Choir can be purchased soon for \$1.50.

The new members of Chapel Choir are Linda Hardy, Mary Frantz, Constance Meadows, Barbara Ziegenfuss, Phyllis Thurg, Ann Campbell, David Thurston, Stuart Sharp, Douglas Neckers, Angus Thom, David Welsh, and Charles Shippe. A fall trip to the Philadelphia vicinity is planned for the third week in November.

Records by the Chapel Choir can be purchased soon for \$1.50.

FOOTBALL, ENTERTAINMENT, MEETINGS TO HIGHLIGHT DAD'S DAY FESTIVITIES

ARTIST SERIES TO PRESENT PIANO DUO: ARTHUR FERRANTE, LOUIS TEICHER STARRED

Dad's Day celebration, the first big weekend of the semester, is scheduled for next weekend, October 4, 5, and 6.

Beginning Friday night the first of the Artist Series programs will be presented. Arthur Ferrante and Louis Teicher, a piano duo, will entertain. Both are graduates and former faculty members of the Juillard School of Music in New York. Since their first performance with the Toledo Symphony in 1947 they have played in forty-three states and Canada, appearing with leading orchestras and giving unique recitals. Their repertoire ranges from Bach and Beethoven to modern works, some of which have been especially written for them, such as Alec Templeton's witty "Canons for Cate."

Meetings for the board of directors for the mothers and fathers are planned Saturday morning.

"Ole Shoe" Tussle

Football—the Bisons challenging Temple, will highlight the afternoon. Adding excitement to the game is the annual contest for the "ole shoe" trophy to be awarded to the winning team. At the halftime the Women's Glee Club, combined with the Bison Band and Majorettes, will present special entertainment.

Bisons Picked Over Gettysburg at Hershey

by Stratton S. White

The Bisons of Bucknell travel to Hershey, Pa., to seek the year's first Rotary Cup. They take on Gettysburg under the arc lights in the tenth annual Chocolate Bowl game. Saturday, September 23. The Herd lost the cup in 1953 by a score of 27-6, but came back in '56 defeating the Bullets 17-7. The series between Bucknell and Gettysburg began in 1893. The Bisons lead in the rivalry 27-12, with two meetings ending in ties.

G-burg Record Last Year 7-2
Gettysburg lost its first two games last season to Lehigh and Bucknell, after which they won seven straight to end the season with a 7-2 record. Gettysburg's offense tallied 188 points last year while their defense gave up only 69 points.

Seven Starters Return
Seven returning starters bolster this season for the Gettysburg eleven which is also supported by a very strong bench. Some of the key linemen for the Bullets include: Barclay Boyd, 6-2, 220 lb. end; Gino Calcagni, 6-1, 220 lb. tackle; Al Kempton, 6-1, 215 lb. tackle; Don Harmon, 6-4, 197 lb. guard; and left halfback, center, Arlo Olsen. An impressive back is 180 pound quarterback Neil Hickoff. Hickoff has been switching on and off with Dick Stravolo. Halfbacks Dick Ford 165 lbs. and Earl Yost, 165 lbs. have been impressive. The fullback and workhorse for Gettysburg is Frank Capitani, Captain, 5-10, 180 lbs., was voted to the all-state college football team of Pa. last year, and is shooting for the national title this year. Mr. Capitani will have to get past the durable forward wall of the Bisons Saturday night if he expects to achieve his expectations.

New G-burg Coach
Gettysburg's mentor Gene Hass will make things tougher for the BU Bisons, because a new coach usually means new plays. This being the Bullets' first game, Bucknell has not had a chance to scout them. Hass has been experimenting at both end and quarterback positions during drill sessions and is not sure as to who will start Saturday's contest.

Fitz Star of Game
Bucknell, in defeating Albright last Saturday, used straight-line smashes as its offensive strength. Harry Lawrence instructed his quarterbacks to keep the game as simple as possible because we were being scouted by six future opponents. Simple as the game may have been, Bob Fitzsimmons showed everyone that he could run with tremendous speed and power. "Fitz" not only has the power to grind out short yards, but also has the speed to break away for long gains.

Sophomore Jim Brady is going to be one of the finest ends that Bucknell has seen in many moons. His speed and agility makes him a real threat both on offense and defense. Coach Lawrence also thinks very highly of sophomore ends Doug Forsyth and Jack Eachus and refers to Charlie Negron as an outstanding prospect. Special credit should be given to Claycomb and Mathias, guard and center respectively. Lawrence says that they have come a long way on determination and hustle. Claycomb and Mathias are good fighters and thinkers as are the other sophomores.

Talented gridmen deserve the backing of the entire student body. Make it a point to be at the Hershey Bowl to furnish support for the BU Thundering Herd in what looks like a winning season.

Freshmen Picnics Held by W.R.A.

The Freshmen picnics, sponsored annually by Women's Recreation Association, were held this week from Monday to Thursday in the Orchard. Each night four or five freshman women's ball groups met together to get acquainted and to learn more about W.R.A. After a picnic supper, each ball group planned and performed a paper bag skit. Songs were also learned and sung.

The hockey, badminton, and tennis seasons are now beginning. The managers for these activities are: Margie Nye, intergroup badminton; Bobbie Fullerton, interclass tennis; and Ellie Body, interclass hockey.

The free-swim hours for this year will be 4:30 to 5:30 p. m. on Tuesday and Thursday, and 11:00 to 12:00 a. m. on Friday.

W.R.A. has also planned bowling tournaments for later this year.

Drink and Driving Don't Mix!

THE BUCKNELLIAN, BUCKNELL UNIVERSITY, LEWISBURG, PENNA.

THURSDAY, SEPTEMBER 26, 1957.

THE THUNDERING HERD

Last Saturday the Herd ramblod over their traditional rival Albright. 16-0. This Saturday they hope to continue their winning streak by beating Gettysburg at the Chocolate Bowl in Hershey.

Tennis School Held In Tuslin Gym Tuesday

The Spalding Tennis School sponsored by Donehower's and the Women's Physical Education Department is to be held at Tuslin Gym courts (if rain, in Davis Gym) Tuesday, October 1 at 1:30.

A. G. Spaulding & Bros. is pleased to announce the Spalding Tennis School, with its famous Mercer Beasley as head instructor and Mike Blanchard acting as his assistant.

Both Beasley and Blanchard are well known to followers of tennis. Beasley is the best known tennis coach in the country and is a member of the Lawn Tennis Writers Association. He is President of the PLTA of the United States. For many years tennis coach at Princeton University, he came into the National spotlight as the discoverer and coach of Frank Parker, who was ranked in the first 10 players in the country seventeen times, and was twice winner of the National Championships. Ellsworth Vines, Gardnar Mulloy and Pancho Segura were also Beasley proteges.

Mike Blanchard has been connected with tennis for many years both as a player and official. He has run the National Doubles Championships at Longwood for the past five years, and is Chairman of the Tennis Umpires Association, and has umpired the National Championships and Davis Cup Matches. Still an active player, he is currently the National Indoor Mixed Doubles Champion. He is also a member of the USLTA Junior Development Committee, and was instrumental in promoting 72 tennis clinics in New England in 1952 as a member of this committee.

The clinic that these two men will put on was first tried out in New York in 1952 and proved to be so different and so interesting that the various ideas presented were made up into a series of syndicated newspaper articles and were carried on the sports pages of 800 papers all over the country. Briefly, the teaching technique associated tennis strokes, body movement and footwork with the swings and body movements used in other sports that the students know, such as baseball, boxing, track, etc. Never before have baseball bats, and boxing gloves been used in teaching tennis. Because of this association of ideas with something they know, students pick up the basic fundamentals of tennis in a very short time.

A Bucknell coed, after looking over a selection of thermometers, told the clerk, "I'll take this Fahrenheit one. I know that's a good brand."

Soccer Team Preview

by John Toal

Soccer coach Hank Peters will have to do a tremendous job in building this year's team into a winning combination. The class of '57 claimed twelve members of the previous year's squad, and scholarship and pre-season injuries have taken the toll of six possible starters this semester. These facts mean that many inexperienced players and sophomores will be relied on to ease the burden placed upon the few returning lettermen.

Co-captain and outside left, Jim Balta will have the main responsibility in leading the squad through this season. Seniors Bob Toal and Larry O'Hara along with junior Tom Linton will have to provide most of the scoring punch while senior Phil Sanders and junior Tom Clark will be depended upon to hold together a sophomore backfield including Meid Giesel, Roger Mackey, Grant Watkins and goalie, Denny Sweetman. Other players who are expected to see much action this year are linemen Lee Lawver and John Toal.

Club Lacks Depth
On Saturday the soccer eleven scrimmaged the Lock Haven State Teachers College. The six to nothing defeat indicated that the club lacks depth and needed experience. The limited practice sessions before the scrimmage resulted in a lack of coordination between the backfield and the line and a need for more conditioning. When most of the starters were taken out for a rest midway in the second quarter, the Lock Haven team pushed across two goals with the fine passing which marked their game. This ability to pass the ball accurately was the difference in the game, for as good as Lock Haven was at passing, the Bisons were poor. The BU backfield could not get the ball up to the line, and the linemen's passes were slow and inaccurate. The Lock Haven goalie only touched the ball six times during the entire ball game.

Hustling Squad
The bright spot in this year's team is the amount of hustle and desire to play shown by the squad. The persistence and determination shown in practices can mean only one thing, that the squad will improve and perhaps pull some upset victories. The team last year had three wins, three losses and three ties with an upset victory over the powerful Temple Owls. The aim of this year's squad is to better that record.

Moscow officials announced recently that automobile accidents in the city have been reduced ten percent since hornblowing was banned last August 1.

Marble is a bage both for rouge and linoleum.

BROOK'S AT BUCKNELL
LEWISBURG, PA.

THURSDAY, SEPTEMBER 26, 1957.

BUCKNELL TRAMPLES ALBRIGHT IN OPENER; FITZSIMMONS SHOWS POWER AS FULLBACK

by Karl Dall
Last Saturday in rain-threatened Memorial Stadium, Bucknell University's Thundering Herd romped over a weak Albright eleven by a 16-0 count in an impressive 1957 gridiron debut.

BU Dominates Series
The one-sided affair marked the eighth straight victory for the Herd over the Lions of Reading in a series of 15 games. Furthermore, the triumph represented the eleventh time out of 14 victories that the Lions were blanked in the scoring column. The Bisons gained control of the oval early in the first quarter and proceeded to unveil an impressive ground attack ably directed by QB Terry Fetterman. A 15-yard holding penalty stopped a Bison drive into Albright territory and the ball went over to the Lions. Then, as throughout the game, Albright failed to move the ball any great distance. Frank Sudock, the Lions' passing ace, managed to connect on only five passes for a total aerial gain of 81 yards.

Bisons Score Early
Late in the first quarter the Herd hit paydirt on a 21-yard heave by Fetterman to his right end, sophomore Jim Brady. Bill Walsek converted successfully to give the Herd a 7-0 lead. Coach Harry Lawrence then sent in his second team which did an impressive job before the not too impressive crowd. A sustained drive in the second quarter took the ball deep into Lion territory and coach Lawrence once again fielded his first team. Bill Walsek promptly booted a 25-yard field goal and the score stood at 10-0.

BU Scores Again in Fourth
During the third quarter the second squad again did a fine job under playmaker Denny Cox. The standouts in the backfield were juniors Buzzy Erickson, Lee Davis, Roger Neely and senior Chuck Warner. In the last quarter the first team entered the game and drove to another score on a tackle plant by hard-hitting Bob Fitzsimmons. Fitzsimmons, who ran like a man-made stampede on line bucks, racked up 110 yards for a 5.8 yard per carry average. A poor pass from center prevented a conversion attempt and the score stood at 16-0.

Among other causes, over-fatigue may be one of the main reasons for indigestion.

In jewelry terms a "brilliant" is a diamond cut to resemble two truncated stones, placed base to base.

tempt and the score stood at 16-0 until the close of the contest. Outstanding on the first team backfield were senior Jack Brothers, and junior Charlie Appar. On defense soph. Jim Brady did an excellent job in the tackle slot. Mike Hixson at center on offense and center line-backer on defense was consistently strong.

	B	A
First downs	17	4

Women's Hockey Schedule

Practices for girls interested in participating in the interclass field hockey tournaments are scheduled from 3:30 to 5:00 p. m. Monday, September 23, through Thursday, September 27. The tournament will commence the following two weeks with interclass games on Mondays and Thursdays and with practices on Tuesdays and Wednesdays. The games will be climaxed by a field hockey playday, to be held Saturday, October 12.

Schedules of the interclass games will be posted on bulletin boards in Larson, Harris, and Hunt Halls.

Dad's Day Tickets on Sale

Dad's Day tickets can be purchased now at the Bucknell Athletic Office. For this game only, Temple, Oct. 5, upperclassmen will be permitted to sit with their parents. It will be necessary to pick up tickets at the Athletic Office for both yourself and your parents.

There are about eight million home freezers and more than 10,000 freezer-locker plants in operation in the United States.

THE BUCKNELLIAN, BUCKNELL UNIVERSITY, LEWISBURG, PENNA.

TOUGH BREAK

Despite quite a few fumbles and a couple of incomplete passes the Thundering Herd looked extremely well trained and conditioned. Their ground attack was simple but strong. The Herd should be able to hold their own against all the teams they face this season.

POOL SCHEDULE

Mon.—Recreational swimming for men—7 to 9 p. m.
Tues.—Bucknell family. All ages welcome—7 to 9 p. m.
High school students and adults only—8 to 9 p. m.
No outside guests permitted.
Wed.—Women's Synchronized Swimming—7 to 9 p. m.
Thurs.—Recreational swimming for women—7 to 9 p. m.
Fri.—Coeducational swimming—7 to 9 p. m.

The green turtle of the West Indies sometimes weighs 600 pounds.

Tickets at BU Athletic Office

Students are reminded that they may purchase three dollar reserved seats for the Gettysburg game for one dollar at the Bucknell Athletic Office in Davis Gym. This is the only place the tickets may be obtained at a reduced rate. Tickets will remain on sale at the Athletic Office until noon, Saturday, September 28.

There are about eight million home freezers and more than 10,000 freezer-locker plants in operation in the United States.

Along the Bison Trail

by Bill Shanker, Sports Editor

This column is going to be devoted to gripping about situations that I think are undesirable to the progress of this university's athletic program. The most important problem facing the athletic department is the disgraceful turnout for freshman football. There were from thirty-five to forty freshmen who turned out for football this fall. First of these boys have or are thinking about turning in their uniforms. Most of them are leaving for reasons pertaining to their studies. How can anyone who has no conceivable idea of his capacity for learning or of his physical endurance quit so early in the season? Most of the freshmen labor under the fallacious impression that their academic work will be so difficult that it will use up all of their valuable free time. Gentlemen, let's stop kidding ourselves. Nobody can possibly study all the time. The average student at Bucknell attends classes about four and a half hours a day, and the average student has four hours of homework a night. Football practice is from four to six o'clock, not seven to eleven or any other time. This leaves the student ample time to complete his home work assignments during the night and to absorb the remaining time of the day in study.

Almost half of the freshmen have played football in high school and there does not seem to be any valid reason why they should not play football at Bucknell.

Fraternities will not rush you until next semester so you have no need to worry about that angle.

Last Saturday we beat Albright. Next year, the freshman football players may decide whether we will repeat this victory.

Let's go freshmen! Get out and play football. The next problem is the varsity soccer team. Unless more people turn out for this sport, we may have one of the worst soccer teams in the history of this university. There are very few veterans on the squad, and the turnout of sophomore talent has not made up for this deficit. The mauling we received at the hands of Lock Haven last week was a disgrace. If it were not for the fact that we were to meet Gettysburg at the Chocolate Bowl in Hershey, tickets for the game can be bought at the ticket office in the gymnasium. Upon presentation of the student activities card, students may purchase tickets for one dollar instead of three. This reduced price will be offered for this game only.

Best of luck to the football team next week!

Best of luck to the football team next week!

Fall I-M Previews

by Bucky Walters

Monday, September 30 starts another full year of the Intramural athletic program. There are a total of 13 sporting events scheduled throughout the academic year.

DU Wins Pangburn Cup

Last year Delta Upsilon won the Intramural trophy for the 5th time in seven years. In doing this the DU's retire the Dr. Edward W. Pangburn trophy, and won the permanently rotating all-year cup. This is the first time any fraternity has won the Pangburn trophy five times. This season however, the SAE's, LCA, and SX figure to be much stronger than last year. With the DU's retire the Dr. Edward W. Pangburn trophy, and won the permanently rotating all-year cup. This is the first time any fraternity has won the Pangburn trophy five times. This season however, the SAE's, LCA, and SX figure to be much stronger than last year. With the DU's retire the Dr. Edward W. Pangburn trophy, and won the permanently rotating all-year cup. This is the first time any fraternity has won the Pangburn trophy five times.

There seems to be an extra amount of incentive this year among the fraternities. Most of them have been working out every day getting their fraternity teams in shape. The representative and the Bus Blum, supervisor of Intramural Athletics, will decide Wednesday evening which fraternities will comprise the two leagues for soccer and the pairings for tennis. The opening matches for both of the sports will be Monday the 30th.

There will be a separate soccer league for freshmen. The winner of this league will play the fraternity champs to decide the intramural soccer championship.

The final fall sporting event, the cross-country, is tentatively scheduled for November 11. I am sure everyone can look forward to a thrilling intramural program of four sports that are scheduled for this fall.

Get out and support your fraternity and root them on to victory!

BACK AGAIN—Five men who appeared in court on drunkenness charges had a combined record of 614 arrests. One had been arrested 233 times.

Leicester, England — (Canadian Press)—A letter sent from here to Sleaford, Lincolnshire, fifty miles away, arrived one month later—by way of Australia.

During the Civil War 32,345 Union soldiers were held in the Confederate prison at Andersonville, Ga.

The cheerleaders of the 1948-1949 sporting season never lost a game. No matter what the odds were or what the weather was like, the BU Boosters were on the scene in winning form.

In 1915 a vote of the student body resulted in a change of name. "The Orange and Blue" became "The Bucknellian."

Most perfectly historic cliff dwellings in the United States are at Mesa Verde in Colorado—51,023 acres.

Fitzsimmons Chosen The Bison Of The Week

by Bill Bannak

BOB FITZSIMMONS
The Bison of the week is Bob Fitzsimmons, Bucknell's bone crushing fullback from Baltimore's Loyola High School.

Bob, a six foot 190 pound senior, played back the past two years and this year switched to fullback. "It's great," Fitzsimmons said when asked how he liked the switch. If Saturday was any indication, it looks like the change from half to fullback was one of the best moves that could have been made.

While at Loyola High School, Fitzsimmons played football, basketball and ice hockey. Bob was captain in his senior year and made first team, all-Catholic and second team, all-state. At Bucknell "Fitz" is a member of Phi Gamma Delta fraternity where he is pledge trainer.

For the past three years Bob has played varsity football and been a member of the "B" club which he is now president. Enrolled in the college's ROTC program, Bob will enter the service to play ball in the service and, upon discharge, he would like to play professional football, probably as a defensive back. The way "Fitz" has been running it looks like he could go either way and make good.

During the Civil War 32,345 Union soldiers were held in the Confederate prison at Andersonville, Ga.

The cheerleaders of the 1948-1949 sporting season never lost a game. No matter what the odds were or what the weather was like, the BU Boosters were on the scene in winning form.

A FRESHMAN'S VIEW OF BUCKNELL

by Lynn Coffin

"Hi, fresh—what do you think of Bucknell?"

Had I been asked this question on the day of my arrival at Bucknell, I probably would have stammered—"Well, it's great—I guess." Now there's so much that I love about Bucknell that it's hard to even know where to begin in answering this.

I love the Bucknell spirit. Where else in the world can you walk down the sidewalk and be greeted by classmates who smile an encouraging "hi", and by upperclassmen who greet you just as cheerfully with "Square that dink—fresh!" After the latter greeting a voice from the rear of the group starts singing (or should I say yelling?) "Hey, hi!" Again the infectious spirit spreads, and we raise our voices to join in the cheer for our class.

More often feeling like the member of the class of '61, I feel like a Bucknellian. The dinks and signs may show us to be freshmen, but the "helicopter" spirit and the way we feel toward all the professors and upperclassmen, who have helped us adapt to our new homes, help us to feel that we are Bucknellians, and we raise our voices to join in the cheer for our class.

I love the traditions and customs we have here at Bucknell. Yes, like most freshmen women, I felt slightly like a chipmunk the first day that I tried stuffing all the contents of my handbag (comb, lipstick, compact, kleenex, glasses, pencils, paper, schedule cards, and wallet) into my coat pocket, because we know that handbags just aren't carried here.

At first I was awed that the University would trust girls it has never seen before to carry our social honor system. Now, as a Bucknellian, I know that every one of us has to live up to her share of the responsibility in our honor system. This trust. Consequently we all try harder than ever to live up to the regulations.

Co-operation (and I don't mean on tests or homework) is also one of the rewarding aspects of Bucknell life. I'm continually amazed that 15 girls can stop talking during quiet hours so that everyone else can study.

Most freshmen are still wondering where all that money went between registration and classes, and how the upperclassmen can look so non-plussed as they pay the same expenses. No matter how hard we try to hide it, most of us are awed by these "cultured" and "savage" individuals who seem to know it all, and we hope we'll look slightly less confused in several weeks.

We may complain about the April showers that have come to our campus in September, or belligerently accuse our counselors of being as hard on us as our mothers were back home, but deep down we're all proud to be a part of Bucknell—our home away from home.

OH LORD IT'S FALL

by Diane Collins

Oh Lord, it's fall and the battle call of all those Freshman things, shake the upperclassmen as they hear the frightening ring.

Seniors are belligerent and silently wish for imprisonment, or anything to set them free from Freshman naivete.

Juniors, shaking their heads watch 61 with dread. They rent their clothes and tear their hair. To them the future seems bleak and bare.

It's not all bunk. That Sophomore slump as 60 will soon discover. Take your man, head for the hills and keep him undercover.

Oh Lord, the upperclassmen plea on solemnly bended knee. Save Bucknell from this awful fate, Don't let Freshmen matriculate!

Commuters

Commuters may pick up their copies of *The Bucknellian* at the Bookstore. Ask at the desk.

"Backward, turn backward, O time in thy flight—I've thought of a comeback I needed last night."
—P. H. Raymond

OFF THE COFF

... And so, another summer fades away... Snapshots look good, but when that tan fades and peels, summer is gone.

Most of us had summer jobs and there's enough cash left over to finance an escapee or two this fall. After all, football season opens soon.

Have you looked over your fall clothes yet? I know it's still warm, but fall weather is about to freeze us out. Much of the stuff we bought for freshman year may look seedy, especially for those of us who bought it two or three years ago.

In any event, my boss this summer gave me a few good wardrobe tips. As a recent alumnus, he suggests that the best place to get style information is on campus... from the local co-op owner or haberdasher.

Naturally, I argued the point with him—since I write a style column—but he said, "Yes, the boys can get general and national trends from you, but each college and university has its own special likes. For these you can check your local dealer." That makes sense to me.

My boss went on to say that each wardrobe should have at least one good suit; one that is suitable to wear on a date or dinner date. He also suggested that a basic wardrobe should have two weeks supply of regular shirts from 12 to 15 (according to national standards).

He then went on to list a few other necessities: good wool athletic shoes, two sport jackets, chinos, and, of course, a white wool shirt.

The rest I personally filled out in tans and blues, plus a couple of the new broken line checks and stripes in Cambridge Cloth.

He then went on to list a few other necessities: good wool athletic shoes, two sport jackets, chinos, and, of course, a white wool shirt.

He then went on to list a few other necessities: good wool athletic shoes, two sport jackets, chinos, and, of course, a white wool shirt.

R.O.T.C. Issues

by William Meister

As Public Information Officer for Bucknell's R. O. T. C. regiment, it is my pleasure to inaugurate this new column in the *Bucknellian*. This series of articles will serve as a clearing house of information from the Bucknell R. O. T. C. to you, the reader.

Training At Camp

This summer over one hundred Bucknell seniors spent six weeks training at Fort Meade and Camp A. P. Hill. We all spent the better part of a week learning to fire and to qualify with the M-16. This week was highlighted by 3:00 a. m. awakenings, and for some of us, the cooling refreshment of raindrops as we banded away at the targets. The last week was spent in considering the cool of two-man pup tents where, fortunately, only one light rain fell during that period. After concluding practical training with battalion-size maneuvers against "aggressor" elements of the 82nd Airborne Division we returned to Fort Meade. It was a fairly large ship considering that it had a capacity for 1500 troops, 500 passengers and cargo.

First Sailing

On June 12th we sailed out of the Brooklyn Naval Base for Casablanca, Naples, Leghorn and Barcelona. My roommates consisted of two Puerto Ricans, a Philippine, a Panamanian, and an Englishman, so I am sure that you can see it was quite a varied crew. On the ship itself life was quite dull because the crew was not allowed to associate with the passengers and the only entertainment we had consisted of nothing more than one movie each day.

Back at Bucknell we find a number of important changes under the vigorous leadership of our new PMS&T, Colonel Martin. In a month or so, both seniors and juniors will be wearing the "new look" green uniforms. The government is paying \$50 a year towards these uniforms which are priced at only \$109. This means that the uniforms will cost juniors \$9 and seniors \$59.

On another new development seniors find themselves being ranked from Cadet Colonel Toad down to Platoon Sergeant. This system is intended to better utilize the training which seniors have received at summer camp and at the same time reduce the number of unnecessary positions which in the past has resulted in poor discipline.

Casablanca was probably one of the most interesting ports that I stopped at. Even though there was a great deal of French in this North African city our ship had to dock in the Arab section and that was practically all we saw of Casablanca. In their famous Casbah you could buy anything from a bellydancer to bootleg liquor. The Arabs are typical of all the other merchants in the other countries in that if you are interested in buying something, they try to charge you some fantastic price. If you have the time and can finally bring the price down to about one-eighth of the original cost. These people will do almost anything to get that good old dollar in their pocket. I remember one crew member agreed to sell his watch to one of these peasants for 85 dollars. He actually thought he was getting something over on the Arab, but as he found out later he was made the fool. The Arab showed him the 85 dollars and the transaction was completed. When this crew member got back to the ship he opened up what looked like his 85 dollars and found that it was nothing more than a 5 dollar bill wrapped around a wad of toilet paper. I had better explain here that an Arab is pretty clever in that before he makes a complete fool out of you he will show you an article which is the genuine, then when you're not looking he slips it back into his pocket and gives you another article which appears to be the genuine, but as many eventually found out isn't.

After our short stay in Casablanca we docked in Barcelona, Spain. Much to my amazement these people were very friendly to us and many of them went out of their way to make our stay a pleasant one. To all of you young ladies who are thinking of becoming perpetual alcoholics, but find the economy of the states too high for your budget, may I recommend moving to Spain. In talking to an Australian he told me that anyone could live handsomely on only 35 dollars a month. To give you an example of how cheap their economy is, four of us rode around the town in a taxi for three hours, and when we finished it cost us a mere 25 cents a piece.

Next Stop
Our next stop was Naples, Italy where we did not have the opportunity to see much because we were only in dock for four hours. I did have the occasion to visit Pompey which is the ancient city of Nero. Even though this ancient city was completely ruined by the eruption of Mt. Vesuvius, the Italians have done a remarkable job of preservation. Many of the buildings are completely restored and they have recently opened a museum.

After stopping at Istanbul and Izmir, Turkey, for only a few hours, we made our way back to New York for what was to be the end of my trip half-way around the world. For myself it was quite an experience and one I am sure I will remember for many days to come.

European Tour Proves Profitable

by Doug Grigs

Not many individuals are offered the opportunity to go abroad and at the same time get paid for it. However this infrequent opening landed right in the lap of one Doug Grigs. It all happened last Easter when I was able to get an epistle of introduction to Admiral Redfield Mason, who at that time was the foremost head of the Military Sea Transportation Service located at the Brooklyn Naval Base. From then on it was just a matter of obtaining my Seaman's papers from the Coast Guard and going through about five sets of physicals at the Naval Health Bureau. I must say the health center was not the most delightful place I have ever been to considering the fact that within a period of some five days I had to go through a series of some sixteen shots, ranging from the usual tetanus to that ghastly cholera. After all of these fatiguing procedures I was assigned to the U.S.S. General Alexander M. Patch, a ship of some 23,000 tons and which averaged about 22 knots per hour. It was a fairly large ship considering that it had a capacity for 1500 troops, 500 passengers and cargo.

Although I can sit down and give a chronological, connected and logical discussion of my trip, and I will if anyone asks me, that is not the way I remember it. I can show anyone the scrapbook I have and the few rather mediocre pictures I have, but that is all the outside shell of the experience itself.

To begin with, I saw places. That is presumably what everyone goes to Europe for, at least that is what they say. But to me these places weren't just names, they were real and exciting places that I had not heard of ever since I was old enough to understand when my brother brought about her trip. My mother brought back innumerable stories from the summer he spent in Italy and the winter in London. Yet nothing told me really prepared me for the realization that when I got off that particular train in the morning I would be in Rome. Rome! I felt like telling all the people who had ever talked to me about Europe that he had cheated me, and it was all so much better than I had imagined from their pallid descriptions. I didn't have any idea how beautiful the English countryside could be the day we visited the country house called Compton Wynant and sat on the grass in front of it, sketching and then just looking at the hillside

Our final stop before heading for home was in Leghorn, Italy where I was amazed to see that the ship was still in ruins from the War. Our stay wasn't very pleasant because 90 percent of that city is supposedly Communist. An Italian told me that many people turned towards Communism because the United States had been unable to lend the Italian Government money to rebuild the city. Before I knew it the Patch was sailing out of Leghorn for New York.

After a few days in New York we sailed for Bremen, Germany, where we were to stay for three days. Our stay at Germany was hindered by the fact that on our way to Bremen we had to stop at that wonderful Asiatic fu. We were placed in quarantine for four days and had to dock 12 miles out of the city. I remember that I was almost completely destroyed during the war, had almost entirely rebuilt itself. I did manage to talk to a man who was a doctor and gave me the impression that there isn't like being occupied by the United States, not that they don't see if the Champs Elysees still look as wonderful as it did the first time we drove down it through the lights of the night we came to Paris.

Magée Describes Impressions Of European Tour

by Susie Magée

Since I've been back at school many people have asked me many times about my trip to Europe last summer. Usually I have been hurrying in one direction and they have been hurrying in another. I say over my shoulder, "Wonderful!" and hurry on. I'm sure these people all shake their heads and think to themselves why does everyone who has been to Europe always look so ecstatic when someone asks them how it was? And as I walk away, my mind goes rushing back to those things that made the trip "wonderful."

Although I can sit down and give a chronological, connected and logical discussion of my trip, and I will if anyone asks me, that is not the way I remember it. I can show anyone the scrapbook I have and the few rather mediocre pictures I have, but that is all the outside shell of the experience itself.

To begin with, I saw places. That is presumably what everyone goes to Europe for, at least that is what they say. But to me these places weren't just names, they were real and exciting places that I had not heard of ever since I was old enough to understand when my brother brought about her trip. My mother brought back innumerable stories from the summer he spent in Italy and the winter in London. DISNEY'S DELIGHTFUL BAMBI RETURNS TO CAMPUS THEATRE THIS WEEK-END

by Lee Wentzel

Filled with enchantment and featuring some of the merriest cartoon characters ever to come out of the Disney studio, "Bambi" returns to the screen, bringing with it all its original magic, drama, and spectacular scenes.

This production crosses the screen of the Campus Theatre this Friday and Saturday making glorious fun out of the theory that girls, rather than men, take the initiative in courtship. This theory is propounded in one of the most widely hilarious loveable sequences Disney has ever created. The famous scene in which three beautiful male animals, Bambi, Thumper the rabbit and Flower the skunk, who have proclaimed that they are immune to love, meet their female counterparts. They are thoroughly fascinated with the greatest of ease. In their words, they become absolutely "twitter-pated".

A wonderful host of new animals are re-introduced, ranging in personality from the matronly Queen of the Meadow to the bluster-voiced Owl. The latter is the one same voice in a forest gone wild with spring romance. All goes well until Max and his magnificent interrupt the silent mood.

The story of "Bambi" is filled with love, hate, romance, jealousy, fear, happiness, and drama. It is a picture that you've never too old to see—don't miss it.

DR. PAUL G. STOLZ DIES LAST MONDAY

Dr. Paul G. Stolz, professor emeritus of music at Bucknell and a prominent Lewisburg businessman, died Monday morning at Geisinger Memorial Hospital where he had been admitted a short time earlier with a heart condition.

Dr. Stolz retired from Bucknell's faculty in 1949 after a teaching career of 43 years. After his retirement, he became associated with Royal Imprints and served as chairman of the board of directors.

From Bucknell he received his diploma in music in 1906, a bachelor of arts degree in 1908, and a master of arts degree in 1912. In 1908 he became director of the school of music at Bucknell.

In addition to his teaching, Dr. Stolz also directed many choral groups in nearby communities. He headed the Susquehanna Valley Music Club for several years and was the donor of Paul Jordan Stolz Prize in music.

He was married to Louise Grafflin, who died in 1930, and later to Lulu E. Coe, who survives. Also surviving is one son, Donald; one daughter, Mrs. Paul Benson; four grandsons, and one granddaughter.

to this requirement so long as they do not establish legal residence in Pennsylvania.

In order to obtain Pennsylvania Registration Plates it is necessary to pay the Pennsylvania Use Tax of 3% on the value of the car. Exceptions are made for transfer of registration from states which reciprocate a Use Tax Exemption. Among others, Connecticut and the District of Columbia reciprocate. New York and New Jersey do not.

Students Study In Scandinavia

Last week 55 American students met outside Copenhagen to evaluate their first community stay of one month in Danish and Swedish non-English-speaking families. As one student said, "I did not know one could learn so much about America by living in a Swedish community."

Another commented, "I wish my friends back home could hear me talk with the Danes in their own language, and this after only one month!"

These graduate and undergraduate American students, from 45 different colleges and universities and 23 different states, are members of the 1957-58 Scandinavian Seminars.

Each student accepted to the Seminars pays approximately 75% of the actual cost of board, room and tuition for a year in Scandinavia.

The balance is made up by subsidies from the respective Scandinavian governments. Therefore, the student's fee for living and learning in Scandinavia for one academic year is only \$900.

Forty percent of the Seminar students are spending their year in the Seminars' "Junior-Year-Around" Program. Another 40% are college graduates in the Seminars' Graduate Program. The rest are teachers, professors and people with an interest in education.

The Seminars offer to all their students comprehensive programs in a Scandinavian language, literature and culture, with individual study opportunities in adult education, art, crafts and design, agriculture, physical education, history, and the social sciences.

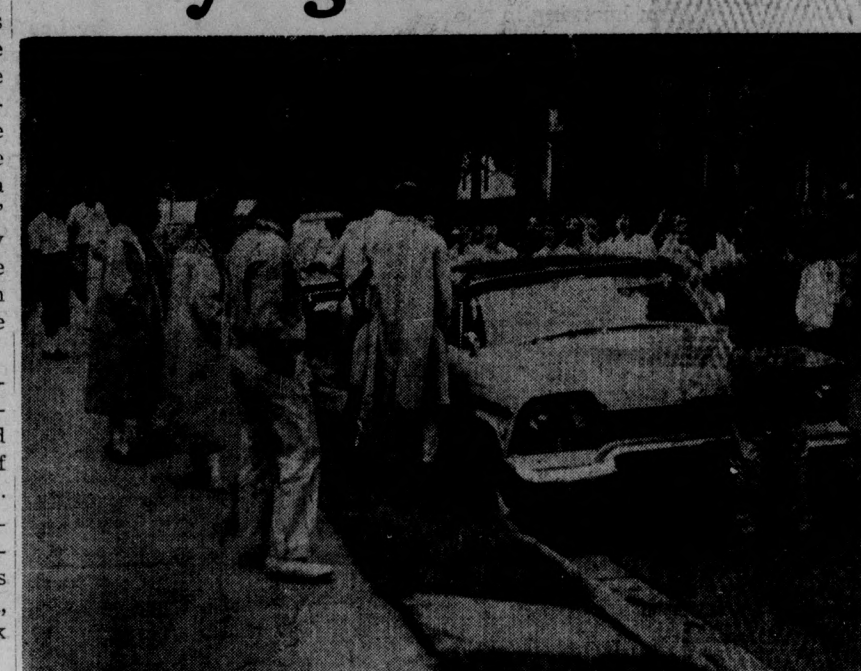

Mr. Nielsen, the Seminars' Director, points out that the principal value of the Seminar program lies in its experimental approach to person-centered, liberal-arts education in an international setting.

The Scandinavian Seminar's New York office at 127 E. 73rd Street, New York 21, N. Y., is now receiving applications for the academic year 1958-59.

Main College was originally designed by Thomas U. Walter, architect of the dome and wings of the Capitol at Washington, D. C.

The word "meander," which means a winding, non-direct course, comes from the winding Mendocino River in Turkey.

Laryngitis Invades Freshman Class

Upperclassmen encourage vocal activity from freshman girls.

Exams Scheduled For Grad School

The Graduate Record Examinations, required of applicants for admission to a number of graduate schools, will be administered at examination centers throughout the country four times in the coming year. Educational Testing Service has announced. During 1957-58 more than 12,000 students took the GRE in partial fulfillment of admission requirements of graduate schools which prescribed it.

This fall candidates may take the GRE on Saturday, November 16. In 1958, the dates are January 18, April 26, and July 12. ETS advises each applicant to inquire of the graduate school of his choice which of the examinations he should take and on which dates. Applicants for graduate school fellowships should ordinarily take the designated examinations in the fall administration.

The GRE tests offered in these nationwide programs include a test of general scholastic ability and advanced level tests of achievement in sixteen different subject matter fields. According to ETS, candidates are permitted to take the Aptitude Test and/or one of the Advanced Tests.

A Bulletin of Information, (in which an application is inserted) provides details of registration and administration as well as sample questions, and may be obtained from college advisers or directly from Educational Testing Service, 20 Nassau Street, Princeton, New Jersey.

Would any Bucknellian who knows of people who might be interested in placing an advertisement in the 1958 *L'Agenda* please contact Bob Wright at the D. U. house or Peyton McDonald at the L. C. A. house.

The *L'Agenda* would like to get as many ads as possible from people interested in this year's graduating class. With your help we can have the best yearbook possible.

... **Magazine Sponsors College Competition**

The *Mademoiselle* College Board Contest is now open to undergraduate women enrolled at an accredited college who are under twenty-six years of age. The contest may be entered under any of four categories: editing and writing, fashion and merchandising, art and photography, or advertising and promotion.

A choice of projects for entry is offered under each category. Possible projects include: critical analysis of the August issue of *Mademoiselle*, designing a wardrobe for a Christmas vacation for a co-ed from your school, outlining a store campaign to attract young customers, or designing a photographic layout for a feature article on your college or some fashion gadget.

Guest Editorships on the *Mademoiselle* staff, spending a salaried month in New York, transportation paid, working on the 1958 college issue.

All college Board entries must be in by November 30. Students interested in the contest or in reporting news of Bucknell to *Mademoiselle* should contact Dean Stevenson for further details.

... **Women Choose Representatives**

W. S. G. A. conducted elections for hall representatives to the House of Representatives last Monday night. Except for a few groups who have not held an election, the results are as follows:

Ground Hunt, Cynthia Blunt; first Hunt, Nannette Tranter; second Hunt, Janet Herrmann, Barb Fitz, and Norma Coyle; third Hunt, Peggy Hollinshead, Jeanne Anderson, and Jeanne Thomas; fourth Hunt, Willie Rilling, Diane Smith, and Dale Collins. In Harris the representatives are Babs Fuess and Gail Galbraith; first: Bonnie Steele and Jane Reuning; second: Carol Pope and Jane Dahl, third.

The freshman representatives are Sally Fackler and Linda Hardy; Carver, Carol Gutekunst and Ann Campbell, Edwards; Carol Bate-man, Doris Bryson and Marsha O'Banning; second Larson: Judy Webber, Jan Laird, and Connie Meadows; third Larson: Betsy Manning, fourth Larson: Roberta Wells, first Cottage; Sasch Panko, second Cottage; and Jan Simons and Jan Nidride, third Cottage. The presidents of the small houses represent their groups.

... And then sing the second and third verses of the Alma Mater.

CHURCH FELLOWSHIPS

The youth fellowships have been planning meetings, extending a cordial welcome to the freshmen and upperclassmen.

Pastor George Bowers, Lutheran fellowship, will speak on the topic, "What Lutherans Believe," September 29, at 6:30 in the Lutheran parish.

Activities of the Baptist fellowship begin with dinner at 5:15, followed by a program at 6:15. This Sunday the fellowship has scheduled a picnic, with cars leaving from the church at 4:45 and 5 p. m.

The chaplain from the federal penitentiary will speak on "We and the Institution" at the Methodist fellowship. The program, beginning at 5 p. m., will include half an hour of recreation, a dinner, and a discussion led by the chaplain.

Hill Society met Sunday evening in the Visual Arts Auditorium, where a movie was shown followed by a discussion concerning the film and problems which confront freshmen. Plans were made to provide transportation to the synagogue for the Jewish New Year services today and to the Day of Atonement Service eight days later. Another purpose of the meeting was to arrange means by which Jewish students would be able to hold their own Friday night services.

The next meeting of the Presbyterian fellowship will be held at 6 o'clock with supper being served. A discussion will be conducted concerning questions raised by Dr. Ebersole's talk last Sunday. A joint retreat with the Methodist students is planned for October 6 at Cowan.

Whooooo Is Temple??

VOLUME LX

Foundation Donates New Coleman Hall- Classroom Building

Construction of Coleman Hall, Bucknell's new classroom building, is scheduled to begin shortly. The structure, exceeded in size only by Davis Gymnasium, is made possible by a grant from the F. W. Olin Foundation, Inc. which announced in June a gift of \$1,475,000.

The structure will provide 35 classroom units and 45 academic offices for the departments of economics, education, history, philosophy, political science, psychology, religion, and sociology. It will be air-conditioned throughout, and provision will be made for later installation of classroom television.

Three stories high, the building will incorporate many new features in classroom construction and design and will include, on its first floor, an attractive gallery and lobby for art exhibits. Among its classroom units will be 2 amphitheater-type lecture halls, one of them tiered for motion picture projection, and 10 seminar rooms, three of them with kitchenette facilities.

Plans include Little Theater. Its Little Theater, which may be used also as a lecture hall, will include a stagehouse, wagon stage, dressing rooms, workshop, and costume and property storage facilities. It will seat 300 on its main floor and 200 in the balcony.

The building will also provide special facilities, among them a constant temperature small-animal room for the department of psychology.

Ground-breaking Ceremony. The University will break ground Saturday morning, October 12, at 11 o'clock. Participating in the ceremony will be trustees, faculty, and students. Featured are Dr. Charles L. Horn of Minneapolis, president of the Olin Foundation, and Dr. William Coleman, vice president of the University for whom the building will be named.

The builders, Ritter Brothers, Inc., of Harrisburg, will start construction of Coleman Hall promptly after the ground-breaking ceremony, with completion scheduled for November, 1958.

... **Westfield Pastor To Give Address**

Rev. Frederick E. Christian, pastor of the Westfield Presbyterian Church in New Jersey, has been designated as the chapel speaker for October 3.

Rev. Christian, a native of England and the son of national missionary parents, received his secondary education in Cleveland, Ohio. While pursuing a higher education, he earned both a B. A. degree and a D. D. degree from the College of Wooster, B. Th. degree from Princeton Seminary, and M. A. degree from Princeton; and also he completed further graduate work at The Lutheran Theological Seminary at Gettysburg, Pa.

In Rev. Christian's 23 years of active religious life, he held pastorates in Presbyterian Churches in Pennsylvania and Ohio. During his pastorate in Ohio, Rev. Christian was a frequent speaker at Ohio State convocations; he was also prominent in the leadership of the Presbyterian Church in the Synod of Ohio.

A former vice president of the Columbus Council of Churches, Rev. Christian is currently a member of the Board of Trustees of Princeton Theological Seminary. His most playing piano together since they were six, when they first met as students in New York's Juilliard School of Music. Ferrant was born in New York City, the son of a violinist who formerly played in the Capitol Theater orchestra under "Roxy" Teicher, born in Wilkes-Barre, Pennsylvania, moved to New York at five and a half, his family having brought him chiefly with a view of his entering the Juilliard Institute of Musical Art. During their school days Arthur and Louis studied with the same teachers, and later were graduated from the Juilliard School as piano majors under Carl Friedberg. After a brief period of concertizing, they returned to Juilliard as faculty members, teaching theory and composition. During the next few years they combined teaching with a limited schedule of concerts, and worked together creating new duo-piano material. In 1947 they resigned from teaching in order to devote full time to concert work. They then began a career of transcriptions, recordings, radio, and television appearances.

... **University To Offer Shots For Asian Flu**

Bucknell University plans to provide Asian flu "shots" free of charge for all of her students and employees, who desire them, according to John C. Hayward, dean of student affairs.

An order has been placed for sufficient vaccine to provide inoculation for the entire campus community of students, teachers, and staff, but it will probably be some time until the vaccine can be obtained.

... **CHEERLEADING SQUAD ADDS FIVE MEMBERS**

The Bucknell cheering squad has accepted five new faces on the squad are Sue Bradley, Betsy Horton, new members to increase its total membership to twelve. Gayle Meyers, Jack Feick and Jim LaRue. Second row: Peggy Smith, Claire Halline, Kurt Gerrish, Sue Braun, and Jane Elam.

Betsy Horton, an elementary education major from Fairfield, Connecticut, is the C. A. representative for second Bucknell Cottage. Betsy has been a cheerleader for the past two years acting as captain of the squad her senior year. She was secretary of the student council and played varsity hockey.

Sue Bradley of Madison, New Jersey, is working for an A. B. degree. Sue was co-captain of the high school cheering squad, president of the Girls' Athletic Association in high school, and participated in varsity hockey and basketball. Her home on campus is Levi's Isle.

Jack Feick is a civil engineer from West Yonk, New York. Jack played varsity football and track, and was a member of the glee club, band and the varsity staff. On campus Jack belongs to the Pershing Rifles and is interested in intramural soccer.

A new junior to the squad is Gayle Meyers, a mathematics major from Montclair, New Jersey. Gayle, a Tri Delta member, participates in the modern dance club, WVBU and the Booster Club. She is experienced in cheerleading from high school.

Jim LaRue, a junior from Boyles-town, Pennsylvania, is a new member to the squad this fall. Jim is active in the C. A., men's glee club, and is on the junior class council. Jim, a member of Delta Upsilon, is a pre-ministerial major.

Sue Braun from Swarthmore, Pennsylvania, is a sophomore on the squad majoring in French. Sue is interested in modern dance and synchronized swimming and is a member of Kappa Delta.

Beginning his second year on the squad is John Yerkes from Villanova, Pennsylvania. John is tentatively an A. B. major and is planning to swim for Bucknell this fall.

Kurt Gerrish, a sophomore from Old Greenwich, Connecticut, is a member of Sigma Alpha Epsilon fraternity majoring in commerce and finance.

Marty Taylor, an English and sociology major from Summit, New Jersey, has been on the squad for (Continued on page 8)

EDITORIALS

... Three Cheers To S.F.C.

Imagine this—I went to an organized S. F. C. bull session with pessimism and came home with optimism. Many good suggestions were actually formulated; many differences were straightened out. As would be expected, some time was wasted in vague theories and more in repetition, but even more was directed toward constructive ideas.

Proceeding dinner, the entire group (S. F. C. officers, M. S. A. council and judiciary board, W. S. G. A. senate and honor council, and fraternity and sorority presidents) discussed the problem of two many non-functioning organizations on campus. There are at least 120 registered "clubs" on campus, many having little more than officers, some not even that much. S. F. C. is planning to reorganize the system by strengthening, combining, and/or eliminating most of the groups. A yearly evaluation by the club itself and then by S. F. C. seemed to be the best suggestion. Other ideas were constitution, faculty or administrative adviser, and minimum number of members and meetings.

Selected for the first topic of the afternoon session was election procedure. After the faux pas last spring, it is obvious that some changes and clarifications are needed. Elected nominating committees were generally approved by the group. Also considered were campaign speeches, limited signs, and a published list of candidates with their qualifications. Other suggestions included devoting a chapel period to the elections and having more of the elections on the same day. It is hoped that the best officers will be selected when the election and campaigning procedures are more organized.

The last discussion—faculty-student relationships, tended toward vague theorizing, because of its non-concrete nature. Although some programs were discussed—faculty firesides, fraternity-professor relationships in a non-chaperone capacity, and a student-faculty play day, it was generally agreed that the problem is an individual one, solved only when both sides attempt to overcome a basic shyness.

Much credit for the success of the conference is due to S. F. C. for the careful program planning. Now it is up to them to develop these ideas. And it is also up to the students to support their S. F. C.

... Free Cuts To All Students

With pen in hand we once again send out a plea that something be done about the non-existence of a cut system in this university. Formed last spring was a committee in connection with the Bucknell Self-Study program, but as yet nothing has been done except notify the members of their membership. No meeting!

We, the Bucknellian staff, advocate a system of unlimited cuts for all students. If a student is not mature enough to realize when he should attend class, he is not mature enough to be in college. If a professor is not good enough to get class attendance without the threat of cut penalties, he is not good enough to be teaching.

Service Announces

Law School Tests

The Law School Admission Test, required of applicants for admission to a number of leading American law schools, will be given at more than 100 centers throughout the United States on the mornings of November 9, 1957, February 15, April 19, and August 2, 1958. During 1956-57 over 12,000 applicants took this test, and their scores were sent to over 100 law schools.

A candidate must make separate application for admission to each law school of his choice. The Bulletin of each of these schools will contain information regarding the entrance, candidates for admission to next year's classes are advised ordinarily to take either the November or the February test, if possible.

The Law School Admission Test, prepared and administered by Educational Testing Service, features objective questions measuring verbal aptitudes and reasoning ability rather than acquired information. It cannot be "crammed" for. Sample questions and information regarding registration for and administration of the test are given in a Bulletin of Information.

The Bulletin (in which an application for the test is inserted) should be obtained four to six weeks in advance of the desired testing date from Law School Admission Test, Educational Testing Service, 20 Nassau Street, Princeton, New Jersey. Completed applications must be received at least two weeks before the desired testing date in order to allow ETS time to complete the necessary testing arrangements for each candidate.

LITTLE MAN ON CAMPUS

by Dick Bibler

"THIS IS THE MOST IMPORTANT CLASS YOU'LL BE TAKING—SO I'LL EXPECT A LITTLE EXTRA WORK FROM YOU THIS TERM."

Arthur Ferrante, Louis Teicher Achieve Unusual Sound Effects

Music-lovers who have doubted that pianos could produce the astonishing sound effects heard in the recordings and broadcasts of Arthur Ferrante and Louis Teicher will have an opportunity to hear these artists in person Friday night when they present a duo-piano recital in Davis Gymnasium.

"The modern piano has many resources which are never used in ordinary performance," said Mr. Ferrante in a recent interview. "It is not only a collection of eighty-eight notes produced by hammers on strings. It is also a complex resonating mass of wood and metal which can be stimulated in various ways. The strings can be plucked, tapped or strummed. The sounding board is a sensitive drum. If one wants to use all the orchestral colors of which the instrument is capable, there are many ways of playing the piano without even touching the keys."

"Naturally we play on the keys most of the time," added Mr. Teicher, "though we don't confine ourselves to them. We have a lot of fun devising gimmicks for producing new sounds with the pianos; but we don't have a whole battery of auxiliary string and metal instruments, as some people have insisted who have only heard our recordings. Most of our discoveries can be made with the piano itself. We have found that the old harpichord makers started with their combinations of quill and leather pickers, stops for octaves and other effects."

"If you would like to experiment for yourself," continued Mr. Ferrante, "just try the following: Put up the top of a grand piano, press down the right-hand pedal, and clap your hands above the strings. You may be surprised at the shimmering tone that comes from the strings. Then, with pedal still down, sing a note or two into the piano. This is the effect of a principle well known to musicians in India. There the esraj, sarangi and other instruments may have ten to fifteen sympathetic strings which are tuned but never touched in performance. They build up harmonic resonance for those strings which are bowed or plucked, and even a small instrument played in a small room will awaken echoes as if from a cavern or an echoing space out of doors."

"With the piano you may also discuss many beautiful percussion sounds. Don't think of percussion as just crash, bang, bump! For example, try bouncing the rubber end of a long lead on the strings. Then do it again, holding the pedal down. The sounds will be dainty and clear. Or have some one hold down the pedal while you hit the sound board from underneath with the heel of your hand. What an iridescent boom! This can be increased to a roar or hushed to a murmur. Back to the strings, you can pluck them as a mandolin or guitar, or stroke them lightly with your finger tips or a soft brush. Don't forget that the piano still contains its ancestors—harp, lute, dulcimer, zither, clavichord, harpsichord—at least in many elements. From tiny clicks to gongs and bells or singing melody, the piano contains a whole museum of sound."

"I have mentioned only a few experiments which anyone can try easily. In our recitals we may not use any of these specific effects, but we often prepare the pianos with devices which enable us to introduce a refreshing variety of orchestral tone colors. These are especially effective in some arrangements of modern compositions."

Although Mr. Ferrante and Mr. Teicher are constantly experimenting with new ideas (Ferrante is a writer of science fiction), they make it clear that they are primarily interested not in novel effects but in good music. They are now engaged in recording almost the entire duo-piano literature for Westminster Records, from the classics to the present. In most of their work one may expect no trick effects—just excellent piano music played with intelligence and feeling. Their Westminster release "Sound-Proof" utilizes their many years of research in sound experimentation with new sounds. "Sound-Proof," has received praise from all leading record critics and major publications. Time magazine, in its review of the album, "Ferrante and Teicher are master technicians and men of taste; the performances in 'Sound-Proof' are honed and polished to perfection." (Time magazine, August 27, 1956).

The INFORMANT

by Ira Podnos

The northern part of West Virginia is a desolate country characterized by a vast nakedness and lack of natural beauty. She is composed almost entirely of small mountains, or large hills, pockmarked by man's desire to exploit her natural resources. The land that was once inhabited by the majestic spruce and scenic fir has given away to the vast strip mine and coal pit; and along the muddy Ohio the many industries directly dependent upon coal and coal products illuminate the sky with a false sulphurous glare. And as the men in greasy suits and blackened flesh take their turns at stealing from the bowels of the earth, the pits belch forth their poisonous fumes which seep through the air contaminating the countryside. And as the mines are laid naked and are no longer able to answer to man's wants, they are left to decay. And as the mines decay, so do the communities which were dependent on them. And as the communities decay, so does the standard of living decay and wither.

But in the northern part of West Virginia there stands a town that has been neither scarred nor defaced. The water in Buffalo Creek is limpid and cool and circles the town as if to protect it from the outside world. Farms instead of mines are visible on the horizon, and the gentle rise of a cow or neigh of a horse echoes through the air. In the town of Bethany stands a college of the same name. Bethany College is situated upon a hill and is resplendent in her Gothic architecture. She is a small college, and her student body boasts of an enrollment of five hundred students, both men and women. And all Bethanians are proud of their town which consists of a general store, post office, and bakery. Bethany is a small college. Frequently in the past the Bethanians refer to one-half of the block as up-town Bethany and to the other half as down-town Bethany. But the important thing to remember about the college is that she has never been one of the more highly popular universities of higher learning. She has achieved neither the reputation nor following of Bucknell University and other colleges and universities on the same academic level, and she has never taken a stand that was likely to revolutionize the principles of education throughout the country. At long last, Bethany College has taken a stand in the matter of education and learning that will earn her the envy and goodwill of all institutions professing to uphold the principles of education.

Few of us, if any, have not read "Huckleberry Finn" by Mark Twain. We have enjoyed the novel, I am quite sure, either because we have enjoyed the story or/and because we realize it to be one of the finest achievements of American literature. Yet the Board of Education in New York City has insisted that all elementary and junior high schools drop the book from use. And why has the New York City Board of Education taken such a stand? Presumably because of racial overtones in the book. The point of controversy in Huck Finn is the nickname of a Negro character, Jim, who in the final analysis is elevated to a position of nobility. But students beginning school to read Mark Twain's "Huckleberry Finn" as part of their English course. A professor of American literature at Bethany called the book "trash" and said that he required all his students to read the novel if they had not done so previously.

Congratulations Bethany for upholding the fine tradition of American literature and for strengthening the very foundation upon which the principles of education are based! Congratulations for being able to discern good literature from anti-Negro trash! Congratulations for making your protest so loud and stand so firm! But most of all, thank you for revealing the danger that exists when an educational group is concerned more with racial overtones than with fine art.

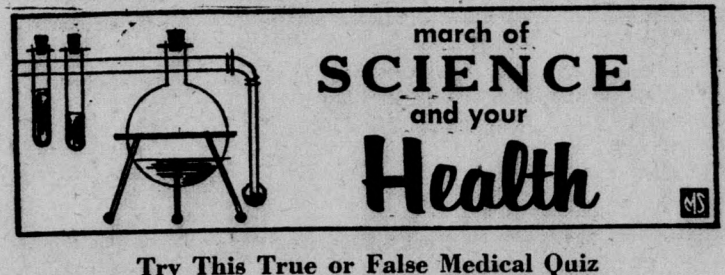

Chemistry Teachers

Honor Ralph Struck

Teachers in the chemistry department at Bucknell University held a super Thursday evening at the home of Dr. and Mrs. Lester Kieft in honor of Ralph Struck, a former employee of the department.

Mr. Struck retired this summer after 27 years of service at Bucknell University. During most of this time, he was connected with the chemistry department as a stock room clerk. Mr. Struck was presented with a gift from the members of the chemistry faculty in appreciation of his faithful service over the years.

READ The Bucknellian

Try This True or False Medical Quiz

1. The hustle and bustle of American business has given the United States the highest mortality rate from peptic ulcers. — True
False: In a United Nations World Health Organization report, 20 countries from 1951 to 1955, the United States ranked 14th. Top on the list were Japan, England and Scotland.

2. Peptic ulcers are more common among men than women. — True
Current rate is about 4 to 1, but as the disease is increasing more rapidly among women than men. According to recent conservative estimates, about half-a-million people in the U. S. have ulcers of the digestive system in active form.

3. Denmark was used with phenomenal success in Sweden, Norway, Italy and Canada before the U. S. only through a physician's Education and Welfare statistics. — True
Highest incidence is in Wyoming, New York and California rates. According to Department of Health, Education and Welfare statistics, highest incidence is in Wyoming, New York and California rates.

4. Most ulcer sufferers are in the fourth and seventh, respectively. — False
Most ulcer sufferers are in the fourth and seventh, respectively.

5. False: Studies of peptic ulcer incidence among various occupational groups show a high incidence among painters and decorators, sports and entertainment figures, doctors and farmers as well as business executives. Low

6. The use of antacids, such as alkalis, like baking soda, is known to irritate ulcers. — False
Baking soda may give quick relief to ulcer symptoms and pain, but immediate relief from acid will not cure the ulcer.

7. The new peptic ulcer treatment, Exul, which is healing peptic ulcers in less than 30 days, is America's latest contribution to scientific medicine. — False
Exul was developed in Denmark and was used with phenomenal success in Sweden, Norway, Italy and Canada before the U. S. only through a physician's Education and Welfare statistics.

8. People who don't have to worry where the next meal is coming from, such as those in the Armed Forces, rarely suffer from peptic ulcers. — False
About 1 civilian in 10 in the U. S. has definite ulcer symptoms. Among soldiers, it's even more frequent. In World War II, the military hospitals found peptic ulcers second only to battle fatigue as a major medical problem.

University Issues Student Awards, Greek Trophies

As of September 25, 1957, thirteen undergraduate awards and four trophies have been awarded by Bucknell.

The Professor William T. Grier Prize was awarded to Carolyn Wood, and the Professor George Morris Phillips Prize, to Patricia Shapoe. The Samuel Lewis Ziegler Prize to the freshman women examinations in English at the beginning of the year show the greatest proficiency in the elements of English composition was awarded to Janet Powers. The Ziegler Prize to the member of the Junior Class who showed the greatest proficiency in English composition and literature was awarded to Leigh Magee, and Esther Angus received the Ziegler Prize for the best examination in French conversation.

The Bucknell Prize for Women awarded to the woman of the sophomore class showing greatest proficiency in English composition and literature was awarded to Nancy Honer and Esther Angus. Lorraine Wasserman won the Bucknell Prize for making the greatest advance in English composition and literature during her freshman year.

The Pi Mu Epsilon Scholarship Fraternity Prize was awarded to Charlotte Jones; the Allan Gates Hall Prize, to Lydia Hoffman; the Tau Beta Pi Award to Robert Howell and George Shannon; and the National Defense Transportation Association Award to Alanzo Toal.

The Pannhellenic Scholarship Cup was awarded to Kappa Kappa Gamma for achieving the highest academic average for the year 1956-57, and the Sigma Chi Foundation Scholarship Award was presented to Phi Lambda Theta for earning the highest scholarship average for the second semester of the year 1956-57. Delta Upsilon received both the Intramural All-Year Trophy and the Dr. Edward W. Pangburn Trophy for earning the highest number of points in intramural sports.

DR. KIEFT TO HEAD SCHOOL SCIENCE FAIR

Appointment of Dr. Lester Kieft, professor of chemistry at Bucknell as chairman of the Third Annual Susquehanna Valley Science Fair to be held at Bucknell in April was announced last Saturday. Dr. Karl D. Hartzell, dean of the University, announced the appointment after the West Branch Manufacturers Association voted to act once again as co-sponsor of the Fair open to high school students in 12 central Pennsylvania counties.

Serving as co-chairman with Dr. Kieft will be Captain H. F. Eckberg, director of engineering at Bucknell, who was chairman of the highly successful Fair which last year attracted entries from nearly 300 students in 27 high schools.

An advisory committee composed of secondary school teachers from each of the 12 counties in the area will be named shortly to assist in formulating plans for the Fair, according to Dr. Kieft.

Decision of the manufacturers to sponsor a third annual fair will provide added impetus in planning for this year's event, expected to be the largest since the project was initiated by Bucknell in 1956.

Ralph R. Crammer, Williamsport publisher who heads the manufacturers' group, in a message to University officials, said that members of the West Branch Manufacturers Association will be happy to again have a part in presenting the Fair since it has proved a potent force in stimulating interest in the sciences.

"Certainly the pursuit of the sciences is a real challenge to our youth," said Mr. Crammer, "and we feel that even above the place that youth will take in the industrial world, there is greater height for the possible service they can do for their country."

The West Branch Manufacturers Association has the distinction of being the first such group in the country to sponsor a Science Fair.

Music Group Elects Ann Blake President

Mu Phi Epsilon, national professional music society for women, announces this year's officers. Of the twelve elected, Ann Blake is president and Adele Irving is vice president. Recording secretary and treasurer are Nancy Mosher and Carole Faust, respectively.

Initiates are selected on the basis of a cumulative average of 1.8, musicianship, and faculty recommendation. Last May, eight new members were added to this honorary. They are: Phyllis Gersbach, Edith Cameron, Suzanne Reed, Rachel Robbins, Nancy Rogers, Louise Johnson, Betsy Hoover and Janice Bunting.

Mu Phi Epsilon has made plans for the coming academic year. This month there will be a tea for the freshman women eligible for membership. In November, MPE will participate in the Founder's Day Program with alumnae and patrons. The Christmas holidays will be celebrated at the apartment of Miss Darina Turby, faculty advisor. Also, MPE will usher all musical programs this year.

Meetings are to be held on the first and third Fridays of every month at noon.

—Drive Carefully—
Drink and Driving Don't Mix!

according to Marshall L. Laird, the Association's secretary, who checked with both the National Science Fair headquarters and the National Association of Manufacturers before claiming a "first" for his organization.

Students in high schools in the following counties will be invited to submit entries in the 1958 Fair: Bradford, Clinton, Columbia, Juniata, Luzerne, Lycoming, Montour, Northumberland, Snyder, Sullivan, Tioga and Union. In Clinton County, the competing schools will be limited to those in Lock Haven, Mill Hall, Renovo, and Woolrich.

LITTLE MAN ON CAMPUS

"THE HOUSEMOTHER THINKS IT'S NICE OF YOU BOYS TO TAKE AN INTEREST IN OUR YACHT."

German Teachers Students Participate To Confer Here In Washington Study

Bucknell University will host to the central Pennsylvania chapter of the American Association of Teachers of German on October 26, when that group will hold its annual fall meeting on the campus.

Dr. Alof F. Frantz, chairman of the department of German at Bucknell, is completing arrangements for the program which will review the status of German in Pennsylvania's high schools.

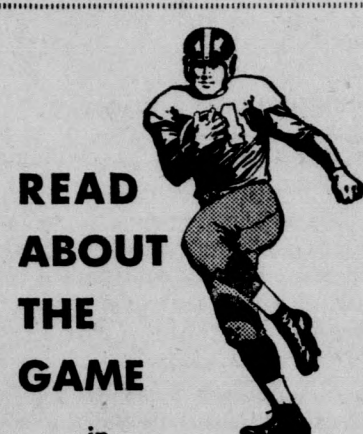

CIVIL SERVICE OPENS NEW EXAM PROGRAM

The U. S. Civil Service Commission has revised and reissued the announcement of the currently open examination for engineers. This new announcement incorporates examinations for the various specialized branches of engineering which were formerly published under separate announcements. The engineering positions to be filled are in various fields of work and pay from \$4,480 to \$11,610 a year. They are located in various Federal agencies in Washington, D. C., throughout the United States, and in foreign countries.

To qualify for these positions, applicants must show appropriate education or experience in engineering. A written test for certain positions is required of applicants who do not meet the requirements for a degree in engineering. Applications will be accepted from students who expect to complete the required study within nine months.

For further information, including instructions on where to send applications, consult civil service examination announcement No. 1112B. Information on examinations and application forms may be obtained from most post offices or from the U. S. Civil Service Commission, Washington 25, D. C.

The Little Lounge may be like Grand Central, but Bucknellians can sleep anywhere.

TEN STUDENTS STUDY IN COLLEGES ABROAD; INFORMATION LISTED

Ten students, enrolled in four various European universities, are representing Bucknell in the "Study Abroad" Plan. This plan is highly recommended for a student, preferably in his junior year, who would like to broaden his cultural and intellectual background by attending school on another continent.

The Bucknellians now studying in Europe are: Kay Sheets, Ernest E. Wainwright, Jr., Wendell Phillips, Jr., Gail Friday, Elizabeth Delwick, Exeter University, England; Joy Stichweh and George Callahan—Edinburgh University, Scotland; Joseph Kopf, Jr. and Wm. P. Johnson—St. Andrews, England; and Wilma Bauer—Heidelberg, Germany.

Some suggested steps for those interested in studying abroad their Junior Year are:

1. Determine which country you wish to go (must have adequate language facility for the country chosen). Must be able to carry class work in the language.

2. Select your general field of study.

3. Consult with your faculty adviser and Dean Hartzell's office for approval (1.5 average required; 2.00 recommended).

4. Write directly to the University to which you desire admittance. Do not apply to more than three. Indicate that you wish to be an "occasional student," that is, not working for a degree. Follow their instructions.

5. In case of an organized Junior Year Abroad, such as that of Sweetbrier, write to the American College concerned. This plan is excellent, especially in a non-English speaking University, and does not add to the cost.

6. Send to the University letters of recommendation from your professors and the Dean of the University.

7. With the counsel of your Bucknell faculty adviser, plan a tentative program of studies abroad. You should plan your Bucknell program so that most of the courses taken abroad may be elective.

8. Make your own transportation arrangements; secure your own passport.

Note: Mr. Brown, 107 Carnegie Building, is prepared to answer general questions of procedure. Approval comes from the office of the Dean of the University.

Resource material: In Bertrand Library. Study Abroad, UNESCO Publication.

Universities of the World, Outside of the USA, Chambers (Reserve). Educational Systems of the World, Sanett (Reserve).

In Christian Association Office: Study Abroad, UNESCO Publication. Handbook on International Study, Institute of International Education. Higher Education in the United Kingdom, The British Council.

Brochures on Universities of most of European countries, for reference of American students. Special folders from the IIE. For Personal reference: England—Dean Hartzell, Audrey Walker, Prof. George Theodoroff. France—Dr. Gladys Cook. Germany—Dr. A. I. Frantz, Dr. Albert Blume, Miss Tordis Sopp-Schrad. Italy—Dr. Orrock, Dr. Harold Miller.

Spain—Senorita Gonzalez. Mexico and Latin America—Senorita Gonzalez, Prof. Sprague. Russia—Prof. John G. Drozin. Middle East—John C. Barber, Anna Shulte.

India—Prof. Frank Ahmaz. Southeast Asia—Dr. Roy C. Tasker, Chare Charuratatanak. The IIE, 1 E. 67 St., N. Y. 21, N. Y., is the official agency in the States for the American Telephone and Telegraph Company, Jan. 15; George Hammond, president of Carl Boyer and Associates, Inc., Feb. 12; Walter H. Johnson, Jr., vice president of American Airlines, Inc., March 19; and Nicholas Kelley, president of the American Arbitration Association.

Meeting place of next five sessions will be announced shortly, according to Neil F. Shiffer, assistant professor of economics at Bucknell who is director of the Forum.

"Count that day lost whose low despatching men Views from thy hand no worthy action done."

Drink and Driving Don't Mix!

HERD UNDERDOGS AGAINST THE TEMPLE OWLS

by Stratton White

The Owls of Temple University will come hooting into Lewisburg this Saturday seeking an old shoe from Bucknell. This is a very special Old Shoe that is awarded to the winner of a football game between the two schools. Bucknell, one of the oldest rivals on the Temple schedule, has monopolized the possession of the ancient trophy in recent years.

The shoe has been walking on the friendly 300 acres for six of the last seven years. The last time the shoe was on Temple turf was in 1953. Despite Bucknell's success in recent battles, Temple still maintains a 13-10-7 lead in the series. The seven deadlocks, four of them scoreless, emphasize how evenly matched the teams have usually been.

Temple Line Averages 210

Coach Pete Stevens' Owls will be opening their season against Bucknell who defeated Temple last year at Temple, 12-6. Temple has a big, tough line that averages approximately 210 pounds. The expected starting team for Temple is as follows: at the end posts will be Dave Diehl, 6-1, 175 pounds and Bob Schoen, 6-2, 180 pounds. At the tackle dots are two very big and rough boys in Matt Dobrowski, 6-0, 230 lbs. and Paul Kulinski, 6-2, 232 lbs. At the guard positions, Ed Shirk, 6-1, 205 lbs. and Chuck Panella, 6-0, 196 lbs. will add strength to Temple's beefy forward wall. The middle man of the Owl's line is a fellow by the name of Holloway, a 6-2, 220 lb. center. Temple's line is one of the biggest we will face this year. The average height of the line is 6-1, and their weight is 205 lbs. Most of the squad are juniors and seniors who are experienced ball players.

Temple Starting Backfield

The probable starting backfield is Jed Lankitis at quarterback, 6-0, 175 lbs. The halfbacks are Tony D-Santis, a 5-9, 185 lb. scabbard and 6-1, 185 lb. Jimmy Thompson. At fullback is the very powerful running Jack Charters, a 6-0, 190 lb. bone-crusher.

G-Burg More Experienced

About the BU-Gettysburg game last Saturday night? There is not much that I can say except that the Bullets were a bigger, older and a more experienced ball club. It is only fair to take into consideration that Bucknell is not playing with its most experienced ballplayers, due to injuries. The loss of Red Holmes and Lew Hart has hurt us. The sophomore boys, who have been filling in, have done very well. Bucknell held Gettysburg scoreless for three quarters until the age, size, and experience of the G-burg team took its toll. The average age of the starting team for the Bullets was 22 years, and seven of the eleven were seniors. Six sophomores played most of the game for the Bisons. They were Brady, Claycomb, Hetteche, Mathias, Negrón and Selinger. They did a commendable job and deserve a great deal of praise. Incidentally, only two of them are over 18 years of age. These boys are learning their football the hard way, but there will come a day when they shall enjoy the sweet smell of success.

POOL SCHEDULE

Monday — Recreational swimming for men 7-9 p. m.
Tuesday — Bucknell family. All ages welcome—7-9 p. m.
High school students and adults only—8-9 p. m.
No outside guests permitted.
Wednesday — Women's Synchronized Swimming—7-9 p. m.
Thursday — Recreational swimming for women—7-9 p. m.
Friday — Co-educational swimming—7-9 p. m.

Is it strange that one should live forever? But isn't it even stranger that one should live at all? One is no more a miracle than the other.

A corker is a fellow who bottles up sunshine for a rainy day. We need lots more of them.

A polished person is one who does not cast reflections on others.

A day's rest saves some 12,000 heartbeats.

Three states use gas for executions—without first putting it in automobiles.

It is impossible to give kindness away. It always returns with interest.

A man may question his wife's judgment, but never her choice of a mct.

BISON'S TROUNCED BY GETTYSBURG 19-0

Last Saturday, despite predictions to the contrary, the Thundering Herd was thoroughly whipped by the Bullets from Gettysburg. Although the Bisons played well during the first half (they did not have the staying power to hold Capinani and company in the second.

by Bucky Walters

Gettysburg College opened its 1991 football season with a 19-0 shutout over the Bucknell Bisons. For the Bisons it was their first defeat of the two week old season. A crowd of over 10,000 fans were on hand to watch the 10th annual Chocolate Bowl game between the arch rivals. This was the 42nd meeting between these two clubs, with the first game dating back to 1893. Bucknell holds the edge with 27 wins.

Fetterman Connects

The first half saw both eleven make four first downs, but neither team could penetrate inside the opponent's 30 yard line. Bucknell's deepest invasion into Gettysburg's territory was the result of a series of pass plays. Passes from Fetterman to Aggar, Brady and Prasenei brought the ball down inside the Bullets' 40.

Women's Hockey Tourney To Be Held Here October 12

Bucknell University has invited Penn State, Dickinson, and Susquehanna University to participate in a field hockey sports day on Saturday, October 12 at 1 p. m. Each of the participating colleges will have one competing team and the games will be played on Loomis Field. Supper will be served afterwards.

LCA Activates Touch Pledges

Last Sunday afternoon, Lambda Chi Alpha fraternity held a pledge-active touch football tilt. The activities walked away from the pledges in the second half, winning 6-0.

HOCKEY SCHEDULE

The following is the schedule for the interclass field hockey games which will be played on Loomis Field from 3:30 to 5:00 p. m.
Monday, Sept. 30 — Freshmen vs. sophomores
Thursday, Oct. 3 — sophomores vs. juniors and seniors
Monday, Oct. 7 — freshmen vs. juniors and seniors
Thursday, Oct. 10 — Fresh Play
Saturday, Oct. 12 — Sports day for those on the team representing Bucknell.

Practices will be held on Tuesday and Wednesday.
Anticipation is simply the magnifying glass of coming events.
Blotters soak up things, but get it all backwards. So do lots of people.
When you find mistakes in the newspapers, don't let it worry you. The editors try to please everybody and they know some people are never happy unless they can find something wrong.

When Cupid hits the mark, he Mrs. It.
The best flings in life are far from free.

By the time people learn to watch their step, they're too old to go anywhere.
It is better to walk in the darkness with God than alone in the light.

The world's shortest sermon is found along most highways: "Keep Right!"

Age and experience finally took their toll lists in the third quarter. After an exchange of punts, Gettysburg started from their 15 yard line and climaxed an 83 yard march with a pitch-out from QB Hickoff to Don Railey, RHB, who ran wide around the end for 43 yards during the third period, kicked the extra point. The score read 7-0 Gettysburg after less than 2 minutes of the fourth period.

Meanan Blocks Punt

Bucknell received its best scoring opportunity when Gene Meanan blocked a punt on the Gettysburg 28. Three BU line plunges brought the ball down to the 22, but the Bisons lost the ball on downs when Davy's pass went incomplete.

Final Score 19-0

The Bullets' final tally came on a short play off the right end from the 1 yard line. LHB Greiner, a fresh replacement scored the third touchdown after running two quick conversions from Gettysburg's tight T formation. Quarterback Stravolo's conversion attempt was blocked by Negrón. Third string QB ran out the clock with 3 successive sneaks to the 26 and 36 yards. He broke into

NO/NO/ TOWLER,
THE FOOTBALL, THE FOOTBALL!

It's difficult to make a heel too the mark.
"I had a fall last night which rendered me unconscious for several hours."
"You don't mean it? Where did you fall?"
"I fell asleep."

"It's the beginning of a dog's life."

SOCCER TEAM LOSES TO PENN

by John Toal

On Saturday the Bucknell soccer team was unable to establish a precedent, for they again went down to defeat at the hands of the Oklahoma of soccer, Penn State. In the last fifteen years the scores have ranged from fourteen to nothing to four to three, with Penn State always victorious.

However, the ten to nothing score of this year's game does not indicate the real tone of play. The score at the end of the first 44 minutes of play was three to nothing, and Penn State was winning five to nothing when the third quarter ended. It was only in the last ten minutes of play, when coach Henry Peters sent into the game a great number of inexperienced reserves to replace his tired starters, that the Nittany Lions pushed across five more goals to make the score appear to be so lopsided.

Top Contenders Meet
Tuesday brought together the DU's and the SAE's; after the final whistle blew, the score stood at 2-2. Duerksen and Poindexter scored for the Demies and Dick Evey booted two for the SAE's. Once again the SAE's battled to tie, this time with the Lambda Chi's. Lauder scored the Sig's lone goal while Schofield tallied for LCA. The final game of the day saw Davis score the single tally with the Phi Lam's edging out SPE, 1-0.

Leading Scorers
After two days of play the leading scorers in the two leagues are: Evey and Simpkins, SAE, 2 apiece; Duerksen and Poindexter, DU, 2 apiece.

Team SAE
SAE 1 0 1
DU 1 0 1

S.A.E., D.U. Leading I.-M. Soccer Race

by Bucky Walters

The Fall Intramural program started Monday with a full schedule of soccer games and tennis matches.

SAE's and DU's Win
Defending champions Delta Upsilon drew a bye in the first round of the tennis tournament, while their soccer team scored a 3-0 shutout over the KDR's. Bioren, Duerksen and Poindexter scored for the DU's. PLT and SX's battled to a scoreless tie while the SAE's overwhelmed the SPE's 4 to 1. Dents and Hill scored once while Simpkins tallied twice to give the SAE's their first victory of the young season. These three games made up the only action of the day, taking place on Davis Gym fields.

Top Contenders Meet
Tuesday brought together the DU's and the SAE's; after the final whistle blew, the score stood at 2-2. Duerksen and Poindexter scored for the Demies and Dick Evey booted two for the SAE's. Once again the SAE's battled to tie, this time with the Lambda Chi's. Lauder scored the Sig's lone goal while Schofield tallied for LCA. The final game of the day saw Davis score the single tally with the Phi Lam's edging out SPE, 1-0.

Leading Scorers
After two days of play the leading scorers in the two leagues are: Evey and Simpkins, SAE, 2 apiece; Duerksen and Poindexter, DU, 2 apiece.

An Affair To Remember

by Leo Wentzel

"An Affair To Remember," the Cinemascope film in DeLuxe color, starring Cary Grant and Deborah Kerr, opens this Monday and continues through Wednesday at the Campus Theatre, with pink champagne used as a symbol of a way of life. The picture is rather like pink champagne, too. Luxurious and worldly, tasteful and gay, it radiates a luminosity certain to excite the emotions and senses of audiences everywhere.

The Twentieth Century-Fox release is a deftly-told romantic comedy of two sophisticated people—a playboy who collects the world's richest women and a beautiful night club singer whose boy friend has been in the habit of lavishing everything on her but a wedding ring. They meet aboard the luxury liner, S. S. Constitution, bound for New York by way of the French Riviera, and are immediately attracted to each other. How, in their efforts not to be spotted together for fear their prospective mates will hear about it, they become involved in one hilarious situation after another.

As the handsome bachelor, Cary Grant, the screen's acknowledged master of light comedy, is perfectly cast. He is bright, witty, tender and evokes emotion—all major contributions to this film. Deborah Kerr, as the night club singer, is an excellent foil for his antics. The two make a new screen team which is most appealing and well worth seeing more of in the future. Miss Kerr's role also affords her the opportunity to sing several songs, the most commercial of which is the title song, which Vic Damone chants under the main titles. Reminiscent of her "King and I" role, Miss Kerr also leads a group of wonderful kids in a novelty number which is sheer joy to watch.

Although comedy is the basic ingredient of "An Affair to Remember," it is also a beautiful love story with one of the most compelling and tender endings yet seen on the screen.

To sum up "An Affair to Remember," we can say it's appropriately titled for it is bright, sentimental, and above all, entertaining.

1960 Tribunal Fails To Uphold Ideals And Traditions Of B.U.

by Diane Collins

Our Freshmen Rules Committee, popularly titled "Tribunal," has the authority to discipline freshmen offenders in any way it sees fit, considering the highest ideals and traditions of the University. However, the 1960 Tribunal has failed to maintain these standards.

What is an offense? This answer can be found in the Student Handbook. To refresh the memory of the reader, they are briefly:

1. Freshmen must wear name signs and dinks for three weeks.
2. Freshmen are not permitted to cut campus or use certain "sacred" paths.
3. Freshmen men must wear black ties.
4. Freshmen are to learn all the songs and cheers in the Student Handbook and are to sing and cheer for upperclassmen except at designated times and places.
5. The "Hill Spins" must be carried on by the freshmen.
6. Freshmen are not permitted to wear letters and insignias from other schools.

These requirements are well-defined and cannot be questioned on grounds of ambiguity. It is equally evident from this, that Tribunal's purpose is to promote freshmen class spirit and to acquaint the freshmen and upperclassmen with each other.

No where in these requirements, or in the purpose of the freshmen class spirit and to acquaint the freshmen and upperclassmen with each other, can one find a single word condoning questions of a personal nature directed towards offenders. Criticisms and remarks concerning a person's manner of dressing are not only tactless, but are also a dangerous element to the "highest ideals and traditions of the University" as stated in the Handbook. Furthermore, questions demanded of freshmen, such as, "Are you a lady?" are more than that of order in the "serious fun" atmosphere prevalent in Tribunal.

Freshmen, or anyone else, are not obliged upon entrance to Bucknell to conform to a stereotyped image of a college student; they are only to adjust to this image. The difference is great.

A University should employ all its institutions to protect the rights of the individual. The grossly sarcastic-mockery of the "button-downed and hind-belted" towards dissimilar students is neither mature nor admirable.

The incidents, which took place during the first Tribunal of this year, have a much more universal significance, namely that of conformity versus individualism. We cannot hope to answer that question.

SLIGHTLY PERSONAL

by Kathy Crossett & Suzie Van Pelt

Wedding Bells—Pete Hunter, PGD and Mary Thurn.

Congratulations To: Ted DuPuy, SC and Barbara Dunning.

PKP and Carol Andrews; Sandy Kest and Brad Hedges, Alpha Delta Phi, Dartmouth.

OUT TO DINNER:

Delta Upsilon—Toni Schaefer and Marcia Smith.

Kappa Delta Rho—Judy Sullivan, Joan Hendrickson, and Dick Siemens.

Kappa Sigma—Nan Christian, Peggy Faulk, Barbara Briggs, Sue Bowman, Debbie Davis, Janice Shipman, Peggy Hollinshead, Linda Rice, Gina Benton, Sandy Quaye.

Lambda Chi Alpha—Mr. and Mrs. Hollister and children, Char Gentry, Francis Beighly, and Ann Geluso.

Phi Kappa Psi—Mr. and Mrs. Neely, Gay Outerson, Jane Sutherland, Bobbi Nagle, John Beatty, '37 and Steve Eckio.

Sigma Lambda Theta—Mrs. Ann Long, Carol McMahon, Peggy Agar, Steve Neuville, Barbara Fitz and Georgia Rice.

Sigma Alpha Epsilon—Miss Wilson, Sandy MacWatt, Carol Burrows, Nancy Jane Brown and Nan Van Ghan.

Sigma Alpha Mu—Leonard Walker, Ira Morse, Vic Parker, and Joel Bickel.

Sigma Chi—John Cornwall.

Tau Kappa Epsilon—Pat Shapiro and Don Meyer, '37.

RECENTLY PLEDGED:

Kappa Delta Rho—Gordon Ackerman.

Tau Kappa Epsilon—Pat Lonigan.

RECENTLY ACTIVATED:

Kappa Sigma—Randy Ellis, Pete Fritts, Joe Vincent, Jerry Ackerman, Bob Aymar, Sam Barlowe, Bill Briggs, Jim Brubaker, Don Clopp, Bart Catier, Denny Cox, John Gambel, Mike Gassaway, Clint Gilkey.

"Bitter Ends" except to remind you that this is your show and that the person "Behind The Mike" is your announcer playing your records with your dedications, so why don't you tune in every night at 11:00 in order to study or sleep to your music on the "Bitter Ends" on WBUB—640 on your dial?

BEHIND THE MIKE

by Jenny and Joel

There we were sitting in Chef's pondering the problem of what to include in the next *Behind The Mike* column, when we decided to start with your "Bitter Ends." The reason for that is obvious; since this is your paper and your radio station, the best place to start is with your show. This is your show, you know, because from 11-1:00 every night, or as long as the requests come in, we play your songs with your dedications. Upperclassmen will even remember the times when we've remained on the air all night long! So we began to write furiously—

First we thought we'd better let you know who spins the platters for you on the "Bitter Ends." Every Sunday, Gordie Blum is your emcee. We reminded ourselves that he is our Engineering Director and responsible for the people who put all the shows over the air. Following our Chief Engineer, we find Roger Nieman at the controls on Monday nights. We thought we'd give you some facts about Roger, but then decided that you probably already know Roger as the Station Manager of WBUB and as a Bitter Ender for four years on Monday nights. On Tuesday nights Joel has the "Bitter Ends," and among his other duties at WBUB, my writing partner is the supervisor of the Educational Series. Ed Sahill comes on the scene Wednesday nights. This is Ed's first "Bitter Ends" program, but he has had programs for the last six semesters on WBUB. On Thursday we feature Ted Gronlund, who last year ran the "Mad Dad" show. Ted certainly has lots of new ideas for introduction to his records.

As our hands grew tired, we arrived at the conclusion that there was very little else to say about the

We can only take care of our own small Bucknellian world.

Therefore, it will not be hard for us, in the future, to be more tactful and indulgent of other's idiosyncrasies. Further, we should continue with a keen sense of propriety to manifest the highest standards of Bucknell.

PROF-FILE: EDWARD B. PARTRIDGE

by Beverly Swingle

Edward B. Partridge is one of the newest members of our faculty. He received his Bachelor's degree from Hobart College, his Master's degree from the University of Rochester, his Ph.D. at Columbia University, and he also studied at Harvard University. He has taught at Hobart, Columbia, Rochester and most recently at Cornell.

Dr. Partridge likes Bucknell and the small town life of Lewisburg where everyone knows everyone else's business. In comparing students at both colleges life is similar, but you find a greater number of brilliant students at Cornell.

Dr. Partridge has one criticism of Bucknell. He feels that men students should be the ones tied down by rules because the average male student is less intelligent, more immature than the average female student. He thinks that the women students could adjust to college life without having to adhere to so many rules.

Favoring neither the Democratic nor the Republican parties, he belongs to the Liberal party. He has three children, ages seven, four and fourteen months. He is very interested in sports and intends to support the Bucknell teams.

Activities shrouded in silence always are subject to suspicion; no matter how pure their motives.

When she has a temper she can't control, a woman usually has a man she can.

PASS IN REVIEW

by William Melstire

Last Friday, Bucknell R. O. T. C. regiment was really reborn with the integration of the many freshmen into their companies. This process was handled very capably by the cadet staff and particularly by the cadet company commanders and their executive officers. Colonel Martin was particularly pleased with the enthusiastic spirit which most of the freshmen showed.

Cub Wyant was busy drilling his regimental band with the assistance of his executive, Bob Harder. Thirty of the men are returning from last year's band, and the other thirty are freshmen, all of whom have had experience in high school bands. It is expected that this year's band will exceed the exceptionally high standards set by last year's group. The band this year will have the benefit of different uniforms, but a specific decision as to what type is pending.

In Vaughan Literature Auditorium Ralph Eckert was busy with his Pershing Rifle Company. This year, in a surprising turnout, 102 freshmen signed up for membership in Pershing Rifles. This large turnout will be reduced only by failure of the individuals concerned to live up to the high requirements of this unit. The unit's new advisor, Lt. Seabrook, is insisting upon the best company. In an attempt to garner more points in the regimental standings, the Bucknell unit will sponsor a rifle team among its members.

The Bucknell Regiment is sponsoring a rifle club open to any member of R. O. T. C. There will be a generous, quick, incentive hospitality offered by all the people in all the countries visited in the Middle East. The people were very pro-American, even in Syria, except for Turkey, disliked John Foster Dulles and the policies of our government. They liked all the Americans they met, finding them franker and easier to talk to than other national groups.

From Ankara the tour proceeded to Aleppo, Syria, where the exciting Middle East begins. This city, the center of our position for the present Syrian government, was under martial law. The group also visited the City of Abraham, the first of many Biblical cities.

Damascus, believed to be the oldest city in the world, and an important political center, was studied for about one week. This oasis town is an interesting combination of extremely old sections and newer parts boasting beautiful, modern architecture. While at Damascus, the students interviewed the Prime Minister of Syria and Hourani, the leader of the Barth party.

Interesting and beautiful architecture was also present in Beirut, Lebanon, the influential seat of the American University of Beirut. Along with people from the Middle East, this university educates Europeans, Americans, and Africans. One of the institutions thoroughly investigated by the study group was "Duke Sam's," a typical American College hang-out specializing in hamburgers and coke.

Coke is everywhere in the Middle East, except in Israel. Other American innovations acclaimed by the people are jazz, rock and roll, blue jeans, farm machinery, automobiles, and Socony kerosene.

From Lebanon the group flew to Cairo where they studied agricultural and social reform programs. At Alexandria they studied land reclamation and reform programs, especially the reclamations and industries in the desert.

The students next flew to Jordan in Old Jerusalem. Here they noticed more armed troops than in any other country. The soldiers carried guns, not in their holsters, but their hands, ready for immediate use.

There is a confusion of religions in Jerusalem as shown by the Church of the Sepulchur in Bethlehem. Worshipers here include the Roman Catholics, Greek Catholics, Armenian Catholics, and Coptic Christians, although the keys of the church are held by a Moslem family. Tension between religious groups is present, but not prominent on the surface.

The members on the tour next proceeded to New Jerusalem on foot. Spending three weeks in Israel, the students visited everything to the Beqah Desert, including the hills of Jerusalem, Tel Aviv, Haifa, Nazareth, and Beesheba. Several days were spent on a kibbutz, a type of communal farm common in Israel. Everyone in the group participated in the work of a fishing

club. The club will continue to be open to all R. O. T. C. members, and they will be welcome to become a member of the team by consistently good team members. This team will not be connected with the Pershing Rifle team.

READ "THE BUCKNELLIAN" STUDENT VOICE OF BUCKNELL

STUDENTS TOUR MIDDLE EAST

by Barb Kraus

Dr. Richard E. DuWors, chairman of the sociology department at Bucknell, and several Bucknell students experienced what is perhaps one of the most unique and rewarding group study tours abroad this past summer.

The American Educational Fund and farming kibbutz called the Kibbutz Ma'agen which translates in English to Mike's Anchor. The trip to study the people and countries of this region. The idea was initiated in 1956 when twelve students availed themselves of the opportunity offered by this organization. There were thirty-four in the group last summer, and next year there will be over one hundred. The cost of the whole excursion was \$1400, but because of a traveling scholarship of \$600, the total cost of the ten-week trip amounted to only \$800 including all expenses.

Along with the Bucknellians, there were students and professors from Dartmouth, Dickinson, Yale, Harvard, the University of Colorado, Hollins, the University of Indiana Medical School, the State of California Medical School, and Los Angeles University. All majors were represented: from English to medicine to law. The able group was carefully selected on the basis of three criteria: scholastic achievement, recommendations, and an interview with Mr. Clifford Daner, the executive director of the fund.

The group visited London; Paris; Thessalonica, Greece; and Belgrade, but the trip really began in Istanbul. Spending a week in Ankara, the students talked with the ex-president of Turkey and foreign office officials, and studied agricultural and industrial programs.

It was in Ankara that the members of the tour first experienced what was the outstanding feature of the whole trip to Dr. DuWors: i.e., the generous, quick, incentive hospitality offered by all the people in all the countries visited in the Middle East. The people were very pro-American, even in Syria, except for Turkey, disliked John Foster Dulles and the policies of our government. They liked all the Americans they met, finding them franker and easier to talk to than other national groups.

From Ankara the tour proceeded to Aleppo, Syria, where the exciting Middle East begins. This city, the center of our position for the present Syrian government, was under martial law. The group also visited the City of Abraham, the first of many Biblical cities.

Damascus, believed to be the oldest city in the world, and an important political center, was studied for about one week. This oasis town is an interesting combination of extremely old sections and newer parts boasting beautiful, modern architecture. While at Damascus, the students interviewed the Prime Minister of Syria and Hourani, the leader of the Barth party.

Interesting and beautiful architecture was also present in Beirut, Lebanon, the influential seat of the American University of Beirut. Along with people from the Middle East, this university educates Europeans, Americans, and Africans. One of the institutions thoroughly investigated by the study group was "Duke Sam's," a typical American College hang-out specializing in hamburgers and coke.

Coke is everywhere in the Middle East, except in Israel. Other American innovations acclaimed by the people are jazz, rock and roll, blue jeans, farm machinery, automobiles, and Socony kerosene.

From Lebanon the group flew to Cairo where they studied agricultural and social reform programs. At Alexandria they studied land reclamation and reform programs, especially the reclamations and industries in the desert.

The students next flew to Jordan in Old Jerusalem. Here they noticed more armed troops than in any other country. The soldiers carried guns, not in their holsters, but their hands, ready for immediate use.

There is a confusion of religions in Jerusalem as shown by the Church of the Sepulchur in Bethlehem. Worshipers here include the Roman Catholics, Greek Catholics, Armenian Catholics, and Coptic Christians, although the keys of the church are held by a Moslem family. Tension between religious groups is present, but not prominent on the surface.

The members on the tour next proceeded to New Jerusalem on foot. Spending three weeks in Israel, the students visited everything to the Beqah Desert, including the hills of Jerusalem, Tel Aviv, Haifa, Nazareth, and Beesheba. Several days were spent on a kibbutz, a type of communal farm common in Israel. Everyone in the group participated in the work of a fishing

club. The club will continue to be open to all R. O. T. C. members, and they will be welcome to become a member of the team by consistently good team members. This team will not be connected with the Pershing Rifle team.

DOWNBEAT

Shirley Ad Lib

Drummer Shelly Manne, in the latest of Don Gold's Cross Section profiles for Down Beat magazine, discloses that he never reads Hollywood columns, that he doesn't drink anything except Pepsi-Cola and Doctor Brown's, and that he likes science fiction stories. In discussing Elvis Presley, Manne declares: "He's honest. I feel he's honest. Most of all, he's a rhythm and blues singer, not a showman. He sings the blues and hillbilly traditions. When he sings it sounds honest to me, not out-and-out affectation."

One pianist salutes another as Marian McPartland writes about Mary Lou Williams in the October 17 issue of Down Beat. Miss McPartland says: "Her playing is warmly self-assured; her approach direct, straight ahead. For me, hers is a purely personal style, which undoubtedly has evolved over the years with the Andy Kirk band and from sitting in with the Count Basie band and Lester Young in Kansas City, and the most important association with Bud Powell and Thelonious Monk."

Drummer Art O'Gear has embarked on a crusade for jazz. Recently, Blakey told Down Beat: "John Tyman, 'I do believe that Americans have not had a chance to learn to appreciate their own music. They haven't been sold on it, and there's a great deal of selling to be done. Let's sell jazz a bit. It's more American than a lot of other things.'"

"But if I could make just one good record." Those are the words of singer Anita O'Gear. She told Down Beat: "George Forsythe recently that she needs the money. I made a million-sale record in 1941, 'Let Me Off Uptown' with Gene Mitchell, Mildred Dunnock, Kevin McCarthy."

March is the salesman who desperately wants to be liked, knowing that his living depends on it, who lacks the integrity to win the admiration he covets.

Jan. 10—Gate of Hell.

A Japanese film in color, it won the Grand Prix Cannes International Film Festival, as well as several special awards.

Jan. 17—Lavender Hill Mob.

Alec Guinness, Sidney James, Alie Bass.

A quiet, trusted supervisor of bullion at the bank demands of appropriating a million pounds in gold bars. He succeeds—how to dispose of the gold is the problem.

Feb. 14—Boris Godunov. (Color).

A Russian documentary film about the life of a 16th Century Czar.

Feb. 28—Battle of the Rails. (Color).

French and German, with English subtitles.

No-realist enhances the suspense, action, and dialogue of Collette Audry in this film featuring the men and women workers of the French railway system after World War II.

March 7—Angelika. (German). (1951). (dubbed in English). Maria Schell, Dieter Borch.

A lonely, fatally stricken girl finds marital happiness with a physician husband secretly "bought" by her rich, doing father. Her eventual cure highlights the story.

March 21—The Medium.

Marie Powers, Lee Coleman, Anna Baidini, Umberto Spadaro.

Gian-Carlo Menotti's brilliant blending of theatre and opera results in a thrilling show dramatically and musically, with the Symphony Orchestra of Rome.

April 4—Angelo. (Italian with English subtitles). Renato Baldini, Umberto Spadaro.

A deeply moving domestic drama centering around the problem of intolerance.

April 18—Letters From My Windmill. (French).

A trilogy of down-to-earth tales about the people of the South of France by Alphonse Daudet, one of France's great storytellers.

May 2—Miracle In Milan. (1952). (Italian with English subtitles). Francesco Golisano, Paolo Stoppa, Emma Gramatica.

Concerning a simple, warm-hearted boy acquires a dove that can work miracles. This is a story of man's inhumanity to man, yet leavened by the positive ideal of human brotherhood.

Nov. 15—Cheaper by the Dozen. Clifton Webb, Jeanne Crain, Myrna Loy.

This amusing and heart-warming comedy of a large family solves its individual and community problems in a democratic manner. The mother had been voted a woman of the year.

Dec. 6—Death of a Salesman. (1951). Frederick March, Cameron

MAJOR NEWS IN BRIEF

Art Exhibit Opens In Bertrand Library

An unusual exhibit of prints made available by the Bertrand Library at Bucknell University and will be on display until October 22.

The exhibit consists of the prints chosen by the Library of Congress for its 15th National Exhibition. Included are etchings, wood blocks, aquatints, serigraphs, and lithographs produced by some of the country's leading artists in the graphic arts.

Mrs. Blanche K. Baughman, librarian in charge of exhibits and archives at Bucknell, terms the exhibit one of the finest artistic collections ever presented in the Library. The public is invited to view the display during the usual Library hours.

The exhibit was made possible by a bequest to the Library of Congress made more than 30 years ago by the late Joseph Pennell who wished to promote the graphic arts in this country. The first National Exhibition of Prints was selected by the Library of Congress in 1943 and has since gained an established place among the significant artistic events in the United States.

The Jury of Admission this year consisted of Richard A. Florsheim of the Contemporary Arts Workshop in Chicago, Ture Bengt of the School of the Museum of Fine Arts in Boston, both distinguished as painters and printmakers, and A. Hyatt Mayor, Curator of Prints at the Metropolitan Museum of Art. From 1,115 entries submitted by 588 artists from 35 states, the District of Columbia, Hawaii, Puerto Rico, Canada, Cuba, and Mexico, the judges selected 148 prints representing a wide variety of stylistic trends, techniques, and sizes. As in previous years, the artist members of the jury were invited to add examples of their own recent work.

Copies of all the prints exhibited are for sale. To aid the prospective buyer, the catalog includes the price of each print and the address of the artist from whom it can be purchased.

Cheerleading Squad

(Continued from Page 1)

three years. Marty is a member of honor council, the cheer club, the Handbook and Bucknellian staffs, and Delta Delta Delta sorority. This year Marty was a counselor at freshmen camp.

Claire Halline, editor of *L'Agenda*, and member of Mortar Board and Senate, which is held at Miss Stevenson's and Miss Bryan's cabin at Old Gap. This get-together offers a chance for fun and relaxation, and is scheduled for Friday, October 11.

Peggy Smith, a senior from Dunellen, New Jersey, is acting as co-captain with Claire. Peggy is an economics major, a member of honor council and president of Delta Delta Delta. She has been a cheerleader for four years.

An additional new member of the squad is Miss Marcia Scarles of the physical education department who will act in an advisory capacity. The Booster Club has donated new cheering sweaters to the squad and plans to provide new skirts for next year. The cheerleaders participate in all football games and hold a rally for the freshmen during orientation week. Portions of the squad cheer at home basketball games.

A sophomore this year, Jane Elam from Wheaton, Maryland, is majoring in biology. She is a Fireside Leader and a member of the Modern Dance group, *Bucknellian* circulation staff, and Kappa Delta sorority.

BUCKNELL STUDENTS EARN SCHOLARSHIPS

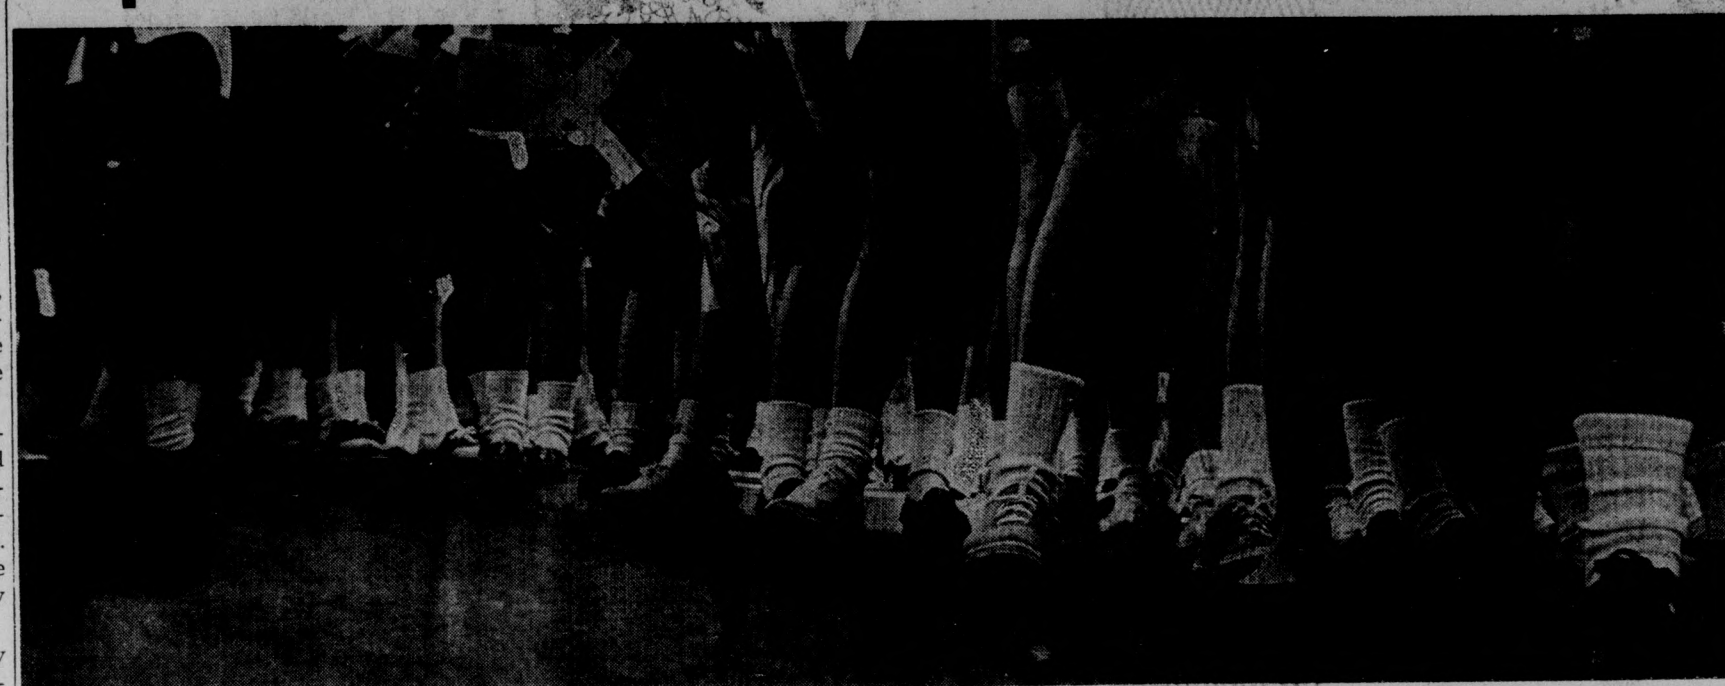

Two engineering students at Bucknell University have been awarded full tuition scholarships by the Union Carbide Corporation as part of that firm's program to encourage engineering careers for highly qualified students.

The scholarships, which provide for tuition, fees, and books for the recipient, plus a grant of \$500 to the University for each student's education, will go to Robert L. Long, a senior electrical engineer from Reno, and George L. Haggerty Jr., a junior mechanical engineer from Tuckerton, N. J.

"A man must consider what a rich realm he abdicates when he becomes a conformist," Emerson.

"Some minds think about things; others think about the things themselves," Schelling.

Sophomores Direct Frosh In Duck Walk

Pictured are some of freshmen girls attempting the "attractive" duck walk. Encouraged in this outing by the sophomore girls, frosh toured the fraternity houses.

POEM CONTEST

The National Poetry Association announces the eleventh annual competition for students attending either junior or senior colleges. There is no limitation as to form or theme, but shorter works are preferred by the Board of Judges, because of the space limitations.

Each poem must be typed or printed on a separate sheet, and must bear the name and home address of the student, as well as the name of the college attended. The closing date for the submission of manuscripts is November 5.

Teachers and librarians are invited to submit poetry manuscripts for consideration for possible inclusion in the *Tenth Annual Teachers Anthology*. The closing date is January 1.

There are no fees or charges for either acceptance or submission of verse in either competition. All work will be judged on merit alone. Manuscripts should be sent to the Offices of the Association, National Poetry Association, 2210 Selby Avenue, Los Angeles 34, California.

WRA Sponsors Old Gap Picnic

Every fall, W. R. A. sponsors a picnic for Mortar Board and Senate, which is held at Miss Stevenson's and Miss Bryan's cabin at Old Gap. This get-together offers a chance for fun and relaxation, and is scheduled for Friday, October 11.

British Studies To Grant Awards

U. S. college students can now apply for next year's Marshall Scholarship awards enabling them to study at a British University for two years. Applications must be in by October 31, 1957.

The Marshall Scholarship scheme was started in 1953 as a token of Britain's thanks for Marshall Aid. Twelve scholarships are awarded every year. Any American student of either sex, married or single, may apply, but they must be under 28 on October 1, 1958 and have graduated from an American university.

Each award is worth 500 pounds (\$1,540) a year. Passage is paid to and from the United Kingdom. Married men get an extra allowance. Successful candidates are chosen for their character as well as scholarly attainments.

Four Regional Committees—the Eastern, Southern, Middle Western and Pacific—consider the applications first and would-be-winners should apply to the British Consul-General in one of the following cities: Chicago (Mid-Western Region); New York (Eastern Region); New Orleans (Southern Region); San Francisco (Pacific Region).

Each Regional Committee includes the Consul-General and four American distinguished in educational or public life. It selects six names from the applications and forwards them to the British Embassy in Washington.

At the Embassy the names are re-examined by a 7-member Advisory Council headed by the British Ambassador. Twelve names are selected—three from each Region—and sent to the United Kingdom for review and approval by a commission of leading British educators and

T. Z. KOO TO LEAD COWAN CONFERENCE

At the first weekend conference at Cowan, October 12 and 13, Dr. T. Z. Koo, recent professor of Oriental Studies at Bucknell, will lead three discussions on various phases of the topic, "The Christian Faith and Confucianism: fulfillment or contradiction?" Dr. Koo, student conference leader, university lecturer, and past secretary of the World Student Christian Federation, is well qualified to lead these discussion groups.

The program is scheduled to begin Saturday afternoon and conclude at noon on Sunday. In addition to the formal discussion periods, there will be recreation, informal talks with Dr. Koo, and Christian fellowship. A reservation fee of \$1.00 to provide for transportation, meals, and linen will be necessary for those planning to attend the conference. Reservations can be made by contacting Doty Boice, Box W-A, Dave Welsh, Box 778, or the Christian Association office.

businessmen set up to administer the Trust. Lord Coleraine is chairman of the commission.

Names of the winners are announced in Washington each April for the following October.

READ "The Bucknellian"

Articles By Manning Appear In Journals

A South American walnut now under cultivation in Central America may eventually provide a new nut crop for that portion of the world, according to Dr. Wayne E. Manning, professor of botany at Bucknell University.

In a recent issue of *Brittonia*, publication of the American Society of Plant Taxonomists, Dr. Manning published the first record of a Bolivian walnut from Peru which is now growing in Costa Rica. *Brittonia* is published at the New York Botanical Gardens and is one of the leading journals of its kind in the country.

A second article by Dr. Manning, describing all of the native species of walnuts that occur in Mexico and Central America, has been published in the *Journal of the Arnold Arboretum* at Harvard University.

The article, which includes descriptions of one species, two varieties, and one form new to science, was based in part on studies made by Dr. Manning during his trip to Mexico in 1953 under the sponsorship of the American Philosophical Society.

Clutz Selected Resident Artist First Semester

William A. Clutz of New York City, noted young American painter, has been selected to serve as artist-in-residence for the current semester at Bucknell. He will take the place of Bruce Mitchell, the University's artist-in-residence for the past ten years, who has been granted a leave of absence to teach at University of Pittsburgh.

In the art world, Mr. Clutz has won many prizes for his paintings and drawings and is represented in several important collections. Last year one of his drawings was chosen by the Museum of Modern Art for its exhibit, "Recent Drawings—USA."

A native of Gettysburg, he studied at Morningside Academy and Philadelphia Museum School before enrolling at University of Iowa.

At Bucknell Mr. Clutz will use Mr. Mitchell's studio on the top floor of the Music and Arts Building, where students will be welcome to consult with him.

PANHELLENIC TALK

Mrs. Gerald Arnold, who is associated with the National Panhellenic Council, will speak to the sorority women next Tuesday evening at 7 p. m. in Hunt Recreation Room. Her topic will be "The Panhellenic Spirit in Rushing."

In addition to the talk to the sorority women, Mrs. Arnold will address the campus Panhellenic Council, discussing "The Values and Purposes of a College Panhellenic."

Parade, Luncheon, Football Featured In Alumni Program

It will be B. U. vs. B. U. at Bucknell University, October 19, when the Bison play host to Boston University in a football game that will highlight the annual Homecoming festivities on the campus.

In addition to the gridiron contest, at least four other major events have been planned to entertain the thousands of alumni expected for the traditional fall celebration, according to Alumni Secretary John Short.

These include a colorful Homecoming parade, Saturday morning an alumni luncheon at noon, an informal reception known as the "Bison Round-Up" after the game, and an all-campus dance and entertainment Saturday evening.

Students are now engaged in the selection of a Homecoming Queen, who will be crowned at half-time ceremonies on the football field. The Queen and her court will ride on a gaily-decorated float in the Homecoming Parade and will also be presented at the dance Saturday night.

Five visiting high school bands will add color and sound to the parade in which campus fraternities and sororities will vie for prizes to be offered by local merchants, who will also offer awards for the best marching units.

High school bands in the line of march will include those from Lewisburg, Anville, Camp Hill, Danville, and Mechanicsburg, according to Allen W. Flock, director of the Bison Band, whose 80 members will also participate.

Engineering alumni will hold their annual dinner at the Lewisburg Club Saturday evening and then will join their fellow Bucknellians and their guests for the dance and entertainment. Music for dancing will be provided by Mel Arter's orchestra and entertainment will include a fraternity sing and other student numbers.

Attention Seniors!

Dr. Koo To Lead Cowan Weekend

Dr. T. Z. Koo, well-known former professor of Oriental Studies at Bucknell, will lead the first weekend conference at Cowan this Saturday and Sunday. The main topic for the program will be "The Christian Faith and Confucianism: fulfillment or contradiction?" an exploration of the wisdom of the East.

The program is scheduled to start Saturday afternoon, with students leaving for the conference center from the Carnegie Building at 1:30 p. m., and conclude the next day, with the students returning for dinner Sunday. There will be a series of three hour-long discussions with Dr. Koo, and also time for recreation, informal talks, and Christian fellowship.

Sunday night, Dr. Koo will speak at 8 p. m. in Spots Auditorium on the subject, "Students Lead the Way in International Cooperation."

Dr. Koo was educated in China and began as a Director of the Chinese National Railways. For many years he was Far Eastern Secretary for the World's Student Christian Federation, visiting universities in the United States, Europe, and South America.

CAP AND DAGGER TO PRESENT 'THE BIRDS' MODERN VERSION OF GREEK COMEDY

"The Birds," Cap and Dagger's first production for the 1957-58 season, will be presented at the Lewisburg High School auditorium November 7-8.

This play is a very modern adaptation of Aristophanes' Comedy. The only similarity that "The Birds" has to the Greek plays most of us are familiar with is that in both cases the main characters are gods and goddesses. This is where the similarity begins and ends. There are a great deal of extremes in the play, for the costumes range from a Medieval herald's outfit to a brief sexy costume worn by Iris, Zeus's daughter, as she flies onto the stage. As one person aptly phrased it, "This play is interspersed with Bronx cheers."

To give an idea of the type of dialogue that is spoken in the play, here are a few lines spoken between Iris, a goddess with all the culture of a small-time Brooklyn telephone operator, and Pithetrates, Iris's just as that she has an errand to perform.

Pithetrates—"Where are you going? What errand?"
Iris—"Zeus sent me. I'm supposed to go down to earth and persuade him to sacrifice an ox. Zeus wants a little heady smoke coming up. Helps his sinus."

The comedy of this play lies in the quick retorts that comprise most of the dialogue, and the few lines that are quoted above are just a small part of the comedy to be found in "The Birds."

Some of those people behind the scenes are: production manager, Richard Tennant; production secretary, Jane Scheiffele; construction, Clifford Smith; scenery painting and publicity, Lynette Wilson; costumes, Doris Volger and Carol Metcalf; props, Margaret Kuhn; lights, Donald King; stage crew, Jane Higgenbottom; make-up, Nancy Wehle; designer, George Hershey, and lighting designer, Mark Peterson.

The results of tryouts for "The Birds" have been announced. The cast is Bruce Hutchinson, Pithetrates; Ron Clemens, Eubolus; Rod Roediger, Epops; Sally Archibald, Progne; Mary Anne Bunker, Iris; Charles Hill, Trochilus; Marvin Kahan, Poet; Ted Vincent, Priest Bird; Dennis de Brandt, Real Estate Man; Lester Greenburg, Inspector; Bruce Milton, Lawyer; Steve Smith, First Messenger; Al Foster, Second Messenger; Paul Crawley, Herald; Bob Groth, Prometheus; Stan Sabarsky, Hevulus; Lester Greenburg, Barbarian; Jim Berger and Charles Beares, Rope Swingers; and Mike Gavin, Chorus Leader.

The chorus is composed of Marty Laning, Judy Geiwitz, Ellen Headley, Jo Scheidler, Carolyn Klinger, Linda Avitable, Adelle Irving, Bob Brodrick, Dave Baird, Ted Vincent, Charles Hill, and Mike Gavin. Dorothy Wilson, assistant professor of music, is the musical director.

Pratt, Whitney To Display Jet

A full model exhibit of a J-57 Turbojet engine will be on display in front of the Engineering Building today through the courtesy of the Pratt and Whitney Aircraft Corporation of Hartford, Connecticut.

The exhibit, which is displayed on a specially built trailer, will also include a sectioned model of the Pratt and Whitney Willgoos Turbine Laboratory for high altitude testing and research. The trailer will be open between the hours of 10:00 a. m. and 8:00 p. m., and a member of the Pratt and Whitney engineering staff will be available to answer any questions.

Dig That Ceremony

NUMBER 4

Ground-Breaking For Coleman Hall

Pictured above is the architect's drawing of Coleman Hall, the new classroom building scheduled to be finished November, 1958.

The Bucknellian Needs Help!

Anyone who would like to write, type, draw cartoons, or read proof, come down to the Bucknellian office at 223 Market Street on Tuesday or Wednesday afternoon. No experience is necessary—just interest!

Mexican Study Plan Announced

American students will have a chance to study in Mexico during the academic year beginning March 1, 1958, on the Mexican Government Scholarship Program. It was announced by Kenneth Holland, President of the Institute of International Education. Competition for these awards will close November 1.

Preference in granting these awards is given to graduate students who will receive 1,250 pesos monthly and tuition at the National University. Junior and senior year college students are eligible for undergraduate scholarships covering 1,185 pesos a month for maintenance plus tuition. Travel to Mexico and funds for incidental expense must be supplied by the grantee.

Eligibility requirements for these foreign study fellowships are U. S. citizenship, knowledge of Spanish, good academic record or professional record if the candidate is not a recent graduate, and good health. Preference is given to candidates under 35 who are single or who do not plan to take their families with them.

Special fields of interest for graduate students at the National University are architecture, including research combined with an assignment in a leading architect, industrial design, and physical anthropology, ethnology and archeology, Mexican history, painting, museography, biological sciences, tropical medicine and cardiology. Candidates for the M. D. degree may receive special training at the National Institute of Cardiology or the Institute of Tropical Medicine. Under

EDITORIALS

... Thank You, Mr. Olin

We have the privilege of attending groundbreaking ceremonies for Coleman Hall Saturday morning at 11. Sophomores—no lit lecture.

Second in size only to Davis Gymnasium, Coleman Hall will house eight departments and contain several special features, including a little theater. An architectural beauty (see cut, page 1) it certainly will be a structure to be proud of. The expansion and improvement shown in Coleman Hall is representative of the forward looking trend prevalent on the campus. The University is not relaxing on its reputation but is striving to better it.

Participating in the ceremony is Dr. William H. Coleman, vice president of the University. In recognition of his service the building is named for him.

Much credit and more thanks should be given to the F. W. Olin Foundation for their \$1,475,000 grant, making the new structure possible. A good way to express our appreciation would be to attend the ground-breaking ceremonies, featuring Dr. Charles L. Horn, president of the Foundation. **Saturday at 11 a. m.**

An Unjust Requirement

All of us know that we must attend forty chapels before we can graduate from this University. However, to require a person to attend religious functions other than his own is contrary to the principles upon which this country was founded.

Universities are usually proud of the fact that they try to be unbiased and tolerant of other people's beliefs. But Bucknell has a long way to go before it can boast that claim.

This school is not composed solely of Protestants. There are many Catholics, Jews, Orientals, atheists, and agnostics here. A Protestant Chapel service is not fulfilling its purpose for them because they do not believe in it. Freedom of religion in all of its aspects is everyone's inalienable right. To impose this is not right.

To deprive someone of his diploma, his key to success, because he did not fulfill an unjust requirement does not speak highly of intelligent people.

We will agree that the Chapel programs offer something that is truly of value, but forcing them down someone's throat offsets the good it was intended to convey.

How many students actually get anything out of chapel? Many sleep, read books, and drool because they have no interest in it. They just make a mockery out of something that is basically fine and decent. By forcing them to attend, the administration wastes its efforts.

By continuing to enforce this regulation the university gains only the contempt of the student body, not their admiration. One should not preach religious tolerance, religious freedom, and the inalienable rights of man in the classrooms and then practice otherwise.

We are not advocating the elimination of chapel; we just do not want to be compelled to attend. The Chapel program is a wonderful institution for those who believe in that type of service, but overall compulsion defeats its purpose.

We think it would benefit everyone if the forty chapel regulation were abolished; however, the chapel program should continue.

—W. S.

Federal Examinations Offered To Juniors

To further improve its position in the competition for talented college people, the Federal Government is opening its Federal-Service Entrance Examination this year to college juniors in addition to seniors, college graduates and others of equivalent experience, the Civil Service Commission announced today.

Also, job appointments, effective after graduation, may be offered the juniors if they pass the examination and their names become available on the lists of eligibles to be established. As in the past, such job offers may also be made to seniors.

The first Federal-Service Entrance Examination to be held since the change is scheduled for November 16, the Commission said. Subsequent examinations will be held in January, February, March, and May.

Of 1955. Applicants will have until October 31 to file for the November 16 written test, which will be given at approximately 1,000 examination points throughout the country.

The examination, first given two years ago, is designed to help fill the Government's yearly need for more young people of college-caliber who can be placed in jobs at the entrance level and who have the potential to develop into the top managers, technicians, and specialists of the future. Positions filled through the examination are in almost every kind of work. During fiscal year 1957, more than 7,500 job appointments in 175 different occupations were made of persons who passed the examination. The Commission estimates that during the next 12 months at least the same number of entrance-level jobs, at salaries ranging from \$3,670 to \$4,925 a year, will be filled from the PSSE list of eligibles.

The Commission emphasized that Government needs for college-caliber people are increasing each year despite any overall reductions in the Federal work force that may occur at any one time. Although turnover in Government comes favorably with that of private industry, its effect on the large work force needed by modern government is such as to require that from 200,000 to 300,000 job appointments be made each year. In addition, the increasing complexity of many of the jobs to be performed is requiring that

Library Exhibits Prize Art Work, Winning Photos

The Bertrand Library is exhibiting the works of the top prize winners of the 13 Annual "News Pictures of the Year" competition. This contest is sponsored by the National Press Photographers' Association and the Encyclopedia Britannica.

The display also includes representative prints from the portfolio of the prize winner of "Magazine Photographers of the Year." This year's "Life" magazine photographer, Grey Villet, captured the high honors.

There is a cross section of 125 prints of the contest's ten different categories. The title of the top print of the sport's category is "Fighter of the Year." It is a shot of a KO'd fighter after the count and the jubilant victor in contrast.

On the second floor of the library there is a Graphic Art exhibit including the finest work in that field in the United States. This collection was sent to Bucknell from the Library of Congress.

Also, there are various works done in wood blocks, linoleum blocks, and many other difficult techniques.

Attention! Notice to all freshman campers—1957. Please fill out your questionnaires and return them in as soon as possible to Barb Pausser, Box W-181.

HONORARY TO GATHER FOR INITIATION DINNER Delta Phi Alpha, the German honor, will hold its annual initiation dinner at Cowan Lodge October 14. Requirements for membership include a minimum of 12 hours of German with at least an 85 average.

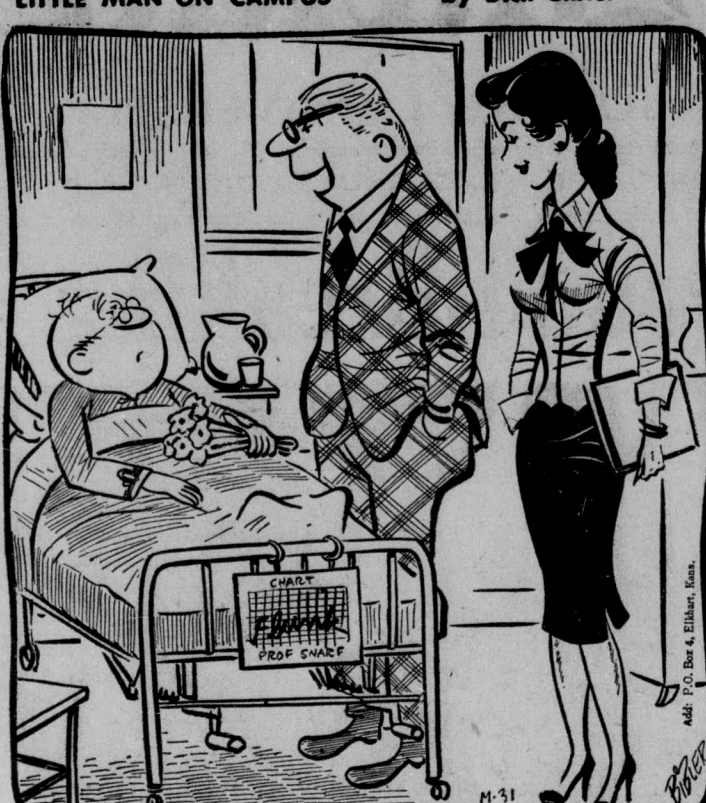

Dr. Adolph Frantz is the group's advisor. Officers for the 1957-1958 year are Peter Hebble, president; John R. Miller, vice president; Joyce Gilmore, secretary; and David Lutz, treasurer.

Sign on a winding highway: "These curves are different; they get more dangerous after you pass 63!"

each year a greater number of them be filled by college-caliber people.

LITTLE MAN ON CAMPUS

by Dick Bibler

"YOUR SUBSTITUTE HERE TELLS ME YOUR STUDENTS ARE QUITE CONCERNED ABOUT YOUR HEALTH—BUT THEY'LL PROBABLY TAKE OF HER!"

Letters to the Editor

Dear Bucknellians:

For four years I have heard each freshman class ridiculed and stifled because they dared to show a bit of class spirit and enthusiasm. As a senior I admire the freshmen that dare to express themselves openly and fearlessly. As a matter of fact, I think it is time we sophisticated upperclassmen attempt to break a few of the bands of listless conformity that pervade our 300 acres.

To give just one example of the attitude of the senior class, that class which should set a precedent for the underclassmen, I might cite the first class meeting of the year. There were exactly 26 people there—23 women and three men. This group represented between four and five hundred students. Unfortunately, this group also represented the enthusiasm and spirit of the senior class.

If this lack of support continues, the outcome is not difficult to predict. Either the class groups will have to be disbanded, as is usually the case when an organization loses its backing, or the faculty will be forced to assume one more responsibility in caring for their Bucknell children.

I wish I could find some definite solution to the problem; but much as I dislike admitting defeat, there is no formula for generating class spirit. My only hope is that our mature seniors will take a good look at themselves with regard to their complete lack of any semblance to enthusiasm. Actually, I feel sorry for my classmates because certainly this blasé attitude must penetrate their whole lives. My wish must be that they should be around!

Sincerely,
Anne Sattler

ON OTHER CAMPUSES

by Chris Petersen

Fourth for Fribee?

Such institutions of higher learning as Syracuse, Lehigh, Lafayette, Muhlenberg and Bucknell have no concern for the Asiatic flu, as they are plagued by Fribeeitis, a much more pleasant epidemic.

Smoke much?

From the Maryland Diamond we find this unusual comparison: "Sophomores want their women to be like cigarettes, slender and trim, all in a row to be selected at will, set aflame, and when the flame has subsided only to select another."

A junior wants his women to be like a cigar. They're more expensive, make a better appearance, and last longer.

A senior wants his girl to be like his pipe... something he becomes attached to, knocks gently but lovingly around, and takes great care of at all times.

A man will give you a cigarette, offer you a cigar, but will never share his pipe.

P. S. Freshmen are too young to smoke."

Revolutionary idea for houseparty?

The Sig Eps of Temple University staged a pre-semester "affair to remember" when they held a party that included a swimming pool filled with BEER! Diving exhibitions were held which included a large group of non-swimmers, and to quote from one slightly wet inebriate, "Boy, what a dive to die."

A re-evaluation of the sem.

It seems that the frush at Lehigh have been subjected to a very able con-man whose business consisted of membership cards to a "non-profit" social club with "all the women you want and all the beer you can drink." This is a case for Richard Diamond, or the Public Defender.

QUICK QUOTES

From Bloomsburg State Teachers College, "Universities are full of knowledge; the freshmen bring a little in, the seniors take none away, and knowledge accumulates."

An advertisement from the George Washington University asks for a "Resident." To answer door evenings for funeral home in return for apt., kitchen, small salary. Couple or two male students.

The question of the week at Albany State Teachers College was "Are you lost?"

Bucknell Librarians To Attend Confab

Harold W. Hayden, librarian at Bedford Library, and five members of his staff will attend the annual conference of the Pennsylvania Library Association at Bedford Springs, Pa., October 16-12. The theme of the conference will be Libraries and Education: Partners in Progress.

Currently serving as vice president of the Association, Mr. Hayden will be installed as its president tomorrow morning. He is also chairman of the conference arrangements and program.

The other members of the Bedford Library staff who will attend the conference are: Miss Mildred H. Bolch, reference librarian; Miss Marie Scheie, catalog librarian; Miss Clara E. Stoner, periodical librarian; Mrs. Vera E. Jensen, assistant periodical librarian; and Mrs. Margaret M. Hayden, assistant in archives and reading room. Miss Bolch and Miss Scheie will assist with registration at the conference.

EXPERIENCED SECRETARY desires typing to do in home. First paid \$25, extra extra pgs. \$45, plus paper. Mail to Mrs. L. Reich-enbach, R. D. 4, Danville or call BR 5-1468.

Drink and Driving Don't Mix!

The INFORMANT

by Ira Podnos

COED OR SAVAGE

In years past it was a woman's privilege to tend and to care for her husband (or paramour). Woman was permitted to darn her husband's socks, prepare his meals, clean his house, and bear his children. And all this woman did willingly, lovingly, tenderly. But woman was more than an incubator, more than a housekeeper; she was courage, sophistication, rational thought. But alas! Rather than nourish her finer qualities, rather than incubate her sophistication, womanhood has deteriorated until she is little more than a savage. I will prove what I say—that woman is a savage—beyond a reasonable doubt. I will argue in terms so logical and concrete that even Hercules could not budge them. I shall argue rationally, and my words shall ring with bitter truth.

Let us first define a few simple terms. A savage shall, henceforth, refer to a person or groups of people whose habits and standards of civilization fall far below the standards enjoyed by most of us today. Woman, women, and womanhood shall, henceforth, refer to that creature of delicacy and grace, warmth and tenderness usually spoken of as man's help-mate, and, furthermore, the word woman will be used very loosely as to include the female population on the Bucknell Campus. Therefore, we may stay within the boundary of our definition and say that the pagans are savages. They are called pagans because of their unique polytheistic religion. But modern woman is more of a pagan than the pagans were themselves. True, she does not worship Zeus, Poseidon, Hera, Juno, or Venus, but she has taken for herself new deities such as Max Factor, Helene Rubinstein, Helen Curtis, Dior, and Fanny Farmer. She worships these individuals because of an obsession to "look lovely with lovepat," and to smell sweet because "you are the very air he breathes."

Moreover, when one thinks of a savage he can not help but think of paint, for the savages were quite fond of decorating their bodies with colored clay and mud. But despite the savage desire to beautify herself with colored materials, she had the good taste to limit the colors to a line or two around the face and a ring or two around the body. When it comes to the use of paint and colored materials, modern woman out savages the savage! She uses paint on her lips, her finger nails, and her toe nails. She makes use of shadow above her eyes and mascara on her eye lashes. She outlines often her eyes with eyebrow pencil, shades her eyebrows with the same pencil, or plucks (how savage can one get!) the eyebrow to the core. Woman uses powder and other compounds to hide her natural skin and even goes so far as to paint her hair! When woman is truly garished and painted, she ceases to be a woman. She becomes a sack covered with powder, a brush covered with paint. She becomes a savage.

Moreover, the savage had a fondness for trinkets and cheap beads and bracelets, some of which she wore through the lobes of her ears. Truly a sign of primitiveness! But today's woman does exactly the same thing. She wears rings which hang from her ears, metallic objects which cling clumsily to her wrists, beads that dangle ungracefully from her neck, dainty little bracelets around her dainty little ankles, and rings on her fingers.

Furthermore, when we think of the savages we are forced to think of their nakedness, despite the vulgarity of it all. But at the rate women's fashions are going... women may be... clothes may be... well, anything can happen in time!

STUDENT FELLOWSHIPS

Baptist—Last Sunday, a program of inspiration through slides, art and music was presented. This Sunday there will be a reading of the play, "The Sign of the Cross" at 7 p. m.

Methodist—At its last regular meeting the chaplain of the penitentiary spoke of life in the institution. Supper is served each week by the women of the church.

Last Sunday the combined fellowships of the Presbyterian and Methodist churches held a retreat at Cowan.

Presbyterian—They will have a supper meeting at which Dr. Murphy will speak on the "Meaning of Christ."

United Church of Christ—Last Sunday the group met for the second of a series on the "Background of the Denomination." The topic was "The Story of the Christian Church."

Newman Club—They have held several events this year including a freshman mixer, an initiation, and a Dad's Day breakfast. A meeting will be held this Sunday at 7 p. m. in the Sacred Heart Chapel basement. There will be an interesting discussion for all Newman Club members. Refreshments will be served, and all freshmen are invited.

W. V. B. U. Plans General Meeting

There will be a general meeting of WVBU for all members and non-members who are now working at the station or would like to work at WVBU. The meeting will be on Tuesday, October 15, at 4:30 in the Sports Auditorium. It is important that all members attend, for, if not, they will be suspended for a period of time from the radio station.

Tug-Of-War Vectors

Last Saturday afternoon, following Bucknell's victory over Temple, the freshman boys overwhelmingly won the annual sophomore-freshman tug-of-war and were allowed to remove their black ties.

The tug-of-war is annually held at the first or second home football game. If the freshman class is victorious, the boys may take off their black ties.

Article By Rogers Receives Recognition

Dr. P. Burwell Rogers, associate professor of English, recently was singled out by a British publication of international distribution for his article "Place Names on the Virginia Peninsula," which appeared originally in the magazine *American Speech*.

The Year's Work in English Studies, which summarized Mr. Rogers' article, is published annually by the English Association, the leading organization of scholars and teachers of English in Great Britain.

Each volume reviews briefly the current year's books and articles on all phases of English language and literature published in the English-speaking world. Continuous since 1921, *The Year's Work* is a permanent and growing reference work of ever-increasing value.

October 5, 1921—First radio broadcast of World Series baseball by Grantland Rice.

Texas cattlemen overheard boasting to a visitor: "We don't brand them. We have them engraved."

Debate Society To Participate In Novice Meet

The Bucknell Debating Society opened its 1957-58 season by attending a lecture given to the society by Dr. Earl French of the Economics Department on Monday, September 30. Dr. French's subject of right-to-work laws is intended to provide background material for this year's national debating topic, which is: "Resolved that membership in a labor organization as a condition of employment should be illegal."

The Debating Society is now in the process of dividing into teams which will make practice debates in preparation for the Novice Tournament at Westminster College on October 26. This debate launches Bucknell's debating schedule of 18 to 100 debates which will include the Rochester University Tournament in November, the Temple University Novice Tournament in December, and the annual Good Neighbor Tournament at Bucknell in January.

The Bucknell Debating Society, under the direction of Dr. Frank Merritt of the English Department, holds regular weekly meetings on Monday at 4:30. There are 25 members, 18 of which are novices. John Miller succeeds James Roman, who is participating in the Washington Semester, as president of the organization. Robert Cohen is its secretary, and Frank Faint is its treasurer. The office of publicity director and vice president will be filled at a future election.

The society is a member of the Debating Association of Pennsylvania Colleges, which sponsors a state tournament in April. Tau Kappa Alpha is the debating honor society. Membership in the society is open to students in any curriculum. Participation in the inter-school debates is possible on an opportunity rather than a varsity basis. The only qualification is preparedness for the topic, as no number of preliminary or novice debates is necessary for participation.

It's all right to hold your head up—but don't turn up your nose."

LEWISBURG LIBRARY TO SELL EXTRA BOOKS

There are nearly 700 duplicate and extra books crowding the library shelves at Lewisburg. The Friends of the W. D. Himmelreich Memorial Library, an organization which exists to help the library, will conduct a book sale Saturday, October 12, at 325 Market Street (next to Bennett's Store), Lewisburg from 9 a. m. to 4 p. m. There are books for all ages, fiction and non-fiction, from history to mystery. The books will be priced 5, 10 and 25 cents. The money from this sale will be used to purchase new books for the library.

The staff of the W. D. Himmelreich Memorial Library has been pleased to see students from Bucknell at Harrisburg on October 2 and 3. The library has just started a history to mystery. The books will be priced 5, 10 and 25 cents. The money from this sale will be used to purchase new books for the library.

Bucknellian Summer Experience Proves Rewarding For The Future

by Barbara Krausz

Summer vacation for many Bucknellians is not spent just in pleasure-excursions or in employment having only monetary rewards. Instead, many students are preparing themselves, not only for future occupations, but for life itself, by working at interesting and rewarding jobs with scintillating and inspiring people.

For example, Ellie Williams, a sophomore elementary education major, worked this past summer at Selinsgrove State School for epileptics and mentally retarded children and adults. Spending most of her time in the psychology and recreation departments, she concentrated her efforts on retarded children.

Ellie and her co-worker in the psychology department, a senior psychology major at Susquehanna University, started a program of individual play therapy. Ascertaining, however, that they weren't reaching enough of the children that way, they switched to group therapy working with children approximately two and one-half to five years old. At first, the children would play only by themselves; later they improved enough to play in groups, to converse, and to laugh among themselves.

Ellie also held a nursery class for more advanced children; i.e., those who were relatively older, could speak to some degree, and were not behavior problems. One method of instruction was to help the children identify pictures in magazines of clothing, sensory organs, parts of the body, food, and modes of transportation. They also played simple games and practiced verbal exercises to further speech and motor co-ordination. Listening to records, they were encouraged to clap their hands or beat on drums in time to the music. A favorite treat was a nature walk or a visit to the school farm and orchard.

Ellie had the opportunity to observe the intelligence testing of many adults and children. She also accompanied and aided the Director of the Psychology Department in a few tests for infants. One test, the Cattell Infant Intelligence Scale, can be used on infants only one month old.

Working in the Recreation Department, Ellie supervised the play of the children in the day room and on the playground. The day room is well equipped with slides, toys, and bikes. A wading pool, a sand box, and a slide were added to the playground this summer to supplement the swings. Because the school is short-handed and the attendants don't have enough time, the children are allowed on the playground only in the summer or in the winter whenever college students from Bucknell and other near-by schools visit the campus.

The personnel were often called Mommy, especially by the younger children and those who couldn't grasp the concept of names. Many children are deformed, but after working with them for a while, Ellie found them adorable individuals and did not even notice their deformities. All the youngsters have a great need for attention and love. They often improve when they realize they have some worth and are acceptable. The school can always use volunteer help. If you are interested, it would be worthwhile to co-operate in this effort with the Bucknell psychology department.

Ellie considers her summer a wonderful experience. Although she had not previously thought of teaching the retarded, she is now seriously considering that possibility. "It

LITTLE MAN ON CAMPUS

by Dick Bibler

"THIS IS A POOR CLASS TO TAKE FIRST PERIOD—SO NOISY 'YA CANT SLEEP"

is chosen to teach at Bucknell.

Frank Wynne is a senior at Buck-

nell, and while he is completing his

studies, he also teaches a class in

French. Frank has the unusual ex-

perience of being both a student and

a teacher at the same time.

He is very pleased with his class and feels that they pay him the

same respect they would a professor.

The only criticism he has of his stu-

dents is that their spoken French is

far inferior to their written work.

He believes that one way of correct-

ing this deficiency is to conduct the

entire class in French and not to al-

low English to be spoken while in

this classroom.

Frank has also been active on our

campus. He is corresponding secre-

tary of S. A. E., president of the

French honorary, and he also works

in the women's dining hall.

After graduating in June, Frank

would like to continue his studies in

France. Eventually he wants to

teach college French.

Cheerleaders boost spirit at Pep Rally before the Temple game.

Philosophy Honorary Is Established Here

Bucknell University has recently received its charter for Phi Sigma Tau, the National Honor society for Philosophy. This means that Bucknell is now an official member of the national philosophy honorary.

The literal translation of Phi Sigma Tau is "the honor of those loving wisdom," which ties in with the honorary's purpose. The objects of the society are to serve as a means of awarding distinction to students having high scholarship and personal interest in philosophy and to popularize interest in philosophy among the general collegiate public.

Beauty Queen Contest Opens

Coads from sororities and dormitories from coast to coast will soon vie with one another to be represented in a nationwide college beauty contest.

Invitations to compete for local and national honors are already in the mail to our sororities and dormitories here on the campus. From the resultant entries, one "Queen" will be selected by our student body. Our "Queen" will then contest her charms against queens of rival colleges in the area for the selection of a Regional College Beauty Queen. If our "Queen" wins, she will then be featured next year in national advertising, in such magazines as *Glamour*, *Charm*, and *Mademoiselle*, at which time the public, in addition to the students, will be invited to vote for their favorite.

The national winner will receive an all-expense paid ten-day trip to one of the world's luxury vacation spots, compliments of Campana, the makers of Solitaire Make-up.

Public Health Test Scheduled December 7

Competitive examinations for three specialist classes in the field of public health have been announced by the State Civil Service Commission for December 7. Lists of eligibles will be established to fill top-level posts for public health physicians in the Department of Health. Written examinations will be held at Pennsylvania test centers and, by arrangement, for out-of-state applicants at cities within their state of residence. Commission Director Ralph D. Tive said applications must be submitted on or before November 22.

Public health physicians are paid salaries ranging from \$12,075 to \$15,387, and are employed in the Health Department's state office in Harrisburg. Professional personnel are needed to direct the divisions of chronic and addictive diseases and as regional medical directors.

Applications may be obtained from the State Civil Service Commission, Health and Welfare Building, Seventh and Forster Streets, Harrisburg, or at any of the following offices: Bureau of Employment Security; Pennsylvania State Employment Service; Liquor Control Board and State Stores.

Dance Group, Swimmers In Joint Program

Officers for the Modern Dance Group met last Monday to discuss the possibilities for a joint program between the Synchronized Swimming Group and the Modern Dance Group. While the plan has been approved, it has not been voted upon by the members.

Miss Nancy Campbell, the advisor of the Modern Dance Group, hopes that this joint program which would be held early next spring will take place of the annual Christmas program.

Because of successful turnouts, next Monday will be the last opportunity for new upperclass women to become a part of the regular "Orchestra" group. The time of meeting will be from 6:45-7:15 p. m. The future regular meetings for new and old members will be weekly at 7 p. m. on Monday.

The freshman apprentice group is presently meeting every Thursday night from 7-8 p. m., and here the concentration is placed on basic technique, form, and composition. All who are interested are invited.

MUSIC PROFESSOR TO GIVE RECITAL

An organ recital will be presented by Professor William McRae of the Department of Music, Bucknell University, on Tuesday evening, October 15, at 8:15 p. m. in the Lewisburg Baptist Church. The recital is open to the public free of charge.

Mr. McRae is a graduate of Oberlin College and Conservatory with the degrees of Bachelor of Arts and Bachelor of Music. While at Oberlin he was elected to the honorary scholastic societies of Phi Beta Kappa and Pi Kappa Lambda. He graduated from the Union Theological Seminary, School of Sacred Music, in 1947 with a degree of Master of Sacred Music with Organ studies.

Frosh tuggers overwhelm sophomore weaklings at annual Tug of War Competition.

Scholarships And Fellowships Offered For Graduate Study

Elections to Rhodes Scholarships will be held in all states in December, 1957. Scholars-elect will enter Oxford University in October, 1958. To be eligible a candidate must be a male citizen of the United States, with at least five years domicile, and unmarried; be between the ages of 19 and 25 on October 1, 1958; by the time of application have at least Junior Standing at some recognized degree-granting college or university in the U. S. A.; and receive official endorsement of his college or university.

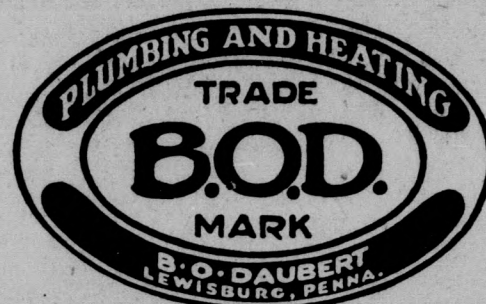

Twelve Marshall Scholarships at British universities are offered annually by the British Government to United States graduate students.

The awards are made to students of either sex, who must be citizens of the United States. Candidates must be under 28 years of age on October 1, 1958, and must be graduates of a degree-granting college or university of the United States.

General Electric Educational and Charitable Fund are offering on a competitive basis thirty-four predoctoral fellowships. Twenty-eight will be offered in the area of physical sciences, engineering, and industrial management; six in the area of liberal arts, business administration, and graduate law.

Candidates are expected to supply scores made on the aptitude test of the Graduate Record Exam. Those who have not already taken this test should write to the Educational Testing Service, 20 Nassau Street, Princeton, New Jersey (or Box 27896, Los Angeles, 27, California) before November 1, 1957, and arrange to take the test November 16, 1957. A later testing date will not provide sufficient time for the scores to be received by January 15, 1958, the deadline for all fellowship applications.

Additional information may be obtained from Dr. Roy C. Tasker, 431 Taylor Hall.

United Church Of Christ

The College Fellowship of the United Church of Christ will meet in the Pastors' Study at the Church, 55 North 3rd Street. Rev. John Schand will speak on the subject, "The Evangelical Church." This is the third in a series on the Heritage of our Denomination.

"The difference between intelligence and education is that intelligence will make you a good living."

... Cheers For Cowan

Almost unique to Bucknell is Cowan, the University owned, off-campus conference center. Very few other colleges are fortunate enough to have similar facilities.

Cowan, a seven mile trip from campus, is a beautiful lodge located in beautiful surroundings—woods, farms, and streams. In the center of the structure is the main room attractively decorated in an early American type style. The fireplace is a focus of attention.

Also included in the building is a kitchen, well-equipped with stove, refrigerator, sinks, dishwasher, work space, and utensils.

At either end of the lodge is a dormitory type room, each equipped to sleep many persons. In addition, there is athletic equipment provided.

Without a doubt, it is an ideal place for a conference or a retreat.

More students should use the offered facilities than do. Often it is the same people week after week, who plan conferences at the center. Probably two-thirds of the students, a modest estimate, have never been to Cowan, much less made use of the facilities.

It is the perfect place to visit "to get away from it all."

There is none of the terrible rush of campus life. It is a real place; there is none of the falseness of college atmosphere. It is a place where one can sit and think without being plagued by friends' yelling, record players' blaring, or meeting's beckoning!

ON OTHER CAMPUSES

by Chris Petersen

How not to be trier:
Every fall from Bucknell to Syracuse to Timbuctoo, conversations often (too often) run like this: "Hi there... Hi, how're you... Fine, how's your summer?" "Awful. I got a job in the men's room at Penn Station. I guess it was all right at the beginning, but after they upped the price to a dime, we fell behind the quota. Even Grand Central was ahead of us. So they started a speedup. I was lucky to get out alive!"

What in the World?
From the *Syracuse Daily Orange* comes this meaningful notice: "Angel's Flight will hold a short meeting at 7:30 p. m. in the Machinery Building. No uniforms necessary." Sounds like a revolutionary way of thinking.

From the University of Detroit comes a revolutionary way of thinking. "Have you ever stopped to consider the life of a door knob? What a depressing thought it must be to realize that after day after day you will be wrenched, twisted and squeezed until you think you will just go mad, mad, mad!"

Some one finally came up with a legitimate excuse for late registration. At Upsala one slightly elated freshman was tardy due to the inconvenience of delivering his wife's child.

Such is the life of a Communist Tester!
The University of Detroit headlines "Bulgarian Universities Expel Comedians Who Cross Their Legs." Evidently, forsooth, this is especially forbidden when the Bulgarian Sem Gem (if they exist) is smoking or has a glass of wine on a table in front of her. This is called Bourgeois Behavior and includes, horrors of all horrors, dancing western style. Honor Council, any one?

Quotable quotes?
From the Illinois Institute of Technology: "Now, said the prof, 'Pass all your papers to the end of the row; put a carbon sheet under each one, and then I can correct all the mistakes at once.'" Also, "Uncle was the really lazy one. He used to put coffee grounds on his mustache and drink hot water."

Some advice (for a 6 o'clock classes) from the *Hillside Highlights* of the University of Connecticut, states: "Simply walk into class, stop, look at your watch, compare it with the clock, and meeting the faculty state of the instructor, announce that the clock is fast. It will work if done properly. Eighty percent of the cases did it, so can you. Don't get the regularity habit."

This old was restated in the *Ligh Brown and White*: "Wine, women and song are the ruin of life. So I'm cutting out my vocal lessons." C'est fini!

LITTLE MAN ON CAMPUS

by Dick Bibler

Letters to the Editor

More On Chapel...

Dear Editor:
It goes without saying that the editorial on "An Unjust Requirement," submitted to last week's *Bucknellian*, expresses the sentiments not only of many students at Bucknell, but also of those in other educational institutions where compulsory chapel attendance is required for graduation.

It is inevitable that any suggestion advocating attendance on a "free-will" basis will be met with disapproval by the gentlemen in charge of this University function. They know as well as we that even those of us who feel we gain something by attending the service, would find it difficult to break away from the Bison for an hour on Wednesday morning, if we knew we were accountable to no one for our attendance.

No doubt the administration put a great deal of thought into every phase of the chapel situation, and no doubt, there have been students through the years who have also felt that the organization of this phase of college life should be revised to satisfy the religious needs of more, if not all of the students.

The solution, then? It occurs to me that, since Lewisburg and the surrounding area offer a place of worship for at least eleven religious denominations, there is ample opportunity for most students to participate in the form of religious service to which they are accustomed. Therefore, separate chapel services for the Jewish, Protestant, and Roman Catholic students are not necessary. One of the two suggestions I propose, then, is that chapel services be held on a non-sectarian basis. This practice has been successful in many schools; for, if students are offended by neither the form nor the content of a religious program, participation will be more enthusiastic, and of much more value to the students.

If the administration feels such a procedure would be contrary to Bucknell's tradition of Protestant worship, my second suggestion is that students whose religious backgrounds are such that they find Protestant services offensive, be allowed exemption from chapel on the written word of their Rabbi, Priest or church official.

There is much in the present chapel service to be of benefit to the student who is not closely affiliated with opposing beliefs or practices. We know the school is not trying to make converts through compulsory chapel attendance, but it seems to us that some solution to the problem, agreeable to both students and the administration, could and should be found.

C. S.

Thanks From Library...

Last Saturday, October 12, a community enterprise took place in Lewisburg which deserves thanks of several groups of people. I am referring to the highly successful Book Sale at 923 Market Street.

The Friends of the Library is an organization which exists to help the library on special projects. They conceived the idea of arranging for the sale at an empty store near the center of town. The owner charged no rent for which we are grateful. The Friends with the help of Bucknell students (both men and women) plus the assistance of the sexton of

The INFORMANT

by Ira Podnos

The crown of high position and success adorns the heads of few men. But in every age, in every civilization, a few men have reared their heads above earthly clouds and achieved lasting fame. These men are warriors, statesmen, lovers, and followers of fortune; but all have the one necessary pre-requisite for distinction. Not alone could they rule the earth and command the heavens. Not alone could they have written their names upon the white pages of posterity. For behind every successful man there has been a woman to lead him to success. She has bestowed strength where strength was lacking, initiative where aggressiveness was found to be wanting, and moral support where uncertainty lay stagnant in the male breast. So it was from the very beginning of time, and so it is today.

Could Mark Anthony have achieved enduring fame without his Cleopatra? Mark Anthony was one of the big three who had overcome the party of Brutus and Cassius; the Roman world had been divided amongst them, Anthony's share being the rich East. He was the ruler of that world with all its splendor and wealth to feast upon. But while Anthony was at the height of his career, he was also at the height of his passion. Perhaps it was Cleopatra who had inspired him to rise above the lofty heads of men, or perhaps it was she who had encouraged his manliness and his strength. But as Anthony was blazing his name over the Eastern sky, both he and Cleopatra—his serpent of the Nile—were slithering their way across the annals of history. But, too, it was Cleopatra who put out the blaze and extinguished both the flame and the man. When Anthony received a false report relating to the death of his lover, he fell upon his blade and spilled his guts. A noble life too soon ended.

Or could Napoleon have achieved enduring fame without his Josephine? All of France and all of the world belonging to France was the world of Napoleon. He was its master, ruler, and protector. He was France. But it was Josephine who gave him strength when grit was required. It was she who gave him courage when valor was needed. And it was she who gave him fond caresses when speedy action was necessary. And, finally, his strength failed, his courage withered, and the fond caresses turned into biting scabs. And, thus, a little man perished on a little island, surrounded by rocks, water, and public abuse.

Or could Abraham Lincoln have achieved fame without his Mary Todd? Perhaps this example is different from the rest. For one might say that Lincoln gained fame in spite of his wife rather than because of her. But the facts remain that when Lincoln tended to be sympathetic and sentimental, his wife counter-balanced these qualities by being adamant and caustic. When Lincoln tended to be uncertain of his step, Mary was firm and resolute. And when Lincoln showed signs of a wavering disposition, his wife undid them with her evenly met temper. And so today, Abraham Lincoln is thought of as one of the greatest of all statesmen, as the great emancipator, and as the protector of human rights and freedoms. But "Abe" swallowed a gunman's bullet and spit blood. And so today, great men prompted by women of impulse, his life was ended too soon, too soon.

CALENDAR OF EVENTS

THURSDAY, OCTOBER 17
4:30-6 p.m. WSGA House of Reps. Meeting Hunt Rec.
4:30 p.m. Freshman Firesides Owens
7:00 p.m. Freshman Firesides Owens
French House, Dr. Bond's Home, Owens, Taylor, Stephens, Seventh Street, and Edwards Houses
7-8:15 p.m. WRA Board Meeting Hunt Lib.
FRIDAY, OCTOBER 18
Freshman football vs. Gettysburg (away)
Soccer vs. Lycoming (home)
3:30-5:30 p.m. Bucknell Study Subcommittee on Exceptional Students Vaughan Lib. Rm. 111
4:30 p.m. Faculty Advisory Committee, Sabbatical Leaves Committee Rm. 116 East Wing
7:00 p.m. Alumni Office, Board of Trustees Meeting

SATURDAY, OCTOBER 19
HOMECOMING
Football vs. Boston University (home)
9 to 12 noon. Delta Delta Delta mum Bison
10-11:30 a.m. Alumni Association Class Meetings Olin Science
SUNDAY, OCTOBER 20
9:30 a.m. Nine-thirty Class—Dr. Mildred Martin Hunt Rec.
"T. S. Eliot's Religion"
3-5:00 p.m. Art Exhibit—Artist Joe Brown Davis Gym, 2nd floor
MONDAY, OCTOBER 21
11:45 a.m.-6:15 p.m. BLOODMOBILE—Alpha Phi Omega Hunt Rec.
4:00 p.m. Bucknell Study Core Committee Rm. 116, E. W.
4:30 p.m. Freshman Firesides at German, Seventh Street, and Edwards Houses
7:00 p.m. Freshman Firesides at Larson Little Living Room, Seventh Street, Taylor, Hulley, Carey and Stephens Houses

TUESDAY, OCTOBER 22
4:30 p.m. Freshman Firesides Spratt and Walker
7-8:00 p.m. Independent Woman's Meeting Hunt Lib.
8-10:00 p.m. American Society for Quality Control Meeting Visual Aids Aud.
WEDNESDAY, OCTOBER 23
11:00 a.m. Chapel—Rev. Bruce Morgan, professor of Religion, Wilson College Davis Gym
4:30-5 p.m. Booster Club Meeting Hunt Rec.
4:30 p.m. Freshman Firesides at Seventh Street and Carey Houses, Mr. Shott's home
7:00 p.m. Freshman Firesides at Larson Sun Porch, Dr. Gathings' home, Stephens, Edwards, Third Street, Owens, Walker and Hulley Houses

THURSDAY, OCTOBER 24
4:30-6 p.m. WSGA House of Reps. Meeting Hunt Rec.
4:30 p.m. Freshman Firesides Owens House
7:00 p.m. Freshman Firesides at French House, Dr. Bond's home, Owens, Taylor, Stephens, Seventh Street and Edwards Houses
8:00 p.m. Pennsylvania Section of the American Chemical Soc. Lecture—Dr. M. L. Woolfson Olin Aud.

When we realize we are not one big family a Fetterman to Brothers pass might bring a response. Am I suggesting that we "Tut-tut" the band straps and eye white socks—you bet I am. I say break out the razor blades and stir up the cauldrons if we need to. We need to bring the individual in us. A touch of individualism might bring out that hibernating Spirit.

For the past hour, individualism emerges from Our Family, would-be-attackers of little Spirits will have to flip their darts at other targets.

For the past hour, individualism has partially cleared my senses. Already a suitable target for the poor turnout to the senior class meeting has come into focus. If we use advertising as our target we can assume that few seniors heard about

versity's band, also directed and played in the Brass Band, which included the following student musicians: Ronald Pollmer, Jay Shaffer, James Frend, Dennis Rittenhouse, Allen Zeich, and David Shade.

Jack Crim, who joined the faculty of the department of music this fall, was the tenor soloist and Carol Faust, a senior music major, was the pianist.

In June, 1953, at the time of the second invasion by Lee's army, Bucknell students and teachers enlisted in a body, and the college halls were vacant for six weeks.

NEW HALL SITED, CONSTRUCTION BEGUN AS BUCKNELL GROWS

The ground-breaking ceremony, held last Saturday, marked the official beginning of construction on Coleman Hall. The ceremony, attended by several hundred people, was held at the site of the soon-to-be-erected class room building opposite the Ellen Clark-Bertrand Library and the Vaughn Literature Building, with Merle M. Odgers, president of the University, presiding.

The Bison Band began the program playing a few selections, followed by the national anthem, Mark C. Eberole, chaplain of the University, gave the invocation. The speaker representing each part of the building enterprise were as follows: Charles L. Horn, president of the Olin Foundation, paid tribute to William H. Coleman for whom the building is named; for the Board of Trustees, A. Guy Fress, chairman of committee on building and grounds, and R. Henry Coleman, chairman of committee on development, who stated the building is a symbol of future progress of the university; for the student body Lucien B. Karlove, '58, president of the WSGA, and Alice M. Brewen, '58, vice president of the WSGA, gave their thanks on behalf of the students; C. Willard Smith, on behalf of the faculty, appreciated the generosity of the Olin Foundation and he hopes for future progress, concluding was William H. Coleman, vice president of the university and secretary of the Bucknell Study, who said that Coleman Hall is the realization of the new campus.

Each group involved in the building dug a spadeful of soil, namely: on behalf of the Olin Foundation, Charles L. Horn, president of the WSGA, and Alice M. Brewen, '58, vice president of the WSGA, gave their thanks on behalf of the students; C. Willard Smith, on behalf of the faculty, appreciated the generosity of the Olin Foundation and he hopes for future progress, concluding was William H. Coleman, vice president of the university and secretary of the Bucknell Study, who said that Coleman Hall is the realization of the new campus.

The program closed with the singing of the alma mater led by James Merle M. Odgers; on behalf of

Drive For Blood To Start Monday

Time: 11:00-3:45, October 21.

Place: Hunt Rec Room.

Object: Annual blood drive sponsored by the National Red Cross and Alpha Phi Omega, a service fraternity.

Goal: 300 pints of much needed blood.

Requirements: Between 18 and 20, a slip which can be obtained in the bookstore, Swartz Hall, Larson, and the University Cafeteria, to be signed by your parent.

Over 21: Simply fill out a card and report to Hunt Rec Room.

The man who doesn't know the meaning of the word "fear" usually is ignorant in other ways, too.

People may doubt what you say, but they'll always believe what you do.

Alums Return For Gala Weekend

Judy Moser Chosen Homecoming Queen

This year's Homecoming Queen is Judy Moser, a junior from Ridley Park, Pennsylvania. Judy, a petite brunette, is an Elementary Education major and a member of Phi Beta Phi sorority. She was a counselor at Freshman Camp, is on the Synchroized Swim team, and is a member of the Women's Glee Club. Last year she was chosen Military Ball Queen and was in last year's Homecoming Court.

The queen was chosen by the judges on the basis of personality, poise, beauty, and charm. The candidates met with the judges for dinner and at a tea on Sunday to be judged on these four attributes. Serving as judges were: Miss Wilson, Miss Bryan, Mr. Carhart, Col. Martin and Mr. Powers.

Saturday morning the queen and her court will make their first public appearance in the Homecoming parade. At noon, they and their escorts will be presented at the alumni luncheon. The queen will be officially crowned at half time, Saturday afternoon, Saturday night, at the Homecoming Dance, the queen will announce the winners of the float decoration contest and of the float decorating contest.

Serving in her court are:

PEGGY SMITH, a senior from Duxbury, New Jersey, is an Economics major. She was a junior counselor last year, and is now serving on Honor Council and as president of Delta Delta Delta sorority. She has been a cheerleader for four years and is now acting as co-captain. Last year she was also in the Homecoming Court as well as in the Military Ball court.

FAITH BONSAHL, a senior from Wallingford, Pennsylvania, is secretary of SFC, head student of the High Street House, and a member of Kappa Kappa Gamma.

(Continued on Page 8.)

HOMEcoming PROGRAM - 1957

ALL TIMES ARE EASTERN STANDARD TIME

Friday, October 18, 1957

2:00-10:00 P.M.—Registration of Alumni—Carnegie Building
12:30 P. M.—Luncheon and Meeting of Athletic Advisory Committee—University Cafeteria
6:00 P. M.—Dinner and Meeting of the Board of Directors of The General Alumni Association
7:00-9:00 P. M.—Swimming, Fresh-Rookie Swimming Pool

BUCKNELL U. VS. BOSTON U. HOMECOMING DAY

BISONS TOP TECH, 13-7

by Bucky Walters

Less than one thousand fans were present to watch the Bucknell Bisons claw out a 13-7 triumph over a determined Carnegie Tech, eleven at Pittsburgh's rust bowl, Forbes Field. Many Bucknell alumni watched a sloppily played game with neither team taking advantage of each others mistakes.

Wagner Scores

The Lawrencemen reached touchdown land the first time they obtained possession of the ball. Senior fullback, Bob Fitzsimmons, teamed up with halfback Chuck Wagner for the six-pointer. "Fitz" hard charging ball carrying aided by Wagner's two yard plunge resulted in the first score of the afternoon. Walasek's conversion was good and the scoreboard read BU 7, Carnegie Tech 0. The last two plays of the first quarter saw a pass from Tech quarterback Tucci to end Cassed, good for 15 yards and fullback Quastie bulled his way over between right guard and tackle. Majeski's kick was good and the score was now tied 7-7. On this march, Tech could not move the ball effectively on the ground so they were forced to the air. Once again it was Bucknell's pass defense that weakened to give the opponent their score.

Tech Goes to the Air

The second period saw Carnegie Tech's passing ace, John Tucci pitch his way from the BU 30 down to the 4. From there Majeski carried to the 2, and fullback Quastie bulled his way over between right guard and tackle. Majeski's kick was good and the score was now tied 7-7. On this march, Tech could not move the ball effectively on the ground so they were forced to the air. Once again it was Bucknell's pass defense that weakened to give the opponent their score.

Bisons Stopped on Tech 11

The Bisons could not move the ball after receiving the kickoff. Tech was forced to kick from their 27 after the first series of downs. Carnegie Tech capitalized on BU's poor punt and QB Tucci promptly passed his way from their 47 to the BU 41

FITZSIMMONS CRASHES OVER FOR A TD

In the third quarter of the Bison-Carnegie Tech game, fullback Bob Fitzsimmons crashes through for a touchdown. Referee signals a touchdown for Bucknell.

connecting twice with his halfback Zank. Tech then rushed their way down to the 25, and on the next play BU received a shot in the arm when Bill Walasek intercepted a pass and brought the pigskin back upfield to the 42. Our running attack started with a pass from John Tucci to the right wing. The teams battled back and forth for the remainder of the period and thus at halftime the score was Bucknell 7, Delaware 0.

O'Hara-Lawver Score
The home team came back to start the second half aroused with spirit and confidence. Before five minutes had elapsed, Bucknell had scored three more goals. First, after a number of short passes, Les Lawver boosted the ball past the Delaware goalie to make the score 2-0. "Wacky" O'Hara then scored from in front of the nets and minutes later Lawver scored again after a scramble in front of the Delaware goal to make the score 4-0. After this Coach Hank Peters began to substitute his inexperienced reserves. They played well but did not have the scoring punch that the first team had. The rest of the half was played on even terms and the score ended BU 4, Delaware 0.

Delaware Not Too Weak
The Delaware team did not look as weak as the score indicates. They displayed a fine passing game but lacked scoring punch when they got within range of the Bucknell goal. The Bucknell defense led by the always dependable fullback Roger Mackey would not let the Delaware team get off a good shot.

BU Team in High Spirits
The Bucknell team was in high spirits after the game and were looking forward to the game Friday afternoon against Lycoming. Monday the game was cancelled by Lycoming because illness had closed down the school. The Athletic Department promptly scheduled a tilt Friday afternoon at 3 p. m. the revived Bucknell soccer team will be ready to roll up another victory at the expense of the tough Wilkes College team.

Cross-Country Sign-ups
All fraternity or non-fraternity men who plan to run X-country this year must get eight sign-ups by November 11.

The Bucknell linkmen, coached by Hal Evans, have captured the Middle Atlantic Conference Golf Tournament for the past two years.

SOCCER TEAM DEFEATS HENS

by Tom Clark

Last Saturday under mild, sun-filled skies, the Bucknell soccer team posted its first win of the season by beating the Hens from Delaware 4-0. Bucknell showed much improvement over their last home game in both offensive and defensive play. The team put forth their first adequate scoring punch of this season. All scoring shots were made directly in front of the goal and resulted in constant drive at the goal by the ever-charging lineemen. This has always been the way Bucknell has scored the majority of its goals in previous seasons. In previous games this year the forward line had been lying back, but on Saturday they were constantly charging at the Delaware goal and goalie. The lineemen deserve a great deal of credit for their fine play.

Scoreless First Quarter
The teams fought through a scoreless first quarter with Bucknell pressing all the time. Midway in the second period, Meade Geisel scored his first goal of the season by scoring on a pass from John Tucci to the right wing. The teams battled back and forth for the remainder of the period and thus at halftime the score was Bucknell 1, Delaware 0.

Improved Passing
Bucknell must improve in their punting which averaged only 23 yards per kick, and lower their tackling which against Carnegie was high and of the head and shoulder variety. The Bisons passing attack was moving the ball by rushing it out to the 23 in four plays. The half ended with the score 7-7.

Fitzsimmons Excels
Carnegie kicked to B. U. to open the second half. Wagner ran the ball back from the 5 to the 26. Bob Fitzsimmons carried 12 times in the succeeding 20 plays as the Thundering Herd rolled 74 yards to score.

Poor Strategic Move
Just when it seemed as though the Bisons were moving the ball, Coach Lawrence substituted an entire new team on fourth down with line that held the Bisons on fourth down.

Terrier Forward
Hill will be working with a ball club that consists of ten veterans and a sophomore sensation. Their expected starting team is as follows: Jim Kenney, 210 and Jack Regan, 205, will flank the forward wall. The tackles are a couple of crafty veterans by the names of Ed Paulauskas, 220, and Art Grozy, 223. The grid-men playing inside the tackles are guards Larry Vincour, 200, and Steve McGowan, 185. The center is Chuck Wansky, a 205 pound veteran. Versatile Lon Hill, 175 pound quarterback, is the brains of the outfit. John Maio, 180, and Paul Canard, 170, are the swift running halfbacks. The 185 pound fullback, effective on the inside as well as the outside, signs the dotted line Jimmy Dean.

Bisons Set For Aerial Attack
Although the Bisons were sloppy at times against Carnegie Tech, they showed that they could move the ball very well when they started rolling. Quarterback Terry Fetterman's short passes were accurate and effective. Bob Fitzsimmons, as expected, was the reliable ground-gainer.

The Bisons line, when looking good, rushed the rubber-armed Tucci so that his passing was inaccurate. There is no doubt that the forward wall has looked much stronger in the last two games; consequently we have not been seriously hurt by passes. This Saturday, however, it will have to be even stronger if we expect to corral the sharp-shooting Hill and his fleet-footed receivers.

Tennessee Valley Authority Discussed As Monopoly

by Doug Grigg

A few years ago, as many of you will remember, one of the most debated topics discussed in the Federal Government concerned that of the Tennessee Valley Authority.

Many arguments occurred over this Government subsidized project. Some said it was Socialistic, and if we continued to support the TVA the Government would be heading towards Socialism. Others contended that even though it was Government subsidized the TVA would help the people of the Tennessee Valley towards flood control, reforestation, and navigability of the rivers. They also claimed that the TVA would be able to offer the people rates that would be much cheaper than those offered by the private companies.

Recently the people of the valley became disturbed about their future electric supply upon the hearing of rumors that the Congress was planning to cripple the TVA by budget slashes—slashes that would cause TVA to produce little or no electric power at all.

The whole issue was brought out into the open very recently when Frank G. Clement, Governor of Tennessee, issued a letter to the Honorable Ralph W. Gwinn of the House of Representatives. Governor Clement was asking Gwinn to support the state where TVA stood with the Federal Government. Governor Clement stated that the monopoly, serving 6,000,000 people, if abandoned by the Government, would cause a severe power shortage which in turn would cause the area to become a financial asset instead of an economic asset. He stated that other nations were crippled during war time because they had not kept a strong civilian economy. If any restraint were leveled on the Tennessee Valley Authority it would be a direct threat to the national security of the country.

Mr. Gwinn, in his letter to Congress put forth certain proposals which he hoped Congress would consider, but much to his disgust found out that the clever and ingenious way TVA has concealed its red ink.

In reply to Governor Clement's letter, Ralph W. Gwinn revealed the Federal Government's attitude towards this monopoly. Mr. Gwinn explained how the TVA claimed to offer cheap rates to the people of 7 states while getting outrageous subsidies from the other 41 states. Not one of these taxpayers in the 41 states had ever received back one cent of this expenditure. Mr. Gwinn stated that TVA had their real intentions behind a "smoke screen" in order to get the law passed, organizing TVA in 1933. They had offered to assist in reforestation, navigability, and flood control, but as yet nothing has come of this so-called assistance. They have done little for reforestation. The only navigation of the Tennessee River has been created by TVA, and industry finds it cheaper to ship by rail. For what little they have done for flood control, private concerns could have done a much better job.

Private companies have been driven out of business because of the emergence of the TVA. Before TVA emerged as a monopoly, over 20 private companies offered the people of the valley very cheap rates. Because they pay full federal and local taxes while the TVA pays no federal and only a few local taxes, the private concerns had no alternative but to go out of business.

There are many other instances which I have not mentioned concerning TVA's vast profits. It has driven the private concerns bankrupt, expanded its facilities out of the Tennessee Valley, and sold blocks of power to huge corporations. While the TVA goes on reaping in huge profits the small concern goes bankrupt.

The questions arise—Why should not private companies build projects which they can afford? Why should not the TVA pay taxes equal to those paid by private companies? These and many other questions will come up before Congress when TVA asks the Federal Government for another gift. This time they want a mere \$178 million in order to build seven steam plants and for the construction of two others. It is my belief that many men feel we are headed towards a governmental controlled power industry and that TVA's so-called gift will be flatly turned down.

"We're getting a college in my home town—kind of makes up for not having a high school!"

JUNIOR COUNSELORS FROSH PROJECT

by Jody Smith

The men of the "Inter-Swartz Hall Committee on Freshman-Sophomore Relations" has given up its plan to overthrow the Class of '69 by force now that hazing is over. The committee has been reorganized and renamed. It will be known henceforth as the "Inter-Swartz Hall Committee on Freshman-Junior Counselor Relations" and will work in cooperation with the "Freshman Women's Pan-Sem" Underground Movement, which, for no particular reason, has given up its idea of a BVD raid on the Quad. The two groups have combined their efforts in compiling a booklet which they will call "Notes on Counselors, 1967-68," or "Understanding Your J. C." The booklet, which is the official Freshman project of the week, will be published as soon as the gentlemen from 35 finish wiping the pen ink stains from their printing press.

One of the feature articles of the booklet is entitled "Five Witty Ways to Your Counselor's Goat", including:

1. Ten New and Different Ways to French Your Counselor's Bed.
2. Twenty-five Problems Your Counselor Won't Be Able to Solve.
3. Two Hundred Clever Questions That Will Put Your Counselor on the Spot.
4. A Treasury of Amusing Practical Jokes.

5. Simplified Instructions on the Construction of Fifteen Original Booby Traps.

A second feature article (the contents of which are to remain a secret until publication—after further censoring) is entitled "Who's Who Among the Jay Cees" and includes such famous "Who's" as:

1. Who's the tall blonde at Carey who sacks under a sun lamp?
2. Who's the rooster in Swartz who is trying to pawn a hot Ford?
3. Who's the j. c. with the bangs at Edwards who completely ignores mashed potatoes?
4. Who's the blushing trombonist on 4th Swartz who makes his group cheer for him at the football games?
5. Who's the Miss America of Carey who has found an interesting way of enforcing quiet hours with her pledge paddle collection?

The price of the booklet was included in your registration fee (although the administration doesn't know it yet). So, be sure and pick up your copy at 3:00 a. m. on Doomsday when the junior bird patrol from Roberts will drop them on the roof of the bookstore.

Expanding Bucknell Challenges Students

by Diane Collins

Speeches made on important occasions are rarely, if ever, earthshaking. The audience generally has a preconception as to what sort of comments are appropriate for the event, and is able to discern from this who will speak on what. This may not be a conscious prediction for we are not always aware of our own innermost thoughts, nevertheless, this state exists.

And so it was with the Coleman Hall Ground Breaking Exercises. There were representatives from most of all the diverse facets of University life. Some were sentimental, others vaguely exhortive.

Yet, there was only an implication of the genuine feeling, the real gratitude that was generally felt. Missing was the exuberant and enthusiastic thanksgiving along with the sense of an impending challenge.

The air seemed dull, stagnant when, in reality, it was electrically charged with the new raised standards and ideals which are gathering to drive the ever-expanding student body towards goals which before seemed beyond the reach of Bucknell.

Coleman Hall is more than a better facility; it is an intellectual call, urging the students and faculty to race to catch up with, and to speed past its modern lines.

Are YOU prepared to win? Training means learning the rules. Experience means learning the exceptions.

READ "THE BUCKNELLIAN" STUDENT VOICE OF BUCKNELL

Free Cut System Urged By Students

by Lois Crabtree

A topic of current interest is a subject mentioned in the editorial a couple weeks ago—free cuts to all students.

In this editorial it was strongly urged that we have a system of unlimited cuts. The cut system at Bucknell is very inadequate. There are almost as many cut systems as there are professors. The range is from no cuts at all to unlimited cuts.

Most of the time the professors who allow students to cut are the professors who hold the students' attention; their classes are well attended. On the other hand, the professors who warn against any cutting are the ones who have trouble with attendance and attention. The cut system should not be a security measure for the professor. Classes should be well organized and should provide a supplement to the regular assignments. Why attend classes that are merely a repeat of the previous homework? The student is mature enough to learn from his outside work and to ask about anything not clear in class.

Entrance to Bucknell should indicate maturity; the students are considered to be men and women. If these men and women are not mature enough to attend class they will not be here long anyway. This is indicated by the large number of students who leave this campus after each semester. If the student does not attend classes but still is able to achieve good marks, there must be something wrong with the classes he cuts; the professor is not doing his job. The student should have a definite desire to attend class for extra knowledge; if the professor cannot provide this extra knowledge why is he teaching?

When students leave college to take jobs there is no cut system; failure to report will mean no job. Maturity and responsibility must guide the graduate. College is a training ground for later life. College does not provide the student with just the few facts he may learn in class; it should provide him with the necessary tools for thinking and living. The student is away from home and is more or less on his own. It is our opinion that Bucknell should be sincere, be brief, be seated.

Three hints for speech makers: Be sincere, be brief, be seated.

Most of us don't put our best foot forward until we get the other one in hot water.

Two hints for speech makers: Be sincere, be brief, be seated.

Two hints for speech makers: Be sincere, be brief, be seated.

'THE JAMES DEAN STORY' FEATURED AT SUNBURY THEATRE THIS WEEKEND

by Lee Wentzel

James Dean, one of the most talked about and teen-aged loved stars of our time, plays himself in "The James Dean Story" which illuminates the screen of the Strand Theatre in Sunbury this Friday and Saturday of Homecoming Weekend.

This full length film is an account of the actor's suspicious life, traced from his home in Fairmont, Indiana, where he was brought up by an aunt and uncle who induced him to attend U. C. L. A. He left there his sophomore year to travel to the spacious city of New York, and back to Hollywood where the young star's life was permanently ended on a California highway.

Dean rose to stardom in Elia Kazan's "East of Eden." He previously had played some roles on Broadway and on television. He was chosen as "the most promising young star of the year" for his role as an Arab boy in Gide's "The Immoralist".

Following "East of Eden" where he portrayed a rebellious son who almost destroyed his father and brother in his search for love and understanding, Dean scored a triumph as Jim Stark, misunderstood teenager in revolt against society in "Rebel Without a Cause".

His last film, "Giant", won for him a posthumous Academy Award nomination, the first such honor to be bestowed upon any performer. Some never before seen films of Dean are shown in "The James Dean Story." Included are his screen test for "East of Eden" and also for the first time, the actor's art, sculptor, and poetry. A small statue, sculptured by Dean and entitled "Self" is shown. Plus Tommy Sands, one of today's leading singing sensations sings "The James Dean Theme", "Let Me Be Loved" in the picture.

Starting October 20, 21, 22, and featuring the Strand screen is "The Joker is Wild," a film biography of Joe E. Lewis. Frank Sinatra takes the title role in this film and has an opportunity to show his many talents through his songs, his jokes, and his personality in playing the part of the "funniest night club entertainer of them all".

Well Bucknellians, from the looks of things it will not only be an exciting weekend here on Campus, but also on the Strand's screen. Be sure to top the weekend off with a relaxing movie.

Students are mature enough to decide for themselves when to attend class. Certainly with the present system there is no effectiveness because of the vagueness in meaning of the cut system.

Therefore the Bucknell students should have unlimited cuts; if they are not mature enough they will not last long. Professors will plan their classes with more interest. Responsibility will develop among the students. The Bucknell student either will not graduate or he will leave Bucknell a much more responsible student—ready for a job with no cut system.

Most of us don't put our best foot forward until we get the other one in hot water.

PASS IN REVIEW

by William Meister

Each year it is the job of Bucknell's ROTC to organize and plan the running of the Homecoming Parade. The Cadet Regimental Commander is Grand Marshall of the parade, and his staff coordinates the parade.

The parade will be broken down into six divisions, each one controlled by a cadet Battalion Commander or Executive Officer. Each division will consist of a band and two or more floats entered by the fraternities. Promising sophomores and juniors will assist the division commanders and will be stationed at strategic points along the parade route to keep the parade running smoothly.

At 1000 hours the parade will start down Market Street. It will follow the same route as last year, except for the insertion of four extra blocks in North Lewisburg to help prevent congestion at the corner of Third and Market Streets. The ROTC color guard and Pershing Rifles will lead the parade. It is the hope of the Regimental Staff that this will be the most smoothly run parade ever held on Homecoming Weekend.

Incidentally, keep your eyes out for the new green uniforms which the seniors will be wearing in the parade.

Last Thursday evening, the first Officer's Club meeting was held, consisting only of those seniors with the rank of lieutenant or above. In quick order the four principal officers were elected: Wieder, president; Meyers, vice president; Locke, secretary; and M. Fisher, treasurer. It was decided that in keeping with the "best company rivalry" which is being initiated this year, each company will sponsor a candidate for Queen of the Military Ball. The identity of the queen will not be announced until the ball.

Jim Hamilton has been appointed Social Chairman by the elected officers. He expects that one of the country's top bands will be obtained for the dance. More information on this will be published in later articles. See you at the parade!

Mrs. Boquiren, an elementary school principal from the Philippines, is now working for the Ed. D. degree at Cornell.

Golf is what letter-carrying, ditch-digging, and carpet-beating would be if all three tasks were to be done in an afternoon.

WANTED—Ride to Philly Friday or Saturday, October 23 or 26. Call Norma Fry, JA 4-8100.

GAIL KELLY SPENDS REWARDING SUMMER AS DIRECTOR OF DAY CAMP

by Barbara Krausz

Perhaps one of the most rewarding opportunities for summer employment available is the experience of working with children. Many Bucknellians were camp counselors this past summer, but the position of camp director is probably more unique.

Previously a camp counselor for three years, Gail Kelly, a senior psychology, philosophy and religion major from Rye, New York, this summer directed the Junior American Yacht Club located in Westchester County. A day camp, it was attended by 40 children from upper-class homes between the ages of five and nine.

Because many of the children came from broken homes, the staff tried to create a family atmosphere. The counselors participated in all the activities which were centered around the children and geared to the children's level. This nearest was important to the youngsters as many of them attended private schools and didn't have close friendships.

One of the main objectives of the camp was to offer more than that which is found in the home; i. e., to teach the children to appreciate others and to work together cooperatively. The aim was to take the standard, stereotyped upper-class child in time to erase all racial and religious prejudice and to lay the basic foundations for adult life. The camp encouraged the development of a more inclusive personality which would be more readily susceptible to social, political, and economic changes. By having a better understanding of themselves, they would be better able to cope with family and community problems upon reaching adulthood.

The staff attempted to accomplish this goal by stressing teamwork and emphasizing co-operation, sportsmanship, and leadership. The children were taught to realize that there were limitations on their activities and that they must learn to accept such regulations. Responsibility was instilled in them by making them the leaders. More information on this will be published in later articles. See you at the parade!

On Wednesday night, at Spanish House, the Spanish honorary society held its fall initiation service of new members. Susan Wylie, president of the organization, conducted the ceremony, initiating three active and five honorary members. After the service, a dinner was held at the Hotel Lewisburg.

The following were initiated into the organization: Marilyn Dee Piper, Carolyn Nabach, and Wilma Nier; Honorarys: Maria Cristina Troconiz, Sandra Pratt, Lynn Miller, and Captain and Mrs. Eckberg.

In the year 1883, coeds were first admitted to the Bucknell campus and football was first played on our athletic field. (Student Handbook).

PROF-FILE

by Cuddie Fleming

Bucknell has the "Hello" spirit, but what on earth has happened to the "Hokey" spirit, the spirit of pep and moral support?

The freshmen, poor, uninitiated, naive things that they are, carry their high school spirit (and NOT the kind in a bottle, either) to the football games with them and really whoop it up in support of the team. They not only cheer for touchdowns and spectacular plays, but also for defensive plays or just plain old-fashioned "we're behind ya, team" spirit. Freshmen, you just don't know any better, support the whole team, not just their fraternity brothers, or their hall-mates, or their high school or campus buddies. None of the freshmen have classmates, buddies, or fraternity brothers on the team—they can't—but does that keep them from yelling their lungs out in support of the Bisons? It most certainly does not.

On the other hand, consider the upperclassmen, the suave, sophisticated, blasé, gun-ho collegians. They sit in elections separated from the freshmen and quietly observe the game, cheering very little, hardly ever getting excited, and always, sticking with their fraternity brothers and their dates. A rare exception to these nonchalant specimens is when a "brother" makes a particularly fine play. Then they all whoop it up just a bit to make it known to everyone what fraternity that particular player belongs to!

It's not that the upperclassmen aren't pleased and enthused when the team puts forth a particularly fine effort because they comment among themselves in conversational tones about the great going. But they somehow seem to want to keep it a deep, dark secret from the players themselves as if verbal support might give the team a case of swelled heads! As a result, the upper-class sections are as quiet as a morgue and just as full of life. Between one of these calm, cool, and collected upperclassmen is rather a dubious honor especially when contrasted to the peppy, enthusiastic, yelling freshmen.

All over the nation people talk about the rah! rah! college spirit that our schools seem to have in abundance and which B. U. could have if the upperclassmen would come down off their high horses and support the team verbally as well as morally. The cheerleaders do a valiant job attempting to rouse some spirit and among the freshmen, they succeed admirably. But among the upperclassmen, they might just as well be talking to themselves for all the response that they get.

There is no sure-fire solution to the problem, at least none that any one person or group of persons can derive. The only way to get the "Hokey" spirit is for each individual person to dust his off from "way back when" and put it to active use at the next home game, which just happens to be Homecoming.

Loosen up those vocal cords, upperclassmen, and see if you can out-yell the freshmen. Dimes to donuts you could put them to shame if you tried!

William R. White Elected Chairman Of College Trustees

William R. White, vice president of Guaranty Trust Company of New York, was elected chairman of the board of trustees of Bucknell, during a special meeting of that body held last Saturday.

He will fill the position left vacant by the death in July of Dr. Joseph W. Henderson, of Philadelphia, who had been trustee of Bucknell for 24 years and chairman of the board of trustees for ten years.

A graduate of Bucknell with the class of 1926, Mr. White holds a bachelor's degree from Columbia Law School and an honorary Doctor of Law from Union College. From 1935 to 1942 he served as superintendent of banks for New York state.

Appointed to that position when only 32 years old, he was the youngest official ever to hold the post.

While an undergraduate at Bucknell he joined Lambda Chi Alpha fraternity. He is a member also of the Pennsylvania Society, Academy of Political Science and New York State Bar Association.

Mr. White has been a trustee here since 1938 and has served on both the investment and finance committees. He has served also on the board of directors of Columbia Law School and as trustee of the Legal Aid Society of New York.

His daughter, Deborah A. White, recently was graduated from Bucknell and his son, William R. White, Jr., is currently a senior.

Homecoming Queens

(Continued from Page 1)

pa Delta sorority. Last year she was a junior counselor and was elected to Mortar Board.

MONA O'NEILL, a junior from Leona, New Jersey, is a political science major. She is a member of Modern Dance Club, vice president of the Booster Club, and a member of Class Council. Mona also works on WVBU and was recently elected to Delta Delta Delta.

LOEY LENHARD, a sophomore from Drexel Hill, Pennsylvania, is a math major. Loey is secretary of WRA and is a member of Kappa Delta sorority. Last year she was in the Homecoming and Military Ball Courts and was chosen Sign Derby Queen. She is also active in Cap and Dagger.

JEANNE THOMAS, a sophomore from Lancaster, Pennsylvania, is a psychology major. Jeanne transferred to Bucknell this fall from Dickinson College, where she was a cheerleader and Homecoming Queen. At Bucknell, she is a member of Psi Beta Phi sorority, House of Reps. Synchronized Swimming, and the Bucknellian staff. She also plans to work with the orphanage committee.

CORA TIVE, a freshman from Great Neck, New York, is an Elementary Education major. She lives on third Larson and is a member of Modern Dance Club.

ANN CAMPBELL, a freshman from Wilmington, Delaware, is also an Elementary Education major. She represents Edwards House on House of Reps and sings in Chapel Choir.

NEWS IN BRIEF

INTERNATIONAL

In the eight and one-half days since the Soviet Union launched its satellite *Sputnik*, U. S. scientists have been observing the ball and analyzing its contents. The effects of this launching have been great. Nations of the world have voiced surprise that Russia beat the U. S. to the draw in this launching, while President Eisenhower insists that the U. S. has never been in a race to launch a satellite.

Russia has demanded she be recognized as a country in a position of strength and not be pushed into second place in talks on arms control and related topics. The Soviet Union has already asked the U. S. to hold bilateral talks with her on the question of arms control and spheres of influence, but the U. S. has refused to take part in conferences with Russia other than those attended by other UN nations.

In Washington, Congress has demanded an investigation of the satellite and missile programs due to this launching.

Saturday Queen Elizabeth and Prince Philip arrived in Ottawa for a ten day tour of Canada and the United States.

Antoine Pinay has been attempting since Friday to form a new French cabinet. He is expected to fail in the attempt as did M. Mollet and Rene Pleven who tried to form

'Student Handbook' Editor Announced By Dean Hayward

Sophomore Sandy Glenn will be editor-in-chief of the 1958 Student Handbook according to a current announcement by John C. Hayward, Dean of Student Affairs.

Sandy, an elementary education major from Cadwell, New Jersey, has had extensive experience with student publications. At Grover Cleveland High School she worked on the yearbook. At Bucknell Sandy has pursued her literary interests through work on *L'Agenda* and as a section editor of this year's Student Handbook.

Sandy's other campus activities include Kappa Delta sorority and work as a hostess on RILP. During the past summer she served on the college board of Hahne and Co. in Montclair, New Jersey.

While an undergraduate at Bucknell he joined Lambda Chi Alpha fraternity. He is a member also of the Pennsylvania Society, Academy of Political Science and New York State Bar Association.

Mr. White has been a trustee here since 1938 and has served on both the investment and finance committees. He has served also on the board of directors of Columbia Law School and as trustee of the Legal Aid Society of New York.

His daughter, Deborah A. White, recently was graduated from Bucknell and his son, William R. White, Jr., is currently a senior.

Mr. Gbedemah, finance minister of Ghana, a Negro, was recently released service in a Dover, Delaware restaurant. The next day President Eisenhower invited Mr. Gbedemah to breakfast after which the minister said this invitation had come from what happened.

Lieut. Gen. Dr. Hans Speidel, ex-German general and now commander of NATO's central European land force visited Norway last week on a NATO inspection tour. In Oslo he signed a protest to his visit, and signs proclaiming, "We have forgiven the German people but not Hitler's generals" were waved. The general landed 80 miles from Oslo and proceeded on his tour without incident.

Last month the communist party lost control of the Grand and Central Council, the ruling body of the republic of San Marino. The communist party promptly dissolved that body in an effort to thwart anti-communist control of the government.

Two weeks ago the anti-communists set up their own government which has since been recognized by the U. S. and Italy. Last week the communists were defeated and surrendered to the police.

NATIONAL

In Little Rock, Arkansas the situation remains at a deadlock with both sides. The administration and Governor Faubus—refusing to give in.

Newly elected Transfers president-Hans Hoffa will face a flood of opposition from all sides. Monday he faces a federal court which will rule on the charge presented by the New York teamsters that Hoffa be barred from the presidency because the election was rigged. Tuesday he will appear on charges sprouting from wiretapping of his Detroit headquarters. In 11 days he will go before the AFL-CIO executive council hearing on charges that he misused union funds, abused union power, and consorted with hoodlums, gamblers, and racketeers.

Fingerprints used to be required on all passports into the U. S. Russia refused to allow her citizens to be fingerprinted, charging that only criminals are fingerprinted. Now it has been decided that fingerprints need not be taken for passports for trips of less than a year's length.

Since World War II, 11 persons charged with spying on the U. S. for Russia have been sentenced or executed in the U. S. The three most recent are Jack Soble, his wife Myra, and Jacob Albam. They will serve 7 years, 4 years and 5 years, respectively. Col. Rudolf Ivanovich Abel is now on trial in New York on similar charges.

Asian flu is on the rise. About 1,077,000 new cases were reported this week. The hardest hit areas are New York and the Deep South.

Polio here has declined 80 percent this year. This drop has been largely attributed to Salk vaccines.

At many parties some people succumb early and stay late.

'RELIGION IN LIFE' TO SPONSOR MORGAN IN DISCUSSION GROUP

This year's Religion in Life Program will sponsor eight speakers and three resident leaders, according to Robert Long, chairman.

The speakers, coming from seven universities, will hold round table discussions in the various fraternities and dormitory living rooms. These informal discussions will provide an opportunity for students to broaden their Christian faith by questioning and talking with these leaders.

Morgan To Lead Discussion

The first of the Round Table discussions will be led by Dr. Bruce Morgan, next week's chapel speaker. With the theme, "The Christian and the Problem of Power," the discussion will be held at the Lambda Chi Alpha house Tuesday at 9 p. m.

Dr. Morgan is chaplain at Wilson College. He is the author of several published articles, and one published book, *Called in Revolution*, under the Student Volunteer Movement, 1956.

Resident Leaders to Participate

The three resident leaders will each meet to the campus for a week, and live with the students in the dormitories and fraternities. They will begin their week's activities by speaking Sunday evening at the 7:30 p. m. service.

One of the features of the hilarious comedy will be music especially composed for Bucknell's production of "The Birds" by Elwood Derr, a Bucknell alumnus who was recognized this summer in the *New York Times* as one of America's promising young composers.

Article II, section A under chaplaincy and responsibility has been changed to read as follows: Every social event held after 7:30 p. m. must be chaperoned. An elected officer must be present at all social functions held prior to 7:30 p. m. to assume responsibility.

The success of this trial period will determine the possibility of these regulations becoming a permanent part of the social regulations.

Attention, Seniors!

If for any reason you did not order your senior pictures please indicate on the back of the picture the one you want in *L'Agenda*, and any other orders you wish to place, mail the proof or proofs to Claire Halline, Box 497.

D. WILSON WINS AWARD FOR MUSIC

Miss Dorothy Wilson, assistant professor of music, has received word that her duo for Violin and Piano, selected for second place by one of the judges, has been awarded "honorable mention" in the recent national Mu Psi Epsilon competition.

Anyone who wishes to attend any of these programs, or to find further information is asked to come to the Christian Association offices.

BU Boosts Five Foreign Students

There are three new foreign students in the language house studying at the Bucknell this year.

From Tai Wan comes Shaw Mei Lin, a graduate student in Chemical Engineering, and Yoo-Huan Wan, a graduate student in Economics. Polier University in France sends us Francois Richer, an exchange student.

At the Spanish House this year is Maria Christina Troconiz, of Salamanca, Spain. In addition to being housemaster at the Spanish House, Miss Troconiz is teaching three classes in Spanish.

Francisco Leschemelle has come to us from Paris, France and is now the housemaster at the French House. She is teaching French and studying American Literature, English Literature, and American History.

Plans are being made for a dinner for foreign students and others who are interested on October 24, United Nation's Day. Barbara Stech, a senior, is in charge of the dinner.

—KEEP OFF THE GRASS—

freeman women's honorary, and Mortar Board, senior women's honorary.

Miss Wilson will be absent on sabbatical leave next semester, when she will consult with composers and observe theory teaching methods in the United States and Europe.

The parade will start at the Lewisburg High School, follow Market Street, turn left onto 3rd Street, turn right onto 3rd Street, turn right onto Front Street, turn right onto Market Street, turn left onto 3rd St., travel down Moore Ave., Logan Street, and Moore Ave., proceed around the drive in front of Davis Gym and break up at the football stadium.

At eleven-thirty a luncheon will be held for alumni, students, faculty, parents and guests in the Davis Gym. The Bucknell Band will play and the Homecoming queen will be in attendance.

The highlight of the weekend's activities is the football game against Boston U., with kickoff at one-thirty. The field will be the scene, at half-time, of the musical production, *Under the Clock* at the Biltmore.

The old rascals come to see again under the famous clock—Meeting at The Biltmore is a timeless college custom. And no wonder—it's still the most convenient, most exciting location in New York for special student rates help, too. Write to our College Department. Plan now for Thanksgiving or that Special Weekend.

Cap And Dagger Presents 'The Birds', Modern Version Of Aristophanes' Comedy

"The Birds," an uproarious farce and extravagant fantasy directed by Professor Harvey M. Powers, will be staged by Cap and Dagger November 8 and 9 at the Lewisburg High School.

The plot of the comedy centers around two middle-aged jokers who get fed up with life among their fellow-men and decide to take over the universe. The two comical heroes literally "go to the birds."

The Greek play is a modern adaptation of Aristophanes' Comedy. The adapter, Walter Kerr, a well-known New York drama critic, who made this translation while he was professor of drama at the Catholic University of America in Washington, D. C.

Since the initial performance of "The Birds" in 1948, it has become the most frequently produced Greek comedy in colleges and universities all over the United States.

Mr. Powers, director of the production, explained that there are two reasons why Greek comedies are not usually staged in modern times. The comedies are too obscene and contain too many obscure references. However, the Cap and Dagger has chosen "The Birds" because it is one of the least obscene of Aristophanes' plays. The modern adaptation has also cut out the obscene references and expanded the original comic material.

One of the features of the hilarious comedy will be music especially composed for Bucknell's production of "The Birds" by Elwood Derr, a Bucknell alumnus who was recognized this summer in the *New York Times* as one of America's promising young composers.

Article II, section A under chaplaincy and responsibility has been changed to read as follows: Every social event held after 7:30 p. m. must be chaperoned. An elected officer must be present at all social functions held prior to 7:30 p. m. to assume responsibility.

Cap And Dagger Presents 'The Birds', Modern Version Of Aristophanes' Comedy

"The Birds," an uproarious farce and extravagant fantasy directed by Professor Harvey M. Powers, will be staged by Cap and Dagger November 8 and 9 at the Lewisburg High School.

The plot of the comedy centers around two middle-aged jokers who get fed up with life among their fellow-men and decide to take over the universe. The two comical heroes literally "go to the birds."

The Greek play is a modern adaptation of Aristophanes' Comedy. The adapter, Walter Kerr, a well-known New York drama critic, who made this translation while he was professor of drama at the Catholic University of America in Washington, D. C.

Since the initial performance of "The Birds" in 1948, it has become the most frequently produced Greek comedy in colleges and universities all over the United States.

Mr. Powers, director of the production, explained that there are two reasons why Greek comedies are not usually staged in modern times. The comedies are too obscene and contain too many obscure references. However, the Cap and Dagger has chosen "The Birds" because it is one of the least obscene of Aristophanes' plays. The modern adaptation has also cut out the obscene references and expanded the original comic material.

One of the features of the hilarious comedy will be music especially composed for Bucknell's production of "The Birds" by Elwood Derr, a Bucknell alumnus who was recognized this summer in the *New York Times* as one of America's promising young composers.

Article II, section A under chaplaincy and responsibility has been changed to read as follows: Every social event held after 7:30 p. m. must be chaperoned. An elected officer must be present at all social functions held prior to 7:30 p. m. to assume responsibility.

The success of this trial period will determine the possibility of these regulations becoming a permanent part of the social regulations.

Attention, Seniors!

If for any reason you did not order your senior pictures please indicate on the back of the picture the one you want in *L'Agenda*, and any other orders you wish to place, mail the proof or proofs to Claire Halline, Box 497.

D. WILSON WINS AWARD FOR MUSIC

Miss Dorothy Wilson, assistant professor of music, has received word that her duo for Violin and Piano, selected for second place by one of the judges, has been awarded "honorable mention" in the recent national Mu Psi Epsilon competition.

Anyone who wishes to attend any of these programs, or to find further information is asked to come to the Christian Association offices.

BU Boosts Five Foreign Students

There are three new foreign students in the language house studying at the Bucknell this year.

From Tai Wan comes Shaw Mei Lin, a graduate student in Chemical Engineering, and Yoo-Huan Wan, a graduate student in Economics. Polier University in France sends us Francois Richer, an exchange student.

At the Spanish House this year is Maria Christina Troconiz, of Salamanca, Spain. In addition to being housemaster at the Spanish House, Miss Troconiz is teaching three classes in Spanish.

Francisco Leschemelle has come to us from Paris, France and is now the housemaster at the French House. She is teaching French and studying American Literature, English Literature, and American History.

Plans are being made for a dinner for foreign students and others who are interested on October 24, United Nation's Day. Barbara Stech, a senior, is in charge of the dinner.

—KEEP OFF THE GRASS—

freeman women's honorary, and Mortar Board, senior women's honorary.

Miss Wilson will be absent on sabbatical leave next semester, when she will consult with composers and observe theory teaching methods in the United States and Europe.

The parade will start at the Lewisburg High School, follow Market Street, turn left onto 3rd Street, turn right onto 3rd Street, turn right onto Front Street, turn right onto Market Street, turn left onto 3rd St., travel down Moore Ave., Logan Street, and Moore Ave., proceed around the drive in front of Davis Gym and break up at the football stadium.

At eleven-thirty a luncheon will be held for alumni, students, faculty, parents and guests in the Davis Gym. The Bucknell Band will play and the Homecoming queen will be in attendance.

The highlight of the weekend's activities is the football game against Boston U., with kickoff at one-thirty. The field will be the scene, at half-time, of the musical production, *Under the Clock* at the Biltmore.

The old rascals come to see again under the famous clock—Meeting at The Biltmore is a timeless college custom. And no wonder—it's still the most convenient, most exciting location in New York for special student rates help, too. Write to our College Department. Plan now for Thanksgiving or that Special Weekend.

... A Student Steals

There are many types of thieves in this world, one kind being a thief of the irreplaceable records of an organization.

The object of this theft is strange since the stolen piece of paper has no value—it is the words on the paper that are important. The thief could easily copy the material instead of ruining a bound volume of reports.

To cite an example, a male student from Bucknell gained access to the bound copies of *The Bucknellian*. He stated that he wanted to check some information.

The student then proceeded to cut out several articles from the 1955-1956 volume of bound copies. He did not ask permission to do this, of course, but did it secretly when no one was in the office. It will be almost impossible to repair the damage.

Another example is the removal of pages of one of the Bertrand Library's daily newspapers which they keep on file. Defacing other's property is inexcusable. This theft should not remain unnoticed. One can earn another dollar, buy another blouse, but one cannot replace a permanent record.

This editorial is a plea that "record thieves" be stopped and that the cut-out articles be returned to *The Bucknellian* (229 Market St., Lewisburg) and to the library.

... Pardon, Please

This word, "misinterpretations" is a word that is often misused on the Bucknell campus. A few weeks ago there were many "misinterpreted" rumors floating around the hill with regard to the supposedly derogatory actions of the new Dean of Men.

In this short, but we hope concise editorial, we would like to explain the "floating rumors" and how they were so wrongly "misinterpreted."

First, the misconstrued conception of how four Bucknell men were deliberately thrown out of school by one Dean Meyn. We can assure you that this rumor is completely a farce. Facts were compiled from the Police Commissioner of Lewisburg and from the District Attorney, which in turn were given to the M. S. A. Judicial Board, compiled of Bucknell men, for their decision.

Secondly, the incident pertaining to the fire in East College started by some freshmen men. The fire starting is true, but the rumor of disciplinary action is far from being true. Of course something had to be done—and it was. Both men involved were told to make a diagram of every fire extinguisher in the school plus a last date of re-fill. This not only contributed to the school which at the present had no such record, but it accomplished its purpose of teaching a lesson.

The third rumor that involved freshmen being asked to leave school for the possession of cars is strictly untrue. The freshmen were told by Dean Meyn that having cars was illegal. The freshman that possessed a car on campus was given the opportunity to turn his keys into the Dean, who in turn would issue the keys to the freshman at an appropriate time in which he could remove the car from the campus.

We are sure that if any doubt in anyone's mind as to the capability of Dean Meyn to handle his job and to handle the previously mentioned incidents, we can assure you that the Dean will be glad to answer anyone's questions.

Until that time, we the *Bucknellian* staff would like to apologize to Dean Meyn on behalf of the student body for their immature actions.

... Subtle Censoring

We claim that this is a free newspaper. We try to make it an uncensored newspaper. But often we are thwarted in our efforts.

It is true that once we get facts (important that we know that they are facts) we can print them at our discretion. There is no censorship in that manner.

The censorship on this campus is more subtle. The original facts themselves are withheld. One of the staff may hear a rumor, but will be unable to get facts from the source to either support or nullify it.

This "withholding censorship" also occurs when a campus group with a new program presents it to the entire campus before it is willing to release any information to *The Bucknellian*.

Letters to the Editor

Dear Editor:

It's a good thing I didn't write this letter on Saturday afternoon, because it wouldn't have been fit to print. From that introduction, you can probably guess that I am going to harp on that old subject of School Spirit.

Homecoming weekend was the perfect football weekend. There was a lot of activity, many people, and the weather was made to order.

Everyone was in gay moods seeing old friends and joining in the festivities. The stage was set and the actors came on the field, but what happened to the audience? Were they so overcome with the festivities that they forgot about the team? Were they so busy seeing familiar faces that they forgot to look at the cheerleaders, who by the way, are not jumping around to lose weight. Did they become so bored when we were losing that they fell asleep and didn't make a sound? Was the weather too much for them and they had to leave to get under the cover of some bar even before the fourth quarter? Everyone had a very good weekend; I guess they were too busy having that good time to have too much concern about the team.

This is really a sad state of affairs. The football team and the game it plays are the main attractions of Homecoming weekend, and yet I doubt if many of the team members would realize it from the response there was to the cheerleaders' efforts most of the time. Of course, so in all situations, there are exceptions, and there were a few people who showed their spirit in

the form of noise and yell; to them I give my thanks. When we were not behind, these few were joined by the rest for a few feeble moments. But that sort of support is just not there when it is needed the most.

This is nothing to be proud of, and I surely wish that something could be done about it. Is it a sin to be enthusiastic about something? Is it really true that the upperclassmen are too dignified to let their hair down? If so, I certainly would hate to see them ten years from now. I guess the steam has let off somewhat. Thank you, Gimme.

Peggy Smith

Student Teachers

Entertain Critics

The senior girls preparing to student teach held a tea for their critics last Thursday in the basement of the Carnegie building.

Teachers from the North and South Ward Schools of Lewisburg, East Buffalo Township School, and Kelley School attended. All of those concerned with the training of elementary teachers were also guests.

The arrangements for the tea were made by the senior girls under the leadership of Dr. Beryl Parker, Professor of Education.

LOST—Red wallet. If found, contact: Mrs. Walter C. Wagner, Box 555, Lewisburg, Pa. JA 3-5864.

READ "The Bucknellian"

The average car driven by the Bucknell student is a 1952 Chevrolet.

LITTLE MAN ON CAMPUS

by Dick Bibler

"Ya shoulda seen th' look on th' dean's face when Floyd started playin' his piccolo."

by Chris Petersen

In the colloquial of the vernacular— There's something strangely familiar with this article from the University Hatchet of George Washington University.

"Q. Mr. P. Charles Arbuthnot, campus cliché expert?"

A. Just call me Charlie. I'm in the know. I'm no simple tool.

Q. Excellent. Ten with your permission I shall test your competence in the field by putting a few questions to you.

A. Shoot.

Q. How are the impending final examinations affecting you?

A. I've had it. This is bottoms, I'm really locked.

Q. Looked?

A. I've clutched. I'm all tensed up.

Q. Then I take it you don't expect to make a good grade?

A. I'm completely faked out.

Q. How about your other courses?

A. I've had two guts all lined, but they backfired.

Q. Why?

A. Two many curvebreakers. I've really had it.

Q. How?

A. To the wall.

Q. What happened?

A. I thought I was gonna rack on my midterms, but my shovel broke.

Q. Did everyone do so poorly?

A. Oh, there are always a few greasy grinds.

Q. Grinds? What do they do?

A. They're curvebreakers. They clobber the exams so you can't keep an average.

Q. You don't study much I presume?

A. I stay loose. I hit the flicks, goof off a little, quaff a few brews with the boys.

Q. Where?

A. Down at Brownley's, Morocco's, and at the '823.

Q. At your parties, do you all have dates?

A. No. Some guys get flushed, but that's better than being stuck.

Q. Stuck?

A. With a pig, a drag, a beast.

Q. Oh, are all dates like that?

A. Not mine. I got a nice babe, a game girl.

Q. And?

A. Then some bird dog moves in.

Q. What does he do?

A. Feeds her a line, beats my time, tries to make out.

Q. But if this doesn't happen?

A. Then I'm golden, man. I go ape. I'm in like Flynn.

Q. Well, to return to examinations—

A. Exams. Eat the bird, will ya?

Q. Excuse me, I was just wondering what you were planning to do?

A. I'll just have to shovel the old bull, that's all.

Q. What will you do until then?

A. I'm gonna flake out.

Q. What?

A. Pat the pad, sack out, lie in the sun.

Q. You've been a great help, Charlie. Just one more question: you plan to participate in house parties?

A. You some wise college fellow?

Q. I mean girls and everything. You do like girls?

A. The greatest, man. The greatest ever."

Attention all Sem-Gems!

These two admirable advertisements come respectively from Middlebury and Syracuse:

"Personal: Bachelor with 40 acres of excellent land would like to make acquaintance of lady with tractor; matrimony in mind. Please send picture of tractor..."

"Two men—Worldly, sophisticated, with devil-may-care grins, sharing a car and bachelor apartment in Marion—desire the company of women, of good repute and better looks..."

Quotable Quotes?

Students should hear this pun from the Mount Holyoke News.

"And did you hear what the red light said to the green light? 'I wonder where the yellow went...'"

Study much? Be consoled and read this statement from the Wilkes College Beacon.

"Biology major: 'What's a dactylic hexameter?'"

Senior English major: 'I don't know. I never took physics.'"

This caption comes from a cartoon in *The Lafayette* where one grue-some looking Asian flug-bug says to the other: "The hell with Lafayette, let's go to Lehigh." Bon sois!

Both of Bucknell's fullbacks have been converted from different positions, one from halfback, the other from end.

The subjects that give college men the most trouble live in sorority houses.

Did you know: In 1879 David Jayne Hill of the Class of 1874, was the first graduate of Bucknell University to become its president.

—Drive Carefully!—

The INFORMANT

Composed Upon Brooklyn Bridge

by Ira Podnos

"Father," said my son to me,
"Why must sin and evil be,
Why the wrath of God invoke
These men who never hope
To dwell in heaven?"

"Can they hope to reach the stars,
Those whose lives with sin are
scarred,
Or mount the stairs to paradise
These men who never hope
To dwell in heaven?"

"Where is God's avenging hand,
He who life and death can span,

That He lets them wander bold
These men who never hope
To dwell in heaven?"

"And why does He permit them
To freely spread their sinful stain
Upon His earth, so white, so pure,
These men who never hope
To dwell in heaven?"

"Son," the father soon replied,
"Dry the tear stains from your eyes,
For if that we were to know,
God would have told us long ago."

ESSAY CONTEST WON
BY BUCKNELL ALUMNA

First place in a national essay contest conducted by Pi Sigma Alpha, national honorary political science fraternity, has been awarded to a Bucknellian, according to an announcement received by University officials.

The winner is Barbara Stutman Hawley of Erie, formerly of Tower City, who was graduated from Bucknell with honors in June, when she received her bachelor of arts degree with the distinction of Cum Laude.

"The Effect Upon Scholarship in the United States of Certain Freedoms Guaranteed in the First Amendment" was the subject of Mrs. Hawley's essay which won the first prize of \$100.

At Bucknell, where she majored in political science, Mrs. Hawley was secretary-treasurer of the campus chapter of Pi Sigma Alpha, managing editor of the senior yearbook, and a member of both the women's glee club and the chapel choir and of Kappa Kappa Gamma sorority.

The public is cordially invited to hear him when he speaks at Bucknell Monday night.

BISONS BATTLE LEOPARDS IN EASTON SATURDAY

by Stratton S. White

The boys from the Buffalo Valley travel East this Saturday to do battle with the Lafayette Leopards on Homecoming Day at Easton, Penna. This will be the thirty-fifth game of a series begun in 1883 with Lafayette leading 17-13, and with four games ending in ties.

Flu Hits Maroon

The flu has hit the Maroon squad this fall causing the cancellation of the Delaware game. However, the Leopards are expected to be at full strength for the Homecoming game.

Quarterback Problem Serious

The quarterback problem has become very serious due to the loss of star signal caller Joe Bonzik via a broken leg. In the opinion of the coaches there is little difference between the three sophomore quarterbacks on the squad. They are Merle Bainbridge, Wayne Cipriani and George Benders. All three show promise but they lack Bonzik's experience as well as his passing and running ability. Bainbridge has a slight edge among the sophomores.

Center Trouble

Another problem for the Lafayette mentors is the center post. Bill Foreman a senior first stringer has joined Bonzik on the injured list. Junior Fritz Muench is the only other contender to take Foreman's place.

Maroon Low on Reserves

The third problem for the Maroon coaches is the development of capable reserves, especially on the line. Lafayette's regular forward wall appears strong, filled as it is with veterans. Bill Harlick and George Lloyd are experienced guards and Bill Covach and Dick Norton are old hands at the tackle posts. However, the majority of the reserve linemen are sophomores, not quite ready for varsity competition. On the other hand there are three sophomores who have been very impressive this year. Dan Wooten and Joel Gustafson, although second year men, have held down the end posts since season opener. Rookie Don Nikles has been impressive enough at full back to earn a starting berth.

Lafayette's record so far this season has been successful. After winning over Muhlenberg 20-6, and Buffalo 14-6, they lost a squeaker to Temple 14-16.

Starting Line-up

The probable starting lineup for the Leopards is as follows: Dan Wooten, 6-1, 200 pounds and Joel Gustafson, 6-2, 185, hold the end positions. Fireplugs Dick Norton, 5-11, 225, and Bill Covach, 5-11, 210, are veteran tackles. Three out of the four starting backs are rookies. Quarterback Merle Bainbridge, 5-10, 180, is a sophomore as is halfback Dick Fritz, 6-1, 190 and fullback Don Nikles, 5-9, 185. Jim Hourihan, a 5-11, 185 pound halfback, is the only starting veteran back at this date.

Maroon Rely on Sophs

Lafayette is the first team we will meet this year that is in the sophomore straits, consequently they will be forced to rely heavily on them for that all important reserve. The Leopards have had better hope that their sophs are as hungry as ours; if not the BU rookies will eat them up in a gulp.

PASS IN REVIEW

by William Meister

Bucknell's ROTC rifle team has begun its busy schedule for this year. The team will fire both the shoulder to shoulder and postal matches, the latter being used in conjunction with distant schools. On October 16 the team fired a prone, kneeling, and standing match against Dickinson College at the Carlisle Gun Club range. Dickinson won the close match with a team score of 1365 points to Bucknell's 1335.

Freshman Phil Huter was high man for Bucknell. He fired an 83 standing, 90 kneeling, and 97 in the prone position for a total of 272 out of a possible 300 points. Dickinson's high man, John Caffrey, scored 89, 93-99 for a total of 281. The next match will be a postal match against Notre Dame on October 23. After the results have been exchanged by mail we will know how much our rifle team is worth.

The rifle team is scheduled to meet its rivals at Dickinson on Monday, October 28, at 9:30 a.m. to 9:30 p.m. The team will be in the field for the entire day.

TERRIERS HALT FOOTBALL TEAM

by Bucky Walters

The Homecoming Day Game between the Terriers from Boston University and the Bisons of Bucknell was watched by more than 6000 fans under sunny skies.

Close First Half

Spirits remained high as the BU Bisons battled Boston on even terms throughout most of the first period. Bucknell's kickoff was returned to Boston 33 to start the first period. The beanthrowers were held to 29 yards the first time they controlled the ball. They kicked from their 45 to the Bucknell 25 where the Bisons moved back upfield to the 39 before they were forced to kick. The Terriers took over and in 20 plays marched 74 yards to score. Dean carried seven times for 32 yards for Boston and Maio finally pushed over from the one. With three minutes remaining in the period Kinney kicked his first of three extra points.

Bucknell Misses Opportunities

George Salinger intercepted a pass on the Boston 44 and returned it to the 36 minutes after the opening of the 2nd quarter. The Bisons were unable to make the necessary yardage for the first down and Erickson punted to the four where the ball was accidentally grounded. The officials brought the ball out to the 20. Boston then started another long march downfield which ended on the Bucknell 12. Dean once again speared the defense with the help of Maio and Canero. The Bisons took over but had to kick after three downs. Bill Walsack recovered a Boston fumble on the Bucknell 35. Three running plays brought the ball up to the 47, then Jack Brothers threw a pass complete to Hettche good for 15 yards. A pass interference penalty against Boston made it first down on the 35.

Deciding Play For Bucknell

The next play of the game proved to be the deciding play of Bucknell's scoring opportunity. Jack Brothers ran wide around his right end and threw what looked to be a sure first down on the 35.

Frosh Intramurals

By Line

For those of you who haven't noticed, something besides the flu is new on the coaching three hundred. On certain pre-assigned days each week groups of freshmen gather behind Swartz Hall in the late afternoon to play at the ancient game of soccer. Once again the administration has revealed its innate love for athletics, its heartfelt desire to foster a spirit of sportsmanship and competition. But, are such magnanimity lulls us into sweet slumber, an analysis of the situation might well be made.

Useless Program

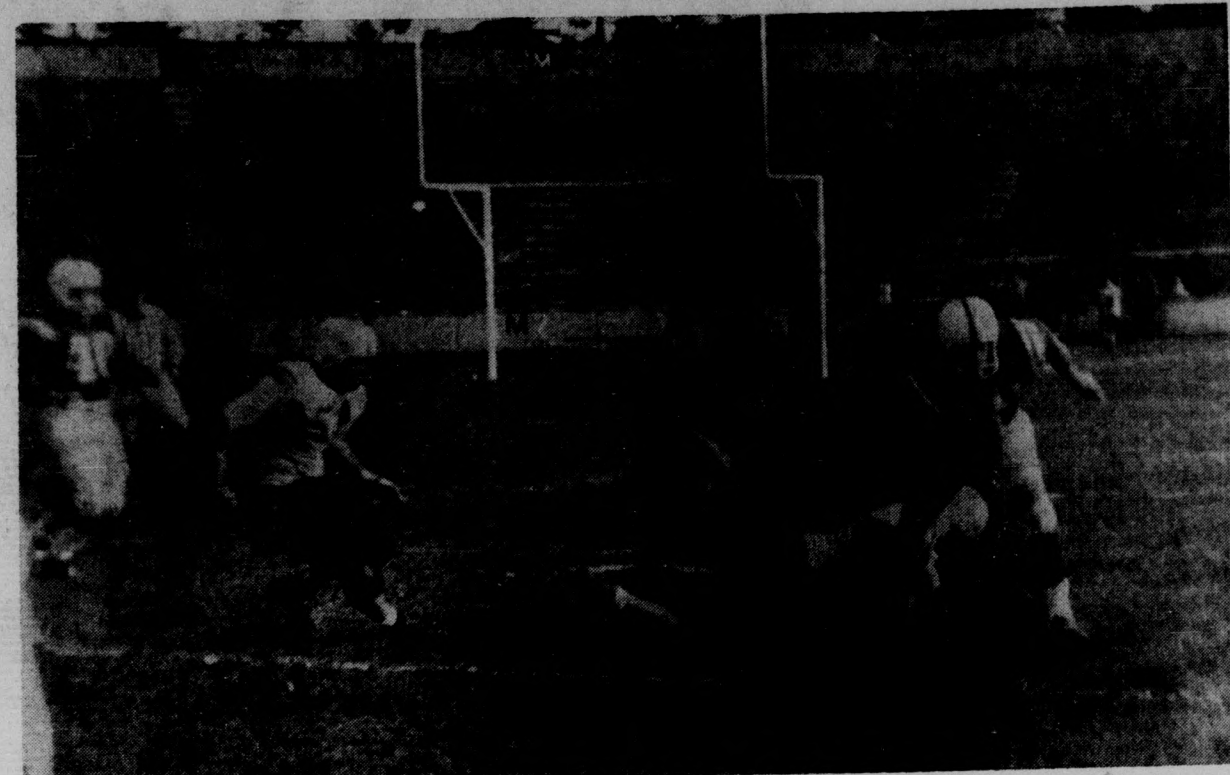

For certainly the stupidity and uselessness of such a program is clearly apparent. During a normal week Fred Frosh spends three hours in a Physical Education class at the Davis Gym. What does he do? Why he plays soccer, of course. Obviously then the intramural program is not giving Fred something which he would normally lack. Instead it is just another one of those lame-duck excuses for Fred to forsake his one-point begins his southward flight.

Frosh Joins Fraternity

During the second semester Fred decides to join a fraternity. During the ensuing seven semesters he is free to take part in Ernie Fraternity's vast intramural plan. What then is the purpose of providing Fred with more interesting diversions during the most important time of his college career? In a feeble voice the administration retorts that besides being beneficial for his mind and body, the program provides something for Fred to spend his leisure time in during the deferred-rushing period. Furthermore, he says, Fred likes the idea. Fallacy. Fred is healthy enough, he has no match will be a postal match against Notre Dame on October 23. After the results have been exchanged by mail we will know how much our rifle team is worth.

The rifle team is scheduled to meet its rivals at Dickinson on Monday, October 28, at 9:30 a.m. to 9:30 p.m. The team will be in the field for the entire day.

Bisons Bitten By Terriers

This weekend the Orange and Blue suffered a solid defeat at the hands of the Boston Terriers. Although the Bisons played well at times it was evident to all present that we were playing out of our class.

down pass inside the Boston 5, but the Hettche bobbled the ball and the pass went incomplete. Boston took over on their 18 and in three plays ran the ball out to the Bucknell 42 where the whistle blew to end the first half with the scoreboard reading Boston University 7, Bucknell 0. Had the Bisons scored they would have gone into the dressing room at halftime with the score tied, and also with the idea that they could score on Boston. This would have given them the added incentive they so badly needed in the second half.

Boston Too Powerful

Boston's powerful offense came to life in the second half by scoring two touchdowns. The BU Terriers second score came about a third of the way through the second period with quarterback DiNitto passing to his end Regan good for 64 yards. Kenney once again booted the extra point. Mid-way through the period Boston ran back a Bison punt to their 40. With Dean's hand running and Di Nitto's pinpoint passing, Boston rolled to its third score. On the Bison 14 Di Nitto passed to Kenney good for the touchdown. Kenney's kick was good and the score was 21-0.

Boston Passes For Tally

The Terriers' final tally came after

Coach Of The Week Ben Kribbs

by Bill Sharkey
Ye Sporty Editor

The Bucknellian sports staff takes great pleasure in naming varsity basketball coach, Ben Kribbs as the "Coach of the Week".

Ben Came Here Six Years Ago

Ben came to Bucknell six years ago. When he arrived Ben was faced with the problem of building up the then weak Bison Hoopsters. Despite formidable obstacles Ben built the team up to the efficient powerful squad that it is at the present time.

Graduate Of Clarion

Ben is a graduate of Clarion State Teachers College, class of '39. Mr. Kribbs did his graduate work at the

University of Pittsburgh and Penn State. Ben turned back to Clarion as their basketball and football coach. Mr. Kribbs also coached basketball and football with great success at Freeport (Pa.) High School, and at Waynesboro (Pa.) High School.

Big Hopes For This Year

Ben has big hopes for this year's team. He believes that this team has potential, and that it wants to go places. Although he lost five seniors from last year's team, Ben still has some excellent juniors on the squad.

To Play in Tourney

Mr. Kribbs also informed us that Bucknell would play in the Carousell Tournament in Charlotte, N.C., during the Christmas vacation.

Ben, Father of 3 Sons

Ben is a family man and is the father of three sons, one in high school and the other two in the 4th and 6th grades. One of Ben's greatest pastime pleasures is going fishing with his boys.

The Bucknell staff and the students of the University wish Ben and his basketball team a victorious season. One that will be better than last year's or at least its equal.

A Dog Bit Me

Clark Hinkle, Star Back

The most renowned football player to come out of Bucknell was Clark Hinkle, the Thundering Herd's fullback in 1929-30-31. Hinkle was named the fullback on most of the All-East teams and was also selected on the Associated Press, United Press, N. S. and N. E. A. In 1929 he led Eastern backs in scoring with 129 points. In 1931 he took over the signal calling post and piloted the Bisons through an unbeaten season, the only in the East. Hinkle was also elected to the Helms Professional Football Hall of Fame.

WILKES TOPS SOCCER TEAM
by John Toal

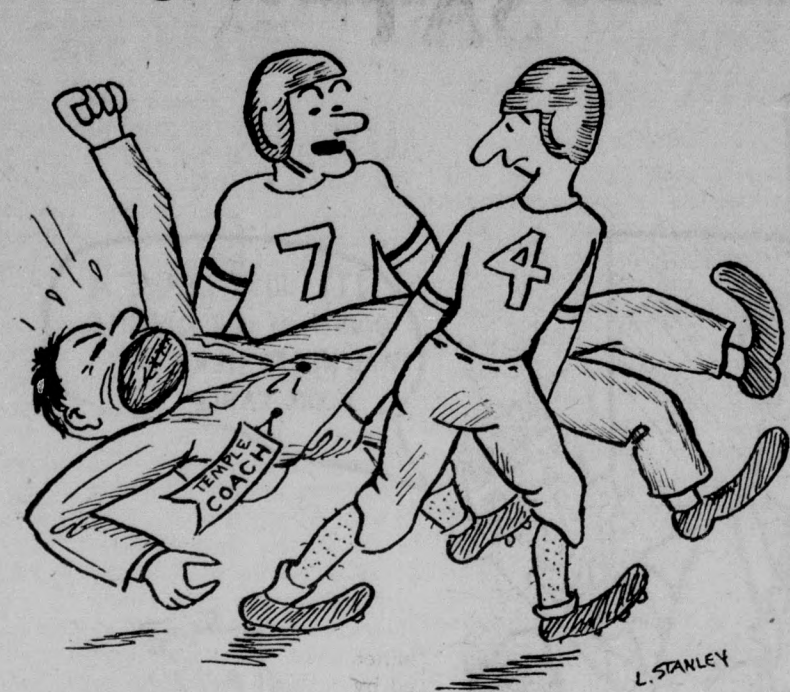

It was a miserable, rainy Friday the eighteenth and it might as well have been Friday the thirteenth for the Bucknell soccer team; because they demonstrated in easy lessons how not to win a soccer game when in the last 11 seconds of play they were tied by Wilkes College. The 3-3 score indicates the even play on both sides; however it does not show the other goals that were scored and called back, or a penalty kick missed by Bucknell.

In the first period the Bisons started fast by scoring two goals. The first was scored when John Toal headed into the Wilkes goal a fine, high corner kick from outside by Jim Baita. The second goal came minutes later on a penalty kick also by J. Toal after a Wilkes fullback was judged guilty of roughing it in the penalty area. Two more goals were scored by the Bisons in this period, but they did not count because of offside violations. Mead Giesel scored a goal on a head shot, but he was called offside by an official. Halfback Tom Clark scored on a line drive shot from ten yards out; however, this too was not allowed because of another Bison offside.

Midway in the second quarter a Wilkes fullback committed a personal foul and a penalty shot was declared by the referee. Toal's subsequent penalty kick was easily deflected over the goal by the Wilkes goalie. This miss turned out to be very important; for the BU defense proceeded to lapse twice in the final five minutes of the second quarter, thereby allowing the wide-awake Wilkes team to knot the score by halftime.

In the last half of the tiff both sides played well. The BU defense seemed that no one would score again. Then with five minutes left in the final quarter, center forward Wacky O'Hara shot the ball into the right hand corner of the Wilkes goal, giving Bucknell the lead once more. However, it was not to be. Coach Hank Peters first victory over the team from Wilkes-Barre. This was to be the fifth time in as many years that a Bucknell team was tied by Wilkes for in the last 11 seconds of play a Bison fullback kicked the ball in front of his own goal, setting up the final and tying score for the Wilkes-Barre boys.

SPORTS CARTOONS

"I TOLD HIM NOT TO OPEN HIS BIG MOUTH AT THE KICKOFF!"

"HE ISN'T GOING TO PLAY THIS YEAR BECAUSE HIS GIRL DOESN'T LIKE TO GO TO THE GAMES BY HERSELF."

It's the set of the soul that determines the goal, and not the storm or the strife.

William Bucknell, donor and trustee of Bucknell University, died in the tragedy of the Titanic.

What ever you are sure of, be sure of this, you are dreadfully like other people.

Because of blinking, you spend 11 to 14 percent of your waking hours in total darkness.

Jim Kozlowski, co-captain of the Bucknell 1955-56 football team, is now the line coach and head baseball coach at Muhlenberg College.

Let's remember, it's you boys that will be bringing home the bacon in a year or two, and the earlier you start developing into a real club, the better off we will all be for it.

Lafayette Tickets

Students wishing to purchase \$2.50 tickets for the Lafayette game for \$1.50 may do so at the Athletic office in Davis Gym.

Frosh Squad Halted By Powerful Bullets

It was another sad day for the Bucknell Freshman squad when they were destined, after a hundred mile bus ride, to gracefully accept the crushing defeat given to them by the G-burg boys.

Terries Perform Well

The first quarter alone was proof in itself as to the over-all superiority of the Battlefield eleven. Early in the first quarter they fumbled, but recovered like real veterans and ran their first of five touchdowns. Soon after still in the first quarter, the G-burg squad once again showed the hustle that we seemed to lack by intercepting one of our screen passes and returning the ball up field 50 yards to make it 14 to zip; naturally they kicked good for the extra point. At the quarter the scoreboard read a very discouraging 21-0. The other TD was executed by a long pass play.

Blocked Kick

Although our boys, it is true, bade few complete passes, we did manage to go over the old TD line, but only to be called back on a penalty. But aside from this advance, there remains only one other worth interesting play. This was a beautiful broken field run by Terries, the full-back.

Meibergers Out

It might be said that one of the staunch football fiends of our Baby squad, Mel Meiberg is out with a broken leg. He should be ready for action when the spring practice rolls around though.

Team Needs More Drive

Maybe it is a little bit more drive that our boys need to take some of the honors for a change. But to spite the reason for their first two losses, we should first and foremost have a hell-raising Freshman year out there at Bucknell Stadium on Saturday at 2 o'clock to whip Delaware right back over the Mason-Dixon line.

Will Serve Under ROTC Plan

Rogers married the former Nancy Taylor on August 17, 1957, and he now lives at 1194, Market Street. In June he will receive his commission and serve two years in the infantry. After completing his service, Rogers hopes to go into the coaching field.

Another girl who needs a great big hand is the one who is about to make a left turn.

Tennis is one of Bucknell's outstanding spring sports. The varsity tennis team has had better than a 500 average for six consecutive years.

Bison Of The Week Rogers Frassenei

by Bill Bannak

Rogers Frassenei, 5-11, 172 pound senior end from Salsburg, Penna., is this week's "Bison of the Week". At Salsburg High School, Rogers played football, basketball and baseball. In baseball he was one of the only athletes to receive a letter four years.

Has Played Nearly All Sports

After graduation Rogers went to Kinki Prep where he played football and baseball. At Bucknell "Cheeta" has played three years of varsity football and participated in every intramural sport for Sigma Chi. Last year he was the 175 pound wrestling champion. He is also a member of the "B" club and Officers' Club.

Outweighed But Not Outplayed

"Cheeta" is the smallest end on the Bison squad but he more than makes up for his size in ability and desire to win. He is often outweighed 40 pounds by his opponent but with his science for football this makes no problem. Because of these things and his great spirit Rogers was elected Co-captain of the team.

Will Serve Under ROTC Plan

Rogers married the former Nancy Taylor on August 17, 1957, and he now lives at 1194, Market Street. In June he will receive his commission and serve two years in the infantry. After completing his service, Rogers hopes to go into the coaching field.

Another girl who needs a great big hand is the one who is about to make a left turn.

Soviet Union's Satellite Accomplishment Finds Intellectual Pickpockets At Work

by Jim Chapman

A little better than two weeks ago we were all startled and amazed by the fact that the Soviet Union with the aid of East German scientists, had successfully launched and maintained a man made satellite some 580 miles above the surface of the earth. Scientists all over the world praised and lauded the work of the great minds in Russia. Not only had they been able to make a "moon", but had the rockets to get the space intruder up there, something which, as far as we know, the United States and other leading powers could not boast of.

However, the principle reaction in the United States was one of worry and anxiety. The person in the street, uneducated as he is, could only look at the accomplishment feeling nervous about the fact that Russia had "won-out". This concern over Russia's "winning out" was also top in the minds of our leading politicians, the highly educated men who run our country and shape its future. Their eyes and minds could not appreciate this wonderful achievement, but only look at the fact that our pride and reputation for doing things first had received a severe blow.

Instead of turning the other cheek, congratulating Russia and realizing what the Russians had accomplished, these "intellectual pickpockets" formed committees and sub-committees and set up inquiries as to whose fault it was that we did not get a satellite up there first. Think of the taxpayers dollars that will be consumed in this fruitless pursuit, and then wonder why men of such accredited ability are in office. For what will be gained if it is determined who we were second; if anything this foolishness will only slow the project up and show to the Russians that we are not mature enough to face the facts as they are and continue in our efforts. We already look foolish enough as things stand, let's not make it any worse!

To change the train of thought, it might be interesting to look into the real significance of the satellite. Let's go back a few years when all the newspapers were buzzing about the flying saucers. The idea was mocked both in the press and on the air, and also in some science fiction movies that were produced about that time. Everyone said the idea was absurd. The advocates of inter-planetary travel were scoffed at as the Wright brothers were when they claimed that they could get a heavier than air craft to fly independently above the earth. When they were able to successfully fly, few ever thought that anything would ever come of it, and the Wright brothers were called "crackpots", insane, infatuated with a lunatic idea. As they were laughed at, so were the enthusiasts of space ships. Those who laughed, you and I, should be greatly sobered by what has happened 580 miles above the earth's crust. In only half a century, easily in the lifetime of some of our parents, man has progressed from Kitty Hawk to "sputnik". Keeping this in mind, I believe it is very safe to predict that by 2000 A. D., we will be experiencing inter-planetary travel. Only to be the ones of our children, who will have the opportunity to experience such an event!

Interest Groups Want Students

by Dick Sacks

Attention: Some Bucknell students. I want to talk to you about a creeping complacency that outwardly seems to prevail on this campus. The time has come when we should direct ourselves toward a university education. The rising fact is that we are attending classes almost against our will. Recall these long, antagonizing, wicked, tumultuous ten minutes when we have against all odds that our beloved benefactor might overlook, thus permitting our undernourished, thin, weak, pale face to crawl down to "Chet's" for that emancipating cup of java. Why not? This is as good a place as any to while that hour. But think, are our minds getting sick, pale, and deflated along with our face? Our mind needs a well-planned uplift in the right direction. To reduce it to pure dollars and cents:

\$850—Tuition
\$450—Board
\$200—Room
\$250—Spending money

\$1750 (at least)

I think this speaks for itself.

"Enough", you say. "Just what are you or anyone else going to do about it?" I say no one can perform this magnificent surgery alone. It takes a lot of interested Bucknellians . . . and interested faculty members. Why not include the faculty? Sure they look different, but let us be greedy and try to extract their minds, or something from their minds.

To get to the point, a group of "interested" Bucknellians are advocating "interest" groups whereby we can meet with a faculty member on a Sunday night perhaps for a few hours to sit about and "shoot the breeze." We are hoping that we will be able to extract something besides O2 from that air.

The classroom is fine as far as it goes, but that schedule, that B, that "hook", that D, makes us squirm in our seats. It would be great to have discussions the entire period of class, but it just is not practical.

I would like to issue an urgent plea to put a stop to this "activity", but without you we are nowhere, of wasteful, aimless wondering. Any

QUALIFICATION EXAMS ANNOUNCED BY C.S.

Examinations to provide for the qualifications of employees in seven professional and technical classes of the Department of Welfare, Department of Justice, and the Department of Military Affairs were announced today by the State Civil Service Commission.

Ralph D. Tive, Executive Director, said ratings for persons employed as tuberculosis physicians I and II in Welfare, cardiologists, pharmacists and dental hygienists in Welfare and Justice, and aviation inspectors employed by the Department of Military Affairs will be based on an evaluation of experience and training. This record should be reported on an application for civil service examination and submitted to the Commission prior to scheduled deadlines. Final filing date for incumbent tuberculosis physicians and aviation inspectors is October 23. Cardiologist, pharmacist and dental hygienist incumbents have until October 25 to file applications.

Salary ranges for tuberculosis physicians are from \$7055 to \$11,501; cardiologists earn salaries which range from \$6380 to \$10,994; pharmacists' salaries are from \$4561 to \$5903; dental hygienists are paid \$3077 to start, with a maximum of \$3925; aviation inspectors' pay scale is from \$3007 to \$7772. Applications may be obtained from the State Civil Service Commission, Health and Welfare Building, Seventh and Porter Streets, Harrisburg, or at any of the following offices: Bureau of Employment Security; Pennsylvania State Employment Service; Liquor Control Board and State Stores.

member of our faculty interested in a program of this sort please drop a note to us:

ESSO RESEARCH works wonders with oil

Triggering the starts that save lives

On what happens in the next second or so, hinges the fate of someone's property—perhaps even someone's life! A switch is turned, a starter is pressed—an engine takes hold instantly! Fast starting, anti-stalling and many other qualities of gasoline which today add to your safety and driving pleasure were pioneered by Esso Research. In this and hundreds of ways, ESSO RESEARCH works wonders with oil!

OFF THE CUFF

Take a deep breath. That's the smell of burning leaves. It may be fall, but it's still warm in the sun. Just the same, if you've collapsed in the shade lately, you know that summer's gone. It's time for something more than a shirt.

A long-sleeved knit shirt is pretty comfortable along about now—just warm enough. And this isn't the old polo-shirt deal, either. The newest knit shirts are cut just like a regular shirt, complete with button-down collars. In the solid colors, red is a natural. Loden green is growing fast in popularity, too. Stripes are always good, particularly when they're offered in Ivy colorings.

Trend setters swing to the ones with a horizontal stripe across the chest (brooding, I'm told), designed after the Italian style.

There's a good choice of fabrics in knits this season. Besides the perennial favorite, the flat knit cotton, there are now all-cottons that look tweedy and wooly. A new Orlon-wool construction creates a fabric that is both warm and washable. For a weekend trip to a neighboring campus choose a 100 percent Orlon knit that affords all the advantages of quick drying and a minimum of wrinkles. Whichever you pick, and whatever pattern of color you like, they all look pretty trim.

Of course, there are times when even the handsomest knit shirt is too informal. If you want a warm, comfortable shirt that's still dressy enough for dinner off campus, the new Arrow Cambridge Cloth shirts provide the answer. These are made of brushed cotton, and they feel almost as soft as cashmere. In solid colors, such as blue or ivory, they can be worn any place you would wear a good oxford button-down. Ivy League styling, with the new short-pointed Kien button-down collar plus trim Mitoga fit, makes this a great shirt for almost any fall occasion. In broken line checks of stripes, the Cambridge Cloth takes on a sportier look.

With either knits or Cambridge Cloth shirts, that old standby the grey flannel slack is always good. If it's time for a new pair of slacks, a medium grey is more popular than the charcoal that was the rage last year. You'll find that slacks are a little narrower this year and look very good especially the pleated front models. Back-buckles are reserved for the high school set this year. Pick a pair without the after-deck trimming or simply take the back strap and buckle off of an otherwise good slack.

One word of caution: even if you have a new grey flannel suit, don't use the pants as slacks. You'll find it's economy in the long run to have slacks that are worn only with sports jackets. Nothing looks worse than a suit with a new jacket and baggy pants. Wear the suit as a suit, and it'll last twice as long.

ROTHWELL ATTENDS GOVERNMENT MEETING

Dr. Kenneth J. Rothwell, assistant professor of economics at Bucknell, represented the University at a recent conference of government and business leaders at Arden House, Columbia University, which has resulted in the establishment of a Business Council for International Understanding.

Dr. Rothwell was invited to attend the conference in the role of consultant-reporter. Purpose of the newly-formed Council, he explains, is "to assist and encourage U. S. business in its efforts to improve the understanding abroad of the people and the economy of the U. S."

The Council will stimulate the exchange of international ideas and experiences, develop programs for the business enterprises operating abroad and encourage cooperation with economic interests of foreign nations.

The conference heard addresses by Harold Stassen and Roy Henderson of the State Department and Arthur Larson, former head of the United States Information Agency. Chairman of the conference was Dr. Henry Wriston of the American Assembly and president emeritus of Brown University. Panel members represented most of the larger corporations with vital overseas interests.

Professor Rothwell said that the future work of the Council should fill many of the gaps in the U. S. overseas ideological struggle. A native of Australia, Dr. Rothwell joined the Bucknell faculty in September after teaching and research work in international economic relations at Harvard University.

There actually is a place called Buckley. It is a town with a population of 1,652 in th state of Washington.

Strand Features 'Sun Also Rises'

by Lee Wentzel

"The Sun Also Rises", one of Ernest Hemingway's earliest, and to many his finest book, and translated to the screen by Darryl F. Zanuck, will open a three day engagement at the Strand Theatre in Sunbury Sunday.

Starring Tyrone Power, Ava Gardner, Mel Ferrer, Errol Flynn, and Eddie Albert, the Cinemascope color production specifically tells the story of Jake Barnes (Tyrone Power) and Lady Brett Ashley (Ava Gardner) and their attempts to solve their seemingly hopeless love.

Moving against the authentic Hemingway backdrop of Paris, Montmartre, Biarritz, France, and the week-long bullfight fiesta of Pamplona, Spain, the film deals with the intertwined lives of these members of the post World War I Anglo-American society. This "lost generation" remained in Paris and throughout Europe after the war to "live as they were about to die."

The picture also boasts of an impressive cast of supporting and featured players including Gregory Ratoff, Juliette Greco, and Robert Evans, whose portrayal of Romero, the bullfighter, has always occasioned much notice since the motion picture industry.

The interpretation of Hemingway's book has been almost at adding a new cinematic depth to the author's famous characters without losing the essential value of their established identities. For Peter Viertel, scriptwriter for the production, and a good friend of Hemingway's, is a firm believer in retaining the basic merit of proven works—the dialogue, the plot, the character development are all Hemingway, with a new depth added by Zanuck. Also on Monday and Tuesday Bucknell students will be admitted for 40c at night and 24c in the afternoon with the showing of student I. D. card.

Slightly Personal

by Kathy Cressett & Suzie Van Pelt
CONGRATULATIONS TO:
Jim Sheaffer SAE and Nancy Gil.

BEST WISHES TO:

Leading medieval universities like Paris, Bologna, and Oxford had thousands of students including boys from the ages of 12 to 15.

The last "suit" ever seen on an American campus was in 1941—and I ought to know because I was wearing it. I was an undergraduate then, and in love with a beautiful statistics major named Harry Sigafos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I loved Harry madly. Though her expensive tastes were the ruin of me. Bit by bit I sold off my belongings to pursue this costly courtship—first my books, then my clothes, until finally I was left with nothing to wear but a "suit." One night I came calling for her in this garment and she, of course, slapped me across the face with a riding crop and sent me from her door.

I slunk home and lit a Marlboro and sat down to think. I always light a Marlboro when I sit down to think, for their good mild flavor is a great aid to cerebration. I always light a Marlboro when I don't sit down to think, too, because Marlboro is my favorite cigarette, and I know it will be yours, too, once you make the acquaintance of that filter, that flavor, that flip-top box. As the man says, you get a lot to like with a Marlboro.

Well, sirs, smoking and thinking thus, my eye happened to fall on an ad in a campus newspaper which said: "WIN A COMPLETE WARDROBE! Touhy's Toggery, the campus's leading men's store, announces a contest to pick the best-dressed man on campus. The winner will receive absolutely a complete new wardrobe!"

Struck by a sudden inspiration, I took pen in hand and wrote a letter to Mr. Touhy of Touhy's Toggery: "Sirs—I see by the paper that you are giving a complete new wardrobe to the best-dressed man on campus. What a ridiculous idea!

"Obviously, to be the best-dressed man on campus, you must first have a lot of clothes, and if you have a lot of clothes, what do you need with another wardrobe?" "Touhy's Toggery should give a new wardrobe to the worst-dressed man on campus. Me, for instance. I am an eyesore. There isn't a crow in town that will come near me. Three times this month the Salvation Army salvage truck has picked me up. *Esquire* has canceled my subscription.

"I submit that a vote for me is a vote for reason, a vote for equity, a vote for the American way!" With a flourish I signed the letter and sent it off, somehow feeling certain that very soon I would be wearing a complete new wardrobe.

And I was right—because two weeks later I was drafted.

Always fashionable, always correct for any occasion, is the bright red and white flip-top box of Marlboro, made for your pleasure by the sponsors of this column.

BEHIND THE MIKE

by Jenny and Joel

Well, with deadline time growing close, we were sitting in the Bison on Friday night when we heard Glenda Dornise and Harvey Berk start to announce the 640 Club Hop. After they introduced the band and their sponsors, we called them over to discuss the possible inclusion of the 640 Club in our column. When they agreed, we began to write feverishly on the table top of our little booth. It seems that the 640 Club holds dances on 14 Friday nights through the school year. Three of them have already been presented, so we can look forward to 11 more excellent shows put on by Glenda and Harvey.

Glenda, the prettier of the two, is an A. B. in languages, and is a Lewisburg coed. She has lived here all of her life. Among her other activities, she is now active in Alpha Phi sorority. She deserves very special commendation for her exceptionally hard work at WVBU in the music department.

Harvey, a junior from Brooklyn, is the other half of the 640 Club duo. Although his mechanical engineering course takes up a lot of time, he still finds time to fire on the Bucknell Rifle team and the Lewisburg Rifle team. Harvey is now in the process of selling advertising for the 640 Club dances so that bigger and better shows can be put on for the students' enjoyment.

The 640 Club derives its name from the fact that such programs are put on at the Bison, are simultaneously broadcast over WVBU, what is going on, Behind the Mike.

With two such excellent people running the show, and the enthusiasm that the students seem to have for live music, we saw no reason why the 640 Club should not be the top date spot on campus every Friday night from 9-12. If you can't make it down to the Bison, for one reason or another, be sure to tune in to 640 on your dial to hear just what is going on, Behind the Mike.

On Campus with Max Shulman
(By the Author of "Rally Round the Flag, Boys!" etc.)

CLOTHES MAKE THE BMOC

Last week we passed along some fashion hints for coeds. Today we will do the same for college men. The most important thing to remember, gentlemen, is to dress with verve, with dash, with inventiveness. Don't be impressed by the traditional conservatism of men's clothing. Brighten up your appearance with a single earring, or a cavalry saber, or a gold derby.

Guard Against Gaudiness

However, guard against gaudiness. If, for instance, you are wearing a gold derby, do not wear a cowboy hat. This is too much. Wear a dagger instead, or, for formal occasions, a bowie knife.

Let us turn now to a persistent rumor that a garment called the "suit" is on the verge of making a comeback. Some of you older students may remember this "suit." It was an ensemble consisting of a jacket and trousers, both of which—this I'll kill you—both of which were made out of the same material!

The last "suit" ever seen on an American campus was in 1941—and I ought to know because I was wearing it. I was an undergraduate then, and in love with a beautiful statistics major named Harry Sigafos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I loved Harry madly. Though her expensive tastes were the ruin of me. Bit by bit I sold off my belongings to pursue this costly courtship—first my books, then my clothes, until finally I was left with nothing to wear but a "suit." One night I came calling for her in this garment and she, of course, slapped me across the face with a riding crop and sent me from her door.

I slunk home and lit a Marlboro and sat down to think. I always light a Marlboro when I sit down to think, for their good mild flavor is a great aid to cerebration. I always light a Marlboro when I don't sit down to think, too, because Marlboro is my favorite cigarette, and I know it will be yours, too, once you make the acquaintance of that filter, that flavor, that flip-top box. As the man says, you get a lot to like with a Marlboro.

Women To Hold Halloween Party

A Halloween party sponsored by the House of Representatives of W. S. G. A. for all women students will be held on Thursday, October 31, during the usual dinner hour in the Women's Dining Hall.

All of the women's hall groups and the commuters are invited. They will come in costumes centered around group themes. Special guests will be the head residents.

The dining room will be decorated for the affair, and the program will include skits, which are to be three or four minutes in length on any topic, presented by the hall groups. They will be judged by a panel of five judges on the basis of originality and presentation, and prizes will be awarded.

General chairman of the party is Cynthia Blunt with Diane Smith as

decorating chairman, Sandy Kast as

chairman of the committee for

judges, Janet Herrmann as chair-

man of the prizes committee, and

Jeane Anderson as chairman of

invitation committee.

Open Letter

(Continued from Page 1)

faculty. Yesterday afternoon we received enough for an additional 300 shots. These will be available on Friday, October 25, on a "first come, first served" basis to all students and employees of the University who have not yet received an injection. As future supplies are received, notice will be given through dormitory newsletters, head residents and fraternity presidents, as well as The Bucknellian and WYRU. But please do not go to Ziegler Infirmary for your injection at meal times. The nurses have been extremely busy for more than a week and are fully occupied at meal times serving trays to the patients.

Finally, a word about prevention. Basically, the only preventive measure is the maintenance of good health by keeping one's resistance to infection at a high level and avoiding crowded places where ventilation is poor. Suggestions from doctors and public health authorities include going to bed early, avoiding fatigue, crowds and excessive concentrated carbohydrates (Coca Cola, beer, whiskey), drinking plenty of other liquids, preferably fruit juices and water. Dress warmly and keep dry.

Should our general situation become worse, it may become necessary to sharply curtail extra-curricular activities. For the present, it is strongly recommended that extra-curricular groups limit their activities as much as possible. Long rehearsals and excessive physical exertion should be avoided. Group trips away from the campus in buses and automobiles should be cancelled whenever possible.

To date we have been fortunate in that all cases have been mild and none have been followed by serious complications. By intelligent behavior and cooperative effort we may well be able to avoid any serious effects. I believe that the University is well prepared to deal effectively with whatever situation may develop, and feel certain that all Bucknellians will, as they have in the past, work for the best interests of the group as a whole.

Very sincerely,
John C. Hayward
Dean of Student Affairs

In Memoriam

(Continued from page 1)

Along with his long teaching career, Dr. Davis was well-known in collegiate circles as a writer. He was the author or co-author of five textbooks in the field of guidance and pupil personnel.

For 15 years he headed the Bucknell Demonstration School and for many years prior to World War II, was the editor of Bucknell's Journal of Education.

As an alumnus of Bucknell, Dr. Davis was affiliated with the alumni association for some time. He served seven and one-half years as general secretary and for eight years was the editor of the alumni publication. He was the first director of the Bucknell Alumni Fund.

In 1933 he was named to Who's Who in America and later to Who's Who in Education. In 1954, Dr. Davis was one of eight in America to receive a merit citation from the As-

elects during the first semester. Marilyn Ekiss is a chemical engineer and is a member of Phi Mu sorority, a member of Alpha Lambda Delta, freshman women's scholastic honorary, and secretary of the student chapter of the A. I. Ch. E.

The second junior is Richard J. Wildenberger, a Navy veteran. He is majoring in electrical engineering.

George Hettich, the third Honor Junior, is majoring in mechanical engineering. He is a member of Phi Eta Sigma, freshman men's scholastic honorary and Phi Lambda Theta fraternity. He also participated in freshman football.

Three Seniors Elected

William Spaulding, a senior, is majoring in mechanical engineering. He is a member of Phi Kappa Psi fraternity, treasurer of Phi Mu Epsilon, mathematics honorary, and is president of the American Association of Mechanical Engineers.

Senior Eugene Waldner, majoring in civil engineering, is a member of Sigma Chi fraternity, treasurer of Engineering Council and vice president of the student chapter of the American Society of Civil Engineers.

Also a civil engineering major, Richard Tennent, a senior, participates in Cap & Dagger productions and is a member of Theta Alpha Phi, dramatics honorary and American Society of Civil Engineers.

association for Adult Education. He is a member of numerous education fraternities and directed the Bucknell University summer school extension work from 1935 to 1943.

It was he who conceived the idea in 1933 of a Bucknell Junior College, to be located at Wilkes-Barre, and he began the program by making necessary surveys and setting up the organization. The junior college was identified with Bucknell until 1947 when it became Wilkes College.

The University of Wichita is not allowing freshmen and sophomores to register for more than 12 semester hours in the morning. Lack of classroom space and scarcity of teachers necessitated the move. It seems everyone wanted morning classes rather than afternoon classes.

INDEPENDENTS ELECT CARYL VICE-PRESIDENT

(Continued from Page 1)

Sandra Caryl, a sophomore from Senanton, Pa., was recently elected treasurer of the Independent Women's Council. Sandy is a fire-side leader, secretary of Synchronized Swim Club, a member of the Chapel Choir, and participates in both intergroup and intramural sports.

She is a sociology and psychology major, and last year she was chosen the outstanding girl in the Freshman class.

NUMBER 7.

Dave Halbert Victorious In Frosh Presidential Race

Recipient of Bucknell Lectureship To Speak on Lamprey Control

Dr. Manning A. Smith, professor of chemistry at Bucknell University, first recipient of the Class of 1956 Bucknell Lectureship, will present an open lecture in the Olin Theater at 8 o'clock next Wednesday evening in accordance with provisions of the award which was announced last spring.

Established by the class of 1956 as its graduation gift to the University, the Lectureship calls for the selection each year of a member of the faculty who will receive a cash award in recognition of inspirational teaching.

The teacher chosen for this honor is then invited to give an open lecture in order that he may be heard by a larger group than that which he ordinarily addresses in classroom lectures.

Subject of Dr. Smith's lecture, scheduled for 8 o'clock in the Olin Auditorium, will be "Sea Lamprey Control in the Great Lakes," a subject in which he has been particularly interested and in which he has actively participated.

For several years scientists have been seeking a compound which will effectively destroy the larva of the sea lamprey, a lecherous eel which sucks the blood from game fish and which has invaded the Great Lakes to an alarming extent.

A number of different compounds have been created, some of them too expensive for practical application. Dr. Smith and his colleague, Dr. Harold Heine, were engaged two years ago in producing a quantity of one of the compounds used in the tests.

Work on the control project is still continuing and Dr. Smith is spending this week observing tests now underway at the Hammond Bay Fishery at Rogers City, Michigan.

The Fishery is one of the laboratories of the Fish and Wildlife Service of the U. S. Department of the Interior.

MEMBERS ELECTED FOR MSA COUNCIL

Men's Student Association recently elected a new treasurer, Joe Bellace, and two members of the executive council, George Mandakis and Rick Elliot. Al Reubel was appointed M. S. A. social chairman.

Money Bags Controller A five year engineer with a B. S. in mechanical engineering and an A. B. in economics, Joe Bellace will fill the treasurer's spot. He is treasurer of Phi Kappa Psi, men's council, a member of L'Agenda staff, a R. O. T. C. officer, a "B" Club member, and he plays varsity basketball.

Executive Council Enlarged Added to the Executive Council are George Mandakis, '59, and Rick Elliot, '61. A C&F major, George is an officer of Sigma Chi, a member of Booster Club, a WVBU disc jockey, past social chairman of Roberts Hall, and participated in freshman basketball.

Rick Elliot, '61 was elected as one of the two new members of the MSA executive board. In high school Rick was on the student government, a class officer, and participated in varsity athletics. Here at Bucknell, he is a C&F major and is on the freshman football team.

Reubel As Social Chairman Al Reubel, '59 will be acting as social chairman of MSA this year. A political science major, Al started as a representative to MSA his freshman year. Besides holding the position of social chairman of Sigma Alpha Mu at present, he is now chairman of the social committee of IFC. Active in sports, Al is a member of the varsity tennis team, men's intramurals, and the Varsity B Club.

Also along the social line, Al is on the ROTC dance committee.

Class '59 Dance To Feature Band Of Ben Goodman

The Benny Goodman Orchestra will highlight the Junior Class dance scheduled for Friday, November 15, from 9 to 1 a. m. in Davis Gymnasium.

Decorations for the dance will feature the Benny Goodman theme song, "Let's Dance."

The Goodman band is engaged in a tour of the east coast. Featured artist of the performance will be trombonist Uriel Green.

This year the Junior Class Dance will replace the cancelled IFC dance previously scheduled for early November. Tickets for this semi-formal dance will be sold at Swartz Cafeteria, all fraternity houses, and by representatives in the dorms.

Representing Bucknell at the convention were Ginny Emmitt and Marla Neveling.

Included in the weekend program were business meetings, discussion groups, a trip to the Corning Glass Works, a dance, and lectures by prominent journalists.

Colleges and universities from all over the United States were represented.

Announcement of the winners was made at the annual convention of Pi Delta Epsilon, national journal honorary, held at Cornell University last weekend.

... Another Time Waster

Every year when the freshman girls embark on their four year career at Bucknell University, the hush hush starts, as a damper is put on the word "sorority". Many women enter college without the slightest inclination of what a sorority is, while others have had a definition of the word explained to them or have had experience, in a small way, in a high school sorority. Why should these girls be left in the dark about sororities, their functions, their good and bad points, and how the rejection of not getting a bid isn't as bad as it really is thought to be. Much of the explanation is left up to the counselors, but here again is the biased opinion of a girl who is either a sorority girl or an independent. I myself don't feel as though the sororities on the Bucknell campus are so high and mighty and so important in a girl's career at college that they, the sororities, can dig themselves into seclusion. In reality most of the word sorority is explained to girls in the old way, called "dirty rushing."

Before stating the good and bad points of sorority life, a motive of "why I want to join a sorority," must be looked at first. The primary motives found by a freshman girl after a few weeks of school are: it's the thing to do because everyone else is, my roommate is thinking about it and she is such a great girl that I certainly don't want to lose her companionship, and lastly I've been told that you are just a nothing if you are not a sorority woman. Everyone of these motives is very valid as most of you know, and if there is anything that makes a person believe a sorority is a force it is these motives of joining one that can care so. I am sure that many of you will be up in arms about these previous statements, but I am honest with myself and really evaluate how true these motives are.

Of course there are many advantages to sororities. Such as friendship, co-operation among fellow girls, peace, and many other factors that contribute to a girl's life. The next question is, couldn't you get all this building up of character without a sorority? Of course you could. Friendships are gained when you are a freshman, the women living on your floor or in your house, the women you associate with in your daily activities of class room work, an hour at Chet's, or whatever have you. Co-operation is gained in the way you can work with other women in the many activities that are offered on the campus, and you can be had in the simple way of your associations, understanding and conduct of your new life at Bucknell. All of these advantages can be easily had without—sorority.

There are many disadvantages to sororities that far exceed its advantages. One being discrimination on the part of a sorority in choosing a girl, the self-confidence that is thought a girl will gain, the financial factor, the time consuming projects, and lastly the unhappiness that can be involved in a wrong choice.

To elaborate on these disadvantages, take discrimination as one. Many sororities are forced to use discrimination in the manner of restricting a girl because of her race or religion. This can not be put to blame on the girls in the sorority, because many of these restrictions are due to the national laws which require the sorority to perform in this manner. The other way in which discrimination is enacted is whether the girl is a certain type, or maybe she is shy, or many other restrictions which point to a girl's make-up or character. In this respect sororities do more harm than good, by putting hard feelings in mind, and creating much resentment between a girl and particular sorority.

A second disadvantage or should we say misunderstanding is the fact that self-confidence is gained by sorority participation. This may well be true, but don't you think it is possible to gain so much more self-confidence within oneself by working with an all around group (people of different sexes, different characters, and different likes, beliefs and dislikes) than it is to work with, lead, or guide a group of girls with the same attributes? I would say yes, because I think more self-confidence is gained when you can motivate and move ideas and thoughts of a varied idea group, rather than a close same idea group.

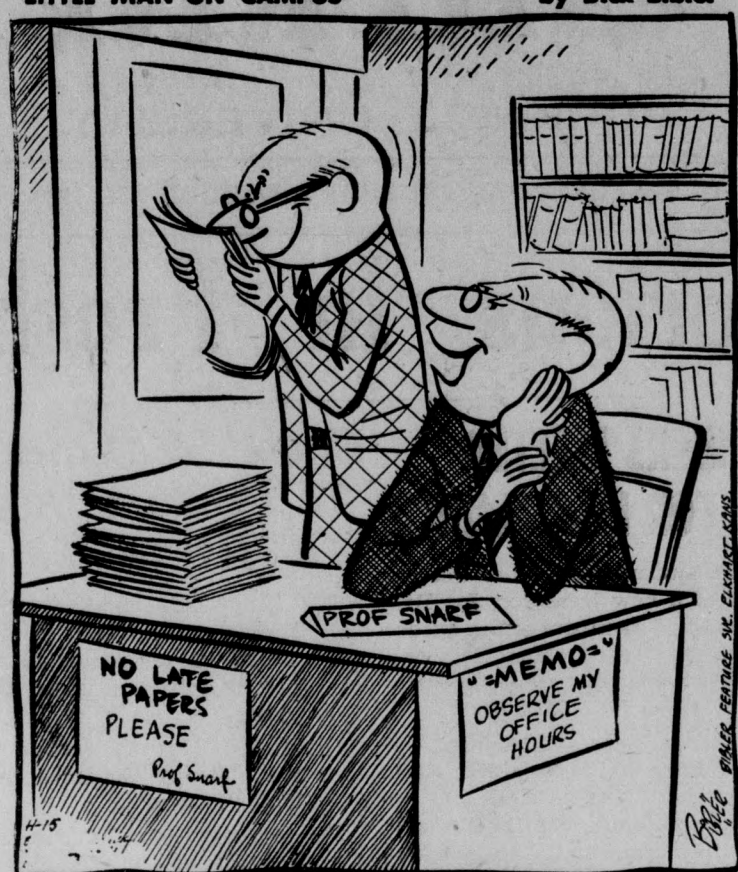

Another disadvantage of sororities is the time consuming factors, and projects that are involved in a sorority girls life. Girls must remember that during the first semester the sorority prepares for rush week, in time consuming activities such as rush parties, rush meetings and song practices. By during the regular school year there are weekly business meetings and formal as well as informal associations and activities with other sororities and other groups on the campus.

All these factors must be weighed by the freshman girl in making one of the most important decisions of her college career—how good are sororities?

—L. W.

LITTLE MAN ON CAMPUS

by Dick Rikher

"I always write my term paper criticisms illegally so th' student won't be able to take issue with what I say."

CALENDAR OF EVENTS

THURSDAY, OCTOBER 31		
4:30 p.m.	WSGA House of Reps. Meeting	Hunt Rec.
4:30 p.m.	Freshman Firesides	Owens House
7:00 p.m.	Freshman Firesides at French House, Dr. Bond's home, Owens, Taylor, Stephens, 7th St., and Edwards Houses	
7-8:15 p.m.	WRA Board meeting	Hunt Lib.
FRIDAY, NOVEMBER 1		
3:30 p.m.	Bucknell Study Subcommittee on Curricula	116 EW
	Football at Lehigh	
	Soccer at Elizabethtown	
SATURDAY, NOVEMBER 2		
9:30 a.m.	Nine-thin Class—beginning of a series of three on "A Contemporary Look at Christian Ethics"	Hunt Rec.
2:30 p.m.	Phi Mu anniversary tea	Hunt Liv. Rm.
5-10:00 p.m.	Religion in Life Program	Spotts Aud.
	Rev. Robert Bower, Glen Burnie, Md.	
MONDAY, NOVEMBER 4		
All Day	Marine recruiting	Carnegie Lounge
4:30 p.m.	Freshman Firesides at German, 7th, and Edwards Houses	
6:45-7:30 p.m.	Panell Rushing Rules Com.	Hunt Lib.
7:00 p.m.	Freshman Firesides at Larison Little Living Room, 7th St., Taylor, Hulley, Carey, and Stephens Houses	
8-10:00 p.m.	Bucknell Village Wives Club	Carnegie Lounge
TUESDAY, NOVEMBER 5		
All Day	Marine recruiting	Carnegie Lounge
4:30 p.m.	Freshman Firesides	Spratt and Walker Houses
4:30 p.m.	Bucknell Study Subcommittee on Working Conditions	321 Taylor Hall
7-8:00 p.m.	Independent Women's meeting	Hunt Lib.
WEDNESDAY, NOVEMBER 6		
10 a.m.-7 p.m.	Phi Beta Phi Settlement School Sale	Larison L. R.
11:00 a.m.	Chapel—Dr. William E. Park	Davis Gym
4:30 p.m.	Booster Club meeting	Hunt Rec.
4:30 p.m.	Freshman Firesides at 7th St. House, Carey House, and Mr. Shott's home	
7:00 p.m.	Freshman Firesides at Larison Sun Porch, Dr. Gathings' home, Stephens, 6th St., Edwards, Owens, Walker, and Hulley Houses	
8:00 p.m.	Bridge Club social	Larison Sun Porch
8:00 p.m.	Class of 1886 Lectureship—Dr. Manning Smith	Olin Aud.
	"Sea Lamprey" Control in the Great Lakes	
THURSDAY, NOVEMBER 7		
4:30 p.m.	WSGA House of Reps. meeting	Hunt Rec.
4:30 p.m.	Freshman Firesides	Owens House
7:00 p.m.	Freshman Firesides at French House, Dr. Bond's home, Owens, Taylor, 7th St., Stephens, and Edwards Houses	

Letters to the Editor

A Frosh Defending ...

Dear Editor:

Last week's article critical of the freshman intramural soccer program seems to be just another proof that "The Bucknellian" exists to tear down and belittle the University's program and its policies. The article couldn't have attacked a finer program. Freshman soccer intramurals has gone a long way in ennobling the male population of the class of '61 to get to know one another better. The competitive spirit makes them feel that they are a member of a team of which they can be proud win or lose.

The response to this program alone makes me wonder why this article was even written, much less printed. Almost without exception, the seven teams have showed up with from twelve to seventeen players for every game. Many who have never played soccer before coming to Bucknell, have come out.

A large percentage of the boys take swimming in physical education and have no other opportunities for outside recreation other than the intramural program. The small doses of soccer which the rest receive (about one and one-half hours per week) is not sufficient exercise

for one who must be "in his Swartzian cubicle" for the night studying. If there is such a large turnout for fraternity intramurals around the upperclassmen why shouldn't there be a similar program for freshmen before they are pledged?

In general it is the feeling of many students that "The Bucknellian" has taken a very pessimistic outlook upon all which the University administration has tried to provide for the students. Such an attitude does not lend itself to a very good school spirit which does seem to be lacking at present.

Thank you,
Hugh K. Allen
Class of 1961

Guilty As Charged ...

Dear Editor:
We, being of sound mind and in more or less complete control of our faculties, and of our own free will, would like to confess to a crime of major proportions. In hope of ridding ourselves of oppressive guilt complexes, and, in effect, purging ourselves, we would like to begin life anew with this public confession.

We are guilty of remaining silent (Continued on page 8)

The INFORMANT

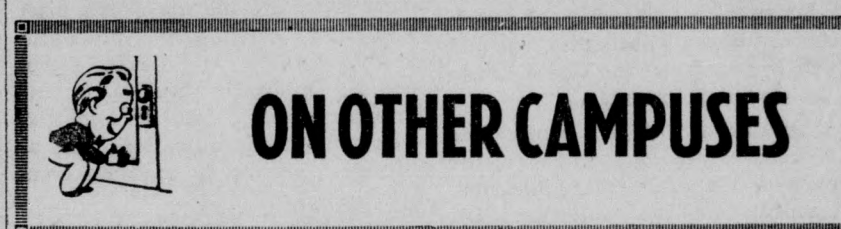

by Ira Podnos

During the warm months of the summer past, a young Englishman named Harry Case realized finally his long cherished dream. Harry lived in the small suburban town of East Westhamfordshire in the Lake district of England. He enjoyed the greenery of the district and was particularly fond of napping amongst the vales of Westmonland, but more than anything else, Harry wanted to visit the United States of America. In England, Harry was a linguistics scholar and wished to observe in the United States the manner of speech characteristic of that region. He therefore decided to tour the United States. His trip was to begin in Boston and terminate on the west coast. But unknown to Harry at the time, his trip was to terminate some where in the vicinity of Philadelphia. Upon arriving in New York City, Harry lost no time in filling one complete black book with the guttural noises he found there. Completely disappointed with what he heard, he purchased a train ticket looking forward anxiously to hearing new noises in new places. As Harry entered the train, he took a seat beside an elderly woman with a motherly appearance. They exchanged conversation freely and often, and the woman was good enough to let him sit near the window. After some time had elapsed, Harry opened the window and had his head more outside the train than inside so as to afford a better look at the countryside. Unknown to Harry, however, the train was fast approaching a narrow tunnel. The elderly woman yelled, "Look out!" He did! And thus Harry's trip ended some where in the vicinity of Philadelphia.

Now, what does this little story prove? It proves that we Americans do not know how to speak English. It proves that we often say one thing but mean quite another. It proves still further that some of our expressions are obscure and are often incommunicable.

Here is another little story that proves the exact same point. In the fall of 1955, a German exchange student enrolled at a small college in the United States. As was the custom, the President of the college invited him and other foreign students to tea. Upon entering the President's home, he was introduced to the President, his wife, and members of the faculty. When the ritual was completed, a wife of a faculty member took his arm gently and suggested that the student "take a seat" to which the student replied, "Where to?"

Our language is loaded with ambiguous expressions. But why do we have words for it not to say exactly what we mean? And why not say exactly what we mean when we have words and expressions to communicate clearly and precisely with one another. Let us all be conscious of the words we use, and let's get on the ball... you know what I mean!

by Chris Petersen

Remedy for Royals:
If you're having trouble with your 1900 vintage typewriter, take heed the following advice from the Temple News. "For instance, the most commonly used letter is 'e' therefore: let us call the key under the right index finger which is 'j' an 'e'. Let the symbol 'e' equal the letter 'j'. In a likj fashion, this right index finger should hit 't', so ljt 'f' mjan 't' andvicij vjksj. Nvjrsj 'm' and 'd', 'a' and 'k'. Ks you noticj, typjng is now duh kajsj."

New Poetry on old bug

Any resemblance to D. Collins is an unpardonable error, but this item comes from the University of Detroit titled "Shoo Flu".

Through the room your germs did creep
Sneezing here, coughing there
Putting Flu bugs in our hair
All our writers you attacked
They're sick abed, and that's a fact
While you fly all about the room
Filling us with woe and gloom
Our editor you made quite sick
We'd like to sock you with a brick!
A managing editor, too, we lack
We'd like to stab you with a tack!
But no! You cowardly little germ...
You hide... you're smaller than a worm.
How can we fight what we can't see?
Oh no! Don't you come near me.
I'm all that 'left' of what...
Was once a Varsity News staff, but...
Is now a one man operation
The rest are on a sick vacation."

Honorary society for LMOG (little man on campus)

If you have that left-out feeling the Dickinsonian advocates the S. F. A. with these powerful bylaws:

- "1. The name of the group shall be the S. F. A. (students for apathy)."
- "2. Every member shall be an officer."
- "3. There will be only one business meeting each year (this will be short, since the only business will be the taking of pictures for the year-book)."
- "4. All members will be given an emblem which closely resembles a Phi Beta Kappa Key."
- "5. Infomel meetings will take place in local bars with the treasurer picking up the check."
- "6. The S. F. A. will sponsor other activities, but will never organize or publicize them—for example, an S. F. A. Song Fest."

Who me?

From the Syracuse Daily Orange:

"Conformity, conformity
We must all seek a normity
In all the kinds of clothes we wear
Our underwear and outer wear
We all must try to act alike
To live alike and see alike
To try like hell to be alike
To go to every class alike
To go to church and mass alike
Attend the sports and games alike
Call individualists names alike
We all must chew our food alike
Go about in a mood alike
We all must shave our faces alike
Our beards we must erase alike
We'll wear our ivy clothes alike
And even wipe our noses alike
Alike we'll do these things and more
And life will be a goddamned bore",

Quotable quotes?

From the University of Detroit, "Keep your cottin-pickin' cars out of the library."

"People have gone into the basement of the Science building and have never been heard of again."

"The College of Engineering reports that there have been no suicides yet this semester."

"For the first time in history, flies have outnumbered students on the UP campus."

"No firecrackers have been set off in the library as of yet this semester."

Freak Ash Tree Survives At BU

There is now growing in back of Bucknell Hall a unique tree of the white ash variety. The distinction of the Pitcher Tree (its common name) is that it is a freak because all the lower leaflets fuse into a type of cup where each pair of leaves meet.

Thirty years ago the tree was given to the late Dr. Nelson Davis, professor of biology, by a research man from Cold Springs Harbor, N. Y. This same variety of tree was also given to several other colleges, at varying geographical locations, to see if they would survive the conditions. It is not known whether they did survive, so possibly the Bucknell Pitcher Tree is the lone survivor of the experiment.

Although its mutation would hardly be noticed, and though it has no commercial value, the tree is worth noting because it does deviate from the normal.

Dr. Wolfrom Speaks On Carbohydrates

Melville L. Wolfrom talked to an audience of faculty, students, and guests about carbohydrate sulfates last Thursday in the Olin Science Building.

Among other things, Dr. Wolfrom discussed the chemistry of heparin, a carbohydrate, which inhibits the clotting of blood.

At present, Dr. Wolfrom is Professor of Chemistry and head of the division of Organic Chemistry at Ohio State. In 1939 he was granted a Guggenheim fellowship, and in 1952 he was the recipient of the Honor Award of the American Chemical Society Division of Carbohydrate Chemistry.

Dr. Wolfrom has written over 200 articles on the organic chemistry of carbohydrates and other natural products. At present he is the editor of "Advances in Carbohydrate Chemistry."

This speech was preceded by the gathering, another one is being planned.

Friend: "What are you taking for your cold?"
Wisequy: "Make me an offer."

BISONS COMBAT LEHIGH ENGINEERS SATURDAY

by Stratton S. White

After having been clayed by the Lafayette Leopards and a flu from Asia, the Herd gathered up all the pieces and came back to the friendly 300. However, this Saturday the Bisons will have to venture East again to Bethlehem, Pa., where Dan Nolan and ten of his engineer boys will attempt to cut themselves some Buffalo steaks.

Nolan Big Threat

They tell me that this fellow Dan Nolan is a good quarterback. They say he completed six of eight forward passes, two for touchdowns, breaking Columbia and a Lehigh record. Nolan also ran for a TD on a keeper play, his favorite I might add. Since he has been at Lehigh, he has completed 128 passes in 245 attempts. Nolan is also the best ball carrier on the squad, and when Lehigh wants sure yardage, he keeps the ball and shuts off tackle. If a team tries to bottle him up by having an end crash in on him he merely pitches out to the halfback coming around who takes off like a scalded rabbit.

Lehigh Undefeated

Lehigh has won nine straight games and has a 5 and 0 record. The engineers defeated the powerful Delaware hens after which they breezed past Western Reserve, 27-6. Gettysburg, although tough against us, was not strong enough for Lehigh, losing 21-7. The boys from Bethlehem then squeezed out a hard fought decision over a very much improved Butters team 13-7. Lehigh visited Columbia as a homecoming guest, but the engineers did not mind their manners. They proceeded to stomp the toothless Lions 40-6. In doing so, they showed that they could pile up yardage on the ground as well as in the air. Another thing that hurts is the fact that the engineers have tall ends; they are Fred Daley, 6-1, 185 and Joe Wenzel, 6-2, 185. I might add that these boys are glue-fingers to say the least. The tackles, Pete Williams, 6-2, 208 and Walt Bianco, 5-11, 205 are strong and experienced. Don MacClymont, 6-1, 215, is a fine guard as is his running mate, John Stanley, 6-1, 190. Center Tom De-Flavio, 5-10, 195, is nobody's slouch by any means.

Classy Backfield

Lehigh possesses a senior letterman backfield loaded with class. The classiest of the bunch is Dan Nolan, 6-2, 185, QB, who runs and passes like a dream or a nightmare, depending which side you are on. He hands off to Chuck Berger, 5-10, 165 pound right halfback and Dick Penney, 5-8, 165 pound left halfback who are very good at eating up ground. When the halfbacks cannot get the necessary yardage he simply sticks the hogskin or pigskin (depending on what you call it), in the midsection of Walt Pijavsky, a stumpy 5-10, 190 pound fullback who receives great pleasure in running over people.

Faulty Pass Defense?

I don't care how good a pass defense a team has, if they don't have a line that will rush a passer, passes will kill them. In the Lafayette game last Saturday, the line was marred by injuries and flu, and they just didn't have it. No one is to blame, the coach cannot stop injuries and he certainly can't stop that bad little bug from Asia. Pass defense is not the hardest thing in football to teach, and here at Bucknell it has been taught the same way it is at most other colleges in the U. S. Let me put it another way, a fight manager tells his fighter how to slip and throw a punch, in fact he drills him constantly on it. Come fight time, when the pug doesn't do what he has been told, whose fault is it?

W.R.A. NEWS

The intracampus and intergroup swimming meet originally scheduled for Tuesday, October 29, has been postponed to a later date due to the sickness prevalent on campus. The date will be announced. In round four: C. Adams defeated L. Haigh. S. Haach defeated C. Peterson. In the semifinals: K. Schaefer defeated D. Davis. K. Schaefer is scheduled to play C. Adams in the finals.

The last practice for interclass volleyball is being held Friday, November 1. A schedule of teams and games to be played in the interclass tournament will be posted on Harris bulletin board by Monday, November 4.

Practices for the intergroup volleyball tournament begin Tuesday, November 5, at 2:30 and will continue throughout the month of November.

BISONS TOPPED BY LEOPARDS

by Bucky Walters

Sophomore quarterback Merle Bainbridge passed for three touchdowns and scored another as the Leopards from Lafayette trounced Bucknell 35-13 before 7000 Founder's Day fans in Easton.

Wooten Scores 18 Points
Bainbridge passed twice to end Dan Wooten for the six-pointers the first in the end zone, for nine yards in the second period, and the second for 23 yards in the third period. Bainbridge's third touchdown pass was to sophomore end Joe Gustafson good for 14 yards in the final period.

For the Bisons, it was their third loss against as many wins. Lafayette boosted their season record to 2-1 and the overall series record of 18-13.

Brothers Run 51 For TD

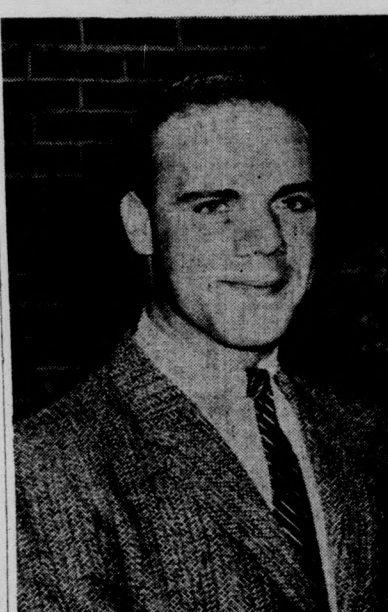

A poor punt got Bucknell into trouble early in the game. The Leopards were quick to take advantage on the BU 30 and marched to pay dirt in five plays. Lafayette's initial score was from the one yard line. With less than three minutes of the first half remaining the Leopards made it 14-0 on a Bainbridge to Wooten pass. Wooten kicked his second extra point in as many tries. With a minute and 28 seconds remaining the Bisons showed signs of life when second string quarterback Cox passed to halfback Jack Brothers for 71 yards. Jack caught the ball on his 49 and ran 31 yards without a finger being laid on him. The try for point was missed and the half ended with the score Lafayette 14, Bucknell 6.

Lafayette had an overall rushing advantage of only six yards: 330-328. But they had the scoring punch when they needed it. With the exception of Bucknell's two scoring marches, Lafayette held the Bisons out of their 35.

Fumbles Hurt Bucknell

Lafayette put the game on ice in the third period by converting two Bucknell fumbles into touchdowns. Bainbridge threw his second touchdown pass of the afternoon, this one good to Wooten for 23 yards and the second score of the third period.

Bison Of The Week Al Jackson

by Bill Bannak

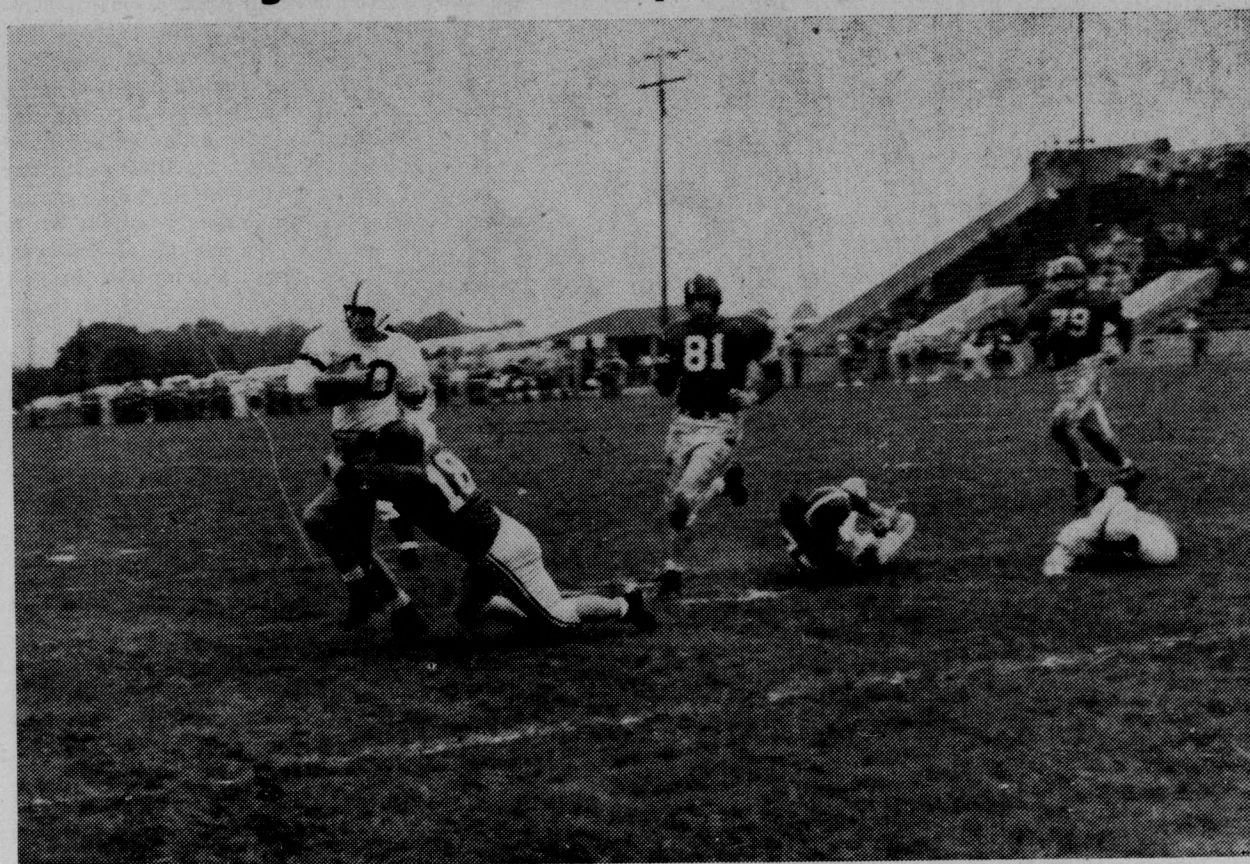

This week's Bison of the Week is Al Jackson, a junior from Elmont, New York. Al attended St. Paul's Prep School where he played football, lacrosse and basketball. After graduation he entered Bucknell in the fall of '52. As a freshman, Al played football, was a member of the Glee Club, Student Faculty Congress, and the Men's Student Assembly. He was also elected as President of the Freshman Class.

Played For U. of Georgia
In 1953 Al entered the University of Georgia on a football scholarship. After a year at Georgia he entered the armed forces for a year. While in the service, Al played football and boxed while he was stationed in Germany.

Re-entered BU After Army
When his time was up in the service he reentered Bucknell. As a sophomore Al joined Kappa Sigma fraternity. He was a member of the debating team, newsmen's conference and the University players in "South Pacific." He now is participating in almost all intramural sports and plays fullback on the soccer team.

Al is a political science major and upon graduation he plans to do graduate work at Princeton.

Orange And Blue Blitized By The Lafayette Leopards

For the second time in a row and for the third time this season the Orange and Blue have been defeated on the gridiron. This time the Lafayette Leopards of Easton were triumphant. Good luck against Lehigh.

The quarter ended with Lafayette on top by 28-6.

The Bisons came right back in the opening minutes of the fourth period for their second score of the afternoon as Charley Appar went over from the one to climax a 56 yard march. Bob Fitzsimmons, who averaged 5.1 yards per carry by rushing 81 net yards, and sophomore halfback Gilkey spearheaded the drive. Another sophomore, Jim Brady, kicked the extra point thus making the score 28-13, Lafayette.

Bainbridge Passes For TD

The scoring wasn't over, however,

TOUCHE!

Champion automobile race driver of the world is a 46-year-old Argentine named Juan Fangio, according to Reader's Digest. He has won more than half of 173 perilous races in 23 countries but is a very careful driver, never passes on hills or curves, and in New York prefers to ride in taxicabs. His wealth is more than a million dollars.

Late News!
This morning the tennis team of Sigma Alpha Epsilon captured the intramural tennis championship for the second year in a row. The SAE's beat the Phi Gam's to cope the tennis title. This is the second cup the SAE's have won during the fall season.

BISONS BEAT STATE; WAY BACK IN 1927

Bucknell's victory over Penn State in 1927—the first since the year 1899—brought about a victory that was something to write home about. "Mose" Quinn, former head coach and assistant to Carl Snavely of Cornell, pulled the game out of the fire when he sprinted 45 yards late in the last quarter to break a 7-7 tie.

Quinn's Big Day

"Mose" Quinn's winning touchdown was as unexpected as the Bucknell victory," the Bucknellian story read. "It came after Captain Wally Diehl had been thrown for a 15-yard loss when he attempted to get off a forward pass, but was tackled for the loss when all the receivers were covered, and the Bucknell line failed to hold. It certainly seemed as though the game would end in a tie."

Quinn Scores Big TD

Then, suddenly, a bolt of lightning, Quinn sped around the left side of State's line and following the splendid interference, the Memphis kid reversed his field and twisted and squirmed his way past several would-be tacklers and finally fell exhausted over the last kick mark for what proved to be the winning points. It was a great run—by a great player—on a great team.

A Big Bonfire

Thousands of students and townspeople watched the huge bonfire consisting of railroad ties, crates, barrels, chairs and other material which the energetic first year men spent the day collecting. The mighty pyramid was lighted by Coach Carl Snavely and members of the winning Bison team.

Students Hold Parade

Previous to the final event of the evening, the undergraduates gathered at the corner of Loomis and 7th street and paraded through the town. Led by the band, and advertising its presence by a continuous roar, the crowd marched down 7th to Market street and the later till the head of the line reached the signal at Third street. Here a halt was made under a lugubrious-looking effigy of Penn State which was hung by the neck over the street.

The students then marched to Loomis field where a program of songs, cheers, and band selections was given under the full moon.

Cross Country Nov. 11
The cross country meet is scheduled for 4:15 on November 11 during snow, sleet, and hail. The start of the meet begins in front of the Christ Mathewson gates at the stadium. Sign-ups close at noon Saturday, November 9. Sign up yourself, don't let somebody else sign you up. The DUs are heavily favored to win their eighth cross country championship.

SIGMA ALPHA EPSILON WINS TENNIS, SOCCER CUPS

by Bucky Walters

Sigma Alpha Epsilon finished their undefeated season by shutting out the Kappa Sigmas 1-0, 2-0 to win the intramural soccer championship. The school championship will be decided on either Thursday or the following Monday with the winning freshman team competing against the SAEs.

SAE Superior Defense

With an overall record of six wins, two ties, and no losses, the SAEs averaged better than two goals a game and their defense was just as outstanding with four shutouts being registered as their opponents scored less than one goal per game.

League "B" Playoff

Last week a playoff took place in League "B". Three teams were tied for first place after the regular season play. After a three game playoff K5 finally beat TX 4-2 to win the championship of league "B".

Joe Dents Shines

The finals of the intramural soccer championship took place on Monday and Tuesday on the Davis Gym fields. Joe Dents, leading scorer for the SAEs, scored the lone goal of the first game as the SAEs triumphed over the K5s. On Tuesday, the SAE defense held fast as once again Dents provided the scoring punch by kicking two goals against the hapless Kappa Sigmas. After two days, the SAEs reigned supreme over a team that couldn't score on them.

Viole For Championship

The Freshman soccer league championship, comprised of seven teams will be decided this week. The initial part of the season ended last week with the two top teams being 2, 3, 4 EW, 1, 2 AW (Swartz). This week these two teams staged a best out of three playoff for the championship. 2, 3, 4 EW defeated 1, 2 AW (Swartz) in the first game 2 to 1. The second contest ended in a 1-1 tie. The winner of this series will play the SAEs for the all-school soccer championship. A separate trophy will be awarded to the winning team.

Handball Trophy To SAM

The "Sammites" capped the handball championship by defeating the defending champion Lambda Chi Alpha three games to one. SAM and Lambda Chi advanced to the finals by beating SAE and PKP respectively. The "Sammites" now have won the handball trophy two out of the last four years.

Cross Country Nov. 11
The cross country meet is scheduled for 4:15 on November 11 during snow, sleet, and hail. The start of the meet begins in front of the Christ Mathewson gates at the stadium. Sign-ups close at noon Saturday, November 9. Sign up yourself, don't let somebody else sign you up. The DUs are heavily favored to win their eighth cross country championship.

—READ The Bucknellian—

Wide Open Tournament

The annual intramural wrestling meet is scheduled for November 18, 20, 21. There are eight weight divisions starting from 120 pounds through the heavyweight class. Defending champions, SAE, lost three weight champions, two through graduation and one studying abroad. This makes the tournament wide open with DU, KS, and SAE always constant threats.

Hot Tennis Draws Crowds

The Phi Gams and SAEs advanced to the finals of the tennis tournament by beating the TKs and PLTs. Only one match remains between the SAEs and their second consecutive intramural tennis championship. Bob Goehner and Herb Wright each won their single matches to put the SAEs in front two matches to none for PGD. Wright after being down 7-2 rallied with a terrific comeback and won 9-7. The tennis courts have been seeing outstanding play on both sides of the net. While varsity matches seem to draw disinterested crowds, intramural tennis draws enthusiastic partisan fans.

There has been unusually good interest shown at the fall intramural contests especially from the K5s. Let's continue our enthusiasm during the winter program.

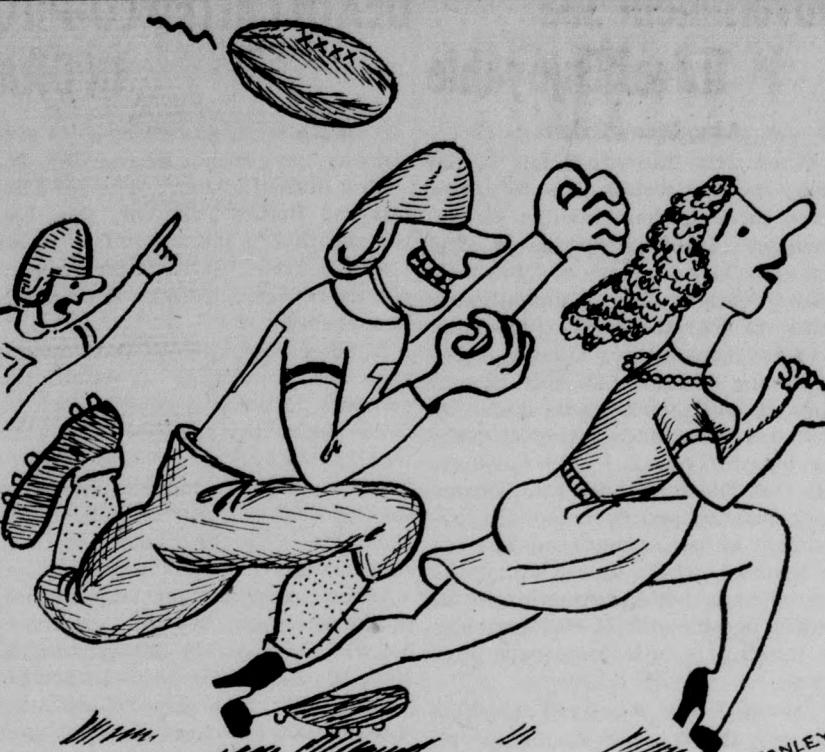

Golf Tourney

Four members of the Bucknell University's Middle Atlantic Conference championship golf team will participate in the N. C. A. A. Golf Tournament to be held at the Broadmoor Course in Colorado Springs, Colorado. Starting on June 24, the title play will run for a week and will produce both team and individual champions.

Bucknellians who will be competing for national honors are Bob Miller, 56, Jim Ladd, 56, and Stan Jackson, 56, and sophomore John Dunn, whose medalist 149 helped the Bisons to capture the M. A. C. crown. Over the regular season coach Harold Evans' linksman tabbed a nifty 9-3 record. Individually, Miller of Xenia, Ohio was 7-3, 2; Jackson of Union, N. J., finished with a 9-2 mark; Dunn of Washington, D. C. concluded with a 9-3 record.

Despite a decade of anti-religious preaching by the Communist authorities, churches are still strong in East Germany, reports Stanley High in the October Reader's Digest. "About 90 percent of Protestant children receive religious instruction," he writes. "Among Roman Catholics the percentage is even higher."

NO/NO! TOWLER, THE FOOTBALL, THE FOOTBALL!

Coach Of The Week Bill Wrabley

The Bucknellian sports staff takes great pleasure in naming varsity line coach and varsity wrestling coach Bill Wrabley as "Coach of the Week."

Came To BU in 1955

Bill joined the Bucknell coaching staff in 1955 as line coach. After his third year as line coach, Bill has proven to be an able and enthusiastic mentor.

Fine Job as Line Coach

Although at times he did not have a wealth of material to work with during his first three seasons as line coach, he did an admirable job of developing a line. Bill's task was to capitalize on his linemen's speed and agility and at the same time minimize their advantage in lack of size and experience. The steady improvement in the Bison line last season testifies to his success.

Graduate of Bucknell

Bill is a graduate of Bucknell and was a member of the '48, '49 and '50 football teams. Bill, a center, played frosh football and was varsity center for three years.

Native of Pittsburgh

Bill, a native of Pittsburgh, was a high school standout there. After completing high school, Bill was drafted and served with the 11th Airborne Division for 18 months.

Coach at Turtle Creek High

After graduation from Bucknell, Bill taught social studies and acted as track coach in the spring and line coach during the fall season at the Turtle Creek High School near Pittsburgh.

Coach of Wrestling Team

Besides assisting Harry Lawrence with the football team, Bill coaches the Orange and Blue wrestling team and is also a physical education instructor.

We wish Bill and his wrestling team all the luck in the world this season. In years to come Bill should develop the wrestling team into one of the top-flight teams at Bucknell.

A Leopard Scratched Me

It isn't that I have to rise, which causes me to grover. But, rather, that I must get up. At such a surly hour!

Along the Bison Trail

by Bill Sharkey, Sports Editor

Last week, having been exposed to Mr. Dall's brilliant satire, you must console yourself to being once again exposed to my blunt clamoring. Why don't we have a successful football team? I suppose this question has been debated at least four hundred times in the last four years. Maybe my humble views may shed some light on the situation.

There are many reasons since this is a complex situation, and I'll probably cover only a few of them.

Football isn't as simple as it was once, when you just played ball. Nowadays, we must take into consideration the weather the day the game is played, the distance the players must travel, if they had enough to eat, the disposition of the coach, whether or not the team was up for the game and many more complexities.

Teams sometimes worry more about these things and lose sight of the objective, winning the game.

This is the way the modern man wants it. Industry, even life itself is very complex. He takes it for granted that his sports must be complex. Although, when one hears perfection, little things do mean a lot, but here at Bucknell, we're no where near perfect, so why worry about the incidents.

Getting off the soap box and back to the football team. First of all, I think that the coach is not basketball. He never is, but then he's never totally wrong. We judge our coaches much more on personality than on ability or knowledge of the game. Harry Lawrence has his faults, agreed. He doesn't have a pass defense to stop a B-29, let alone a football, but he has a ground attack that is pretty rugged when it gets rolling.

It's hard to say that maybe a change would do us all good, because a man's job, his bread and butter is in jeopardy, but even the best get a change.

Secondly, I think that the football team itself has some weak links in it. I know football players who swear by Harry Lawrence, and the next moment break training rules. How can a good football team exist under those conditions? True, the overwhelming majority don't break training and should be congratulated on their spirit and determination to win, but a few don't give a damn about anybody but themselves. Once that element leaves you'll have a close knit team.

Thirdly, I think that we play several teams, that are out of our class entirely. Boston University certainly was, and Colgate usually has been, and will probably continue to be. This year they say that we have about a 50-50 chance with Colgate. How many times do we have to be run over by them to get just a 50-50 crack at them?

The fans don't like to see the team getting run over by teams out of our class, the players certainly don't enjoy it, and the alumni don't like it either. If this is just a publicity stunt, the Athletic Office better forget it. Ben Kribbs' boys give Bucknell more publicity than the football team and they don't go out of their way to look for it.

Last of all, I think the trend at school is to de-emphasize football. The Administration wants it in favor of the academic standards plateau. The student body is also turning away from football, and towards basketball. Why? I don't really know the complete answer, maybe some of my above statements are some of the contributing factors. There is none the less a definite swing towards basketball. The fact that the basketball team has been fairly victorious in the past two years, undoubtedly would have something to do with it.

Whether or not this is good or bad is not important. The fact remains that the trend towards basketball is evident, and it is one of the reasons why football is not going to be very popular in the years to come at Bucknell University.

ONLY TWENTY-SEVEN DONATE BLOOD

Due to the urgent need for blood, a shortened visit of the bloodmobile took place October 16 to collect from all available donors. The visit was held in Hunt Hall from 1-5 p. m. Twenty-seven donors appeared, but nine were rejected making a total of eighteen pints collected.

The Alpha Phi Omega fraternity is to be commended for the work the members did in preparing for the bloodmobile.

The following faculty members and students volunteered as donors: Joanne Zeigler, Constance Meadows, Virginia Light, Walter Perkins, Barbara Ritter, Gregory Wolczyn, Carol Metcalf, Carol Brown, Thomas Ketchum, Carol Bishop, Patricia Elson, Doris Voegler, Judith Angelo, Cole Bebout, Ronald Jensch, Sarah Anderson, Miss Darina Tuhy, and William Hildreth.

Next Bucknell University visit is March 24 and 25, 1958.

To Offer \$2500 In Competition

The Thomas Y. Crowell Company is offering a \$2500 prize in its novel contest for college students only. Its purpose is to encourage young men and women to write worthwhile book-length fiction about their contemporaries or about some other subject of their choosing and help launch them on successful writing careers.

Any undergraduate or graduate student, not more than twenty-five years old, attending any American college or university during the academic year 1957-1958 is eligible. Manuscripts must be at least 70,000 words long, typed double-spaced on one side of the page only. Manuscripts may be submitted at any time between October 1, 1957, and October 1, 1958, with a covering letter giving home address, college, class, and age.

An outright award of \$2500 will be given to the prize winner and publication of the manuscript by Thomas Y. Crowell Company will take place within twelve months after the award has been made. In addition, standard royalties will be paid.

An outright award of \$500 will be given to the prize winner of the college attended by the winner, in addition to the prize of the contest. If there is more than one such magazine at the winner's college, he shall choose the magazine to be given this award.

Judges of the contest include Orville Prescott of *The New York Times*, William H. H. of *The San Francisco Chronicle*, and Editors of Thomas Y. Crowell Company. If the judges cannot agree on a prize winner, the prize money will be awarded in any case, the \$2500 being divided among the most worthy contestants.

Thomas Y. Crowell Company reserves the exclusive right to negotiate for the publication of any novels submitted in this contest within six months after the contest closes.

Queries and entries should be sent to:

Contest Editor
Thomas Y. Crowell Company
432 Fourth Avenue
New York 16, New York.

Letters to the Editor

(Continued from Page 1)

On certain occasions during football contests in which Bucknell University has been engaged. And further, on at least one occasion that we can remember, tears did not well up in our eyes when the alma mater was played. Finally, we are ashamed to admit, we seldom pay enough attention to the whispering of the ivy.

By way of apology, we can only offer ignorance. Ignorance, of course, is no excuse, but we truthfully were not aware of the gravity of our crime. We did not realize that it ranks fourth in the list of atrocities following only germ warfare, wholesale massacre, and concentration camps.

It remains, then, for us to thank the writers of open letters for giving us new insight into the seriousness of our crime and allowing us to find a new life. We do not feel, as some have stated, that these letters are tiresome. On the contrary, we hope that the entire student body will take them to heart as we have and receive the lesson they have to offer.

So we say thank you to the writers of the open letters because, you see, we now have School Spirit. And, as a sign of our new life, you will be able to recognize us quite readily as we amble about the campus humming "Boola-boola," emitting intermittent "rah rals."

Thanking you for your inspiration, we remain enthusiastically yours,

Jerry Cleveland and Bill Spitt

Grover Cleveland, while President of the United States, in 1893 underwent a secret and successful operation for cancer of the mouth. In the October Reader's Digest, Donald Culross Peattie explains the surgery was performed aboard a yacht in Long Island Sound to avoid alarm.

BOWER TO DISCUSS 'MARRIAGE AND HOME' DURING CA RELIGION IN LIFE PROGRAM

Returning by popular request is Reverend Robert S. Bower as a speaker for the Religion and Life Program. Rev. Bower, whose special interest is preparation for marriage and the Christian home, is the minister of the Glen Burnie, Md. Community Church, a graduate of Westminster College and Princeton and was a combat pilot with 37 missions over Europe for four years.

His schedule for the week will be Sunday, November 3—"Happy is the Family"—an introduction to the week. Sports Auditorium—8 p. m. Chairmen, Dave Dayton, Bill Sweet, 9:15 p. m.—Kappa Sigma fraternity—Skip Wieder, Chairman.

Monday—3:30 p. m. to 5—Informal conversations, Stephens House, 7:00—Swartz Hall Lounge—Howard Jacobs, Chairman, 9:00—Wives' Club, Carnegie Lounge—Mrs. Rose Ann Moore, Chairman.

Tuesday—3:30 to 5—Informal conversations, Swartz Lounge, 8:30—Hunt Hall Rec. Room—Georgie Ann MacKay, Chairman.

Wednesday—1:30 p. m. to 5—Informal conversations, Hunt Living Room—Jan McNair, Chairman, 7:30—Kappa Sigma fraternity—William Sweet, Chairman.

Thursday—3:30 p. m. to 5—Informal conversations, Carnegie Lounge, 7:00—Larson Living Room (for Larson, Harris, small dorms), 9:00—Taylor Street House (Mortar Board).

Rev. Bowers is available for additional informal appointments by groups and individuals. Contact him at the Kappa Sigma House or through Dave Dayton or Jan McNair.

Phi Mu To Celebrate 35th Anniversary Tea

Beta Kappa Chapter of Phi Mu fraternity for women will celebrate the 35th Anniversary of its founding with a formal tea held in Hunt Hall on Wednesday, November 27, 7:30 p. m. Beta Kappa was founded on November 10, 1922 by six women.

Invitations have been extended to all faculty members, to the administration, officers of all sororities, national and district officers, local alumnae and patronesses, and the four remaining founders of BK.

The display table will include both the pledge and active scrapbooks, the charter, a composite picture, pledge picture, and pledge and active pins.

Chairman of the tea is Beverlee Campbell. Joan Clark is in charge of refreshments. Marilyn Ekis, invitations; and Barbara Keldsen, display. The chapter is working in co-operation with the Alumnae Chapter.

THEOKRITOFF, BOGERT ATTEND MEETINGS

Two teachers in the department of geography and geology at Bucknell, Theodor O. Bogert and George Theokritoff, will attend the annual meeting of the Geological Society of America and Associated Societies in Atlantic City, N. J., from November 4 to 6.

Mr. Theokritoff will read a paper at one of the sessions in which he will present some of the results of his current research work in the northern end of the Taconics. After the Society's meeting he will join a two-day field trip which will demonstrate the geology between Atlantic City and Altoona.

Mr. Bogert will join another trip to study the general geology of the folded Appalachian Mountains of Pennsylvania which will demonstrate the geology between Atlantic City and Altoona.

ing the nation then beset with a serious business depression. The operation for cancer of the mouth. In the October Reader's Digest, Donald Culross Peattie explains the surgery was performed aboard a yacht in Long Island Sound to avoid alarm.

German Teachers Elect Dr. Blume

At the meeting of the central Pennsylvania chapter of the American Association of Teachers of German held at Bucknell last weekend, Dr. Albert M. K. Blume, a member of Bucknell's German department, was elected president of the chapter for the coming year.

Dr. Blume was vice president of the chapter and chairman of its program committee during the past year.

Teachers attending the meeting heard an interesting address by Dr. Helen Adolf of the Pennsylvania State University whose subject was "Richard Wagner and I."

Dr. Adolf compared her impressions of various places with Wagner's comments on his visits there. She then presented a thorough evaluation of the controversial presentations of the great composer's music dramas which she had witnessed during the past summer in Bayreuth, Germany.

Another speaker, W. Richard Fenstermacher, high school teacher in the Clark Summit-Abington Joint School District, described his experiences as an American exchange teacher in Germany when he spoke following a luncheon in the college dining hall.

Rev. Bowers is available for additional informal appointments by groups and individuals. Contact him at the Kappa Sigma House or through Dave Dayton or Jan McNair.

Honorary Feles Foreign Students

Alpha Lambda Delta, the freshmen women's scholastic society, held its annual buffet supper for foreign students Wednesday night in Hunt Rec. Room. The supper is held each year to acquaint the foreign students of Bucknell with Alpha Lambda Delta. Following the supper, games with a Halloween theme were played.

It's very hard for a football player to flunk out of college if he keeps passing.

George Bernard Shaw will perhaps be known as the greatest dramatist and wit of the 20th century. In each of his plays he shows his command of the English language, the sureness of his stagecraft and his irrepressible Irish wit.

Written in the Edwardian era prior to World War I, Shaw's "Man and Superman" reflects the tempo of the time. Suffragettes were on the rampage and women were raising shrill voices in the clamor for equality. Shaw's hero, Jack Tanner is an up-to-date philosopher who believes he knows all there is to know about the modern woman. His sophisticated wit makes no allowance for the arrival of Ann Whitfield, the logical woman.

STUDENTS! MAKE '25

Do you like to shirk work? Here's some easy money—start Stickle! We'll pay \$25 for every Stickle we print—and for hundreds more that never get used. Stickle are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Stickle with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Fellowships Offered For Graduate Study

The Woodrow Wilson Fellowships are awarded to students of the highest qualities of intellect, character, and personality and are eligible to those whose interests lie in the Humanities and the Social Sciences. They are awarded to students who have not begun formal graduate work, or to the graduating class of colleges and universities. In the academic year 1957-1958, approximately 200 Fellowships are to be given. They are granted for 1 year and presently are not renewable.

Students must be nominated by members of the academic profession and approval rests on the judgment of the faculty members. Final selection will be made by Regional and National Selection Committees.

The Fellowship tells young men and women that the faculty has confidence in their promise as teachers and scholars and is giving them an opportunity to pursue their interests at a graduate level. Acceptance of this Fellowship entails no obligation to enter the academic profession, however.

The Fellow will devote a major portion of the time to his chosen field of interest and will be studying toward a degree. He may indicate the institution at which he prefers to study, and if possible, will be named to it. The Fellowships are not planned for study abroad.

This program, developed on a nationwide scale, is under the sponsorship of the Association of Graduate Schools in the Association of American Universities and has been underwritten jointly by 37 universities and by generous grants from the Carnegie Corp. and the General Education Board.

The annual student faculty tea, sponsored by WSGA Senate, was held Sunday, October 27, in Hunt Hall living room from 2-4 p. m. The tea, which was designed to enable students and faculty members to meet on a social level was under the direction of the WSGA social committee. Barb Dunning is chairman of this committee.

STUDENTS! MAKE '25

Do you like to shirk work? Here's some easy money—start Stickle! We'll pay \$25 for every Stickle we print—and for hundreds more that never get used. Stickle are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Stickle with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Radio Amateurs To Hold Meeting

W3RBP, the Amateur Radio Club of Bucknell will hold its second meeting of the year on Wednesday, November 6 at 7:00 p. m. in room 306 of the Engineering Building. New members will be recognized by the club. The rules for a contest to "work all states" will be set up and a revision of the constitution will be voted upon.

Officers of the club are: George Drake, president; Cynthia Trevor, secretary-treasurer; Amar Klotz, back, station manager; and Jim Ranck, trustee. Applicants for membership are Jim Lott, Ken Farr, Bill Bruce, Jim Freund, Mike Ingram, and Bob Pluse.

The club station is equipped with a Johnson Niking Ranger transmitter running about 75 watts to an all band "trap" antenna. On the receiving end is a Hallicrafters SX-100 receiver. A code practice machine is available for those desiring to increase their proficiency.

All those interested in "ham" radio are encouraged to come to the meeting. A radio license is not necessary.

MUSIC DEPARTMENT PRESENTS RECITAL

Helen McLeroy Jenner will play a piano program in the First Baptist Church Wednesday evening at 8:15 p. m. This is the second in the series of faculty recitals presented this fall by Bucknell's music department.

The code states that the student will not give or receive aid in exchange for conditions under which optimum academic performance can be achieved.

The mechanics of this code include: 1. The instructor gives the questions to the class and leaves the classroom at his discretion. He always informs the class as to his whereabouts, should any student desire to ask him a question concerning the test.

2. All students should be extremely careful to do nothing during the examination which might throw suspicion upon themselves.

3. Students may leave the room during the examination, but they should always remember to be courteous and to make no undue noise which might disturb some other member of the class. The Central Committee feels that, as this Honor Code becomes an established custom, this clause can be greatly expanded. Students can take their exams to the library, to any room, or back to their dorms or houses. Students, with colds or broken legs, etc., could take the exam in the infirmaries.

4. At the bottom of each completed exam the student signs: "I have neither given nor received aid during this examination," followed by his name.

5. Examination papers and calculations done on scrap paper are discarded.

6. The Council of the previous year shall nominate the candidates to be elected by the student body.

Annually in the month of April, the students shall elect three sophomores, the sophomores receiving the highest number of votes being designated as permanent members. Two juniors, and two seniors. The vice president of the freshman class shall serve as the tenth member of the council. He shall have no vote.

Two faculty or administrative members, appointed by the Dean of the University, shall advise the Council. When the Honor Council receives the name of the accused, either from a student or from the instructor, the council will make a thorough investigation of the facts of the case.

Failure, if Guilty
In general, upon first offense, the accused, if found guilty, shall receive a failure in the course. Upon the second offense, the offender, if found guilty, shall be subject to expulsion from the University.

Of course, it shall be the purpose and duty of the Honor Council to exhibit fairness in all cases at all times.

This program has been set up to help the honest person and not to emphasize the cheater.

The eight members of the present Central Committee are: Bill Hildreth, Nancy Dean, Jean Spaulding, Jeanne Anderson, Barry Tagge, Billy, Mary Holmes, and Jim Kaufman.

This committee, pioneered by Willy Bauer, now studying in Heidelberg, Germany, began its work in February, 1957.

At a later date in the near future the committee will bring the Academic Honor Code to a student vote.

... Honor System

Once again an Academic Honor System comes upon the scene here at Bucknell. The question now is, will the students of Bucknell put serious thought and discussion into this proposed program? Will the program impress the students as capable of bringing about a great improvement in the academic life here? Are the students willing to try such an Academic Honor System, in order to find out if it will work successfully? Immediately whenever such a program is outlined, emphasis is placed on the cheater: how will he be caught; what will happen to him, etc. However, an Academic Honor System is not emphasizing the cheater; it is striving to bring out the honor and sense of responsibility in every student. After all, that is the purpose of a college education: to develop the character and integrity of the individual. Under an Academic Honor System, every student is obligated to live up to a personal code of honor.

Other advantages of such a program include the fact that employers would surely be more favorably disposed to a college graduate who had lived and studied under an Academic Honor System for four years. They would realize that the individual had earned the degree justly. Also, the prestige of Bucknell University would profit greatly by the successful operation of this Academic Honor System.

In the final analysis, the benefits of an Academic Honor System, such as the one now being proposed, far outweigh the obligations which are placed upon each student. For if this program is established and is taken seriously by every student, honor rather than dishonor will prevail, and a violation of this code of honor will rarely occur.

Bill Hildreth, Nancy Dean

CALENDAR OF EVENTS

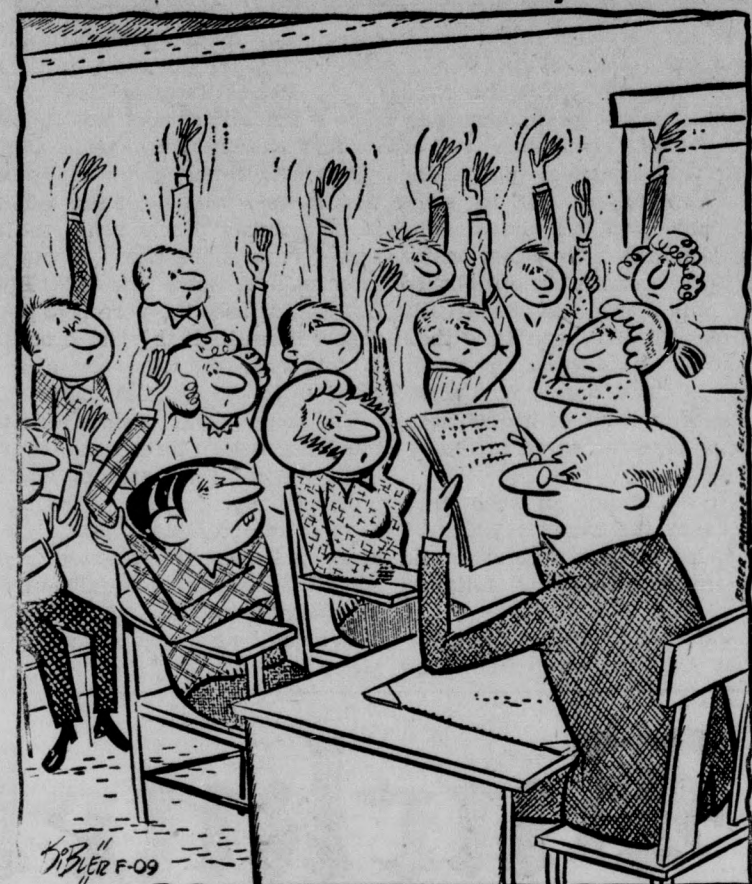

THURSDAY, NOVEMBER 7		
3:30-5 p.m.	Informal conversation—Rev. Robert Bower	Car. L.
4:30-6 p.m.	WSGA House of Reps. meeting	Hunt Rec.
4:30 p.m.	Freshman Firesides at French House, Dr. Bond's home, Owens, Taylor, Stephens, 7th St., and Edwards Houses	
7:00 p.m.	Informal Discussion (Religion-in-Life)	Larison L. Rm.
FRIDAY, NOVEMBER 8		
7 & 9 p.m.	Hilltop Theatre—"A Nous La Liberté"	V. Lit. Aud.
9-12 p.m.	640 Club dance	Bison
SATURDAY, NOVEMBER 9		
	Football vs. Colgate	Away
	Soccer vs. Drexel	Home
SUNDAY, NOVEMBER 10		
9:30 a.m.	Nine-thirty Class	Hunt Rec.
1:30-2:15 p.m.	Mortar Board Coffee Hour	Larison L. Rm.
2:30 p.m.	Harris Open House	Harris
3:30 p.m.	Art Exhibit—William Clutz, Artist-in-Residence	Lib.
7-8:30 p.m.	Hillel meeting	Carnegie Lounge
MONDAY, NOVEMBER 11		
3:30 p.m.	Bucknell Study—Core Com. meeting	116 East Wing
6:45-7:30 p.m.	Panhellion Rush Rules Com. meeting	Hunt Lib.
7:30-10 p.m.	Physics Club meeting	Olin Science Aud.
8:00 p.m.	University Course lecture	Spotts Aud.
	"Whitehead as a Philosopher"—Prof. Isabel Stearns, Bryn Mawr	
TUESDAY, NOVEMBER 12		
	Soccer at Muhlenberg	
7-8:30 p.m.	Independent Women's meeting	Hunt Lib.
7:30 p.m.	Panhellion Fashion Show	Hunt Rec.
9:00 p.m.	T. S. Eliot and the Christian Vocabulary	SAE House
	Dr. William Hamilton, Colgate-Rochester	
WEDNESDAY, NOVEMBER 13		
11:00 a.m.	Dr. Wm. H. Hamilton, Colgate-Rochester	Chapel
6:15-8:30 p.m.	Panhellion Club dinner and meeting	U. Din. Hall
7:00 p.m.	Phi Sigma meeting	Spotts Aud.
7:30-10 p.m.	Central Pennsylvania Branch of American Society of Civil Engineers meeting	Lewisburg Club
8:00 p.m.	Metacology—Chemistry Dept.	Olin Science Aud.
8-10:30 p.m.	Bridge Club Social	Larison Sunporch
THURSDAY, NOVEMBER 14		
4:30-6 p.m.	WSGA House of Reps. meeting	Hunt Rec.
8:00 p.m.	Phi Beta Kappa Founders' Day Address	Olin Aud.

House flies have taste buds in their feet, so they enjoy walking around on exposed food.

Most men hope that their lean years are behind them; women hope that theirs are ahead.

LITTLE MAN ON CAMPUS

Campus Inquiry

Opinions Divided On Honor Code; Practical Usage Creates Snags

by Jim Chapman

Late last Spring a group of interested freshmen and sophomores got together and discussed the matter of cheating, which they felt was very pronounced at Bucknell. The discussions, led by Dean Carhart, led to the formation of a committee, headed by co-chairmen Nancy Dean and Bill Hildreth, which would look into the matter of establishing an Honor Code at the University. The committee conducted several schools, and after tabulating all their information, came up with the proposed Honor System.

The co-chairmen, as well as the committee, feel that the establishment of an Honor Code at Bucknell would tend to cut down on the excessive cheating which is going on. Because the final decision as to whether or not the Honor Code would be accepted is left primarily to the students, it is appropriate that the opinion of some of our Bucknellians should be voiced. The opinions which follow give, in my estimation, a good cross section of the thoughts of the entire student body.

Don Booth: "I agree wholeheartedly with the principle of the honor system. However, I don't believe it will work right away, but will catch on gradually. It is the type of thing that should be integrated over a period of time. The system as it stands now does not seem adequate for the entire student body, but I feel that the rough spots could be ironed out."

The students here at Bucknell are accustomed to certain props, such as theme outlines and lab reports, and if these are taken away, the users of these props will be quite ignorant. However, an entering freshman who has not been exposed to these aids would not know the difference, and he would be able to do his work not missing them.

The whole thing boils down to a matter of individual honor and respect. The honor system would not only gain self-respect, but it would give to an individual respect from his classmates also. It is not going for many, but is an easy thing to live under, but all will benefit with respect to personal development. One need only to look at a West Point cadet to realize how much an individual can gain from an Honor System."

Janet Herrmann: "The system as it is now is basically the same as the girl's Social Honor System now standing, and I think it would work to a degree just as the Woman's Social Honor System works to a degree. If a girl is five minutes late leaving a fraternity house, she does not bother to turn herself in. If a person is seen cheating on a ten-minute quiz, he certainly won't feel obligated to turn himself in."

If we had an Honor System, I wouldn't cheat, and it would depend a great deal on the person I saw cheating whether or not I would take any action. In most cases I would be hesitant to speak to them about it.

I believe the proposed Honor Code would cut down cheating for some people because, for some reason, when the proctor is absent, you feel that there is less to gain. When you are outwitting someone, in this case the proctor, you are more apt

The INFORMANT

by Ira Podnos

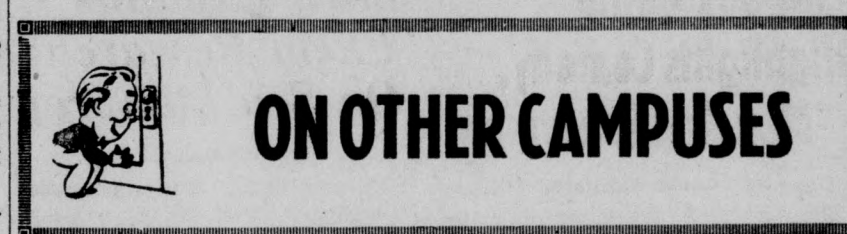

I take pride in being able to recognize a sincere aesthetic effort and in being able to judge the effort according to the motivation behind it. I was therefore particularly pleased to note that on Halloween Eve the University Cafeteria attempted to create a "Halloween" atmosphere.

The cafeteria was shrouded in a cloak of semi-darkness while witches on brooms were silhouetted on the window panes. Lighted candles on each table bathed the room in hues of unnatural yellow. Whether the effect was successful or unsuccessful is of no consequence. The fact remains that an attempt was made to beautify a room that, under ordinary conditions, is lacking in beauty. And furthermore, I heartily disagree with those few students who claim that the "blackout" was more of an attempt to disguise the evenings meal rather than add atmosphere to it. But I am still trying to figure out why the cafeteria felt it necessary to gain atmosphere through the use of lighted candles.

There are those of us who find it gratifying to be able to digest our meal with a cigarette in our hand. And there are those who find the meal more tasty when dessert can be followed by a smoke. I belong to the latter group. Unfortunately, however, the University Cafeteria does not allow smoking within its walls. But, I am open minded enough to realize that firstly, smoking in the cafeteria would be a fire hazard and, secondly, that the smell and smoke given off by a cigarette, cigar, or pipe might prove disgusting to some individuals. In fact, it might even turn their stomachs. For this reason, I have been content to obey the law set down by the cafeteria, content, that is, until the cafeteria broke the law which they themselves declared.

In my own mind, I can see no greater fire hazard than lighted candles in a public dining place. And, as far as I am concerned, nothing turns my stomach more than the smell of hot wax.

Since the cafeteria obviously does not intend for its rules and regulations to be taken seriously, I can therefore make safely this solemn declaration: It has always been my desire to finish a meal at the University Cafeteria with a good, hardy smoke. Therefore, this being my last year at Bucknell, I would like very much to finish my very last meal here with a "Kent." I am repudiating for this action, I shall merely stick my cigarette in my mashed potatoes and call it a candle.

ON OTHER CAMPUSES

by Chris Petersen

What In The World!

A very unscientific student from Albany State Teachers College has suggested that "Sputnik is carrying Georgi Malenikov who is intricately wired for animal reactions in space." This same alert reporter is spreading rumors that "Moscow has offered to build a new stadium for the Yankees if they leave New York."

A music plot at Middlebury by the Middlebury Campus surprised a few people, especially the music department, by placing in order of preference: Dixieland, Show music, Beethoven and a fourth place tie between Bach, Belafonte and Popular. They're obviously not biased by Tony Carpio or Chefs.

For beneficial organizations trying to raise money and/or raise just a little publicity, the Syracuse Daily Orange suggests running contests for "unlabeled persons as 'Saidon Seen Twice (With Same Girl)', 'Miss Bermuda Knees' who have 'dimpled knees, respectable legs and Bermuda shorts', 'Shriveled Orange' qualified by 'professors over 40', and 'Miss Student Body' whose qualifications speak for itself."

Quotable Quotes?

Bloomburg State Teachers College: "Found—One 'Bison' in this part of the country—a 2-legged or 4-legged one?"

Illinois Institute of Technology: "What have you done, St. Peter asked, 'That I should admit you here?' 'I ran a paper', the editor said, 'at my college for one long year.' St. Peter pityingly shook his head and gravely touched the bell. 'Come in, poor thing, select a harp. You've had your share of hell.'"

From the same paper: "Blonde: 'What did you do over the weekend?' Redhead: 'I was fishing through the ice.' Blonde: 'Fishing through the ice? What for?' Redhead: 'Olive'."

More Illinois Tech: "This chick you fixed me up with looks like she fell from heaven—without a parachute."

Keystone Junior College: "Thompson: The Sabiston I rode with last night saw dark spots before his eyes."

Ward Hall: What did he do? Thompson: Parked in one of them."

University of Detroit: "The correct reply for Sputnik is not 'Gesundheit'."

"The glue used on parking stickers will not be used in the construction of the new Arts building."

C'est la vie!

Letters to the Editor

November 4, 1957

Dear Editor: Why always sororities? Every year freshmen women are confronted with the problem of sorority or independent life. This is a very real problem to them and one that should be given serious consideration.

HOWEVER this question is one that is becoming as trite as the many other questions that are discussed around and around and run into the ground. Professors get tired of reading about it in themes; classmates get tired of hearing it in the speech class; we all get tired of reading articles and editorials about it in the Bucknellian.

People who have no insight into the question are continually giving their opinions on a subject that requires independent thinking. Often so many people who really are not well enough acquainted with the subject to discuss it.

If the men want something to discuss let it be fraternities and their merits and disadvantages and permit the freshmen women to make their own choices of sorority or independent living. The girls will reach a more reliable decision by themselves without the opinions of the men. If the men want to discuss it, let them discuss it.

Sincerely,
Patty Johnson

Contemporary Art Featured In Exhibit By Resident Artists

William A. Clutz, artist-in-residence, has selected more than 45 paintings and drawings for his one-man show which will open Sunday afternoon in the Gallery of the Ellen Clarke Bertrand Library at Bucknell.

Mr. Clutz will be present for the opening of the exhibit and will speak at 3 p. m. on contemporary painting. An informal reception will follow his talk to which the public is invited.

The oil paintings and drawings which will be exhibited by Mr. Clutz were created primarily in New York and Lewisburg during the past two years. Prior to coming to Bucknell this fall, Mr. Clutz had been studying and painting in New York City, where he was enrolled in the Art Students League.

Last year Mr. Clutz presented a one-man show at the New York Public Library. His work has been included in many of the important mid-west exhibitions such as the Mid-America Annual, the Mid-West Biennial, and the Iowa Annual. He was also represented last year in the Museum of Modern Art's "Recent Drawings USA."

WILKES SCIENCE HALL

TOURED BY TEACHERS

AT JOINT CONFERENCE

Faculty members from the Engineering, Science and Math Departments attended a joint meeting with corresponding personnel at Wilkes College, Wilkes-Barre, Pennsylvania last Friday evening.

Following dinner at the College Dining Hall, the main feature of the evening was a tour of the College's new science building, named in the honor of Admiral Stark. The building was donated to the college by the Carpenter family, who are former residents of Wilkes-Barre interested in the college.

FORD FOR SALE—1955 four-door sedan; overdrive; radio and heater. Good mechanical condition. Will accept \$1150. Phone JA 3-6073 or inquire at Unit 14 E, BU.

Buck Hill Falls Site Of Confab

Three members of the women's physical education department at Bucknell University went to Buck Hill Falls last weekend for a conference of the Eastern Association for Physical Education of College Women.

Representing Bucknell were Miss Margaret L. Bryan, head of the department, and Miss Nancy J. Campbell and Miss Marcia R. Scaries, instructors.

Theme of the conference was "Creative and Newer Approaches to Motivation and Enrichment of Faculty, Students, and Curriculum of Physical Education for College Women."

DuPont Engineer To Talk Wednesday

The American Institute of Chemical Engineers will have a guest speaker at their November 13 meeting. William Amend, a project engineer at DuPont will speak to the group on "Engineers in the Chemical Industry."

The meeting is at 7:00 and all students interested in Chemical Engineering are urged to attend. The place of the meeting as well as more detailed information will be posted in the Engineering Building.

Bug Bites Stroh; Speech Cancelled

Sigma Pi Sigma, the physics honorary, wishes to extend its apologies for the absence of Dr. Richard Stroh from his scheduled lecture on October 22. Dr. Stroh, who was in the hospital, was unable to make the lecture. The honorary hopes to reschedule the event soon.

Sound waves have been successfully used to shake fog particles into rain drops.

Red Raiders Picked Over Bisons Saturday

The Bisons, although bruised and battered, will travel North this Saturday to Hamilton, N. Y., where they will meet Colgate's Red Raiders.

Colgate vs. Heavy Schedule
Colgate, although suffering a losing season, has been playing teams that are out of their class. The Raiders slipped past Cornell, 14-13, and then they went West in an attempt to crack the Big Ten. However, the Illinois from Champagne, Urbana proved to be too much, and another week later Colgate took another beating at the hands of the dark horse Rutgers, 48-6. The following week the Raiders met past Princeton, 12-10. Yale took Colgate 29-0 but was outplayed throughout the game. The powerful Black Knights of the Hudson ripped the Red to shreds, 58-7.

BU is the Underdog
I am afraid that this Saturday Colgate will not have as hard a time as they have had thus far this season. They are out of their class. What has hurt the New Yorkers most this season has been injuries and a lack of substantial reserves. If they are ailing when they meet the Herd this weekend, the Bisons will have a good chance to pull an upset out of the hat.

Raiders Have Powerful Backfield
Colgate has one of the hardest hitting backfields in the East. The Raiders work from the split T, but do not run the option to any great extent. However, they do use the pitchout pass to great success. The quarterback takes the ball from center and pitches out to the halfback who starts to run wide around the end and then passes to the end running down the field. If the defense lies back then the halfback has the option of running the ball.

Colgate Bigger Than Bisons
Colgate has a big team, the biggest we have met this season. The ends are monstrous: they are Al Jamison, 6-4, 225, one of the key men on the squad, and Bob Nattarick, 6-2, 195. The tackles are two very big and rough boys in the persons of Ralph Anton, 6-4, 225, and Bill Moray, 6-2, 225. Sturdy Bill Usinger, 5-9, 204 and Bob Conklin, 5-11, 195 are holding down the guard positions. In the middle of the Red Raider's front line is the 5-10, 190 pound center, Terry Lockwood. The line averages a very hefty 208 pounds.

The backfield is also very big (185 lb. average) and powerful. The Q. B. is Roy Harding, 6-0, 190 and Ted Bocuzzi, 6-0, 185. The fullback is the hard hitting freeping Don Zimmerman, 5-9, 180.

BU Fought Hard at Lehigh
Harry Lawrence felt that the Herd effort against Lehigh was one of our best of the season. They simply had us outclassed. Mr. Lawrence was very pleased with the performance of Bob Fitzsimmons, Charlie Appa, Buzzy Erickson and Rogers Frausenei. Fitz was a pillar of strength with his powerful line smashes. Harry feels that Appa played the best game he has this season. This was Erickson's first starting assignment this season and he took advantage of it. Lawrence feels that Buzzy did a bang-up job. Mr. Erickson, you may play a lot of football in the remaining two games. Rogers Frausenei, the miniature Gibraltar, was a giant on defense. Harry feels that he played a marvelous defensive game.

Honorable Mention
Hats off to Charlie Appa for the excellent game he played against Lehigh last Saturday. The 160-pound junior has shown considerable improvement over the past two weeks in all departments of play. He ripped off 35 yards on the ground at Lehigh, threatening to break into the clear on several occasions. He also enjoyed his best punting day of the fall, averaging over 40 yards with five punts. Defensively, his open field tackles thwarted a couple of Lehigh maneuvers that might have gone all the way.

Hill and Dale You Mugs
Cross-Country
Bus Blum, supervisor of the intramural athletics, has announced that the annual cross-country race gets underway at Memorial Stadium at 4:15 p. m., Monday, November 11.

When a woman admits she's wrong, she's looking for an argument.

Fresh Swimming
All candidates for the Freshman swimming team will please report to the classroom in Davis Gymnasium at 7:15 p. m., Monday, November 11.

SPORTS REVUE

Although the football team will be on the road, visiting Colgate at Hamilton, N. Y., there will be plenty of sports activity on the Bucknell University campus Saturday afternoon. The freshman football team will be seeking its first victory at the expense of the Lehigh yearlings at 1:30 o'clock in Memorial Stadium while across the street on the University Field the Bison soccer team will meet Drexel Tech of Philadelphia, a half hour later.

Drexel May Be Rough
Having dropped a 3-1 verdict at Elizabethtown in their last outing, the Bucknell booters will be in a rebounding mood when they trade kicks with Drexel. Captain Jim Balta, a lineman from Rochester, N. Y., and fullback Roger Mackey, a sophomore out of Windham, N. Y., have excelled for the Herd in recent contests. Coach Hank Peters will send his charges into the scrap with a 2-3-1 Middle Atlantic Conference record.

Soccer Tennis Handball Tot.
The invading Dragons are undefeated in the conference competition this fall after having won the MAC title for the 1955-56 season. A week ago they had a two-year 14-game winning streak snapped by Westchester State Teachers College in a non-league encounter. They are coached by Don Yonger, now in his seventh campaign, and feature the skillful attack work of Stan Diagoz and co-captain Dan Siry. The latter has been labeled "All-American material."

Drexel Lost 1 in 14
The invading Dragons are undefeated in the conference competition this fall after having won the MAC title for the 1955-56 season. A week ago they had a two-year 14-game winning streak snapped by Westchester State Teachers College in a non-league encounter. Middle age is when you feel on Saturday night the way you used to feel on Monday morning.

If at first you don't succeed, you have plenty of company.

Baby Bisons Halted By Bloomsburg State

The Baby Bisons suffered their third consecutive defeat last Friday at the hands of Bloomsburg State Teachers College. The Bisons scored first in the second quarter as Terhes broke loose and plunged 30 yards into Bloomsburg territory. Terhes took the ball again and slid around left end for 9 yards and the only Bison touchdown. In all Terhes accounted for a 51 yard drive. In Saturday.

the same quarter Bloomsburg tackle Johnston intercepted a pass from Law of Bucknell and raced 75 yards for a touchdown.

Bloom Scored in Third Quarter
In the third quarter Bloomsburg blocked a Bison kick on our 13 and then faked and plunged 11 yards for the final touchdown of the game. Manko of Bloomsburg made the conversion. The final tally was BU 6, Bloomsburg 13. Let's hope the Baby Bisons will do better against the novice Engineers of Lehigh next Saturday.

the same quarter Bloomsburg tackle Johnston intercepted a pass from Law of Bucknell and raced 75 yards for a touchdown.

Bloom Scored in Third Quarter
In the third quarter Bloomsburg blocked a Bison kick on our 13 and then faked and plunged 11 yards for the final touchdown of the game. Manko of Bloomsburg made the conversion. the same quarter Bloomsburg tackle Johnston intercepted a pass from Law of Bucknell and raced 75 yards for a touchdown.

Bloom Scored in Third Quarter
In the third quarter Bloomsburg blocked a Bison kick on our 13 and then faked and plunged 11 yards for the final touchdown of the game. Manko of Bloomsburg made the conversion. The final tally was BU 6, Bloomsburg 13. Let's hope the Baby Bisons will do better against the novice Engineers of Lehigh next Saturday.

the same quarter Bloomsburg tackle Johnston intercepted a pass from Law of Bucknell and raced 75 yards for a touchdown.

Dramatic Story Of Twenties Revealed In Joe E. Lewis Story

by Lee Wentzel

In a Chicago hotel room during the bawling twenties, a promising young singer named Joe E. Lewis came to the end of a career, left for dead with his throat slashed by hoodlums he had refused to knuckle under to.

Brought back to life by a miracle, he lived on for a while, but with his singing voice almost gone, he doggedly started over again, as a comic, and he became one of the country's most successful, best-loved cafe performers. The scars he received in Chicago however, were as much on his heart as on his throat, and the laughs he drew from the audiences by poking fun at his own weakness for liquor, women and the horses were but an echo of the depression and loneliness he felt in the middle of the happiest night club throng. Out of that search for forgiveness has come one of show business' greatest talents and most moving and exciting stories.

The saga of that fantastic comeback, and of the dramatic touching and uproarious private and public life of a man who lives up to every wisecrack he makes about himself has been filmed with Frank Sinatra starred in the lead role. Titled "The Joker Is Wild", the Charles Victor Vista-vision production, opening on Monday at the Campus Theatre, promises to be one of the year's most stirring and dramatic of motion pictures. Standing firm and chance for moviegoers to enjoy Sinatra's Oscar-honored dramatic talents along with the singing and clowning that have made him the dean of entertainment.

Starting on Friday at the Campus Theatre is "The Story Of Esther Costello", one of the most unusual love stories ever filmed. On November 18 and 19 "Saint Joan" will be featured on the Campus screen.

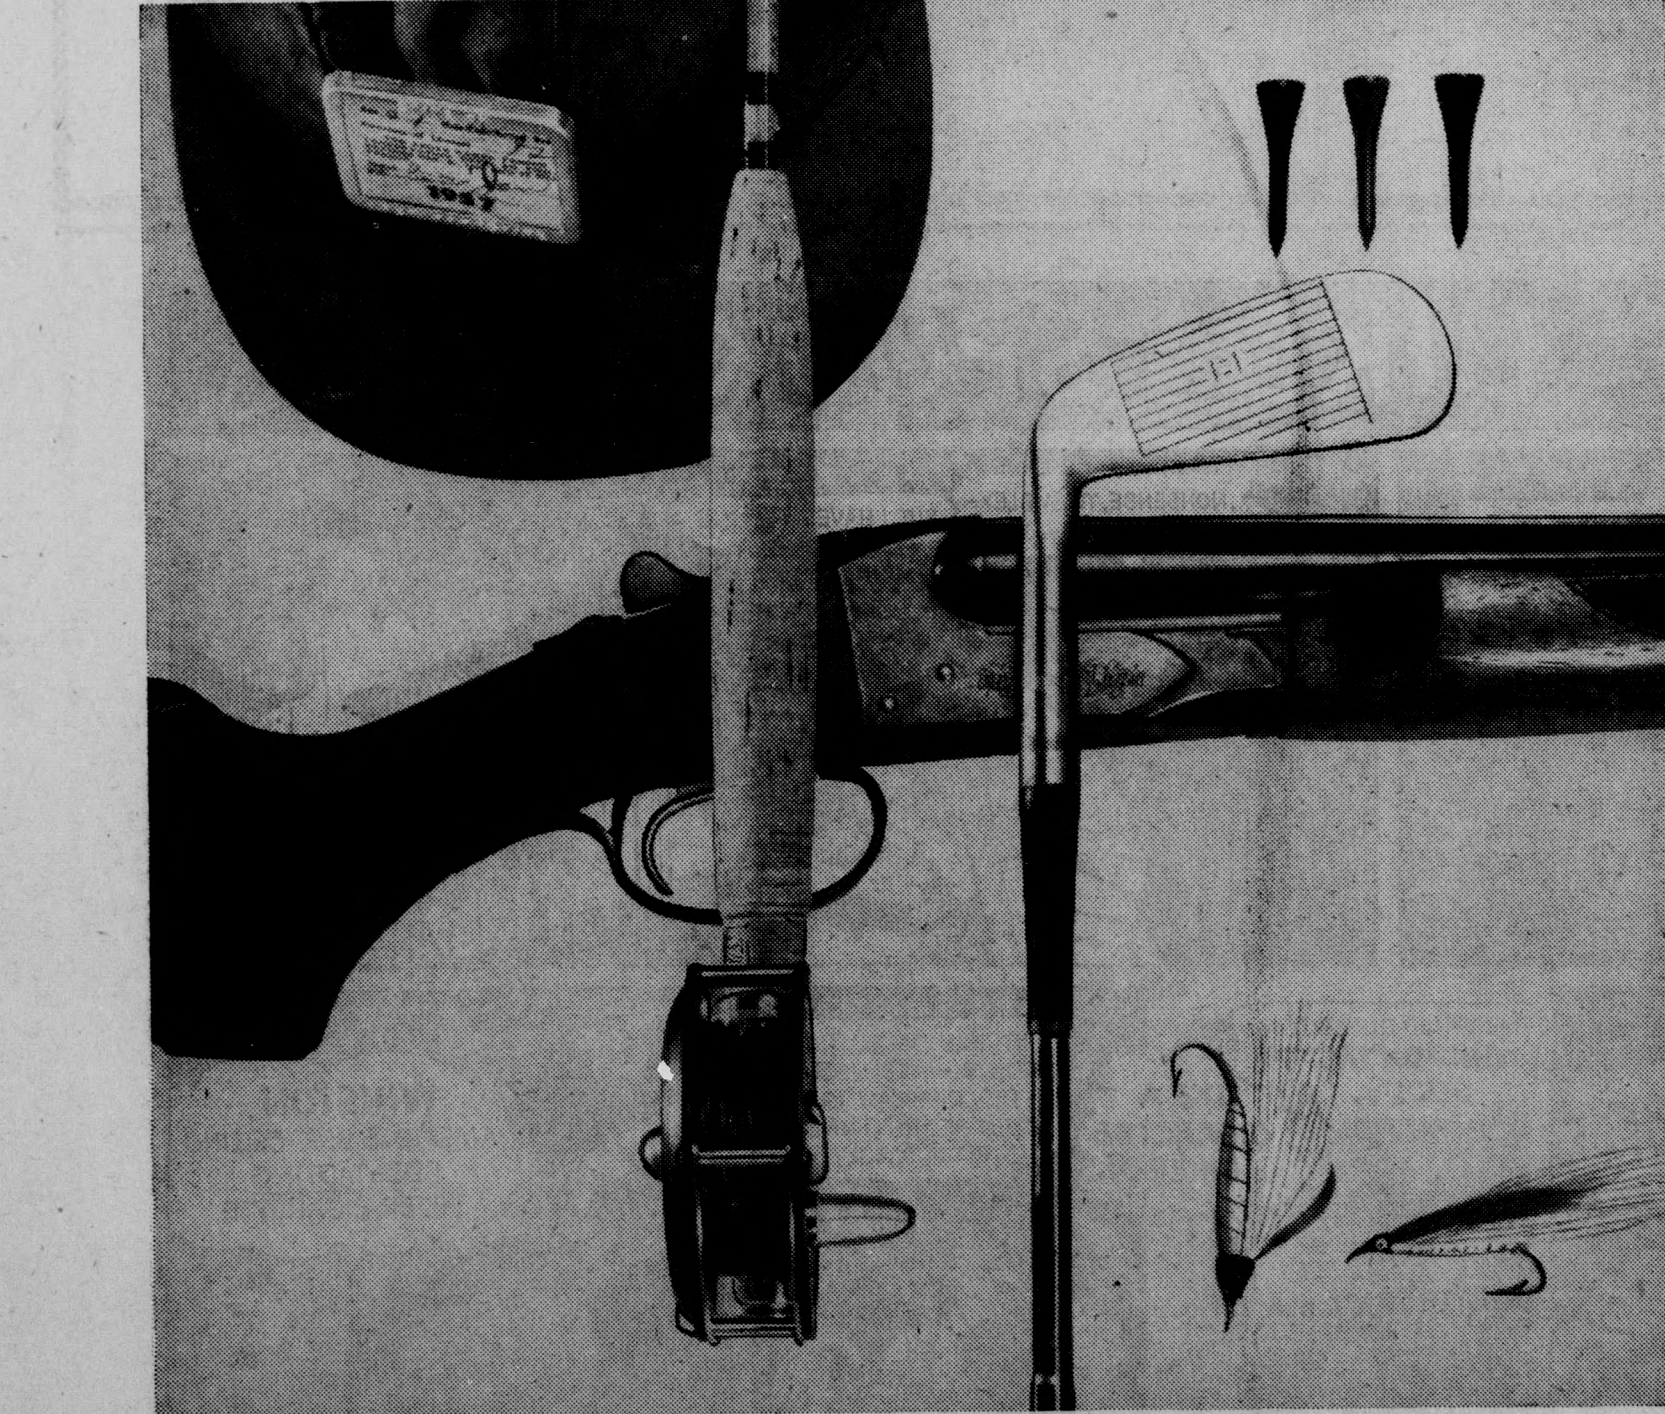

PASS IN REVIEW

by William Meister

Last week we mentioned to you that Phil Hunter was our high man so far in a rifle match with Notre Dame. It turned out that he was high man for the whole match, which Bucknell won by the close score of 1829 to 1828. The ROTC department is extremely pleased with the results of the match and hope that this victory is only the

ESSO RESEARCH works wonders with oil

Bright promise of pleasure

On their way from manufacturer to store to you, metal parts stay bright thanks to a thin coating that prevents rust. You can't see it. You scarcely feel it. But these petroleum-based products of Esso Research are also helping roller skates to stay bright, knives and razor blades to stay keen. Often in such unusual ways, ESSO RESEARCH works wonders with oil.

PROF-FILE

by Beverly Swingle

MISS DARINA TUHY

Miss Tuhy studied piano at Oberlin Conservatory where she received her A. B., and at University of Michigan for her M. A.

She has taught at Bucknell for about eleven years and finds it a pleasant place to live and teach. Although Miss Tuhy is kept busy teaching her classes and giving private piano lessons, she finds time to accompany the mixed chorus and many recitals.

Since Miss Tuhy has been at Bucknell, she has noticed a steady growth in numbers and ability of the music students. She attributes this growth to the fact that the University now offers a degree in music where they did not a few years ago. Because of the growing reputation of the music department, they now attract the better music students.

Miss Tuhy is the faculty advisor for Mu Phi Epsilon, the national professional music sorority. Although it is termed a sorority, Mu Phi is actually more of an honorary on this campus. To become a member the student first has to meet certain academic qualifications and then be recommended by a member of the faculty.

This summer Miss Tuhy had the opportunity to study Bartok under the famous Ross Lu Finney at the University of Michigan.

There are now 22 million persons in the United States classified as war veterans. These with their families account for 75 million of the country's 170 million population.

public service in international affairs. The Clayton Scholarship for graduate study in International Economics and Foreign Relations bearing stipends up to \$1800 have been established with the purpose of encouraging and assisting young men and women of outstanding scholarship, character and leadership with their training for careers in International Relations.

Applications are now being accepted by The National Science Foundation in four fellowship programs which will lead to the award of approximately 1000 fellowships in March, 1958. NSF fellowships are awarded in mathematical, physical, medical, biological, engineering, and other scientific fields. Pre-doctoral fellowships include stipends from \$1600-\$2000 a year.

More information about these scholarships can be obtained from Dr. Harold W. Heine in Room 403, Olin Science.

and secrete enzymes which aid in the disintegration of the fish.

Lampreys Destroy Fish
There is a tremendous concern, the most prominent being economic, about the situation of the depleting trout population in the Great Lakes as a result of the invasion of these sea lampreys. The fish industries near Lake Superior have to face the reality that perhaps next year they will have to search for another means of making a living.

The sea lamprey wielded their way into the Great Lakes via the St. Lawrence River. The first objective was Lake Ontario. They seemed to adapt themselves quite well in both salt and fresh water. When they began to migrate further, they were blocked by Niagara Falls. They surmounted that barrier and moved on to Lake Erie. This seemed to be another problem because it was not conducive to breeding and also was rather bad for feeding. They struggled to move on and then settled in Lake Huron. From there they easily moved into Lake Michigan and finally Lake Superior. In the period of a few years around 1940, there was a marked drop in the supply of trout in Lakes Huron and Michigan to almost nothing. Lake Superior has not dropped completely as yet but, as was stated before, is expected to decline rapidly by next year.

Since the control of sea lamprey is of grave importance, a thorough investigation on methods of control was promoted. The first device was a Weir, which is a "box in a box" affair under a stream which traps the lamprey. They are forced to swim into a box with a narrow opening at the end which in turn leads to a closed box thus trapping them. The method failed. Then an electric Weir was devised, but since the lamprey is a peculiar form of life and not affected by electricity, this method also failed.

The next step was reality. Last Tuesday a stream near Lake Michigan called Little Billy's stream was selected because it had no tributaries which would carry the chemical away and make the experiment difficult. On Thursday ninety-two percent of the lampreys were killed. Dr. Manning has not only been outstanding as a professor at Bucknell but also in this recent experiment on the Great Lakes.

I.F.C. Meeting

The following news comes from the last meeting of IFC held on October 24. Bill Sweet, a sophomore member of Kappa Sigma, will represent Bucknell at the National Convention of IFC held over Thanksgiving vacation in Colorado. The following rule will go into effect with the present freshman class. Any freshman who depletes him-

self or is depleted from any social fraternity, will not be allowed to pledge another fraternity until the second semester of his sophomore year.

ALL-STAR WEEKEND FEATURED

Ciardi—Poet, Author, Rutgers Professor
To Read And Comment On Own Poetry

Famous poet and author, John Ciardi will address interested students and adults, reading and commenting on his own poetry. Sponsored by the English department, he will speak tomorrow night in Olin Science Auditorium at 8 p.m.

Professor of English at Rutgers, the State University, since 1953, he came from Harvard where he had been Briggs Copeland Assistant Professor of Composition. Professor Ciardi originally served Rutgers as a visiting lecturer to the English department, but he has since taken on the responsibilities of organizing a program in creative writing.

Ciardi Wins Poetry Award
Professor Ciardi began his writing career while a graduate student at the University of Michigan where in 1939 he won the \$1200 Avery Hopwood Award in poetry for a book of poems published under the title, "Homeward to America."

Since that time he has published four other volumes of poetry, "Other Skies," Atlantic Monthly Press, 1947; "Live Another Day," Twayne, 1949; "From Time to Time," Twayne, 1951; and "As If, Poems New and Selected," Rutgers University Press, 1955. He has also published an anthology, "Mid-Century American Poets," Twayne, 1950.

His translation of Dante's "Inferno," published simultaneously in hard covers by the Rutgers Press and in paperback by Mentor has sold 200,000 copies in the Mentor edition. It is being used in Dr. Ebersole's course, Religion and Literature.

Professor Ciardi has published widely in the national and literary magazines. Some 250 of his poems, 600 to 700 literary reviews and 50 full length articles have been published since 1940. He has received four annual awards from "Poetry," A Magazine of Verse.

Career Begins At Kansas City
His teaching career began at the University of Kansas City in 1940. Since then in addition to Harvard and Rutgers, he has taught at the Salzburg Seminar in American Studies and has lectured at many summer schools and writers' conferences including the Bread Loaf Conference of which he is a past president.

Phi Beta Kappa Member
He is a member of Phi Beta Kappa, a Fellow of the American Academy of Arts and Sciences, a Fellow of the National Institute of Arts and Letters and a Fellow of the American Academy in Rome where he spent last years as a winner of the Prix de Rome awarded by the

RELIGION IN LIFE PROGRAM ANNOUNCES MORE PLANS, LEADERS

MARVIN HALVERSON TO LEAD FIRST SEMINAR: DISCUSSION ON CHRISTIAN RELIGION IN ARTS

As part of the Religion In Life Program this year, a seminar of students and faculty will meet to discuss the Christian religion in the arts. This will involve the study of the theological significance of literature, painting, and music and the ultimate religious questions which are raised in these apparently secular materials.

Halverson Leads First Seminar
The first session of this seminar will be a dinner meeting at Cowan on Tuesday, November 19, with Dr. Marvin Halverson, Executive Director of the Department of Worship and the Arts of the National Council of Churches. Dr. Halverson will speak to the group and discuss with them the programs which will be most meaningful in a campus seminar. He will advise the group in their plans during the year.

Dr. Halverson has a wide background of experience in this study, which is becoming increasingly popular. He is a graduate of Augustana College, received his B. D. at The Chicago Theological Seminary, and did graduate work at Chicago and Oxford. For two years he held a Ford Foundation Travelling Fellowship. He received his LL. D. at Augustana College.

Advisor for Chapel Design
Recently, Dr. Halverson was called in to advise the Air Force on the architectural designs for the new Air Force Chapel in Colorado. As a result, a very radical new design was adopted.

In addition to writing various articles, he is the author of Great Re-

ARTIST SERIES
SPONSORS PLAY,
MAN-SUPERMAN

"Man and Superman," a comedy written by George Bernard Shaw, will be presented by the Canadian Players from Ontario, Canada, as part of the Artist Series program Saturday at 8:15 p.m. at the Lewisburg High School.

Shaw's "Man and Superman" is a fast-moving battle of the sexes, presented with a minimum of sets and properties so that the performance depends solely on acting ability. Written in the Edwardian era prior to World War I, "Man and Superman" reflects the tempo of the times. Suffragettes were on the rampage and women were raising shrill voices in the clamor for equality. Shaw's hero, Jack Turner, is an up-to-date philosopher who believes he knows all there is to know about the modern woman.

Ted Follows Stars

The cast, drawn from Canada's best known actors, includes Ted Follows as Jack Turner who is the holder of the Best Actor Award in the Winnipeg Drama Festival of 1945. Mr. Follows was affiliated with the Everyman Theater in Vancouver, and the Hart House Productions of Toronto. In 1952, he went to England and spent three years playing with repertory companies such as the Glasgow Citizens' Theater, the Nottingham Playhouse and the Oxford Playhouse.

Dawn Greenhalgh plays the female lead of Ann Whitfield. Miss Greenhalgh came to Canada from Communist China in 1949. In 1953, she was chosen to participate in the Stratford Shakespeare Festival and that same year was written up in Life Magazine and was photographed for the Life cover.

Greenhalgh has done extensive radio and television work and has appeared with the Playcrafters of Ontario, the Montreal Repertory Theater and the Garden City Theater of Ontario.

Dr. Odgers is currently serving as president of the Bucknell chapter of Phi Beta Kappa, designated as Mu of Pennsylvania.

Fresh Class Meeting

Freshman class meeting will be held Tuesday, November 19, at 7 p.m. in the Vaughan Lit Auditorium. A faculty advisor will be elected and there will be discussion concerning the rights of sophomores to have cars at Bucknell and the Academic Honor System.

Chi Chi Bake Sale

The Commuters' Club, Chi Chi, is sponsoring a bake sale tomorrow in Larison Living Room from 10 a.m. to 2 p.m. This is one bake sale that is sure to have home-made delicacies.

Intercollegiate Conference Features World Leaders

National leaders from India and Africa will highlight the leadership of an intercollegiate conference on the Christian World Mission, to be held at the Conference Center at Cowan over the weekend of November 22-24. Eight colleges from the central Pennsylvania area will join Bucknellians for this confab which is held jointly with the cooperation of the Student Volunteer Movement.

L. NEWTON THURBER

India will be represented by Dr. Shunil Roy, professor of Astronomy at Allahabad Agricultural Institute (Continued on page 8.)

Goodman Band To Perform

Featured vocalist with the Benny Goodman band is Gloria Hudson.

Reverend Gordon To Give Sermon

The Reverend Ernest Gordon, chapel speaker for November 20, was appointed Dean of the Chapel at Princeton University in the Spring of 1953. A native of Greenock, Scotland, Mr. Gordon was called to Princeton in 1954 as Presbyterian Chaplain to supervise the activities of the Westminster Foundation, which carries on work with the undergraduates in cooperation with the University and the local churches.

Before deciding upon the ministry as a career Mr. Gordon served for two years in the British Royal Air Force.

Dean Gordon is a member of the American Society of Church History, the Royal Institute of Philosophy, London, a Fellow of Victoria Institute, Great Britain, the Renaissance Society, the Church Service Society, and the Philosophical Society. He has contributed articles to various religious magazines.

"Sleeping Beauty" will be presented at Lewisburg High School on November 13, for the children of Lewisburg. The cast will consist of five male and six female roles. Scripts will be on reserve at Bertrand Library or may be obtained from Casey Bischof on the ground floor, Hunt.

Of course, it takes all kinds to make a world. But a lot of them won't help.

In the role of Euphrosia, Ron Clemens has worked in various capacities for Cap and Dagger. As an actor he played Rodene in "Othello," Cardinal Wolsey in "Anne of One Thousand Days" and Creon in "Medea." He was production manager in "The Chocolate Soldier." Under supervision, he will direct C & D's next production "Angel Street." Ron, who has just returned from two years duty in the service, will graduate this January as a major in English literature.

Oscar Ronquist, who plays Epeus has had previous dramatic experience playing in summer stock theater and prep school plays; this together with his experience will provide him with background to fulfill his aim of a career of the theater. A freshman from Cuba, this is his first appearance on the Bucknell stage.

Iris, the leading female role, is played by Marjane Bunker. Her previous dramatic experience includes (Continued on page 8)

TRYOUTS ANNOUNCED FOR 'SLEEPING BEAUTY' Stars Insure Success Of Greek Production

The success of Cap and Dagger's coming production, Aristophanes' lively play "The Birds," among other things will be due to the time and effort of the four leading characters. They are briefly as follows: Playing Pithetereus, the male lead, is Bruce Hutchinson who is an experienced performer on the Bucknell stage. He played the male comedy lead in "Oklahoma," the male lead as Hansel in "Hansel and Gretel," he also played in "Murder in the Cathedral" and "Rumpelstiltskin." His technical dramatic experience in high school led to his interest in acting at Bucknell. From Rye, N. Y., Bruce is a psychology major, a member of Phi Kappa Psi, and co-captain of the varsity swimming team.

Code, Not Gestapo

Is there one of us who has never had the desire to cheat, who has never thought, "If I could just see that page in my notes for one minute?" Fortunately, desire alone does not make a cheater. It is the inability to control the desire which soon results in the destruction of pride and self-respect, that marks a cheater. If a person can not be master of his own desires by the time he reaches college, then in my opinion he should be "helped" to control himself. This can be done through an infallible proctor system or a powerful academic honor code. At present we have neither effective proctoring nor any semblance of an operating honor code. In choosing between the two alternatives it seems far more advantageous to attempt the goal of academic honor, than to ask the faculty to institute a Gestapo.

Advantages of an honor code such as a central file system of back exams for cheating during the three hour finals, and the elimination of false grade curves due to cheating, seem generally viewed as desirable for all concerned. The stumbling block seems to be the tapping of pencils and reported cheating. The average cheater when actually caught in the act, would be so humiliated and scared at being seen, that seldom would he dare to risk a second glance that could leave a permanent blot on his character record for all who inquire to see. In this way the power of social pressure could be used constructively for all; to restrain the would-be cheater, to increase rapport between professors and students, and finally to augment the reputation and prestige of the University.

In the past week it has been repeatedly expressed by students who consider themselves honest, that cheating in 100 courses or those required courses they consider of questionable value, is all right. But is not cheating, for any reason or in any course, a form of stealing from yourself, if not also from someone else? If this is true then cheating in any circumstance is just as offensive as cheating in major courses where the grade earned may determine one's desirability as a prospective employee.

Under an academic code, I believe students would live up to the responsibility and trust vested in them. Whether academic honesty can prevail on this campus has yet to be determined, but in my opinion it should be given every chance.

—P. J. B.

An Ill Wind Doth Blow

The academic honor system is a nice, idealistic set-up; however, it will never work until the Bucknell climate is more suited for it. At the present, the wind is blowing in the wrong direction.

Before the wind will shift it is necessary for the student to have adequate respect for his courses and for the professors teaching them. Without this respect, an honor system will never succeed.

All of our past had courses from boring, poor teachers. This type of course challenges no-one. There is no desire for learning; there is little hindrance to cheating. Respect blows away and with it goes much of the feeling against cheating.

There are other courses, instructed by clever, informative professors, who are interested in teaching. In many of these classes, the professors have established a no-proctor system, an "honor" program. It works because of the respect for the professor.

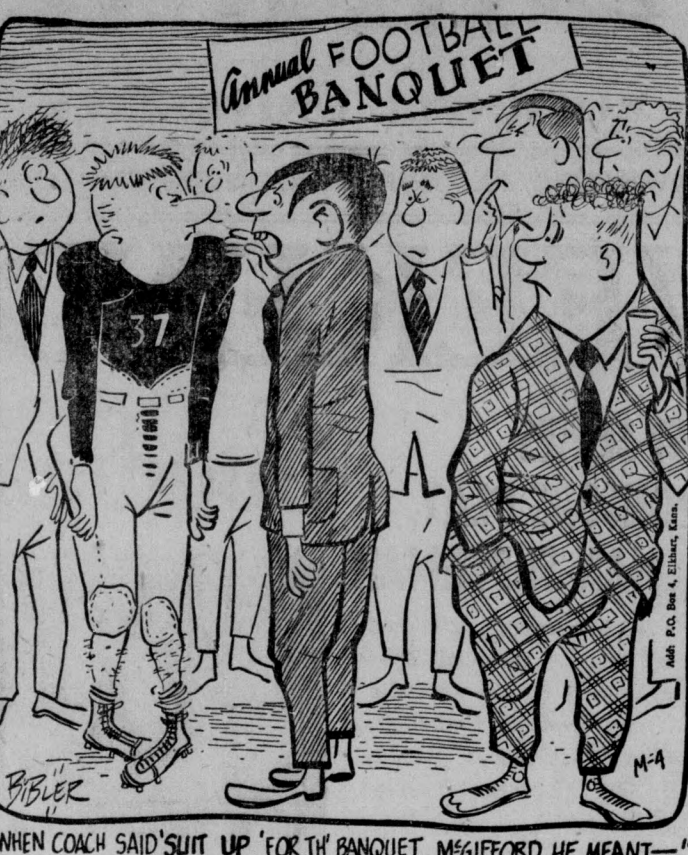

If a campus wide academic honor system were installed, as the committee hopes, there would be a deluge of cheating in the former type of course and there still would be none in the latter.

When the poor teachers are replaced by better ones, the weather will be clear for an academic honor system. Until then, the wind is blowing and the rain is raining.

Editor's note. The above two opinions represent individual views. The "Bucknellian" wishes to present both sides of the issue.

LITTLE MAN ON CAMPUS

by Dick Bibler

"WHEN COULD SAID 'SIT UP' FOR THE BANQUET, MUFFORD HE MEANT."

Letters to the Editor

Hurrah For Honor!

Dear Editor,

We say "Hurrah" for the proposed honor system.

If Bucknell is in favor of it, we as loyal members of the Family should be too. However, we are not naive enough to believe that simple, blind, unthinking faith and obedience are sufficient grounds for our conviction that honor is the best policy. We would, then, like to point out some of the heretofore unmentioned advantages which could be derived from the proposed system.

First, it is not at all beyond the realm of possibility that the academic average could show a violent upswing. After all, those students who are usually prepared for their exams will continue to be so. In addition those who are inclined to hedge ever so slightly and who have thus far been forced to rely upon cryptic crib notes, tattoos, signals and sometimes pure luck, will then have the added advantage of being able to devise more obvious and more effective methods for playing their trade.

It might also be noted that the new system could be instrumental in establishing several new campus organizations. As everyone knows to be "jumping the queue" when actually caught in the act, would be so humiliated and scared at being seen, that seldom would he dare to risk a second glance that could leave a permanent blot on his character record for all who inquire to see. In this way the power of social pressure could be used constructively for all; to restrain the would-be cheater, to increase rapport between professors and students, and finally to augment the reputation and prestige of the University.

In the past week it has been repeatedly expressed by students who consider themselves honest, that cheating in 100 courses or those required courses they consider of questionable value, is all right. But is not cheating, for any reason or in any course, a form of stealing from yourself, if not also from someone else? If this is true then cheating in any circumstance is just as offensive as cheating in major courses where the grade earned may determine one's desirability as a prospective employee.

Under an academic code, I believe students would live up to the responsibility and trust vested in them. Whether academic honesty can prevail on this campus has yet to be determined, but in my opinion it should be given every chance.

ON OTHER CAMPUSES

by Chris Petersen

Egads — more flu?

From the Albrightan comes the "Flutopian Address".

"Four weeks and three days ago Asia brought forth on this continent a new microbe conceived in agony and dedicated to the misconception that all campuses are created equally vulnerable.

"Now we are engaged in a great flu epidemic testing whether that college or any other college so inflicted can endure.

"We are met on a great battlefield of this epidemic. We are here gathered to dedicate a portion of it as a lasting memorial to those who, to the end, stood unstintingly beneath the banner of the alma mater.

"It is altogether fitting and proper that we should do this.

"But, in a larger sense, we cannot dedicate, we cannot dedicate, we cannot dedicate this microbe. The brave students, male and female, who have struggled here, have spread the virus far above our own power to add or detract.

"The world will little note nor long remember what we say here; but it can never forget that the virus is here.

"It is for us, still healthy (?), standing, rather to be dedicated, here, to withstand the unfinished work to which the flu virus has thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—to hold out indefinitely; that from those students who are flat on their backs we take increased doses of anti-flu vaccine to thwart that for which they took their last full measure of penicillin; that we here highly resolve that these students shall not sneeze in vain; that the college shall, under the administration, have a new epidemic and that council of the students, as well as the students, shall not leave the campus."

Comparative facts!

At Temple, the Teachers College is the largest undergraduate school, while at Trinity College history is the most popular major followed by economics and English.

At George Washington University, Homecoming Weekend will be highlighted by the newly crowned Homecoming Queen drawing the winning ticket stub for a prize of one acre of land on the Moon. However, the winner must return in the year 2002 to claim his prize!

Quotable Quotes?

From the Temple News, "Sign in Owl's car—"Don't honk, great lover at work."

"If you'd like to be hated: Shake hands with a girl who just got engaged and ignore her ring. Ask your coed date what high school she attends. Accuse your speech instructor of dropping his g's. Stand in front of the first two letters that comprise the sign reading "women!"

"If you want to walk alone: Ask your professor, who declares he's a success in his field, why he's teaching."

Eh bien!

From Temple University, "The only time a TU coed is at a loss for words is when she's called on in class."

From Wilkes College, "The honeymoon is the period between 'I do' and 'you'd better'."

C'est la vie!

A Pat On The Head . . .

Dear Editor:

I just want to pay a tribute to the class of 1961, and make a plea for individually. Being a freshman myself three years ago, seeing those people classes enter the fraternity, having a brother as a freshman last year, helping Francis counsel her girls and finally being a counselor this year, I feel I understand freshmen. I believe this year's class is the best that Bucknell has acquired in many, many years. They are well-mannered, study hard and act somewhat mature.

I sincerely hope that you will continue to prove you are outstanding and one way this may be accomplished is through individuality. Granted, you can and will learn much from the upperclassmen that will benefit you in many ways, but make sure you take the good qualities to the bad graduate. The men on 2 A Swartz are always asking questions about how they should act at different functions. I only hope that they will do the thing you think is correct, and not be dragged into something because the "gang" does it. I have seen groups stay up till 4:00 o'clock in the morning because one wanted to be the one to break things up, and yet when you talked to each person individually, they were having a terrible time.

Some of the finer things in life are left completely out when you get to college because you think people will look down at you if you do these things, and some habits are picked up so you can "fit into the pattern". Manners, religion, and a good appearance are just a few of the things that are forgotten, while being loud, mocking, being impolite and getting drunk are the things to do.

It is a lot harder to stand up for the things you believe in, than going with the crowd, but believe me, having faith and confidence in yourself as an individual can be one of the most satisfying feelings in the world. Confucius say, "It is one thing to have an open mind and another to have holes in your head."

Thank you.

Peyton McDonald

HENS PICKED OVER BISONS HERE ON SATURDAY

by Stratton S. White

Well folks, the football season is drawing to a close at most colleges in the U. S. This season has seen many upsets and will undoubtedly see a few more before the stadiums become dormant and the snow swirls across the naked gridirons where football history has been made. Such teams as Oklahoma and Michigan State will continue to roll along as they have in the past; their future is bright. Although the University of Colorado has not had a good season, the student body is still behind them. When Colorado threw blockers and almost stopped the perpetual motion of the Oklahoma machine, a pretty blonde Colorado coed was quoted as saying, "Wait till next year, they (Oklahoma) won't get off so easily." She did not cry because they lost by one point; she accepted it, but she had enough faith in her school to make her statement.

Bucknell Spirit?

Is the spirit here at Bucknell like that? You and I both know it isn't and what hurts is the fact that no body cares. When Bucknell students go over to that semi-haunted stadium of ours they don't go with the idea in mind of cheering their team on to victory. The Three Beer Commandos are content to ridicule and make insulting remarks at the coach. I have dealt with this type of person before in a variety of surroundings. He has an awful lot to say when he is fortified with alcohol or friends. What is he without these? A nothing—an insignificant nobody.

There is no doubt that these last two years have not been good for football and the students have let everyone but the right people know about it. Come this Saturday, the Bisons will play host to mercenary Delaware University, a team that is out of our class, as were Lehigh, Colgate and Boston University. Per usual, the Bisons will be up against two opponents, Delaware on the field and Bucknell in the stands.

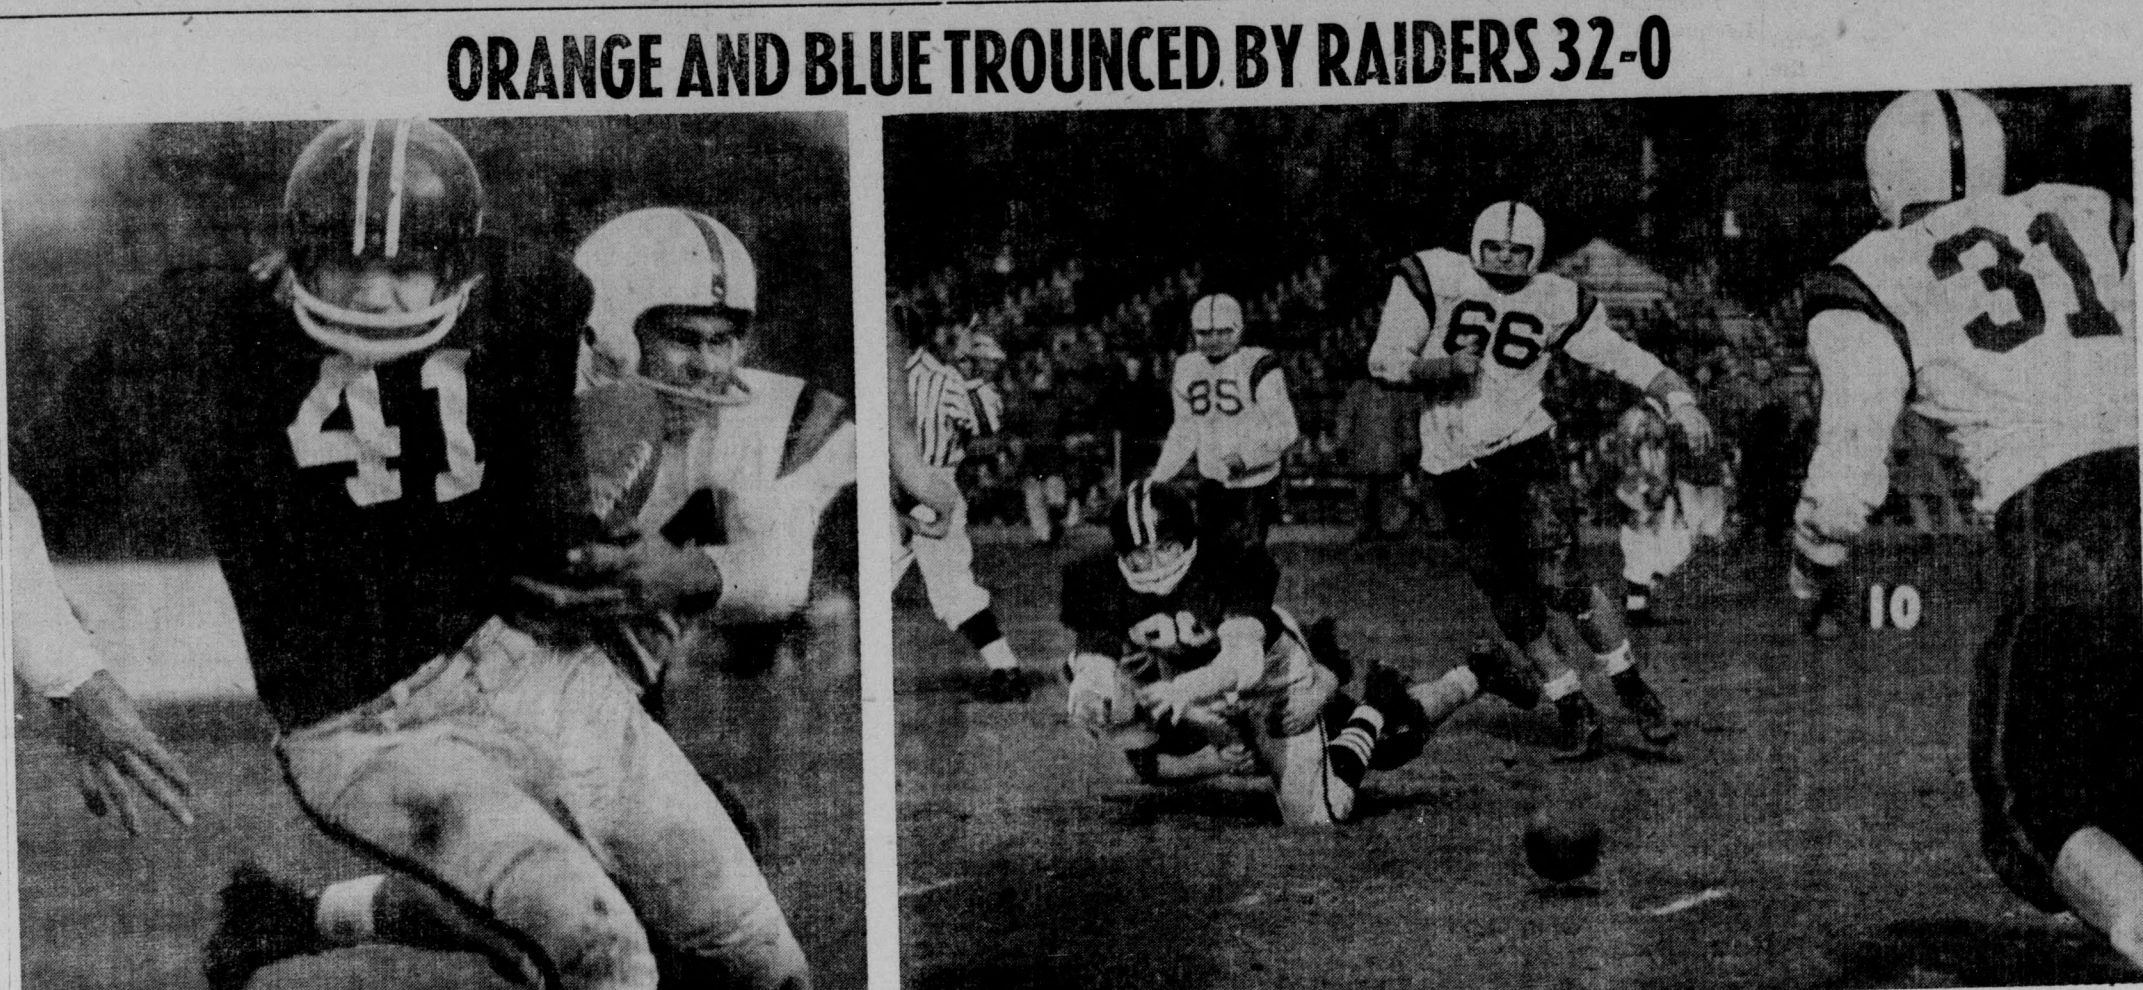

Delaware Has a Razzie Dangle
Delaware is loaded for coming bigger than Bisons. They are not an overwhelmingly big team, although they are a husky 210 pounds from tackle to tackle. Their backfield is on the small side but it is stocked with speedsters. This enables the Hens to use the wing T to success in the Nation. In order to have any kind of a razzie-dangle offense a fast line and backfield is necessary. The Hens will run inside and outside reversals with a guard or tackle pulling out and leading the interference. On the inside reverse the ball carrier moves off tackle after the opening. On the outside reverse the ball carrier moves outside the end with a linebacker pulling out. Delaware also uses the double reverse. This is the same type of offense Iowa uses, in fact last year's Big Ten champs took it from Delaware.

Delaware Starting Line
The probable starting line is as follows: ends Cliff Browning, 6-0, 170 and Ben Klinge, 5-11, 185 are the lightest men on the line. John Pollack, 6-1, 210 and Joe Harvanik, 6-1, 210, are stationed at the tackle slots. It is not definite as to whether or not Harvanik will start this Saturday. The guards answer to Ted Hande, 6-0, 210 and Bob Jones, 6-2, 205. The man over the ball is center Mark Hum, 6-1, 212. You will notice that all of these linemen are well proportioned athletes who are built for speed.

Hen Backfield Very Fast
The backfield is controlled by QB Larry Catuzzi, 6-0, 180. The halfbacks are Tony Toto, 5-10, 170 and Jim Roe, 5-7, 155. Both of these boys can run like the wind. The battering ram is FB John Walsh, 5-11, 188. This backfield has rolled up two very large scores this season—they were a 56-6 romp over New Hampshire and a 71-7 annihilating of Temple. The Hens lost to Lehigh 19-14, Bowling Green 7-0, and Connecticut 13-6. Delaware was also strong enough to come from behind to defeat Rutgers 23-19.

While the present is and the past has been glum, there is a ray of light in our future: it is youth. I trust that I shall not be here to see it.

Cheaper by the Dozen, starring Clifton Webb, Jeanne Crain, and Myrna Loy is to be the featured movie Friday night at the Hilltop Theatre, Vaughn Ltd. Amusing and a heart-warming comedy, this movie is the story of a large family which solves its individual and community problems in a democratic manner directed by the mother who has been voted a woman of the year.

Appear of B. U. tackles Bocuzzi of Colgate in the first quarter action. Notice the determination shown on the faces of both players. Ager is trying to steal the ball.

Colgate had two parties this past weekend. One was their fall house party, and the second was the field day held at the expense of the BU slumping Bisons.

Fine Open Field Running
The Red Raiders from Hamilton, N. Y. combined an accurate passing attack directed by quarterback Raymond Harding, and the fine open field running of their halfbacks before a scant crowd on a very cold and bleak Saturday afternoon.

Close First Half
Colgate was held by the Bisons to only one touchdown during the first half, but managed to make only one first down. The machine started to roll soon after halftime as the Red Raiders, after being trounced by Army last week, bounced back and scored three times in the second period and once in the third to roll up a 32 to 0 win.

Harding to Jamison
The initial score came late in the first period on a pass play from Harding to his right end Al Jamison for 27 yards. Jamison, a 6-2 senior end, who had been acclaimed as a possible all-east candidate at the beginning of the season was Harding's favorite target. He caught a total of seven passes during the game. Two were good for touchdowns.

Cold Day at Hamilton
During half time the Colgate band and ROTC honor guard practiced up and down the field while many of the fans tried to seek warm refuge in their cars, or huddled together in front of the hot dog stand. The game was a strong north wind blowing throughout the entire game. The temperature had dipped into the twenties by the end of the game, making the playing condition very difficult.

Two Punt Returns for Scores
Colgate led the game with three third period touchdowns. Ted Bocuzzi, right halfback ran a punt back 51 yards to the Bisons two. He carried on the next play and scored, diving between right guard and tackle. Randall kicked his second extra point and the score read 14-0. Three minutes later halfback Doug Ammon returned another Bucknell punt 47 yards for the tally. McCornish and Rowan a center and guard threw bruising blocks that were responsible for Ammon's fine run. These were two of the hardest blocks seen by your reporter this fall.

Harding Passes Click
Quarterback Ray Harding once again threw to his favorite end Al Jamison for the fourth Colgate TD.

ORANGE AND BLUE TROUNCED BY RAIDERS 32-0

A Colgate pass goes incomplete to Nasimovich in the third quarter as Rogers Frassenei, No. 85, Lew Hart, No. 66, and Bob Fitzsimmons, No. 31 help defend.

LEHIGH ENGINEERS TOP BABY BISONS

Again the Baby Bisons met defeat by a score of 13-7, this time at the hands of the Lehigh Frosh. The Baby Bisons unfortunately lost all their games, ending the season with an unenviable record of 0-4.

In the game with the Junior Engineers, the freshmen played their best game of the season. They accomplished this despite the fact that the two regular tackles, Sommers and Bourdeau were out of the game with injuries. The Frosh, let's hope in the second quarter, just before

the end of the half, Lehigh scored their first touchdown. They were able to repeat this performance again in the third quarter when they scored again. Lehigh failed to score again for the remainder of the game.

Pope Tallies For BU
Bucknell came through in the end of the third quarter, when Pope made a beautiful 75 yard run to pay-dirt.

Neither seemed to be the aggressor during the game. The line play was about even for both sides. The game ended 13-7 in favor of Lehigh, but it was the best game of the year for the Frosh. Let's hope they do better next year.

SOMEONE BRUSHED MY TEETH

BOB SMEAD'S CITIES SERVICE

Rt. 14 Off Lewisburg Bridge

OFFERS FREE

1 Gal. of New Milemaster or
Super 5D Gasoline with
the purchase of every 10 gallons.

ALSO FREE PREMIUM ANTI-FREEZE

after initial filling
ALL WINTER LONG!

With this exclusive Cities Service guaranteed radiator protection plan, here's all you have to do:
1. Select the degree of anti-freeze protection you want.
Normal price will be charged for the initial quantity of CITIES SERVICE PREMIUM anti-freeze used.
Cooling system protection tag will be punched at degree protected and will be fastened to your radiator.
2. From then on, until May 1, 1958, you may have your anti-freeze checked at ANY Cities Service station. If anti-freeze protection is more than 5 degrees less than you... original protection, Cities Service will restore it to the original level ABSOLUTELY FREE with CITIES SERVICE PREMIUM ANTI-FREEZE.
(This guarantee effective August 1, 1957, through May 1, 1958.)

BROUGH'S AT BUCKNELL

LEWISBURG, PA.

Coach Of The Week

Bus Blum

by Karl Dall

Even though track season is still a long way off as far as Bucknell is concerned, the Bucknellian sports staff feels strongly obligated to cite our colorful track coach, S. J. "Bus" Blum for Coach of the Week recognition.

Heads Intramurals
With the fraternity intramural program in full swing at the present time, Bus certainly deserves credit for his able management of the cumbersome task of arranging and tabulating intramural statistics.

Star College Football Player
Bus' first association with athletics dates back to his North Tonawanda, N. Y., high school days, when he took part in football, basketball, swimming, track and baseball. During the first three terms. While attending Colgate U., Bus made his mark as a member of the famous 1932 undefeated, untied, unscorced upon Colgate eleven. However, Bus considers his greatest college honor that of being named in a leading New York paper to the Jewish All-American team as a first string guard. Candidates for this team were chosen from eleven major college teams in 1934.

Coached Under Humphreys
After graduating from college he decided to ease up and so tried Canadian football with the Hamilton Tigers. In 1937, however, Bus finally hit the big time when he came to Bucknell as assistant football coach under Al Humphreys, currently Bucknell's able athletic director.

Phenomenal Record at 300
Bus became the track and field mentor at BU in 1947 after serving with the Navy in World War II. Since assuming this position Bus has become as much a part of the Bisons' success as the track itself. The over-all record of the teams which Bus has turned out speaks for itself. Bisons spokesmen have amassed a 35-9 record during the last eleven years under his guidance. In Bus' first year as head coach in 1948 Bucknell was able to boast of its first undefeated team since 1933. This team placed fifth in the Middle Atlantic Championships. Bus has also had one of his relay teams capture first place in the Relay.

Likes Piscatorial Arts
In addition to his track chores, he also supervises Bucknell's extensive intramural program, as mentioned before, and serves as a physical education instructor. Between work and his duties as athletic director, a hunter and fisherman. He must be quite an angler, too, for he claims to have caught a 12-inch trout on a bass plug while hunting pheasant. Bus, we've heard some tall stories.

Has Gal, Will Travel
In the summer months, Bus conducts 30-day tours to California. Needless to say, he loves to travel. Mrs. Blum, besides being a traveling companion for Bus, also serves in the capacity of librarian in the Lewisburg High School.

Another Undefeated Season?
Although it seems rather futile in view of Bus' excellent record as a track coach, we wish him luck in the coming season, the Bucknell sports staff would like to extend its best wishes to a great guy and coach, Bus Blum.

READ "THE BUCKNELLIAN" STUDENT VOICE OF BUCKNELL

SOCCER TEAM BOWSTODREXEL

by John Toal

In two games last week the BU soccer team fared as well as the type of weather in which they played. On Saturday in the below freezing temperatures and light snow the Middle Atlantic Championship Drexel team handed the Bisons a 6-0 defeat, and Tuesday on Muhlenberg's field in fair weather the team was victorious by a 2-1 score. However, in both games the team did not play as well as they should or could have.

Drexel Defense Superb
The Drexel team was good and they played the role of champs well. Their probable All-American scored three goals with their team scoring two in the first half and four in the second 44 minutes of play. The cold weather took most of the desire out of both squads, and the contest did not show the few freezing spectators very much. Drexel's strong booters and fine passing played havoc with Bucknell's defense. Goalie Jimmy Brown saw a lot of action around the Bisons cage. Pullback Roger Mackay played his usual fine game breaking up many scoring threats and sending his goal kicks well over half the field. However, when the line came into contact with these fine kicks, they were unable to convert them into goals, for the Drexel defense would reach the ball first and send it back down the field.

Poneck Scores Maiden Goal
In their victorious effort the BU Bisons scored on a penalty kick by halfback Phil Poneck in the second quarter. Halfbacks do not usually score many goals; this was Phil's first in his soccer career. It came after a penalty was called on the home team's fullback for clipping inside the penalty area. The other Bucknell goal came when captain Jim Batts, who along with Mackay have shown the most talent on the team, drove a shot into the opponent's goal in the third quarter.

In their last game at the home stadium, the Bisons were unable to score more for Bucknell. Many times fine scoring plays were in action only to have a Bisons offense. The Muhlenberg fullbacks looked like bartenders and ran as slow as mules. Nevertheless, the line did not take advantage of these deficiencies.

A 500 Season For Hankus?
The soccer team is looking forward to knocking off a highly rated Franklin and Marshall team this coming Friday at home. FAM is in the running for the Middle Atlantic Championship this year, and their outside right is a contender for All-American honors. This game has always been a hard-fought contest with last year's game ending in a 1-1 tie. Seniors Wacky O'Hara, Bob Toal and Phil Poneck will participate in their last game for Bucknell. Along with their dislike for the F. and M. team, these seniors would like to see the squad's record at five hundred after Friday.

HILLEL TO HEAR EBERSOLE
This Sunday evening at 7:30 p. m. in the lounge of the Carnegie Building, Dr. Mark C. Ebersole will conduct a panel at a meeting of the Hillel Society. The topic under discussion will be "Compulsory Chapel Attendance." Members are urged to attend, and guests will be welcome. A question-and-answer period will follow the discussion and refreshments will be served.

Along the Bison Trail

by Bill Sharkey, Sports Editor

Last week it was suggested that another regular feature be added to the sports pages of this newspaper. Some believe that Intramural Athlete of the Week should be added to the sports pages. As we all know, a "Coach of the Week" series was initiated this year, for the purpose of bringing the coaches in closer contact with the student body.

The "Bison of the Week" has been running for some time. The only people eligible for this award are varsity athletes; however, this does not include varsity managers. This award has come to quite an honor. The feature also acquaints the student body with various individuals on the athletic teams. The players are usually picked for their performances and ability, although other factors are taken into consideration. This new feature, if it is started, will be a short biography of an intramural athlete. These men should be chosen solely on the basis of performance and nothing else. How are we going to pick a man, that is the question. The cross-country event would pose no problem. However, when there are three soccer games going on at the same time how can a top man be chosen? If there are three football games being played simultaneously, who is going to decide who is the best player? In the boxing and wrestling matches can the best performer be found easily?

Some have suggested that the referees and the linemen at the soccer games should pick several men, turn the names in and the choice would be drawn out of a hat. This same policy would exist for softball, volleyball, and basketball.

In the other sports the choice would be a little simpler. This desk would like to hear further suggestions on this matter. We would like to know whether the majority of the sports page readers would be in favor of such articles. We would also like some good ideas on how this system can be inaugurated.

This desk wants to know whether the emphasis on an intramural athlete of the week is worthwhile or not? Should we put the intramural athlete on a par with the varsity athletes? Who do you think are more important, the varsity men or the intramural men? Your replies will determine to a large extent whether this feature will be added or not. They will show the campus' relative opinion on intramural sports and varsity sports.

We would also like opinions on whether or not we should extend this feature to cover women as well as men. We might be able to include some outstanding women, if it is agreeable to most.

If this feature is supported favorably, we could run it every week or every other week, depending on the amount of space available. All those who have some interesting ideas on the subject are encouraged to write and let this desk know their wishes.

Bison Of The Week

Jack Brothers

by Bill Bannak

Bison of the Week is Jack Brothers, 5-8, 164-lb. back from Greensboro, North Carolina. Jack attended Manassquan High School in Manassquan, New Jersey, where he played football, basketball and track.

He was also president of his class for three years and in his senior year was elected president of the Manassquan County Student Council, which included 13 schools.

Played Varsity Ball
For the past three years, Jack has done an outstanding job as a half-back on the football team. Last year he left the team in punt returns and pass receiving. This year he has added more to his record by receiving the Maxwell Award for his outstanding play in the Temple game. He also plays shortstop on the baseball team and last year led the team in home runs. Besides this he has played every intramural sport for Temple. Ovis 71-7 for their third SAE. Jack is secretary of the MSA.

Missed First Two Games
Toto, a 5-10, 170-lb. senior, has run wild in his team's last four contests, three of which were victories. An injury forced him to sit out the Hens' first two games of the season and they were defeated by Lehigh, 19-14, and Bowling Green 7-0. Tony first saw action in the 59-6 rout of New Hampshire, scoring on a 31-yard gallop the first time he handled the ball.

Averages 8.25 a Carry
Last Saturday Toto cracked a Delaware single game yardage mark by rolling up 183 yards on 11 carries as the Blue Hens humbled the Temple Owls 71-7 for their third SAE. Jack is secretary of the MSA.

MAN TO WATCH

ISTONY TOTO

Spectators at Saturday's Bucknell-Delaware football game at Memorial Stadium will have an opportunity to watch one of the East's foremost ground gamblers in action. The Blue Hens will invade Lewisburg with senior halfback Tony Toto as their outstanding back, while the Bisons will counter with their workhorse, fullback Bob Fitzsimmons.

monized on several DZ songs. At this get-together they had the opportunity to meet their professors on a more informal level than in the classroom.

Kappa Delta. Early in the semester the K. D.'s enjoyed the annual visit of Mrs. Elizabeth Higbee, their Province President. Their first project of the year was their successful bake sale held in Larion Living Room.

Kappa Kappa Gamma. The Kappas held a retreat at Gwyn last Saturday night. The evening was spent in singing songs and making favors. A "Bring a Friend" cozy is scheduled for today.

Phi Mu. Last week the Phi Mu's were entertained at the Phi Psi's to celebrate winning first prize for their homecoming float. November 10 marked the 35th anniversary of their founding on this campus. They celebrated the anniversary November 3 at a Formal Tea to which faculty, administration, alumni, patronesses and officers of the other sororities were invited.

Radio Hams Set Up 'All States' Contest

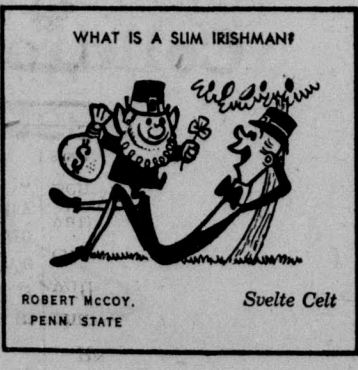

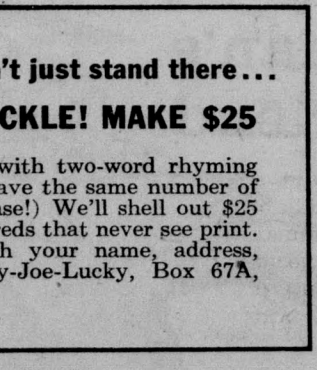

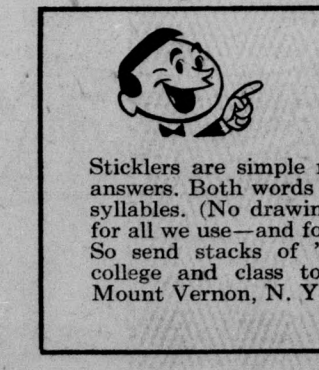

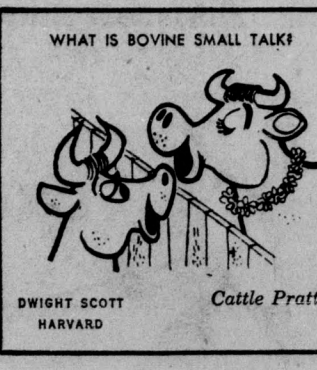

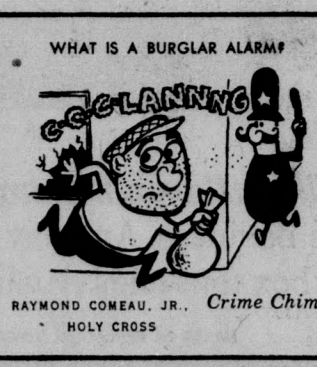

The Amateur Radio Club, W3RPB, will hold a special meeting on Wednesday, November 20, at 7 p. m. in room 306 of the Engineering Building for the purpose of setting up rules for a "worked all states contest" between the club members. The winner of this contest will be awarded a small prize.

At the last meeting the following people became full members of the club. They are Bill Bruce, Ken Farr, and Mike Ingraham. Three applications for membership were taken. The applicants are John Telford, Jim Langley, and Ken Selger. The club will discuss the possibility of becoming affiliated with the American Radio Relay League. The club is also represented in the College Net which operates on Friday afternoons. Other colleges belonging to the Net include Yale, M. I. T., B. P. L., Brown, Cornell, Lehigh, West Point, and Stevens Institute of Technology.

Hitler Regime Fighter To Talk In Chapel; Dr. Gezork — Andover-Newton President

Living through the terrors of the Hitler regime, and going "underground" to avoid persecution are parts of the moving life of Dr. Herbert Gezork, chapel speaker on December 4.

Dr. Gezork is President of the Andover-Newton Theological School in Newton Center, Mass.

He was born in Germany and educated in the grade schools there. In 1932 he entered the U. S. as an exchange student but two years later returned to Germany to lead the National Baptist Youth Movement which opposed the Hitler regime. Rather than conform to Nazi requirements he disbanded the group and went "underground."

His writings were burned by the Hitler police and in 1938 he entered America as a voluntary exile. In 1943, he obtained his citizenship.

Dr. Gezork served the U. S. Government on various missions in Europe. In 1950, he became President of the Andover-Newton Theological School.

Condit To Lecture On 'Science Relations'

Dr. Carl Condit, associate professor of English and general studies at Northwestern University in Chicago, will deliver a public lecture this evening at 8 p. m. in Olin Auditorium, sponsored by the University Course. The topic of his lecture, "The Relations of Science, Art, and Technology," will contrast the relations of science and technology in representative examples of medieval and modern building art.

Friday he will lead an informal discussion of his lecture at a luncheon meeting of Phi Sigma Tau, philosophy honorary. Dr. Condit will also address the University Course at its regular meeting on Saturday on the importance of the history of science.

Having received his B. S. M. E. from Purdue University, Dr. Condit went on to obtain an M. A. and Ph. D. in English at the University of Cincinnati. He is also an Honorary Fellow in the history of science at the University of Wisconsin. Dr. Condit has taught not only at Northwestern, but also at Carnegie Institute of Technology and the University of Cincinnati. His variety of fields includes mathematics, mechanics, engineering drawing, English, history of science, architecture, and history. While at Northwestern, he has developed the history of science program.

In addition to having written papers and reviews on science and the arts, Dr. Condit is also the author of "Rise of the Skyscraper," a study of technological and aesthetic achievements of the Chicago school of architecture. He is now completing the first volume of a history of the theory and techniques of American architecture from the colonial period until the present.

As a member of the American Society for Engineering Education, Dr. Condit is a member of the executive committee of the Humanities.

'ANGEL STREET' CASTS

Cap and Dagger announces tryouts for "Angel Street", the second major theatrical production of the year, to be held this Sunday from 2:00 to 4:00 p. m. and Monday from 7:30 to 10 p. m. in Bucknell Hall.

"Angel Street" is a psychological thriller, a study in character and suspense, holding eleventh place among Broadway plays for total number of performances. It was adapted for the film under the title "Gashlyt."

The cast consists of three female roles, two male roles, and two non-speaking male bits. Scripts, with try-out parts marked, are on reserve at the library.

LABOR DEPARTMENT LEADER ADDRESSES BUSINESS FORUM

Pictured above are some of those attending the Business Forum dinner at the Lambda Chi Alpha house. Left to right: C. Smith, N. Lowry, D. Ranck, N. Shiffler, Ewan Clague—Commissioner of Labor Statistics, and R. Young.

The price index should stabilize itself and perhaps turn downward during the first half of 1958, declared Ewan Clague, Commissioner of Labor Statistics for the U. S. Department of Labor, in an address at Bucknell last Wednesday evening.

Factors such as the softening of food prices, particularly meat products, and of certain durable goods will contribute to this stabilization, Mr. Clague pointed out.

Mr. Clague's talk on "Wages and Prices during the Post-War Period" was given before 60 members of the Bucknell Business Forum at their November meeting on the campus.

The importance of the various price indices, both wholesale and retail, is seen in the number of wage pacts that are tied to these. Millions of workers are given wages increases or deductions depending on the movement of the indices. These wage adjustments apply not only to unionized workers but others as well of who benefit from union contracts.

Therefore it is important that such an indicator is measured as carefully as possible. In referring to a recent article about the Department's price index in Time magazine's report, "The Bureau of Labor Statistics does take cognizance of

the improvement in the quality of products over the years and attempts to measure this in the index."

Wages during the post-war period have kept ahead of the price index and the average worker today has a much higher standard of living. However, the economy is excellent though a readjustment as happened during 1949 and 1953 may take place.

A dinner for the Forum members at the Lambda Chi Alpha fraternity house preceded the meeting in Bertrand Library.

11 Men Tapped In Chapel Service For ODK Honors

OMICRON DELTA KAPPA PLEDGES STUDENTS AND DEANS

Omicron Delta Kappa, National Leadership Honor Society for College Men, performed the tapping ceremony for ten new members: Ken Cestari, Jim Hall, Dean Hartzell, Dean Hayward, Pete Hunter, Nils Lestrane, Phil Nerhood, Phil Price, Cliff Smith and Bill Spangle during the chapel service yesterday.

The purpose of ODK is threefold: to recognize men of a high standard of efficiency in collegiate activities, to bring together leaders in all phases of college life, and to promote a basis of mutual interest and understanding between faculty and student body.

Members of ODK are picked from five phases of campus life. ODK recognizes and encourages achievement in scholarship, athletics, student government, social and religious affairs, publications, and speech, music and drama. The five indispensable qualifications for ODK membership are exemplary character, responsible leadership and service in campus life, superior scholarship, genuine fellowship and consecration of democratic ideals.

Ken Cestari is president of SAE, recorder of IFC and a staff member of the Bucknell Engineer. Jim Hall is manager of Chapel Choir and a member of the University. John Hayward is the Dean of Student Affairs.

Pete Hunter is chairman of the judicial board of MSA and business manager of Touche. Nils Lestrane is the Dean of the College.

INTERFRATERNITY COUNCIL BANS DRINKING AT RUSHING PARTIES

Coffee, Anyone??

Following a plea from the administration to remedy the drinking problem at open houses, the I. F. C. passed a ruling, November 13 prohibiting drinking at the remaining rushing open houses.

The administration has been concerned of late about the over-consumption of liquor at the rushing open houses. This problem came to a head during the weekend of November 8 when several freshmen became intoxicated and indulged in some very unbecoming and unsportsmanlike behavior.

As a result of this problem, the I. F. C. has decided to suspend all rushing open houses. This was just a temporary measure designed to stimulate action in the I. F. C. in regard to the drinking problem.

Dean Meyn went before the IFC and said that unless an equitable solution, which would meet with the approval of the administration, was reached, the moratorium would continue. The IFC then discussed several solutions to the problem but since no satisfactory solution could be reached at that time it was decided to prohibit any drinking at the remaining rushing open houses. This solution, it was pointed out, is just a temporary one, and the question of drinking at future open houses remains to be solved by the IFC.

According to Dean Meyn, the major concern of the administration is to prevent any further occurrences of the above nature. Therefore, the question arises as to whether drinking is absolutely essential to these open houses. The administration feels that it is not essential.

Many people feel that there is a real responsibility for this problem, lying with the fraternities and the freshmen themselves. As the administration has pointed out, the best solution to this problem lies in attacking it at its apparent source, the fraternities. It still remains to be seen whether the IFC will be able to find an adequate and equitable solution.

Friday evening in the Olin Science Auditorium, he read and commented on his own poetry. Opening by giving his conception of poetry, he then read and commented on poems from his book *As It Is*; this poetry covered a large variety of subjects, form and thought.

The following morning Mr. Ciardi addressed the Saturday World Literature class in the Vaughan Library. He read and commented on poems from his book *As It Is*; this poetry covered a large variety of subjects, form and thought.

A dinner for the Forum members at the Lambda Chi Alpha fraternity house preceded the meeting in Bertrand Library.

Dr. Coleman suffered a fractured thigh bone and shock from a fall which occurred in the Olin Science Building last Thursday morning when he was attending a Phi Beta Kappa lecture.

Dr. Coleman was removed to the Evangelical Hospital that evening after which he was taken to the Geisinger Hospital-Foss Clinic in Danville, where he is resting well.

Winged Wonders Want Watchers

Theatians Present Well-Known Comedy, 'Birds'—Aristophanes

MODERN VERSION USED

HUTCHINSON, CLEMENS STAR IN PLAY

by Jeanne Thomas

"The Birds," Aristophanes' well-known comedy combining uproarious farce and extravagant fantasy, will be presented by Cap and Dagger tomorrow and Saturday nights at the Lewisburg High School.

Bruce Hutchinson in the male lead portrays the comical Pithetaerus, an old Athenian adventurer. Ron Clemens plays the role of Euelpides, Pithetaerus' companion and fellow-Athenian. Epops, the mysterious hoopoe leader of the birds, is portrayed by Oscar Ronnegus; and Marjane Bunker will play the leading female role of Iris.

Athenians To The Birds

As the play opens Pithetaerus and Euelpides are seen in a desolate spot, each holding in his hand a bird, which has been guiding them to the kingdom of the birds. The two Athenians are discouraged, and Euelpides explains that they have abandoned Athens for a quieter country. Epops, the leader of the birds, appears and listens to Pithetaerus' idea for the construction of a city between sky and earth. The birds will then become masters of gods and men alike by intercepting the smoke of sacrifices made by men to the gods.

As the birds of the Chorus begin to arrive, Pithetaerus and Euelpides comment on them with topical allusions to contemporary personages in Athens. The Chorus of birds threatens to tear them to pieces but are stopped by Epops. Pithetaerus and Euelpides set out to "sell" their project by arguing that the birds were the first creatures of the universe, and that they once ruled all.

'Touche' Contest Open To All B.U. Students

In an effort to stimulate writing at Bucknell, Touche Magazine announces the following contests in which winners will receive CASH PRIZES.

1. Story Contest: PRIZES—1st prize—\$25 2nd prize—\$10 3rd prize—\$5 4th prize—\$5

Requirements: 1. Either truth or fiction. 2. About 1500 words. 3. Material must be typewritten and submitted on or before Monday, December 2, 1957.

II. Controversial Article Contest: PRIZES—1st prize—\$25 2nd prize—\$10 3rd prize—\$5 4th prize—\$5

Requirements: 1. Topic — "An Evaluation of Bucknell's Chapel Program" (does it meet student needs, should attendance be required, etc.) 2. About 1500 words. 3. Material must be typewritten and submitted on or before Monday, December 2, 1957.

Typewritten copy for both the Story Contest and the Controversial Article Contest can be submitted to one of the following:

1. Maryanne Bunker—Box W 276 or 2nd Hunt 2. Nancy Umholtz—Spanish House 3. Phil Nerhood—SAE House

All material received becomes the property of TOUCHE magazine.

Editorial:

... Education For Engineers

One of the latest rumors is a proposed change in the program for engineers. It is suggested that they be permitted to take only 30 hours of engineering in the four years. They would be required to take a variety of courses, thus insuring a more general education.

We feel that this proposed change is a big step in the right direction. It is another proof that Bucknell is consciously trying to improve its educational program, that the University is striving to better the preparation of its students, that it realizes the present educational trends.

There is truth in many of the trite comments about engineers: they can apply formulas, but they cannot think independently; they can talk about technical subjects, but they cannot discuss intelligently any abstract subjects. Of course, these comments do not apply to all engineers and they apply in varying degrees to others, but they obviously have an element of truth in them. A steady diet of engineering courses tends to narrow one's outlook, tends to hinder personality development.

From a practical point of view, a five year program (only 30 hours of engineering in four years necessitates taking a fifth year) is more advantageous for job advancement. Certainly a graduating engineer has unlimited job opportunities offered to him, but what will happen to him in about five years? Nothing! In most cases he will have reached his top place. However, if he has business management or some other background, his opportunities for advancement are much greater.

Because of the above reasons, we feel that a revision in the engineering program is an important benefit.

Letters to the Editor

No Criticism!

Dear Editor:

In view of the record compiled by the football team this past season and the many derogatory remarks being so freely voiced about its coach, Harry Lawrence, the squad would like to express its feelings. Despite our unenviable record and many disappointing performances, we refuse to place the burden of blame upon the coaches, especially Mr. Lawrence. We feel that we were thoroughly prepared for every game and were never beaten by surprise offenses for which the coaches had conceived no defenses. The squad is completely confident of the football knowledge and methods of coaching of the coaching staff. Above and beyond this confidence there is a genuine friendliness and loyalty among the players themselves, and in the player-coach interrelation also.

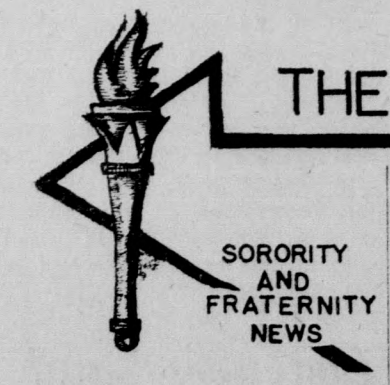

To whom it may concern we would like to pledge our allegiance to Mr. Lawrence and the rest of the coaching staff. We only hope we were thoroughly prepared for every game and were never beaten by surprise offenses for which the coaches had conceived no defenses. The squad is completely confident of the football knowledge and methods of coaching of the coaching staff. Above and beyond this confidence there is a genuine friendliness and loyalty among the players themselves, and in the player-coach interrelation also.

Cheers For Honor

Dear Editor:

A common topic of conversation among Bucknell students lately seems to be the pros and cons of the proposed academic honor system. The fact that the subject is being discussed is in itself encouraging to those of us who are in favor of the proposed system. Although many

Sorority and Fraternity News

Delta Upsilon — The brothers of Delta Upsilon are proud to announce that they have captured the cross country trophy for the eighth consecutive year. This year's winning team consisted of Dave Lynch, No. 1; Marty Holmes, No. 3; Bill McConnell, No. 4; John Ayre, No. 9; and John McLean, No. 11. Also finishing under thirty minutes were Jim Kaufman, Jeff Jefferson, John Trainer, and Chuck Urnst. Tomorrow night the DU house will feature Pier Five, the famous Dixieland combo. The house is open to freshmen and sophomores, and all are welcome. The Pier Five combo has achieved fame throughout the Baltimore area, and have cut several LP's. In addition to these events, the usual Wednesday evening service of Eric Worship will be conducted by the High Mages of the Rite.

Alpha Chi Omega — Recently the Alpha Chi's visited the Alpha Chi

chapter at Penn State, where they were very impressed with their beautiful suite rooms and entertained by their skits. This week they will have a DZ-Alpha Chi informal cozy.

Alpha Sigma Alpha — The Alpha Sig's celebrated their Founders' Day last Friday. On Thursday evening they met for a short ceremony conducted by various members of the group. Friday they wore white chrysanthemums in the shape of their pin. In the evening they had a very successful banquet at the University Cafeteria.

Delta Delta Delta — Tri Deltas' national Founders' Day was celebrated yesterday. A banquet was held at the Lewisburg Inn at which talks were presented by the chapter president, Peggy Smith and Alumnae Advisor, Mrs. Mathias. The chapter history was read. A scholarship cozy was held last week at which informal, humorous entertainment was presented to stimulate study, and songs were sung. Also attending the cozy was Mrs. Mathias.

Delta Zeta — For the past few weeks the DZ's have been preparing projects for their Christmas Bazaar. The girls have been going up

The INFORMANT

by Ira Podnos

One of the more pleasant places on the Bucknell campus in which to accomplish one's work is the Ellen Clarke Bertrand library. Within her walls, one can fulfill his academic obligations in a friendly atmosphere that is, at the same time, conducive to study. Bertrand library boasts of study halls, reading rooms, and rooms suitable for typing, all of which are at the student's disposal. Moreover, the library is equipped with water coolers, pencil sharpeners, comfortable chairs and functional desks, some of which, unfortunately, have wobbling legs. But that all the legs on all the desks are not of the same length, is entirely irrelevant to the point that I wish to make: it has just been my misfortune to sit at a table where the end of one leg is looking down at the other. The point is that the University has made available to her students an edifice in which the student can accomplish his work quickly, quietly, and efficiently. The point is, moreover, that this particular student finds the library neither a place to do his work speedily, peacefully, nor effectively. But the fault is mine and in no way the fault of the library system. And I will accept the blame for my trespasses, but I refuse to accept it alone. For I have trespassed on ground that has already been trespassed upon and have committed faults within the library walls that have been hallowed with time. I insist that the majority of students who frequent the library accept the blame with me or, at the very least, show some outward sign of sympathy.

The library never ceases to amaze me with its endless shelves of books and pamphlets. Here, I am able to look up any subject ranging from sex to Socrates, for being a student of higher learning, I have a thirst for knowledge in both these fields—although in unequal proportions. The result is, however, that I plod my way to the library with respectable intentions and, inevitably, end up thumbing through miscellaneous books for an entire afternoon or evening. I never accomplish the work I intend to do, and such a system could work at Bucknell and should be tried.

Being a born table hoper, I must leave my own desk and visit my friends who are studying in the library. We very rarely say anything substantial that could not have waited until later, but I very rarely get such an opportunity to annoy them. We talk in whispers, of course, but I forget continually that in the library a whisper is magnified into a thunderous shout, and a breath, into a windstorm.

And the dear boys who play soldier beneath the library windows! How I wish they would go away! It's very difficult — RIGHT SHOULDER ARMS — to concentrate — INSPECTION ARMS — on the book in front of me. PORT ARMS — when tactical maneuvers are being held — ORDER ARMS — beneath the library window.

But if you have to take a hill in Classics or any other course and the enemy is a formidable one, the best strategy, despite the inconveniences, is a visit to Bertrand Library.

ON OTHER CAMPUSES

by Chris Petersen

Small Statistics: The Pace College Press informed us that two out of every five college students fail to graduate, and that this is mainly due to a lack of practical knowledge of English.

We received our first newspaper from the Tuskegee Institute of Alabama and learned that their enrollment is very similar to ours, having a little more than two thousand students with about 600 in the freshman class.

House Party Hints: The Lehigh Brown and White headlines "Fall HP Menu . . . Football, Women, Maltby and Beer." Furthermore if the conversation between you and your date suffers from embarrassing silences, then try "I, the weather. 1. Dan Nolen. 2. Lehigh's football team. 4. Dan Nolen. 5. The International Geophysical Year. 6. Asian Influenza. 7. Dan Nolen. 8. Your marks. If none of these work you can always discuss Dan Nolen."

What in the World! You too can get free cuts if you can reproduce the following scene from the Illinois Institute of Technology. It seems that during the night "several piles of manure were deposited in the center of the second floor rooms." The stimulus to the olfactory nerve was just too much!

Universal Student Prayer: From the University of Connecticut comes "The Twenty-Third Quail." "The Prof is my quizmaster. I shall not flunk. He makes me to enter the examination. He leads me to an alternate seat. He retreats my fears. Yea, though I know not the answers to the questions, I will feel no failure, for others are with me. Class average comforteth me. I prepare my answers before the presence of my roommates. I annoy my bluebook with answers. My time runneth out. Surely grades will follow me all the days of my life. And I will dwell in the classroom forever."

Quotable Quotes? Overheard in elevator at Pace College: "Pardon me m'am—I think my cigarette set your dress afire."

From the Arizona Kitty Kat: "Teacher: 'Name one of the benefits of the automotive age.' Student: 'It has practically stopped horse stealing.'"

From the University of Denver: "The textbook for English 55 does not weigh 300 pounds."

From the Illinois Institute of Technology: "Drunk: 'What's that crawling up the wall?' Bartender: 'A ladybug.' Drunk: 'God! What eyesight.'"

From the Wilkes College Beacon: "One day as I sat musing, sad and lonely, without a friend, a voice came out of the gloom and said, 'Cheer up, things could be worse.' So I cheered up, and sure enough, things got worse."

C'est fini! The suite each Sunday night to make such things as stuffed animals, octopi, and baby clothes. The box of scraps has been rapidly emptying as each bit of material is transformed into a rabbit or a phant. All these projects will be for sale December 4, in Larson Liv. Room. Proceeds from the bazaar go to help support Curville, the only hospital in the United States for Hansen's disease.

Pi Beta Phi—The Pi Phi's held a successful sale of hand made articles from their Settlement School in Tennessee. The proceeds from the sale are used in furthering the development of the school. The Sigs invited the Pi Phi's to a jazz session at their house. Last week the chapter served dinner to the Phi Psi's followed by a skit, and the Alpha Chi's entertained them at a cozy.

TAU KAPPA ALPHA PLANS TOURNAMENT FOR NOVICE DEBATERS

Tau Kappa Alpha, the honorary debating fraternity, will hold a tournament on campus for Bucknell's novice debaters November 23. There will be three rounds of debates concerning the national question, "Membership in a labor organization as a condition of employment should be illegal."

Medals will be awarded to the winning teams and to the outstanding speakers by the senior members of the debating society, who will act as judges.

To give the debaters sufficient background on the problem, the fraternity is sponsoring discussions. At the meeting November 4, Mr. John F. Zeller, assistant to the president of the University, spoke on "The Constitution and the Right to Work," followed by a discussion of the alleged constitutional issues connected with such laws.

The club is also planning to invite a student member of the AEL-CIO to discuss these laws.

Eight novices, divided into two teams, participated in the Hamilton College Novice Tournament November 2 in Clinton, N. Y., in which 25 colleges took part. One team consisted of Sach Panko and Jack Hyden on the affirmative, and Neil Sommerman and Steven Waldhorn on the negative. For the other team, Barbara Billings and Jack Mahanik argued the affirmative, and Stan Sabarsky and Gordon Strassenburgh, the negative. The team of Sabarsky and Strassenburgh won a unanimous verdict against teams from such colleges as Cornell, Rochester, and Les Moines. The group as a whole won five of their twelve debates.

PI SIGMA ALPHA Pi Sigma Alpha, national political science honorary, will be host at an informal gathering being held for all students who are majoring in political science. Guy Payne's College Inn will be the sponsor.

By the end of the year the novices, directed by Dr. Merritt of the speech department, will have participated in approximately one hundred debates.

Engineers Initiate Generating Operation

Engineering professors from universities, colleges, and technical schools in the East were invited to attend a celebration of the initiation of a new engineering operation which was held Monday, November 18, at both Newark and Linden. Bucknell was represented by Colonel J. W. Proctor, a retired engineering professor.

The Public Service Gas and Electric Corporation of New Jersey has placed in service an ultra-modern steam generating plant adjacent to the Esso petroleum refining plant at Linden, New Jersey. The reason for this location is that the new power station will burn as fuel in its boilers, a petroleum residue which is produced in vast quantities in the petroleum refining processes. The residue has a high heating value but, due to its density, it is difficult to handle. A new engineering practice has grown up of conveying such residues to the power plant, which in turn furnishes processing steam required by the refinery. This plant has been about three years in its building and is one of the pioneers in this practice.

Chem Students Hear Krsek Talk

Dr. George Krsek of the Merck Company delivered a lecture to the chemistry department of "Industrial Chemicals" in the Olin Science Auditorium Wednesday night. He spoke about synthetic acid, a comparatively new discovery, used as a stimulant of plant growth.

Dr. Krsek is the director of the electronic chemicals department of the Merck Company in Rahway, New Jersey. He holds a B. S. degree from Indiana University and a Ph. D. from the University of Wisconsin.

Church Services Led By Religion Students

Kappa Chi Lambda, an organization for those interested in religious vocations, had two deputations last Sunday at McWenvelve and Turbotville.

The group that handled the entire church services consisted of Jack Moyer who preached two sermons, Bill Keach who read the scripture, Cynthia Miller who announced the hymns, and Eugenia Wright who gave a short talk on religion at Bucknell. Victor Allison also gave a sermon at the thank offering service in Herndon, assisting Rev. Singer.

Following the initiation ceremonies, a banquet was held at the Hotel Lewisburg for both old and new members. The speaker was Professor Stanley F. Dice.

When a man places his wife on a pedestal nowadays, it's probably she can reach the ceiling with her paint roller.

Language Group Provides Tutors For Spanish Help

The Spanish Honorary, Sigma Delta Pi, has made plans to provide special help to those people who are having a problem with some phase of the language. A member of the honorary will be in Spanish House on Monday, Tuesday, and Wednesday afternoons from 4:30 p. m. to 5:30 p. m., and will give aid in any section that the student finds especially difficult. The program began last Monday and will continue the rest of the semester.

SCHWEITZER ELECTED PHI SIG PRESIDENT

Phi Sigma Tau, the National Philosophical Honorary, held its first meeting of the year at the home of Miss Rilla Phillips, a member of the Philosophy Department. Following a series of informal discussions, the officers for the present academic year were elected. Ruth Schweitzer, a former active member of Phi Sigma Tau, was elected to the position of president. The re-election of Betty Jones as vice president was followed by the election of Gail (Continued on page 8.)

IT'S ONE MAN TO ANOTHER

In the Canadian Players' presentation of George Bernard Shaw's "Man and Superman" given last Saturday night, Ted Fellows playing Jack Tanner tells how much he knows about women (or maybe how much he doesn't know).

Math Honorary Holds Initiation

Pi Mu Epsilon, the honorary mathematics society, initiated 26 new members last night. Those initiated were: Doris Abbott, Bob Appleman, William Bander, Dorothea Bell, Harvey Berk, John Coulter, Marion Douglas, Henry Farrell, Mary Emma Fetter, Nancy Honker, Charlotte Jones, Joseph Kissinger, Betty Schrenk Krupka, Donald Miller, Gary Munkelt, Gayle Myers, Elva Mae Nicholson, Joan Obert, Frederic Olsen, Dave O'Sullivan, Arthur Reenstra, George Schreier, Martin Sokolowski, Ronald Staley, Janet Thompson, and Richard Willdenberger.

Following the initiation ceremonies, a banquet was held at the Hotel Lewisburg for both old and new members. The speaker was Professor Stanley F. Dice.

When a man places his wife on a pedestal nowadays, it's probably she can reach the ceiling with her paint roller.

Chapel Choir To Tour In Penna., N.J. Areas

The University Chapel Choir will go on tour November 22, 23 and 24. The tour will cover New Jersey and Pennsylvania, with appearances at Baptist Churches in these states.

Friday evening the choir will travel to Bridgeton, New Jersey, where they will sing at the Berean Baptist Temple. They will arrive in Philadelphia Saturday morning where they plan to spend the day sightseeing and visiting the various cultural places of interest. A tour of the University of Pennsylvania campus is included in the itinerary. Upland Baptist Church in Upland, Pa. will be host to the choir Saturday evening. Various church members will provide overnight facilities for the members of the choir.

After church services in Upland Sunday morning, they will proceed to Hightstown, New Jersey where they will sing at Peddie School. In the evening the choir will move to its last appearance in Palmyra, New Jersey. They will give their final concert of the fall tour in the First Baptist Church of Riverton and Palmyra.

Buses are scheduled to return to campus 2:00 a. m. Monday morning.

CHAPEL CHOIR SINGS

The Chapel Choir, directed by Dr. Witter McRae, participated along with twenty churches in the Festival of Faith, a service in observance of Reformation Day. The service was held under the auspices of the Williamsport Council of Churches and took place at the Pine Street Methodist Church in Williamsport.

The choir sang six selections with Herb Bohler doing the solo in "Memories I Hear The Full Celestial Chorus."

Along the Bison Trail

by Bill Sharkey, Sports Editor

With the football season over and the bitterness of defeat still in our mouths, with the memory of a losing season foremost in our minds, how easy it would be to condemn and to crucify.

Instead, let's say thanks to the football team for trying, for fighting hard against insurmountable odds. Let's say thanks for not giving up when we gave up our faith in them. Yes, we gave up our faith in them, and they never stopped fighting for us. We've called them morons, misfits, and egotists, and laughed and jeered at them, and they still kept on fighting.

We who do nothing look pretty shallow compared to them. How gutless we are, we who do nothing but criticize.

I would like to congratulate the team and the coaches for fighting and playing hard. They may not have won all their games, but they tried. They put their all into it. Harry Lawrence may not be the best, but he did his best, and that's all that is humanly possible. It's not winning that counts, it's having fought well. The football team did fight well.

Doug Fosythe got his hand chopped up playing for you at Colligate, and most of you wouldn't carp if he lost his whole arm.

No, the football team didn't always meet winning standards, but they stuck together, and they were loyal to their coach. How many of us are loyal to anything but ourselves?

When a group stands and fights against overwhelming odds, and overwhelming public sentiment, it approaches greatness. Something few of us will do individually. Every one of those football players and his coaching staff, thank you for trying, for preserving the ideals of fair play, for trying to preserve the great game of football at Bucknell. Maybe we don't always show our gratitude, forgive us, we're only people.

SOCCER TEAM BOWSTO F&M.

by John Toal

The soccer team's three to two defeat by Franklin and Marshall was the toughest defeat of the year. There was a disputed call by an official, and this was the game.

Will Lose Seniors

Seniors Larry O'Hara, Phil Ponck and Bob Toal, played their last game for Bucknell and they will be sorely missed next year. Ponck, who scored his first goal against Muhlenberg last week, again carried through for the score midway in the first period. His shot, a line drive from 20 yards out on the right side, hit the opposite corner of the net, out of the goalie's reach. Later in the second period, O'Hara scored the best goal of the season. His foot connected with the ball and sent a low shot that went into the goal six inches away from its post. No goalie could have stopped this score. These goals resulted in a two to nothing halftime score for Bucknell.

Jinx in the Third

However, the usual third quarter jinx befell the team and for the fifth time this season the opponents scored within the early minutes of this period. With the Bisons winning two to one the team battled on into the last minutes of the last quarter. At this time a Bucknell fullback slipped while running after a ball and fell to the ground. The referee called hands on the ball and ordered a penalty kick. This caused a tremendous argument as the Bison fullback protested that he had not touched the ball. Eventually Jim Brown, goalie, who was closest to the play, argued so strongly with the official that he was ejected from the game. With no second-string goalie, coach Peters played captain Balta into the goal. The F&M player placed an impossible-to-stop shot into the corner knotting the score at two to all. Once again the opposition drove down into Bucknell territory and scored with one minute to play. The team tried hard to tie the game in the last minute, but they failed, resulting in a victory for F&M.

The BISON

D.U.'s Cross-Country Champs

by Ducky Walters

Delta Upsilon capped their eighth successive cross-country championship by placing five men in the first fifteen. For the DUs it was their first intramural trophy of the year, thus pulling within 34 points of the front running SAEs. This was the first time in many years that they did not make a complete walkaway of the contest.

Theta Chi placed two men in the top six. For a fraternity that has been without a house all fall they have certainly done a very commendable job. As of now they rank third in the intramural standings. While on the subject of the standings, I would like to make an apology for a mistake that was in my article last week. As printed in the standings the SPEs were given credit for only 71½ points. This should have read 81½ points, ranking them eighth instead of eleventh.

23 Bouts Monday Nite

A total of 23 bouts were held at Davis Gym Monday with a record of pin being registered. Twelve Four freshmen advanced to the men who are wrestling this year. Four freshmen advanced to the semi-finals by winning their bouts while one other advanced through a bye. Both mats were in use for

WIEDER, HARLEY CAPTAIN TEAM

Skip Wieder, a senior from Plainfield, N. J., and Ellis Harley, a junior from Clearfield, Pa., have been elected co-captains of Bucknell University's 1957-58 basketball team. The two 6-3 forwards are expected to play important parts in the BU Bisons' continued rise to court prominence.

It will be the second term for Wieder, who co-captained the Bison quintet that posted a record-smashing 16-8 mark last winter. Skip, playing in only 14 games, slumped off from his sophomore campaign when he netted 194 points, but proved to be an intelligent, inspirational leader. When he's in form, Skip is the Herd's most accurate outside shooter, often being called upon to shatter an opponent's zone defense. He could see service in both the forecourt and the backcourt this winter.

Harley made the starting grade late as a rookie last season. He fired in 62 of his total of 83 points in the Bisons' last five contests and has been very impressive during the squad's workouts this fall. Ellis packs a looping one-hander from short and medium range and is a strong, powerful driver. He's a tough competitor who battles every minute.

Wieder and Harley will be heading a 12-man squad that includes three seniors, five juniors and four sophomores. Among those returning for duty are two of the Herd's top three point-producers a year ago. Hal Danzig, a 6-6 center from Rochester, N. Y., and guard Jack Flanagan, a 6-1 Lansdowne, Pa. product, tallied 243 and 147 points, respectively, in varsity debuts last year.

Bison Of The Week Roger Mackey

ROGER MACKEY

by Bill Bannak

This week's Bison of the Week is Roger Mackey, a sophomore from Windham, New York. Roger attended Windham high school where his father is athletic director. He played soccer, basketball, and baseball. He was captain of the basketball team for four years and captain of the soccer team for three years. In his senior year the soccer team was undefeated and won the section two finals. Roger also was vice president of the junior class and president of the senior class.

Came To BU as a Halfback

Roger came to Bucknell as a half-back, but because of the lack of experience at halfback was converted to a fullback. He continually sparked the defense all season and assisted in saving numerous goals. With his "big foot" he was able to kick the ball over midfield which enabled the offense to spring into action. In the spring he is going out for baseball, where he says his real interest lies.

Roger is majoring in Commerce and Finance and after graduation he would like to go into business although he has no definite plans as yet.

—KEEP OFF THE GRASS—

ORANGE AND BLUE TROUNCED BY HENS

Again the Thundering Herd suffered defeat, this time at the hands of a powerful Delaware eleven. The Bisons however played hard football all during the game. The Bisons were once more the victims of a strong team that was out of their class, a team we should have never played.

Delaware Scores Again

Early in the second quarter Delaware took over on the Bison 48 and in five plays scored. Toto carried 24 yards in two plays to the Bucknell 28, a Catuzzi to Frantz pass brought the ball down to the BU 5. Toto then lost two yards back to the 7, and from there Catuzzi threw to Klingler for the score. The kick was good and Klingler had his third straight extra point.

Bisons Draw Blood

Midway in the second period the Bucknell offense started to click as the Bisons moved 80 yards to their first score. Passes were responsible for moving the ball into Delaware territory for the first time. Terry Fetterman completed passes to Fitzsimmons, Rinaldi, and Brady. The Bisons then moved the ball on the ground from the 41 to the 22. Fetterman again threw, this time to Bill Walasek on the Hen 9. After Delaware blocked two aerials, Ray Hettehe on a pitchout threw a beautiful pass to Brady standing alone in the end zone. Walasek's try for the extra point was wide making the score Delaware 21, Bucknell 6.

Brothers and Fitz Intercept

Near the end of the first half Delaware drove deep into Bison territory only to have one of their passes intercepted in the end zone by halfback Jack Brothers. Bob Fitzsimmons later in the third quarter intercepted a Delaware pass but the Bisons failed to capitalize after moving to the 20.

Bad Pass From Center

Delaware's fourth score came when a bad pass from center sailed over Erickson's head into the end zone where Frantz fell on it for the touchdown. Klingler kicked his fourth straight extra point and the scoreboard read, Delaware 28-6. Delaware climaxed its scoring in the third period by capitalizing on a Bison fumble. After recovering on the BU 12 the Hens drove to the 1 in two plays. John Turner then cracked over center for the score. Klingler then missed his first conversion of the afternoon.

Seniors Finale

Saturday's game was the final college gridiron contest for the following seniors: Jack Brothers, Jay Citron, Edge Deuel, Terry Fetterman, Bob Fitzsimmons, Rogers Frasseini, Bob Holmes, Rene Meenan, Bruce Neely, Bill Rinaldi, Chuck Wagner, and Bill Walasek.

WINTER SEASON SPORTS PREVUE

by Stratton S. White

Ben Kribbs and his 12 Bison basketballers are preparing to make some thunder this winter in Davis Gym and in other gyms in the East and Southeast.

Open Against F&M

The team has been working out for about a month and opens against F&M at home in two weeks. There are three seniors on the squad, they are Skip Wieder, 6-3, 185, John Strizii 5-9, 165 and Bob Salankiewicz, 5-11, 153. There are 5 juniors who are expected to play a very important role in the success of the Bucknell basketball team. They are: Harry (Moose) Danzig, 6-6, 230 who will be invaluable under the basket as well as in the bucket. Danzig was the leading scorer and rebounder on last year's squad. Bob (Bones) Erickson, 6-6, 190 will also provide a great deal of strength from within the foul line. So far in practice drills, Erickson has shown a great deal of improvement although he performed commendably last season. Jack Flanagan, 6-1, 165, Ellis Harley, 6-3, 180 and Bill Wootter, 6-3, 175 are also boys who are expected to blossom into stars this season. All three of these boys possess speed and will be effective on the outside as well as on the drive.

The four newcomers to the varsity squad are sophomores Bob Horn at 6-4, 200, Bob Jones, 6-2, 185, Pete Matz, 5-10, 160 and Tommy Thompson, 5-10, 170. All of these boys were stellar performers on last year's freshman squad.

Baseball, Popular Sport Within the last two years basketball has gained popularity at B. U. With the high caliber ballplayers on this year's squad, the spectator attendance should continue to rise. Here's to a successful season, fellows.

WRESTLING

Coach Bill Wabley's grapplers have started the long hard road of grunts, gaunts, starvation and drying out in preparation to condition themselves for the oncoming season. This is without a doubt one of the most grueling college sports today.

The squad has two returning lettermen in the persons of Larry Dempster and Roland Bell. In two years of varsity competition, Dempster has lost only twice. Larry finished last season with a 3-1 record after recovering from a hernia that kept him out of action for the first three matches. Roland Bell also did a very fine job last year, turning in a 4-2 record. Edge Deuel will step into the heavyweight spot vacated by Bill Benton, 170.

Tennis Favorite Sport

Hank's favorite sport is the nationally known game of tennis, and he started coaching the Bucknell netmen in 1947. He has piled up an enviable record.

Everybody meets Under The Clock at the BILTMORE

The old racoon coats are seen again under the famous clock—Meeting at The Biltmore is a timeless college custom. And no wonder—it's still the most convenient, most exciting location in New York! Those special student rates help, too. Write to our College Department. Plan now for Thanksgiving or that Special Weekend.

Belching Taboo Says Emily Conroy

by Dave Conroy
TABLE MANNERS
(Article One of a New Series)

Here in our little school for the advancement of higher learning there appears to be an obvious lack of education in one of the more prominent fields of learning, social education. This year innumerable freshmen have told this writer that while the doctrine of so-called "social pressure" has been repeatedly mentioned to them (and which, incidentally, can nearly be felt if you try hard enough), no one has really pointed out to them the proper way to act, and, therefore, they're afraid of the fact that they may sometime feel this "social pressure" (Good Grief!).

It's about time someone clarified four or five points so that none of us will worry anymore about the proper way to behave, and even more important, we can impress our little passion-flowers from the Sem. Probably one of the most important areas on which to concentrate in order to act like everyone else, which is very important here at Bucknell, is the category entitled "table manners". Let's go over four or five main points in this area, then, which may benefit us all.

1. Here at Bucknell, belching during the meal is strictly forbidden. This practice is most distracting to the people immediately surrounding you who are trying to enjoy their meal. Remember, belching during the meal is taboo, but as soon as you finish your dessert, a good healthy BLATHEH will actually be appreciated by the head of the table; it's a subtle tip-off that you have thoroughly enjoyed your meal.

2. Wiping your mouth on the nearby draperies is generally looked down upon at Bucknell. If you must do this, try to pick draperies which have a color similar to the color of the food you're eating, in order to prevent a color-clash in the interior decorating scheme.

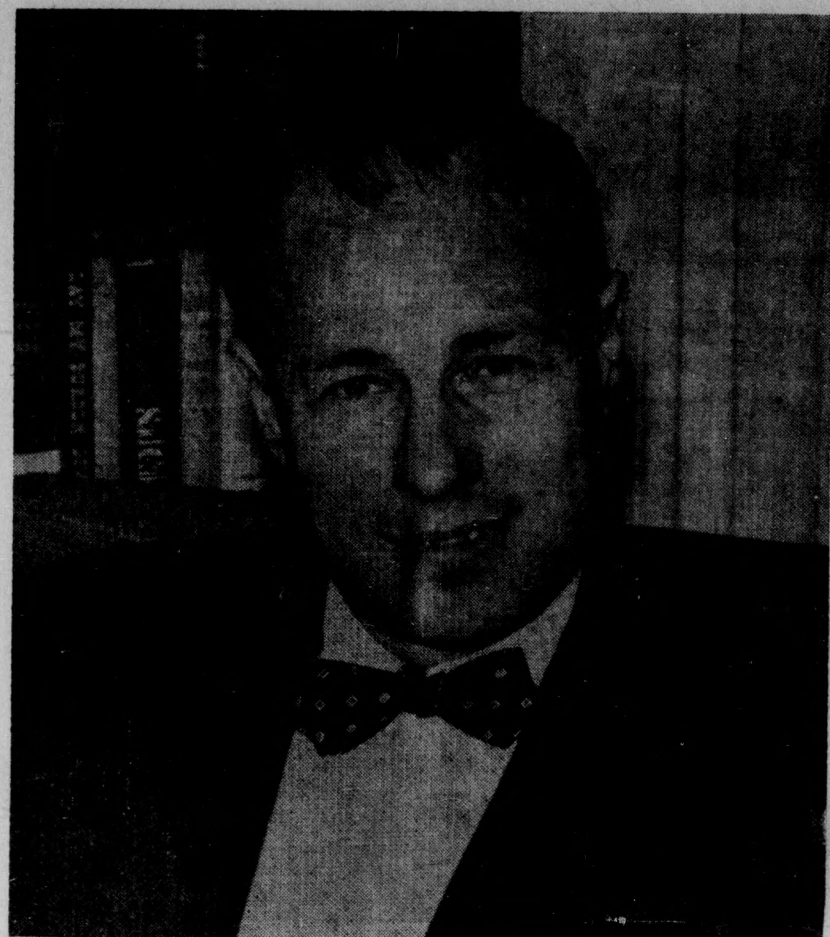

3. Remember at all times that when you're eating at a fraternity house that you are a guest; you are being catered to, and should receive as much food as anybody else. If the girl across from you gets a bigger portion of steak, tell her, "Put That Back on the Serving Platter" or "Wise Up, Baby". Better yet, smash the steak out of her hand with your soup spoon. There's always somebody at these meals that needs a little training in social etiquette.

4. But if you wait and wait and wait and still don't have your meal served, don't show your ignorance by requesting the table head to summon a waiter—take matters into your own hands. After taking careful aim at a nearby waiter, belt him with a hot-cross bun; follow this up with a big, "Hey, Stud, Get on the Stick". This always wises them up. Remember, though, no matter how angry you may get at waiters, never trip a waiter. It might be your meal that lands on the floor, and you're only hurting yourself.

5. Finally at the end of the meal, rinsing your mouth out and gargling with your coffee is permissible only if you gargle to a popular platter such as "Bad Boy", or "Chances Are". Ask your date to join you; gauge duets are a splendid way to finish a meal. Off-time gargles, though, are usually frowned upon here at Bucknell.

Remember, freshmen, your education here at our institution is comprised not only of academic achieve-

Prof-File

MR. BLACKMAN

by Beverly Swingle
Before beginning to teach, Mr. Blackman, one of the newest members of the economics department, was a successful newspaper man. After graduating from Haverford College, Mr. Blackman was a city editor of the Philadelphia Inquirer where he had invaluable experience in municipal finance and public utility regulation. After leaving this newspaper he became the Assistant City Editor for the Christian Science Monitor in Boston, Mass. This paper is the only daily newspaper put out by a religious sect, and is dedicated to giving the people a responsible and clean newspaper. It is influenced by neither political nor labor leaders, and therefore gives an unbiased report of the news.

During World War II, Mr. Blackman served in the Navy. After the war he went to Harvard for graduate work in the field of economics. He began to teach because he felt that if people knew the basic economic principles they would be better equipped to understand public questions and not become confused by the differing opinions of many politicians.

After the Korean War, when he again served in the Navy, Mr. Blackman returned to Harvard for a master's degree in economics. Here at Bucknell, Lynn is a member of Delta Zeta and she continues her work in journalism, dramatics, and music by writing for L'Agenda, working in Cap and Dag-

Behind The Mike

by Carole Castaldi

This week's article is featuring "Moods In Music" done by Lynn Silbert and Norma Coyle. The two girls play albums only, and they spin music that creates a mood—as the program title suggests.

For example, in the past Lynn and Norma have featured such "artists" as Nat "King" Cole, Frank Sinatra, the Hi-Lows, and Jo Stafford.

Both are New Jersey girls—Lynn hails from Plainfield and Norma from Hasbrouck Heights. Apart from their work at WVBU, Lynn and Norma have both been active in high school and college.

In high school, Lynn was interested in journalism and did much work on the school yearbook and newspaper. Musically inclined as she is, Lynn was in several singing groups and was also interested in dramatics. Here at Bucknell, Lynn is a member of Delta Zeta and she continues her work in journalism, dramatics, and music by writing for L'Agenda, working in Cap and Dag-

Smart Motoring!

AUSTIN-HEALEY 100 SIX
This sports car features a new four-speed gearbox with overdrive. Top speed 110 m.p.h. 30 mpg. \$2195. Feb.-pos.

The Buoyant MG A
Top sports car performance and styling at modest cost. The safest, fastest MG ever produced. From \$2395. Feb.-pos.

MG A Coupe
World famous MG versatility with dramatic styling. MG operating economy too. From \$2644. Feb.-pos.

MORRIS 1000
Turbo, powerful, dependable. Transportation at its thrilling. Three drive models. Sedan, convertible and special Station Wagon. From \$1592. Feb.-pos.

Products of the
British Motor Corporation, Ltd.

Import Division
Susquehanna Valley White Truck Company
Selinsgrove, Pa.

SLIGHTLY PERSONAL

by Kathy Crossett & Sue Van Pelt
ENGAGED.
Congratulations to Jola Williamson and John Tilley; Don Koppes, '57, PGD and Margie Anderson.

Best wishes to: Arnie Putterman, SAM and Sue Stein; Bill Sharkey, LCA and Carroll Stevens; Charles Boss, SPE and Linda Jones.

OUT TO DINNER.
Delta Upsilon—Ann Smith, Kathy Crossett, Mick Finley, '57, Nancy Clement, Hood; Lynda Graham, Indiana State Teachers College; Rita Vitese, Beaver; Allison Glatzer, Freda Wilson, Bev Reed, Barb Faccenelli, and Eric Dogg.

Kappa Delta Rho—Edie Cameron, Judy Sullivan, Elizabeth Warren, Carol Brozey, Barbara Carousi, Mr. and Mrs. Pickell and family, Joan Hendrickson, Anne Pike, Barbara Fisher, and Don Stansfield, '57.

Kappa Sigma—Mr. and Mrs. Connors, Bill Applegate, Elsie Martin, '57, Gina Benton, Barbara Briggs, Chris Petersen, Peggy Faulk, Judy McAllister, Mary Anne Bunker, Mrs. Merrill and family, Bev Franz, and Ben Bertolini.

Lambda Chi Alpha—Janet Hug, Joyce Laramy, Jane Schiefel, Francis Beighie, Phidde Gilman, Elaine Droz, Mr. and Mrs. Scott, and Pat Vashinder.

Phi Lambda Theta—Diane Krajo-

ger, and, of course, she does extensive work in WVBU.

Norma was very active in high school also. She was on Student Council and was president of French Club. She was also featured editor of the newspaper and editor-in-chief of the yearbook. At Bucknell Norma is a member of Alpha Chi Omega.

With these two talented girls running the show, it is no wonder that "Moods In Music" provides such pleasant listening. So won't you participate in all future parades and reviews where Company Sponsors are permitted. Actual selection of the Queen of the Military Ball will be deferred until the week before the Ball, and the winner will not be announced until the Ball. All seniors and their escorts will participate in a banquet from 5:00 to 8:00 p. m. the evening of the Ball, held at the American Legion. As the weeks go by, new developments will be announced as they occur.

On Thursday, November 21, the Pershing Rifles will name their own Queen. Besides the functions which all of the Company Queens will participate in, the Pershing Rifles Queen will represent Bucknell in a National Contest held by Pershing Rifles. It would certainly be an honor if a girl from Bucknell could win such a nation-wide contest. All Bucknell girls are eligible for these crowns, and next week we hope to announce which girls have been elected.

LOST — Dark rimmed glasses with one stem missing. They are in dark alligator cases. If found, contact Terry Fetterman, JA 4-7800.

Goodbye Mrs. Reiner, And God Bless You

Those of you who have ever worked in the food service department, know of whom I speak. This article is not for you; instead, it is intended to reach those of you who have only been acquainted with Mrs. Ray S. Reiner, Assistant to the Director of Food Service, in purely secondary way.

As a student at Bucknell, she was a member of Kappa Delta sorority and graduated in 1922. She lived for many years in New Jersey and later moved back to her native Lewisburg.

For the past five years, both men and women, but especially women, have enjoyed the benefits of her altruistic efforts to make the Dining Hall a place for all to enjoy. Now, for the first time many will come to realize to the fullest degree just what and how much has been done for their convenience. Now, Mrs. Reiner is leaving.

Without the gift of true eloquence, it is difficult to tell of the sorrow we students feel at her departure and we can only say, "We will miss you, Mrs. Reiner. Goodbye and God Bless You."

David Martin (Jeffery Hunter), an electrical engineer, and his wife Jean (Patricia Owens) move into their new home in Sunrise Hills, a California development housing G. I. veterans and their families. At a barbecue that night they met their neighbors: Troy Boone (Cameron Mitchell) and his wife Leona (Joanne Woodward), a Tennessee couple with little education; Isabelle Flagg (Sheree North) and her husband Jerry (Tony Randall) a man with big ideas who plans to "go places"; and Betty Kreitzer (Barbara Rush) and her husband Herman (Pat Hingle), owner of a local appliance store.

Jerry asks Jean to dance and she is embarrassed when, under the influence of too much liquor, he dances closer than necessary. David doesn't intervene, but Jerry does which leaves David ashamed of his indecision. Jean grateful, Jerry feeling like a reprimanded schoolboy and Isabelle burning. She warns him that he is headed for alcoholism.

Four incidents follow which have deep meaning and effect on each of the couples. Don't miss them. Remember, this Friday and Saturday at the Campus Theatre, "No Down Payment."

On Thursday, November 21, the Pershing Rifles will name their own Queen. Besides the functions which all of the Company Queens will participate in, the Pershing Rifles Queen will represent Bucknell in a National Contest held by Pershing Rifles. It would certainly be an honor if a girl from Bucknell could win such a nation-wide contest. All Bucknell girls are eligible for these crowns, and next week we hope to announce which girls have been elected.

LOST — Dark rimmed glasses with one stem missing. They are in dark alligator cases. If found, contact Terry Fetterman, JA 4-7800.

On Thursday, November 21, the Pershing Rifles will name their own Queen. Besides the functions which all of the Company Queens will participate in, the Pershing Rifles Queen will represent Bucknell in a National Contest held by Pershing Rifles. It would certainly be an honor if a girl from Bucknell could win such a nation-wide contest. KDR, Theta Chi Construct New Houses

Ever since Kappa Delta Rho vacated its former house for the Men's Infirmary, the fraternity has planned to build a new one. Ground-breaking ceremonies were held Homecoming Weekend at its new site next to the Lambda Chi Alpha house. The new house, built of brick and in an early American style, will hold about 30 members. In order to provide for a spacious dining room, the dining room and living room are divided by French doors which can be opened to enlarge the space. The members plan to take residence next fall.

The new Theta Chi house, in which open houses have been held this fall, is the latest fraternity house to be built on the hill. The house, built in a style similar to the first floor and a basement. The brothers plan to take residence after Thanksgiving vacation, the building providing sleeping quarters for 38 members. Its construction started in April.

Letters To The Editor

(Continued from page 2)

and something we would be willing to work for.

There is a lot of dishonesty now during tests. Let's face it, it could not be any worse under the honor system. First, the students who refrain from dishonesty now certainly wouldn't start cheating under another system. Second, the borderline sometimes—cheaters would think a lot longer about the advisability of cheating under an honor system.

And the habitually dishonest? Presumably they would be disciplined. Therefore the system would have practical advantages that could be seen as well as the less obvious but equally important intangible values.

This proposed system is not a wild idealistic dream. It works on other campuses similar to Bucknell. Some high schools even have a successful honor system. Certainly we at Bucknell can accomplish as much as a high school. It is a system that would be to the benefit of every one of us as well as every one of the faculty. It seems foolish and irrational to discard something which would enable us as students to perform better, achieve more respect for our university and increase the trust and approval of our faculty.

There are many students in favor of the proposed system. Many faculty and administrative officials are in favor and the rest need to be shown that we, the students can act as mature individuals in this matter. Our freshman class is enthusiastic and ready to work. Have the upper classesmen to much less imagination, less spirit, less desire to

tic-Social Division, chairman of a joint committee fostering cooperation between A. S. E. E. and the History of Science Society, and a member of the advisory committee to establish a research center for the history of technology.

Several topics were suggested for future programs, which included the discussion of guest lectures, philosophical debates, the reading of term papers, and informal gatherings centered about questions of general interest, such as, music, art, literature, and politics.

Dr. Richfield reminded them of Professor Carl Condit's lecture on the "Interrelations in Science and Technology" to be held on Thursday evening in the Olin Science Auditorium. Whereupon it was decided to have a luncheon in honor of Professor Condit on Friday, November 22, sponsored by the members of Phi Sigma Tau.

'58 CHEVROLET... BIGGEST, BOLDEST MOVE ANY CAR EVER MADE!

Big and new in style. Boldly new in power. Brilliantly new in ride. Never before has there been such a beautiful way to be thrifty as the '58 Chevrolet!

To see what's new this year, feast your eyes on Chevrolet!

There's a new style. That's written all over Chevrolet. It's nine inches longer! Much lower, wider. There's brilliant new performance with the beauty. The big 250-h.p. Turbo-Thrust V8* engine is so new it even

looks different. Feels different, too.

There are two new rides: Full Coil suspension and your optional choice at extra cost of a real air ride, first time in the field.

There's an even smoother Powerglide, the one and only Turboglide, and fuel injection among the superb extra-cost options. There is a new X-type frame, a bigger windshield, a new foot-operated parking brake. And two new super models—the new Bel Air Impala Sport Coupe and Convertible. See your Chevrolet dealer.

*Optional at extra cost.

Only franchised Chevrolet dealers display this famous trademark. See Your Local Authorized Chevrolet Dealer.

lands. The birds' pride is stirred up, and they are completely won over by the idea of this new city.

Pitheaeus Crowned

A herald arrives from earth and presents Pitheaeus with a golden crown. Many humans desire to dwell in Cloudackooland, so Pitheaeus orders wings prepared for their reception.

Prometheus enters, masked and hiding under an umbrella, so as not to be seen by Zeus. He has come to offer his help and tells the birds that the gods are starving. Poseidon arrives with Heracles and a Treballian god. They come as ambassadors of peace. There are long drawn out negotiations between the gods and Pitheaeus. Heracles, having been offered dinner, immediately votes to accept the terms, but Poseidon dissents. The Treballian god talks gibberish, which is interpreted by Heracles and Pitheaeus as a vote for peace. The terms are finally accepted, and preparations are made for Pitheaeus' wedding to Zeus' housekeeper, Basilea.

Banquet Announced For Students, Profs

Bucknell's annual semi-formal student faculty banquet, sponsored by the Women's Student Government Association, will take place Wednesday, December 18, at 8 p. m. in the woman's dining hall.

According to Barbara Dunning, social chairman of WSGA, invitations have been sent to members of the faculty and administration. Women students will have a chance to sign up with Ellie Body, Carol Turner, and Myrna Niemark in Larson living room for the faculty members with whom they wish to sit.

Under the chairmanship of Peggy DuVernet, the decorations committee is planning to decorate the dining hall around a candy cone theme with large candy canes forming an arch over the doorway.

Joyce Mehring's entertainment committee plans a vocal solo by Hopalong Cassidy?; a flute ensemble by Mr. Robert Beckman, Dorothy Poe, Edith Cameron, and Mary Lee Foot; readings by Dr. Willard Smith and group carol singing for the enjoyment of the diners.

Joanna Ziegler and Peggy DuVernet are co-chairmen of the banquet. Carol Westerman heads the program committee, and the publicity chairman is Kay Covitch. Hostesses are under the direction of Jackie Dobbs.

Dean Discloses Flunk-out Record

The correlation between F's received and the likelihood of being dropped at the end of the first or second semester has been announced by Karl D. Hartzell, Dean of the University.

The figures are as follows: For the year 1956-57 we had a total of 611 freshmen, of whom 202 had C's or better at the end of the first four weeks; 121 had one F; 69 had two F's or more; and 219 had C's and D's only.

Of those students who had one F or more, sixty were dropped by the end of the year. This is 56% of the number who had F's at four weeks. Of those who had C's and D's fifteen were dropped; of those who had all C's or better, only three were dropped.

The number of freshmen dropped during the year 1956-57 for scholastic reasons were 42 at the end of the first semester, and 36 at the end of the second semester—a total of 78. This would indicate that the F at the end of the first four weeks is a pretty fair indication of trouble ahead.

VICTORIAN THRILLER THESPIANS CHOSEN

Cap and Dagger will present "Angel Street", its second theatrical production for this year, on January 17 and 18 at the Lewisburg High School Auditorium. "Angel Street" is a three-act Victorian thriller written by Patrick Hamilton.

The production itself is an English import, and it had its Broadway run in the 1940's. The form of the play is melodramatic, but it is well-qualified in that it is realistic and suspenseful. "Angel Street" is a psychological drama concerned with character study.

Cap and Dagger has recently announced the results of the casting for "Angel Street". The members of the cast areas follows: Jane Hanks as Bella Manningham; Oscar Rodriguez, Jack Mannington; William Lembeck, Inspector Rough; (Continued on Page 8)

Ugly Contest Led By Mortar Board

Who will Reign as King of the Ugly Men in 1957? Each year, Mortar Board sponsors the contest which determines the student upon whom is bestowed the title of "King of the Ugly Men".

Any male member of the Bucknell family (faculty included) is eligible to be nominated. Any group on campus (fraternities, hall groups, clubs, etc.) may make as many nominations as it desires. Courtesy requires that the lucky man be consulted before the nomination is submitted to any Mortar Board member. All nominations should be in to Mortar Board tonight. The group nominating a candidate is then responsible for his campaign. Solicited nominations must be confirmed to Bucknell.

The polls for this selection will be in Che's and will be open from 8:30 a. m. to noon, 3:30 p. m. and 9-11 p. m. on Tuesday, Wednesday, and Thursday, December 10-12. At noon (Continued on page 8)

FEATURES RUBIN, TIGERTOWN FIVE, M. McKISSICK

Top jazz bands: Stan Rubin and his orchestra, featuring The Tigertown Five and Maynard McKissick, his trumpet and orchestra, featuring Ruthie Farrell, will star in M. S. A. sponsored concert-dance tonight in Davis Gym Annex. They will play from 8 to 1, with admission of \$3.00 per couple.

Rubin Begins At Princeton

Stan Rubin and The Tigertown Five organized at Princeton University while they were students. After making a start at various colleges, they played on the Holland-American Lines' College Student sailings.

The group was enthusiastically received in Europe. They discovered that New Orleans jazz is a universal language.

Through luck and persistence, Stan and the boys obtained an audition in front of the crowd at Maxims', the gayest and biggest night club on the Riviera. That night was Stan's shot heard around the world. The people went wild. Elsa Haxwell had a party for him, and subsequently devoted her column to Stan in the New York Journal American.

Tigertown Return to U. S. A.

After similar experiences throughout Europe, they returned to America to play at the world famous Glen Island Casino. As a result of his success there, Stan made his first album, "Dividend Favorites." With the proceeds of this album, he has a second and third album recorded.

One week prior to the historic debut performance of "College Jazz Goes to Carnegie Hall," Stan signed with RCA Victor Records. RCA recorded this event, calling the album "Dividend Comes to Carnegie Hall."

Open Newport Jazz Festival

Stan and his Tigertown Five opened the 1955 Newport Jazz Festival. They have also performed at the Parkway Casino in Tuckahoe, N. Y.; Steel Pier, Atlantic City; Frank Bailey's Meadowbrook; Jim's Ryan's; in addition to being the only American band invited to perform at the wedding of Grace Kelly and Prince Rainier.

Stan feels jazz is a type of music to be shared with the audience; not merely for the musician alone. He wants the audiences to share, enjoy and live the music they hear.

McKissick Plays Trumpet

After taking piano, clarinet, and drum lessons, Maynard McKissick took up the trumpet. With a background of music composition at Lebanon Valley Conservatory of Music, he organized his own orchestra.

After World War II he went on tour through the southern states. This tour was to last three months but lasted three and one-half years.

He has performed at University of Maryland, Madison College, Virginia Military Institute, and Sweet Briar College in addition to many nightclubs including El Morocco in Charlotte and Club Royale in Savannah. He has also performed at Palisades Park, N. J., and Convention Hall, Asbury Park, N. J.

Plays With Top Stars

In the spring of 1954, Maynard was approached with the idea of reorganizing his orchestra. Many motion picture and television stars along with recording artists were starting to make personal appearance tours and needed the best in musical accompaniment. Here was a new challenge which Maynard readily accepted.

Among the artists who have appeared with Maynard McKissick and (Continued on Page 8)

VARSITY WRESTLING PRACTICE SESSION

by Strat White

This article you are about to read is an unusual one but I hope that it proves interesting reading to you. It is a day at a college wrestling workout as seen by a novice trying to make the grade. Who is the novice you ask? Well, I am.

The wrestlers weigh in before practice, record it on a chart and shuffle into the wrestling room where they are greeted by the grinning faces of coach Bill Wrabley and his assistant, Franny Hatton. The grins, one forced, the other natural, are returned by the squad and everyone gets down to business. The men pair off and roll each other around practicing holds and combinations of movements. After several minutes of this the ever smiling Mr. Wrabley cheerfully informs us that we are going to do calisthenics.

The novice doesn't have too much trouble getting through the push-ups, sit-ups, leg-raises, jumping-jacks, and squat-jumps; but, the neck bridging, bridging, push-ups and the hand stand push-ups bring a look of consternation to his face and grunts from the rest of the squad. After this we run twenty-two laps around the annex, sprinting up one side and jogging down the other. I have heard an ugly rumor that the number of laps progresses every few days. Oh, well, mother told me there would be days like this.

Next on the agenda comes an exercise designed to perfect speed and balance. The men pair off, one on hands and knees, the other up on his toes with his chest balanced on the other man's back. At the command the man on top pivots around his partner for one minute as fast as he can without supporting himself with his hands. Then they switch positions until each man has done the exercise for three minutes. The next exercise is similar except that the man on the bottom moves around and the man on top must maintain contact chest to back.

Following this Pete Fritz and Roland Bell demonstrate moves under the guidance of Franny Hatton, after which the squad pairs off and practices the same. A beginner like myself can learn a great deal by just watching men like Dave Murdock, Larry Dempster, Edge Deuel, John Ayre, Fritz and Bell work out. A wrestler must possess characteristics such as grace, balance, strength, speed, and knowledge. These men seem to have it.

Bison Of The Week Ellis Harley

by Bill Bannak

This week's "Bison of the Week" is Bucknell 6-3, 190 lb. high scoring forward, Ellis Harley. Ellis attended Clearfield Area High School in Clearfield, Pennsylvania where he played basketball, baseball and was vice president of the senior class. In his senior year, Ellis led his team to the district play-offs averaging 18 points a game and winning for himself a berth on the all-state team.

Averaged 11 Points as a Fresh
As a freshman, Ellis averaged 11 points per game and in his sophomore year scored 33 points, 63 or them in the last five games. Every year seems to spell improvement for Ellis. This year he was elected co-captain of the team and scored 31 points in the first game against F. and M. Ellis is a member of Lambda Chi Alpha fraternity and maintains a grade point average of 1.9. He is also a freshman men's councilor of Swartz "3B wing".

Ellis is a C&F Major
Majoring in Commerce and Finance, Ellis plans to go into accounting after fulfilling his military obligations.

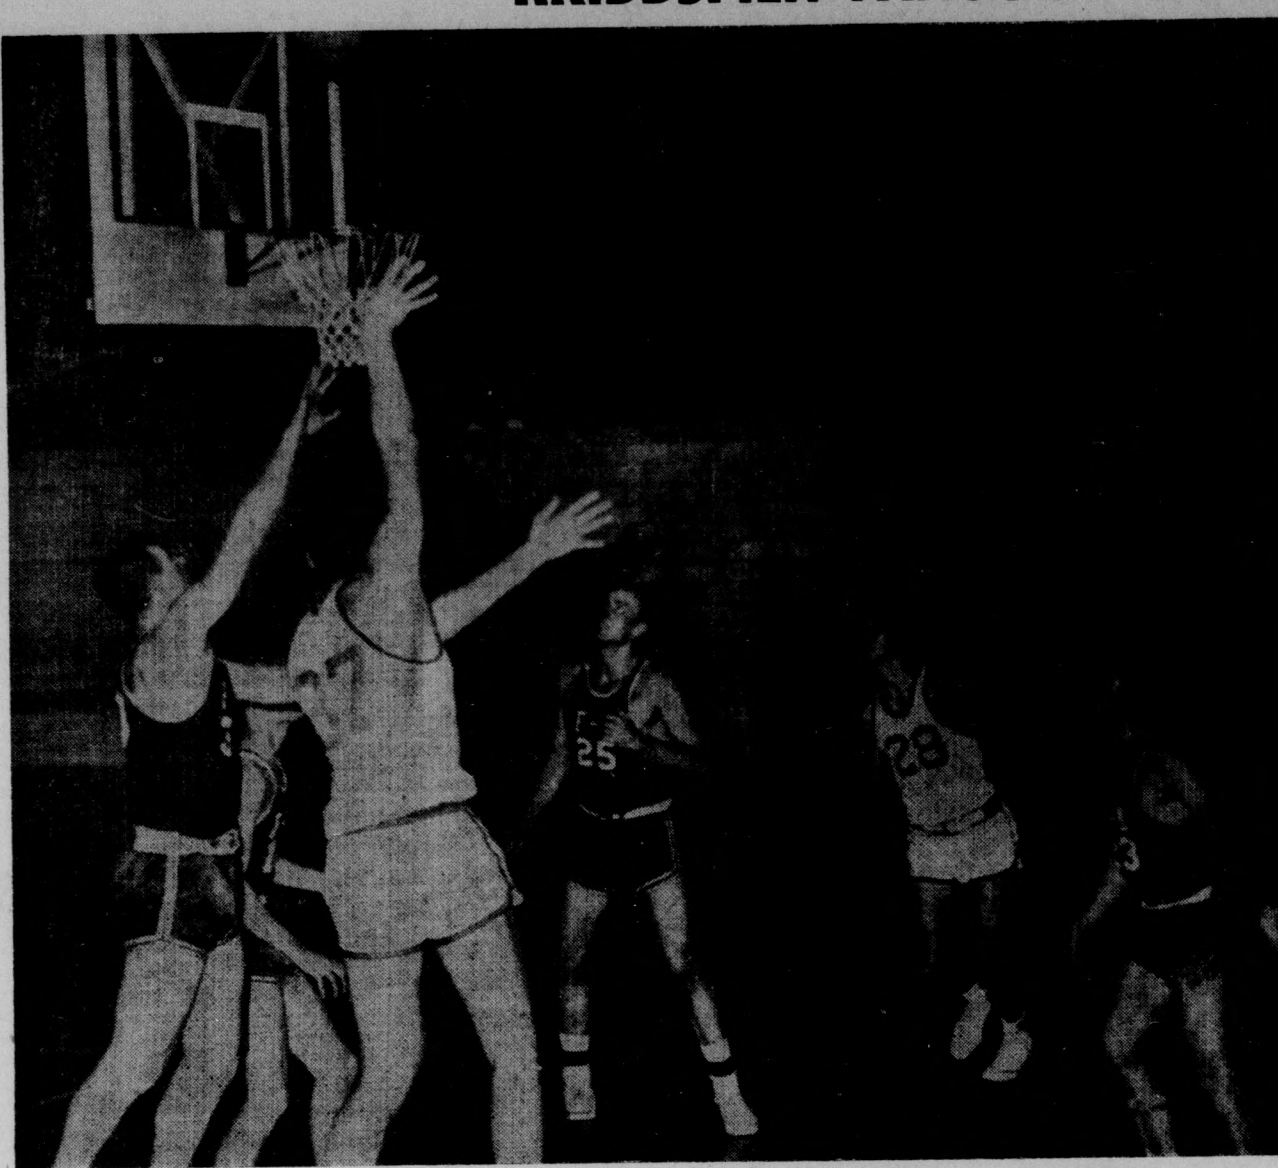

Dr. Jones Represents Bucknell At Conference

Dr. C. Herschel Jones, professor of political science, represented Bucknell at a meeting of the policy committee for the Washington Semester Program held Saturday in Washington, D. C.

The Washington Semester provides an opportunity each year for four Bucknell students to spend one term in the nation's Capitol, studying and carrying out their college program in that special environment.

Bucknellians currently participating in the program are James R. Roman, Jr., Gerald Dickstein, Robert Glickman, and Ann Pfeiffer. Miss Pfeiffer and Roman are seniors, while Dickstein and Glickman are juniors.

KRIBBSMEN VANQUISH WEAK F & M SQUAD

"Moose" Danzig drops one in to help the Orange and Blue on to victory over F. & M.

The Orange and Blue varsity quintet opened its 1957-58 season last Tuesday night with an unimpressive 66-36 victory over a less impressive basketball squad from Franklin and Marshall College. A small crowd braved the first snow of the year to see what has been called Bucknell's finest basketball team open the season.

Both teams employed similar offenses at the start of the game as the Bisons relied on two men on the outside and three men roving on the inside. Hal Danzig, the fine junior for Bucknell, covered the bucket with Bob Ericsson and Ellis Harley flanked on both sides of him in the forward positions. Bob Salankiewicz and Jack Flanagan opened at the guard spots.

The Diplomats from F&M showed surprising early strength under the boards as they gained possession of rebounding time and time again from the taller Bisons. Neither team could put together a sustained attack as the Bucknell team had trouble hitting from the outside and Danzig was blanketed by three Diplomat players. The Bison passing through the zone defense of the F&M team left much to be desired. Danzig, Flanagan, and Harley kept the Orange and Blue safely in front with accurate shooting as the Bisons opened up a 33-21 lead at the half.

As the second half began Ellis Harley took command and scored 8 of the local team's first 12 points. With Flanagan aiding the red-hot Harley, Bucknell opened the gap to 42-27. The Bison defense looked better but still the offense lacked

polish. Harley hit on a driving lay-up and added a four for a 51-34 lead as it became more and more apparent that this was a one man Bucknell offense for this game. Coach Ben Kribbs began to substitute with three minutes left and the F&M team rallied at the end to close the score from 61-40 to the final result of 66-56.

In the opening game, Coach Eric Pfeiffer unveiled the Freshman team in a smashing 84-58 victory over the frosh from F&M. The taller Bucknell team was too much for the game but outmanned squad from Lancaster. The Bisons were led by John Meinert with 23 points while Joe Steiner tallied 22 and Lou Slife added 12 to the winning total. F&M was paced by Tom Schmitz who led all scorers with 25 points.

The Bucknell quintet will travel to Hamilton, N. Y., on Friday for a game against Colgate. On Saturday night the Bisons will meet Cornell in an away game.

Delta Upsilon Wrestling Champions

by Bucky Walters

Delta Upsilon completely dominated the finals in Intramural Wrestling on Thursday night, November 21. By taking four weight championships they amassed a total of 60 points. The closest competitor was both the Phi Gamma and the Kappa who tied for second place with 34½ points. Tied for fourth place were the SAE's and the Phi Psi's with each having 27 points. By winning their second intramural cup of the season the DU's have crept to within 1 point of the leading team, SAE.

Lynch
In the 125 lb. class Lynch of DU outlasted Lauer of PGD, winning a lopsided 10-1 decision.

Wightman
Wightman of DU barely nosed out Miller of LCA by compiling more riding time after each had scored two points in the regulation match.

Duff
Duff of 34 AW became the first of two freshmen to capture wrestling titles. He defeated Fagin of 234-WW on riding time after a 2-2 tie in points.

Ayre
In the 145 lb. class, Ayre of DU defeated McKennan of 234EW in one of the closest contested matches of the evening, 4-2.

Fritts
Fritts of KS pinned Bruno of DU in the third period after Bruno was saved by the bell in both the first and second rounds.

Murdock
In the 165 lb. division, Murdock of Delta Upsilon defeated Geoca of PLT 4-1. This was a much closer match than anticipated with Geoca putting up a good fight against a veteran wrestler.

Hudson
Hudson, the second freshman to win a weight division, decided Carlson of PKP 4-1. In this year's intramural wrestling matches the freshmen gave a very creditable showing of themselves with four of them reaching the finals.

White
In the feature match of the evening, White of SAE decisioned Weber of TC 6-5. White who won the heavyweight boxing championship last year shifted his talents to the mats and emerged victorious. This was White's first year as a wrestler.

IPC Penalizes

Sigma Alpha Epsilon and Sigma Chi fraternities have been penalized \$1.50 per member for violation of rushing rules, announced IPC council today.

Small girl showing bathroom scales to playmate: "All I know is, that you stand on it and it makes you mad."

FRESHMAN INTRAMURALS

For the first time in Bucknell's Intramural program the Freshmen have a bowling league of their own. The schedule includes six league games beginning on December 9th and running through January 13. Playoffs for the league championship will be run on both January 14 and 20. The winner of the freshman league will bowl the Fraternity champs for the school championship. All matches will be bowled at the Campus Alleys.

Freshman Intramural Volleyball starts on December 10 with seven teams competing. This will be an elimination type of tournament with a champion and a consolation winner and the best of five games in the final.

Just a reminder—Fraternity bowling starts Monday, December 9 at the American Legion at 4:30 p. m. and Fraternity basketball begins on Tuesday, December 10 at the Davis Gym at 8:00 p. m.

Let's all get out and support our teams and make this winter's Intramural program just as big a success as was the fall program.

BLOODMOBILE VISIT

The Red Cross bloodmobile will visit the New Columbia Fire Hall next Wednesday from 11:45 a. m. to 5:45 p. m. The goal is 125 pints of blood.

Since so many students were ill and could not donate blood when the bloodmobile last visited Bucknell, they are invited to donate either at the December 11 visit or in Lewisburg January 20.

All interested students are asked to contact the local Red Cross office, JA 4-3811, for an appointment and for transportation. Anyone between the ages of 18 and 21 must have a parental release.

LEARN TO BE A BASKETBALL OFFICIAL AT \$1.00 PER GAME.

It's Great To Win

Anyone interested in broadcasting BU basketball games for WVBT, home and away, please contact Bob Burnett or Al Westerman, at the SAE house.

PASS IN REVIEW

by William Meister

Once again this column is full of news of interest to all Bucknellians. First, it must be reported that Aviation Training is not coming to Bucknell this year. Because one school had far more applicants than we did, CONARC (Continental Army Command) has assigned the program to that school. There is a good possibility that we will have this program here next year, however.

Last week, Bucknell's Pershing Rifles Basic Course Rifle team fired in a National Postal Match. The results will not be known for some time.

Once again a Second Battalion company won first place in the weekly company competition. This time it was D Company, which edged out F Company by only three-tenths of a point. Looking at the Regiment as a whole, the weekly improvement is truly amazing. The unit this year is weeks ahead of the condition it was in last year at this time.

On Friday, December 6, a practice review will be held. On the following week, if all uniforms have arrived, a review will be held on the field by the gym, and various awards will be given. If the review is held, all persons are invited to watch this colorful event. At this time the Company Queens will sponsor their companies for the first time. In next week's article I will announce if the review will be held, contingent upon the arrival of the uniforms.

This brings me to one of the most pleasant jobs we have had. It was our pleasure to inform these girls of their selection as company queens. They are, therefore, candidates for Queen of the Military Ball.

The candidates are as follows: A Company, Miss Molly Wolford of North Wales, Pa. Molly is an El-Ed Major and a counselor. A member of Kappa Delta sorority, she has been in past Homecoming and Military Ball courts.

B Company, Miss Gora Five, a freshman from Crest Neck, New York. An El-Ed Major, Gora was a member of this year's Homecoming Court.

C Company, Miss Carolann Buerick, another freshman, from Merick, New York. Carolann is an Education-Science major, as well as a Bison Band Majorette during the football season.

D Company, Miss Jane Elam, a Wheaton, Maryland soph, is a Biology major. A Kappa Delta, Jane is a cheerleader, and last year was a member of the Queen's court at the Military Ball.

E Company, Miss Lois Lenhard, a sophomore AB student from Drexel Hill, Pa. A member of Kappa Delta sorority, Lois has been in the Homecoming Court twice, Queen of the Sigma Chi Derby, and last year was a freshman member of the Military Ball Court.

F Company, Miss Margaret Smith, senior, C&F major from Dunellen, N. J. Peggy is co-captain of our cheerleading squad and has the position of president of Delta Delta Delta sorority. A member of last year's Military Ball Court, she has also been in the Homecoming Courts for the past two years.

G Company, Miss Melinda Hauser, a native of Biglerville, (near Gettysburg) Pa. A junior AB student and a member of Alpha Chi Omega sorority, Melinda last year was a representative to the Apple Blossom Festival in Virginia.

H Company, Miss Nancy Seeburger, an El-Ed junior from Upper Merion, Pa. Nancy is a member of Kappa Delta sorority and holds the position of membership chairman.

I Company, Miss Dale Evering, a junior C&F major from Collins-

"NOTHING"

by Diane Collins

I'm tired of the mocking set who other people's patience test. weary am I of wiping egg from my face and striving to bear up under the disgrace of not having at hand all sorts of cutting retorts. yes, you bore me thru and thru for I'm quite aware I'm more ignorant than you but must you remind me publicly?

must I forever endeavour to keep abreast of this adolescent contest. why should anyone think you amusing and fun for your presence is the very essence of imbecility and I see you as you are to me, Nothing.

wood, N. J. Dale was Senior From Queen in High School. Here at Bucknell she is a counselor and a member of Pi Beta Phi sorority.

R. O. T. C. Band, Miss Jeanne Anderson, a junior and AB student from Springfield, N. J. A member of Kappa Delta sorority, Jeanne was a member of the Military Ball Court her freshman year.

Pershing Rifles, Miss Jeanne Thomas, a sophomore transfer from Dickinson College. A native of Lancaster, Pa. Jeanne was Homecoming and Military Ball Queen at Dickinson. Here at Bucknell she was a member of Homecoming Court, and is a Pi Beta Phi sorority member. She is Bucknell's representative in the National Pershing Rifles Queen contest.

All these beautiful girls should certainly provide a perfect backdrop for the exciting Military Ball to be held on January 17, 1958.

The average starting salary for technical college graduates was about \$465.00 a month for 1957 and will be approximately \$485.00 for 1958.

What Makes Us Buy?

by Jim Chapman

To all Psych majors who have been bothered by the question of a future job, here is your salvation. If you are a below average student (so few of you are) and have no incentive, then the only thing for you is to become a M. R. expert (if there is a question as to what a M. R. expert is, see my head-shrinker and he'll tell you that it means Motivational Research). A M. R. expert is the person who sells his products by playing to the unstable emotions instead of rigid practicalities that all manhood stands for.

They don't sell a dishwasher by telling the housewife that it will wash her dishes better than by hand, or that it will give her more time to relax and become Junior Leas. (this she resents) but that it will give her more time to look after her children. Why is this approach used? Well, our master knows that if they said the dishwasher would make life easier (the housewives) would be ashamed of the fact that their mothers had to work harder than they have to. So, play to the desirable rather than the undesirable. Make the wife think that it will shift the work to a better cause.

One of the biggest factors in selling (among other things) is sex. A convertible can be named the "mistress" as opposed to the "wife" four door sedan. When in college, a convertible plays to the emotions of the friendlier girls; it's the playboy's field of operation. The four door sedan is too much like the guy who is seeking wedlock; thus the "wife" label. Nowadays, however, the "mistress" and the "wife" have been combined in connection with automobiles and our friends have come up with the hard-top convertible. This way, Mr. Conservative, who has always wanted to live dangerously, can have his security with a touch of playboyishness all in one package.

The battle of the sexes does not end here. Let's look at another example. We have all read and are completely familiar with the connection of smoking to cancer. When the filter-tip cigarette was placed on the market and recommended to be "better", a problem arose. Most

Behind The Mike

by Jenny and Joel

If you were to suddenly turn on your radio and find that a program that you are used to hearing isn't on, you might be very puzzled about who was the person to ask about this problem. Well, for the past two years now, the person who has been in charge of such things has been J. Jacob Kessler. Jake, as he is known best, is a senior and is now serving his fourth semester on the M. R. expert in correcting sexual maladjustment in a product. What an accomplishment!

A C&F student from Pottstown, 22 year old Jake has been active in the workings of WVBU for each of the four years that he has been here at Bucknell. In his freshman year, Jake started right off with an afternoon show which he held for both semesters along with being his C&F floor representative. In his sophomore year, Jake graduated to the Wednesday night Bitter End. He was also elected to the post of president of the Lutheran Student Association. Second semester of this year he was elected to the post of Program Director.

Jake's biggest year for programs was his junior year when he had not only the Campus Calendar on Thursday nights, but also did the Jam for Breakfast on Saturday mornings with Fred Whipple, Art flight.

Passengers on major transoceanic airlines can now get salt-free, vegetarian, Oriental or kosher meals as well as regular fare served while in flight.

We of WVBU are proud to know Jake Kessler and to tell his story to you. You see, it is Jake who is in charge of everybody and all the programs that emanate from BEHIND THE MIKE.

HENRY FONDA PLAYS BOUNTY HUNTER IN 'THE TIN STAR' FEATURED AT CAMPUS

by Lee Wentzel

In the days when the West hovered between order and chaos, a special breed of killer operated just within the law. He was the bounty hunter, the wanderer who made a dangerous living out of bringing in wanted outlaws for the price on their heads.

Forced to kill his quarry in a fair fight or himself be accused of murder, he had to have nerveless courage and fantastic gun-slinging skill, or he didn't last long enough to spend his first reward. Feared by the hunted and shunned by the law-abiding who put him in the same class with hangmen, he lived a lonely, solitary life, with death alone a constant companion.

Around the deadly figure of the bounty hunter, played by Henry Fonda, and many other outstanding there, is woven a motion picture that looms as one of the most memorable of all action films. Titled "The Tin Star," the Paramount Vista Vision release will arrive Monday and Tuesday at the Campus Theatre, riding a wave of high acclaim.

Starring as Hickman, who hunted men for money and always brought them in dead, is Henry Fonda, and as the raw young sheriff who tried to bring them in alive for \$40 a month and a shiny tin star, Anthony Perkins. Michel Ray, menacing heavy Neville Brand and veteran John McIntire co-star in this intriguing story of a steely professional killer who thought he had put the world aside, until a lawman with the foolhardy courage of youth and a beautiful woman as outcast as himself taught him he still had a place.

BIOLOGY HONORARY HOLDS INITIATION

Phi Sigma, the biology honorary, recently held the formal initiation of three new members. Joining this chapter of the national organization are Marian Brice, Tom Johnston, who is now at Temple University Medical School, and Gary Beidler, all of whom presented outstanding work in biology last year.

As part of the membership requirement, the three submitted original research papers, which were read to the group at a previous meeting. Marian did a project involving "Plant Ecology in Gothic," which was illustrated with colored slides showing various plant forms in a small Colorado town. "Staining Techniques of the Adrenal Gland" was the title of Tom Johnston's work, which was a detailed study of different methods and their importance in the laboratory. An account of the history and use of the artificial kidney was presented by Gary Beidler.

Dr. Roy Tasker is the faculty advisor of the honorary, of which one may become a member, if he has maintained a 2.0 average in biology, and has a cumulative average of 1.7.

Ugly Man Contest

(Continued from Page 1)
On Thursday, the final candidates will be determined, and voting from that point on will be among the finalists to select the ugliest. The polls will be open from 8:30 a. m. to noon and from 1-3 p. m. on Friday, December 13. These hours are your last chance to push for your favorite candidate. Each nominee will have a jar bearing his name. Every cent placed in a jar counts as one vote. The proceeds from the contest go to a Student Aid and Scholarship Fund which is maintained by Mortar Board and administered by the Dean of Women.

The coronation of the Ugliest Man on Campus is scheduled for 4:30 p. m. on Friday, December 13, in the spacious main ballroom of the Bison. Following the crowning of his Royal Ugliness, the King and his Uncharming Court will be entertained at a banquet given in their honor in the Women's Dining Hall.

The cost of accidents in the United States last year would build 3,000,000 schoolrooms with facilities for an additional 9,000,000 new students.

Wives Sponsor Bake Sale

Bucknell wives are sponsoring a bake sale on Saturday, December 7, at Dreisbach's Hardware Store starting at 9 a. m. All the goods are home baked.

Letters

(Continued from page 2)
the engineers, but by choosing engineers as the sole target, the editorial gives a false sense of complacency and smugness to those people who need a broader education just as much as the poor, unenlightened engineers.

I am told that more harm is done than benefit when we quote Bible out of its context. I would appreciate correction by Religion majors if I am quoting out of context when I succumb to a temptation and quote from the New Testament, "And why beholdest thou the mote that is in thy brother's eye but considerest not the beam that is in thine own eye?"

Young Gul Kim

Sem Called Irresponsible

Dear Editor:
The problem of an academic honor system presupposes a personal individual responsibility both morally and socially. This is an evident truth and it seems ridiculous to even mention it. However, upon closer examination we find that in this university very little is left for the individual to be personally responsible for.

In the case of our own code, or if you will, Sem Gens, there seems to be a system of internal check closely resembling spoon-feeding. In fact, I am sometimes amazed that these innocent creatures are allowed to attend mixed classes without chaperons.

The Sem Gens are instrumental in the presentation of an academic honor system when they are the least responsible of the students at Bucknell. Consider a few of the supposedly self-imposed controls under which the Sem Gens are regulated by oath. There is the necessity for chaperons at all parties where the male Bucknellians are present. (Two chaperons are required if he is disguised). Another honorable regulation is the coed curfew. This regulation assures us that the Sem Gem is within her fortifications prior to the bewitching hour. Along with the pre-bewitching hour curfew, there is also the censorship of phone calls after 11:30 p. m., insuring complete nocturnal isolation.

Yes, Mrs. S. Gem, "All is well" cries the campus cop from his place on the parapet. Your irresponsible daughter is safe inside the fortress and the drawbridge is up for the night. Being thus led by the hand to her quarters the Sem Gem may now slip into bed and reflect upon her responsibilities under the Academic Honor System.

In addition to the well regulated responsibilities afforded to the Sem Gem, it is honorably required that these young ladies report themselves

to an Honor Committee in the event that they are late for critical bed check. Late? If she is an honorable young lady, how in the world could she ever be late for or from anything? In being a morally and socially responsible individual, need we question her any further or at all? And then it follows that if she is not so responsible, can she be expected to be academically honorable without concise rules to govern her every action?

For other regulations governing the honor conscious Sem Gem, I refer you to the Constitution of the Women's Student Government Association in the current University Handbook. Note particularly Section I, paragraph M, of the Governing Regulations. Our honorable and responsible Sem Gem is compelled to attend all W. S. G. A. meetings. Perhaps this paragraph should be amended to read "... honorably compulsory."

In conclusion, I should like to remark that there are a few regulations concerning the male undergraduate, but in comparison to the regimentation of "Sally Sem Gem" (bless her little sneakers and tall socks) they are insignificant. If the Sem Gem is afforded so little social and moral responsibility, can she be expected to rally to the call of academic honor without the supervision and regimentation of an unbending constitution and constitutional authorities? There can be no honor without responsibility.

Bill S.
(Not Particularly Against The Academic Honor System.)

Delta Zeta

The DZ's gave up their sleeping pills last Saturday night. The girls brought their blankets and stuffed animals up to the suite for a slumber (?) party. Although most people just sat around and talked, a few of the more wide awake girls managed to get in a few hands of bridge or work on bazaar projects before falling asleep. A breakfast of doughnuts, coffee, and pineapple juice was served in the suite the next morning.

Kappa Delta

The KD's challenged the Lambda Chi's to a soccer game. Following the game, they met in the Hunt Rec Room for cocoa and donuts as well as songs and games. The Lambda Chi's then returned the invitation and entertained them at their house for the remainder of the afternoon.

At 16 Respiratory and Rehabilitation Centers established with the financial aid of the National Foundation for Infantile Paralysis, thousands have been returned to lives worth living. Give to the 1958 March of Dimes so that more thousands may be rehabilitated.

... Schedule Revamp Needed

Last week's editorial was a plea that students use education as their goal in selecting courses, not schedule advantage and professor leniency. But after trying to make out our schedules it seems impossible. This editorial is a plea to the administration and faculty to do something about the schedules.

First, they should correlate the courses offered in the catalogue with those in the schedule book. For example, the catalogue states that Spanish 101 may be taken either semester, but for the past two years it has been offered only first semester. No course in Oriental Studies has been taught in two years, nor has a course in biological chem been offered. There are three eco courses for second semester in the catalogue, but not the schedule book. Examples like these tend to point to the conclusion that the University is padding the catalogue for publicity reasons, or is it just incompetence?

There are many important courses which should be offered. If the University is not in a position to include them in addition to the others, they should be included in place of some. Many courses are dropped because students need to fill in hours in their major, not because they think the course will be helpful to them.

One course that should be added to the math curriculum is an advanced course in statistics for economics and psychology majors. The importance of statistics in today's business and research worlds is undisputed; yet, the only way to take the theoretical statistics course is by taking the prerequisites of trig and two semesters of calculus. Most of the eco and psych majors do not have that many hours to spare.

There should be more courses offered in American literature or the present ones should be offered more often. There are only four courses, one each semester of two years. If a student has a required course scheduled at the same time as one of these courses, he will never have the opportunity to take the course because only juniors and seniors are permitted to take it. (He will be graduated before it is offered again.) There are other schools about our size, such as Middlebury and Hobart, which have majors in American studies. Why doesn't Bucknell?

From all reports they seem to be pushing the economics department even farther toward the bottom. C&F majors need at least 50 hours but have very little selection. Dropping marketing research does not improve the situation. Among others, a course in real estate and insurance should be added.

Another frequently heard problem is the scheduling of required courses in one field at the same time. For example in Bio-Chem this year it was impossible to take all the required courses. The only solution was to drop Magic Show, but the physics professor fought it. Something is wrong somewhere!

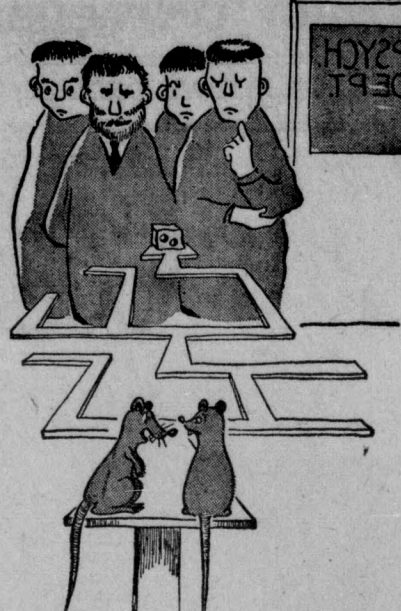

If the administration and faculty would offer better courses with less confusions, the students might make more of an effort for a better education. Of course it is the responsibility of the student to search for knowledge, but it is also the responsibility of the administration and faculty to provide facilities to the best of their ability.

The Best Years . . .

by Dona Snellbaker

Don't think of college life as just one great big bore; Because, you see, it isn't that way, not anymore. How do I know? One week was quite enough To clue me in on all the "college stuff." I wondered why the breakfast room looked so dead; It appeared that the students were still in bed. In bed they were, and all counting sheep: To catch up on some much needed sleep. Perhaps they had stayed up late to write for their folks. But not these kids; they were at the store sipping cokes. Or gone to a movie they had wanted to see. So that now they were doing their world history. Away to their eight o'clock class they did flee, Bemoaning, bewailing, in great misery. They got to their class and pulled out a weed; As fate would have it, the teacher did speed. He rambled and rambled, continually tapping; This did not bother the scholars, for they were napping. At last the bell rang, they departed in glee. Off to the store for some doughnuts and coffee. So on to the ten o'clock class the pupils went; The professor got through like a block of cement. There the girls sat, knitting a sock, While all the boys gazed at the clock.

WHO'S TESTING WHO?

"All for a lousy piece of cheese!"

Letters to the Editor

Joe College, Take Heed . . .

Dear Editor:

In response to Bill S's discourse on the so-called Irresponsible Sem Gem, I would like to lower the drawbridge for a moment and speak to the Irresponsible Men of the campus. The Sem Gem being a member of WSGA, has been given a responsibility far and beyond the call of duty. If she violates the Honor System, she has the responsibility, although not compelled, to report herself to Honor Council. This responsibility is so ingrained in the way of living of Bucknell Women, that an additional session of Honor Council was necessary to accommodate all the violators. This does not necessarily mean that the morals of the BU women are deteriorating. Quite on the contrary, they are accepting a responsibility which would be next to impossible to "impose" on most men on this campus.

And why have these rules become a part of WSGA? Only because of the many irresponsible men with whom the women of BU are forced to associate. Having few standards of their own, some of the men try to lead the Sem Gems astray into their own shady way of life.

The so called "internal check" is slightly exaggerated. Where on the Bucknell campus do you find a house mother taking roll call as the bewitching hour draws near? You can find this on other campuses, but not here! On other campuses, you might find yourself waiting while your date signs out, listing such particulars as destination, where on the campus she's going, means of transportation, expected return, etc. Some years back, an administration felt that their women students were safe only when speaking to their fathers and visiting clergymen. What a blow this must have been to Joe College's ego! No Joe, throw down your battle axe and bottle of beer.

The solution, pleasing as it is to the women students, can only be improved to meet your standards when you raise your own. Chaperones are required to be present at social functions, not because WSGA feels the girls will act in a manner unbecoming a lady, but because many men on this campus can not undertake any responsibility, and further more, they show it. One Bucknell man quaintly expressed his opinion of the Bucknell Women's Honor System: "Heck, you can't have any fun at the parties here. The girls aren't allowed upstairs." When confronted with the question, "Would you like your sis-

ter (who, incidentally, was coming up the following weekend) to wander through the upstairs with her date?" "Heck no, man! She's my sister!" was his reply. What parent would want to send his daughter to a school where the beer runs free and the girls likewise. Behind every rule in the WSGA Constitution is a valid reason and sound philosophy. If the men on this campus would spend part of their time, while relaxing at the Burger, to reason out the basis for these rules, chances are they would desire such a system for themselves.

The women of this campus have been so "regimented" that when the question of an academic honor system for the whole university was suggested, the majority of the women were willing to accept it and support it. Who were the grippers when this type of honor system was suggested? The men of course! Joe College, bless his empty head, has always been cutting corners to evade any type of responsibility. That he is lacking in moral and academic standards, a true sign of immaturity, is self-evident every time he criticizes an honor system, knowing full well that he could not abide by it. Who's irresponsible?

Sincerely,
First and Second Cottage

IFC Commended . . .

Dear Joe:
In view of the recent regulation enacted by the Interfraternity Council, the Student-Faculty Congress would like to go on record and express its wholehearted approval of the measure.

When prohibition at Bucknell was repealed in the summer of 1966, the Student-Faculty Congress took the responsibility of upholding the University's stand on the alcohol situation.

"Possession or use of alcoholic beverages on campus including fraternity houses, is completely opposed to the best interests of Bucknell and use thereof resulting in discredit to Bucknell will be handled with the utmost severity."

Your regulation has been a positive and self-inflicted regulation that shows the rationality of our student leaders in protecting the best interests of the students and the University. I am sure the impending results will far outweigh any of the minor present grievances.

Sincerely,
Jack Brothers
President SFC

SIMILAR STATISTICS
At Temple University an unlimited cut system has been proposed, while at the University of Delaware any student who cuts a class previous to any vacation without being excused and then receives an unexcused cut thereafter "will be dropped from that class with a grade of F." Lehigh's answer to Bucknell's Cross Country race is the Turkey Trot, which is a 1.7 mile run around the Lehigh campus, but in that part of the state the winner receives a 21 pound turkey.

At Elizabethtown College the junior class this year has inaugurated a

The period finished, the class descended, Leaving the teacher with homework intended. To the cafeteria to enjoy some good food. The most it could do was to ruin their mood. Two more classes and the day would be through; And then just imagine, nothing to do. Follow this plan and your parents will pout, "My son in college has just flunked out!"

The INFORMANT

by Ira Podnos

Have you even wondered why a student who does particularly well under one instructor in a chosen field of concentration may do very poorly under another instructor within the same chosen field? That is to say, have you ever wondered why a student who gets an A in Shakespeare may get a D in Chaucer? Or why a student who gets a D in applied psychology may receive an A in child psychology? The answer is, of course, obvious. A grade in any course is as valid as the method by which the professor arrives at the grade. Certainly, a grade of A signifies excellent work while a grade of D is representative of poor work. And so it should be! But, unfortunately, A, B, C, and D are only letters and are, as if not more, representative of the teachers who give them than of the students who receive them.

For example, several years ago in a small New England college a student by the name of Harry Case was listed by the English department as being a major in that field. Harry not only enjoyed English grammar and literature, but he was proficient in his field. Therefore, when he was asked in an advanced writing course to submit an original composition of 2,000 words he saw to it that his paper was interesting to read, faultless in grammar, and perfect in paragraphing. Consequently, when the paper was returned to him his professor had this to say: "Very well done. A pleasure to read. You use the rules of English, to their best advantage." And in the corner of the paper in big red print was the letter "A."

The following year, however, Harry left the university to finish his education elsewhere. But because he lost several hours in transferring, he was required to repeat a course in advanced writing. Here, too, he was asked to write an original composition of about 2,000 words. Harry decided to give to his teacher the composition which he had written the previous year and on which he received the "A." Harry knew the paper was flawless. The professor he had had the year before told him so. So, Harry was returned the composition a second time with the following comment: "The subject is a good one; the treatment is unsatisfactory. The point you wish to make is confused by bad paragraphing, and you often use learned words where a less erudite word would suffice. You need to work on your punctuation." This time Harry received a "C."

Why was not an "A" for one professor an "A" for another teacher, particularly a professor teaching the same course? The answer is that every instructor has his or her own idea of what an "A, B, C, or D" should be. And the result is that every student must readapt his writing methods and means of expressing himself in accordance with his present instructor. Something seems to be wrong here! Where rules are to be followed they are either followed or they are not! And the person committed to the rules is either following them correctly or incorrectly. So it should be with grading. A grade of "A" in history should be an "A" regardless of the instructor teaching the course. An "A" is an "A"; the work either of excellent quality or not of excellent quality, not for one teacher, but for all teachers. Unfortunately there is nothing we students can do about the problem. And if ever this particular problem gets you down, and you feel that you have come to the end of your rope . . . tie a knot and hang on.

CALENDAR OF EVENTS

8:00 p.m.	Bridge Club	Larison Sunporch

system to send cards and flowers to those students and members of the faculty who are ill.

And at a poll recently taken at Albright University the facts showed **Peyton Place, Brave New World, 1984, and The Bad Seed** to be the most popular literature.

WHAT?

The following editorial comes from the **Varsity News** from the University of Detroit. "Dear Editor,
The last time I wrote you a letter you ignored it. So this time I won't write you one . . ."

KEEP SMILING!

From the University of Mississippi:

"He read the textbook; studied his notes; made an outline of both. He summarized his outline; outlined his summary; reduced the outline to a paragraph. He boiled the paragraph down to a sentence; pared the sentence down to a phrase; cut the phrase to a single word. He entered the exam; analyzed the question; and forgot the word."

QUOTABLE QUOTES?

From the Wilkes College Beacon: "Asked in English 101: 'How do you get parallel construction?' Answer: 'Use a ruler.'" Also, "It takes two to make a marriage—a girl and her mother." And "A soft drink turneth away company."

From the **Keystonian**: "An optimist and a pessimist were shipwrecked and in time their raft came in sight of a tropic isle. The pessimist expected the worst, saying 'I'll bet it's inhabited with wild men.' But the optimist was more cheerful, answering, 'Cheer up, pal where there are wild men, there are wild women.'"

C'est fini!

Alpha Phi Omega To Hold Meeting

Alpha Phi Omega will hold a meeting in Room 102 of the Botany Building next Wednesday night at 7:30. It is the National Service fraternity providing service to the Bucknell campus in many respects. Any freshman or other male, is qualified to apply for membership if he has had previous scouting experience. APO is not a social fraternity.

HOLIDAY JAM SESSION

Bucknell students, who live in the New York City area are invited to attend a Holiday Dixieland Jam Session, to be held Friday evening, December 27, at the Wheatley Hills Tavern, Westbury, Long Island. Starting at 8:00 p. m., the banding will be furnished by an all-star lineup, featuring three of the biggest names in jazz: Wild Bill Davison, trumpet; Pee Wee Russell, clarinet; and Miff Mole, trombone. Admission is \$1.75 per person.

Ornithologists Schedule Outing

The Bucknell Ornithological Club, a combined student, faculty, and townspeople organization, is having a meeting tonight in room 102 in the Botany Building at 7:30 p. m. All students who are interested in birds are urged to come.

Mr. Hollis Ross is the principal speaker and will comment on and show his colored slides of Arizona birds, flowers and scenery.

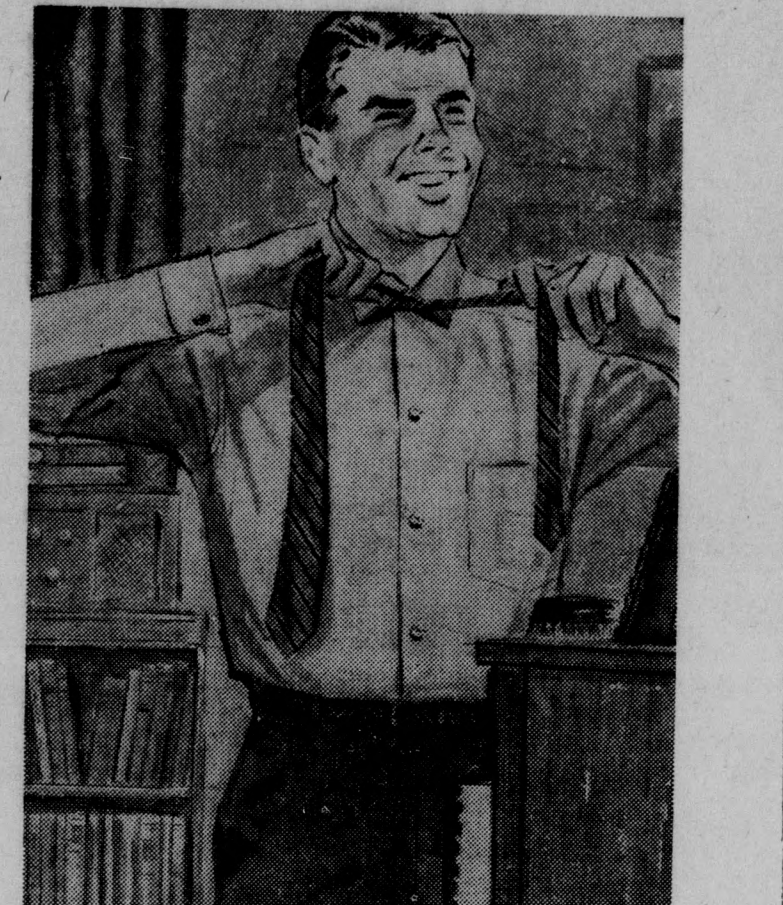

Trouble-free weekender—this wash 'n' wear Arrow

Off for the weekend? Here's a shirt that combines rare good looks with amazing handiness—the Arrow Glen in wash 'n' wear Dacron* and cotton. Collar stays are stitched in, permanently and invisibly. They just won't get lost. See, too, our Drake button-down model. Your choice, in white or solid colors, just \$7.95. All silk tie \$2.50.

Debaters Compete With Other Colleges

Two teams of novice debaters left last Friday to compete against 40 other colleges in the annual debating tournament at Temple University.

Those students representing Bucknell were Steve Waldhorn, Maurice Norberg, Ron Rebez, Jack Malanik, Stan Sabarsky, Gordon Strasenburgh, Lester Greenberg, and Jack Hyden, with Stu Berelson acting as judge.

The four rounds of debating were held on the national subject, Resolved: That Membership in a Labor Union is a Condition of Employment Should Be Illegal.

On January 11, the debating society will be host for the fourth annual Good Neighbor Tournament which will take place during the morning and afternoon. Invitations were extended to Penn State, Dickinson, Messiah, and Juniata. There will be four rounds of debating, with a cup for the winning team and medals for the first, second, and third place speakers.

Sigma Pi To Hear Physics Teacher

Sigma Pi Sigma, National Physics Honor Society, is holding a dinner at the University Cafeteria at 6:00 and a reception for new members tonight. Professor T. Thompson Smith of the Physics Department of Susquehanna University will be the speaker.

New members elected to the honorary are Dr. Peter Signell, Dr. William Beck, William Letzing, and Donald Walter. Anyone interested is invited to the dinner and meeting.

The officers of the honorary are Oreste Digiondomenico, president; James Herb, vice president; and Jacqueline Zim, secretary-treasurer. Mr. Charles Stickney is advisor to the group.

SPELEOLOGICAL SOCIETY TO NOMINATE OFFICERS

The first meeting of the Bucknell Grotto of the National Speleological Society will be held in room 2 of the Botany Building, Monday at 7:00 p. m. Membership is open to all students, faculty members, and local residents interested in the exploring, photography, biology, and geology of caves. Slides and a talk will be given and suggestions for officers will be made at this time.

HOT LIPS AND COOL MUSIC WITH AMBASSADOR SATCH

Louis Armstrong and His All Stars will entertain Thursday, January 9.

German Group Plans Yuletide Celebration

Bucknell's German Honorary, Delta Phi Alpha will give a Christmas party in the Vaughan Literature Building on December 16 under the advisement of Dr. Frantz and Dr. Blume. Guests and the German honorary of Lycoming College will be entertained by a program of vocal and instrumental.

Soloists Nancy Honker and Herb Bohler will present "The Virgin Slumber Song" by Reger and "Three Kings" by Cornelius. The president of Delta Phi Alpha, Pete Hobbie, an organist, will join with Ruth Warren in a violin-organ duet. They will play excerpts from "Sonata I" by Correlli. "Lied Nachtigall Wacht Auf", a German carol, will be sung by a quartet composed of Nancy Honker, Ruth Warren, Herb Bohler, and Pete Hobbie. Tordis Schrade will contribute to the program by telling a German Christmas story.

MUSICIANS HONOR CHAPTER FOUNDERS

The music honorary, Mu Phi Epsilon, celebrated its Founders' Day Friday, November 22, at the home of Mrs. Hartzell. The patronesses and alumni gave a dinner for the members of Mu Phi Epsilon who responded with a two piano program.

After Christmas the honorary plans to give an ensemble program and new officers will be elected. Any student with an overall average of 1.8 who has had private music lessons and one semester of music theory and solfeggio is eligible for membership.

Leavitt To Speak To Geology Club

The third meeting of the Geology Club will be held next Wednesday at 12 noon in Room 3 of the Botany Building. Mr. Jonathan Leavitt will speak on local geology of Union County. Lunch may be purchased for 25 cents, or you may bring your own. Refreshments will be supplied. All geology majors are required to attend, and others interested in the geological and geographical sciences are cordially invited.

ed and the students were given an opportunity to talk with the members of the department.

ANNUAL TEA HELD

The English department held its annual tea for English majors in the Vaughan Literature Library at 4:00 on Friday, December 6. Dr. Willard Smith, head of the department, discussed future plans in the department and problems concerning the major. Afterward, coffee was served.

BU WINS THREE OF FOUR STARTS

Bison Quintet Drops Colgate By Four; Second Half Surge Falls Short At Cornell

by Bill Scott

The Bucknell varsity quintet returned to Lewisburg last weekend after a two game road trip in which the Bisons scored a boisterous 70-66 victory over Colgate on Friday night and then dropped a disappointing 64-58 decision to the Big Red from Cornell on Saturday night.

First Victory Since 1947

The victory over Colgate, which was the first success at Hamilton, N. Y. since 1947, was marked by rough play throughout the contest. Bucknell trailed only in the opening minutes until Ellis Harley dropped in a field goal to lead Bucknell ahead by 18-17. The remainder of the first half saw the Kribbmen open up a lead of 40-33 with the aid of fine offensive scoring by Hal Danzig. The Red Raiders fought back in the second half but could not halt the offensive surge of the taller Bisons. The Colgate five closed the gap to 54-33 with five minutes gone in the fourth quarter but the Herd rallied to win going away.

Danzig Leads Bisons

Danzig led the victorious Bucknell squad with 31 points and he also gathered 14 rebounds. The 6 foot 6 in. center hit on 12 of 19 shots from the floor as he gave Jamison, the huge All-East football end, a rude introduction to varsity basketball. Marley added 14 points to the Bison total while Jack Flanagan and John Strizal each contributed 6 points. Bisselle led the Red Raiders with 18 while Hageman and Durkee had 14 each.

Cornell Takes Early Lead

Cornell took advantage of a cold Bucknell team, which hit on only 20 percent of its shots in the first half, to score a 64-58 decision over the Bisons on Saturday night. The Big Red took an early 14-3 lead as the visiting Orange and Blue team managed only one field goal in the first 10 minutes. With Dan Zornow and Lou Jordan leading the Cornell offense the home team forged ahead by a 33-17 at halftime. Cornell hit on 80 percent of its shots in the opening half.

Bison Surge Too Late

The inspired Bucknellians outscored the Cornell quintet, 41-31, in the second half but the lead was too much to close completely. Harley injured his knee in the fourth quarter after scoring 11 points in the

second half and this injury appeared to take some of the sting out of the Bison offense. Danzig, in contrast to his Colgate performance, scored only 13 points as he hit a meager 2 of 20 field goal attempts. However, Danzig managed to grab 16 rebounds from the taller Cornell team. The Ivy League school, aided by Sully, won 10 points in the last half, played a conservative brand of basketball in the second half and walked off the court with their second win of the young season.

Jordan and Zornow led Cornell with 18 markers while Flanagan topped Bucknell with 14 points. Danzig scored 13 while Harley added 12 points. With the Bucknell record at two victories and one loss, Harley leads the Kribbmen with 57 points and a 19 point average. Danzig is second with 53 points and a 17.2 average. Jack Flanagan has an 11 point average.

Temple Next Home Game

Temple University will provide the opposition this Saturday night in the second home contest of the season. The Owls will probably be the finest team ever to play at Davis Gym, will be led by All-American candidate Guy Rodgers, guard John Kennedy, and 6-9 center, Tink Van Patton. Temple establishes its reputation earlier in the year by losing a triple overtime 85-83 decision to the renowned Wildcats from the University of Kentucky.

Newsman Wanted

For the fifth consecutive year Bucknell students will be running the Newsman's Conference, February 5, 6, and 7. We still have openings on the Procurement Committee for anyone having connections with working Journalists.

If interested please contact: "JOE" Erickson, SAE, JA 3-3500 or Betsy Darrach, Pi Phi, JA 3-6500.

"We can now look forward to the further rehabilitation needs of thousands of post-polio patients for whom the Salk vaccine came too late," Dr. Kenneth S. Landauer, director of Respiratory and Rehabilitation Center Services, National Foundation for Infantile Paralysis.

Wrestling Practice In Session

Pictured above are 10 of last year's wrestling veterans during last Saturday's workout. From left to right: Wightman, Werner, Duell, Watkins, Coach Bill Wrayley, Ayre, Wilson, Fritts, and Murdock. Demonstrating a hold are Dempster on the bottom, and Bell on top. Pictured below is the entire wrestling squad doing one of the many grueling exercises required of them.

BISONS BEAT BULLETS, 80-58

by Bill Scott

The Bucknell varsity basketball quintet warmed up for their clash against Temple on Saturday by easily topping the Bullets of Gettysburg College, 80-58, in a game played last night in Gettysburg. The victory moved the Bison record to 3-1 while the Bullets suffered their third loss of the season.

Bisons Start Slowly

The Kribbmen started slowly and mainly through the efforts of center Hal Danzig they led by only 14-9 at the conclusion of the first quarter. In the second quarter the first string played their best basketball of the season and seized a 34-15 lead at halftime.

The Bisons began the second half in the same manner that they had finished the initial half, with a string of points which moved the lead to 25 points. At this point Bucknell began a rash of substitutions which finally emptied the bench.

Danzig Leads Scorers

Danzig led all scorers as he hit on 11 of 20 shots from the floor and converted 3 of 4 fouls for 25 points. The line-ups:

Sticklers!

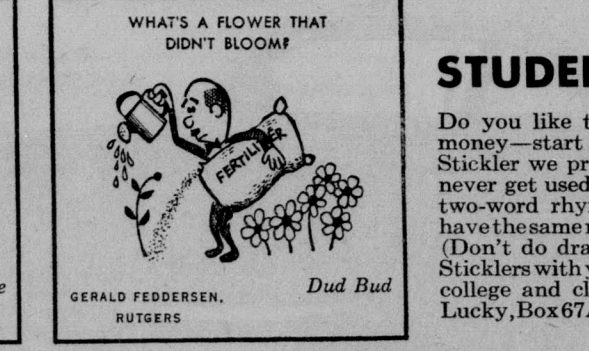

WHAT IS A CAMPUS AREA WITHOUT LUCKY SMOKERS? (SEE PARAGRAPH AT RIGHT)

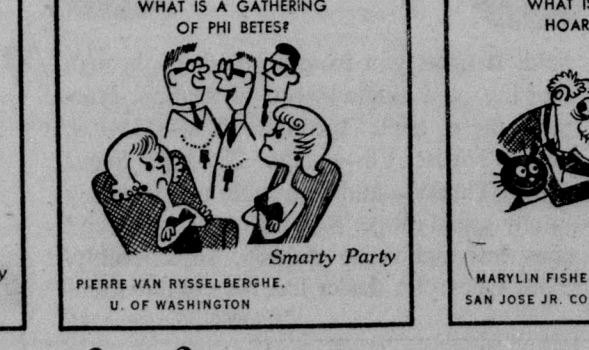

WILLIAM WADSWORTH, Dartmouth. *Nikking Sibling*

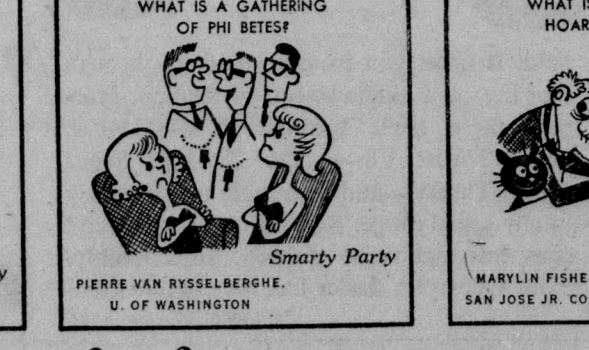

HAROLD ECKHART, Cornell. *Bored Horde*

RONALD BILEY, Boston College. *Spy Spy*

PIERRE VAN RYSELBERGHE, U. of Washington. *Smarty Party*

MARTIN FISHER, San Jose Jr. Coll. *Cracker Sticker*

ANY NORMAL DORM'LL be full of Lucky smokers! You can count 'em by carloads on any campus — and no wonder! A Lucky, you see, is a light smoke—the right smoke for everyone. It's made of nothing but naturally light tobacco... golden rich, wonderfully good-tasting tobacco that's toasted to taste even better. Find a set of dorms without Lucky smokers, and you've stumbled on a mighty *Odd Quad!* Don't you miss out—light up a Lucky. You'll say a light smoke's the right smoke for you!

STUDENTS! MAKE \$25

Do you like to shirk work? Here's some easy money—start Stickling! We'll pay \$25 for every Stickler we print—and for hundreds more that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67 A, Mt. Vernon, N.Y.

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

WE'LL HELP YOU FIND A FUTURE...

Somewhere in Pennsylvania there is a community which offers fulfillment of your working, recreational and living desires. Locating this community is not too difficult when you choose to work for a Pennsylvania electric power company. And, you'll find an exciting, challenging future with the Pennsylvania electric power companies, too, for these companies have doubled their capacity in the past ten years and will double it again in the next ten.

In no other field will you find so great an opportunity. In no other State will you find a more gracious mode of living. It's your future! You must make the decision, but before deciding, investigate the tremendous potential of the Pennsylvania electric utility companies.

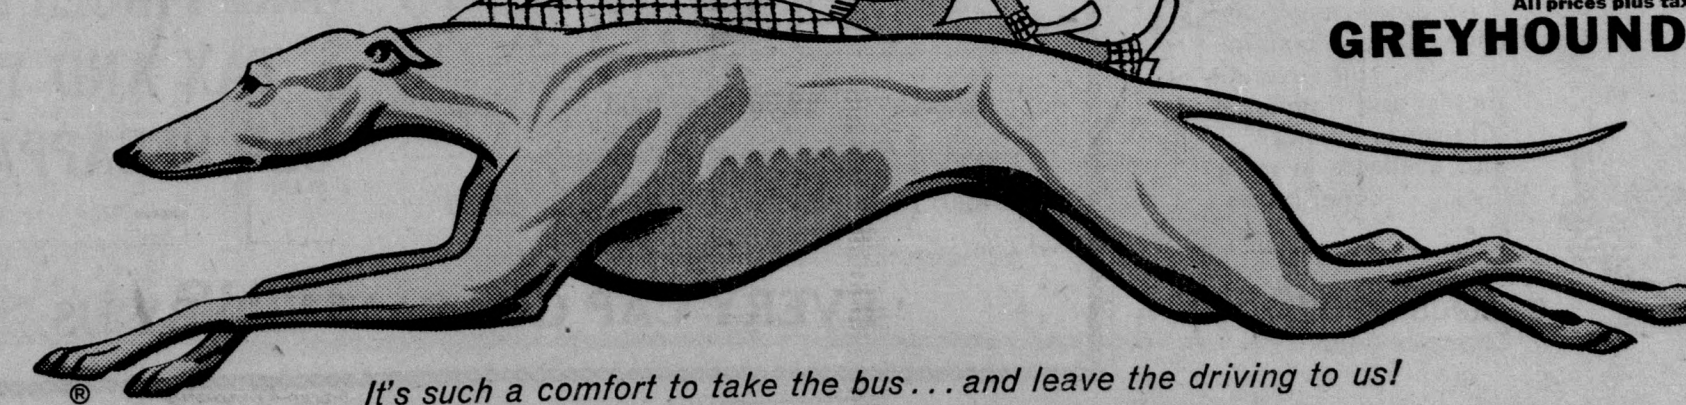

If you are interested in an exciting and prosperous future, then your next step is to talk to your placement counselor or to the personnel director of one of Pennsylvania's electric power companies. Or, write to Pennsylvania Electric Association, State Street Building, Harrisburg, Pa., telling them where you would like to live and work.

I-M BASKETBALL; BOWLING OFF TO FAST START

by Doug Grigg

There was much activity and excitement at Davis Gymnasium this past week where the intramural basketball fever ran hot and heavy. On December 10, the Phi Gam's defeated the Sigma Alpha Mu's by the narrow margin of 29-25. MacDonald and Clark tallied 12 and 7 points, respectively, for the Phi Gam's to lead their team to victory. Herb Kallenberg and Bob Kaye tallied 10 points apiece for the Sammie's in a losing cause.

The Kappa Sig's, led by Ackerman with 11 points, emerged victorious over Lambda Chi Alpha. Frank Saera paced the Lambda Chi's with 12 points.

SPB completely overwhelmed the TKE by a score of 67 to 27. Sigma Phi Epsilon led by Pipton and Rugers, each scoring 21 points, never gave the TKE's a chance. Webb led the TKE's in scoring with 9 points.

Carlson and Spoungue, tallying 10 points and 7 points, respectively, led the Phi Kappa Psi's to a victory over the SAE's. The SAE's, who could never seem to find the range, were paced by Anderson, Rinaldo, and Dentz.

FRESH INTRAMURAL BOWLING

For the first time in intramural

Along the Bison Trail

Sports Co-Editors, Bucky Walters, Stratton White

by Stratton S. White

Not only is the Soviet Union making a tremendous drive to world supremacy in the fields of science and militarism, but they are also trying to control international athletics.

The most important reason for the tremendous sports boom in the Soviet Union is the obvious one that the government supports it. This makes it possible for the trade unions (the parent bodies of the sports clubs) to lend all out support, and for the Soviet citizens to indulge in sports freely. Added to this is the fact that the universal eight hour work day in the U. S. S. R. leaves the people with considerable leisure time, that they have a passion for mass activity and that the excellent facilities are available at no cost. Also important is an almost deliberate, certainly conscious withdrawal by the average citizen from the complex problems of politics and economics in the Soviet Union.

Sports are free, collective and almost obligatory. The average worker is offered facilities for whatever sport he may choose through his union, the parent body of the particular sports club to which, according to his job or his profession, he may belong. International competition, recently encouraged, is on the increase and now provides a new and welcome contact with the outside world.

There is an endless amount of practicing everywhere—in gyms, pools, and parks. Physical cultural superintendents in Moscow factories have the job of planning and supervising exercises in the factories. These exercises are planned, set up and changed every three months to avoid boredom.

In addition to setting up exercises, which start, punctuate and end the day throughout the country, millions of Russians are participating in every sort of sport, even tennis, steepchasing, basketball and sailing. The physical fitness ideal is evident in the huge stadiums and sports fields of the big cities, and the numberless more modest but thoroughly efficient installations in smaller towns and even villages.

Such individualistic sports as fishing and hunting are popular, but they seem to be practiced somewhat evasively because they are at odds with the collective character of Soviet life. They are not available through the government sponsored organizations, but runs, ammunition and other equipment are not restricted, and there are plenty of hunting supply stores in the U. S. S. R.

The Soviet citizens reaction to all this activity is not easy to evaluate in American terms. They seem withdrawn, concentrated, even grim at their games, almost as much as their top athletes in international contests.

bowling, the freshmen were allowed to form their own hall teams to take part in this sport of skill and accuracy.

In matches this past week, 234W defeated 12AW, East College defeated 12BW, and 234W defeated 12Wing. The way this freshman league is set up, the losers also get an opportunity to play each other. 12AW will play 12BW with the winner playing 34AW which received a bye. At the end of the bowling season the winner of the freshman league will play the winner of the fraternity bowling league for the championship of the school.

FRATERNITY BOWLING

This past Monday the fraternity bowling league got under way with the SAE's defeating TKE, Sigma Chi beating Sigma Alpha Mu, and Phi Gamma Delta and Kappa Sigma bowling to a draw.

In Monday's matches, Bill Hummel bowled 203 and 204 in his last two games to lead Sigma Alpha Epsilon to a 3 to 1 win over TKE. Sigma Chi defeated Sigma Alpha Mu 3 to 1 due to the consistent bowling of Pascucci and Millward. Phi Gamma Delta defeated Kappa Sigma 2 games to 1, but Kappa Sigma bowled a larger number of total pins which resulted in the match ending in a draw.

Bowling also took place this past Tuesday at the American Legion. Kappa Sigma put on a demonstration of excellent bowling in defeating the SAE's 3 games to 1. Even though Sigma Alpha Mu emerged victorious in their first game, they faltered during the rest of the match to lose to Lambda Chi Alpha 3 to 1. Consistent bowling by the

All-American Candidate Rupp also put himself on record about Rodgers as saying, "I don't know exactly what is meant by an All-American, but if there is such a thing, that boy is one I haven't seen a better player in recent years."

Bisons Are Underdogs Temple will be looking for a win against Bucknell in order to rebound from double setbacks against Kentucky and Cincinnati. With such men as Guy Rodgers, Tink Van Patton and Brodsky, the Owls should have little trouble with the Bisons.

Owls Use Zone Defense The Owls have used a zone defense primarily in their first three games with Rodgers, Van Patton and Brodsky doing the bulk of the scoring. After three games Rodgers had averaged 25 points a game while the team had averaged 84 points per game.

Bechtel's Dairy Bar N. Derr Drive (Rt. 15) Dinners and Seafood Thick Milkshakes — Sundae

Behind The Mike

by Jenny and Joel

This week we thought we'd tell you about a man who, although he deserved an article earlier we held off writing about him until this very appropriate time. You see, this week we want to tell you about the new editor of the Bucknellian, Lee Wentzel. This very likeable SAE is a senior on the Bucknell campus in several fields which include his fraternity, the Bucknellian, and, of course, since we are writing about him, WVBU.

In his fraternity, Lee has been outstanding in the field of athletics, as seen by his participation in intramural sports. Lee also plays golf for SAE and shoots in the low 80's. He has been the assistant pledge trainer and is always available whenever any of his brothers needs a helping hand.

One of the highest honors given to Lee, who was a transfer from Boston University his sophomore year, is the editorship of the paper that is put out in conjunction with the Newsman's Conference, "The Globe." This conference, which is given at one of the colleges, is held during the first week in February, and it is attended by men from the field of radio and television and by active journalists who discuss problems of world affairs. This is the third year that the conference will be held here, and Lee will be in charge of the paper that is to be printed.

Lee, who will be twenty-two this coming February, has always been active in the publications here at Bucknell. He has served on the L'Espresso advertising staff and started his Bucknellian career as the exchange editor, writing "On Other Campuses." He has served as feature editor. Lee has written several editorials for the paper and now will be editor of the paper which has used so much of his talents.

At WVBU Lee is now doing the Jam for Breakfast show on both Tuesday and Thursday mornings. On Monday nights Lee has a show that is quite different and is very enjoyable. He presents "Bantam's Beat", a program of classical jazz from 7:30 to 8:00 p. m. He is also doing work with the sports department in the announcing of the basketball games. In all, Lee is very active at the station. Some of his future plans include professional broadcasting and in the past, he has had some radio experience.

So, now you see why we waited to tell you about Lee and his activities on the campus. We would like to congratulate him and wish him the best of luck in his new capacity as editor of the Bucknellian, and we also hope that the next time you see him ride past in his 1957 red and black Ford, you will remember a few of the things that made Lee Wentzel our choice this week to be BEHIND THE MIKE.

Glee Club Plans Tour

The members of the Men's Glee Club will go on their annual tour this year from February 2-7. They will present twelve concerts under the leadership of a new director, Mr. Jack Crim, vocal instructor of the Music Department. They will travel in the states of Pennsylvania, Connecticut, New Jersey and New York.

Twenty new students have become members of the Men's Glee Club this year. The newly elected officers are: manager, Jay McConahay; assistant manager, Ven Bo-vard; and librarian, John Miller. Plans are being devised to make the Men's Glee Club a more active organization on campus. The new program will include a Chapel appearance soon, and an outdoor concert to be held in the Sem this Spring.

COLLEGE REPRESENTED

George M. Kunkel, professor of mechanical engineering, and James Davis, a senior in mechanical engineering, represented Bucknell at the annual convention of the American Society of Mechanical Engineers held last week in New York City. This convention of ASME brings together engineers from throughout the nation. The main purpose of the program is to provide an opportunity for the members to present papers on their technical research. In addition, the convention attendees toured industrial plants in the New York area in order to see the application of modern advancements in the engineering field.

'Eighteen and Anxious'

"Eighteen and Anxious" provocative and tense with its drama of today's young people, has been set to open Sunday for a three day engagement on the screen of the Strand Theatre, Sunbury. This new screen production is a keenly different approach to the situations facing young and its story is both shocking and unusual.

Lovely young Mary Webster who soared to stardom via her roles in the "The Delicate Delinquent" and the "Tin Star" portrays the girl who, while not yet a woman, is already a mother. And in this situation without valid proof of her marriage, she faces scorn, shame and lack of understanding that threatens to ruin her life.

Co-starring with Miss Webster is William Campbell, as the out-of-control trumpet player; glamorous Jackie Loughery, the sympathetic and loyal girl friend; handsome young Ron Hagerty as the die-jockey friend who wants to marry the young mother; Martha Scott, the understanding mother of the girl; Jim Backus as the disapproving father; and Jackie Coogan as the shrewd manager of Campbell.

Professor R. D. Schafer, chairman of the mathematics department of the University of Connecticut, gave two lectures last week. On December 5, Professor Schafer, who is a visiting lecturer for the Mathematics Association of America, spoke on Modern Algebra, and the following day he lectured about Linear Algebra.

Women's Glee Club Tour Starts Feb. 2

This year's tour for the Women's Glee Club has been set for February 2 through 6. The girls, under the leadership of Mr. Allen Flock, will give 12 concerts in the following towns: Bala-Cynwyd, Red Bank, Pa.; Moorestown, N. J.; Swarthmore, Pa.; Wilmington, Del.; Millville, Vineland, Hammonton, Margate, Merchantville, N. J.; Lewisburg, Pa. During the trip they will have an afternoon off in Atlantic City, N. J.

Future plans of Women's Glee Club include a chapel program in the early spring and a Mother's Day concert.

After recent tryouts, the following new soloists were selected: Caroline Faust, Rachael Robbins, Ann Blake, Mary Lee Foote, Carol Klinger, Barbara Ziegenfus, Beth Worthington, Adelle Irving, Barbara Danelluzzi, Cynthia Blunt, Gib Rodi, Phyllis Gersbach, Jo Sheldler, Jo Harris, Peggy Taylor, Ann Hardy, Lucy Ifert, and Pat McKee.

Behind every successful man is a woman who certainly surprised his mother.

It can be gay, festive and enlightening. The Sloan House YMCA helps you do it with special holiday programs. Clean, comfortable and inexpensive accommodations—\$2.10 single, \$2.70 double. Year round ideal residence and program center for young men and groups of all sizes.

Lovelorn Advice

by Dave Conroy
(Article Two of a Series)

I recently became pined to a boy who I thought was very nice. It was sort of a whirlwind romance—I met him at a party at the SAE House Saturday night and we became pined during my first late minute at Harris Hall that night (I really didn't care about that late minute, it was such a wonderful night; of course, I turned myself in to the Honor Council the following week).

Anyway, Foshorn (my boy friend) has been acting strangely recently. At first I thought he was very quiet; but lately he's been acting in the oddest way. He has insulted my very close friends, mocked me, and has picked up some very bad habits. For instance, he complains because I give him just \$20 a week for cigarette money (the smokes King Size), and whenever we go out, he insists on wearing his black leather zipper-jacket with HELL DRIVERS printed on the back of it in orange letters. Not only that, but whenever we are on the way to an open house fraternity party on his Harley-Davidson motorcycle, we always seem to run out of gas, and he insists that I siphon the gas out of Dean Meyn's car. Instances like this have embarrassed me several times; I'm seriously beginning to think that Foshorn does not love me.

I've recently seen Foshorn riding out to "The Al" on his motorcycle about six different times, each time with one of my girl friends on his back fender. Each of the girls has his fraternity pin, and I've recently found out that his father manufactures these pins and that he's "given his pin" to 72 girls so far this semester. I don't think he's stable.

A few days ago, Foshorn and I were at a fraternity party at the Sig House. About 10 o'clock that Saturday night he told me to order two more beers for him and myself, and "wait for me, Doll, I be right back." (He wanted to talk to one of my girl friends). That was five weeks ago, and neither he nor my girl friend have been seen since.

Major News In Brief

by Sallie Hock
U. S. Prestige Setback
The prestige of the United States suffered another setback on December 6 when the first American attempt to launch a satellite since the launching of her two Sputniks failed. Although American scientists had warned that the U. S. satellite launching would not begin to parallel the Russian achievements, the blowup of the Vanguard rocket weakened the prestige of the United States and intensified the "crisis of confidence" surrounding the Western coalition.

President Makes Rapid Recovery
President Eisenhower continued to make a rapid recovery after having suffered a mild stroke two weeks ago. His activities for the past week included meetings with his Cabinet, if you tend bar during the dinner, if you're sure Foshorn will return to you, and your wonderful romance will be blissfully patched up over the two dances take place this week, and state beers. HAVE FAITH, CHILD.

Israeli Convoy to Mount Scopus
After a two week block by Jordanians, an Israeli convoy was finally permitted to enter Mount Scopus, an Israeli enclave in Jordan, with supplies of gasoline. The Jordanians had previously accused the Israelis of desiring to use the gasoline for the building of fortifications. The Israelis denied this, but refused to go without the gasoline.

Anti-Dutch Campaign in Indonesia
Indonesia made further accusations against the Netherlands with regard to the recent dispute over continued Dutch control of West New Guinea. To the Indonesians, West New Guinea represents the last hand of Dutch control in the East Indies. Indonesian actions included demanding the closing of consulates outside the capital, seizure of the major Dutch hotel, Indonesian control of Dutch harbor facilities and the deportation of most Dutch nationals.

Crucial Questions for NATO Heads
Paris will be the scene of the NATO meeting for the leaders of the governments having membership in this organization. The meeting, to be held on December 16, hopes to strengthen NATO against the new Soviet challenge. The topics for discussion at the session will be NATO's role in the missile program, coordination of defense budgets and military forces among NATO members and the political and economic actions to be taken to combat Russia's diplomatic and propaganda offensive.

DECK THE HALLS

The days grow short, the nights grow long, the north wind doth blow, and a light frost appears on the knees of coeds. Christmas is lemmen in, and once more our keen young minds turn to the vexing problem of Christmas gifts.

Let us examine first the most vexing of all gift problems: What do you buy for the person who has everything? Well sir, when you encounter this dilemma, the best thing to do is size it by the horns. Ask yourself this question: Does he truly have everything? Does he, for example, have a birthmark? A Mach number? A lacrosse net? An I-beam? An S-hook? A U-bolt? A T-square? A Primus stove?

(There is, incidentally, quite an interesting little story about how Primus came to invent these. Before Primus's invention, cooking was rather a hazardous occupation. People just built fires any old place—the floor, the closet, the escurtoire—and often as not the whole house would go up in flames along with the dinner. Primus, a goose plucker of Frankfurt-am-Main, kept thinking there must be a more efficient way to cook. Finally, in a flash of inspiration, it came to him: Why not build a device to contain the fire and keep it from spreading?)

(Well sir, he built precisely such a device and named it after his beloved wife Stove. Primus's first Stove, it must be confessed, was less than a triumph; his mistake was in building it out of paper. The next Stove, built of wood, fared hardly better. Not until he made one out of metal could the Stove really be called a success.)

But even then the Stove was not entirely satisfactory. The trouble was that the Stove filled up with ashes and became useless after a few weeks. It remained for Primus's son Frederick to conquer that problem. He invented a mechanism to remove ashes from the bottom of the Stove and was thenceforth known to posterity as Frederick the Grate.)

But I digress. We were discussing Christmas gifts. This year, as every year, a popular gift is the smoking jacket. And what do the smoking jackets smoke? Why, Marlboro, of course—every man jacket of them. And why wouldn't they smoke Marlboro? Why wouldn't anybody with a taste bud in his head? You get such a lot to like in a Marlboro—filter . . . flavor . . . flip-top box.

Here is no filter to hollow the cheeks and bug the eyeballs; here is a filter that draws nice and easy. Here is no flavor to pale and pall; here is a flavor ever fresh, ever zestful. Here is no flimsy pack to crumble and shed its precious cargo; here is a sturdy box that keeps each cigarette plump and pristine.

Speaking of smoking, the year's most unusual gift item is a brand-new cigarette lighter that never needs refilling. You are seafaring. You are saying you have heard such claims before. But it's true, I promise you. This new lighter never, never needs refilling! The fuel supply lasts forever. Of course, there are certain disadvantages. For one thing, the lighter is rather bulky—170 feet long and three stories high.

But look on the bright side: As the fuel runs out, you can rent rooms in it.

Good to give, good to receive, at Christmas or any other time is a cartoon filter-tip Marlboro makers take pleasure in bringing you this column throughout the school year.

FRATERNITIES, FROSH PLAN YULE PARTIES

For those who have not yet experienced the Christmas Spirit on December 13 and 14 quite a change should take place. Several of the dorms are decorating outside, carols are sung almost regularly before meals, and Christmas trees are beginning to arrive.

On Friday night Johnny Nicholas and his band will be setting the mood at the DU formal. On the Saturday night the Jones Boys will entertain at their formal.

Friday night at KDR includes dinner at the Hotel Milton, and a formal at the Milton Country Club featuring the Starlighters, to follow. Saturday night there will be an informal dance at the house and on Sunday a Christmas party for a Kindergarten in Lewisburg.

A decorating party at Kappa Sigma on Friday night will be in preparation for an afternoon party, dinner and formal dance to take place on Saturday.

The LCA formal is scheduled for Friday night, with a Cornish Hen dinner on Saturday night and an informal party to follow the basketball game.

An informal party, dinner and formal dance are planned at the Phi Gamma house on Friday. Saturday night, an informal party after the basketball game will bring the weekend's activities to a close.

The Phi Psi Christmas formal takes place on Friday night preceded by a party that afternoon and an informal dinner. Hi-fi and a fire in the fireplace should warm things up for an informal party on Saturday night.

An afternoon party, dinner and formal dance will take place at the Phi Lambda Theta house on Friday. SAE plans a banquet to be followed by a formal dance on Friday and an informal party on Saturday night. The weekend activities at Sigma Chi include a formal Friday night, and an informal Christmas party on Saturday night. On Sunday the

Who's The Ugliest?

Voting for Ugly Man contest will continue through tomorrow at Chet's. The crowning will be at 4:30. This is an annual contest sponsored by Mortar Board for their scholarship fund. Pictured above from left to right: Chuck Vosburg, Steve Jennings, Edge Deuel, Dick Evoy, Gene Sistranni, Dick Vasquez, Jack Brothers, Denny Cox, and John Carhart.

Travel Enthusiasts Plan Europe Session

Students who want more information on various kinds of summer travel to Europe and other parts of the world will find some help at a meeting being called for Hunt Recreation.

The committee in charge points out that students should be aware of the distinct types of European experience, ranging from work camps to elite tours. There are excellent summer study programs, sponsored by European universities, and by American Universities. There are real "people to people" programs like the Experiment available.

With a theme of Snow Flake Ball, the class of '61 will dance to the music of Jim Hall and the Moonlighters on Saturday, December 14. The setting is the lounge of Swartz Hall and the dress semi-formal. The freshman tree-trimming party will take place on Saturday afternoon, beginning at Swartz Hall at 1:30 and proceeding to trim the trees in the other freshman dormitories.

The annual Christmas program, the presentation of Handel's "Messiah," will be given Sunday night in the Davis Gymnasium at 8:15 p. m. Soloists for the program will be soprano, Carol Erickson; alto, Sandra Jeanne Renninger; tenor, Jack S. Chim; and bass, Rev. C. Frederick Mathias. Trumpet soloists will be Ronald Follmer and Donald Beistel. Darina Tully will be the pianist. Lindsey Merrill will direct the orchestra, and John Lehn will be the concert master of the orchestra.

The entire production will be under the direction of William D. McRae, Jr., chairman of the music department.

... Staff

(Continued from Page 1.) a political science major and is also an SAE. Presently he is on the Circulation Staff of *Touche*, is in charge of the Military Ball Dance, and *Bucknellian* sports writer. He is very active in intramural wrestling and boxing. Stratt is currently the heavyweight champion in both sports.

CHRIS PETERSEN — Retaining her present position of Exchange Editor is Chris Petersen. A junior, Chris is a bio chem major and a member of Alpha Chi Omega.

BETTY BRYAN — Also keeping her same position is Betty Bryan as Assistant Copy Editor. Betty is a sophomore and a member of Kappa Kappa Gamma sorority.

JIM CHAPMAN — Jim Chapman, a junior SAE, is the new Assistant Feature Editor. Jim has been writing features for the past semester.

PAT VASBINDER — The new Assistant News Editor is Pat Vasbinder, a sophomore and member of Alpha Chi Omega. Pat has worked for the *Bucknellian* for a year and a half, serving as Desk Editor last semester.

JEFF JEFFERSON — Jeff Jefferson will retain his present position as Business Manager. Jeff is also treasurer of Delta Upsilon and of SFC.

BILL SHARP — Bill Sharp will take over the advertising staff. A Sigma Chi senior, Bill has worked on the staff for the past year.

CAROLYN SAXTON — The new circulation manager is Carolyn Saxton. Carolyn has been on the staff for the past year and is a member of Kappa Delta sorority.

Chapel Choir Presents Christmas Program

Chapel on December 18 will feature the annual Christmas program of Chapel Choir. The choir will sing a varied program of well-known carols and spiritual music. The selections will include "I Sing of a Maiden," "In Dulci Jubilo," "Once on a Time Christ Came to us Here," "The Cradle," "Song of the Crib," "Angels We Have Heard on High," "Carol of the Bells," and "Masters in This Hall."

Flock Invited To Present Clinic

Allen W. Flock, associate professor of music at Bucknell was invited to present a clinic at the annual convention of the Pennsylvania Music Educators Association which opened last Friday at the Penn Harris Hotel in Harrisburg.

Subject of the clinic was "Time-Saving Techniques for the Marching Band." Mr. Flock was chosen to present the topic because of his success with the Bison Band and the Bucknell Band Camp which he directs.

College music groups invited by the music educators to attend their convention included the Temple University Choir, the Indiana State Teachers College Choir, and the wind ensemble from the U. S. Military Academy at West Point.

At the invitation of the Harrisburg Chamber of Commerce, Mr. Flock was one of the judges Saturday at a parade of high school bands.

... Tuition

(Continued from Page 1.) Committee on Education Beyond High School. An informal survey of eastern colleges showed that approximately one-half have already decided to raise fees for 1958-59, with an additional twenty-five per cent undecided.

To help those students who will require financial assistance in order to meet the increased tuition charge, the Board of Trustees has also authorized a liberalization of the terms of the student loan program. The University will also continue to employ as many qualified students as possible under its student aid program, whereby needy students are given the opportunity to earn a part of their expenses in part-time work for the college.

Police patients deserve a better fate than imprisonment in iron lungs, chest respirators, braces, and wheel chairs. Survival is not enough. Give to the 1957 March of Dimes.

BUCKNELL UNIVERSITY

LEWISBURG, PA. THURSDAY, DECEMBER 19, 1957.

NUMBER 13.

TAKE IT EASY GOING HOME

DON'T LAUGH - IT COULD HAPPEN TO YOU

Yes, Bucknellians, play it safe on that drive home. Stop, look and listen at all railroad crossings. Let's not end up being pushed 2500 feet to death. Remember safety first never hurt anyone.

If 40,000 American were killed in one catastrophe, the news would rock the nation! Yet, last year, 40,000 Americans were killed and a total of 1,500,000 were injured on our streets and highways. Ecomote loss was more than \$4,500,000,000. At the rate we're going so far this year, have been 213 arrests for violations in Lewisburg in 1957. Of these, Chief Hufnagle estimates that 30 to 40 per cent of the violators are Bucknell students. He also reports that insurance companies are becoming stricter, even against their own clients. Often, instead of fighting for their client, they will demand that he is arrested if they feel that he is at fault. They do this for the psychological effect it has on the driver. They hope that this will make him more aware of his responsibility and thus cut down accidents.

The following are some rules for safe driving, especially for winter snow conditions:

1. Start earlier and drive slower. Don't expect to maintain summer-time schedules under wintertime driving conditions.
2. Get the feel of the road when starting out. Don't wait for a narrow escape or an accident to prove to you that the roads are slippery.
3. Allow a safe distance between your car and the car ahead. Notice if the car ahead has tire chains, because if it has, that driver will be able to stop fairly quickly, and a rear-end collision may occur unless you too can stop.
4. Anticipate your stops and make them gradually.
5. Signal your stops by pumping your brakes. The driver behind you should notice your flashing brake light. Also, this is the most effective braking technique on slippery pavement, as proved by traction tests conducted by the National Safety Council.
6. Give pedestrians a wide berth, because they, too, are handicapped by flying snow and slippery footing.

It is estimated that one in three of the 300,000 persons alive today who have had paralytic polio could still benefit from modern rehabilitation methods. Survival is not enough. Give to the 1958 March of Dimes.

Bobbie Runk, Freshman editor, a member of the Freshman Class Council and Glee Club.

Judy Harrison, student editor, who is on the Sophomore Committee and a Hall Rep for the CA. Judy also is active in Cap and Dagger.

Margie Kuhn, KKG, and Marilyn Pearce, Pi Phi, are activities editors. Marg is publicity chairman of WRA and writer for the *Bucknellian*. Marilyn worked on the *Handbook* last year while she participated in interclass sports the Glee Club and was a Fireside leader.

Marty Taylor, Tri-Delt, fraternity and society editor, is a cheerleader and was section editor last year.

Linda Weaver and Bill Sharkey, athletic editors. Linda, ASA, is active in WRA and Bill, Lambda Chi, is sports editor for the *Bucknellian*.

Ginnie Notarie, copy editor, who attended the Newsman's Conference last year.

Willie Rilling, treasurer of KKG, photography editor. Willie is manager of the school orchestra.

Herb Bohler, photographer. Herb is a member of Chapel Choir, and Cap and Dagger.

At last year's end (1957), the National Foundation for Infantile Paralysis estimated that 57,000 polio victims received March of Dimes aid during the year, of which about 53,000 were post-acute cases stricken a year or years ago.

MILITARY BALL APPROACHES

The annual Military Ball, scheduled to be held on Friday, January 17, promises to be the biggest and most gala dance ever to be held on the Bucknell campus. Plans are being made to make this an occasion to remember.

Music for your dancing pleasure will be provided by Richard Maltby and his orchestra. As an added attraction, Mr. Maltby will feature Frankie Crockett as his female vocalist. Dancing will be held from 9 p. m. to 1 a. m.

One of the outstanding events of the evening will be the Grand March and the coronation of the Military Ball Queen. This year's company queens who will be members of the 1958 Court are as follows: A Company, Molly Wolford; B Company, Cora Fiva; C Company, Carolann Buquet; D Company, Jane Elam; E Company, Lois Lenhard; F Company, Peggy Smith; G Company, Melinda Hauser; H Company, Nancy Seeburger; ROTC Band, Jeanne Anderson; Pershing Rifles, Jeanne Thomas.

(Continued on Page 8.)

So He's The Ugliest?

Last Friday the coronation of the Ugly Man of Bucknell took place, in which John Carhart won top honors.

At a coronation ceremony held last week, John Carhart was chosen King of the Ugly Men. The contest, sponsored by Mortar Board, netted over \$300 for its scholarship fund.

John, who serves as assistant dean of men, holds degrees from Oberlin College and Temple University. His face, which really is not ugly at all, is familiar to most Bucknellians as he takes an active part in student affairs.

His Majesty was crowned by Merle Holden, president of Mortar Board. He was attended by the defeated candidates, and other onlookers included members of Mortar Board and a large gathering of enthusiastic students.

The entire production will be under the direction of William D. McRae, Jr., chairman of the music department.

New Handbook Staff

Left to right, first row: Judy Angelo, Ginnie Notarie, Marty Taylor, Marilyn Pearce, Willie Rilling. Second row: Herb Bohler, Sandy Glenn, Lois Cox, Linda Weaver, Cynthia Dielman, Peggy Hollinshead, and Bobbie Runk.

The new Campus Life section of the Student Handbook shows the effort being made toward reorganization of the *Handbook*. This new section will include pictures of campus life and the buildings.

This year's editor is Sandy Glenn, KD, who was a section editor last year. Working with Sandy are: Cynthia Dielman, KKG, assistant editor, who is also assistant editor of the *Yearbook*, member of the Glee Club and an El. Ed. member.

Peggy Hollinshead, Pi Phi, university editor. Peggy is a member of Glee Club.

Judy Angelo, KD, campus editor. Last year Judy was photography editor.

Bobbie Runk, Freshman editor, a member of the Freshman Class Council and Glee Club.

Judy Harrison, student editor, who is on the Sophomore Committee and a Hall Rep for the CA. Judy also is active in Cap and Dagger.

Margie Kuhn, KKG, and Marilyn Pearce, Pi Phi, are activities editors. Marg is publicity chairman of WRA and writer for the *Bucknellian*. Marilyn worked on the *Handbook* last year while she participated in interclass sports the Glee Club and was a Fireside leader.

Ginnie Notarie, copy editor, who attended the Newsman's Conference last year.

Willie Rilling, treasurer of KKG, photography editor. Willie is manager of the school orchestra.

Herb Bohler, photographer. Herb is a member of Chapel Choir, and Cap and Dagger.

At last year's end (1957), the National Foundation for Infantile Paralysis estimated that 57,000 polio victims received March of Dimes aid during the year, of which about 53,000 were post-acute cases stricken a year or years ago.

WHO'S WHO

In an election of the senior class last Friday, the following seniors were elected into Who's Who in American Colleges and Universities:

Jack Brothers, Claire Halline, Skip Wieder, Faith Bonsall, Young Gul Kim, Anna Shultz, Terry Fetterman, Jay Citron, Roger Nieman, Phil Nerhood.

Alice Brown, Pete Hunter, Barbara Pausser, Peggy Smith, Merle Holden, Ginny Davis, Nancy Urtholtz, Karen Reynolds, Chuck Vosburg, Peyton MacDonald.

Robert Toal, Betsy Bean, Jeff Jefferson, Georgia Ann Mackay, Sue Smith, Anne Satter, Pat Head, and Larry Dempster.

At last year's end (1957), the National Foundation for Infantile Paralysis estimated that 57,000 polio victims received March of Dimes aid during the year, of which about 53,000 were post-acute cases stricken a year or years ago.

It Can Happen To You

"A car accident—it always happens to the other fellow. I don't have to worry." Too often this is what you hear a driver saying. Too often this is the driver that you never see again. It is this sense of being divorced from the real situation that causes drivers to let down the curtain of caution. Once the curtain is dropped anything can happen. Ten seconds is a very short time; yet, consider the results of looking off the road or at the person sitting next to you for that amount of time if you were traveling 60 miles per hour. Your car would cover 880 feet with no direct control. The road might curve suddenly. A car could swerve in front of you; 880 feet is a very long distance. The driver should realize that he is taking part in a huge play in which each person must take the responsibility for his part. He is not a spectator; he is a participant. If he neglects his role the play will fail; e.g., there will be an accident. When driving home this Friday and Saturday, keep in mind that accidents can happen to you if you are not alert. The other fellow could be you. —G. E.

FRESHMAN NOTICE

Dear Freshmen: The IFC in the past few weeks has been making what we consider to be a conscientious attempt to clear up the dirty rushing that has been taking place. We are doing this by working closely with the fraternities in an attempt to help them clear their records of any dirty rushing up until this date. With their cooperation we have been successful in obtaining all the instances of dirty rushing, as defined by our IFC rushing rules, that have taken place so far. We have done this with the idea of penalizing—leniently we feel—the guilty fraternities. These penalties were imposed by the IFC with the understanding that if any fraternity is charged with or guilty of dirty rushing from this point on they will be severely punished. With this thought in mind, I would like to remind the freshmen that you are as much responsible for the existence of dirty rushing as the fraternities are. With this point clear and since the IFC is not basically interested in punishing the fraternities or the freshmen, I would like to extend to the freshmen the opportunity of turning in to the IFC any information that you might have pertaining to definite cases of dirty rushing. With the turning in of this information no penalty will be imposed. On the other hand, if information comes to the IFC through different channels, or instances of freshmen indulging in dirty rushing, the freshmen involved will find themselves open to penalties by the IFC. If you are not familiar with the present IFC rushing rules, may I refer you to our IFC booklet which was distributed at the beginning of the semester. It will also serve you in helping you to understand the IFC position on rushing. With the hope of complete cooperation and with the idea of helping you, I respectfully submit this letter.

Jay Citron
IFC President

Aid for polo victims in 1958 will require \$21,000,000 or only \$600,000 less than last year, according to estimates of the National Foundation for Infantile Paralysis. Help those already crippled by giving to the March of Dimes.

MADMOISELLE

A college fiction contest open to all Bucknell women students is being conducted by the editors of Mademoiselle magazine. The two outstanding fiction stories will each receive an award of \$500 plus publication in Mademoiselle. Other stories of high quality will be awarded honorable mentions, and will be open for purchase at regular year, I respectfully submit this letter.

March 15 is the deadline for all entries which should be from 2,500-5,000 words. (1) Use regular-size typing paper; (2) type them double-spaced on one side of the page only. (3) Mark work clearly with name, age, home address, school address and school year (4) Enclose story in 9" x 12" Manil

MERRY XMAS—A NEW YEAR

ON OTHER CAMPUSES

EYE OPENERS: A new resolution from Trinity College states that off campus rushing has been approved for weekends. How would this work at B. U.? It was disclosed, that after pledging a negro student, the Alpha chapter of Theta Xi at Amherst was suspended by national officers. The house, however, plans to remain a local. A similar incident involving Phi Gamma Delta occurred last spring, and since World War II three other Amherst fraternities have severed their national connections. At Syracuse, contrary to the current trend, automobile privileges are being taken away from the sophomores by vote of a joint student legislature of the Men's and Women's Student Governments.

INTERESTING IDEAS: At the University of Pittsburgh students can obtain Student Discount cards enabling them to receive discounts of 10 percent and higher from eighteen merchants in the area. Mr. Lyons, please note! At George Washington University the social chairman from the different fraternities and sororities have formed a Greek organization, Epsilon, to "foster better Greek relations and exchange ideas of planning and holding social events." In order to raise funds for a new infirmary at Mount Holyoke, several of the local village stores will donate ten percent of the price of the purchases made on a specific date. There will also be auction of miscellaneous articles, and services sold by the faculty.

SIMILAR STATISTICS: The Syracuse School of Journalism is ranked as one of the top three in the nation, while the School of Chiropractic at Temple is the third largest in the country. At the Illinois Institute of Technology a poll is being taken to "determine the students' need for free time." Its purpose is to help solve registration problems for the administration and to aid those students who must remain in school. An editorial in the Technological News stated that the faculty show no appreciable interest in student problems being responsible for poor counseling. One main reason is that there are too many students for an individual professor to counsel, so that "pre-registration consists of simply filling out a yellow card and having it signed by their counselor." This sounds all too familiar!

HUMOROUS HEADLINES: From the Technological News, "Get Shot Now: Sneak at Flu." From the Varsity News of the University of Delaware, "Snakes capture intramural title."

QUOTABLE QUOTES? From the University Hatchet, "Mr. Smith, the proof persisted, 'did you feel that the test covered the material adequately?' 'Yes, Sir,' came the snappy reply, 'much more than the lectures.'" From the Technological News, "A chaparrone is a force acting on a couple maintaining it in a state of equilibrium." And from the Wilkes Beacon, "My girl's figure measures 41, 23, 35, but not necessarily in that order." We also found the following answers from "Home was overthrown by invasions of the Huns, Visigoths and Ostogoths." "The Pope declared Luther's writings to be hereditary." "The winter of 1620 was a hard one for the settlers. Many people died. Many babies were born. Captain John Smith was responsible for all this."

"There are two methods of becoming an American—to be born—to be neutralized." C'est fini!

DEAN'S DATA

The regulations concerning student automobiles require that before a new state registration plate is attached to an automobile, the new number must be reported. Forms for this report may be obtained at the Office of the Dean of Men and the Office of the Dean of Women and should be turned in to the Office of the Dean of Student Affairs. These forms are now available and students whose automobiles are registered in states which issue new plates effective the first of the year, should pick up these forms before the Christmas holidays so that they may be turned in promptly after the vacation. The University regularly provides transportation at the close of vacations from the railroad stations to the campus. When classes resume on Monday morning, the last train arrives at Milton at approximately 2:00 a. m. On Monday morning after the Thanksgiving recess, the college bus met this train and brought back only ten students. It would be extremely helpful if those students who are planning to return on that train would leave their names in the Office of the Dean of Student Affairs before they leave for the holidays so that proper transportation arrangements can be made.

Dean of Student Affairs "We have already found that many polo victims sitting idle in wheel chairs may be returned to useful and profitable occupations."—Basil O'Connor, president, National Foundation for Infantile Paralysis. envelope, self-addressed and stamped. Submit to: College Fiction Contest Mademoiselle 575 Madison Avenue New York 22, N. Y. Although the contest is only open to women students, the editors encourage male students to submit stories at any time for possible publication. The women students are competing with co-eds of the same age from many other college campuses; therefore the competition is within the categories of similar age and experience.

Letters to the Editor

First and Second Cottage via The Editor, "The Bucknellian" Dear Kiddies: You have opened your collective mouths, with the agility only Freshmen possess, you have inserted your collective feet. Your letter to the Editor is obviously the scribbling of one or two of your plagues who have found out one bit fact in life early: they are not being asked out on dates because they are uncouth, socially inept, or going steady with a High School Sophomore from back home and who (the latter, in all probability, being the trustee). However, since all the Kiddies on both floors have signed this idiotic delight, I can only advise the rest of the campus to rush to their broken because hot water bottle stock is going to go sky-high in the near future, and a new point of interest on campus will be the amazing number of study lights on in your dorm on Friday and Saturday nights. You asked for it!

You speak of "Irresponsible men". In fact, you speak of "many irresponsible men". My goodness Kiddies, but you must have had an awful lot of dates this semester to be able to speak so expertly; gone out with just about every man on the Quad 1 bet, and hated every minute of each date. Of course, you forgot to mention that you accepted these dates (with an unheard of eagerness, probably) and if you were simply asked to be taken home and your date would have complied (also with an unheard of eagerness). No one, Kiddies, and I repeat, No one FORCED you to go on any date. You used the word and I return it to you for a bit of deep thinking on your part. Not at any time has anyone dragged you from your desks and made you go on a date. Nor have you ever been kidnapped from the streets and carried off to the back of a speeding black limousine to sit to an orgy. You are not the Sabine Women and the role does not become you! If you prefer to sit and knit all evening, or spend your weekends contemplating a falling leaf, I know of several excellent all-female colleges I could recommend, not to mention a few cloisters. Before you rush off, however, I feel obliged to inform you of something which should have been taught you in your "basic training", but is obviously lacking. It is as easy to say "no" as it is to say "yes", and I'm sure your little Mommy will all agree. Bear this in mind the next time you chance to venture forth into our sin-

(Continued on Page 8)

THE BURNING OF THE CLAUS 'Twas the night before Christmas and all through the house Not a creature was stirring not even a mouse; The stockings were hung by the chimney with care, And little Lulu and Angus were there. Angus was twenty and Lu twenty-three, For twenty-three years they had put up a tree And had hung up their stockings when healthy or sick, But in twenty-three years neither one saw Saint Nick. "It's funny, you know," said Angus to Lu, "That I've never seen Santa and neither have you. I'm beginning to wonder if we have been taken, And our thoughts about Santa have all been mistaken." They busied themselves with the boughs of the tree And sprinkled more snow for Santa to see. But as they were putting more snow on the bough, Both Lulu and Angus were thinking of how They could manage to see Santa by some shrewd trick And thus get to see old jolly Saint Nick. "It's 'bout time," said Lulu, her eyes all afire, Her breasts sweetly heaving with thoughts of desire, "It's time that we meet and we feel and we see The man who puts gifts 'round our Christmas tree." Said Angus to Lulu, "I'll soon build a grate In the chimney's center to act as a gate. And if we should trap him and should hear him moan, We'll know that we've caught him in our very home. The hour was late and the lights were all dim; The children had clambered while waiting for him. When with a bang and a roar and language profane Old jolly Saint Nick was heard to exclaim, 'Who the hell put this damn thing in my way? I'll never get back to my deer and my sleigh!' He belowed and roared and his belly did shake, But his foot was fast caught in a square of the grate. 'My foot is all bloody and my toenail is flat; If I catch him who did this I'll beat the young brat!' But Lulu and Angus had intention none To be caught by Santa and thrashed one by one. "Dear brother, dear villain," to Angus said Lu, "Now that we've caught Santa what shall we do?" "Put on your shoes and go down to the bogs, And hurry up with the driest of logs." He paced the logs with the greatest of care And struck a match and placed it there. And hot blue flames leaped up the crack And fondled the man who was stuck in the crack While Santa screamed and said prayers holy, And soon the screams died, but slowly, so slowly. Wait not for Santa, so jolly, so true; He was burned to a cinder by Angus and Lu.

UNIVERSITY RECEIVES STANDARD OIL GRANT

Bucknell University has received a grant of \$3,000 from the Esso Education Foundation for use by the science or engineering departments, President Merle M. Odgers announced today. The grant is to be allocated to one or three of the departments of science or engineering for expenditures not included in their budgets, and may be used for laboratory equipment, special research, or other projects designed to improve teaching in the fields of science and engineering. Bucknell was one of 50 privately supported colleges and universities listed as recipients of unrestricted grants of \$3,000 each, distributed by the Esso Foundation under a special program established by the Standard Oil Company of New Jersey. In observance of its 75th anniversary, Standard Oil will award, through the Esso Foundation, the sum of \$1,500,000 to improve science teaching generally during the next three years.

FUTURE MEDIATION OPEN TO SENIORS

Students interested in public affairs and public service careers who will receive their B. A. in June have been offered an opportunity to apply for fellowships to study at three different universities. The fellowships grant \$1,500 a year plus clothing and miscellaneous expenses. The fellowships are for freshmen, sophomores and juniors who are majoring in elementary education an opportunity for experience with children before they begin practice teaching. Representatives from the education department attended two conferences of the Student Educational Association of Pennsylvania on November 15 and December 9. At these conferences the representatives learned how similar elementary education clubs on other campuses are organized. More complete plans for the Bucknell club will be announced next semester. Dr. Jones is the advisor.

Ceremonies Held For New Members

Delta Mu Delta, the national economics honorary fraternity held initiation ceremonies on December 11. New members are Mr. Donald Voss, Mr. John Zeller, Joyce Anderson, Marilyn Beaver, Linda Grauer, John Hancock, and William Hollenbach. Mr. Charles Ressler and Mr. Donald Young were guests at the function. The event was held at Miss Love's house. After discussing various projects for the future, the old members, who acted as hosts, served punch and cookies.

Newsman Wanted For the fifth consecutive year Bucknell students will be running the Newsman's Conference, February 5, 6, and 7. This conference is unique in that it is the only one that is run solely by the students. There are still openings on the Procurement Committee for anyone having connections with working journalists. All expenses will be paid to Newsman traveling to and from Bucknell.

LUCKY STRIKE CIGARETTES

STICKLE! MAKE \$25

SWITCH from Texas to Wyoming... that's a range change. Switch from the Army to the Navy... that's a braid trade. Switch to Luckies—and you're taking a *Hep Step!* Nothing tops a Lucky for lightness—nothing can touch it for taste! It's all cigarette... all naturally light, golden rich, wonderfully good-tasting tobacco. And Luckies' famous tobacco is toasted to taste even better. Don't just sit there, shift for yourself! Try Luckies right now. You'll say a light smoke's the right smoke for you!

STICKLES are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe Lucky, Box 67A, Mt. Vernon, N.Y.

WHAT IS A POET PROTECTOR? Richard Rogers, U. of Illinois, Bard Guard

WHAT IS A NOBELLAUGH? Virginia Mac Bates, U. of Cal., Gay Neigh

WHAT IS A GERMAN COWBOY? Conrad Hazer, Drexel U., Shootin' Twain

WHAT IS A BABY BATTLED CHIEF? Rufford Cain, Middle Tenn. State, Shook Cook

WHAT IS A FRANKENSTEIN COSTUME? James Roberts, Holy Cross, Brute Suit

WHAT IS AN HEEFY PILOT? John Lucky, Drexel College, Hangar Banger

Home Purchased By University

Bucknell University has acquired the two-story brick house at 310 South Seventh Street, Lewisburg, formerly the home of Morris Herbat.

The property will be renovated and used eventually for faculty housing, according to John H. Zeller, chief business officer for the University.

New Year Recital Presented Jan. 7th

The first music event of the new year will be a faculty recital by Robert E. Beckman and Darina Tuhy of the Music School faculty. The program will be presented in the First Baptist Church on Tuesday, January 7 at 8:30 p. m. Beckman will perform on the clarinet, flute, saxophone and oboe, and Miss Tuhy will serve as accompanist. Both classical and modern numbers are contained in the program, including works of Brahms, Cimarosa, Puccini, Cavallini, Caminade and Ibert.

INITIATION BANQUET HELD BY HONORARY

The Epilon chapter of Rho Tau Sigma, the National Radio & Television Honorary, initiated 11 new members, Wednesday, December 4. The new initiates are Betty Jones, Linda Grauer, Lois Prete, John Miller, Dave Towson, Jerry Wilson, Ross Petzing, Carole Castaldi, Norma Coyne, and Nan Baker. Marc Grosman was initiated as an honorary member. Those attending the initiation were Mr. Ewing advisors, Mr. Ewing and the present members: Roger Nieman, Jenny Chase, Jake Kessler, Arlene Johnson, Carole Castaldi, Norma Coyne, and Nan Baker. Marc Grosman was initiated as an honorary member. Those attending the initiation were Mr. Ewing advisors, Mr. Ewing and the present members: Roger Nieman, Jenny Chase, Jake Kessler, Arlene Johnson, Carole Castaldi, Norma Coyne, and Nan Baker. CONVOCATION INVITE EXTENDED STUDENTS

On January 8, from 7 to 7:45 p. m., a preliminary instruction and organization session will be held in Vaughan Lin Auditorium. To begin the drive, a Rally and Kick-off meeting will be held on January 12 at 7:30 in Spotts Auditorium.

Christian Association Big Weekend Coming

This year the Christian Association is once again sponsoring the Burns-Bucknell Weekend, which is the fifty-seventh year of independence and it was one hundred years ago that Bucknell had its first Christmas. It has happened to be a Burmese. Many dignitaries will be in attendance to help make this a successful weekend. Among those who will be coming are Justice William O. Douglas, Ambassador T. W. Win, and Miss Elizabeth Shawlow, who is the daughter of the first foreign student at Bucknell. This year there will be a larger number of Burmese students coming from various other colleges in the eastern United States. Due to the larger program there is a greater need for people to work on various committees to make this weekend a success.

Ebersole Speaks At State Jan. 5

Dr. Mark C. Ebersole, University chaplain and associate professor of religion, will speak at the chapel exercises at the Pennsylvania State University during morning, Jan. 5.

Along the Bison Trail

Sports Co-Editors, Bucky Walters, Stratton White

by Stratton S. White

One of the most debated questions in college basketball today is whether or not colleges should adopt some form of the 24 second rule used by the pros. This sets a time limit on shooting; if a team does not shoot within 24 seconds, it loses possession of the ball.

The college game of basketball has come to a point where something must be done to eliminate the farcical, no action type of ball. The present rules permit stalling. Too often the defensive team stands around watching the offensive team and the offensive teams stand around looking at the defensive team. Consequently they are the only ones looking, the spectators are reading newspapers or playing poker or blackjack in the stands. The girls are playing bridge.

Some coaches feel that college ballplayers are not capable of playing a 24 second game and getting good percentage shots off. They feel the players will tense up in the last few seconds and take poor shots. This is a weak argument because statistics show that the majority of the time the ball is shot or will

change hands every 12 seconds. But the minority is hurting basketball. An attempt has been made to do away with the deep freeze. A rule is in effect where if the defensive team does not come out and make an attempt to get the ball, a technical foul will be called against them. And if the offensive team does not make the initial thrust, the referee will take the ball from them and give it to the opposing quintet. It is true that this rule is one step short of the time limit but I don't feel that this rule is enough. The effectiveness of this rule is left to the discretion of the officials.

Some people feel that the time limit ideas on defense will change. They are afraid that the zone defense will be used in every game thus slowing down the sport. They fail to realize, however, that teams are learning more about how to attack the zone because it is so widely used. The more a team moves and cuts against a zone, the less effective the zone becomes.

The time limit is an attempt to make basketball more exciting to the spectator and without him basketball is dead.

I-M Bowling, Basketball Gain More Importance As Season Continues

by Doug Grieg

Intramurals was once again resumed this past week with much activity seen in basketball and bowling. In basketball games the Theta Chi's defeated KDR, 34 to 31. Phi Gamma Delta led by MacDonald with 14 points, defeated DU, 42-18. With Consistent scoring 16 points, the Lambda Chi Alpha's defeated Sigma Phi Epsilon 68 to 45. Matthews of SPE scored 18 points for the leers.

With Herb Kallenberg scoring 16 points, Sigma Alpha Mu was able to edge Phi Lambda Theta, 34 to 33. Phi Kappa Psi romped over TKE, 68 to 16. In other games, Phi Lambda Theta got back on their winning ways by defeating Theta Chi, 38 to 35. Ollie Clowe led the Phi Lam's with 18 points. Sigma Alpha Epsilon, displaying excellent teamwork, defeated Kappa Sigma, 38 to 26.

Sigma Chi defeated SPE, 56 to 20. Kappa Sigma defeated SPE, 50 to 33. With Jelly McLaughlin tossing in 16 points, the SAE's defeated TKE, 49 to 23. Even though Mandakas tossed in 16 points the Sigma Chi's were edged by Lambda Chi Alpha, 31 to 30. In the final game of the week, DU defeated KDR, 42 to 25.

24 EW Wins

In freshman bowling, 234 EW defeated

BOY SCOUTS TO SWIM

Mr. Albert E. Humphreys, director of athletics at Bucknell, announced today that the Freas-Rooke Swimming Pool in Davis Gym will be made available to area Boy Scout groups Thursday, December 26 and Thursday, January 2, from 7 p. m. to 9 p. m. both evenings. The pool will also be open Friday, December 27, from 1 p. m. to 9 p. m. to the families of Bucknell faculty and administrative personnel and to University alumni.

BIGGS HONORED WITH BU COACH OF WEEK TITLE

HAL BIGGS

by Bill Sharkey

This week the Bucknellian sports staff takes great pleasure in announcing Edgar (Hal) Biggs, Ohio State, '48 as "Coach of the Week."

Hal is the trainer for the university and has had an excellent reputation. He started working as a trainer at Ohio State, where he was student assistant athletic trainer.

Served in Army

Hal also served a hitch in the service during World War II for three years and 10 months. The time spent in the service was not futile however. While he was in France Hal met his wife Yvonne.

Came To BU in 1952

Mr. Biggs started work at Bucknell in 1952 as a trainer and he also took on the duties of physical education instructor. Hal is kept busy from September to June looking after the wants of the athletes. He also does a very good job of keeping them in shape. He has patched up so many football players that the fable, "we'll be playing by the grace of Biggs again this Saturday" has been uttered many times.

An Unsung Hero

Whenever you see one of our athletic teams paying you can bet that Hal Biggs is one of the people responsible for them being able to play. We certainly owe a debt of gratitude to this quiet man behind the scenes.

More than 53 cents of each dollar of the net receipts of the 1958 March of Dimes will be spent for care of polio patients. Support the 1958 March of Dimes.

the first week of play is as follows:

Tuesday, January 7
8:00 p. m. 234WV vs. 12AW.
9:00 p. m. Independents vs. 34BW.
Friday, January 10
8:00 p. m. 234WE vs. 34AW.
9:00 p. m. 12BW vs. East College.

Athletes Win Awards For Football, Soccer

The following BU athletes won awards for the fall sports:

Football
Apgar, Charles; Brady, James; Brothers, Jack; Citron, Jay; Cox, Dennis; Eachus, Jack; Errickson, Andrew; Fetterman, Terry; Fitzsimmons, Robert; Forsyth, Douglas;

Frassenei, Rogers; Hart, Lewis; Hettche, Raymond; Hixson, Michael; Holmes, Robert; Humm, Richard; Mathias, Lawrence; Meenan, Eugene; Neely, Bruce; Negron, Charles; Patzwall, Robert; Reilly, William; Salinger, George; Wagner, Charles; Walasek, William; Vernooy, Robert; Mgr.

Soccer
Balta, James; Brown, James; Clark, Thomas; Geisel, Meade; Jackson, Al; Kalbach, Gerald; Lawver, Lee; Mackey, Roger; O'Hara, Lawrence; Oswald, Rudolph; Pederson, Dale; Ponock, Philip; Regan, Frank; Toal, John; Toal, Robert; Trainer, Thomas; Watkins, Grant.

In the last 10 years, fully 2,500 assistive devices have been developed for the disabled, most of them made possible by March of Dimes contributions. Give again to the 1958 March of Dimes to make still more lives worth living.

Herd Loses To Temple; Guy Excels For Owls, Bones, Flanagan For BU

by Bill Scott

The Temple University quintet, led by its versatile guard, Guy Rodgers, lived up to advance notices last Saturday night as the Owls easily defeated an outmanned Bucknell team, 75-59, before a cheering crowd of 3,000 spectators at Davis Gym.

Temple Takes Early Lead

Temple, which entered the contest with a two game losing streak, hit on its first three shots from the floor as Rodgers led an amazingly quick fast break and fed John Kennedy with an accurate behind the back pass. The bewildered Bison quintet managed only three foul shots in the first four minutes as the Temple squad ran its lead to 16-3. Rodgers continued his one man assault as the Owls took an 18-3 lead before guard Jack Flanagan hit two push shots to close the gap to 18-7.

Danig Leaves Game Early

Bucknell center Hal Danzig, who was bothered by a painful charley-horse, left the game after only eight minutes had elapsed with four personal fols against him. This left only one tall Bucknell player, Bob Erickson, to battle Jay Norman and 6-8 Tink Van Patton for the rebounds. The Owls continued their potent offensive surge which carried them to a 48-26 lead at halftime.

Bisons Play Better

Bucknell Coach Ben Kribbs, striving to find a more sound combination than the one which had started the contest, substituted sophomore guard Bob Thompson and the seldom used co-captain, Skip Wieder, at the start of the second half. With Flanagan and forward Ellis Harley scoring in rapid succession the Orange and Blue matched the visiting school offensively for the first six minutes. The Owls ran their lead to 59-41.

Rodgers Lost To Owls

Rodgers suffered a cut in his right eye after ten minutes had gone in

the half and he received a tremendous ovation as he was helped from the floor. The Rodgersless Owls proved much less effective without their leader and the Bisons rallied against the Temple reserves to close the lead to 68-50 and finally to the final count of 75-59.

Rodgers brought groans of amazement from the crowd on many occasions with his excellent passing, fine inside shooting, and rebounding skills. The improved rebounding job by Erickson and the exciting 23 point performance by Flanagan provided some consolation to the disappointed Bucknell fans.

The National Foundation for Infantile Paralysis says that one in three of those already hit by paralytic polio can benefit today by new methods of rehabilitation. Help make that possible by giving to the 1958 March of Dimes.

Swimmers Impressive In Drill; Latour Eyes Successful Season With Vets and Talented Sophs

by Gene Meenan

Every Tuesday and Thursday the swimming team has a group practice during which time Coach Latour works on the starts and the turns of the squad. During the rest of the week the work is posted and varies from day to day. Each week, however, the workouts are becoming a little longer because the beginning of the season is just around the corner.

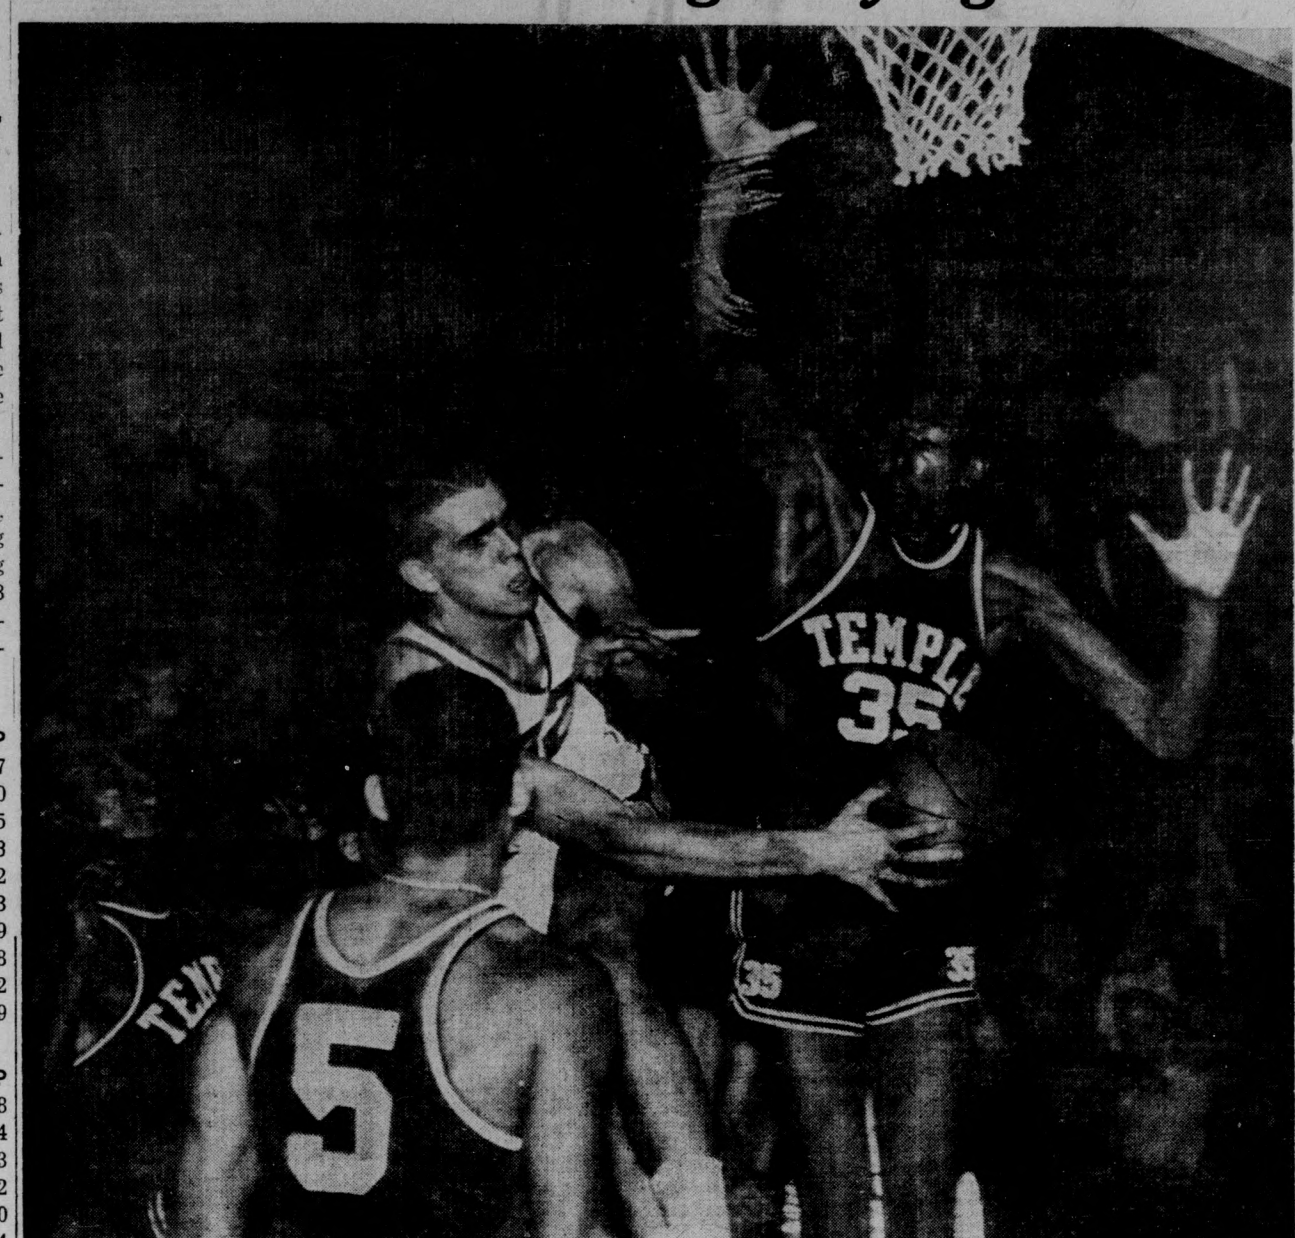

With the entire squad back this year along with some promising sophomores, a strong nucleus is on hand, therefore Coach Latour is anticipating a top notch season. He is especially looking forward to the meet with Franklin and Marshall, the team's first home meet, which gave the tank men the worst beating they absorbed last year. Both Coach Latour and the members of the squad feel that this year could be the best

ginning of many winning swimming teams in years to come.

There was supposed to be a practice swimming meet last Saturday, but it was called off so Friday time trials were held instead. The outcome of these trials has convinced the squad that more hard work could very well mean that the opponents are going to be rather sad that Bucknell has a swimming team. The optimism shown by the squad is something new and the way they are working each day and the plans they are making to work over vacation, looks as though it will pay off come January 11.

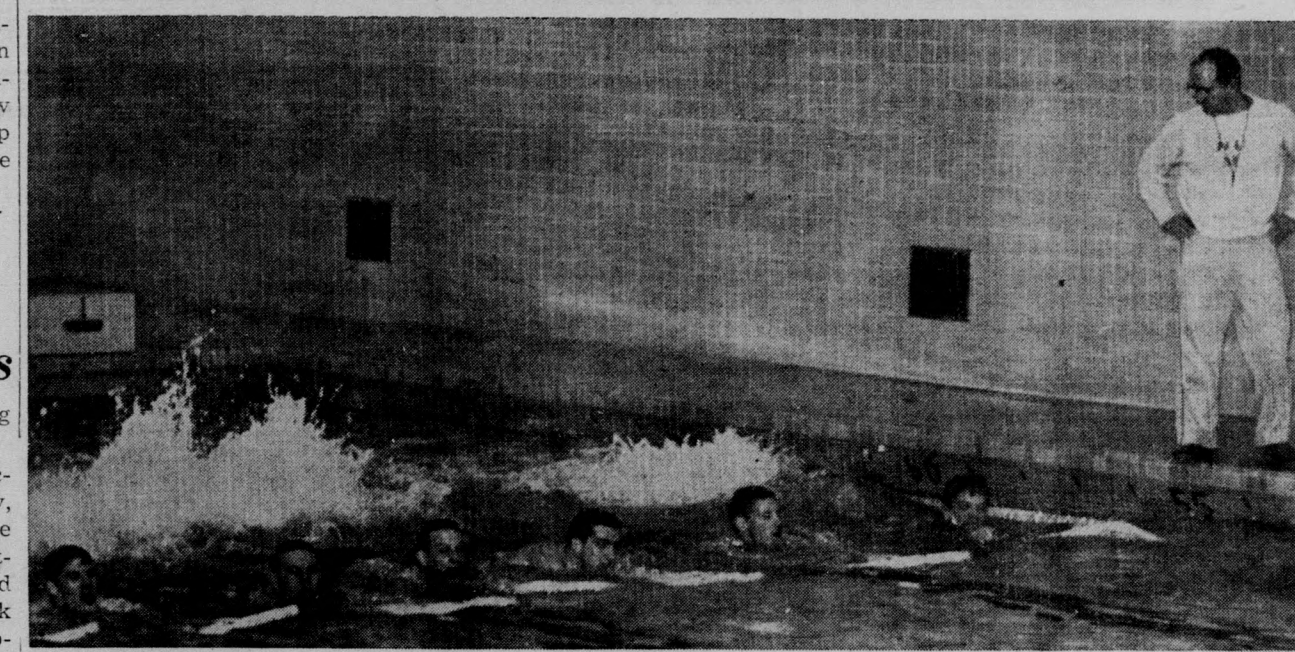

Co-captains Bill Barrett and Bruce Hutchinson along with Doug Forsyth, Bob Buys and Kent Smith are some of the members of the squad who will be bringing home a large share of the points this season.

Bison Battles High Flying Owl

Ellis Harley attempts to drive through three of Temple's quintet. Ophie Franklin (35) leaps high in the air to block the shot as Jay Norman and All American Guy Rodgers (5) look on.

SWIMMERS MAKE BIG SPLASH IN PRACTICE

Coach Bob Latour intently supervises his swimmers as they do several laps in the Freas-Rooke pool in preparation for their opening meet, January 11.

Coach Ben Kribbs and his eleven man Bucknell University basketball team left Harrisburg yesterday afternoon by plane for Charlotte, North Carolina where the team will engage in the first major tournament in the history of Bucknell.

The Bisons, who met Tennessee in the opening game of the third Annual Carrousel Basketball Classic today at 2 p. m., brought a three win two loss record into this contest against the highly regarded Volunteers.

Danig Leads BU

Hal Danzig, Ellis Harley and Jack Flanagan will be expected to bear the brunt of the Bison's offensive attack. Danzig has averaged 16 points a game in the five games so far while Harley has contributed 154 points and Flanagan 142. Danzig also leads the team in rebounds with a 133 total thus far. Expected to complete the Orange and Blue line-up were Tommy Thompson and Bob Erickson.

Tennessee Title Contender

In Tennessee the Herd will be opposing a team which is ranked high among the contenders for the tough Southeastern Conference title. The Volunteers, coached by Emmett Lowery, feature a well-balanced team which is led by 6-7 Gene Tomohlen and ably assisted by two sharpshooting guards, Leon Ammerman and Don Bingham.

Final on Saturday Night

The winner of this clash is scheduled to meet the victor in the Louisiana Tech-Davidson game in Friday night's semi-final round. Other opening game struggles will pit Alabama against Clemson and Lafayette vs. Louisiana State. The Carrousel champion will be crowned on Saturday night.

The Bisons, which will engage in three tournament games, will return to Lewisburg on Sunday morning.

JUMP SHOT STAR IS BISON OF WEEK

HENRY J. FLANAGAN

Henry Jackson "Jump" Flanagan, from Lansdowne, Pa., is this week's Bison of the Week. Jack attended Upper Darby High School and prep-ed at Mercersburg where he played basketball and baseball.

Jack has averaged 15 points per game this year. His one hand jump shot continually kept Bucknell alive against the Temple Owls. Jack scored 23 points against Temple, one less than Temple's All American, Guy Rodgers. Kribbs regards Jack as the team's best ball handler and one of his most consistent players. Jack thinks the team has a good chance of winning the Carrousel Tourney and we all wish the team good luck. Almost any weekend the Upper Darby express can be spotted on the turnpike heading south. But during the season this is cut down to Sundays. Jack is the only person I know who has a season ticket on the turnpike. In the off season he spends most of his time in the sack and holds the Phi Gam house record for the most consecutive hours of Z's.

Henry is majoring in economics and psychology and when he graduates is planning to go into personnel and management.

Christmas Present Given To Students

by Jim Chapman

With the Christmas season coming on and the New Year not very far off, we all begin to think about what resolutions we will make to start the New Year. Christmas and the holidays mean parties, presents and beautiful decorations in a myriad of colors to most returning college students and Bucknellians are no exception. We all look forward to going home and know that wherever home may be, it is the best place in the world.

At the top of every list of New Year's resolutions I suggest this—appreciation for our college and all the people that make it function. The friendly, three hundred is only as friendly as the students that live on them, but instead of friendliness and pride there exists an atmosphere of discontent at Bucknell. The easiest thing in the world to do is to complain, and the many printed and unprinted words that flow around us exemplify this.

Criticism is healthy, but when it is all derogatory it becomes like a fast spreading germ; easy to acquire and hard to eliminate. We at Bucknell are very fortunate for many reasons. We are being exposed to a degree of education that many people would give their left arm for, but we seem to have acquired the feeling that the world owes us the chance to attend college. When you are home over the vacation, I suggest that you look around a bit and you will realize how lucky you are to be at Bucknell instead of collecting garbage, running gas pumps or waiting away like many of the people in your community that never went to college.

A great many of us are here because our parents have saved all they could to send us here. In return we owe it to them to be as appreciative and thankful of our chance to attend Bucknell as we know how.

One of the biggest complaints is that the administration and the faculty have no personal interest in the students and that it is always doing everything wrong. From listening to some of the conversation that goes on, I've come to the conclusion that there are more administrative experts here than anywhere else in the country. However, instead of voicing some of their complaints and trying to remedy the situation, these habitual complainers only go as far as the grumbling stage, and never have any ideas as to how to improve.

As far as personal interest in the students on the part of the faculty and administration is concerned, we all must keep one important thing in mind. Every one of the instructors at Bucknell is human, and although they all react differently to different situations, they all are teachers and consequently have but one desire; to teach and help anybody that needs help. Not a one of them would refuse to give you help if you needed it. But they won't come to you, you must go to them. All they ask is that you show a little interest.

When we go home this vacation, let's boast of our college like everybody else does of his. The grass is just as green on this side as on the other side of the fence.

THE GREEK LINE

Delta Upsilon — The Christmas Formal was held on Friday night with music by Johnny Nickolosi and his orchestra. On Saturday evening The Jones Boys provided riotous entertainment. They featured the Neandathral Trio followed by impersonations of popular entertainers and climaxed by weird apparitions chasing the brothers' dates. The weekend came to a close when the DU's and the DZ's held a big Christmas party for the third grade of the South Ward School on Sunday afternoon. Charlie "Santa" Negron had a wonderful day passing out gifts to the kiddies. Eric and his date would like to thank the chapter for their kind hospitality.

Phi Lambda Theta — The Phi Lambda's recently elected new officers. They are: Clyde Bailey, president; William Shough, vice president; Gary Munkell, marshal; Ralph Strader, secretary; and Roger Noble, historian.

Alpha Sigma Alpha — This noble has been an active one for the Alpha Sigs. Friday afternoon they had a Christmas party for 16 kindergarten children from the South Ward School. Each child received a gift and candy came before leaving. Sunday morning Alpha Sigma Alpha had formal initiation and activated their four pledges. An initiation breakfast was held immediately afterward at the Hotel Lewisburg. Audrey Walker, who spent her junior year studying in Scotland, presented a cultural talk to the group Monday evening and showed slides of her trip. At the traditional Christmas party in the suite Wednesday evening, Mrs. Eicher, the chapter advisor, played a jolly accompaniment to the Christmas party.

Delta Zeta — On Sunday afternoon the DZ's, together with the DU's, held a Christmas party for the third grades of Lewisburg's South Ward School. Musical chairs, pin the nose on Rudolph and a peanut hunt provided fun and prizes for the children. Upon receiving his Christmas gift from Santa, each child had to sing a song for the others. The DZ's had their own Christmas party Tuesday night in the suite. Gifts and appropriate poems were exchanged among the girls.

Delta Delta Delta — The Tri Deltas and SAE's gave a Christmas party for the second graders of the South Ward School last Saturday afternoon. In addition to games played by only the children, there was a

Behind The Mike

by Jenny and Joel

This week we thought we would introduce to you the two people behind the Mike for "This Is Music" on Monday nights: Carole Castaldi and John Kelley. Carole, who is a Junior, and John, senior, both hail from the east coast. Carole lives in Flushing, New York, and John in Atlantic City, New Jersey. Every Monday night from 10:00 to 11:30, they combine their talents to play and discuss for you some of your favorite classical music.

Kappa Delta — Kappa Deltas this week held three joint children's parties with the Sammis, Phi Gams and Kappa Sigs. A tea was also given for the patronesses who later were escorted to hear "The Messiah." KD's celebrated their own Christmas party in the suite by exchanging nonsensical gifts accompanied by funny poems and big and little sister gifts, distributed by Santa.

Kappa Kappa Gamma — Last Saturday the Kappas held a cozy Christmas and prepared a Christmas basket for the orphanage.

Alpha Chi Omega — These three weeks previous to Christmas vacation have probably been the busiest of the semester for the Alpha Chi's. Our Thanksgiving Basket project, Nan Baker's initiation, and a pizza party in the suite were climaxed by Thanksgiving vacation; then we returned to the rushing tides, a slumber party in the suite and the volleyball tournament. Recently we enjoyed the Christmas party with the Sigma Chi's and the second and third grades from Lintown School, our patroness dinner at the University Cafeteria followed by entertainment in the suite, and the Christmas party including a visit by Santa Claus. Our last service project for 1957 will consist of sending packages of old clothing to an orphanage in Germany.

Alpha Psi — The Alpha Psi's gave a Christmas party for the children at the North Ward kindergarten on Saturday afternoon. The chapter accompanied their patronesses to the "Messiah" on Sunday evening. After the concert they all went to Sister Senorita Gonzalez's apartment for a party. They had their chapter Christmas party Tuesday night at which they exchanged presents, sang carols and ate the refreshments.

Pi Beta Phi — The weeks before Christmas have been busy ones filled with social activities and service projects. Last Friday the Phi Gamma Psi's beautiful Christmas tree. On Thursday we and the Phi Psi's, our brother fraternity, held a party for the children of the Sun-

FROSH NEWS EXPLAINED

by Jody Smith

1. The girls of room 103 Carey were co-hostesses recently at an "Open Room" given by the girls of first floor for the girls of second and third. Skimmed milk and Eys Krisp were served. The fire warden and assistant fire warden poured.
2. The "Inter-Swartz Hall Committee on Everything in General" and the "Pan-Sem Underground" are building a float (for nothing in particular).
3. Results of a recent poll conducted on third Bucknell Cottage by the "Procrastinators Anonymous League" of first Cottage reveal that seven out of every ten co-eds agree that red rugs are impractical.
4. Two "teed off" coeds from Carey and Bucknell Cottage have a bone to pick with the gentlemen of the "Gear-Benders Club" of 4A.
5. '81 wants to know what's happened to the '61 gun-ho boys from 3B.
6. The project for this week at Stephens House will be to redecorate the johns. The color scheme will be pale chartreuse "to brighten up those 'Blue Mondays'." The girls are saving green stamps in order to purchase five sets of pink mother of pearl john seats "for added spice".
7. The Pan-Sem Knitting Club will meet tonight in Larson living room. Bring needles.
8. Moustache wax has been found 67 percent effective by the girls of Edwards for holding "That Certain Smile" at those famous teas.
9. "New Orleans" the gift to 3rd Carey and the Flower of the Carey Social World" would like to thank Social World.

(Continued on Page 8)

PROF-FILE

by Jim Chapman

Among the many new professors that Bucknell has acquired is this week's Prof-File subject, Dr. Peter S. Signell. Dr. Signell is presently residing at 103 Faculty Court with his wife and two year old boy, and can be found spending his seldom found leisure reading and learning all he can about photography, that is when he isn't out hiking.

Dr. Signell holds his Master of Science and Ph. D. degrees from the University of Rochester. Ask him sometime about his M. S.—it makes for a very interesting story. Before Dr. Signell came to Bucknell, he taught "off and on," as he put it, at the University of Rochester. An instructor in the physics department, Dr. Signell spends his classroom hours teaching elementary physics, a course very similar to the one he taught at Rochester.

A theorist entirely, Dr. Signell has recently completed and submitted for publication a paper concerning the research and development of a nuclear force law. He is presently working on a force law for hypertrons, a "strange particle" according to the Dr. that has been discovered in the nucleus of the atom.

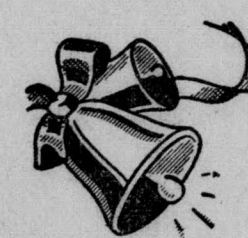

Welcome, Dr. Signell, to Bucknell. It's good to have you aboard.

Wishes You

A Merry Christmas

and

A Happy New Year

SURE, THE LAST EXAM IS OVER BUT NOW THE REAL TEST BEGINS

by Shirley Cook

Are we ready to go? Okay — non-stop flight to the Friendly! Am I glad to get out of here! That last test was a beaut—four in the last week! Let's beat it! And here it is. The Friendly. Anyone for a little liquid refreshment? We need a little Christmas cheer!

Well, here we go—only an hour later—Should be home in about four hours. Think I'll dose for awhile. Too much talking going on—might as well day-dream to pass the time away.

It's my last Christmas vacation—senior year—hard to believe. Time has really flown fast. Sometimes it's been so hectic I thought I would go nuts. There's been so much fun mixed in, though—makes up for all the busy work.

Whew! He really skidded too close to that wall for comfort. Just how much did he have at the Friendly? No wonder everyone sighed with relief even if they are laughing about it.

Funny how you think about

things. That tree on my eighth birthday for instance. When I close my eyes it is just as clear as the first time I saw it. It was gold with red lights and beautiful, shimmering, fragile balls hung from its gilded limbs. It was a child's idea of Christmas perfection; a wonderful fairyland tree that has always been typical of the magic of Christmas.

That year under the tree was a huge red package "from Santa Claus" which had put the perfect topping on my excited joy. Ever since that year there had been a red-wrapped package for my one special gift. Wonder what it is this year. It doesn't really matter what's inside—it just seems to add that sentimental touch that makes Christmas perfect.

Something's wrong! Blinding lights in my face—searing pain in my side. Pain—I want to scream but I can only lie there 20 minutes! An hour! A year? Christmas tree lights? Red ones? Whirling in circles. A thin keening wail. No, it can't be Christmas. Oh yes—there is my big red-wrapped package—bigger this year than ever before... on wheels...

SATCH PERFORMS

by Sally Anderson

On January 9, 1958, IFC and Pan-Hell will sponsor Louis Armstrong, the Ambassador of Jazz. Tickets for the jazz concert, to be held in Davis Gym at 8:30, are ONLY \$3.00 per person.

Featured with Mr. Armstrong are Velma Middleton, blues singer; Trummy Young, trumpet player; Edmond Hall, clarinetist; Billy Kyle, on piano; Barret Dums, drummer, and Squire Gersh, on bass. Louis Armstrong is unique; he surpasses all other trumpet players. He performs with power and ease, playing his theme simply, modifying it here and there with just the right touch. He has a great technique. He swings as much when he sings as when he sounds his golden horn.

Louis Armstrong has influenced the whole world of jazz. Without

his style the jazz of today would have probably evolved in a different manner. His technique not only influenced trumpet players and singers but saxophone and even piano players.

The Ambassador of Jazz holds his audience in a dead silence listening to his tremendous tone and quality. Satchmo says, "When you play jazz you don't lie, you play from your heart." He once described jazz as a "lazy summer afternoon... it's the girls you love... it's boiling honey... it's Tchaikovsky's Sixth... and it's spinach."

Richard M. Jones summed it all up when he said, "As long as those pearly white teeth hold out, Louis will still be playing something new, and all the others will be running after him trying to catch up".

First Semester Rushing Studied By Panhellenic

by Barbara Krausz

A committee in Panhellenic Council is considering the possibility of first semester rushing for women students at Bucknell. It seems to me that there are many arguments, both pro and con, in relation to this issue.

One important aspect that must never be overlooked is the necessity of sorority women and freshmen becoming well-acquainted. Under the present system, women students meet each other only in the dining hall, in classes, and through dating and activities. Even in a whole semester, it is sometimes difficult to meet as many people as one would like. Would there be adequate time if there were first semester rushing?

Another argument against the plan is that freshmen would be faced with too many things at once. During first semester most freshmen have to make an adjustment to the newness of campus life. And, facing the problem of sororities at this time might be too difficult.

But there are also some considerations on the pro side. The semi-separation of freshman and sorority women is an artificial situation which should not endure for a whole semester. Many people feel that freshman and sorority women do not really get to know one another well during the semester anyway. Why drag out, therefore, the rushing time?

Also, many sorority women would like to spend more time together as a group instead of directing a major portion of their time during the whole first semester to membership. This way, half of the four years possible for sorority participation are relegated to only one activity.

I'm sure that there are other aspects of the issue to be discussed before the problem can be resolved. These considerations, however, seem to me to be the most necessary to be thought through to a just, logical conclusion.

PASS IN REVIEW

by William Meister

Winter has prevented efforts to hold any more outdoor common hours until at least after Christmas vacation, but the cold didn't prevent Bucknell's Rifle team from avenging their previous defeat at the hands of Dickinson. The score was 1942 to 1938, and individual scores were as follows: Phil Hunter, 265; Bruce Taylor, 272; Harvey Berk, 230; Rife and Hartman, 261; Edward Front, 284.

Last Monday Bucknell fired the W. R. Hearst Annual R. O. T. C. National postal match. The best Army, Navy, and Air Force R. O. T. C. rifle team in the country receives a trophy. We only know our results at this time, of course. We scored 929 out of a possible 1000 points. Individual scores were: Phil Hunter, 188; Winthrop Wilcox, 187; Bruce Taylor, 187; Dick Hartman, 184; and Harvey Berk, 182. Let us hope that Bucknell has ranked well up near the top of the list, at least.

This year, Bucknell had the honor of having all of its applicants for Regular Army Commissions accepted. This select group of seniors is certainly to be congratulated. Each of them must decide whether to accept his commission before graduation in June. Upon accepting their commission, they are obliged to serve at least three years, after which period any Regular Army officer may resign his commission when he sees fit to do so.

The following cadets received acceptance of their applications: Kenneth Boyer; Ralph Eckert; Alfred Grander; Karl Klose; Richard Kolsch; William Meider; Phillip Nerhod; Donald Seidel; Robert Todd; Robert Todd. Each of these men received his first choice in the branch of the Army in which he wishes to serve. All of the men who accept this commission will have to go through either Ranger or Parachute training upon completion of their branch Basic Officer's Training. The majority of those involved seem to favor Parachute Training at this time.

The 1953 Military Ball should be the biggest Bucknell dance ever. It will feature the music of Richard Maltby and his orchestra, decorations by sororities and fraternities, new uniforms, sabres, favors for the girls, free refreshments, announcing of Cadet officers, coronation of the Queen, a Grand March, and a SURPRISE FINISH. Don't miss it!

Last week, Bucknell's Pershing Rifles Company received a Battalion Inspection. While the results are not known as yet, Lt. Seabourne says that a favorable impression seems to have been made. Have a wonderful vacation, see you in 1958!

A MERRY CHRISTMAS
AND A HAPPY NEW YEAR

SCIENCE CONFERENCE
TO BE HELD APRIL

The twelfth annual College Science Conference will be held at Wilkes-Barre, Pennsylvania on April 18 and 19, 1958. This year, the fine program will include exhibits, student papers and lectures given by prominent scientists in the fields of biology, chemistry, geology, mathematics, physics and psychology.

Among the planned activities will be tours, conferences and various social events. The main purpose of such meetings is to promote undergraduate research in natural sciences; this goal is fostered by offering the students an opportunity to report on their individual projects. This program encourages an exchange of ideas, and provides invaluable experience and necessary training.

The Executive Committee is headed by Barry M. Miller, and any interested student may obtain further information through his office or the science department here.

worthy of such action. Winners were:

First prize of \$25—Norma Coyle
Second prize of \$10—Gerald Yorko
All prize winning material will be published in the January issue of *Touche* with the exception of Dunc Polson's *Observations* which will appear in a later issue.

The staff of *Touche* wishes to thank the judges of the contest, Messrs. Shapiro, Patten, and Guert, not, instructors in the English department, for the time they spent in judging the material submitted.

In closing, *Touche* would like to announce that another Short Story Contest along with a Poetry Contest will take place after the second semester begins, details of which will be announced then.

... Military Ball

(Continued from Page 1)

The gymnasium will be decorated to suit the occasion. Decorations depicting the insignias of many of the different branches of the Army will be made by the fraternities and sororities. Other highlights of the festive affair include the dance for the young ladies and free refreshments.

A new look will be featured at the Military Ball as many of the male escorts will be wearing new uniforms, complete with salutes. There will also be an announcing of the cadet officers at the entrance to the dance.

The Military Ball still boasts another attraction—watch for the SURPRISE ENDING at the dance!

For best results, fruit should be not quite ripe when bottled.

—DRIVE WITH CARE—

Faculty Club
Induct Three

Three members of the Bucknell faculty and one member of the coaching staff were inducted recently into the Twenty-Five Year Club composed of men and women who have served the University for at least a quarter of a century.

President Merle M. Odgers presented special lapel pins emblematic of membership in the Club to Dr. Adolf I. Frantz, professor of German; Dr. James A. Gathings, professor of political science; Charles F. Stickney, associate professor physics; and Harold Evans, coach of the Bucknell golf team.

Since the Club was inaugurated by Dr. Odgers two years ago, 76 men and women, representing the Board of Trustees, faculty, administration, and maintenance staff have been made members of the Club. Of this number, 52 are still actively serving Bucknell.

Polak Speech Topic
'Earth Satellites'

Emil J. Polak, associate professor of mathematics and astronomy at Bucknell University, addressed the Emporium section of the Institute of Radio Engineers Tuesday evening on "Earth Satellites".

Professor Polak's talk was a highlight of the Engineers' Annual Ladies Night dinner held at the Hotel Warner at Emporium. The Bucknell teacher explained the nomenclature of satellites and their orbits and also discussed the laws of planetary motion and how they apply to satellites and the paths they travel.

In closing, *Touche* would like to announce that another Short Story Contest along with a Poetry Contest will take place after the second semester begins, details of which will be announced then.

A MERRY CHRISTMAS
AND A HAPPY NEW YEAR

Dr. Townsend Smith
Addresses Honorary

Bucknell's chapter of Sigma Pi Sigma, national physics honorary fraternity, heard Dr. T. Townsend Smith at its dinner meeting, December 12.

Dr. Smith's address, a reminiscence of the progress in physics since the introduction of the tungsten filament in the incandescent bulb, included a discussion of early concepts of the atom as opposed to what is known of it today.

Four new members taken into the honorary, which honors accomplishment in physics are: Dr. Peter Sigel, of the physics department; William Beck, of the department of mathematics; Donald Walters, a graduate student; and William Letzig of the senior class.

Officers of Sigma Pi Sigma include: Oreste Digiondomenico, president; James Herb, vice president; and Jacqueline Zinn, secretary. Professor Charles Stickney is the group's advisor.

NEW YEAR CHAPEL
TO HEAR CRANFORD

Dr. Clarence W. Cranford will speak at Chapel on January 3. Dr. Cranford is known to thousands of people over the nation because of his outstanding record as a Baptist minister, a youth leader, author of *Seekers of Light*, and a community leader.

Dr. Cranford is familiar with the Bucknell campus as he received his A. B. and a D. D. here. He also studied at the Crozer Seminary from which he received a B. D.

Dr. Cranford was recently elected President of the American Baptist Convention.

SENIOR BUCKNELLIAN
WINS CASH PRIZE

Homer W. Wieder, Jr., Bucknell University senior from Plainfield, N. J., has been awarded a certificate of merit and the sum of \$100 by a national committee of the Kappa Sigma fraternity.

The award was made in recognition of outstanding qualities of scholarship and leadership as embodied in Wieder's exemplary accomplishments throughout his undergraduate career.

A graduate of Plainfield High School, Wieder has played a prominent role in a variety of activities at Bucknell, where he is co-captain of the varsity basketball team, commanding officer of one of the R. O. T. C. battalions, and president of Alpha Phi chapter of Kappa Sigma.

ENGINEERING ADVISORY
COMMITTEE ATTEND
ANNUAL MEETING

Eight members of the Engineering Advisory Committee for Bucknell University attended the annual meeting of that body held in the Engineering Building on the campus during the past weekend.

Included in the group of visiting engineers were James E. Axeman, president of the Axeman-Anderson Company, Williamsport; Admiral E. L. Cochran, vice president of Massachusetts Institute of Technology; Admiral Earle W. Mills, president of Foster Wheeler Corporation; Admiral L. B. Richardson, senior vice president for engineering, General Dynamics Corporation; and Rear Ad-

miral Ernest M. Eller, director of naval history for the U. S. Navy and former director of engineering at Bucknell.

NUMBER 14

Greeks Sponsor Ambassador of Jazz

Louis Armstrong and his All-Stars arrive here tonight to wail cool music in the Davis Gym. Included in his group are Billy Kyle at the piano, Barrett Deems on drums, Crummy Young on trombone, Squire Cresh on bass, Edmond Hall on clarinet, and Velma Middleton is the vocalist.

DUPONT GRANT GIVEN TO CHEM DEPARTMENT

Bucknell University's excellent record in chemical education has brought to the college a grant of \$4,000 from Du Pont as part of that company's program to strengthen the education of scientists and engineers.

Bucknell has received Du Pont grants of varying amounts for the past four years.

The grant just announced consists of \$2,500 for chemistry teaching and \$1,500 for other courses. The funds for chemistry are to be used by the institution in ways calculated to advance most effectively instruction in the subject and to stimulate interest in it. The additional funds may be similarly used to strengthen the teaching of other subjects that contribute importantly to the education of scientists and engineers.

Bucknell is one of 73 liberal arts colleges to which grants were awarded by Du Pont on the basis of their records in the education of chemists.

Modern Paintings Exhibited At BU

A group exhibition of paintings and prints from the York Pennsylvania Art Center and the York Art Club will hang in Roberts Hall at Bucknell University from January 12 to January 26.

Many diverse techniques and styles will be presented by artists who exhibit in the York area. Some artists with national reputations such as Stephen Etnier and C. X. Carlson are included.

A discussion of contemporary art will be led at the opening of the exhibition Sunday at 3:30 o'clock by Professor I. Quailly. Mr. Quailly is chairman of the Art Department at Gettysburg College and well known as an artist and lecturer.

LOST—Man's Elgin wrist watch with brown band. If found, call Butch Nielsen, JA 3-3431.

BU BEATS DAVIDSON, TAKES SIXTH IN CARROUSEL TOURNAMENT AFTER BOWING TWICE

by Bill Scott

The Bucknell varsity basketball team evened its season's record at 4-4 by absorbing two losses and one victory at the Third Annual Carrousel Tournament held at Charlotte, North Carolina from December 19-21. The Bisons finished sixth in the eight team tournament which was won by the University of Alabama.

Vols Top Bisons

The Volunteers from Tennessee administered the initial setback to the Bisons by trouncing the smaller Orange and Blue, 89-71. The Tennessee team rallied after the Herd had taken a 8-0 lead to go ahead by 42-37 at halftime. Gene Tormokien, the 6-7 center for the Vols, coaxed Bucknell center Hal Danzig into four early fouls and the southern squad took advantage of their extra rebounding to pull away from the Bisons in the second half. Tormokien scored 25 points and gathered 19 rebounds while Danzig, although benched much of the second half, led the Herd with 17.

BU Beats Davidson

The Bisons rebounded from their opening game loss to score an unimpressive 68-58 decision over a weak Davidson quintet which has lost nine Carrousel games in a row. The North Carolina team took an early lead of 17-13 and held the lead to intermission when they led by 32-26. Bucknell, led by Danzig, guard Jack Flanagan, and forward Ellis Harley, stormed back to easily top the undermanned Davidson team in the second half. Dave Hollingsworth led Davidson with 18 markers while Danzig hit for 23 to lead the Bucknell team.

Clemson Nips Bisons

Four thousand fans in the beautiful arena were treated to the best brand of basketball which the BU Bisons have displayed this season in the game which saw Clemson beat Bucknell, 71-66. The Tigers took an early lead with the aid of some fantastic shooting in the first half which saw the Clemson team hit on 22 of 32 shots or 68.8 percent. The Bisons attempted merely to stay within range of the scorching Tigers

but the score at halftime read 49-34. Ed Brinkley, a fine Clemson guard hit on eight jump shots in a row during the opening half while Vince Yockel contributed 12 points to the bulge at intermission. The Herd was guilty of a lack of hustle which appears to have lost them the game. During the last half the basketball was some of the best of the entire tournament as Jack Flanagan and John Strizzi scampared all over the court stealing passes and setting up Danzig, Harley, and Bob Ericsson. The Bisons closed the gap to three points with only two minutes left in the game but the Tigers made two foul shots and Yockel hit on a jump shot to keep his team on top. Harley led the Bisons with 19 points while Ericsson, who played his best game of the year, scored 14 and Danzig added 13. Yockel and Brinkley led Clemson with 21 and 18 points, respectively.

This year, the Religion-in-Life Program has been extended to cover the entire year, rather than being concentrated in a single week. Miss Atkeson is the third resident leader brought here by the RILP during the 1957-58 college year.

Atkeson Announced As Resident Leader

January 12 through 16 will mark the campus stay of the third Religion-in-Life resident leader. Barbara Atkeson, student secretary for the Board of Education of the American Baptist Convention, is not a stranger to Bucknell, having served as a resident leader last year.

Miss Atkeson is a graduate of Carrol College and received her M. A. in English literature from the University of Wisconsin. She has recently returned from a stay in the Far East where she traveled on a mission to students there.

While at Bucknell, Miss Atkeson will be available for individual and group conferences. Her various group conferences will begin on January 12 at 7:30 p. m. in Spotts Auditorium when Miss Atkeson will serve as speaker for the Rally and Kick-off session of the Annual World University Service Campaign.

This year, the Religion-in-Life Program has been extended to cover the entire year, rather than being concentrated in a single week. Miss Atkeson is the third resident leader brought here by the RILP during the 1957-58 college year.

Brown To Give Merck Lecture

Dr. Malcolm L. Brown, speaker for the Merck Lecture Series, will discuss the "Roll of the Technical Man in Production" in the Olin Science building on January 15. Dr. Brown, an employee of Merck & Company, received his Ph. D. from M. I. T. in 1944.

"Guns instead of butter" they keep telling us, just as though both came from cows.

This was the year when they gave toy locomotives to children who had never seen a real one.

FARRELL LECTURES

Henry C. Farrell, instructor in Physics, spoke recently at a combined meeting of the Physics and Math Clubs on the topic "Empirical Formulas". The Physics and Math Clubs are sponsored by the honoraries of those groups. Sigma Pi Sigma is the Physics honorary. The Mathematics society is Pi Mu Epsilon.

Botany Club Open House
Botany Club held an open house last Friday, January 3, at which a hundred people from the surrounding area attended.

'SATCHMO' FEATURED IN JAZZ CONCERT TONIGHT AT DAVIS

Daniel Louis 'Satchmo' Armstrong was born on July 4, 1900 in a back-of-town section of New Orleans. His parents separated when Louis was five and he went to live with his mother and great-grandmother near Liberty and Perdido Streets in New Orleans. Louis spent a great deal of time singing with a gang of boys along the Mississippi River docks. A quartet was formed; Louis sang and played a four string guitar made from a cigar box, copper wire, and a piece of flat wood for the neck. Whenever he could, Louis would sneak into the Dago 'Tony Honk' where his hero, Bunk Jones, played the coronet. By the time Louis was eleven, Bunk had taught him to play by ear.

At fourteen he was still too young to get a job as a full time musician; however, whenever possible he picked up a job in one of the 'gin-mills' for a dollar a night. Frequently he would visit the cabaret where 'King' Oliver played. By 1917 Armstrong was taking Oliver's place in occasional engagements with 'Kid' Ory's Band. When Oliver left for Chicago, Louis got the job with Ory on a full time basis.

In 1920 and 1921 Louis went on 2000 mile summer cruises on the Mississippi River excursion boat 'Dixie Belle'. Upon his return from the second cruise, Armstrong got a job at the Orchard Cabaret in New Orleans at a salary of \$21 per week. He also worked for a while at Tom Anderson's Cabaret, The Real Thing. By this time he was already composing tunes, one of which, 'I Wish I Could Shimmy Like My Sister Kate', he sold for \$50.

In 1922 Louis played with 'King' Oliver in Chicago for a short time; it was during this time that he made his first records. He played with Ollie Powers at Dreamland as first trumpet for a short period. In October 1924 he joined Fletcher Henderson at Roseland Ballroom in New York.

Upon his return to Chicago in November 1925 he played with Lil Hardin's 'Dreamland' Syncopators and was billed at the 'World's Greatest Jazz Coronetist'. A month later he went to Sunset Cabaret where he organized his own band for the first time. Shortly after the band was organized they were making recordings as Louis Armstrong's Hot Five (later, Hot Seven). It was at about this time that Louis gave up the coronet in favor of the trumpet. His fame as a trumpet player spread quickly.

(Continued on Page 4)

Wilbert Snow, Poet, To Lecture Jan. 16

Wilbert Snow, one of New England's best known poets and educators, will visit Bucknell University Thursday evening, January 16, to present "A Reading of Original Poetry With Comments on the Art".

Mr. Snow's lecture, which will be presented at 8 o'clock in the Olin Science Building, will be sponsored by the University as part of its program to bring to the campus outstanding personalities in the arts and sciences. The public is invited to enjoy this special event for which there will be no admission charge.

A native of Maine, Wilbert Snow has attained distinction in three fields: education, literature, and politics. For 31 years a teacher of English at Wesleyan University, he has written numerous books of verse and has served his adopted state of Connecticut as lieutenant governor for three years and governor for two weeks.

Before joining the Wesleyan faculty in 1921, he taught at New York University, Bowdoin, Williams, the University of Utah, and Reed College. He also served for a year as a reindustrial agent and Eskimo teacher in Alaska.

In 1951 he traveled around the world as a special cultural ambassador for the United States, lecturing from Edinburgh to Calcutta on the cultural life of the American people.

His books of verse include "Maine Coast", "The Inner Harbor", "Before the Wind", "Maine Tides", and "Down East". "Sonnets to Steve and Other Poems", his most recent book of poetry, was recently adjudged the winner of a national poetry contest conducted by the Saturday Review of Literature and the Exposition Press.

Since his retirement from college teaching he has accepted a limited number of lecture engagements and was invited to appear at Bucknell by Dean Karl D. Hartzell, an alumnus of Wesleyan.

Maltby Records Needed

WVBU would appreciate the loan of any Richard Maltby recordings until the 17th of January. Please contact Roger Nieman at JA 4-4500 or WVBU, or mail a note to WVBU.

Forgiving an enemy becomes even more difficult when impartial observers insist that he's right.

At a rough estimate, it appears, this year's All America halfbacks number 900.

Musical Group Virtuosi Di Roma Sponsored By Artist Series

The Virtuosi Di Roma, a world famous group of selected soloists in an exciting ensemble, will appear in concert at Bucknell University Monday evening, January 13, in the course of their fifth transcontinental tour.

Including fourteen of Italy's most distinguished virtuosi-instrumentalists, the unsurpassed Virtuosi Di Roma will perform in Bucknell's Davis Gymnasium at 8:15 o'clock as a presentation of the Bucknell Artist Series.

Renato Fasano is the director of this brilliant ensemble of master musicians known throughout Europe as the "Collegium Musicum Italiae"—Roma's proudest achievement in the art of music.

Theirs is the great musical success story of the decade for never before have audiences heard ensemble playing of such ineffable beauty and such artistic perfection. The acclaim has been aptly summed up by the critic of the New York Journal-American who wrote: "Groups like the Virtuosi Di Roma are such things as dreams are made of."

Arturo Toscanini himself led the procession of music-lovers when the Virtuosi first appeared in this country. The great conductor went backstage after their Philadelphia concert and told the musicians: "You are the great instrumental ensemble of this age and your playing has brought me exquisite pleasure."

Musical critics in all of the major American cities in which the group has appeared have been unanimous in their praise. The critic for the Milwaukee Journal, for example, had this to say: "They are an incomparable fine ensemble, and we use the term advisedly—there is literally nothing to compare with them. They make music that seems to come from another world."

Glass Housework

Seeing that the editorial policy of the Bucknellian has been very stereotyped toward writings pertaining to school activities or policies, we thought a change toward editorials on world affairs or events might drift in now and then.

After reading a summary of a radio Moscow broadcast we came up with this food for thought, which we think you will digest with a chuckle.

Radio Moscow has painted an alluring picture of the typical Soviet house 12 to 15 years hence. It will be made of one-way glass. It will be scented with sea, flowers, and pine. It will stand in a park surrounded by trees.

It is a rosy picture and one designed to appeal to the man on the street. He, after all, has been paying for Sputnik and for the fantastic industrial recovery of the Soviets from the ravages of the war. And of all his desires, the paramount one is owning his own home.

Thirty-five years of Soviet socialism have only sharpened the instinct of the average Russian to acquire private property. Despite a government decree proclaiming the postwar dream—that every Russian is guaranteed the right to property—thousands still live communally in apartments with shared kitchen and bath.

From this to a glass house is a remarkable transition. The first thing, we are told, that fortunate Soviets do when they acquire a small piece of land, is to build a fence around it. They want their property just as private as they can make it.

Well, we do not want to scoff at Soviet building after the demonstrable success of Russian science. Presumably the Communist of the next decade will relax in this fragrant glass bower and watch the colonization of the moon.

The one-way glass, however, raises some questions. Does it look out or in? This may not seem relevant now but in 1987 it may be quite pertinent.

CALENDAR OF EVENTS

8:00 p.m.	Louis Armstrong Jazz Concert	Davis Gym

Bucknell University Catalog

Fines Imposed On Fraternities

The following fraternities have been fined for violation of the Council's Rushing rules:

Kappa Sigma—\$150 per member.
Theta Chi—\$100 per member.
Delta Upsilon—\$100 per member.
Lambda Chi Alpha, Phi Kappa Psi, and Phi Lambda Theta received a reprimand.

Bob Ackerman, Secretary

AMATEUR RADIO STRIVES AHEAD

The Bucknell Amateur Radio Club is a Ham Radio Club that has been an interesting part of many Bucknell students for several years. Approximately 15 members meet with the president, George Drake, and the secretary, Cynthia Trevor, the first and third Wednesdays each month this school year. These Bucknellians are working to receive confirmation from all the 48 states.

Bucknell Heads Plan Meeting Attendance

Bucknell University's President Merle M. Odgers and Dean Karl D. Hartzell are planning to attend several important educational meetings in Florida next week.

President Odgers will be in Miami Beach Monday when the Association of American Colleges will begin its annual conference which will run through January 9, while Dean Hartzell will be attending the annual meeting of the American Conference of Academic Deans, scheduled in conjunction with the A. A. C. program.

The Bucknell head, who will be accompanied by Mrs. Odgers, will also attend two other meetings and will address two alumni groups during his Florida stay. He will go to the annual meeting of the National Council of Churches and to the annual session of the Board of Education and Publications of the American Baptist Convention.

Dr. Odgers will be the speaker at a dinner meeting of the Bucknell Alumni Club of South Florida Tuesday evening, January 7, at the McAllister Hotel in Miami and Friday noon, January 10, will talk at a luncheon meeting at the Bucknell Alumni Club of St. Petersburg.

COWAN PICNIC HELD

The Bucknell chapter of the American Chemical Society held a picnic at Cowan on December 14.

Mr. Harold W. Heine spoke on the article "Hydrolysis of Trans-4-Chlorocyclohexanol" which was published in the December issue of the Journal of the American Chemical Society. It was the tenth article in a series on substitution reactions performed in Bucknell's laboratories. He explained that this study proves the idea of 1,4-nucleophilic participation in the cyclohexyl system.

The Bucknell head, who will be accompanied by Mrs. Odgers, will also attend two other meetings and will address two alumni groups during his Florida stay. He will go to the annual meeting of the National Council of Churches and to the annual session of the Board of Education and Publications of the American Baptist Convention.

Dr. Odgers will be the speaker at a dinner meeting of the Bucknell Alumni Club of South Florida Tuesday evening, January 7, at the McAllister Hotel in Miami and Friday noon, January 10, will talk at a luncheon meeting at the Bucknell Alumni Club of St. Petersburg.

The Bucknell head, who will be accompanied by Mrs. Odgers, will also attend two other meetings and will address two alumni groups during his Florida stay. N.Y.U. Offers Sunrise Course

by Robert Sale

With 10,732 inquiries received by October 1, and more than 700 applications for degree credit pending, "Sunrise Semester," NYU's latest experiment in educational television was being widely hailed this month for its impact on the community.

The course, the first presented by

a university in the metropolitan New York City area, is titled "Comparative Literature 10" and is being carried on WCBS-TV Mondays through Fridays from 6:30 to 7 a. m. Despite this early hour, results of a survey led to an estimate that some 62,000 families tune in daily.

So great was the initial demand

for books for the course, stockpiles ran dry at local bookstores. Stendahl's "The Red and the Black," for example, was virtually unobtainable in town only days after the course began on September 23.

Booksellers got their second wind quickly, however, and came rushing back into the scene. One, Barnes

and Noble, ran a two-column display with regard to sabbatical leaves for faculty members has been announced by Bucknell University.

The number of years which a teacher must serve in order to be eligible for a sabbatical leave has been reduced from eight to six and these need not be in consecutive order.

Associate and assistant as well as full professors may apply for a sabbatical leave of one year at half salary or one semester at full salary under the new policy.

In addition, the University will continue to grant leaves of absence at half salary to a limited number of instructors wishing to engage in graduate study.

Five teachers have been granted sabbatical leaves for the current college year and the same number have been given leaves of absence for graduate study or special assignments.

Dean Karl D. Hartzell has already announced leaves for three faculty members for next year and will announce others in June.

Dr. Kenneth W. Hooker, professor of English, has been granted a sabbatical leave for the second semester of the 1958-59 college year, and Joseph V. Guerino, instructor in English, and Emil J. Polak, associate professor of economics, have been granted leaves of absence for the entire year.

With all these exciting innovations this year, in addition to the traditional highlights of this dance, it is no wonder that the 1958 Military Ball will be the Biggest Bucknell Dance Ever!

Not only will some lucky people make a large profit on the evening, but this year the Military Science Department is also rendering some unexpected services. All the refreshments will be free, and there will be a costume in which hats and costs will be checked at no cost.

In addition to the dance, there will be a Grand March around the floor led by Lt. Col. Martin, a brief but very impressive demonstration by Pershing Rifles, and, of course, the Coronation of the Queen of the Military Ball, whose identity will not be revealed until that moment.

With all these exciting innovations this year, in addition to the traditional highlights of this dance, it is no wonder that the 1958 Military Ball will be the Biggest Bucknell Dance Ever!

Not only will some lucky people make a large profit on the evening, but this year the Military Science Department is also rendering some unexpected services. All the refreshments will be free, and there will be a costume in which hats and costs will be checked at no cost.

In addition to the dance, there will be a Grand March around the floor led by Lt. Col. Martin, a brief but very impressive demonstration by Pershing Rifles, and,

... Armstrong

(Continued from Page 1)

In April of 1928 Louis was employed at Chicago's Savoy Ballroom at a salary of \$200 per week. When the Savoy could no longer pay their musicians, Armstrong's band made their way to New York. Their New York stay was very successful. The band then moved to Sebastian's Cotton Club in Hollywood; here they made nightly radio broadcasts for a year, plus many records.

In 1931 Louis formed a band in Chicago and made a tour of United States which included his home town of New Orleans. He then traveled to Europe where he broke attendance records at the London Palladium. He returned to the United States for the winter of 1932-33. He made a second European tour in the summer of 1933 and stayed there until the winter of 1934. Upon his return to America he toured the States until October 1935 when he opened Connie's Inn in New York City.

Since 1923 Armstrong has made over a thousand recordings; among the best known are 'Shine', 'China Town', 'Tiger Rag', 'I Can't Give You Anything But Love', and 'You Rascal You'. His motion pictures include 'Every Day's A Holiday' (1938), 'Going Places' (1938), 'Cabin in the Sky' (1943), 'Jam Session' (1944), and just recently 'High Society' and 'The Glen Miller Story'.

FORMS AVAILABLE FOR TEACHER EXAM

Bucknell is one of a number of schools the country over at which the National Teacher Examinations will be given on Saturday, February 15. This will be the only time during the current academic year that the examinations will be available.

A fair number of school systems require that the results of the NTE be submitted as a part of the application for a position. The Education Department strongly recommends that seniors plan to take this examination when given. Information leaflets and application forms are available in the Education Office upon request. The final date for registrants planning to take the examination in February is January 17.

The morning session of the examination consists of a series of tests that all teaching candidates must take. These include examinations in professional information; English expression; social studies, literature, and fine arts; science and mathematics; and non-verbal reasoning. Optional examinations are given in the afternoon for teachers in the elementary school or the regular academic branches of the curriculum.

GRADUATE SCHOOLS OFFER SCHOLARSHIPS

Bucknell continues to receive scholarships and fellowship offers for graduate study.

Radcliffe Graduate School offers approximately fifty fellowships to women graduate students. All instruction is given by the Harvard Faculty of Arts and Sciences and all Harvard libraries, laboratories and other facilities are used by Radcliffe graduate students. Advanced study in the humanities and the natural and social sciences is open to women candidates for the degree of master of arts, master of arts in teaching, master of engineering, master of sciences, and doctor of philosophy. Awards are for one year and vary in amount from \$500 to \$1,800.

The School of Commerce of the University of Wisconsin in Madison offers graduate programs in business administration in commerce. The Master of Business Administration is given in a one or two year program in any of the nine fields of study. The Doctor of Philosophy in Commerce is given for those preparing for research and teaching in the same areas of study as in the M. B. A. program. Financial assistance is available by way of scholarships, fellowships, teaching assistantships, research assistantships, and readerships.

The Brown University Graduate School announces fellowships, special scholarships, teaching assistantships, resident assistantships for women, research assistantships, and additional assistance with stipends. Besides these, university graduate scholarships are offered covering the tuition fee.

The Department of Chemistry of Georgetown University in Washington, D. C. offers teaching fellowships in chemistry. These are available to graduate students majoring in chemistry. Stipends are for those with an A. B., B. S., or M. S. degree. For further information on these scholarships and fellowship offers see Dr. Heine in 409 Olin Science Building.

R. Claus Attends Highway Meeting

Roger J. Claus, associate professor of civil engineering at Bucknell, is attending the 37th annual meeting of the Highway Research Board in Washington, D. C. as the guest of the Associated Pennsylvania Constructors.

The Research Board is an agency of one of the eight functional divisions of the National Research Council of the National Academy of Sciences and serves as a national clearinghouse and correlation service for research activities and information on highway administration and technology.

At its current meeting which opened Monday and will continue through Friday there will be 45 separate sessions at which approximately 220 research papers and technical reports will be presented and discussed.

Professor Claus is among a small group of civil engineering teachers from Pennsylvania colleges sent to the meeting by the Associated Pennsylvania Constructors.

Bucknell Hosts For Debate Tournament

The fourth annual Good Neighbor debate tournament will be held on Saturday, January 17, in Vaughan Lit. library. The topic for debate is Membership in a Labor Organization as a Condition of Employment Should be Illegal.

Six debate teams will take part including Kings College, Wilkes College, Penn State Men, Penn State Women, Messiah College, and Bucknell. The first round of debates is scheduled for 10:30. Three additional rounds will take place at 1:30, 2:45, and 4:00.

Luncheon for the debaters and their coaches will be served in the University Cafeteria at 12:00 and coffee will be served at 5:15 at the close of the debates.

A cup is to be presented to the winning team and medals will be awarded to the best three speakers. Bucknell will be represented by Carolyn Nabach, Robert Cohen, John Miller, and Robert Dreescher. Everyone is cordially invited to attend.

WORLD EVENTS DEBATE TOPIC AT CONFERENCE

by Jan Powers

For the fifth consecutive year, Bucknell University will present the Newsman's Conference on February 5, 6, 7, 1958. The newsmen attending the conference are top correspondents in the journalistic world, with their articles on national and world affairs appearing in the nation's leading publications. During the conference, students will have the opportunity of meeting these men and of discussing with them topics of current importance. The newsmen will present political and economic situations of both national and international importance, reporting the events of today and their probable effects on the future of the world.

(Continued on page 8.)

ATTENTION!
It is urged that all students and staff get their third Asian flu shot this month. With finals and the bad weather of February and March, without wide immunization, an epidemic might occur.

ANGEL STREET OPENS FRIDAY IN LEWISBURG

The efforts of many people will soon come to a climax, with Friday night's opening of *Angel Street*. This opening will be the culmination of two months of work by over 50 people. Plans for this production by Cap and Dagger date back to a year ago, when the choice of this play was made. Ron Clemens, chosen as director, and Lynette Willson, as Production Manager, quietly laid the groundwork for the tremendous activity of the last two months. Committee members and actors have been putting in long hours to give a production worthy of the story itself.

Angel Street was a sensational commercial success, both in London and in New York, where it ran for

Eerie, Exotic Angel Street

Jane Hanle, starring in *Angel Street*, and Ron Clemens, the director, sip tea during a rehearsal of *'Angel Street'*, which opens this Friday night.

WHO WILL REIGN AS QUEEN?

Seated left to right are: Jean Thomas, Melinda Hauser, Loey Lenhard, Jane Elam, Peggy Smith. Standing are: Cora Five, Carolann Buquet, Molly Welford, Dale Eyering, Jeanne Anderson, and Nancy Seeburger.

NUMBER 15.

THE GREATEST DANCE EVER

by Roger Nieman

The biggest and best dance of the year and perhaps of all time here at Bucknell will be held on Friday, January 17. From all advance information, this gala occasion will be remembered for a very long time as the finest Military Ball ever. To top the evening off just right, Richard Maltby will be returning to the Bucknell campus to entertain us and provide the music for our dancing pleasure. With him, Mr. Maltby will have Miss Frankie Crockett, his vocalist. Perhaps, the event of the evening that everyone will be waiting for the most will be the coronation of the Military Ball Queen.

Richard Maltby, conductor-arranger and leader of the Richard Maltby Orchestra, is not only one of the most talented musicians of the day, but also one of the most imaginative. His creative mind has led him to explore the classical and symphonic realm as well as the popular dance medium. With such a background it is no wonder that in the short space of a few months he emerged as one of the top dance bands in the country. However, it was not until he met Virginia Rosegood, who later became his wife, that he was convinced to dedicate his talent exclusively to music.

It was in 1951 that Richard Maltby came into his own and was asked to do a series of recordings for Sesac Transcriptions called Jazz Classics. He was given free rein to experiment with all combinations and to use his imagination in writing original compositions. He still uses many of the 250 sides he recorded for Sesac in his dance library today.

(Continued on page 8.)

CROWN QUEEN AT BALL IN DAVIS GYM

The Military Ball, to be held tomorrow night from 9 p. m. to 1 a. m., promises to be one of the most gala social events on the campus this year. Richard Maltby and his orchestra will provide the music, and featured in the female vocal department will be Frankie Crockett.

The Grand March will be followed by the coronation of the Queen. The members of the 1958 court are as follows:

A Company — Molly Welford. Molly is a junior who hails from Montgomeryville, Pennsylvania, and majors in elementary education. She lives on third Bucknell Cottage as a junior counselor, is a member of Kappa Delta sorority, vice president

(Continued on Page 8.)

HOOPSTERS TAKE TWO; SWIMMERS WIN OPENER

by Bill Scott

The Bucknell varsity basketball team moved its record to 6-4 last week with easy victories over the quintets from Albright and Delaware. Both games were played on the Bison's home court before medium-sized crowds.

For a team which has relied quite heavily on its defense this season, the Bisons had a rollicking time in racking up a 100-76 win over Albright last Wednesday night. The entire bench joined in the merry-making with six of the Bisons hitting in double figures. Bucknell, fast-breaking at every opportunity, hit for 31 points in the first 10 minutes and finished the evening's work with 30 markers in the last 10 minutes.

With Hal Danzig, the Bison's finest big man in many years, pacing the attack for the fifth time this season with 21 points and 13 rebounds, the Herd took early leads of 15 and 20 points and coasted throughout the second half. Ellis Harley hit well from the outside and drove through the Lion defenses to take second scoring honors for the Bisons with 16 points. Tommy Thompson, the Orange and Blue's fine sophomore guard, put on an amazing display of shooting skill to hit on each of his six shots from the floor as he accounted for 12 of the Herd's last 15 points. His jump shot from the corner barely beat the buzzer to net the 100th point. It was the first time the Bucknell five had reached the century mark since March 2, 1955.

The Bisons rallied after a slow first quarter after the Blue Hens from Delaware had closed the Bucknell lead to 17-15 to smother the outmanned visitors, 79-55, in Davis Gym last Saturday night. The game was marked by sloppy play in the opening minutes and poor shooting by both teams in the opening half.

Hal Danzig scored the first four points for the BU Bisons and after Charley Cluff led his Delaware teammates to within two points of the Herd at 17-15, the Bucknell team began to play better basketball and the lead was opening to 32-24 at halftime.

Delaware Falls Behind
Bucknell opened its lead to 40-32 and 52-37 as coach Ben Kribbs once again had the opportunity to clear the bench. Danzig completely dominated both boards as he came down with 23 rebounds before he left the game with four minutes to play. Jack Flanagan, after a slow first half, scoring well on driving layups to score 13 points for the Bisons. Danzig led the Herd with 30 points while Cluff had 17 markers for the Blue Hens.

BUCKNELL TROUNCES LAFAYETTE MATMEN

by Strat White

The Leopards of Lafayette swaged into Davis Gym last week boasting three straight wins to their credit, after having lost their opener to Penn. However the matmen of Bucknell were ready, willing and able to take them apart by a lop-sided score of 20-5. The opening match of the evening saw Ken Weightman drop a decision to Lafayette's Joe Lees in the 123 lb. class. Ken is considered to be one of the most improved wrestlers on the squad. From here the Bisons started to roll.

John Ayre, 130 lb., went after Tom Principi and walked off with a victory 6 to 4. Principi was undefeated this year and this loss was his second in two years. Both of these defeats have come at the hands of John Ayre.

Bucknell's 137 pounder, Rowland Bell did a very impressive job in pinning Bob Mack in 1:40 of the first period. Bell took Mack down from a standing position into a pinning combination.

Pete Fritts, 147, won over Pike of Lafayette 8-6 in one of the most exciting matches of the night. The Bisons 157 lb. captain, Larry Dempster, stopped John Bralin's undefeated string at four by topping him 5 to 1. This was Dempster's tenth victory in twelve varsity contests.

Dave Murdock also notched a 5 to 1 win besting Bill Cox in the 167 lb. division. Grant Watkins of Bucknell did a very creditable job in losing to 177 pounder Doug Cherry, 4 to 2. Cherry is one of Lafayette's most experienced men. Edge Duell controlled Bob Schulz for nine minutes, winning 8 to 4 in the final contest. Duell showed the spectators that he possesses uncanny speed for a heavyweight.

by Gene Meenan

Last Saturday the Bucknell swimming team traveled to Williamsport to encounter Lycoming College. In doing so the Herd took the season's opener 56-30. During the course of the afternoon the tank men took seven out of ten first places, and captain Bill Barrett and butterflyer Bob Erdahl broke records. Barrett broke the Lycoming pool record for the 60 yard freestyle with a 30.5, and Erdahl broke a Bucknell record in the 200 yard butterfly, coming home with 2:58. Coach Latour was pleased with the results and is now grooming the squad for the meet on Thursday night with F&M.

The Lycoming team proved no match at all for Bucknell, and in order to make the meet more even and see just how versatile the squad is, Coach Latour juggled the lineup somewhat. From here on though the swimmers go into the brunt of the schedule, and Latour will not be able to do the juggling he did Saturday. Latour says that F&M is the big one, but no matter the outcome, the team will work more than its share of the meets.

The results of Saturday's meet: Medley Relay—Lycoming. 220 freestyle—Schreiber (B), Buys (B), Norens (L)—2:40.4. 60 freestyle—Barrett (B), new LVC pool record; Smith (B), Husk (L)—3:05.5. Diving—Brubaker (B), Husk (L), Maypole (B)—43.55. 200 butterfly—Erdahl (B), new BU record; Putterman (B), Connors (L)—2:58. 100 freestyle—Thompson (L), Smith (B), Kaiser (B)—1:51. 200 backstroke—Aymer (B), Fromm (B), Larken (L)—3:08. 440 freestyle—Myrbach (B), Sharkey (B), Norens (L)—5:11. 200 Breast—Hutchinson (B), Connors (L), Putterman (B)—3:03.

WRESTLING

The grapplers of BU won their second straight match last night in drubbing Lycoming by the score of 22 to 6. Wightman won a very fine contest 4-2. He was followed by Ayre who won by a pin in the third period. This was the most exciting match of the evening. Bell lost 7 to 3 but Fritts recorded a 4-3 victory for BU. Capt. Dempster continued his winning ways by copping a 2-0 decision. Murdock gave an exhibition of masterful wrestling in his 6-0 triumph. Watkins lost a close one 3-2 but Duell once again amazed everyone with his speed and pinned his man in the first period.

SWIMMING

The Bucknell tankmen defeated F&M 57-29. This was the same score by which F&M defeated the Bisons last year.

CAGERS HALTED

The St. Joseph's varsity basketball team rallied in the second half to pin the fifth defeat of the year on the Bucknell varsity squad last night, 75-64, before a good crowd in Philadelphia. The loss moved the Bison's record to 6-5 while St. Joseph's scored its sixth victory in nine decisions.

Bucknell, with Hal Danzig controlling the rebounds on defense as well as offense, took an early lead of 22-13 but Danzig was forced to ride the bench after committing his fourth personal foul of the half. John Strizzi attempted to keep the Bisons even with the Quaker City team with some timely outside shots but the score read 33-25, at halftime for St. Joseph's.

The Hawks began to fast-break at the beginning of the second half and hiked their advantage to 41-30 after 5 minutes had elapsed in the final half. The local team was pressing the Herd into poor shots.

But the score read 33-25, at halftime for St. Joseph's.

The growth of the company has been spectacular since its inception in 1914. This has been especially true in recent years, as business, industry, science and government have turned increasingly to automation through electronic computers. Such growth naturally provides many opportunities for advancement to well-qualified college graduates. IBM company policies and practices lay a firm groundwork for rewarding, enjoyable and secure careers.

At IBM, for example, individual merit is quickly recognized by increased responsibility and remuneration. Through "small-team" project systems . . . cordial employee-management relations . . . excellent financial rewards . . . outstanding company-paid benefits . . . the potential exists for well-established careers. IBM-sponsored educational and training programs are among the most advanced in the American business world today.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 principal cities throughout the United States.

PASS IN REVIEW

by Roger Nieman

This year's Military Ball will be the **Biggest Bucknell Dance Ever**. While that phrase has been seen all over campus, it still should be emphasized again. This week I feel it is appropriate to tell you something about the various committees and their chairmen who have been doing a monumental job in getting everything ready for this gala occasion.

Jim Hamilton the Social Chairman of the Officers Club, is in charge of all social function concerning the undergraduate military personnel on the campus. Directly under him are three men who are handling all the affairs of the weekend. Frank Why is in charge of all pre-dance arrangements and Mary Fisher is the man who handles all the finances for the Ball. Stratton White is the actual Chairman of the Ball and all of the other committees are responsible directly to him.

Robert Toal, as Regimental Commander, is in charge of the Coronation of the Queen of the Military Ball, and is also responsible for maintenance of the gymnasium. Dick Locke and Bob Todd are in charge of the fraternity decorations and have designated the individual branches to the various houses. These men are also responsible for the thousand balloons that will be suspended from the ceiling of the gymnasium.

Chuck Lizza as Company Commander of Pershing Rifles is in charge of the Castle backdrop which will be the main decoration at the Ball. Directly under him is Ken Hoover, a freshman, who designed the backdrop and is supervising the building of it. Pershing Rifles is also in charge of the checking of coats and hats.

Ken Boyer is in charge of sending out all invitations to the faculty and administration and to all veterans who are students. Ken is also sending invitations to special military personnel in the area. Refreshments are being cared for by Bob Conklin. They will include either Root Beer or Birch Beer, on tap, potato chips, and pretzels, all of which will be provided free.

The ticket committee, headed by Roger Nieman, is responsible for selling tickets to all students who are neither in ROTC nor are veterans. Bob, along with Bill Meister is also responsible for all the signs, letters and other publicity arrangements connected with the Ball. Their committee has gathered all the available Richard Maltby records in the school for publicity purposes. The man responsible for obtaining all the people to work under each chairman for each committee, and all other personnel concerned with the Ball, is Ron Cipolla. Ralph Hinton is the supply coordinator and his job is to issue all the new uniforms for Juniors and Seniors and any other materials for the Military Ball. With this excellent staff, there is no doubt in the minds of anybody that the Military Ball of 1958 will be the **Biggest Bucknell Dance Ever**.

The R. O. T. C. Rifle Team which posted the excellent score of 1896 against Pennsylvania Military College was very pleased to find out that they had beaten them by the score of 1896 to 1851. Pennsylvania Military College last year was the 2nd Army Area Champions for the year 1956-57, and were also Intercollegiate Champions for that period. This is a great milestone for the Rifle Team and is also a well-deserved victory because of their exceptionally diligent efforts. Two freshmen, Phil Hunter and Dick Hartman were the high scorers for Bucknell with scores of 382 and 381 respectively.

This week, the rifle team did even better against Murray State College of Kentucky. This time the team shot 1905 out of a possible 2000. High men for Bucknell were: Phil Hunter, 383; Ed Frontz, 382; Bruce Taylor, 382; Harvey Berk, 379; and Ken Ellesen, 379. As this was a postal match, the final score won't be known for a few days, but with the very high score that the Bucknell team posted, it looks like a sure victory for Sgt. Walters riflemen.

Remember, tomorrow is the Military Ball, and with the music of Richard Maltby and his Orchestra, the coronation of the Queen of the Military Ball, the Grand March, the announcing of Cadet Officers, favors for the girls, new uniforms, sabers, fraternity decorations, free refreshments and a SURPRISE ENDING, the 1958 Military Ball will be the **BIGGEST BUCKNELL DANCE EVER**. Don't miss it!

Support W.U.S. Drive

W. U. S.—what does it mean and where does it's money go? All of us have heard of W. U. S., but few of us can answer these two very important questions.

W. U. S. stands for World University Service, an international organization dedicated to mutual assistance in meeting the most crucial needs of the university community throughout the world. It means an education for many poverty stricken young men and women who, as a result of war have been left with no financial support to help put them through college. It means more skilled technicians in locations like Asia which is desperately in need of them. Yes, W. U. S. means many different things, but most of all it means your whole-hearted and unselfish support to help bring four foreign students here to Bucknell.

W. U. S. is not simply a relief program; it is an investment in the security and future of the free world. Where does your money go? The largest part of this year's goal will be used to sponsor four international scholarships at Bucknell. The rest of the money will be used to sponsor four scholarships at the University of Rangoon in Burma. Student projects in India, W. U. S. General Emergency Student Relief program and special alumni projects abroad. The W. U. S. Fund drive is being sponsored at Bucknell by the Christian Association and is presently in the middle of its drive to raise \$2,000 per man and woman to be used for these worthy causes. If you have not as yet been contacted, see your fraternity or sorority C. A. representative or hall representative and open your heart and wallet to him. The drive ends this coming Monday, so it still is not too late to contribute if you have not done so already.

COOL CLINKING STARS

by Kris Diaz

"But give—but give—sweet love—And I shall worship at your feet Till world's end!"
Yet knowledge of his deepest soul, of visioned
Blaze of scorn within his eyes
Lent swift control
Of lightest fingertips
Across his cheek
And coolest laughter
For the pleading in his eyes
And from my aching throat
Swift words to mock
"Go—foolish one—
Beneath the winter stars,
And beg they melt their clinking silver
For your ecstasy!"
Far clinking silver stars,
Ride close—ride close to me!
Far stars—
I have most desperate need
of your cool mockery!

MECHANICAL, ELECTRICAL, CHEMICAL ENGINEERS—AND CHEMISTS:

ON THE FENCE?

LEAN OVER AND CHECK HAGAN CHEMICALS & CONTROLS, INC.

You've got a big decision to make, but a big company isn't necessarily your best career bet. You can miss plenty, if you check only the big ones. Your big opportunity may be with the small, select group of graduates—just 20—that we plan to place at Hagan this year.

Hagan isn't an industrial giant, yet 98 of the 100 largest industrial firms in America, and 40 of the 50 largest utilities are among the thousands of customers that use our products and services.

WHAT DOES HAGAN MAKE AND DO?

Controls and Instrumentation. We design, manufacture and sell automatic control and instrumentation systems for use in power plants, steel mills, aeronautical testing facilities, and in many basic process control applications—including electronic instrumentation.

Industrial Water Service. Our Hall Service Engineers help thousands of industrial plants prevent costly water troubles, by on-the-job consultation and service for every type of industrial water problem—from procurement to disposal.

Calgon and Hagan Chemicals. Calgon phosphate compounds, and Calgonite detergents—including popular household versions of each—are among the many chemicals we process and sell for water treatment in utility, industrial, municipal and household water systems.

HOW WE TRAIN ENGINEERS AND CHEMISTS AT HAGAN
Mechanical and electrical engineers, for our Mechanical Division, receive six months training,

including: laboratory work; classroom instruction; on-the-job training with a Field Engineer; and rotation in various departments. Then, assignment as a Field Service Engineer—where possible in a territory of your choice.

Chemical engineers and chemists, for our Hall and Calgon Divisions, receive six months training, including: classroom work; on-the-job training with a Field Engineer, and rotation in various departments. Then assignment to a District Office—where possible in a territory of your choice.

What's ahead for you? Hagan is growing fast. Field Service Engineers and Chemists have excellent opportunities for positions in Sales Engineering, or administrative work.

For specific details on type of work, travel, benefits, etc., make an appointment through your College Placement Officer to learn about the opportunities for you at Hagan. Remember, you start as one of a select team of only 20 graduates.

HAGAN CHEMICALS & CONTROLS, INC.

Hagan Building, Pittsburgh 30, Pennsylvania
Divisions: Calgon Company, Hall Laboratories
Hagan personnel officer will be interviewing on the date shown below. See your placement officer for interview time.

There's A Bright Future In
The Electric Power Industry for YOU!

THE electric power industry is unique because the product it manufactures is indispensable to the growth and prosperity of our nation and its people. Everywhere you look, lights are burning, machinery and equipment is running, all because of electricity. And this great need for electricity is constantly growing—in fact, will be doubled in the next ten years.

The Pennsylvania electric power companies are preparing to supply the additional power which will be needed in the coming years, but they need qualified young men to help them NOW. Young engineers schooled in thermodynamics, electronics and fundamental engineering, are needed to advance the art of power generation, distribution, utilization, system planning and area development. This wide range of interests plus a solid, promising future is waiting for the men who can qualify.

Plan now to talk to your placement counselor or to the personnel director of one of Pennsylvania's electric power companies. Or, write to Pennsylvania Electric Association, State Street Building, Harrisburg, Pa., stating where you would like to live and work.

Sigma Phi Epsilon — Al Confer, David Briethouse.

Tau Kappa Epsilon — Judy Weber, Mr. and Mrs. Jim Davis, and Mrs. Isobel Faucor.

Meeting To Be Held
For Burma Weekend

The second general meeting of those interested in the Burma-Bucknell Weekend will be held Sunday night, January 19, at 7:30 p. m. in the Vaughan Ltd. Auditorium. All persons who have signed up or are interested in working on the weekend are urged to attend. This will be the last general meeting before the weekend.
Edward R. Murrow's "See It Now" film on Burma from his television show will be shown. This film was scheduled for the earlier meeting, but was unavailable. Everyone is invited to attend.

... Queen's Court

(Continued from Page 1)
of WRA, and a member of the Student Faculty Congress social committee.

B Company—Cora Five—Cora is an elementary education major whose home is in Great Neck, New York. She is a freshman living on third Larson and was a member of this year's Homecoming Court. Cora also participates in the projects of the orphanage committee.

C Company—Carolann Buquet—A freshman and member of the twirling corps, Carolann is from Merrick, Long Island. Her major is secondary education, and she is on the staff of the L'Agenda.

D Company—Jane Elam—Jane, whose home is in Wileston, Maryland, is a sophomore and biology major. She is a cheerleader and participates in synchronized swimming and modern dance. Jane was a Freshman Fireside Leader this past fall and is a member of Kappa Delta sorority.

E Company—Lois Lenhard—Lois, a sophomore, is a math major from Drexel Hill, Pennsylvania. She has been in the Homecoming and Military Ball courts for the past two years and was chosen Sig Dery Queen last year. Lois is secretary of W. R. A., active in Cap and Dagger, and a member of Kappa Delta sorority.

F Company—Peggy Smith—Peggy, an economics major, from Dunellen, New Jersey, is a senior. She has been a cheerleader since her freshman year and now serves as co-captain of the squad. Last year Peggy was a junior counselor and in both the Homecoming Court and the Military Ball Court. She is president of Delta Delta Delta sorority and a member of Honor Council.

G Company—Melinda Heuser—Melinda is a junior from Biglerville, Pennsylvania, who majors in English. She is a member of Alpha Chi Omega sorority and participates in modern dance and synchronized swimming. Melinda is also very active in Cap and Dagger and the University Physics.

H Company—Nancy Seeburger—Upper Darby, Pennsylvania is the home of Nancy, and elementary education is her major. A junior, she is membership chairman of Kappa Delta sorority and on the Panhellenic Council.

ROTC Band—Jeanne Anderson—Jeanne is a junior English major from Springfield, New Jersey. She is a member of the House of Representatives and chairman of the Burns-Bucknell Banquet. Jeanne is also on the staff of the L'Agenda, the committee

... Angel Street

(Continued from Page 1)
three years. It was a big success with the critics. Louis Kronenberg said it is "... skillfully elaborate in its writing and menacingly quiet in tone ... (6) is a smash." Rowan Field called it "... compelling example of the power of suggestion and mental stress in telling a chilling tale."

There are only three main characters to keep straight. Bella Mannington is the young bride who is driven to the brink of insanity through her husband's demonic plot. Jane Hanke has worked out an excellent portrayal of the feelings of Bella fighting for her sanity. Rod Rodriguez has the part of Mr. Mannington, the part first played on Broadway by Vincent Price. Mr. Mannington is the demented master of the evil house on Angel Street, whose smooth manner veils his sinister plot to drive his wife insane. Ron Clemens is playing the part of Inspector Rough, the police inspector from Scotland Yard whose efforts to solve a crime committed fifteen years earlier led him back to the forbidding house on Angel Street.

Under the guise of tender solicitude, Mr. Mannington unrelentingly pursues his plot to drive his wife's mind, without ever resorting to physical violence. Hence, "Angel Street" is not the run of the mill murder mystery with gunshots, stranglings, and shrieks in the dark at this Mr. Hamilton is no slouch.

"Angel Street" is a well written psychological melodrama which offers something special to each member of the audience. We ask you to buy a ticket to repay Cap & Dagger for all the time, effort and expense put in this production by the staff. We ask you to see the play for a rewarding and satisfying evening's entertainment.

for the Academic Honor System, and a member of Kappa Delta sorority.

Pershing Ritts—Jeanne Thomas, Jeanne, who transferred to Bucknell this fall from Dickinson, is a sophomore from Lancaster, Pennsylvania and a psychology major. She is a member of Pi Beta Phi sorority, House of Representatives, and the University of Missouri, and the University of Maryland.

An equally outstanding newsman who will attend the conference is James A. Weschler, editor of the New York Post. A graduate of Columbia, Weschler has held various editorial positions on Nation maga-

GUYS AND DOLLS

Playbooks for "Guys and Dolls," the University Players' selection for this year's musical, are now on reserve at the Bertrand Library. Those planning to try out should be sure to note the scenes designated for try-outs. The music books have been placed on reserve in the office of the Music School.

Try-outs will begin on Sunday, February 9 at 2:00 p. m. in the Music School auditorium, and will continue Monday through Friday at 7:30 p. m. and also on Saturday at 1:30 p. m. Music auditions will precede dramatic try-outs, except for non-singing roles. Dramatic try-outs will be held in the Green Room located on the ground floor of the Music and Art Building.

... Newsmen's Conference

(Continued from Page 1)
Attending the conference will be William Watts Chaplin of NBC. Chaplin attended Brown University and later served as a reporter, an editor, and finally as foreign correspondent with the Associated Press and the International News Service. In 1923, Chaplin became a news commentator of NBC, a post which he has held ever since. He is author of *Blood and Ink*, *When War Comes*, *Seventy Thousand Miles of War*, *The 52 Days: an NBC Reporter's Story of the Battle that Freed France*.

Representing *Newsweek* magazine at the Newsmen's Conference will be Herbert Rowen of *Newsweek's* Washington Bureau. A graduate of City College of New York, Rowen reported stock market news for the *New York Journal of Commerce*. He later served on the information staff of the War Production Board during World War II and now covers business and economic news in the *Nation's Capital for Newsweek*.

Among the journalists who will attend the Conference will be Murray Snyder, assistant press secretary for the White House since 1953. Mr. Snyder is a graduate of San Antonio Junior College and has served as a political writer and correspondent for the *San Antonio Light*, the *Brooklyn Eagle*, and the *New York Herald Tribune*.

C. Herschold Schooley, chief aide to Snyder, may also participate in the Newsmen's Conference. He has degrees from University of Illinois, University of Missouri, and the University of Maryland.

An equally outstanding newsman who will attend the conference is James A. Weschler, editor of the New York Post. A graduate of Columbia, Weschler has held various editorial positions on Nation maga-

... Dick Maltby

(Continued from page 1)
Dick's band is a large one, according to present day standards. There are four trumpets, three trombones, five reeds, three rhythm (bass, guitar, and drums) a girl vocalist and Dick himself, who plays cornet, electronic piano, and chimes, a set of which he carries with him. In all, Dick's band is not only talented and versatile, but they have that extra something that makes you want to dance.

The decorations of the gym will be made by the various fraternities, who will be competing for prizes.

Senior Prom Theme

VOLUME LX

YEAR OF DECISION FACES U. S.

Of "Guns and Butter" was the theme of this year's three day Newsmen's Conference. "Guns and Butter" involves both the United States' foreign and domestic policies. Should the U. S. prepare for war or work to improve living conditions within its own borders? Concerning foreign aid, the question arises whether we should help other countries by sending them military equipment or, instead, help build up their economic systems.

Newsmen seated left to right are: D. Nenoff, T. Kagan, J. Quigley, G. Combs, S. Karnow and D. Shefrin.

Public Questions Press

1. Are the recommendations of the Rockefeller Report good or desirable?

Theodore Kagan: The military system in Washington is not perfect. The competition between the Army, Air, and Navy indicates waste.

2. Why will the Foreign Aid Bill have trouble in Congress?

Stanley Karnow: Taxes are high as it is. George H. Combs: Congressmen understand the situation but they might wish to be re-elected.

3. If all nations adopted our economic system, would world peace be attained?

Theodore Kagan: No. Our economic system wouldn't be suitable for all of the world.

4. Were personal sacrifices in Korea a result of shoddy behavior?

George H. Combs: No. Our behavior was heroic and magnificent. Those who weakened were symptomatic of the ills now developing in America. This is a symptom of our decay.

5. Is our economic system, though still capitalistic, socialistic in nature?

Theodore Kagan: It has been called this but it isn't socialism. The fields of private enterprise can't help but be curtailed with more federal aid and control.

6. Is Russia planning world domination? Is co-existence possible?

Theodore Kagan: I. If Russia contemplates world domination it is to enclose itself within "safe" surrounding countries. They don't want to spread the glories of communism. They will have to feel safe before they stop their aggression.

2. Co-existence isn't possible with our present economic systems. It might be possible if the economic system were changed over a period of time.

3. Why are American citizens classified as being lethargic?

George H. Combs: There is no leadership capable of invoking spirit. There was a lethargic reaction even about Sputnik.

4. Can our dilemma today be attributed in any way to the manner in which our news gathering agencies have handled their materials?

David Shefrin: Canned reporting, press reporting, and an eagerness for "hot" news has taken the individuality from news gathering agencies.

Theodore Kagan: It has been said that newsmen are sheer know-it-all agencies' wishes. Their responsibility to the public has often been forgotten. The administration has received favoritism from those who control the press. This could be one reason for the confusion of the citizens.

George H. Combs: The Press has been institutionalized. Syndicates give comfortably safe news, and when startling news is released promptly, it often goes by unnoticed.

No one wants to bother to take up disquieting issues, since everyone wants to avert trouble.

Scholarship
Offer By I.F.C.
Announced

Interfraternity Council President Jay Citron has announced that the council will award a \$300 scholarship to a worthy male student enrolled on a full time basis at Bucknell University. The award will be granted only to a senior or a junior.

The scholarship which is awarded once a semester is based primarily on need. However, in order to qualify for the grant, applicants must have at least a 1.5 average.

The following standards have been formulated by IFC as a basis for judging applicants for the award:

1. Need—the primary criterion.

2. Scholarship—any member of the junior or senior class with a cumulative average of at least 1.5.

3. Character—above reproach.

4. Service—active interest in support of the school through service to it considering applicant's amount of free time.

5. Recommendation—three letters from Professors or staff members; one must be from a teaching member of the department in which the applicant is a major.

6. The man may be eligible even though he is receiving other scholarships.

A committee consisting of Dean Hartzell, Dean Meyn and Jay Citron will review the applicants and make a final decision. Applications must be obtained at Dean Hartzell's office. The closing date for submitting applications is March 1, 1958. Completed forms should be mailed to: Jay Citron, IFC President, Sigma Alpha Mu Fraternity.

STUDENTS MAKE
CONFERENCE A SUCCESS

The Newsmen's Conference, which was composed of several discussions led by eminent newsmen, was organized by its chairman, Betsy Darrich and J. C. Erickson.

The heads of the numerous committees were: Nancy Jane Brown, Publicity; Nancy Bellmeyer and David Block, Sorority and Fraternity Representatives; Peg Smith and Ken Sherry, Hospitality; Al Jackson, Radio and Television; Joe Kabela, Transportation; Bob Conklin, Banquet; Bill Hummel, Schedule; and Jane Sutherland, Conference Secretary.

Lee Wentzel edited the Conference's publication, "The Globe".

Freshman Class Meeting
There will be a Freshman Class meeting, Tuesday, February 25, at 7:00 in Vaughan Literature Auditorium. Future social events, a class gift and the possibility of sophomores having cars will be discussed.

Tenth Annual Burma-Bucknell Weekend
Announces Principal Convocation Speakers
As Supreme Justice Douglas, Amb. U. Win

United States Supreme Court Justice William O. Douglas, internationally acclaimed author and student and Burma's ambassador to the United States, U. Win has been announced as principle speakers for academic convocation exercises during the 10th annual Burma-Bucknell Weekend, February 28.

Other featured speakers for the weekend will include former president of Bucknell and ambassador to Pakistan, Dr. Horace Hildreth and U. Thant, representative of Burma to the United Nations. The program this year is of special significance, marking the 10th anniversary of the independence of the Union of Burma, the 100th anniversary of the entrance of the first foreign student to Bucknell, Shaw Loo, the first Burman to study in the United States and the 10th anniversary of the weekend celebration here at Bucknell that has drawn national and international attention.

The program has been expanded this year to include 160 guests of which 80 are Burmese students from various colleges and universities in the United States, 40 are members of the Burmese delegation to the embassy in Washington and 40 who are American guests, associated in some way with Burma.

An added feature of the weekend will be the presentation of a carved silver bowl and stand, presented by the President of Burma to Bucknell, symbolizing 100 years of friendly relations.

FALCONIERI HEADS
PROM ARRANGEMENTS

The senior prom will be held by the senior class on Friday night, March 14, in Davis Gymnasium, according to the senior class secretary, Anne Sattler. Tony Falconieri is the chairman in complete charge of the affair.

Six functioning committees have been set up, with the following chairman designations: Decorations, Dick Locke and Dick White; Entertainment, Whitley Meyers; Publicity, Phil Nerhood and Roger Nieman; Functions During the Dance, Ralph Hinkley; Crowning of the Queen, Terry Peterman. All seniors are urged to volunteer for service on these committees. Those interested should call or write Anne Sattler, class secretary, on third Hunt, or write to box W-183.

A senior class meeting will be held Wednesday, February 19, at 7:30 p. m. in Spots Auditorium. Class President Terry Peterman will announce the band selected for the Prom. Details of additional parties for the weekend will be discussed and voted upon. All seniors are being urged to attend.

W.V.B.U Station
Manager Retires

After diligently serving his term as Station Manager of WVBU for a full year, Roger Nieman will officially leave office on February 18, at a General Meeting of WVBU to be held in Spots Auditorium. This meeting is for the purpose of electing the new members of the Board of Directors of the station.

Aside from his normal duties of selection and training of the Board of Directors and coordinating their functions properly, Rog went further and instituted the procedure of Supervisorships under the Directors for the purpose of future training and better service to the Bucknell campus. He also initiated the idea of broadcasting all home and most of the away basketball games and he sold the advertising required to finance these games.

In order to provide better broadcasting facilities for the station and to insure the campus with even better radio listening, Rog started the ball rolling in a plan to move WVBU to a more desirable location on campus. While he may be gone by the time the move actually occurs, his interest and desire to aid the station will not be forgotten. To round out his complete devotion to WVBU, Rog, who has a prodigious knowledge of popular music, orders and records the new records that are purchased by the station.

Touche Announces
Second Cash Contest
Open To Students

The staff of Touche would like to remind all Bucknell students that its second Cash Contest is now underway and will end on February 24. For all interested students the rules are the following:

I. POETRY CONTEST
A. Requirements:
1. Any theme.
2. Any length.
B. Deadline: Monday, Feb. 24.

II. STORY CONTEST
A. Requirements:
1. Either truth or fiction.
2. At least 1500 words or more in length.
B. Deadline: Monday, Feb. 24.

All typewritten copy may be submitted to one of the following: Maryanne Bunker, Box W-276; Nancy Umholtz, Spanish House; Phil Nerhood, SAE House. Cash prizes will be awarded separately for EACH contest:

1st prize \$25
2nd prize \$10
3rd prize \$5
4th prize \$5

All material received becomes the property of Touche magazine.

PARIS CHILDRENS' ART

The drawings by Parisian school children. The drawings, obtained through the Cultural Services of the French Embassy, were selected from the work of children in the French schools. The entire set of drawings were first exhibited in the New York Library and then was broken into lots which are currently appearing in more than 150 places about the country.

The pictures are particularly interesting for what they reveal about the French child and the contrast they provide with the work of the American children of the same age. In return for these pictures, the United States will send to France a representative group of paintings by American children.

case, so likable. The filter is great. The flavor is marvelous. The Flip-Top Box is wonderful. The tattor is optional.

Decorating your diggings with familiar objects is an excellent remedy for loneliness, but it is not without its hazards. Take, for instance, the case of Tignor Sigafos and the Pleasant Ranch who were assigned to share a room last fall in the Freshman dorm.

Tignor, an ice-scaping addict from Minnesota, brought with him 44 barrels over which he had jumped the previous winter to win the Minnesota Jumping-of-a-Barrel Championship. Estabrook, a history major from Massachusetts, brought Plymouth Rock.

Well sir, there was simply not enough room for 44 barrels and Plymouth Rock too. Tignor and Estabrook fell into such a violent quarrel that the dorm was kept awake for twelve days and twelve nights. Finally the Dean of Men was called in to adjudicate the dispute. He listened carefully to both sides of the argument, then took Tignor and Estabrook to their ears and sold them to gypsies.

Ellis Rocks With Raiders

Bucknell's Ellis Harley goes high in an attempt to bring down a rebound. Two Red Raider's battle with him as Colgate's Russ Brummen looks on.

Bisons Stop Colgate Five

The Bucknell varsity basketball team climbed back over the 500 mark again last Saturday night with an exciting 76-71 win over the visiting Red Raiders from Colgate in a game played on the home court of the Bisons.

The Herd now sports an 8-7 record after sustaining three losses and two victories in the last five contests. The Bisons had earlier lost to Richmond, 61-63, while enroute to Lehigh, 55-51. Last night's game against Juniata was the last home game before the Herd embarks on a three game road trip.

Danzig Leads Bisons

Hal Danzig jumped his point total to 260 for the season last Saturday night as he poured in 23 to lead the Bisons to the victory over Colgate. Danzig also used his 6-6 frame to advantage as he grabbed 13 of his season's total of 229 rebounds. The 225 lb. workhorse from Rochester, N. Y. dropped in a vital two-point shot with seconds to play to help insure the Bucknell victory.

Herd Forced To Rally

The Bisons had more trouble than was expected from the upstate New York team and after a tough and go first half the Orange and Blue was forced to rally to hold a 41-40 lead at halftime. The Red Raiders hit with regularity from all over the court and the visitors had no trouble driving through the Bison defenses for the easy layups. Tommy Thompson aided the Bison cause with some fine outside shooting as well as setting up the offensive patterns of the home team.

CIVIL SERVICE OPPORTUNITIES

The United States Civil Service Commission announces that there is still need in the Federal service for Engineering Aids, Physical Science Aids, Engineering Technicians, and Physical Science Technicians. The salaries range from \$3,175 to \$5,440 a year.

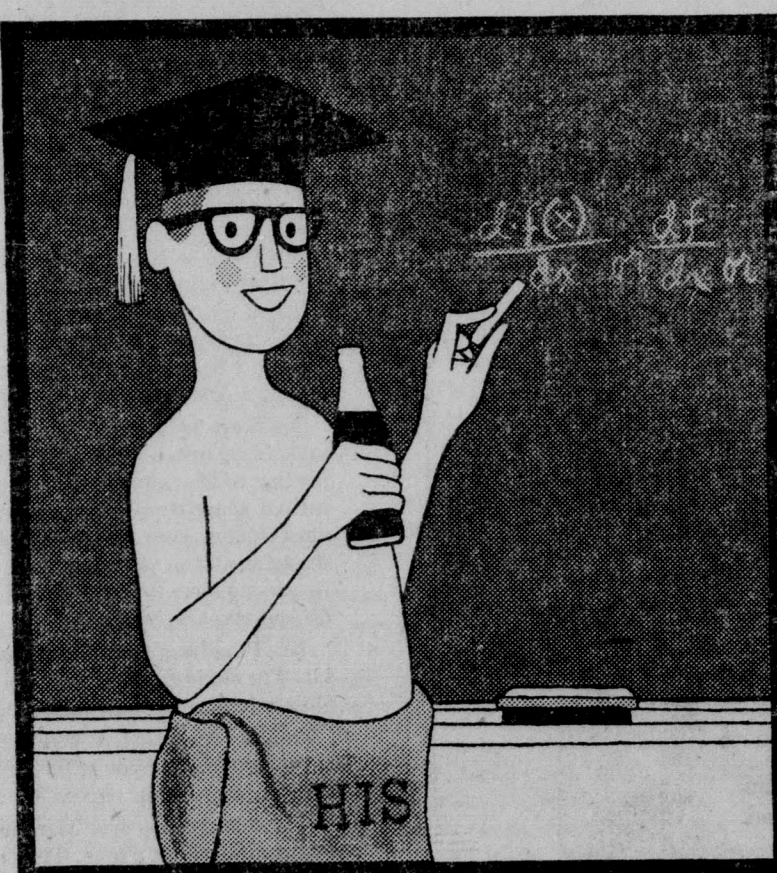

To qualify, applicants must have had appropriate experience or a combination of education and experience. For positions paying \$3,670 and below appropriate education alone may be qualifying.

Further information and application forms may be obtained at many post offices throughout the United States, or from the U. S. Civil Service Commission, Washington 25, D. C. Applications will be accepted by the Civil Service Commission in Washington until further notice.

Funeral processions on foot have been banned in a French city, but no such rule is needed over here, where few would attend funerals if they had to walk.

The return to form of Jack Flanagan, the junior guard, boosted the Bison offense considerably as he cracked out of a disturbing slump with a 17-point volley that included the two foul shots that shattered a 71-73 stalemate in the final 40 seconds. Flanagan also stole the ball to return the lead to the Bisons after the Colgate squad had taken a 71-70 lead.

Danzig led the Bison attack with 25 points while Thompson added 14 and Flanagan had 17. Danzig moved his season's average to 17.7 with this performance.

Absent-minded Professor

Not so absent-minded when you get right down to it. He remembered the most important item—the Coke! Yes, people will forgive you almost anything if you just remember to bring along their favorite sparkling drink—ice-cold Coca-Cola. Do have another, professor!

BISONS BEAT INDIANS, 88-58

The Bucknell varsity basketball team raced its way to its most one-sided basketball conquest of the current season last night as the Bisons scored a lopsided, 88-58 victory over the Indians from Juniata College in a game played before a small crowd at Davis Gym.

Bisons Seize Leads

The Indians, who lost two of their top scorers last week through academic troubles, were never in the lead throughout the entire contest. The Bisons, aided by fantastic shooting from the floor, took leads of 9-0 and 12-2 in the opening minutes. The Herd was very relaxed because of the weak opposition and Bucknell continued to widen the lead until the first quarter ended with the BU Bisons on top by 18 points. At this point Hal Danzig, who had scored 12 quick points and dominated both boards, was removed along with the rest of the starting team.

Heading Tops Indians

Juniata's only offensive weapon in the first half was 6-4 freshman Jack Heading who scored 9 of his team's first 10 field goals. The game developed into a running match with both teams tearing down the floor in fast breaks. The Bison offense clicked very well and the Herd took a 49-22 bulge at intermission.

Throughout the second half coach Ben Kribbe of the Bisons cleared his bench but the eager Bisons maintained the offensive touch and took leads of 63-38, and 75-44. Heading vainly attempted to keep the Indians within respectable reach but the effort was fruitless.

Bucknell's league forward, Bob Erickson, played his best offensive game at college and led the Herd with 22 points. Bob Salankiewicz was second for the Bisons with 16 markers. Heading topped the Indians with 25 points while Gordon Ewers chipped in with 12 for the visitors.

Phi Gams, Phi Psi's In Finals Tonite

by Doug Grigg

Intramural basketball resumed action this past week at Davis Gym. On Monday, February 10, the semi-finals of the fraternity basketball league got under way with the SAE's playing the Phi Gam's and the Phi Psi's opposing the Summites.

The game between Sigma Alpha Epsilon and Phi Gamma Delta was a very spirited contest in which both teams scrapped right down until the final second. SAE led at halftime by the score of 14-9, but as the last half got under way the Phi Gam's quickly took the lead. Jack Brothers of SAE was the high scorer of the game with 14 points. Both teams should be commended for their excellent showing and their team spirit. The game was won by the Phi Gamma Delta in the second overtime period largely due to the efforts of Fred MacDonald.

In the other semifinal basketball match the Phi Kappa Psi's emerged victorious over Sigma Alpha Mu by the narrow margin of 38-34. This game was also another excellent display of team spirit. Herbie Kallenburg was the top scorer of the game with a total of 21 points. Albee

The Phi Kappa Psi's defeated the KDR's at the American Legion to win the fraternity bowling championship. Next week Phi Psi will play 12BW who emerged the victors of the freshmen bowling league. The first game will be played Monday, February 17, at the American Legion. The second game will be played at the Campus bowling alleys. The match will consist of six games with the winners earning the

Just sitting in traffic is particularly maddening because that's one of the least attractive places in the world for sitting.

Bisons to Wrestle Haverford

The Bucknell wrestling squad will place its perfect record of four wins and no defeats on the line this Saturday afternoon at 2 p. m. The Bisons will take on the Haverford wrestling team.

Freshman Baseballers!

Meeting of all freshmen interested in baseball at 5:00 p. m. on Friday, February 14 at the Davis Gymnasium.

Baseball Candidates Report

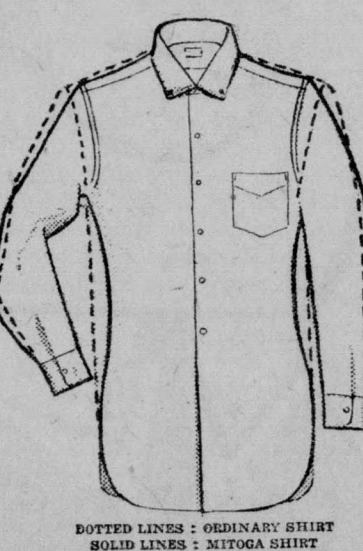

Varsity baseball candidates will report to Coach Rod Oberlin in Davis Gym on Friday, February 14, at 5 p. m.

For perfect fit... famous ARROW Mitoga® tailoring

Exclusive Mitoga® tailoring is made to order for a young man's "build". Has plenty of room for action. Yet fits trimly because it tapers to follow your contours from collar to cuff to waist. This *Glen* is a fine example. At your Arrow Retailer's, \$50.00. *Cluett, Peabody & Co., Inc.*

ARROW — first in fashion

See why you and Mitoga® are made for each other

Any style shirt fits perfectly—fits perfectly—when it's tailored the famous Arrow Mitoga® way. It's not only tailored to your body lines. It's tailored for action, too. See why... stop by today.

TANKMEN, GRAPPLERS UNBEATEN

SWIMMERS TAKE FIRST FIVE; BARRETT, FORSYTHE EXCELL

by Gene Meenan

Captain Latour's tankmen rolled to their fifth straight triumph last Saturday by downing Swarthmore 53-33. In the week before exams, the tankmen took F&M 57-29 and University of Delaware 49-37. With the exception of the University of Delaware, the scores have been very one-sided.

In all three meets as in the previous one the stalwart performers were all underclassmen who will be back next year. Doug Forsythe dominated the diving event in all three outings, and battering Bob Erdahl, sprinter co-captain Bill Barrett and backstroke Bob Buys excelled. Of course one must not forget to mention the other members of the squad who have done an excellent job so far this season and in all probability will continue to combine their efforts to extend the winning streak over the rest of the opponents.

In the first home meet against F. and M., the crowd witnessed a fine exhibition of swimming with many school and pool records being tied and broken. Co-captain Bill Barrett paved the way by tying his own record in the 100 and breaking the school record in the 50. Bob Erdahl, Bill Scribner and Bob Buys contributed to the record-breaking meet by breaking the 200 yard butterfly, 200 free, and 200 back.

The team is very rapidly becoming one of the strongest and newest consistent winners here at the 300 acres. Let's go out and support the team in their next home meet. I can assure you, you won't be disappointed.

the PRIVATE EYE

by Sue Van Pelt & Kathy Crossett
Wedding Bells—Betty Barber and Bruce Bowker.
Congratulations to—Bob Farringer, KS and Nancy Anderson, Philadelphia; Gene Waldner, SC and Betty Lou Hubler; and George Brown, SPE and Barbara Miller, Penn State.

Best Wishes to—Fred Bioren, DU and Ann Sturgeon; Bob Hubbard, DU and Pat Kennedy; Betsy Manning and Cadet Don Fitchett, West Point; Randy Bliss, KS and Lynne Coffin; Chuck Coffey, PGD and Buzz Martin; Bob Kaye, SAM and Pat Hall; Neil Murphy, SC and Amelia Rose; Ron Fulmer, TKE and Suzie Reed; John Pipta, SPE and Glenda Dornale.

OUT TO DINNER—**Kappa Delta Rho**—Carole Brozey, Joan Hendrickson, and Mary Lou McConnell.

Phi Kappa Psi—Sandy Glenn, Betty Willis, Jackie and Diane Meredith, Karen Reynolds, Joe Perrotti, and Ginny Notari.

Phi Lambda Theta—Diane Krojovic, Ellis Michaels, Georgia Rice, Lois Ifert, Barbara Fitz, Carol McMahon, and Ellie Body.

Sigma Alpha Epsilon—Shirley Townes, Nancy Griggs, Nan Van Glahn, Judy Angelo, and Don Shaver, '57.

Sigma Alpha Mu—Dean Meyn, Mr. Noroff, Jean Ferris and Gene Meenan.

Sigma Phi Epsilon—Mr. and Mrs. G. K. Straub, Dick O'Brasky.

Reminder to Seniors in Ed. Dept.—The National Teachers Examination will be given on Saturday, February 15 in the Olin Science Building. The common tests which every prospective teacher will be required to take will be given from 9 to 12 a. m. and the specific subject matter tests from 2 to 4 p. m. Thirty Bucknell seniors will take the exam at this time.

Tau Kappa Epsilon—Judy Hanson and Judy Weber.
RECENTLY ACTIVATED—**Kappa Delta Rho**—Walt Buchert and Fred Haeig.
Alpha Chi Omega—Jourdy Bates.
Phi Mu—Marie Mastorakis and Gail Whitehead.

GEORGE L. HERSEY INTRODUCES PLAYS

George L. Hersey, instructor in art at Bucknell University, will provide a series of introductions to new editions of six well-known English plays to be published shortly by Barron's Educational Publishers.

The plays include "School for Scandal", "She Stoops to Conquer", "The Rivals", "The Way of the World", "Volpone", and "The Importance of Being Earnest".

Mr. Hersey's introductions will deal specifically with the staging, scenery and costumes of the plays when they were first produced. Students encountering the plays for the first time will then be able to visualize the proper settings and dress demanded by the era.

Mr. Hersey will also provide diagrams of the working of the scenery in each different phase of theatrical history covered by the series.

Professor Vincent F. Hopper of New York University is editing the texts and adding descriptions of the movement and expression of the characters as a further aid to students in understanding the dramas.

Each play will be issued as a complete book in paperback format. Publication is set for the spring.

Civilization at its most comfortable is illustrated by the "No Smoking" sign which covers the law yet is totally disregarded.

College Students Offered Summer Jobs

"Summer is a'cumen!" College girls and women graduate students interested in summer jobs which combine scholastic values with opportunities for outdoor living will find thousands of openings awaiting them in Girl Scout camps.

Operated by nearly 650 Girl Scout councils throughout the country, these camps give 150,000 girls, seven through 17 years old, a chance to live, work and play with girls of differing backgrounds, in the informal atmosphere of the out-of-doors.

Hundreds of counselors over 18 years old are needed to share these wholesome experiences on a partnership basis. The basic requirements are good health, enthusiasm, patience, adaptability, and love of children. Candidates also must be in sympathy with the objectives and philosophy of Girl Scouting.

For students 21 years or older, there are numerous openings as unit leaders, waterfront directors, program consultants, food supervisors, health supervisors, business managers, and assistant camp directors. Camp Directors must be 25 or over. Salaries vary with the assignment and the candidate's previous experience, qualifications and training, depending on the length of the camp's season and the location of the camp; laundry and travel expenses may be included. A basic pre-camp training session of about five days' duration is provided for all staff members.

Many schools allow field work credit for Girl Scout camp jobs, toward degrees in such subjects as social work, sociology, education, science, physical education, and recreation. The experience furnishes invaluable insights into the attitudes and reactions of girls as well as a practical background for future participation in the growing school camp program.

College girls and women graduate students interested in an expensive free summer combining professional preparation with outdoor living should call the nearest Girl Scout office—usually listed under "G" in the phone book—for additional information on available openings.

Or consult your College Placement Office. For jobs in other areas, write to Miss Fanchon Hamilton, Recruitment and Referral Advisor, Girl Scouts of the U. S. A., 830 Third Avenue, New York 22, N. Y.

SPRING TOURS AVAILABLE

Wakefield Fortune Tours Corporation has just published their 1958 program of low cost, independent student tours for the Winter and Spring to Bermuda, Mexico, Florida, Canada and various Caribbean islands.

Once again, the tours have been specifically designed with students and other young people in mind, but are nevertheless available to anyone with a limited vacation budget. The tours are of short duration and are therefore particularly suitable for winter and spring recesses. Special "College Week" tours have been arranged for Bermuda, Fort Lauderdale and Mexico in the Spring.

All tours include round trip transportation from New York (appropriate rates from other cities), hotel accommodations, sightseeing, and most meals. Prices start at \$130 for the nine day Canadian Ski Week tour, all meals included.

Those who wish to travel South may choose from the one week tours available to Puerto Rico and the Virgin Islands, Florida, or Bermuda starting at \$175.00. A nine-day Mexican Holiday can be had for as little as \$235.00 including Mexico City, Cuernavaca, Taxco and Acapulco. The Caribbean Circle tour to Puerto Rico, Haiti, and Jamaica is \$268.

A particularly attractive feature for group organizers is that free transportation will be provided on any tour abroad for the organizer of a group totaling more than fifteen persons traveling together.

Folders on all these tours and further information may be had from your local travel agent; or by writing the tour operators, Wakefield Fortune Tours Corporation at 15 East 58th Street, New York City.

Our great leaders are disturbed by the radical notions of our allies, who seem to think the Russians don't want to get blown up, either.

Office. For jobs in other areas, write to Miss Fanchon Hamilton, Recruitment and Referral Advisor, Girl Scouts of the U. S. A., 830 Third Avenue, New York 22, N. Y.

Haines Accepts Speaking Dates

Dr. Wesley N. Haines, director of development at Bucknell University, who addressed the Greater New York Alumni Club of Bucknell at that group's Charter Day dinner in New York Wednesday evening, has accepted six other speaking engagements for the current month.

Dr. Haines will go to Philadelphia Sunday to speak at the Scout Sunday Service in the Holmesburg Baptist Church and will be in Milford Monday evening for a talk to the Twentieth Century Club there.

He will be the speaker Wednesday evening at the Tri-County Scout Award Dinner in Sunbury and on Friday evening at the annual dinner of the Union County Agricultural Extension Association at Vicksburg.

Dr. Haines will also speak at a luncheon meeting of the Williamsport Chapter of the National Conference of Christians and Jews, scheduled for Thursday, February 20, at the Locomotive Hotel.

Members of the Bucknell Alumni Club of Sunbury will hear the University's development director when he speaks at a dinner meeting of that organization Monday evening, February 24, at the Neff Hotel.

Westerns on TV have one great merit. They provide better background scenery than other dramas.

Chances of another depression do not frighten those who think that, like triplets, it can't happen again.

Fortunately, we

of the Union County Agricultural Extension Association at Vicksburg.

Dr. Haines will also speak at a luncheon meeting of the Williamsport Chapter of the National Conference of Christians and Jews, scheduled for Thursday, February 20, at the Locomotive Hotel.

...Newsmen Conference

(Continued from Page 1)

Can the Free Press and the Radio Free Europe be blamed for the Hungarian Revolt?

Theodore Kagan: Absolutely not! The Radio Free Europe kept alive the hope of liberation for the oppressed. It did not promise help. Its chief purpose was to keep the refugees in touch with their homelands. No specific broadcasts have promised Western Aid.

We must act as Christians, but (1) isn't religion considered to be for the masses chiefly? and (2) won't science eventually completely contradict religion?

George H. Conks: Love of fellow man comes close to putting in practice the religious concepts of all faiths. And science and religion are not incompatible. If we killed the spiritual aspirations of a people by science, we would be offering them people a false God in place of a deified value. This would not help to strengthen us, but rather, it would be weakening. We act in the interest of society, which exalts the individual. We can't negate moral principles, if we did we would be open to man's own caprices.

Is President Eisenhower a true leader or is he coasting on his past reputation?

Theodore Kagan: President Ike Eisenhower is not doing his job well. He is a good man but not a good President. One reason why this is so could be that he doesn't have all the facts at his hand all of the time.

...Burma-Bucknell

(Continued from Page 1)

relationship between the people of Burma and Bucknell University, awarded annually to an individual or group in the Bucknell family in recognition of a significant contribution to the ideal of brotherhood and good citizenship. The bowl will be presented to Bucknell during the Saturday evening banquet in Larson dining room and will be permanently displayed in the library along with the engraved names of its recipients.

In honor of the especially significant anniversary of the weekend, Ambassador U Win will give a reception Friday night, February 23, for Bucknellians and guests in Hunt Living Room. The reception will be in a formal Burma-Bucknell program are Dr. Roy Tasker and Corbin Wyant. Forrest D. Brown, executive secretary of the Christian Association is co-ordinator of the weekend.

"Moderation is the only virtue," says Charlton Ogburn, Jr., in the October Reader's Digest. "The other so-called virtues are virtuous only in so far as they are joined with moderation. To be overcautious is to be foolish. To be overactivity is to be parsimonious. To be overloving is to be doing. To be too unselfish is to weary the world with the spectacle of your martyrdom. To give a child, a mate or a friend too much attention or too little is equally disastrous. Self-abnegation and self-identification are both vices. To be thoughtful is to be incapable of action, and to be overactive is self-defeating and likely to prove fatal. Moderation is what counts."

Co-chairmen for the Burma-Bucknell program are Dr. Roy Tasker and Corbin Wyant. Forrest D. Brown, executive secretary of the Christian Association is co-ordinator of the weekend.

Members of the central committee for the weekend were hosts of the Burma-Bucknell program in Washington, January 4 at the formal celebration of Burma's independence.

CHARTER CELEBRATION MARKED IN FEBRUARY

The 112th anniversary of the "granting of the charter" which established Bucknell University is being celebrated by alumni clubs from coast to coast during the month of February, 1958.

This year, 29 of Bucknell's 68 alumni clubs have planned special celebrations of Bucknell's Birthday with many of them featuring guest speakers from the campus. Campus speakers at the celebrations this year include: Dr. Merle M. Odgers, president; Dr. Wesley N. Haines, director of development; Dr. Karl D. Hartzell, dean of the University; Mr. John F. Zeller, '41, assistant to the president; Mr. Robert A. Newcomb, assistant director of admissions; Mr. John H. Shott, '22, alumni secretary; and the following faculty members—Dr. Mark C. Ebersole, Dr. Frank W. Merritt, Dr. James A. Gathings, Dr. Raymond H. Young, '43, Dr. Manning A. Smith, Prof. William J. Whaley, Prof. D. Paul Souder.

Off campus speakers included: Dr. Horace A. Hildreth, former Bucknell president; Dr. Arthur L. Brandon, MA '27, vice president of New York University relations and Dr. Eugene P. Bertin '17, assistant executive secretary of the Pennsylvania State Education Association.

Alumni, students, parents of Bucknell students and friends have attended (or will attend) birthday parties in their home areas which include Reading, Lancaster, Philadelphia, York, Altoona, Lewisburg, Milton, Chambersburg, Harrisburg, Lock Haven, Sharon, Pittsburgh, Bellefonte, Sunbury, Johnstown (Penn.); Ocean-Monmouth, North Jersey, South Jersey, Atlantic City (New Jersey); Greater New York-Westchester, Capitol District, Long Island, Triple Cities, Buffalo, Syracuse (New York); Boston, Mass.; Baltimore, Md.; and Washington, D. C.

SPECIAL ENGAGEMENT
STARTING FRIDAY, FEBRUARY 14

Bucknell Includes Important Project In Science Training

Bucknell University is currently engaged in at least three important projects designed to meet the need for better scientific training for more young men and women. Dean Karl D. Hartzell announced today.

These include the third annual Susquehanna Valley Science Fair, scheduled for April, the second Summer Institute for High School Teachers of Science and Mathematics, and study by a faculty committee of the University's science offerings in the light of recent scientific advances.

"Although Bucknell does not believe in over-emphasizing science at the expense of the humanities and the social sciences, it feels an obligation to assume responsibility for improving the teaching of the sciences and for aiding the secondary schools in the identification and encouragement of youngsters of scientific ability," said Dean Hartzell.

The Institute for High School Teachers of Science and Mathematics made possible by a grant of \$47,000 from the National Science Foundation, is planned primarily to meet the needs of teachers in service who wish to improve their competence and to keep abreast of the rapidly changing body of scientific knowledge.

The Science Fair, co-sponsored by the West Branch Manufacturers' Association, seeks both to arouse a greater interest in science as a career and to discover potential talent among the students participating.

As part of the Bucknell Study, a review of the over-all academic program of the University, special attention is being paid to rethinking science training in view of the most recent contributions of physics to the total understanding of the physical universe, the Dean pointed out. This includes a study of the type and quantity of science courses desirable for the non-science student as well as for the science major, he added.

Radio Club Holds Elections

The Bucknell Amateur Radio Club recently held elections for the 1958-1959 school year. George Drake, K2FGC, was re-elected as President.

Mike Ingram, K2HCE, was elected as Secretary-Treasurer; Bill Bruce, W3HJO, as Station Manager, and Ken Parr, W3ETW, as Activities Manager.

The club now meets the first and third Wednesdays of each month in room 306 of the Engineering Building at 7 p. m. It has been decided that the first meeting of each month will be a regular business meeting.

The second meeting will be a meeting of interest to anyone interested in radio or electricity. These meetings will consist of talks by the club members' panel discussions, film strips, films, or an outside speaker. Suggested topics for discussion include, basic radio theory, antenna theory, single-side-band, and operating procedures of an amateur radio station.

The first of these informal discussions will be held on February 19, when Ken Parr will lead a discussion on antenna theory. Anyone interested in hearing and participating in this discussion is invited to come. (You do not have to be affiliated with the club in any way.)

The club is hoping that it will soon be able to become affiliated with the American Radio Relay League. It is necessary that 51 percent of the club members already belong to the league. The club will be able to benefit through membership in this league by obtaining free information on other clubs and on technical radio developments. The club will also be able to receive the league publication, QST, a radio amateur's magazine.

Guadalajara Summer School

The bilingual summer school, administered by members of the faculty of Stanford University, will offer, in Guadalajara, Mexico, June 30 to August 9, courses in art, folklore, philosophy, history, Spanish, and Hispanic-American literature. \$225 covers tuition, board and room for six weeks. For more information, please write to Professor Juan B. Rael, Box K, Stanford University, California.

CHEMISTRY PROFESSOR UNDERTAKES PROJECT

Dr. Harold W. Heine, professor of chemistry at Bucknell University, has received a Frederick Gardner Cottrell grant of \$1,380 from the Research Corporation to support a research project which he will undertake during the summer months.

The project, which involves changing the shape of a molecule, will continue an investigation of a chemical reaction that was initially observed by a German scientist in 1898.

As outlined by Dr. Heine, the project will be carried on over a one-year period. The grant from the Research Corporation will be used primarily for student assistance and for supplies needed to conduct the study.

Three Cheers For Miss Manhattan

Volume LX

MR. SHAW LOO'S DAUGHTER ATTENDS BURMA WEEKEND

The Burma-Bucknell program this year is the 100th anniversary of the first foreign student to study at Bucknell and the first Burmese to study in the U. S. A. For the occasion, the Asia Foundation is flying Shaw Loo's only living daughter, Elizabeth Shaw Loo, 63, to Bucknell. The Foundation has granted Miss Shaw Loo a trip around the world in memory of her father. She will be in the USA until May.

One hundred years ago, in the midst of the bloody Sepoy Mutiny in Burma, Maung Shaw Loo was advised by his teachers and elders to leave India. Born in January, 1859, he was the eldest son of U. Shwe Thet and Dew Hla of Moulmein, who were among the first Burmese Christians. Shaw Loo had always been eager for higher education and with the help of a missionary, he gained passage to the USA working on a ship as a waiter.

After arriving in New York, Shaw Loo came to Lewisburg where he enrolled in the English department of the Academy (the preparatory school). In 1859 he was admitted to Bucknell and became the first Burmese to study medicine in America.

During vacations Shaw Loo traveled a great deal, addressed many groups, and was called Burma's first (unofficial) Ambassador to the United States. After five years at Bucknell, he graduated with the Bachelor of Arts degree.

In October, 1867, President Andrew Johnson requested his audience to obtain a letter of recommendation to King Mipon of Burma. Shaw Loo returned to Burma in late 1867 and, after living as the

royal guest of the King for some time, he returned to Moulmein and opened a school in Martaban. He married Lucy Pereira, who died after the birth of her seventh child. Two years later he married Daw Shwe. Though offered higher positions in education, Dr. Shaw Loo wanted to serve as a physician. He expressed his desire to revive his alma mater but never got a chance.

On October 11, 1929, at the age of 90, Dr. Maung Shaw Loo passed away.

Miss Elizabeth Shaw Loo, daughter of Dr. Shaw Loo, was born at Moulmein, Lower Burma, March 3, 1894. Starting at the age of five, she attended the American Baptist Mission Morian Lane Anglo-Central School and the American Baptist Mission English Girls' High School from which she graduated in March, 1911.

In June of the same year, she went to Rangoon College where she studied for the Intermediate Arts, and in March, 1915, she successfully passed the Middle School Teachers Examination of the Anglo-Vernacular Normal School.

Miss Shaw Loo taught in the American Baptist High School from May, 1915 to May, 1917 and the American Baptist Mission Morian Lane High School from May, 1917 to May, 1918. Later she accepted a post in the Government High School, teaching English classes. To aid in the development of Burma's youth, Miss Shaw Loo pioneered in the Boy Scout movement and served for several years as Cub-Master of the Government High School, in Moulmein. From May, 1949 to September 1, 1955, she interrupted her retirement to teach at the Morian Lane Judson School.

A FIG
by Diane Collins
If like the greats of long ago
My mind a kingdom be,
Then happiness around me flows
For an eternity.

But, like unto a fig it be
All withered, warped and dry—
Empty, it offers naught to thee
Save ego—pity and sighs.

Alone, this soul is wont to drop
and grovel in the dirt.
Mankind, stop!
See it there; spare it further hurt.

Conroy's Corner

by Dave Conroy

It is very doubtful whether many of us have ever given any considerably searching thought into the true meaning of life, with all its extenuating connotations and inexplicable happenings. There are several different, valid philosophies on what life is, what it means, and how it affects us; all are theories, none are definitions. Therefore, before we even attempt to present the meanings and explanations of life, let's explore two different viewpoints concerning a basic fundamental about life—concerning its "surface characteristics"—before really delving into its underlying strata containing the more complex materials of which life is composed.

Basically, life (and the enjoyment of life) is clearly dependent on whether you are a clear, rational thinker or whether you are the common "dreamer". To the objective thinker, to the brilliantly capable intellectual, to the cold, calculating logical mind, life inevitably assumes a most empty meaning—a meaning not discovered simply because nearly everything can be explained through reason—but rather, because after continuously concentrated, logical thought concerning life's meaning, it is often finally found that life has no meaning at all. That is, if one thinks about anything that occurs in life far beyond its "surface significance", actually delving into that event's true meaning, it is usually found that the event really has no meaning at all.

Let's contrast this viewpoint with the viewpoint of the dreamer. The dreamer occupies by far the greatest percentage of any particular population of any society; the dreamer is the one who believes that life is so enjoyable and interesting, that everything has so much meaning, that every little event is crammed with significance. It is true that every event has more meaning than what the so-called "average" mind can conceive; but the dreamer sees all the meaning of an event on the surface—which is completely fallacious. On the other hand, the thinker, after more thought and investigation concerning a particular event, finds that the event does hold a great deal of meaning—a meaning which, when further "boiled down" to its basic, concentrated elements, inevitably leads us to the inescapable conclusion that the event has absolutely no meaning at all. Thus we are faced with an unresolvable paradox—the reason life is so meaningful is the fact that life really has no meaning at all.

Though this discussion is worthy of much more thought and more complete explanation and illustration, the limitations of space require an illustration that is oversimplified. Therefore, let's employ an illustration of love and sex to demonstrate the preceding theory, simply for the sake of illustration. We'll use "love" as the way of thinking of the dreamer, and "sex" as the point of view of the objective, truly rational thinker.

A young man has just met a stunningly beautiful young woman, who possesses an amazing degree of intelligence, admirable character, so-called "personality", and the remaining desirable forms of the "social graces". He sees her as often as possible, spends many happy moments with her, then finally parts company with her—the end of a beautiful dream. The following is how the dreamer would explain the entire affair:

"Her every movement was in itself a challenge to find out more about her. She was undoubtedly the most strikingly beautiful creature I had ever met. She was the first woman I'd known who not only stimulated me physically and emotionally, but mentally as well. She was an inexplicable enigma in whom I'd become impossibly entwined. Gradually, progressed to the point where I was happy only when I was with her. I had to see more and more of her. We spent more time together—the plays, dances, dancing, countless nightclub dates. We spent a weekend by the sea, just we two, and I never knew that life could be so meaningful or enjoyable. For once in my life, I could really say that I was in love. But the day finally came—I guess we both still don't know how or why—when we gradually separated, and thus came the end of a beautiful dream."

Now let's see what the objective thinker would say about the very same situation.

"I gradually realized that I could become helplessly, emotionally involved with this beautiful woman. But then this little play fell into the same old routine. It was the conventional parabola—sentiment, the touch of the hand, the kiss, the passionate kiss, the feel of the body, then to bed, then more bed, then less bed, then the inevitable boredom, tears, apologies and the final bitterness."

Federal Aid For Education . . .

President Eisenhower recently submitted to Congress a bill providing for Federal Aid for Education. Through scholarships and grants, \$1,000,000,000 would be distributed over a period of four years. This would be used primarily to encourage capable high school students to continue their education, to strengthen the science, math, and foreign language departments in public schools and to increase the number of graduate fellowships. (The program, termed "temporary" by the President, has been planned to meet a shortage of competent mathematicians and language specialists and, in addition, to foster those who show exceptional scientific ability. The problem of national security caused the Administration to take a new interest in education, since Russia's startling technical prowess was revealed in Sputnik).

It has been estimated that each year approximately 10,000 gifted students leave high school and do not go on to college for financial reasons. This bill would curb this costly loss of potential. By our very presence here at Bucknell, we are exempt from the 10,000. Most of us are here because Dad is back home sending in the tuition checks. A good percentage of us not only have no exceptional ability but also are lacking in a sincere scholastic interest. We came to college because it was the "thing to do." Perhaps the \$1,000,000,000 to be offered by this bill is the beginning of a trend to insure the gifted of a college education. These high school students who have exceptional ability plus a sincere desire to continue their education will provide stiff competition for the mildly enthusiastic high school senior applying to universities such as Bucknell.

This bill patronizes specialization because if the United States' present aim of strengthening our armed forces and improving our weapons is to be realized, special, though not exclusive, attention must be given to engineering or scientific education. This section of the bill appears to reflect a general trend in education towards specialization. This would put popular liberal arts' objectives into the background. The specialist who could perfect the fourth rocket stage would be more valuable than the man who could think of the dire effects that this rocket would have on the morality of forthcoming generations.

Furthermore, this emphasis on specialization will press college students to have specific vocational objectives. This effect of the bill is decidedly positive, when one considers that many of today's college seniors seek temporary employment or look toward serving in the armed services as a welcome respite in which they will be given more time to think about their future. And this is after four years of planning, supposedly, for this nebulous future.

Bucknell Participates In Howard Exchange

Bucknell will participate in two of Cowan, attended a concert and an exchange weekends with Howard party at a fraternity house, and participated in group discussions.

I detested the mise-en-scene for each of these acts in the play—the meeting at a party, the restaurant, the taxi, my apartment, her apartment, then the weekend by the sea, then my apartment again, then finally the future alibi and the final pathetic farewell on some distant shore in the heart of the desert. I was not alone. Obviously, you fancy yourself in love because you want to be in love. It's something different, something to make life's boring routine a little more interesting—to lend variety to your day's or week's events. You really can't intelligently say that you're "in love" and one might even venture to say that the mate one finally picks for marriage, as much as the idea destroys our little dream-world, is not a unique person and could be easily duplicated by several others.

Life, then, is for the dreamers. Dream on.

THE MAN FROM ALLIED HAS FACTS YOU NEED

Thinking hard about what's ahead after graduation? You probably have some idea about industries, companies, jobs . . . futures. But you need facts.

Check that date below—the Allied interview will be here soon, ready to do some straight talking about your future. It's worth a half-hour to look into a company that has a dozen research laboratories, over 100 plants, and a nationwide network of sales offices. It's worth learning about the room to grow at a company that makes more than 3,000 products . . . chemicals, plastics, fibers, and new ones every year. What kinds of jobs? Which locations? Which products? What sort of future? For the facts you need,

SALARY TOTAL HITS ONE MILLION MARK

Salaries and wages paid by Bucknell University in 1957 totaled more than one and three-quarter million dollars, according to figures released today by John F. Zeller, assistant to the president and chief business officer of the institution.

The total of Bucknell's payroll last year was \$1,854,496 paid to 457 full-time and 107 part-time members of the University faculty and staff, Mr. Zeller reported.

This figure does not include the salaries paid to the 16 officers and enlisted men of the R. O. T. C. staff who receive their pay directly from the U. S. government.

With an operating budget of near-

ly three and one-half million dollars, Bucknell was enabled, through gifts from alumni and friends, to again close the year "in the black" with a slight operating surplus.

During the year 970 students received some form of financial aid in the form of scholarships, grants, employment or tuition remission to children of faculty members and employees.

"THE BUTT-DOWNED" by Diane Collins
Oh, butt-downed affere,
Why mock you all
Which calls
Upon your matter grey?
To weigh
Things worth while?
Why give that stupid smile
And why of ignorance stink
When need you all to do is think.

Grant Received For Research Job

Bucknell University has agreed to undertake a special research project for the U. S. Air Force, Dean Karl D. Hartzell announced today.

To conduct the project, the University has been awarded a grant of \$25,000 through a one-year research contract with the Aero Medical Laboratory of the Wright Air Development Center of the Air Force.

Facilities of the University's chemical engineering department will be utilized for the research program which will be concerned with studies of human learning and performance in motor coordination under unique experimental situations involving the manipulation of spatial orientation.

The research will be conducted by Major Harwood J. Rhodes, University Research Fellow, Dr. Octave Levenspiel, associate professor of chemical engineering, and Dr. Harry L. Jacobs, assistant professor of psychology.

Dr. Jacobs has been given a leave of absence from his teaching duties during the current semester in order to devote full time to the project.

New Hall Reps Attend First Mass Meeting

Newly elected WSGA hall representatives attended their first meeting last Thursday, February 13.

Representing their hall groups for the first time this semester are: Ruth Walker, Lynn Powers, Nancy White, Jane Kohl, Barbara Fracassi, Karl Singleton, Diane Kraybill, Ann Carothers, Joan Piersol, Linda Speidel, Judy Wheat, Joan Clark, Linda Thompson, Beverly Swingle, Gail Gallbraith, Jane Klock, and Kay Cavitch.

New freshman hall reps are: Mimi Armstrong, Joanne Harris, Gail Kenny, Ann Kinsgbury, Susan Kilgore, Kathryn Gibson, Norma Harris, Cary Adams, Sara Geiger, Nancy Fisher, Betty McLaughlin, Marilyn Morgan, Marie Monsen, and Betty Lewin.

The whale breathes through the top of its head.

SECOND SEMESTER TOTAL ENROLLMENT SHORT 2000 MARK

A total of 1,925 students have enrolled at Bucknell University for the second semester of the college year, Registrar George R. Faint reported today.

Late-comers, including special and graduate students, will probably bring the final enrollment figure to about 1,940 men and women, or about the same number as that reported for the second semester last year.

With the dose of the first semester, 41 students completed the requirements for degrees and will receive their diplomas by mail, since the University does not hold mid-year graduation exercises.

Bachelor degrees will be conferred upon 38 seniors and master's degrees upon 5 graduate students who finished their studies, according to Dean Karl D. Hartzell.

The number of students who completed the first semester's work in good standing is about the same as that reported for last year, the Dean said. Of the total number registered for the first semester, 62 students were declared scholastically ineligible to continue for the second term, as compared with 64 students last February.

Included in the 62 dropped for scholastic deficiencies were 32 freshmen, 14 sophomores, 12 juniors and seniors, and three special students. Last year, 43 freshmen were declared ineligible to continue for the second semester.

CAPT. AND MRS. ECKBERG PREPARE LATIN DINNER FOR SPANISH HONORARY

The members of Sigma Delta Pi, Spanish honorary, were invited to hold their February fifth meeting at the home of Captain and Mrs. Eckberg. The meeting was preceded by a typical Venezuelan dinner prepared by the Eckbergs.

Following dinner Miss González and Lynn Miller showed colored slides of high points in their recent visits to Spain.

MATMEN 6 AND 0

BEST TEAM IN HISTORY OF SCHOOL, BOASTS FOUR UNDEFEATED GRAPPLERS

by Strat White

The Bucknell matmen extended their winning streak to five by trimming Haverford 23-3. The Bisons won the first seven weight classes before losing in the heavyweight class. I was very much surprised and disgusted with the number of spectators at the match. This is without doubt the finest wrestling team in the history of this school but unfortunately not enough people care. Is it possible that they (the students) will not go to the wrestling matches because they are left with nothing about which to complain? I suggest that the student get used to this because this wrestling team is going to be around for quite a while.

Kenny Wightman started the snowball rolling in the 123 pound class by defeating Lesser 7-4. Ken looked very impressive in this first match. John Ayre remained undefeated (3-0) in the 130 pound class by controlling Wasser 4-2. The score was not indicative of the contest. Ayre tried very hard to pin his man, but his opponent would not make a match out of it.

Roland Bell continued his winning ways by crushing Luthern 10-3 in the 137 pound class. Pete Fritts picked up his second pin in a row at the expense of Kleinberg. Pete wrestled a very fine match and he looked very polished.

Captain Larry Dempster kept his name among the undefeated by defeating Pennell 5-0. Dempster continued to wrestle in his usual steady machine like manner. He applied his well known tight waist and made his opponent feel as though he were grappling with a box-constrictor. Dave Murdock did his best to make

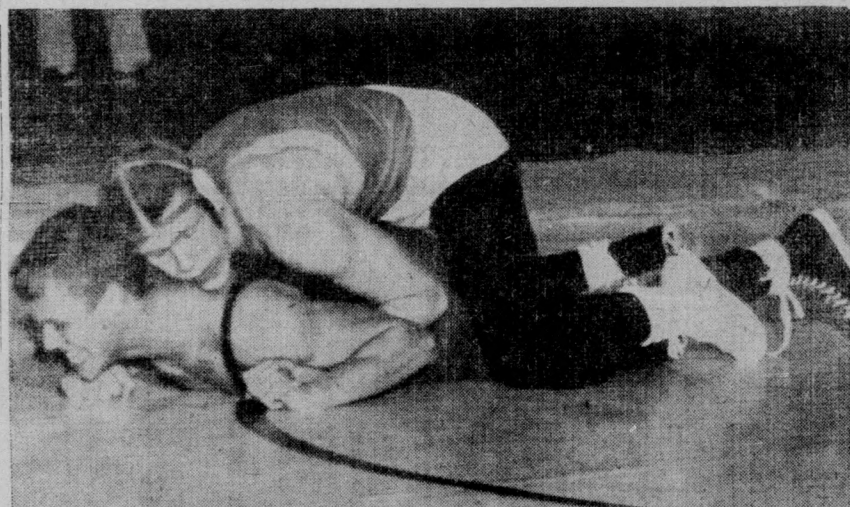

fool of his Haverford rival by clowning to a 4-0 decision over Schanbelan. Showboat as he may be, Murdock is a fine wrestler and is among the unbeaten.

Grant Watkins wrestled his finest contest this year in the 177 pound class by defeating Ralph 4-0. Watkins seemed more inspired in this match than in his previous contests. Edue Duval lost to a bigger and stronger opponent who answers to the name of Kutowitz. Edue gave it all he had but was outmaneuvered by 6-2.

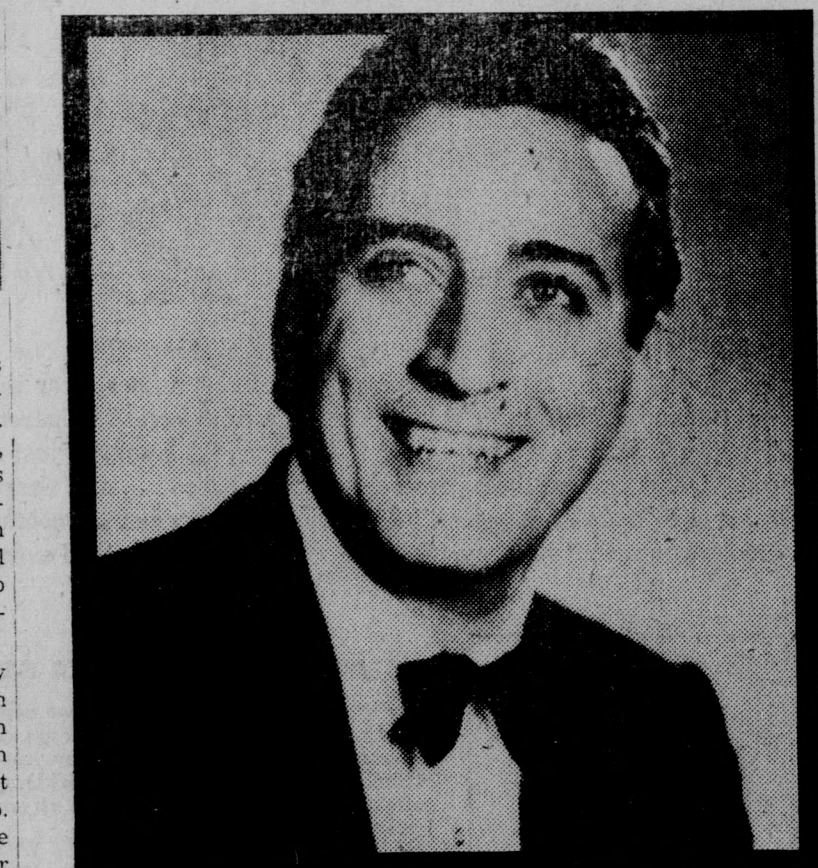

BU Wrestlers Whip G-Burg While the tank team suffered its initial setback, the Bucknell wrestlers turned back Gettysburg on the mat Wednesday night, 24-7. They need only to whip Delaware's Blue Hens at Newark, Delaware Saturday to complete the first undefeated season in the University's history. The Bisons' six conquests to date are already more than any previous mat entry was able to record.

John Ayre, 130 lbs. from Bethlehem; Larry Dempster, 137 pounds from St. Charles; and Dave Murdock, 167 pound product of DuBois, rank their individual marks to 6-0 by bouncing their Bullet foes. The talented trio will see its final action on

Highriding Bison

Bison wrestler ties up his opponent in a match against Haverford. The Bisons won their fifth straight victory by defeating them 23 to 3.

SAE Still On Top; Gam's In Second

Phi Gamma Delta moved into second place in the intramural race last Thursday night by winning the intramural basketball championship final from Phi Kappa Psi 38 to 32. Playing possession ball and controlling the rebounds to stop the Phi Psi fast break, the Phi Gamers received plenty of scoring punch from Jack Werner 11 and Fred McDonald 13, who repeatedly tallied with jump shots. Phi Psi, sparked by the fine floor play of Terry Carlson stayed close, but could not match the all around balance of the Phi Gamers.

Phi Gamma Delta will meet 234-EW (who defeated E. College, 33-24), the freshmen champs on Thursday night for the school championship. Phi Psi won the school bowling championship by downing 12BW by 309 pins in a 6-game contest.

Bus Blum has announced that the volleyball league will begin March 4. Contact Ken Mabius for sign-ups for February 24, 27 and March 3. The two divisions are as follows.

HOOPSTERS SPLIT

by Bill Scott

The Bucknell varsity basketball team split in two away contests last weekend to move its season's record to 10-3 with six games remaining on the schedule. The Bisons easily defeated Westminster, 80-66, but had their four game winning streak stopped by Carnegie Tech, 61-50.

Bisons Top Westminster
On Friday night the Herd, aided by a 43 shooting average, beat a normally tough Westminster team on its home court, 80-66. The Bisons took an early 19-11 lead and held off a late surge by Westminster to hold a 45-35 lead at the halftime. During the second half the Herd began to fast break effectively and ran the margin to 63-50. Jack Flanagan, who made good on 12 of his 18 shots from the floor, teamed with center Hal Danzig to register six driving layups for the Bisons.

Flanagan, who is presently in a sizzling scoring streak, has registered 81 points in his past four games and he now rates second in the BU scoring for the season. The Bisons opened up leads of 15 and 20 points before the home team closed the final gap to 14 against the Herd's reserves.

Tech Upsets Bisons
Carnegie Tech threw a surprising effective zone defense against the Orange and Blue on Saturday night and proceeded to hold the visitors to a 27 average in field goal attempts as the Pittsburgh team stopped the Bisons, 61-50. The only Bucknell player who was not stopped by the zone defense was the

red hot Flanagan who hit on 10 of 23 shots for 22 points.

Hal Danzig, the high scorer for the Bisons, made only one of his 12 shots and ended the evening with 4 points. However, Danzig, who had tallied 21 against Westminster, hauled down 20 rebounds to add to his imposing total for the year. The Bisons rallied from a 36-23 deficit at halftime to trail the Engineers, 46-45 in the second half but the Herd had trouble scoring and the home team pulled away to win by 11 points, 61-50.

Lions Present Problem
In the game against Penn State last night the Bisons met a team which had been both up and down during the season. The Nittany Lions gave mighty West Virginia a terrific battle last weekend before bowing, 74-71, on Saturday night. The Lions had bounced Gettysburg, Penn. and Syracuse in succession before meeting the Mountaineers, and they now own a 7-7 log for the season.

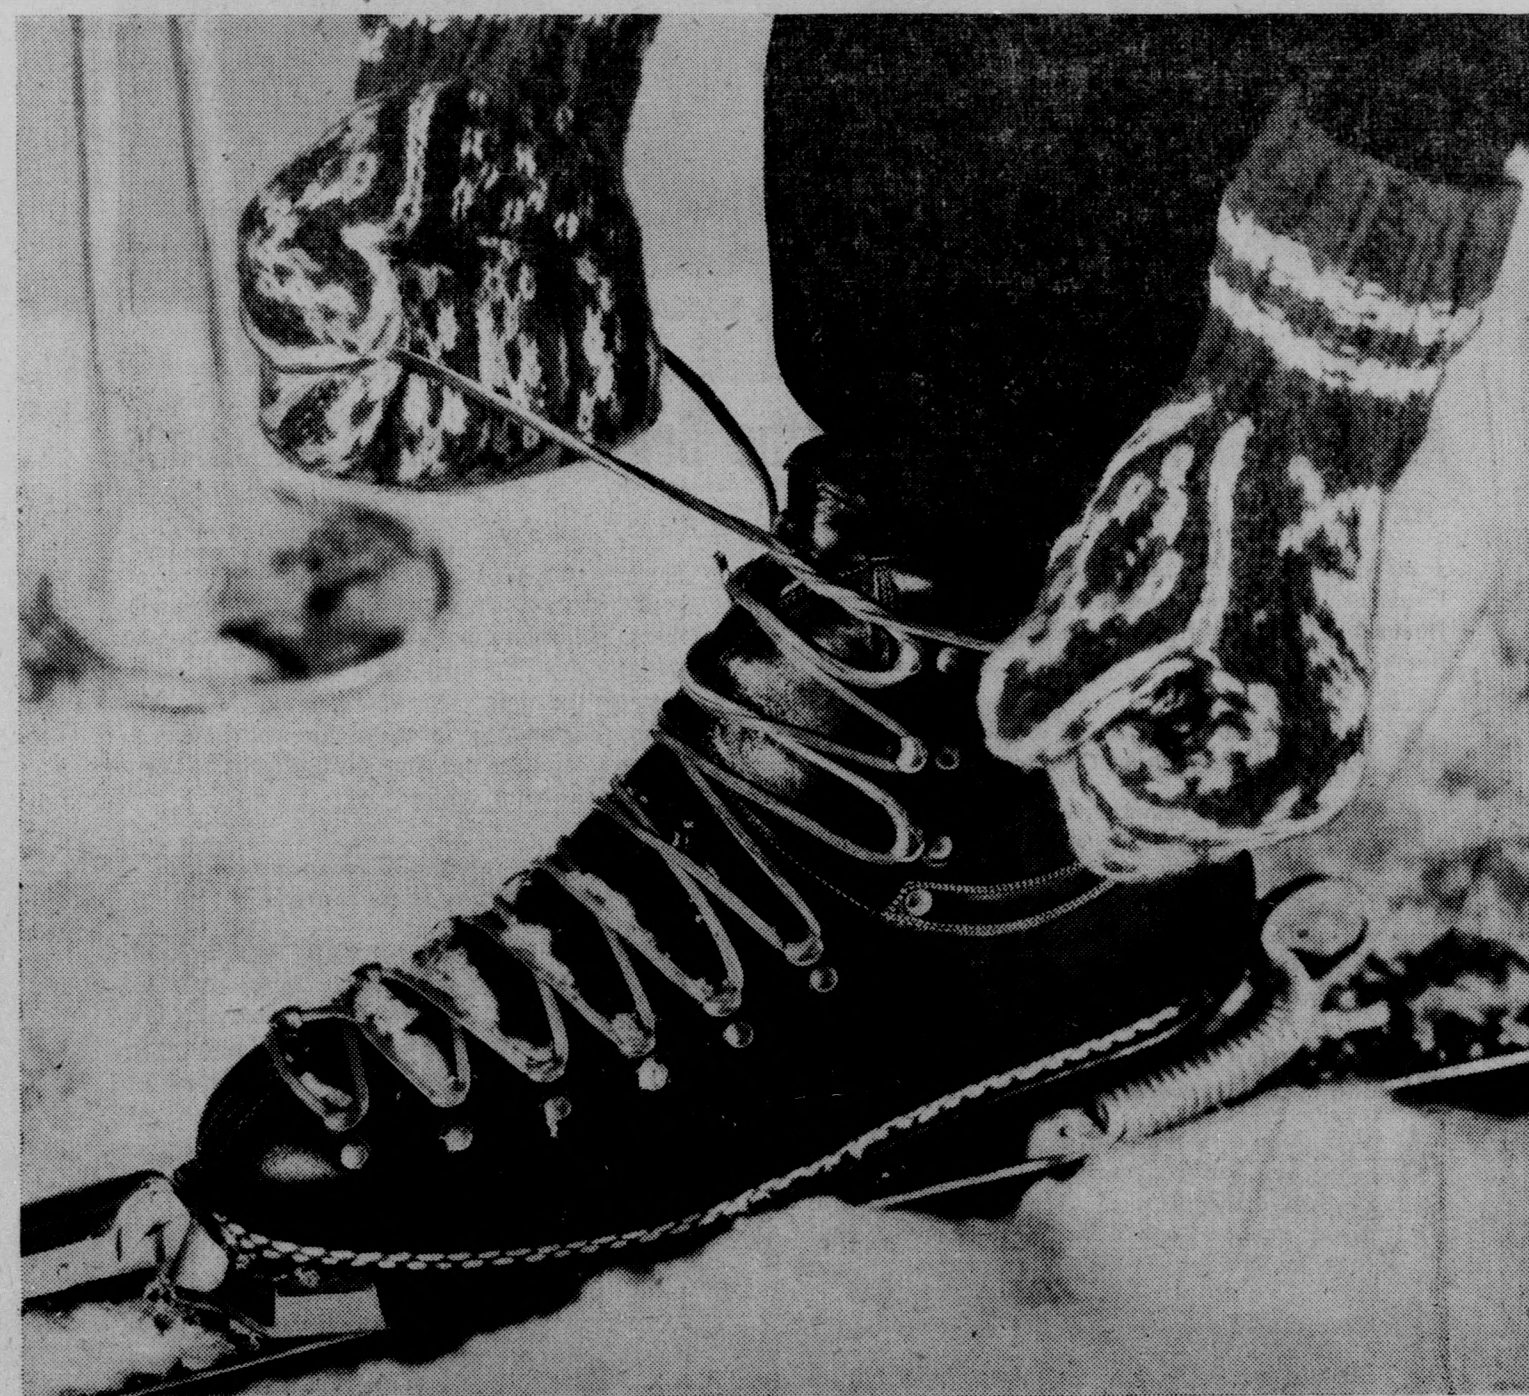

Bisons Meet Leopards
The next game at Davis Gym will be on Friday night when the Herd meets Lafayette College, a team which beat the Bisons in two overtimes earlier in the season. The Leopards have stopped the Bisons in 26 straight contests and this game appears to be the Bisons' best chance in recent years to end the streak.

The Middle Atlantic Conference Swimming Meet will be held at the University this February.

ESSO RESEARCH works wonders with oil

Laces and leathers and dozens of things

Ski boots lace easier and faster, stay comfortably tight. They do so because the rawhide leather has been made more pliant with a special treatment perfected by Esso Research. The leather in the skier's boots, the wool in his socks—even the lacquer on his skis—were also made better with the help of other products derived from oil. ESSO RESEARCH works wonders with oil.

BISONS STOP LIONS, 63-56

The Bucknell University basketball team scored its most impressive victory of the year last night by scoring a 63-56 decision over the Nittany Lions of Penn State University in a game played before a large crowd at State College.

Bisons Seize Lead
The Bisons took a 18-14 lead after 10 minutes but the Lions took a 20-19 lead after 15 minutes on a jump shot by Bob Edwards. Center Hal Danzig of the Herd scored on a loose ball at this point and the Bisons took a 21-20 lead; a lead which was not to be lost for the remainder of the contest.

BU holds Halftime Lead
The Lions rallied to close an 8 point bulge by the Bisons after 17 minutes in the opening half but Bucknell forward Ellis Harley scored on a push shot and then stole a Lion pass to score on a full-court driving layup. The Bisons held a 32-28 lead at the intermission.

Lions Close Gap
Bucknell took a commanding 42-33 lead the beginning of the second half but the Lions, led by Edward's 4 foul shots, closed the gap to 53-50. After this the Bisons pulled away again to win by the score of 63-56.

Harley Leads Bisons
Harley led the Bisons with 21 points while Jack Flanagan added 12 markers to the Bucknell total. Col-

MERMEN DROP FIRST ON FLUKE

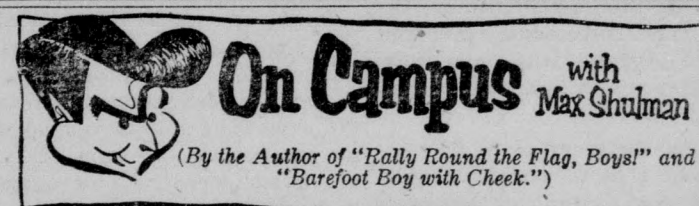

Beaten for the first time this season by Gettysburg, 46-38, Wednesday night, Bucknell's swimmers will shoot for their sixth success of the winter against Drexel Tech in the Fress-Rooke Pool Saturday afternoon.

The loss to the Bullets was especially upsetting because Bucknell's 400-yard medley relay unit of Bob Buys, W. Sayville, N. Y.; Bruce Hutchinson, Rye, N. Y.; Bob Erdahl, Washington, D. C.; and Ron Kaiser, Wilkes-Barre, was deprived of its victory due to a disqualification.

Instead of leading by seven points at the outset the Herd was trailing by seven and it never succeeded in making up the deficit.

Bill Barrett, the Bisons' crack sprinter from Mountain Lakes, N. J., emerged with triumphs in the 50 and 100-yard freestyle events, increasing his win total to four at each distance this season. He has been defeated only by Delaware's Fred Prebott. Coach Bob Latour is counting on Barrett to be an important point-producer against Drexel's Dragons.

—DRIVE WITH CARE—

THE PLEDGE YOU SAVE MAY BE YOUR OWN

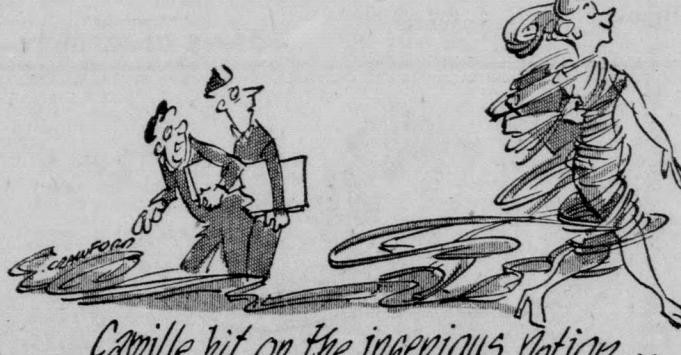

Today's column is directed at those young female undergraduates who have recently pledged sororities and are worried, poor souls, that they won't make good. Following is a list of simple instructions which, if faithfully observed, will positively guarantee that you will be a mad success as a sorority girl.

First, let us take up the matter of housemothers. The housemother is your friend, your guide, your mentor. You must treat her with respect. When you wish to speak to her, address her as "Mother Sigafos" or "Ma'am." In no circumstances must you say, "Hey, fat lady."

Second, let us discuss laundry. Never hang your wash on the front porch of the sorority house. This is unsightly and shows a want of breeding. Use the Chapter Room.

Third, meals. Always remember that planning and preparing meals for a houseful of healthy girls is no simple task. Your cook goes to a great deal of trouble to make your menu varied and nourishing. The least you can do is show your appreciation. Don't just devour your food; praise it. Exclaim with delight, "What delicious pork joints!" or "What a yummy soupbone!" or "What scrumptious fish heads!" or "What clear water!"

Fourth, clothing. Never forget that your appearance reflects not just on yourself but on the whole house. It was well enough before you joined a sorority to lounge around campus in your old nubby blouse and gym bloomers, but now you must take great pains to dress in a manner which excites admiring comments from all who observe you. A few years ago, for example, there was a Chi Omega named Camille Ataturk at the University of Iowa who brought glory to all her sorors.

Finally, let us take up the most important topic of all. I refer, of course, to dating.

As we have seen, the way you dress reflects on your sorority, but the men you date reflect even more. Be absolutely certain that your date is an acceptable fellow. Don't best about the bush; ask him point-blank, "Are you an acceptable fellow?" Unless he replies, "Yeah, hey," send him packing.

But don't just take his word that he is acceptable. Inspect him closely. Are his fingernails clean? Is his black leather jacket freshly oiled? Is his ukulele in tune? Does he carry public liability insurance? And, most significant of all, does he smoke Marlboro's?

If he's a Marlboro man, you know he's a lot of man. You know he has taste and discernment, wit and wisdom, character and aplomb, decency and warmth, presence and poise, talent and grit, filter and flavor. You will be proud of him, your sorority will be proud of him, the makers of Marlboro will be proud of him, and I will be paid for this column.

The makers of Marlboro wish to announce that Mr. Shulman has been paid for this column and will continue to be paid for bringing you his homely philosophy throughout the school year.

W.V.B.U. Hit Parade

by Glenda Dorfme

Each request that is phoned into WVBU is written down on a card, and these cards are tabulated in the course of a semester. Several thousand requests have been phoned into our radio station for the first term. The songs most requested are not necessarily the most popular ones, as the following songs are, on the whole, most likely to be dedicated to someone. Here are the top 15 songs for the first semester.

1. The 12th of Never —Johnny Mathis
2. I'm Available —Marge Bayburn
3. April Love —Pat Boone
4. Wake Up Little Susie —Everly Bros.
5. You Send Me —Sam Cooke
6. Alone —Shepherd Sisters
7. Little Bitty Pretty One —Thurston Harris
8. My Special Angel —Bobby Helms
9. Chances Are —Johnny Mathis
10. Raunchy —Bill Justis
11. My One Sin —4 Coins
12. 3 Bells —Les Compagnons e la Chanson
13. All the Way —Frank Sinatra
14. Oh Boy —Crickets
15. Midnight Mood —Richard Maltby
16. Love Is a Many Splendored Thing —A Mays

Off Season Jobs Now Available

To answer the needs of teachers, college students and professors, The Advancement and Placement Institute announces publication of its completely new and expanded 1958 World-Wide Summer Placement Directory. The Directory is prepared as an aid to those who wish to find ideas and ways to earn while they vacation.

The new Directory gives descriptions of the type of work available, salary ranges, names and addresses of employers requesting summer employees. Included are government agencies, travel agencies, summer camps, service projects, earning free trips to Europe, national parks, summer camps, theatres and resorts, career training opportunities, study awards all over the world and many others. Thousands of opportunities are presented from over 20 foreign countries and all 48 States.

At the request of many students, a special new section has been added for those students wishing to use their summer in training programs for future career opportunities. Positions are available in hundreds of firms in more than forty fields of business, industry, science, government, recreation and education.

A current up-to-date World-Wide Summer Placement Directory is published annually by the staff of The Advancement and Placement Institute which has been a non-profit professional advisory and advancement service for the field of education since 1952.

Copies may be examined at many Placement or "Deans' Offices, Libraries, School Superintendents' Offices or may be ordered from the Institute at Box 99G, Greenpoint Station, Brooklyn 22, N.Y. for \$2.00 a copy.

You're Someone Special!

When you call off an employee looking for a job in addition to your college background you're in a special category. That's why it's important for you to receive thorough vocational training—Berkeley School training! At Berkeley School you'll find two-year and one-year courses, a distinguished faculty, individual attention. That's not all! Berkeley School Placement Service helps you and is a job in such fascinating fields as Advertising, Television, Retailing. For details, write the Director today.

Bridge Tourney Planned

Bucknell is one of the more than 100 colleges and universities in the United States which has entered the 1958 National Intercollegiate Bridge Tournament.

All play will be by mail and will be conducted on the individual college campuses in a single session, on a date fixed by the Tournament Director between February 23 and March 5. These hands will then be returned to Committee headquarters where they will be scored by Geoffrey Mott-Smith, author and contract bridge authority, who will determine campus, regional and national winners.

The charter application blank has been received from the National Rifle Association and the men and women who wish to may enroll at the Department of Military Science offices in Bucknell Hall, may enroll as Sergeant Walters at the range or Sergeant Keifer at Bucknell Hall basement.

The object of this organization shall be the encouragement of organized rifle and pistol shooting among citizens of the United States, residents in our community with a view towards a better knowledge on the part of such citizens in the safe use and proper care of firearms, as well as improved marksmanship. It shall be our further object and purpose to forward the development of the Department of Military Science.

Initial courses in rifle marksmanship and hunter safety also will be offered. The NRA program is presented in such a manner as to enable the new shooter to earn recognition for progress in the form of awards and to add incentive by progressively increasing the scores necessary to win them as proficiency in marksmanship increases. Eventually each shooter earns a national classification rating which is a prerequisite to all registered match competition. This program could develop an all college team to enter into both the pistol and rifle and shoulder competition with other colleges teams. (There are one hundred and thirty affiliated with the NRA, twenty-one of which are located in Pennsylvania.)

Annual dues have been set at \$3.00 and are payable upon presentation of the membership application. This money will cover the cost of material and supplies used in the hunter safety and marksmanship courses.

Entry fees for competitive matches will be on an individual basis at the option of the individual concerned. Students owning twenty-two caliber rifles and pistol match equipment are urged to use it. Weapons and equipment will be furnished for those who do not have them.

The initial charter application will be sent to Washington before February 15, 1958, with all charter members listed. There is not much time left. Please be prompt and get the application in as soon as possible.

—DRIVE CAREFULLY—

Guadalajara Summer School

The bilingual summer school, administered by members of the faculty of Stanford University, will offer, in Guadalajara, Mexico, June 30 to August 9, courses in art, folklore, geography, history, Spanish, and Hispanic American literature. \$225 covers tuition, board, and room for six weeks.

For more information, please write to Professor Juah B. Rael, Box K, Stanford University, California.

EVOLUTION

(The Monkey's Viewpoint)

by Hugh Hodge

Three monkeys sat in a coconut tree

Discussing things as they're said to be.

Said one to the others, "Now listen you two,

There's a certain rumor that can't be true:

That man descended from our noble race—

The very idea! It's a dire disgrace.

No monkey ever deserted his wife,

Starved her baby and ruined her life.

And have you known a mother monk

Go out at night and get on a stew.

(Continued on page 8.)

To leave her baby with others to

bunk.

Or pass him on from one to another

Till he hardly knows who is his

mother?

Another thing you'll never see,

A monk build a fence 'round a coco-

nut tree!

And leave the coconuts go to waste,

Forbidding all other monks to taste?

Why, if I put a fence around this tree

Starvation would force you to steal

from me.

Now here's another thing a monk

won't do.

Go out at night and get on a stew.

(Continued on page 8.)

To leave her baby with others to

bunk.

Or pass him on from one to another

Till he hardly knows who is his

mother?

Another thing you'll never see,

A monk build a fence 'round a coco-

nut tree!

And leave the coconuts go to waste,

Forbidding all other monks to taste?

Why, if I put a fence around this tree

Starvation would force you to steal

from me.

Now here's another thing a monk

won't do.

Go out at night and get on a stew.

(Continued on page 8.)

To leave her baby with others to

bunk.

Or pass him on from one to another

Till he hardly knows who is his

mother?

Another thing you'll never see,

ON OTHER CAMPUSES

by Chris Petersen

NOTICEABLE NEWS:

At Middlebury all students on the Dean's list will have unlimited cuts, and "no student on the Dean's list will be penalized by a member of the faculty for cutting classes." This, however, excludes the two days before and after vacations.

This may console some Bucknellians, but nevertheless won't remedy the situation as no alcoholic beverages may be served to freshmen men during rushing at George Washington University. Moreover, there must be no paid or professional entertainment during this period.

We have read about several colleges having in their extra-curricular activities a winter weekend or outing at some resort off campus open to all students of that particular school. For example, at Temple University the students may spend three days at Malibu Ranch in the Tocoos at the approximate cost of thirty dollars. Everyone leaves and returns en masse by bus.

The "Maroon and Gold" from Bloomsburg State Teachers College informed us that the Huskies may lose their huskie mascot unless someone assumes the responsibility for the care and upkeep of Roongo, the school mascot.

"The Pitt News" states that the University of Pittsburgh has an Interfraternity Pledge Council whose purpose is "to organize the pledging system and to get the opinions and views of all the pledges." At the present time it is initiating a pledge study hall with tutors from Phi Eta Sigma.

INTERESTING ITEMS:

From the Lehigh "Brown and White", all freshmen must buy twenty-one meals per week, while the upperclassmen have a choice of buying fifteen, seventeen or twenty-one meals per week.

Among those colleges this week to announce rises in tuition or board were Upstate with an increase of seventy-five dollars for tuition annually and Trinity College with a two-hundred and fifty dollar raise in tuition.

This week another school announced the offering of Russian as a language course. King's College will offer a four semester course with three credits per semester. Speaking and writing will be the essentials covered.

From the "Tech News", S.E.M. at the Illinois Institute of Technology stands for Scientists, Engineers and Mathematicians.

Poem

(Continued from page 6.)

He won't use a gun or club or knife
To take some other monkey's life.
Yes, Man descended, the ornery cuss,
But Brother, he didn't descend from us.

Dr. Suarvain

(Continued from page 1)

ties, and will then submit its report to the Middle States Association. Dr. Suarvain who is head of Bucknell's education department, has previously served on many similar evaluation committees which have made important contributions to secondary school education generally.

An elephant has 40,000 muscles in its trunk.

A BUCKNELL LAD TO HIS FICKLE LASS

by Gerry Wilson

Shiver the night, m'lady,
Shiver through 't the dew.
You said my love
Would keep you warm.
Now shiver till the sun comes
through.

You loved me once, m'lady,
But loved another too.
Behind my back
You played the cat,
And now I'm through with you.

Someday I plan to marry.
Yes, someday I'll wed true.
But now I say,
Get on your way,
I'll not take both of you.

Though nature come to your
rescue
Through form and face and hair,
Not sun nor moon,
Nor planets
Can make your passing fair.

You've shot your load and sunk
your ship.
You've split your bow in two.
Now pay the price
Of all your vice:
I'll not come back to you.

So, shiver the night, m'lady,
Shiver through 't the dew.
You said you will
I've had my fill.
Now shiver till the sun comes
through.
(And I hope t' it don't!)

WANTED:
2 ast., male or female to work a team
5 to 15 hrs. per week on a research
project.
Requirements—only patience. Pay
\$1.00 an hour. See Prof. Levenspiel of
Ch. Eng. Rm. 204, Eng. Bldg., or
Ext. 278.

Baboons store food in their cheeks
before they eat so if chased from
their feast they will still have some-
thing to eat.

A penguin slipped out of the zoo
in Washington, D. C., and turned up
in the lobby of a theater.

An electric eel once had an elec-
trician's union card issued to it—so
it could turn on some of the lights
at a New York City project.

Earthworms in Australia some-
times grow more than 10 feet long
and lay eggs as big as goose eggs.

The male phalarope is a model of
domesticity among birds—attending
to all the nesting duties except the
laying of the eggs.

It requires the combined efforts of
from 2000 to 3000 coconuts to produce
one pound of silk.

Don't Forget
Burma-Bucknell
This Week-end

VOLUME LX

Burma-Bucknell Weekend Guests Available For Classroom Talks

Two guests of Bucknell for the
Burma-Bucknell Weekend, who will
be available for classroom lectures
on Friday, February 28, are Dr. Pe
Maung Tin of Rangoon University
and Dr. Frank N. Trager of New
York University.

Dr. Pe Maung Tin was born at
Insein, Burma, April 24, 1888. His
wife is Edith Pe Maung Tin (Daw
Ky Ky) and they have three
daughters and two sons. Having
studied at Rangoon College, Calcut-
ta and Oxford Universities, Dr. Pe
Maung Tin has received his B. A.,
M. A., and Rangoon University has
recently conferred upon him the D.
Lit. degree. He was formerly Pro-
fessor of Oriental Studies and then
President of the University of Rang-
oon from 1942 to 1945 during the
difficult years of Japanese occupa-
tion.

Dr. Pe Maung Tin is now Visiting
Professor of History of Religions at
the Federated Theological Schools of
Chicago. Not only has he held many
positions of honor and influence,
such as chairman of the committee
of Experts of the Burma-Transla-
tion Society, but he was a founder
of the University of Rangoon and of
the University for Adult Education,
Rangoon.

Dr. Frank N. Trager is the author of
many books besides Burmese works,
such as *The Glass Palace Chronicle*
of the Kings of Burma, 1925; *The
Path of Purity*, 1925; and *Portfolio*
of the Inscriptions of Burma, 1932.
Two of the possible subjects for
classroom lectures on Friday are:
The Problem of Suffering as seen by
Buddhists and Christians, and Some
Buddhist reactions to Christianity.
It might be interesting to note that
Dr. Tin, and authority on Buddhism,
is a Baptist.

Dr. Frank N. Trager is presently a
Carnegie Research Fellow, Council
on Foreign Relations, Inc., and a Con-
sultant in Social Sciences at New
York University. He was born in
New York City, October 9, 1905, and
married Helen Gibson, 1936. Dr.
Trager received his B. S., M. A., and
Ph. D. from NYU, taught political
Science there, and for ten years he
taught Philosophy at Johns Hopkins
University. He was awarded a But-
ler Fellowship in Philosophy by
NYU and a Graduate Scholarship in
Philosophy by Johns Hopkins Uni-
versity. Last year he was Research
Professor of Government in charge
of the Southeast Asia Program and
was Director of the Burma Research
Project. He also worked with the
RAND Corporation Research Pro-
ject on Marxism. For six years Dr.

'Guys And Dolls' Now In Full Rehearsal Swing

Rehearsals for the entire cast of
Guys and Dolls are now in full
progress for the coming presentation
of that Broadway musical on March
27, 28, 29. The four principle roles
feature Peggy Beckman as Sarah
Brown, Ginny Campbell as Adelaide,
Al Jackson as Nathan Detroit and
Paul Berglin as Sky Masterson.
Portraying supporting roles in *Guys*
and *Dolls* are Jay McConahay as
Benny Southstreet, Pat Lannigan as
Nicely-Nicely Johnson, Mike Gavin
as Rusty Charley, Joel Berger as
Arvid, Barry Tague as Harry the
Horse, Charlie Negron as Big Jule,
Lynda Weaver as General Cart-
wright. Other members of the cast
are Bob Howell, Bill Briggs, Roger
Niemann, Steve Smith, Martha Lan-
ing, and Sally Archibald.

The "Dolls" in the female chorus
are Sally Archibald, Ellen Headley,
Linda Aitaville, Cynia Blunt, Nancy
Boyer, Lucille Haigh, Judy Levy,
Barbara Bauer, Barbara Ireland,
Nancy Baker, Ann Boyer, Lynn Gel-
ler, Marius Neaving, and Betty
Jones.

The male chorus includes the fol-
lowing "Guys": Mike Gavin, Bill
Briggs, Roger Niemann, George Lyon,
Sta Sharp, Don Gregory, Randy
Bliss, Ted Gronlund, Herb Lock-
wood, Barry Tague, Allan Fromm,
Chip Wilkinson, and Dave Sayre.

Harvey Powers will direct the
musical production of *Guys and
Dolls* while Carol Bischof serves as
Stage Manager. The Production
Manager is Sunny Skaskind. Sets
for the musical are being designed
by Professor George Hersey with
Doris Vogler assisting.

CAP AND DAGGER ANNOUNCES OFFICERS

Cap and Dagger has announced its
new officers for the coming year.
Elected president of the organization
is Carol Bischof, formerly vice presi-
dent. Doris Vogler will serve as
vice president while Mark Petersen
will fill the job of secretary.

Also elected at the last meet-
ing were Elaine Johnston, Marty
Lanig, and Carolyn Wood who
compose the Membership Commit-
tee. The newly elected officers will
guide the dramatic organization for
the coming year with Dr. C. Wil-
lard Smith, Harvey Powers, and
George Hersey as faculty advisers.

Convocation Features Supreme Justice William Douglas

Students attending the special
Burma-Bucknell Convocation Satur-
day morning at 11 o'clock in Davis
Gymnasium will receive chapel
credits for this event, it was an-
nounced today.
The Convocation will feature an
address by Supreme Court Justice
William O. Douglas and the award-
ing of honorary degrees to Justice
Douglas and to his Excellency, U.
Win, Burma's ambassador to the
United States. An academic pro-
cession of faculty members and ad-
ministrative officers will add color
to this event, marking the tenth an-
niversary of Burma's independence
and the 100th anniversary of the ad-
mission of Bucknell's first foreign
student who was also the first Bur-
mese to study in America.

Attention!!

Anyone Who:
(1) is interested, or who knows
of someone interested in spending
Easter vacation (April 2 to April
10) traveling by car through New
England and Canada;
(2) is interested in traveling by
car through the West of the
United States, during this sum-
mer (June 10 to July 25);
(3) knows of possible summer
vacation opportunities anywhere
in the West, preferably in San
Francisco.

The Bucknellian

BUCKNELL UNIVERSITY

LEWISBURG, PA., THURSDAY, FEBRUARY 27, 1958.

Morrow, Morrow
Is Coming

NUMBER 18.

Jim LaRue Elected S.F.C. President

S. F. C. President Jim La Rue

Jim LaRue is the newly-elected president of the Student-Faculty Congress. Jim is a religion-philosophy-psychology major from Doylestown, Pennsylvania. He has participated in many activities here at Bucknell including various CA activities, glee club, and cheerleading. In his sophomore year Jim was chairman of the Nine-Thirty Class, president of the Baptist Student Fellowship, and a freshman camp counselor. He has also served on the Class Council for two years. As a member of Delta Upsilon fraternity, Jim enjoys participating in the fraternity boxing intramurals. He plans to work in the ministry after graduation.

The vice president elected was Dan Moore; secretary, Joan Trimble; treasurer, Bill Hildreth; recorder, Elie Body.

Training Exam Given May 3rd

The Engineer-in-Training Exam-
ination administered by the Penn-
sylvania Department of Public In-
struction for the June 1958 seniors
will be given Saturday, May 3, 1958.
For the convenience of Bucknell en-
gineers the examination will be
given on campus Saturday May 3
from 8 to 12 and 1 to 5.
Persons interested in taking the
examination should contact Professor
D. M. Griffith, Room 218 of the
Engineering Building for application
blanks and additional information.
Applications for taking the examina-
tion must be on file in Harrisburg
prior to April 11, 1958.

BRIDGE CONTEST NEXT SUNDAY

The Bucknell section of the Na-
tional Bridge Tournament will be
held next Sunday, March 2, at 2 p.
m. on Larson sun porch. Prizes
will be awarded to the national, re-
gional, and local campus champions
at a later time. The nominal en-
trance fee is 75 cents per person to
cover mailing and printing costs. If
interested, contact Margot Gratz,
JA 4-3700.

Morrow Swings At Senior Prom

Buddy Morrow is to be the band
featured at this year's Senior Prom,
it was announced Wednesday night,
February 19, at the senior class
meeting. Plans were also announced
for a senior jam session and the
crowning of a senior girl as the
queen of the ball. Complete details
will be released soon.
"Around the World" will be the
theme of the dance, according to the
Co-Chairmen of the Decorations
Committee, Dick Locke and Dick
White. The decorations this year
are expected to be especially elab-
orate, including plans for a false
ceiling in Davis Gymnasium.
March 14, from 9 to 1 o'clock, in
Davis Gymnasium, will be the scene
of this annual event the Senior
Prom.

Education Series Held Saturday

A series of conferences sponsored
by the Departments of Education
and Psychology, the Library, and
the Audio-Visual Center was held
last Saturday morning in the Audio-
Visual Auditorium. Co-chairmen
for the program were Dr. Charles
Jones and Miss Dorothy Foster.
The guest speaker, Miss Hazel Gabbard,
a specialist for the office of Educa-
tion of the U. S. Department of
Health, Education, and Welfare, dis-
cussed the topic, "Children Two to
Twelve." Miss Gabbard is also vice
president of the Association for
Childhood Education International.
The same topic was discussed by
a panel of six members. On the
panel were: Mr. John Quigley, edi-
tor of the Union County Journal;
Mr. Harold Danowsky, principal of
the Eastern Joint Elementary
School; Miss Patricia Johnson, ele-
mentary education major; Mrs.
Manning Smith, Co-operative Nur-
sery School; Mrs. E. A. Ziegler, di-
rector, Child Welfare Service; Dr.
Cyrus K. Karraker, Pennsylvania
Citizens' Committee on Migrant
Labor.

After the conferences, students of

BUCKNELL RECEIVES SCIENCE GRANT

Bucknell University has been
awarded a grant of \$5,500 from the
National Science Foundation to sup-
port a research project in biology.
President Merle M. Odgers announ-
ced today.
Entitled "Growth Hormone Con-
tent of the Pituitary As Affected by
Age", the research will extend over
a period of approximately two years
and will be under the direction of
Dr. Roger H. Bowman, associate
professor of physiology.
As outlined by Dr. Bowman, the
study will seek to determine why
certain animals stop growing after
reaching adulthood and will deal
primarily with endocrine control of
growth, based on experiments with
rats.

Dr. Bowman began research in the
field of endocrinology while a gradu-
ate student at Cornell University
in 1949 and has since undertaken
several important projects in this
particular branch of science.

A member of the Bucknell faculty
since 1953, he spent the past sum-
mer at the Worcester Foundation for
Experimental Biology at Shrews-
bury, Mass., where he engaged in
research in adrenal physiology un-
der a grant from the American Phy-
siological Society.

In 1955 he received a grant from
the Lolur Foundation which enabled
him to continue during the summer
months a study of hormonal control
of muscle glycogen by the Univer-
sity's Committee for the Encourage-
ment of Graduate Study and Re-
search from funds provided by spe-
cial trustee gifts.

the Elementary Education Depart-

ment were hostesses at a luncheon

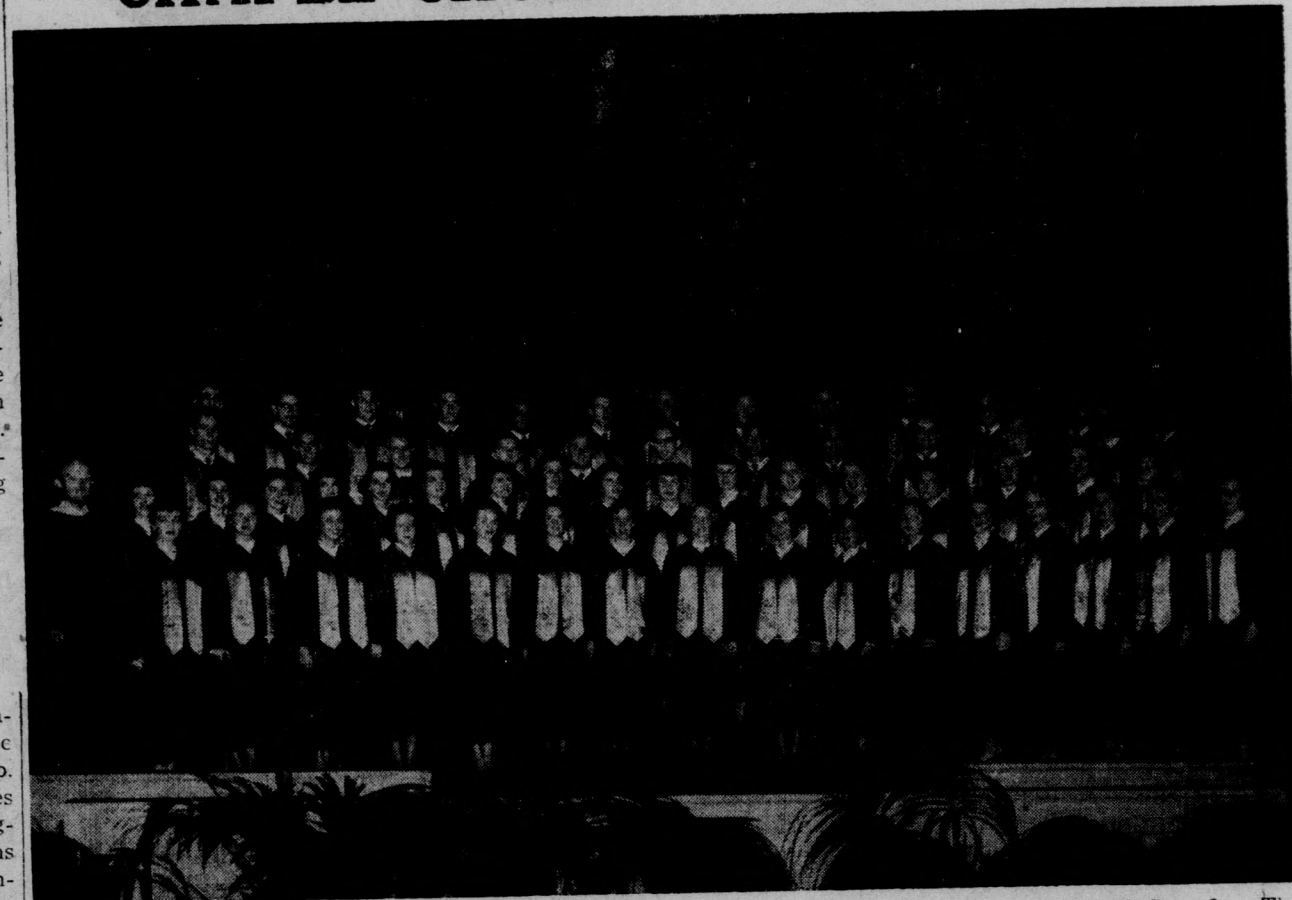

with Miss Gabbard and the Panelists.

The luncheon to which others in-

terested in education were invited,

was held at the University Cafeteria.

CHAPEL CHOIR TO BEGIN TOUR

The annual spring tour of the Bucknell University Chapel Choir will be held on March 7 to 9. The choir will travel by bus and car, and will sing in Mt. Vernon, New York, Summit, Plainfield, and Fairlawn, New Jersey.

The Choir, under the direction of Prof. William McRae, will sing a variety of a cappella numbers, in-
cluding spirituals, modern and older religious works, and a few carols and motets.

Some of the numbers on the tour
Chapel Choir program were written
or arranged by Mr. McRae. An
Austrian carol, *The Cradle*, was ar-
ranged by Mr. McRae, and *Psalm*
CCXI was written by him. The choir
was organized in 1947. Its beginnings
were humble (23 members), but since that
time it has grown to its present size
of 60 members.
The Chapel Choir began to tour in
1950. Since that time the tour and
concert program of the Choir has
rapidly grown. This year the choir
has sung in New York, New Jersey,
and Pennsylvania.
The 1956-57 Chapel Choir produced
long-playing recordings. These
recordings are available to Buck-
nellians.
(Continued on page 8.)

HONORARY ATTENDS MARYLAND CONFERENCE

Representatives of Omicron Delta
Kappa, the national honorary for
men, will be attending the annual
province convention of ODK at the
University of Maryland. This con-
vention will take place on March 7
and 8 this year.

Bob Burnett, Jack Brothers, Ken
Cestari, and Pete Hunter are going
from Bucknell. They will partici-
pate in various activities such as
round table discussions, regular
province business discussions, and
panel discussions.

Wrestlers Division Champs

Right to Left: Ken Wightman, John Ayre, Roland Bell, Bill Hayes, Pete Fritts, Larry Dempster, Jack Wilson, Grant Watkins, Edge Deuel, Dave Murdock. Story on page 4.

WRABLEYMEN END UNBEATEN

**Bisons and Undeclared Grapplers
Ayre, Fritts, Demster, Murdock
Head for Middle Atlantic**

Last Saturday's 25-2 defeat of Delaware permitted Bucknell to complete its first perfect wrestling season.

Ken Wightman picked up his fourth win of the season by walking all over Ponce of Delaware, 11-4 in the 123 lb class. John Ayre pinned Cash to make his record 7-0. John is the high scorer for the team with 29 points.

Rowland Bell gained his fifth win of the season by dumping Maddux 8-2. Rowland has a season total of 21 points. Bell's two year record in varsity competition is 9-3-1.

Pete Fritts notched his sixth victory at the hands of Gramp. Pete's point total is 24. Larry Demster remained unbeaten via a 3-2 decision of Meeker. This was Demster's 16th win in 18 varsity matches. He scored 23 points this year.

Dave Murdock kept his record spotless by stopping Simpson 3-0. Dave has also tallied 23 points in seven matches.

Grant Watkins walked off with his third victory by downing Walker 2-0. Edge Deuel terminated his wrestling career with a 0-0 tie against Zawicki.

Head coach Bill Wrabley's grapplers bowled over seven opponents, with only Muhlenberg coming within nine points of the Herd while suffering a 19-10 setback. Other foes flattened by the Bisons were Lafayette, 20-6; Lycoming, 22-6; Temple, 23-13; Haverford, 23-3; and Gettysburg, 24-7. The win over Gettysburg was Bucknell's first over the Bisons after eleven reversals.

This was the Herd's first successful campaign since the 1951 outfit posted a 5-3 record. Wrabley, who also serves as the football line mentor, assumed the coaching duties two years ago and finished with a 2-5 log, an improvement over the previous winter's 1-6 performance. His charges continued to rise in 1957, landing three of seven engagements. The surge was climaxed this season, with five sophomores making vital contributions and brightening the future outlook.

Each of the eight men who wrestled in every one of the team's seven matches during the regular schedule will participate in the Middle Atlantic Conference championship matches at Wilkes College this Friday and Saturday. Leading the way

Notice, Law Students!

"D. Fenton Adams, Assistant to Dean of the Dickinson School of Law, will be on the Bucknell campus on Wednesday morning, March 5. Any students interested in admission to Law School, or in discussing legal education, are invited to arrange an appointment by calling at room 112, West Wing. Mr. Adams will be most happy to talk with any student interested in the study of law."

Genius is one percent inspiration and ninety-nine percent perspiration.

Anachronism?

Not really. 'Cause if Coke had been around in Caesar's day, Caesar would have treated himself to the sparkling good taste, the welcome lift of Coke! Caesar's motto—"I came, I saw, I conquered." Pretty good motto for Coke too—the prime favorite in over 100 countries today!

BISON OF THE WEEK CO-CAPTAIN BARRETT

by Bill Bannak

Bill Barrett is this week's Bison of the week. Bill lives in Mountain Lakes, New Jersey, where he attended Mountain Lakes High School. In high school he played two years of varsity football, baseball, and was one of the high scorers on the undefeated basketball team his senior year.

In his freshman year, Bucknell did not have a swimming team. In Bill's sophomore year Bucknell had its first swimming team, and he swam competitively for the first time, taking eight firsts, four seconds and two thirds. For his outstanding job, he received the trophy for the outstanding swimmer on the team. This year, Bill was elected co-captain of the team, and has taken 14 firsts and three seconds, swimming three events: the 50 and 100 yard freestyle and anchoring the 440 yard relay team.

In the fall, Bill enjoys hunting, and in the spring, if he can find time between parties at the Sigma Chi house, and dates in the Sem, he likes to take a case of chilly ones and head for the nearest trout hole.

Happy Hank Wants Baby-Dolls! Freshmen candidates for tennis to report to Davis Gym Monday.

Bison Hoopsters Outshoot Bullets In 80-58 Contest

by Bill Scott

The Bison varsity quintet caught fire in the second half to score its second, 80-58, decision of the basketball season over an undermanned Gettysburg College five before a small crowd at Davis Gym last night. The victory moved the Herd's record to 13-8 while the Bullets lost their 14th contest in 22 decisions.

The lead changed hands four times in the first ten minutes as the over-anxious Bisons had trouble scoring from the field. Guard John Strizzi of Bucknell put the Bisons in front by 13-12 and 13-14 as the Bullets, led by Warfel, attempted to stay abreast with the Herd. Bob Ericsson and Center Hal Danzig finally began to find the range and the BU Bisons opened up taps of 29-21, and 33-24, before the Bullets staged a last ditch rally which closed the Bucknell halftime lead to a respectable, 33-29.

Bisons Open Lead

For the second game in a row the Herd was a strong team after the intermission. The two solid men of the Bison attack were Ellis Harley and Jack Flanagan who repeatedly hit from the outside. Danzig continued to control the backboards and the "Moose" also added to the BU offense with some timely inside shooting. The Herd shot to leads of 36-39 and 63-43 before Coach Ben Kribbe saw that the victory was safely in the local five's hands and substitutions were made for the starting five. The remainder of the contest was fought between the reserves of both teams with the Herd's subs doing the majority of the scoring.

Danzig led both teams in scoring with 27 points as he attempted to cut down the margin between his present total and the points needed for a 400 point season. Flanagan gathered 19 markers while Harley added 12. Walsack topped the Bullets with 18 points. Grzelecki had 13 points for Gettysburg while Warfel contributed 10 markers.

BU Meets Lehigh

The team will journey to Bethlehem this Saturday night for a return engagement against the dangerous

TANKMEN 7 AND 2 ON YEAR; MIDDLE ATLANTICS HERE SAT.

Bucknell took their loss against Gettysburg out on Drexel last Saturday as they dunked the Philadelphia school by the score of 60-15. Bucknell took every first place even though Coach Latour used his entire squad in this slaughter.

Drexel only brought a five man squad, but they were not of the caliber of Jim Thorpe and the Carlisle Indians. Actually, the team should have been in Philadelphia and swam in the YMCA instead of making the trip to the "Friendly 900".

400 yard medley relay—Bucknell—Aymar, Roberts, Erdahl, Smith—5:17.
200 Free—Kaiser, Maxwell, McAleer (D)—2:34.8.
200 Buttery—O'Neil (D), Erdahl (B), Putterman (B)—2:44.2.
50 Free—Barrett, Goudis (D)—24.4.
200 Buttery—Erdahl—2:55.
Dive—Forsyth, Mattis (D), Brubaker (B)—45.
100 Free—Coston (D), Barrett (B), Kulp (D)—54.7.
200 Back—Buys (B), Kline (D), Black (D)—2:34.
440 Free—Mulligan (D), Templeton (D), Sharkey (B)—5:14.4.
200 Breast—Altaker (D), Hutchinson (B), Roberts (B)—2:51.3.
400 Relay—Dickinson—3:50.4.

Bucknell vs. Dickinson
Dickinson invaded Davis Gym on Tuesday night bringing with them a 17 meet winning streak. Although the tankmen put up a wonderful fight, Bucknell came out on the losing end 48-38, thus ending their season with a record of 7 wins and 2 losses. This is a very respectable record for this is only the second year in competition for Bucknell.

Dickinson's brilliant sophomore, Mulligan, dominated the spotlight by bringing home two firsts — 220 free and 440 free. He is regarded as one of the top distant men in the East. Mulligan was the only double winner for either team.

Co-Captain Bill Barrett again demonstrated his talents by bringing home a 17 meet winning streak. The team will journey to Bethlehem this Saturday night for a return engagement against the dangerous

MAC Championships

Bucknell is host in this Saturday's Middle Atlantic Conference swimming championships. Such teams as West Chester, Lafayette, Dickinson and defending champion LaSalle will compete along with Bucknell, Lycoming, Gettysburg, F&M, and Drexel for the team championship.

Such individual stars as Mulligan (Dickinson), Frieboett (Delaware), Miller (Lafayette), Maloney (Lehigh), and Barrett (Bucknell) will be competing for individual honors and records. It promises to be a day that will not be forgotten in the near future, so let's all try and get down and see these day-night swimming championships.

"Our birth is nothing but our death begun."—Edward Young.

B. U. STOPS LAFAYETTE

**Bisons Top Leopards;
First Time In 21 Years;
Mr. Bones Excels**

by Bill Scott

The Bucknell varsity basketball squad ended 21 years of frustration last Friday night as it scored a mighty 67-57 victory over the Leopards from Lafayette College in a game played before a packed crowd at Davis Gym.

Both Teams Deliberate

Scoring was meager for both teams in the opening minutes as both squads played possession basketball until a good opening presented itself. The Leopards took leads of 8-4, and 13-7, before the BU Bisons began to move the ball into position so that Ellis Harley could pop in one-handers from the outside. The Bison attack stalled until John Strizzi was employed to help make the Bucknell passing more crisp. The smaller Herd, aided by line rebounding by Hal Danzig and Bob Ericsson, outjumped the Leopards under the boards to control the rebounds. The Herd finally took the lead after 10 minutes, 19-18, and the lead was not lost for the remainder of the contest although the visiting team closed the gap to 23-21, and finally to 27-25 at the intermission.

BU Sharp in Second Half

The Bison team of the second half was a far superior team to the first half team. The passing was far sharper, the rebounding better, and the scoring more distributed among the starting five. Harley, who provided the main punch in the opening half with 14 points, was now aided by the red-hot Ericsson who hit time and time again from the side for valuable points, and Jack Flanagan and Hal Danzig. The BU Bison quintet opened up a 10 point lead which was never seriously threatened for the remainder of the contest.

Team Effort For Herd

This was a team effort for the Herd. Ericsson scored 20 points and bagged 12 rebounds for his finest game at Bucknell while his partner in controlling the backboards, Danzig, contributed 17 rebounds, 11 points, and held Lafayette's standout center, Bob Mantz, to 8 points. Flanagan continued his torrid pace of the past five games as he pumped in 19 points, two more than Harley contributed to the total.

National parks regulations require that all persons, before climbing a mountain, must register with the nearest park warden.

During the Civil War the Union's best ally was Russia.

LEWISBURG, PA.

1958 Bucknell Football Schedule

Bucknell University's 1958 football team will tackle a nine-game schedule next fall, according to an announcement made today by Albert E. Humphreys, Bucknell's director of athletics.

The Bisons, who posted a 3-6 record during the past campaign will attempt to rebound, against seven teams they met in 1957 and a pair of newcomers.

Bucknell's complete 1958 schedule: Sept. 27 (night)—Gettysburg, at Hershey.

Oct. 4—Carnegie Tech Home
Oct. 11—Colgate Home
Oct. 18—Rutgers Away
Oct. 25—Lafayette Home
Nov. 1—Lehigh Home
Nov. 8—Temple Away
Nov. 15—Delaware Away
Nov. 22—Buffalo Away

"Life is not life at all without delights."—C. Patmore.

EAST COLLEGE DUMPS GAM'S

It was a quiet week on the intramural front as bowling and basketball ended and the preparation for boxing and volleyball began. In a rather anti-climatic game the intramural champ, Phi Gam, bowed to the freshmen league winner, East College, 39 to 32. Stopping the Phi Gam high scorer, Fred McDonald, with only one field goal, East College made nine out of ten from the foul line to spell the difference. High for Phi Gam was Ott with 10 points while Krocker hit for 12. Shad tallied 11, and Hemphill and Hackell both knocked in 8 for East College.

Bus Bum has announced that boxing sign-ups start March 3 and end March 22. Each contestant must have eight sign-ups with Ken Babus. The dates of the matches are listed as March 24, 26, 27.

Volleyball swings into action on Tuesday with three games and continues with a full six game slate on Thursday.

According to F. B. I. statistics, the average American stands to be robbed of his money, car, or other property than he did a year ago, but his chances of being murdered are less.

A Campus-to-Career Case History

Bill Rhode (left) at the site of New Orleans' new Claiborne Street Industrial Canal Bridge.

"Problems keep life interesting for a telephone engineer"

"I've taken part in all kinds of engineering projects during the five years I've been with the telephone company," says Bill Rhode, M.E., Tulane, '52. "Each project brings special problems to solve."

"Take a couple of recent jobs I did as examples. One was to plan and oversee the relocation of telephone facilities near a new drawbridge. The job included designs for attaching telephone cable to the finished bridge and for providing service to the bridge-tender's office and the locks."

"The other job was completely different. I was asked to make an experimental installation of some newly developed line concentrator equipment. After selecting the test location, I engineered facilities for the remote concentrator unit, and trunk plant to the central office."

"Another thing about these jobs—they're a result of the growth of the telephone business. Not only do problems like these keep life interesting for a telephone engineer, but they mean that careers are full of opportunities to show what you can do and get ahead."

Wilmer J. Rhode is with Southern Bell Telephone and Telegraph Company. He is one of many young men who are finding interesting and rewarding careers with the Bell Telephone Companies. Ask your placement officer for information about the careers these companies offer.

Are Chaperons Really Needed

by Jim Chapman

In the last few years Bucknell has undergone many changes. Academically, the Orange and Blue has progressed from little more than an away from home study hall to an institution with a degree of respect in both the business and academic worlds. Physically, there have been many essential alterations that have foundered on both the academic and appearance qualities of the school. Our Student Faculty Congress is one of the strongest student body governing factions in the college sphere. Our athletic endeavors are also worthy of note—an outstanding basketball team and the finest wrestling team Bucknell has ever known. As novices in the art of self protection in the medium of water, we find ourselves backing a swimming team which, to the surprise of us all, is quite good.

However, there is one significant thorn in our tumb of success. I make references to the chaperon system required by the University. In brief, the rule states that there must be two duly registered chaperons at all fraternity social functions which involve the presence of women and which take place after the hour of 7:30 p. m. Agreed is the fact that chaperons are necessary, but the bone of contention in the above stated rule is that these administrators of Emily Post must be registered.

Although this is not a rigid standard, most of the chaperons are around thirty years of age or older and married. This is all very good, but there are just so many of these combinations floating around, and not all are always willing to come to fraternity parties (which I can't understand). There usually is a last minute rush of frantic disorganization to get chaperons, and success does not always reign. A select few of the registered chaperons are obligated to fulfill their job as chaperons, and consequently are continually spending their Friday and Saturday nights at fraternity parties.

As for the function of these guardian angels, there is also room for doubt. Ideally, they are sent to the party to assure two things: first, that all concerned are ladies and gentlemen and secondly to reassure the parents of Buckley's fair damsels that protection is guaranteed against any and all evils that would be detrimental to the social standing of Little Miss Muffet. Let's not kid ourselves! To coin an old phrase, where there is a will, there is a way. Most of the time the chaperons can be found sitting on a couch twirling their thumbs, either too tired to circulate or afraid of what the celebrationists might think of them if they did attempt to "chaperon".

There also is a regulation that at all "costume" parties (this includes anything from Bermuda shorts to the Easter Bunny) two pairs of registered chaperons must be present. This is a definite step in the right direction. With this regulation, the chaperons can keep each other company—the party people need not worry about talking to them. But after all, are a pair of Bermuda shorts so risqué that our virgin eyes and thoughts must be controlled by a task force of increased magnitude. Procuring two sets of chaperons doubles two omnipresent problems—twice as many phone calls and the possibility of having to get two baby sitters instead of one. I see no justification for this regulation.

If the University would relax its regulations and allow any person who is out of college to chaperon, upon notice to the "kill", then the two big problems could be eliminated. There would be a larger field to choose from, and the possibility of having to obtain baby sitters would not be so great. Also, this would "pass the buck", so to speak, around to more people, and the younger set would enjoy themselves more because, if for no other reason, the age difference would not be so obvious, and they would blend in with the tone of the party more easily.

There is no reason why such a program could not be adopted by the University, unless it is afraid that its Baptist history would be scarred with such liberality.

Pass In Review

by William Meister

This week we will describe the cadet regimental staff here at Bucknell. The staff is the body which directs, through the regimental commander, all outdoor training of the regiment. The PMS&T, Colonel Martin, advises the staff on its activities. In addition, the staff is responsible for planning the Homecoming Parade and work with the Officers Club to stage the Military Ball.

The staff meets weekly, those attending being Regimental Commander Bob Toal; Executive Officer Bob Todd; S1 Ronald Cipolla; S2 Bob Perry; S3 Roger Beck; S4 Ralph Hinkley; P. I. O. Bill Meister. The regimental commander is a colonel, the exec. and S3 are it. colonels, and the rest are majors. Another member of the staff is the assistant P. I. O. Roger Nieman, who did such a great job during my illness. Roger is a second lieutenant.

The Regimental Commander's job is to direct the work of the staff commensurate with the policy he establishes. The Executive Officer has to coordinate the work of the staff and carry out the wishes of the commander. Both of these jobs are highly responsible positions.

The S1 is in charge of Common Hour attendance and controls the assignment of personnel to special jobs. The S2, normally the Intelligence Officer, is assigned various jobs by the Commanding Officer. The S3 is in charge of the weekly training schedules and writing of regimental orders. The S4 is in charge of purchasing supplies and running the uniform cleaning system. The PIO with this column, publicizes all ROTC activities and trains Company Guidon Bearers at Common Hours. All staff officers function as inspecting officers at weekly reviews.

The very successful Homecoming Parade, Military Ball, and outdoor Common Hours this year are a tribute to the spirit of the regiment, and the hard work of the staff. Bucknell can be proud of the energy and devotion which these men have expended and continue to expend in their jobs.

As for the function of these guardian angels, there is also room for doubt. Ideally, they are sent to the party to assure two things: first, that all concerned are ladies and gentlemen and secondly to reassure the parents of Buckley's fair damsels that protection is guaranteed against any and all evils that would be detrimental to the social standing of Little Miss Muffet. Let's not kid ourselves! To coin an old phrase, where there is a will, there is a way. Most of the time the chaperons can be found sitting on a couch twirling their thumbs, either too tired to circulate or afraid of what the celebrationists might think of them if they did attempt to "chaperon".

There also is a regulation that at all "costume" parties (this includes anything from Bermuda shorts to the Easter Bunny) two pairs of registered chaperons must be present. This is a definite step in the right direction. With this regulation, the chaperons can keep each other company—the party people need not worry about talking to them. But after all, are a pair of Bermuda shorts so risqué that our virgin eyes and thoughts must be controlled by a task force of increased magnitude. Procuring two sets of chaperons doubles two omnipresent problems—twice as many phone calls and the possibility of having to get two baby sitters instead of one. I see no justification for this regulation.

If the University would relax its regulations and allow any person who is out of college to chaperon, upon notice to the "kill", then the two big problems could be eliminated. There would be a larger field to choose from, and the possibility of having to obtain baby sitters would not be so great. Also, this would "pass the buck", so to speak, around to more people, and the younger set would enjoy themselves more because, if for no other reason, the age difference would not be so obvious, and they would blend in with the tone of the party more easily.

There is no reason why such a program could not be adopted by the University, unless it is afraid that its Baptist history would be scarred with such liberality.

BEHIND THE MIKE

by Joel Berger

This week in an attempt to keep you informed of the happenings concerning WVBU, I feel it is appropriate to write my article about Rho Tau Sigma, Honorary Radio and Television Society. This organization is a small national society for undergraduate students who have excelled in some branch of extra-curricular radio or television work. At present there are 12 undergraduate members of this organization, all of whom have done some exceptional service for the school through WVBU.

In order for a student to be invited to join Rho Tau Sigma, he or she must be a junior or a senior and have made noteworthy contributions to extra-curricular broadcasting. A majority of the present members is required to elect new members to the society.

This year, Bucknell's Iota Chapter of Rho Tau Sigma, has chosen as its yearly project, the "Re-evaluation of the Constitution of WVBU." At a recent meeting of the group, the Constitution was divided into sections, and various committees are going to investigate these groups for any possible corrections, additions and changes. The project is expected to be of great value to WVBU in that it should clear up many of the "unclear" passages in the Constitution. Interested students are welcome to express their feelings and ideas at these meetings.

The present officers of Rho Tau Sigma are: president, Jenny Chase; vice president, Roger Nieman; secretary, Norma Coyle; treasurer, Carole Castaldi.

Blackie, the talking mynah bird, has been banished from the Detroit Zoo until he cleans up his language.

The very successful Homecoming Parade, Military Ball, and outdoor Common Hours this year are a tribute to the spirit of the regiment, and the hard work of the staff. Bucknell can be proud of the energy and devotion which these men have expended and continue to expend in their jobs.

As for the function of these guardian angels, there is also room for doubt. Ideally, they are sent to the party to assure two things: first, that all concerned are ladies and gentlemen and secondly to reassure the parents of Buckley's fair damsels that protection is guaranteed against any and all evils that would be detrimental to the social standing of Little Miss Muffet. Let's not kid ourselves! To coin an old phrase, where there is a will, there is a way. Most of the time the chaperons can be found sitting on a couch twirling their thumbs, either too tired to circulate or afraid of what the celebrationists might think of them if they did attempt to "chaperon".

There also is a regulation that at all "costume" parties (this includes anything from Bermuda shorts to the Easter Bunny) two pairs of registered chaperons must be present. This is a definite step in the right direction. With this regulation, the chaperons can keep each other company—the party people need not worry about talking to them. But after all, are a pair of Bermuda shorts so risqué that our virgin eyes and thoughts must be controlled by a task force of increased magnitude. Procuring two sets of chaperons doubles two omnipresent problems—twice as many phone calls and the possibility of having to get two baby sitters instead of one. I see no justification for this regulation.

If the University would relax its regulations and allow any person who is out of college to chaperon, upon notice to the "kill", then the two big problems could be eliminated. There would be a larger field to choose from, and the possibility of having to obtain baby sitters would not be so great. Also, this would "pass the buck", so to speak, around to more people, and the younger set would enjoy themselves more because, if for no other reason, the age difference would not be so obvious, and they would blend in with the tone of the party more easily.

There is no reason why such a program could not be adopted by the University, unless it is afraid that its Baptist history would be scarred with such liberality.

Students Begin To Question

by Betty Bryan

It's March, 1958 and where are we? Everything is a blur and a mass of confused conflicts. If the sun shines, the dorm's too hot and if it rains, it's too dreary. We can't think or act. Studying is horrid and a game of bridge or poker is much more relaxing. But is it really?

Questions tumble into our minds, spilling over each other. We search for the answers but they're in a void. Contentment is an illusion. The professors paint horrible pictures of our futures in the forms of split-level homes and tranquilized children. We know down inside there must be more to life than this, but we also know we're destined to this future. It's impossible to avoid. Of course the boys know he sincerely wants to be an actor but the business world is his real security. The girl dreams of teaching in France, but teaching jobs offer no prospects for marriage and the fraternity pin is much more attractive. Security, security our goal! But is this what we were originally looking for? The word we used was contentment. Is there contentment in security?

Other conflicts arise in our question-warped minds: Fraternity and sorority vs. independent—If we're a Greek we wonder, "What's with these organizations?" and if we're independent we wonder if organization contributes to a well-rounded education. Then there's the challenge of being a "wheel" or a "closet-case" (outborn terms but our minds are too dim to originate new ones). If we're at a committee meeting we think we should be studying and if we're studying we think we should be serving the campus. After all there's more to college than homework but the 2.0 looks good on the job application.

Wait a minute, in this swimming mass of oblivion, we should try to find religion. We pray to God, but He's just not there. And then we wonder is there a God? We reassure ourselves that there is and plod on through the muddy conflicts. Since religion, or maybe our approach, didn't satisfy this lack of contentment we try the idea that we're going through a transitional stage. But how far can we "transit"? We're in college and life is holding the sheepskin. We cannot forever "transit".

We bite our nails, smoke the filth (Continued on Page 3)

the PRIVATE EYE

BUCKNELL STUDENTS LACK COURTESY

by Diane Collins

PARDON ME if I yell but everyone here is making such noise that I can't make myself heard above the crowd's roar.

Actually, I'm trying to study and it's quiet hours and to tell you the truth, it's not quiet. But it doesn't bother me. I'm only studying for my impossible 654 test tomorrow. Today has gone very well for me as a matter of fact.

It all started when I worked breakfast in the dining hall this morning. You see, all the ladies took so long eating, talking, knitting and gossiping that I was only a half an hour late for my first class. However, I wasn't the only one late.

Three young gentlemen came in after me. They clomped in and said, "Sorry Sir," in their usual sweet and sincere voices. That wasn't all either. During the lecture they sat in the back row and whispered. One was just whispering, but there were 12 of them, and another guy hair spray from "Professor Downtrodden's head."

Bell rang. Professor said, "Just a few more words, class." Two boys got up and left. The rest of the class merely collected their books and rustled papers. The 10th wrinkle crossed the brow of the harassed Prof.

Then to lunch. The prima donnas who dine in Women's Dining Hall ordered a waitress to take their food to the tables and again the student waitresses were accused of preparing the lobster's tail. They have so much to do with preparing the food.

During the remainder of the meal, not a "thank you" came from the dainty, elegant and feminine lips of the lunching six. It's so rewarding to serve them!

After lunch I went downtown and entered The Br's Lion Shop just in time to hear a freshman lecture an illiterate sales clerk on the finer points of salesmanship as practiced in the student's home town of Little Spike (which is near Big Wheel).

Throughout the rest of the day I saw: boycouts hit old ladies; boys slam doors in girls' faces; students boo Professor Nobel Prize; jam sessions during quiet hours; some girl borrow another's complete wardrobe for the former's New Guinea trip (without asking of course).

Yes, it is gratifying to know that American Youth is doing its share for promoting politeness, elegance and quality among its own. College education does wonders for "shaping

up" anyone who has "uncommon courtesy."

Hail to thee Blithe Spirits for ye shall inherit Chaos and Brutality.

Hail to thee Blithe Spirits for ye shall inherit Chaos and Brutality.

Anemic Oranges Create Problem

by Diane Collins

For the first time since the organization was established, the "Pan-Sem Underground" is working independently of the "Inter-Swartz Hall Committee" on its own "Project for the Week." Pan-Sem is very concerned about complaints it has received from Freshmen women concerning the poor quality of the skins on the oranges served in the dining room at the Sem. At a recent Pan-Sem Underground Senate meeting in the basement of Stephens House, senators from ten Freshman hall groups voiced such complaints. Pan-Sem took immediate

Conroy's Corner

by Dave Conroy

Bill: "Hey, Harry, what's the story on the Sem, anyway?"
Harry: What do you mean, 'what's the story'?"
Bill: I mean why do so many guys tear the Sem apart—say the Gems are a bunch of immature, giggling kids—stuff like that.
Harry: A lot of reasons, I guess. There's really nothing at all wrong with the Gems. You couldn't ask a better date in some respects.
B: Then why do so many guys date flunkies? You know darn well that flunkies can't offer you a Sem-gem can.
H: You'd be surprised.
B: That isn't what I meant.
H: I know what you mean—seriously. Like I said, some of the time it isn't the Gem's fault. Part of it is the "sociological setup" here at Bucknell. When a girl "deviates," as they put it, from the rules, she isn't really worried about breaking the rules or about the Honor Council. The big controlling factor is gossip. If her "friends" (and I use the term loosely) start talking about her, she's done.

B: Yeah, I know what you mean; the whole darn place is just one big grapevine. But do you think the rules accomplish their purpose?
H: Heck, no. If a girl is going to act as she pleases, she will—rule or no rule. Take this 12:30 deadline—supposedly set up to keep the girls out of trouble. Heck, there's more making out done between 9:30 and 12:30 in most cases than at any time after 12:30 isn't needed. And, for that matter, you have the entire day to 12:30 to do as you wish. The deadline doesn't accomplish anything.

B: You can't be serious about all this; too most of the girls here come from decent, acceptable homes—they know how to act, and like you said, "goosey keeps them in line while they're here."
H: You're right for the most part, but don't be snowed by the whole situation. This might shock your sense of morals, but a considerable percentage of the "nice" girls here have already been "deflowered," during the summer, or on vacations during the school year.

B: Oh, cut it out.
H: You asked me, I told you; I'm not kidding you. The nice girls aren't that much different from anyone else—they're still human, but since they want people here to think they're nice kids (to fit a husband, I suppose), they simply act "nice" here and accomplish in the summertime what they've had in the back of their minds the other nine months of the year. Ever meet a Semgem off campus on vacation—situation is completely different.

B: Allright—how about the rest of the girls, then?
H: Oh, you don't mean the "nice girl," but the "sharp kid." Good looking, intelligent, fine personality, and has a lot of quick answers. Says a lot of things with a double meaning—you know, real "risque." Hell, they're had as much experience in worldly matters as I've had raising testie flies. Ever take many of them out after that first date? God, it's terrible. You go to the Milton, or the Rendezvous, maybe Barney's. You sit down and have a few beers with the gang. But she has to say hello to everyone the whole night, in her ever-popular way. "Hi Sam, Bob, Fred, Frank, Jack, Joe, Larry, Jimmy, Herbie, Lennie, Danny, Don, Paul, Jeff, Vinnie, Gene, Teddie, Curt, Pete, Steve"—all with a big phony smile for each one. Like she was saying to herself, "Here I am again, that devil-may-care popularity girl. I wish some guy would stick out his tongue at her, just to see how she would react."

Sometimes she's this same type of girl but goes to the opposite extreme. Still good-looking, intelligent, popular, etc. (as if that really matters); but she spends the whole time with you, completely wrapped up in you. Says clever things the whole night, and gives you more dating answers about sex, etc., as the night progresses. Dances with her arms around your neck, perpetually staring at you with that bedroom-eye look, and says, "Harry, I've just never met a guy who is eight jumps ahead of me all the time. Then you're supposed to smile slyly and give her back that big bedroom look. It's a lot of fun, but as the night progresses, you're laughing hysterically, to yourself. Then you see her some other night with another guy, then another. My word, what a "mover." She has the same routine for all of them. I guess the idea is she wants to keep everyone guessing who she'll go out with next. You know, a real mystery woman. Is she worldly and exciting? Sure, like a laboratory class in geology. "Common stock," man, "common stock!"

B: So, according to you, (just using two extreme types), the "nice" girls are falsely nice to the point of ridicule, and the "worldly" girls don't even approach being worldly.

H: "You pays your money, and you sees the show!"

Parking Lot Goes Unplowed
Westport, Conn., Feb. 20 — After the 575 car parking lot at the Westport station went unplowed for three days, a commuter, Allen A. Ray, the New York, New Haven and Hartford, manager of the drugs and toiletries division of McCall's Magazine and moderator of the Westport Town Meeting, got his dander up.

—DRIVE CAREFULLY—

ON OTHER CAMPUSES

NOTICEABLE NEWS:

Dr. Levitt of the Franklin Institute speaking at Temple University proposed an answer to the present lack of science teachers. This proposal would organize "Senior Scientists" who would include teachers who have spent most of their lifetime in the classroom, department heads and deans of science and engineering schools and distinguished scientists in industry. At the age of sixty, these scientists would be paid a retirement salary for five years and upon reaching the age of sixty-five they would be placed on a "roster of available scientific personnel" and "immediately be employed by a government agency . . . under the same pay scale." These men could visit colleges for two to four weeks to work as a rotating staff or for a few days as lecturers, and "the service would be free to the requesting agency." The total cost of this program, if adopted, would approximate ten percent or \$28 million of the President's proposed educational program.

Mount Holyoke has a joint committee consisting of several students, the school doctors and deans of residence, selected members of the biology and physical education department and the dietitian. It is called the Student Health Committee and is concerned with health and safety conditions.

INTERESTING ITEMS:

The Syracuse Daily Orange informs us that on their Winter Weekend the campus received 22 inches of snow bringing the total snowfall since the first of the year to 75 inches. And we thought we had it bad!
A poll from the Illinois Institute of Technology revealed, in a group of one hundred students in a cross-section of the student body, that the employed students, most of whom work more than 12 hours per week, got somewhat lower grades than the non-working students. We'll just have to have fewer classes a week.

Clever headlines from the Trinity Tripod at Trinity College state—"Froth Tank Team Sunk" and "Fantam Flexers Flex Fit Fails". What is the world?

QUOTABLE QUOTES?

From the Wilkes College Beacon. "Who you shovin'?" "I dunno. What's your name?"

HUMOROUS HIGHLIGHTS:

From the "Delaware Review":
"I think that I shall never see
A D as lovely as a B
A D comes easily and yet it isn't easy to forget
D's are made by fools like me,
But only God could make a B."

The "Etowah" from Elizabethtown College printed the following as a cross-sampling of the papers handed in by a high school class.

Osay can't you see by the drosslight?
What so proudly we hal at the twilight's last sweeping
Whose broad stripes and brought stars through the praise of ours
Over the rockets watched were so gallantly streaming
Were the rockets bright flare, the bones bursting
Go's streaming through the air
Gave proof to the light that the fog was still there.
Osay does that Stars Bonger Banner yet wave

CALENDAR OF EVENTS

THURSDAY, MARCH 6

4:30 p.m. WSGA House of Representatives Hunt Rec. Rm.
4:30 p.m. Bucknell Study: Teacher and His Contribution to the Total Program of the University Caus. L. Lib.

7 & 9 p.m. Hilltop: ANGELIKA Vaug. Lit. Aud.
9:30 p.m. Synchronettes Aquatic Show Fress-Rooke Pool
9:00 p.m. 640 Club Dance Bison

Letters to the Editor

Dear Editor:

I have not had the opportunity to thank all those who were in any way affiliated with my election to the presidency of S. F. C. I should like to thank both those who helped in my campaign and those who placed their confidence in me by voting for me last Tuesday.

I should also like to thank Jack Brothers for the help which he has given me as I begin to assume the responsibilities of my office. On behalf of the student body I should like to congratulate him on the fine job he has done as S. F. C. president this past year. His yearly report gives full evidence of the tremendous tasks which he and the congress undertook and how successfully they accomplished them.

My intent in this letter is not to outline a program of plans for my office, for Student Faculty Congress A.D. comes easily and yet it isn't easy to forget. It's made by fools like me, but only God could make a B."

The "Etowah" from Elizabethtown College printed the following as a cross-sampling of the papers handed in by a high school class.

Osay can't you see by the drosslight?
What so proudly we hal at the twilight's last sweeping
Whose broad stripes and brought stars through the praise of ours
Over the rockets watched were so gallantly streaming
Were the rockets bright flare, the bones bursting
Go's streaming through the air
Gave proof to the light that the fog was still there.
Osay does that Stars Bonger Banner yet wave

On the land and the sea and the home of the brave.
C'est fini!

There is therefore a dual responsibility. I have briefly mentioned your part. I shall do my best to fulfill my end of the responsibility by giving full attention to your concerns, by making them the concerns of the Student Faculty Congress. Again to Jack and the others who have helped me thus far, a hearty thank you and I look forward, with the anticipation of the help of the entire student body, to a good year.

And leave you—quietly.

SOME CARE ABOUT HAIR . . .

by Ed Halsey

What ever happened to the old page boy that made every fellow's heart leap with joy that made even plain girls look like queens that a guy'd like to see there in his dreams? What ever became of the nice long hair that made every maiden seem so fair that now is replaced with stuff so short that saying she's a girl may be a false report? Let it grow down your back once more, I say, that cascading hair with a certain way that flows gently or the feminine neck then nobody can tell if your back's a wreck and when you call he'll be right there when he sees the return of your nice long hair!

On the land and the sea and the home of the brave.
C'est fini!

DR. HARTZELL SPEAKS ABOUT 'USE OF A LIFE'

Dean Karl Hartzell will be the chapel speaker Wednesday, March 12. His topic will be "The Use of a Life."

Dean Hartzell was born in Chicago, Illinois, and spent his childhood in Pasadena, California, and Newton, Massachusetts, where he was graduated from high school.

He received his bachelor's degree from Wesleyan University, where he was elected to Phi Beta Kappa. He was twice nominated for a Rhodes Scholarship. Dean Hartzell was awarded the degrees of Master of Arts and Doctor of Philosophy from Harvard University.

Dean Hartzell has held many interesting positions, such as camp counselor, bench hand in an automobile factory, farm laborer, and lecturer on atomic energy, which make him well qualified to speak on "The Use of a Life."

A.I.C.E. Meeting Planned for April

The Sixth Annual All Day Meeting of the "Experience in Industry" Series sponsored jointly by the Philadelphia-Wilmington Section of the American Institute of Chemical Engineers and the University of Pennsylvania will be held on April 8, 1958, at the Museum Auditorium, 23rd and Spruce Streets, on the Penn Campus in Philadelphia.

As in the past, the program has been developed as a unique educational opportunity of special interest to engineers and chemists who are senior or graduate students or who have been working in industry for a few years.

The broad topic this year will be "Scale-Up in Practice." Individual speeches will include "What to Buy Plant and on What Scale," "Basic Principles of Scale-Up," "Pitfalls," "Internal and External Economics," and "Organization for Scale-Up." The speakers will represent companies such as Sun Oil Company, Esso Research and Engineering, Electronics Associates, Atlantic Refining Company, Hercules Research Center, and E. I. duPont de Nemours Company.

Those interested in this program may contact J. B. Maerker, Houdry Process Corporation, P. O. Box 427, Marcus Hook, Pennsylvania.

Students Participate In Advertising Contest Throughout Country

"What Would Happen To Our Economy if There Were No Advertising?" is the theme of the 1958 Grey Advertising Agency Annual Collegiate Award Contest. This event highlights Grey's participation in Inside Advertising Week, during which students from more than 70 colleges throughout the United States will be visiting New York for a week's activity under the sponsorship of the Advertising Association for Men and Women.

During the week of April 6-11, the students will be spending a day at Grey Advertising Agency, participating in a series of seminars on various phases of advertising conducted by Grey executives. Only students selected by their college to come to New York in connection with the annual IAW are eligible to compete for the Grey Trophy and the \$125 cash prize. A similar award will be given to the winning student's college. Last year's contest on the theme of "What I Think Advertising Can Contribute To America" was won by Peter Hall of Cornell University.

"We are pleased to have these outstanding students as our guests each year," stated Lawrence Valenstein chairman of the Board of Grey. "We hope that the annual Grey award to worthy students will stimulate more and more young men and women with potential to take their places in American advertising. We cannot stress enough, the important responsibility of college and business to create the necessary background of knowledge and experience that is so vital in shaping tomorrow's advertising leadership."

Judges for the annual award are: Arthur C. Fatt, President of Grey; Associate Professor Edward W. Cundiff, Assistant Dean, School of Business, Syracuse University; Don Falton, Advertising News Editor, Radio-TV Daily; and Doris Williams, Advertising Editor, New York Journal-American.

The Grey Award will be presented to the winning student at the annual Inside Advertising Week banquet on April 10.

French Mime Artist To Perform At BU

Etienne Decroux, the famous French actor, will visit Bucknell's campus on Saturday, March 15. Decroux, the world's foremost living mime and teacher of mime, founded the School and Theatre of Mime in Paris and has made his chief contribution to the theatrical world in this field. In effect the mime tries to bring a kind of interpretative dance-like movement into the art of acting. Decroux is the teacher of such French mimes as Marcel Marceau, who has been seen in the United States on television and who has had successful runs on Broadway during the last two years. Visiting in the country for one year, Decroux is teaching at the Actors' Studio and the Senior Dramatic Workshop in New York. In addition, he is giving lecture-demonstrations as such schools as Tufts University, Columbia University, Dartmouth University, and University of Michigan.

While visiting this campus on March 15, Decroux will give a lecture-demonstration for members of Cap and Dagger and a public lecture-demonstration in the evening for which a small charge will be made for admission.

BURMESE EXHIBITION FEATURED IN LIBRARY

As part of the Burma-Bucknell celebration the exhibit room of the library featured an extensive collection of Burmese art and culture items. Among the items to be on display until March 10 are rare textiles, Burmese musical instruments, lacquer-ware, furniture, gold and silver utensils, and delicate woodcarvings.

Most of the display was sent directly from the Burmese Embassy in Washington, many of the items being the personal property of Ambassador U Win. The display has been supplemented with several pieces from the personal collection of Dr. Roy C. Tasker.

Cited For Academic Excellence
A total of 258 students have been cited on the Dean's Honor List for academic excellence during the first semester of the college year at Bucknell University. Of this number, 15 achieved perfect grade records, receiving A's in all of their subjects, according to Dean Karl D. Hartzell.

Included in the group of straight "A" students were 13 coeds and 2 men, a fact not likely to be overlooked by the University's women students.

Drink and Driving Don't Mix!

Ivy League

Is it ever Ivy? Why, Coke is the most correct beverage you can possibly order on campus. Just look around you. What are the college social leaders going for? Coca-Cola! So take a leaf out of their Ivy League book and do the same! Enjoy the good taste of Coke!

Bottled under authority of The Coca-Cola Company by SUNBURY COCA-COLA BOTTLING WORKS, INC. SUNBURY, PENNSYLVANIA G. RUFUS HETTINGER, MANAGER

Governor Names Minnesota Lake For Cartoonist

Minnesota's native son, Max Shulman, has a lake named after him by order of Governor Orville L. Freeman, who recently gave the Marlboro college columnist and humorist his award at the Overseas Press Club in New York, together with a map indicating the lake's location.

After a quick study of the map, Max observed: "The lake even looks like me—short and fat." Despite this new prestige bestowed on him the author of the college column, "On Campus With Max Shulman," has not allowed it to make any noticeable change in his life—other than before dinner he now likes a bourbon and Shulman.

The occasion at the Overseas Press Club was a dinner honoring the Centennial Anniversary of Minnesota's admission as the 32nd of the United States. Governor Freeman also announced other outstanding Minnesotans to have lakes named after them. They included: Eric Seaverid and Sig Mickelson of CBS; Harrison Salisbury, New York Times; De Witt Wallace, Reader's Digest; and Dan Mich. Look.

Dr. Cuyler Hammond To Present Lecture On Smoking Effects

Dr. Cuyler Hammond, an American Cancer Society official, will appear at Bucknell March 15, to give a lecture on the controversial smoking issue.

Dr. Hammond, who is the director of the Statistical Research Section, Medical Affairs Department of the American Cancer Society, N. Y., and professor of biometry at Yale University, will discuss "Smoking and Death Rates—A Riddle in Cause and Effect."

Many statistical studies which have been undertaken recently have shown that smoking is associated with such diseases as cancer of the lung, heart disease and gastric ulcers. Dr. Hammond himself was part of a recent project which studied 188,000 men over a period of more than three years. Its results showed that the total death rate is far higher among the heavy smokers than among non-smokers. This statistical analysis will be described by Dr. Hammond in some detail.

The lecture will be given at 8:00 p.m. on March 15, at the Olin Science Building.

New figures show that air travelers today are less likely to be killed in accidents than their fellow Americans on the highways.

EDUCATION INSTITUTE PRESENTS CHANCE FOR STUDYING IN BRITAIN

Americans who want to study and vacation in Great Britain this summer will have the opportunity to do so in four British university summer schools, it was announced by the Institute of International Education. Closing date for applications is March 31.

Each school offers six-week courses of particular interest to American graduate students. At Stratford-upon-Avon the summer school will be Shakespearean and Elizabethan drama, with a special seminar course on Elizabethan music. At Oxford the subject will be the literature, politics and arts of seventeenth century England. In London, courses will be given on literature, art and social change in England from 1769 to 1870. The theme of the Edinburgh School will be the European Inheritance, with the opportunity of making a special study of history, literature or philosophy. Each school offers excursions to nearby points of interest generally not open to tourists.

The fees for the British Summer Schools including board, room and tuition, are approximately \$224 to \$236, and an additional administration fee of \$15. A few full scholarships are available to qualified graduate students as well as a limited number of partial scholarships open to graduates and undergraduates.

Although these courses are generally intended for college graduates, undergraduate students in their last two years will be considered. Applications for British Summer Schools may be obtained from the Institute of International Education in New York City or its regional offices.

Lymington College German Club
Delta Phi Alpha, the Bucknell German Honor Society, will sponsor a meeting of the German club held at the Lymington College.

Senior Girls Create Problems

You say you met a nice girl and now you have problems and may be getting married soon!

According to the bureau of the Census, approximately 40 percent of the American population will exceed 45 years of age by 1980.

Eight of the ten tallest mountains in the world are in Nepal, a kingdom of 54,000 square miles between India and Tibet.

AN ACE FOR A DEUCE

Bucknell's Ellis Harley drives past Gettysburg foe and scores as Bucknell eventually went on to dump the Bisons, 80-58.

BU Licks Lehigh

The streaking Bison varsity basketball squad won its eighth game in its last nine starts, as the Lions, victory in 22 decisions, last Saturday night as the Herd conquered Lehigh University, 72-60, in a contest played at Bethlehem.

The Engineers made proceedings rather uncomfortable for their visitors in the opening half. Neither team was able to pull more than a couple of points ahead and the jinx that Lehigh has appeared to form over other quintets on its home court was working to perfection.

The lead remained at two and four points in the Bison's favor throughout the opening half and the score read 25-24 at intermission.

Bisons Move in Second Half
After moderate resistance by the Engineers, the second-half-minded Herd took control. The Bison's two 6-6 stalwarts, Hal Danzig and Bob Ericsson began to control both backboards as well as lead the BU offense. The Herd vaulted to a 40-30 lead after 8 minutes in the second half and were never headed after that.

Danzig Leads BU
Danzig tallied 20 points to lead the Bisons while Ericsson hit for 16. Ellis Harley, another member of the "Big Three" of the Bucknell offense, was stalled at only six points for the contest, but Jack Flanagan continued to score in fine fashion by hitting for 16 markers. Flanagan increased his season's total to 315, second only to Danzig.

Danzig ran his total to 370 points for the season and finds himself within easy range of the 400 point season total. If he accomplishes this feat it will be first time since 1950 that a local player has topped 400. The current one-year high at Bucknell is held by Joe Gallagher who tallied 422 during that season.

Coach Ben Kribb's Herd, which boasts its own triple threat in Hal Danzig, Jack Flanagan and Ellis Harley, has been rolling at a fast pace of late as the cause considerably. Always a solid rebounder, Danzig has been connecting consistently with his jump shot to upset rival defenses.

Making their final appearance on the court for Bucknell Saturday will be co-captain Skip Wieder and back-court sparkplugs John Strizzi and Bob Salankiewicz. The three Bison seniors figure to see plenty of action against Muhlenberg. Frosh teams from both schools will clash in a 6:45 preliminary game.

Bison Hoopsters Nip Nittany Lions In Overtime 75-73

by Bill Scott

In one of the most exciting basketball contests ever witnessed at Davis Gym, the Bucknell varsity quintet rallied, after leading Penn State throughout the contest, to score an overtime 75-73 victory over the Nittany Lions last night. A large crowd saw the BU Bisons win after leading by as much as 16 points earlier in the game. The victory lifted the B. U. record to 13-8 while the Lions lost their 11th decision in 19 tries.

Danzig Leads BU

The Herd, led by Hal Danzig's fantastic performance, took early leads of 13-7 and 23-16 as the Lions, defense left the middle open to protect against the outside shooting of Ellis Harley and Jack Flanagan. With Danzig and Bob Ericsson controlling the rebounds for the Bisons the local team had no trouble maintaining leads of 28-20 and 36-25. However, the Lions, led by Ron Rainey and Wally Colender cut the halftime gap to a respectable 39-31. Danzig contributed 18 points in the opening half to the streaking Bison's fast break.

Lions Rally

The second half opened as if the Herd was going to run all over the Lions; this was not the case. The visitors started to hit from all over the floor with one-hand jump shots as the margin closed from 57-46 to 64-58, and finally the Lions caught the Bisons at 67-66. Danzig, who had turned over the second half scoring to Harley and Flanagan, suddenly was called upon to hold the fort for the home team but the amazing Lions passed the ball down court with 3 seconds to play and proceeded to score on a push shot to knot the score and force an overtime.

After a few minutes rest the surprisingly spirited Bucknell quintet resumed play in the extra period and guard John Strizzi, who played a fine game for the Bisons, scored on two fouls after Flanagan had exchanged baskets with Baldy of the Lions to give the close decision to the Herd, 75-73.

Danzig Tops Scorers
Danzig led all the scorers with a season high of 32 points as well as gathering 15 rebounds. Ericsson contributed 9 points to the attack and grabbed a total of 18 rebounds. Flanagan hit for 16 markers and the same-shooting Harley added 12 to the B. U. total. Strizzi, although scoring 18 points, was held to 10 rebounds.

Coach Ben Kribb's Herd, which boasts its own triple threat in Hal Danzig, Jack Flanagan and Ellis Harley, has been rolling at a fast pace of late as the cause considerably. Always a solid rebounder, Danzig has been connecting consistently with his jump shot to upset rival defenses.

Making their final appearance on the court for Bucknell Saturday will be co-captain Skip Wieder and back-court sparkplugs John Strizzi and Bob Salankiewicz. The three Bison seniors figure to see plenty of action against Muhlenberg. Frosh teams from both schools will clash in a 6:45 preliminary game.

DAVE MURDOCK WINS M.A.C. CHAMPIONSHIP

by Bill Bannak

This past weekend the Middle Atlantic Wrestling Championships were held at Westfield College. By 9 o'clock Saturday night, Dave Murdock had been crowned 167 pound champion. This was a climax to a lot of hard work. Dave started wrestling in elementary school and continued through junior and senior high school. In his senior year, he won the District 9 title. He is a 155 and 175 lb. title. He is a 155 and 175 lb. title. He is a 155 and 175 lb. title.

In high school, Dave participated in football and track, but being a Pre-Med student does not leave much time to play more than one varsity sport. He likes wrestling best of all, because it is a highly competitive individual sport.

There are a few newcomers to this year's list of contestants who are very highly thought of for their pugilistic ability. I will refrain from judging them until they have gone out there when the chips are down. For more often than not too many boys look impressive in sparring sessions but do not piece under pressure.

Due to the fact that the intramural race has tightened up and that the Kappa Sig's have a veteran team, the 1958 Boxing Tournament will certainly provide its share of thrills.

Time Trials in Afternoon
Saturday morning before Convocation, the first flight of the diving trials were held. At 1 p. m. the swimming time trials started; the second flight of the diving trials and the freshman diving finals were also held that afternoon.

Finals At Night
The finals were held that night starting at 8 p. m. Before a packed house one of the most exciting athletic events of the year commenced. The fans in the stands were very impressed with this sport so new to the Bucknell campus. A number of the events, namely, the 220, 440, 50 and 100 yard freestyle events, were very close and hotly contested.

Sheehan Stars
The star of the evening was Sheehan of LaSalle who won three gold medals, and set a pool and Middle Atlantic record in the 100 freestyle. Barren of Westchester, also, was quite a star. He took second in the 220 freestyle, third in the 440 freestyle, and took first in 200 butterfly. In this event Barren set a pool and Middle Atlantic record. The Bucknell records for the 440 freestyle relay, the 440 freestyle and the 50 freestyle were also broken during the Middle Atlantic.

All Pool Records Broken
Results:
400 Freestyle — (freshmen) 1, LaSalle, 2, Lehigh; 3, Delaware; 4, Westchester; 5, Bucknell; 6, Drexel—time 4:27.3.

Along the Bison Trail

Sports Editor, Stratton White

Spring is on its way and a young man's fancy turns to baseball, track, or in my case boxing. Here at Buckly it does not take the appearance of robin red breast to turn a lad's eyes towards the feminine figures. His eyes are on it from September to June. However, before this becomes a Kinsey report, I shall get to my topic for this editorial.

The intramural boxing tournament is exactly eighteen days away, and the various fraternity pledges are dog-trotting around the campus with very hallowed expressions on their young faces. There is no doubt that life boxing tournament is the most popular intramural activity here at school. This is understandable. Although we are all fine, upstanding, young ladies and gentlemen we still do have animal instincts deep within our souls. It is only human nature for people to enjoy the sight of two athletes taking turns trying to distort each others features. I do get a chuckle though when some sweet, demure, little thing jumps to her feet and squeals with delight upon seeing one of the contestants walk into a right hand that causes him to sit down rather abruptly. I make no bones about the fact that I yell out loud as anyone during the fights, but I don't go back to the dorms and say I abhor the sight of what goes on inside the "squared-circle".

In my three previous years here at Bucknell I have seen some pretty fine boxing talent. Such names as George Kessler (57), Jack Zeigler (57), Don Plump (57), Jimmy Brubaker (60), Bill Burns (57), Russ Meyer '56, Ollie Maypole (58) and Al Jackson (59), have had a lot to do with drawing large crowds. Excuse me, I forgot to mention George Fourgas (55) who won the 146 and 155 lb. titles while he was here.

I have mentioned the preceding names as boxing talent because I believe that they could be good amateur fighters with the proper handling and training. I have purposely neglected to mention a fellow who has won the 135 and 175 lb. titles. He is Chuck Wagner, a guy who is as tough as nails and has the heart of a lion, but suffers due to the fact that he has power in only one hand, because of a shoulder injury.

I mentioned Al Jackson because I cannot help but feel that he does have boxing ability. If a coach could rid him of a couple of bad habits Jackson could do well as an amateur.

There are a few newcomers to this year's list of contestants who are very highly thought of for their pugilistic ability. I will refrain from judging them until they have gone out there when the chips are down. For more often than not too many boys look impressive in sparring sessions but do not piece under pressure.

BROUGH'S AT BUCKNELL
LEWISBURG, PA.

WESTCHESTER WINS M.A.C.

Contestants in the MAC swimming championships battle it out in the backstroke in the Fresh-Rookie Pool.

Westchester State Teachers College splashed their way to victory, before a crowd of 100 people, in the Middle Atlantic Swimming Championships last Saturday night in the Fresh-Rookie Pool.

13 Teams Participated
The teams that came to the meet were: Lehigh, Lafayette, Lycoming, Wilkes, LaSalle, Westchester, F&M, Dickinson, PMC, Swarthmore, Delaware, Drexel, and host Bucknell.

Time Trials in Afternoon
Saturday morning before Convocation, the first flight of the diving trials were held. At 1 p. m. the swimming time trials started; the second flight of the diving trials and the freshman diving finals were also held that afternoon.

Finals At Night
The finals were held that night starting at 8 p. m. Before a packed house one of the most exciting athletic events of the year commenced. WRESTLERS PLACE FOURTH IN M.A.C.

The 1958 Bucknell Wrestling team finished in a tie for fourth place with Hofstra College in the Middle Atlantic Conference championships, held at Wilkes College, in which 17 schools were represented.

Ken Wightman lost in the first round to Morgan of Wilkes 5-1. Morgan eventually went on to become champion of the 123 lb. class. John Ayre had to wrestle two matches in three hours. He won his first but lost his second bout by one point.

Rowland Bell lost to Romig of Lycoming 5-0 in the first round. Pete Pritts lost to Morgan of Wilkes in the first round via a referee's decision. The contest went into three overtimes.

Captain Larry Dempster, St. Charles senior, triumphed in four of his five MAC matches to earn co-champion honors in the 157 lb. class. Dempster dropped a 6-4 decision to Wilkes' Dave Thomas, the eventual champion. In his third contest, Larry finished strong winning his last two matches and winning up his final campaign with a sparkling overall mark of 11-1.

Sophomore Dave Murdock became the MAC champion in the 167 lb. division. Not only did Murdock beat ten opponents without losing in his initial varsity campaign (three of them in the MAC tournament), but he blanked his last eight victims without a point. Dave gave up only three points all season.

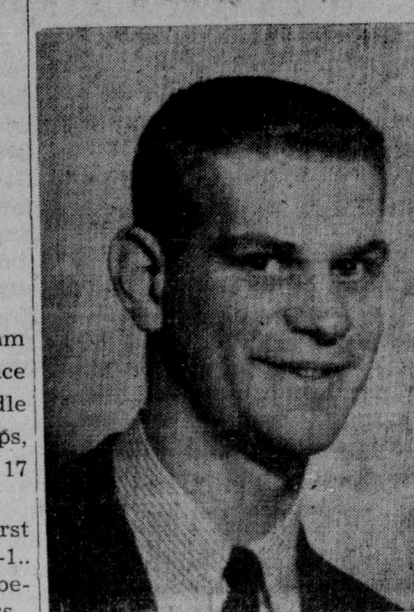

Grant Watkins lost in the opening round to Doug Cherry in the 177 lb. class.

Edge Deuel lost in the semifinals to Bartolet of Moravian 4-3, after having defeated Miller of Lebanon Valley 9-6.

100 Freestyle—1, Sheehan (La S.); 2, Coston (Dick.); 3, Kulp (Dick.); 4, Barrett (BU); 5, Friest (Del.); 6, Williams (Laf.)—time -53.2.
200 Backstroke—1, Rickenbach (W. C.); 2, Wallein (La S.); 3, Gotwell (Leh.); 4, Swartz (W. C.); 5, Buys (BU); 6, Murphy (Leh.)—time 2:22.
400 Freestyle—1, Maloney (Leh.); 2, Mulligan (Dick.); 3, Barren (W. C.); 4, McHugh (Leh.); 5, Lavin (La S.); 6, Grogan (Laf.)—time 5:10.
200 Breaststroke—1, Wright (W. C.); 2, Berkibile (F&M); 3, Salomon (Leh.); 4, Swartz (La S.); 5, Woolston (Leh.); 6, Grant (Dick.)—time 2:39.
400 Freestyle Relay—(freshmen)—1, LaSalle; 2, Lehigh; 3, West Chester; 4, Dickinson; 5, Dickinson—time 3:49.1.
400 Freestyle Relay — (varsity)—1, LaSalle; 2, Lehigh; 3, West Chester; 4, Dickinson; 5, Bucknell; 6, Lafayette.

West Chester was first, Lehigh second, La Salle third, Dickinson fourth, Lafayette fifth, and Bucknell sixth. Following Bucknell were the rest of the teams that participated.

Bison Of The Week Bob Ericsson

by Bill Bannak

"Mr. Bones" is this week's Bison of the Week. Bob Ericsson is a Junior from Westfield, New Jersey and has been a real mainstay in the Bison five this year. He has averaged 8 points a game for the year, but for the last 7 games he has averaged over 12. "Bones" usefulness and ability don't lie only in his scoring ability, for he is second on the Bison team in rebounds. His high game of the year was against Juniata, scoring 22 points and hauling down 15 rebounds, but his best game was against Lafayette, when he scored 20 points and grabbed 12 rebounds.

It is hard to picture his 6-6, 190 lb. frame bent over a golf club, but "Bones" says it is one of his favorite sports. In high school he was captain of the team and county champ, and hopes to play for the school this spring.

While at school in the off season, Bob enjoys intramural sports. He coached the SAE team to the play-offs in basketball this year, and last spring won the high hurdles in the intramural track meet. In the summer it's the shore or an occasional golf tournament.

"Bones" feels that Temple and Tennessee were the toughest opponents this year.

HERE'S THE OPPORTUNITY AND THE CHALLENGE OF ASSIGNMENTS IN . . .
GUIDED MISSILE ELECTRONICS
Bendix YORK needs ELECTRONIC ENGINEERS
Mechanical Eng. • Physicists

Here is your chance to prove your ability doing important work on missile fuzing, guidance, tracking and related test equipment. We have the openings that offer you the opportunity to move ahead rapidly in your profession. At Bendix York, you benefit from the advantages of a small company atmosphere in a growing division of one of the nation's largest engineering and manufacturing corporations. Also, you enjoy the "good life" in our beautiful suburban community. Good salaries, all employee benefits.

Seabourne 2nd In Bowling Championships

Although handicapped by a painful leg muscle injury, Lt. Thomas G. Seabourne, assistant professor of military science at Bucknell University, managed to place second in the recent All Events Bowling Championship Tournament at Indiantown Gap Military Reservation. The competition included the entire credited the mending skills of Bucknell's military district. Lt. Seabourne won the affair last year. Lt. Seabourne, who has earned many previous awards for his bowling achievements, gained a berth in the Second Army Bowling Tournament to be held the week of March 15 at the Aberdeen Proving Grounds in Maryland. He was the Second Army singles champion with a 676 score in 1956.

At Indiantown, Lieut. Seabourne bowled one 600 series and posted the second high single game of 831. He credited the mending skills of Bucknell trainer Hal Biggs with getting him in shape to participate in the tourney after a leg injury had dimmed his chances of making the trip to the Gap.

SCIENCE MADE SIMPLE: NO. 2
Though this column is intended solely as a vehicle for well-tempered drollery, the makers of Marlboro have agreed to let me use this space from time to time for a short lesson in science. They are the most decent and obliging of men, the makers of Marlboro, as anyone can tell from sampling their product. Only from bounteous hearts could come such a lot to like—such filter, such flavor, such fine pay. The filter works the flavor pleases; the box protects; who can resist such a winning combination? Surely not I.

Today let us take up the science of medicine, which was invented in 1906 by a Greek named Hippocrates. Hesson gathered around him a group of devoted disciples whom he called "doctors." The reason he called them "doctors" was that they spent all their time sitting around the dock and shooting the breeze. In truth, there was little else for them to do because disease was not invented until 1477.

After that, doctors became very busy, but it must be admitted that their knowledge of medicine was lamentably meagre. They knew only one treatment—a change of climate. For example, a French doctor would send all his patients to Switzerland. A Swiss doctor, on the other hand, would send his patients to France. By 1789 the entire population of France was living in Switzerland, and vice versa. This later became known as the Black Tom Explosion.

Not until 1924 did medicine, as we know it, come into being. In that year in the little Bavarian village of Papo-Pago an elderly physician named Winko Signafos discovered the hot water bottle. He was, of course, burned as a witch, but his son Lydia, disguised as a limotype, made his way to America where he invented the Mayo Brothers.

Medicine, as it is taught at your very own college, can be divided roughly into two classifications. There is internal medicine, which is the treatment of interns, and external medicine, which is the treatment of externs. Diseases also fall into two broad categories—chronic and acute. Chronic disease is, of course, inflammation of the chron, around him a group of devoted disciples whom he called "doctors." The reason he called them "doctors" was that they spent all their time sitting around the dock and shooting the breeze. In truth, there was little else for them to do because disease was not invented until 1477.

Two years ago Haskell had Addison's disease. (Addison, curiously enough, had Haskell's.) Poor Haskell catches everything that comes along. Loveable old Dr. Caligari once said to him, "Son, I guess you are what they call a natural born catcher." "The joke is on you, Doc," replied Haskell. "I am a third baseman." He thereupon fell into such a fit of giggling that the doctor had to put him under sedation, where he is to this day. But I digress. We were discussing medicine. I have now told you all I can; the rest is up to you. Go over to your med school and poke around. Bring popcorn and watch an operation. X-ray each other. Contribute to the bone bank. . . . And remember, medicine can be fun!

DOWN BEAT

Strictly Ad Lib

Patti Page has become a professional television performer. According to one CBS-TV spokesman, "She used to be tense and nervous. She'd worry about blowing a line or fluffing a word. Now, she just takes it in stride, and sometimes makes a pretty good gag out of a mistake." Miss Page's success has been so substantial that she's seriously considering a Hollywood film. "I want to make a movie," she told Down Beat's Don Correll, "but I want the script to be right."

Miles Davis discusses his own life in jazz in the March 6 issue of Down Beat. He discusses past influences and present attitudes. In typical Davis prose he says, "People ask me if I respond to the audience. I wouldn't like to sit up there and play without anybody liking it. If it's a large audience, I'm very well pleased because they are there anyway. It's a small audience, sometimes it doesn't matter. I enjoy playing with my own rhythm section and listening to them. I'm studying and experimenting all the time."

Blues singer Joe Williams, a key cog in the Count Basie machine, is happy Johnny Mathis joined the ranks of professional singers. In another of Don Gold's Cross Sections, Williams commented: "I'm very grateful for this man (Mathis). I told him recently that I was happy he came on the scene. He does a good job and has caused the music business to turn around to better music to a degree. For this I'm grateful."

Stan Kenton is fond of the music of Lionel Hampton. In the second part of John Tynan's story on Kenton, the bandleader comments on Hampton: "To me, a greatly under-appreciated musician in Lionel Hampton. No one plays like him; but nobody knows, because of his circus antics. Milt Jackson, for example, never played like him. Lionel looks all the time; his solos build on intelligent lines—he knows the value of building to a musical climax. Hampton's master—this is all."

Music News: Creed Taylor, jazz man for ABC-Paramount Records, has been sending jazz LPs to musicians behind the Iron Curtain. "We'll be sending more LPs over there and perhaps some of the other companies might want to follow suit," Taylor told Down Beat. . . . Jeri Southern decided on a stand-up act and hired Bud Motzinger as her accompanist. . . . With the release of the Duke Ellington Columbia single, "My Heart, My Mind, My Everything," Duke entered his 33rd year as a recording artist. . . . The E. F. Olds and Son Company, manufacturers of musical instruments, announced a scholarship plan for college music students. The awards, consisting of \$500, \$350, and \$200, will be granted for the thesis, term paper, or article judged as showing the greatest evidence of "original thinking, sound research, and intelligent objectives." Details can be obtained from F. E. Olds and Son scholarship committee, 7373 N. Cicero Ave., Chicago, Illinois. . . . RCA Victor Records announced that it sold 220,000 jazz LPs during 1957; during the year it sold 7,500,000 classical albums.

Here are the four best selling jazz albums in the nation, based on a bi-weekly survey of 300 retail record outlets as reported to Down Beat:

- (1) Erroll Garner, *Concert by the Sea* (Columbia 683).
- (2) Shelly Manne and His Friends, *My Fair Lady* (Contemporary 3527).
- (3) Frank Sinatra, *Where Are You?* (Capitol W 855).
- (4) *Modern Jazz Quartet* (Atlantic 1265).

PASS IN REVIEW

by William Meister

Once again we find the rifle team in the thick of things. Their schedule has really been a busy one of late, and they are firing strongly and consistently. Carnegie Tech handed us a close defeat in a four position postal match. The final score was 1920 to 1911. We fired our best score so far in this match, but it wasn't enough. Carnegie Tech is the strongest team in two leagues, but they had to fire their best score of the year to beat us.

In a three position postal match, (prone, kneeling, standing) we defeated the Dartmouth College Varsity Team. The score, 1422 to 1388 indicates that we really outshot the Redmen. Another postal match has been started, but as yet has not been completed. On the basis of the first four scores fired, this could be our highest scoring four position match to date. The scores so far are: Hunter, 387; Hartman, 386; Frontz, 384; Wreden, 381. Berk, Ellerton, Taylor, Schaffer, and the others are all shooting for even higher scores in an effort to place their names among the first five scores whose scores make up the team total. The results of this match should be known by next week.

In addition to firing in matches every member of the ROTC rifle team has fired the Army "E" course for qualification, and has successfully qualified for the "Expert Rating." In the near future, Lieutenant Colonel Martin will award these men with their "Expert" shooting badges. This badge is a sterling silver one, and can be worn with the uniform. It seems to me, with the fine work being done by this team under SFC Walters, that a varsity rating should be given to the rifle team. This is the case in most schools, and I understand that efforts have been made in that direction, here at Bucknell. A small school like Bucknell should not fail to recognize the valuable publicity and honors which small team sports like swimming, tennis, and rifle, among others can bring it.

There are 13 cars of European make on the Bucknell campus.

BEHIND THE MIKE

by Joel Berger

For my column this week, I thought I would tell you about the WVBU Educational Series and the person who is running it for the station. The Supervisor for the series is Lois Prete, a 20 year old junior from Lester, Penna. who has been very active in school affairs since she first arrived on our campus. As a sophomore, Lois was the president of Taylor Street House and the secretary of the House of Reps. She has been a freshman Fireside leader, a freshman camp counselor, and an active member of the C. A., and is now a member of Rho Tau Sigma, the Radio and Television Honorary.

Lois, who was editor of her high school year book and a member of the Delaware County "Quiz Kids," has arranged a very complete program of educational programs for the Bucknell students this semester. This series will be heard on Monday through Thursday evenings from 7 to 7:30, and on Sunday evenings from 7:15 to 8:00. Included in the series will be such shows as: 1957 in Review, C. A. Reports, Student Government Reports, and on every Sunday night, a show devoted to Drama. A complete list of programs will appear in print at a later date.

As a Chemistry major, Lois is undecided as to her plans for the future, but they include either graduate study in chemistry and then into the technical part of show business. Whatever she does decide to do, we of WVBU are sure that her efficiency will be of a great asset to her and her associates. So we urge you to keep your radio tuned to 640 on the dial all the time, but especially when Lois Prete, Educational Supervisor of WVBU presents her Educational Series, and brings the best in culture to you from Behind The Mike.

CAMPUS THEATRE PRESENTS BEST-SELLER

An international best-seller, Francoise Sagan's "Bonjour Tristesse" comes to the Campus Theatre screen with a truly international cast: British stars Deborah Kerr and David Niven, Jean Seberg from Iowa, Mylene Demongeot from France, Geoffrey Horne from Argentina by way of Cuba and the University of California. In addition, French chanteuse Juliette Greco, also stars, and Italian comedian Walter Chiari.

A Columbia release, "Bonjour Tristesse" was filmed in Paris and on the Riviera by Viennese-born producer-director Otto Preminger. The CinemaScope-Technicolor production is based on Arthur Laurents' screenplay of the Sagan novel which, when Preminger acquired it, was a best-seller in 12 countries.

As in the book, the story is told in retrospect by teen-age Cécile, The Paris sequences are in black and white, while the flashback narrative, of an unconventional summer on the Riviera one year before, is in color.

Occasional visits were paid by Mlle. Sagan to the Riviera location. Observers found her unexpectedly shy, modest and able to joke about her earlier, near-fatal highway accident. Referring to an auto crash in the plot, she told Preminger, "If you need someone to jump the car into the water, please call me."

During the second World War, the liver of the dogfish shark, which abounds in northern Atlantic waters, was America's chief source of Vitamin A.

New Jersey, only third from the bottom in size, ranks eighth among the United States in population with approximately 5,400,000 people.

Because engineering is a profession at GM -we offer you a career- not a job

ONE REASON engineering standards at General Motors are so high is that GM recognizes engineering as a profession. And the men who engineer the many different products made by General Motors are respected for the profession they practice.

That is why, when you are invited to join General Motors as an engineer, you don't simply take a job—you start a career.

It is a career that is rewarding both professionally and financially—starting on your first day of association with General Motors at any one of its 35 divisions and 126 plants in 70 cities and 19 states.

During your early days at GM, for example, you work with a senior engineer who guides your career along professional lines.

You are also actively encouraged to pursue your education towards an advanced degree. For we at General Motors recognize that, in doing so, you will become more valuable to us and the engineering profession.

You are given the opportunity to obtain professional recognition through participation in engineering society forums, presentation of technical papers, winning of patents and other recognition of your accomplishments.

And you are also encouraged to take an active role in your community's affairs—because a truly professional man is a good citizen as well as a good engineer.

All this is for a reason—and a good one.

Many of the men who will fill the key positions at GM in the future are the young engineers joining GM today. This is not theory, it is fact. For of our 42 Division General Managers, 23 of our 33 Vice-Presidents are engineers, too.

Today we are looking for young engineers—such as you—who may fill these positions tomorrow. The rewards—both professional and financial—are substantial. If you feel you have the ability, write us. It could be the most important letter of your life.

June graduates!

A General Motors Representative will be on hand to answer questions about job opportunities with GM.

MARCH 13 and 14

GM positions now available in these fields:
MECHANICAL ENGINEERING • ELECTRICAL ENGINEERING
INDUSTRIAL ENGINEERING • METALLURGICAL ENGINEERING
AERONAUTICAL ENGINEERING • CHEMICAL ENGINEERING
CEMATIC ENGINEERING • MATHEMATICS
INDUSTRIAL DESIGN • PHYSICS • CHEMISTRY

PROF-FILE

by Jim Chapman

The city of Salamanca is located in the center of picturesque Spain, a country saturated with color, custom and gaiety. From this beautiful city hails Senorita Maria Cristina Troconiz, who at present is the house mother of the Spanish House and an assistant instructor in Spanish. Senorita Troconiz is in America for her first time and her comments on the life here can be condensed into one simple statement—"It is so very different."

Senorita Troconiz was well versed on what to expect when she arrived, because of a brother who spent some two years in Los Angeles, and she commented that the U. S. is just what she expected. Last Friday afternoon I spent one of the most pleasant hours of my Bucknell stay visiting with the Senorita, and I want to bring to you what we talked about.

To start out, Senorita Troconiz explained how very different the educational systems were in the two countries. She told me that in Spain, there are no campuses like we know them here, and the University consisted only of buildings in which were held classes. The students attended the classes on their own free will, and so did because they had "the desire to learn." "This is probably the biggest difference in the two systems," I remarked. She smiled.

As for sports, the big three in Spain are the bullfight, pelota, which is played primarily in the North, and football—not our type of football, but soccer as we know it. The dress in Spain is also another difference she pointed out. Although everyone does not go around in bull fighter outfits, as one might be led to think from seeing all the posters, she remarked that the clothing style was a combination of many countries and exclusive only to Spain.

The greater part of our conversation concerned the holidays that are celebrated in Spain. Two of the biggest are Christmas and Easter, both held in a strict religious sense. Christmas is celebrated on the 5th of Jan, during Epiphany, because of the fact that Spain is a Catholic. It is held in great religious feeling, and is not so commercialized as it is here in America. However, Easter was the most interesting holiday Senorita Troconiz described to me. During the Easter period, the people all go into the streets and parade, walking behind beautiful floats—I use that word because I can find no other to describe them—which have beautiful statues of many various religious themes on them. The people wear colorful capes or robes, called cajardas, which have particular significance. Each province of Spain has its own color, and on Easter the inhabitants of the various provinces appear all decked out in these beautiful garments.

Spain has many, many other things to offer, among which are lunch from 2-3 p.m. and dinner from 10-11 p.m., with tea or coffee hour around 6:30 in the evening. Speaking of food, what did Senorita Troconiz have to say about that? "Your food I like very much but it is very much sweeter than ours. You seem to have sweet food at all hours." Spanish food, she commented, is "very rich and very bad for the figure."

One of Bucknell's biggest losses this June will be when Maria Cristina Troconiz leaves the Bison territory to return to her festive homeland. The spark of life that she has added to this campus is greatly felt by the girls who reside with her, and I know from their personal opinions that there is no finer person on this campus than the refreshing Senorita.

—DRIVE WITH CARE—

OFF THE CUFF

It's a real pleasure to go to a formal dance and not feel that we are attending a waiters' convention.

New styles in formal wear have caught on, and the man with a madras summerband and matching tie is no longer a freak. Even the jacquard patterned sets promise to be popular.

Those who are shopping for a tuxedo would be smart to look into the lightweight navy blue silks or wools. These may be a little too light going to and coming from a winter dance, but they'll be comfortable on the dance floor. You'll look as unrumpled when the band plays "Good Night, Sweetheart" as you did during dinner.

Several of the coming weeks will be spent in dressier clothes than we use for everyday. If you plan your weekend around the metropolitan areas, remember a suit. The campus sport ensembles are great around the campus, but we are all on display when taking off for a big weekend.

If we're going to be dressy, we may as well consider all sides of the question. There's a softer look in suits, with fabrics such as cashmere, and finished worsteds seen in the well-dressed circles. Colors are more in the dusk and twilight hues as opposed to the formally popular midnight blues and charcoal colors.

With suits like these, the good old oxford cloth shirts are a little casual. We don't need to swing clear over to silk shirts, but a happy medium is found in lustrous broadcloth. Another good fabric is Pebble Weave. It has a subtle textured appearance, with a softness and lustre all its own. Patternwise, stripes range in widths from candy to hairline. Notable among these is the Arrow Ripple Stripe series. Naturally the more dressier of the group are the stripes on a white ground, though they do come with colored backgrounds.

But, if you're going to be dressy, you would need to be dressy, you would need to be dressy. Save colored shirts for the old grey flannel suit. Speaking of colored shirts, what can be done with those old numbers

Psychologists Relate Bad Health With Emotional Maladjustment

Resentment over real or fancied insults can rob us of vital energy and even effect our health.

Headaches, indigestion, insomnia, acute fatigue and even heart disease and ulcers are frequent by-products of resentment. A study made at the University of Colorado showed that people who consistently nurse small grievances are more likely to need hospital care than those of happier disposition.

Accidents, too, often result from bitterness, it was noted. Drivers who use their cars when angry, industrial workers with "gripes" against the boss, housewives who brood over their husbands' lack of attention all are frequent victims of serious mishaps.

Psychiatrists say that memories of old irritations are at the root of many emotional problems. Small hurts are exaggerated by constant recollection and soon become blotted far beyond their real importance.

Grudge-holding never solves problems. We quote philosopher Irwin Edman who said: "We consume in hatred such energy as might be devoted to the improvement of a couple of years ago? We have a yellow one, a pink one and even an olive one, and they all look like last year! Who says men's styles don't change? We're beginning to understand what a girl means when she looks at a closet full of clothes, and announces she hasn't a thing to wear. We have a drawer full of shirts in those colors, and wouldn't wear them to a dog-fight. Anybody got an idea?"

We discovered something interesting the other day. The girls are crazy about Tab collars. We all know that the shorter point is the rage now, but it was news to find that the girls can get excited about a collar style. Didn't think they knew a Glen from a Gordon. Anyway, they say that the Tab collar makes us look just like an Arrow collar man . . . and there's your cue.

A trim and tailored look that goes everywhere! Craely's slim, tapered shirtdress in washable cavalry twill. Its smooth button-down front gets fresh new accent in the coin button trim . . . saddle-stitched leather belt. Beige, Olive, Green. Sizes 8 to 16.

The Lyons Shop

DO STUDENTS ATTEND BUCKNELL FOR AN EDUCATION?

Joe Doe is part of a vanishing breed on the Bucknell campus. Joe—the name is fictitious, but it stands for a small hardy group—has never before had his name appear in the Bucknellian except once when he advertised for a ride home during his freshman year. Joe has never been named a Bison of the Week (he does not play any varsity sports), he has never been recognized as a Coach of the Week or as an outstanding professor (he is not employed by the university), he has never been a queen candidate (he failed to qualify because of a poor showing at the physical examination).

Joe Doe's ability to chug-a-lug alcoholic spirits is sharply curtailed by a partially constricted esophagus. The embarrassment caused him by this condition is non-existent and is but momentary to the amount of discomfort that he suffers when he discovers that he cannot participate in marathon TV viewing contests. Joe's appearances at the Bison, the AI, the Sweet Shop, and the Burger are infrequent. He receives his high grades every semester with a light heart and a song on his lips. He represents the unheralded few who have come to Bucknell not for beer and bridge, not for sex and sleep, but for a seemingly unusual reason—an education!

Perhaps Joe Doe is an extremist in his total lack of participation in what may be considered part of the over-all educational process. He does, however, exert a proper influence on those individuals and groups who tend to warp college life out of its proper perspective. Total withdrawal is unnecessary and undesirable. On the other hand, awareness of what is important and has permanent value, as opposed to those things which are but momentary and fleeting, as a trait to be highly valued.

- Academic study with outstanding lectures in literature, philosophy, and political science.
- Workshop courses with experts from the book industry.
- Apprenticeship training in New York book publishing houses.
- M.A. Degree.
- Limited to thirty students.

For information and application write: John Tabb, Director, Graduate Institute of Book Publishing, New York University, Washington Square, New York 3, N. Y.

A Campus-to-Career Case History

Roy Vaughn (left) discusses a central office power installation with Sutchman R.F. Heider.

"I like (and get) 'start-to-finish' engineering assignments"

"When it comes to making a job interesting, I think the assignments a man gets are more important than the size of the project he's working on," says Roy Vaughn of Illinois Bell Telephone Company. "I found that out soon after I graduated. My first job was with an organization where the projects were big, but the individual engineering assignments lacked variety and scope."

"After this experience I looked over power engineering opportunities in a number of companies. I joined Illinois Bell because it promised the most interesting and challenging work. That was three years ago. My work with IBT has everything that I was looking for."

"My job is to engineer the power requirements for telephone central offices.

The work never gets routine. One job may be for a new building, the next for expanding existing plant. And power needs vary tremendously from little rural dial offices serving a few hundred telephones, to big metropolitan telephone plants serving hundreds of thousands.

"But what I like best is that I generally handle the job from start to finish. I determine the operational and emergency power requirements of the facilities to be served, and order the equipment needed. And I'm usually on hand during installation to see the job through."

"Not only does this kind of engineering assignment keep work interesting, but I find it is helping me become a better manager. And that improves my chances for advancement."

Roy L. Vaughn, Jr., graduated from Illinois Institute of Technology in 1954 with a B.S. in E.E. degree. He is one of many young men who are finding interesting and rewarding careers in the Bell Telephone Companies. Find out about career opportunities for you. Talk with the Bell interviewer when he visits your campus, and read the Bell Telephone booklet on file in your Placement Office.

... Burma-Bucknell ...

(Continued from page 1)
Davis Gymnasium. Following the Introduction by President Odgers and Greetings by Ambassador U. Win, William O. Douglas, Associate Justice of the Supreme Court, gave an address on "America, at Home and Abroad", stressing the fact that in the future "spunk" and nuclear physics will play a secondary role whereas the struggle for better international relations will be of primary importance. Honorary Degrees were then conferred upon William O. Douglas and U. Win. The Convocation was concluded with the National Anthem of the Union of Burma, played by the orchestra. Then at 12:15 luncheon was held at faculty and community homes for the guests, hosts, and hostesses.

Saturday afternoon, starting at 3:15 p. m., tours were conducted to the United States Federal Penitentiary and Pennsylvania Power and Light. Both of these tours were filled to capacity. At 3:30, the tour of the Community Welfare Services and visits to Lewisburg Homes began. Included in this latter was a visit of an ultra-modern American home. The Seminar on American Administration financing and government was called off. The visit to a College Farm consisted of a tour of a typical, old farmhouse.

The highlight of the weekend was the banquet held at Women's College Dining Hall at 6:00 p. m. Saturday evening. The invocation was offered by Donald Spear '58, followed by a roast lamb dinner. After dinner, greetings and introductions were given by Cub Wyant, student chairman, and President Odgers, toastmaster for the evening. Justices William O. Douglas then spoke informally to the group after which Ambassador U. Win presented an address concerning the various developments of Burma in the past ten years. He compared the progress of the Burmese in ten years to that of the British occupation of one hundred years. Stressing education, U. Win spoke of the developments of not only primary and secondary schools, but of the addition of several colleges and the recognition of the College of Mandalay, as a University, which is taking place in the near future. In summary, he told about the political, social, and economic changes in Burma. The Burma-Bucknell Bowl, beautifully embossed in silver and mounted on a teakwood base of carved lions, was presented by Ambassador U. Win to President Odgers in honor of this anniversary weekend. Miss Liza-beth Shaw Loo was unable to present her father's portrait. The plane on which it was to arrive was delayed due to bad weather conditions. Miss Shaw Loo did make a speech, the first she had ever delivered in English. Citations were then awarded to Miss Helen Hunt and Miss Shaw Loo.

Immediately after the banquet, Saturday evening, the International Party was held in the Davis Gymnasium Annex. Again a few female students came in Burmese dress adding even more color to the party. The large crowd viewed Burmese entertainment consisting of various native dances and acts. A sample of the American Square Dance was given by a practicing group of local men and women. Bucknell students were a bit surprised when, expecting to show the Burmese something new by jitterbugging, the Burmese themselves joined in and jitterbugged with experience. Refreshments were served, and the fascinating Cane Ball game was played by a few Burmese men, the Cane Ball being offered for use by Dr. Roy Tasker.

The weekend officially ended with the conclusion of the Nine O'clock Hour, Sunday morning, at which Dr. Pe Maung Tin led conversations on Buddhism. "Butch" Nielson started out the discussion with Dr. Tin and questions were asked by Bucknellians and Burmese guests as well.

Sunday afternoon, in the Exhibit and Treasure Rooms of the Library.

... Baseball Team

(Continued from page 1)
Bucknell's complete 1958 baseball schedule:
April 15, Penn State, away; April 18, Lafayette, at Hedges, Pa.; April 19, Dickinson, away; April 24, Penn State, home; April 26, Lehigh, away; April 28, Scranton, home; April 30, Franklin & Marshall, away.
May 2, Pitt, home; May 3, Susquehanna, away; May 5, Lycoming, home; May 7, Navy, away; May 10, Albright, home; May 15, Juniata, home; May 15, Gettysburg, away; May 17, Deaware, home; May 21, Muhlenberg, home; May 23, Penn, away; May 24, Temple, away.

Forty United States students and twenty from the Soviet Union will participate next summer in the first exchange of student groups between the two countries.

Corsica, an island 100 miles off the French coast, is famed as the birthplace of Napoleon.

Burmese textiles, lacquers, and carvings were on display, and the exhibit will be open to the public for ten days. Slides on Burma were shown that afternoon also, and these photographs will be shown again this Sunday, March 9, at 3:30 in the Treasure Room.

An added feature of the evening will be Miss Constance Dent, a Bucknell graduate of the Class of 1945 and guest speaker for the evening. Miss Dent, who will discuss the AAUW Fellowship Program and graduate work, is presently completing research in the area of attitudinal formation for her doctoral dissertation in clinical psychology at Penn State University. Miss Dent, a recipient of the National AAUW Fellowship Award, was formerly a dean of women and assistant professor of psychology at Johnson Valley College. She has also had experience as a personnel interviewer and counselor with the Philadelphia Inquirer, and before this as a social caseworker.

Miss Dent has also been recognized by Glamour Magazine as one of the five leading career women in the United States and considered by Mademoiselle Magazine for one of the top ten women under thirty in our country.

... New Football Coach

(Continued from page 1)
Since 1953 he has been backfield coach under Milt Bruhn, the current Wisconsin coach.

Odell is married and the father of three children: Bobby, 11; Nancy, 7; and Cynthia, 5. Odell will come to the campus this weekend to assume his coaching duties and to arrange for Spring training, according to Athletic Director Al Humphreys. Members of the football squad will be invited to meet their new coach Monday afternoon at 5 o'clock in Room 201 in Davis Gymnasium.

The planet, Venus, earth's closest neighbor, perpetually veils its face beneath a sea of clouds. At intervals of about a year and a half, Venus draws close to earth and becomes the evening star, bright enough to cast a shadow.

Bill Lane, former coach at Bucknell, led the Lewisburg High School to an undefeated season in football this year.

The sea floor, barely explored at all, covers about 70 per cent of the social caseworker.

... Annual Report Of S.F.C.

(Continued from page 1)
2. Standard forms for registering all student organizations were drawn up and adopted.

3. An investigation of overlapping rules was made.

4. The motion for Cabinet Recorder was originated in the Cabinet.

5. The Student Guild Group of American Guild of Organists was granted recognition on campus.

6. The plans for members of Bucknell student organizations to visit and observe other campuses is being formulated.

7. Bucknell University Rifle and Pistol Club was organized.

The following work by committees has been done:

1. One hundred students were chosen to work on committees of the Bucknell Self Study.

... M.S.A. Elections

To Be Held Friday

Luke Karlovce, president of the Men's Student Assembly, has announced that the MSA elections will be held Friday, March 14, from 9:00 a. m. to 4:30 p. m.

There will be two voting places during the election. All freshmen will vote at Swartz Hall, while all others vote in Roberts Hall.

The MSA nominating committee has submitted the following candidates for next year's MSA:

President - Dick Hunt, George Mandakas, and Herb Wright.

Vice President - Tom Clark, Jim Hall, Al Jackson, and Bob Wilkins.

Secretary - Bob Johns, Myron Sugarman, and Sam Wayner.

Treasurer - Dennis de Brandt, Bob Howell, and Jack Woerner.

The Judicial Board of the MSA has submitted the following candidates for next year's Judicial Board:

President - Don Avery, Andy Cohn, Jerry Carlson, Leon Diodato, Bob Nicholson, Phil Price, and John Yankey.

Sophomores - Walt Bollinger, Ed McGinley, Doug Neckers, Pete Pedrick, Tony Rinaldo, and Howard Silverberg.

Freshmen - Dave Halbert, John Goodyear, L. P. Ireland, Bob Scott, and Frank Wood.

Every male student shall be eligible to vote for the following: president, vice president, secretary, and treasurer of the House. In addition, junior students shall elect four men among their class to the Men's Judicial Board; the sophomores, three; the freshmen, two. No senior will vote for the Judicial Board, and underclassmen may only vote for candidates in their respective classes.

Applications Open For Student Aid

Undergraduate students not now holding scholarships or grants-in-aid from the University who wish to apply for financial aid for the next academic year should obtain applications immediately from Mr. Walling's office.

Applications will be made by the first of May.

Undergraduates who now hold scholarships or grants-in-aid from the University are required to file an application for renewal if they wish their present aid to be continued next year. Forms will be available in Mr. Walling's office after March 24 and must be filed in his office between April 20 and May 1.

Engineers Hold Joint Banquet

A joint banquet was held at the Sunbury American Legion on March 5, by the American Institute of Electrical Engineers and the Institute of Radio Engineers, undergraduate societies for electrical engineering students. The speaker for the evening was Mr. Jack Graham of

Leads-McNair Co.

... Alpha Chi Sigma Initiates

Alpha Chi Sigma, the chemistry professional fraternity, recently initiated six members at the Penn State Chapter House. The following members were activated: Norm Edgett, George Feinsod, Rudy Oswald, Bob Anshofer, Fred Olson, and Bob Strachan. Following the ceremony, a banquet was held honoring the new brothers.

... Queen, Queen

Who Will She Be???

Carol Peterson, of Worcester, Massachusetts, is an elementary education major. She has been this year the corresponding secretary of her sorority, Phi Beta Phi. Among her other activities, Carol has served on Handbook, L'Agenda, and Bucknellian staffs. She serves presently as a member of the WSGA House of Representatives, and is a former member of the women's glee club. Carol's plans for next year are to teach physically handicapped children in the Boston area.

Buddy Morrow, famed trombonist composer-conductor, will present his band at the Senior Prom, Friday night, March 14, from 9 to 1 o'clock, in Davis Gymnasium.

Glenora Gail Kelly, from Rye, New York, is pursuing a triple major: an A. B. in religion-philosophy-psychology. Her campus interests have led her to accept a position as the senior representative on the Independent Women's Council, and as an assistant head resident in Harris Hall. She belongs to Phi Sigma Tau, the philosophy honorary, and to the Psychology Club.

Margaret Anne Smith, from Dunellen, New Jersey, will receive a B. S. in Commerce and Finance. She has served this year as president of Delta Delta Delta sorority. Her many activities include co-captain of the cheer leaders, membership on Honor Council, and service as a representative on Panhellenic Council. Her academic achievements include being president of the economics honorary, Delta Mu Delta.

Buddy Morrow

Carol Peterson

Nancy Umholtz

Sara Nancy Umholtz, of Doylestown, Pennsylvania, is majoring in Commerce and Finance-Biology, a medical secretarial training leading to a B. S. degree. She has served this year as the vice president of Kappa Delta sorority. Among her activities, she is a member of Honor Council, holds a head residency, Spanish House, is literary editor of Touché, and has served on the C. A.'s Burma-Bucknell Weekend. Her hopes for the future include working in a New York City hospital.

Tickets for the Senior Prom may be purchased at dining halls and at the door for \$5.00. Ticket stubs will be necessary for admission to the Jam Session with Alphonse Britt on Saturday afternoon, March 15, at the American Legion in Lewisburg, from 2 to 5 o'clock. The session is held primarily for seniors and their dates.

Naval Officer To Visit Campus

A Naval Officer will visit the campus on Wednesday, March 19 to provide interested students with information concerning the many varied officer programs available in the Navy. He will be located in the Snack Bar (The Bison) from 9:30 a. m. to 4 p. m.

TOUCHE ANNOUNCES POETRY WINNERS

The staff of Touche wishes to announce the winners of its recently held cash contest. In the Poetry division, four prizes were awarded. First prize of \$25 went to Kris Diaz for her poem, Roots, while she also won the second prize money of \$10 for Way. The third and fourth prizes of \$5 went to Janet Powers and Pete Silberfarb for their respective poems, Dust Bowl and The Atomic Theory.

In the Short Story division of the cash contest, four prizes were likewise awarded. First prize money went to Mike Lenz for his story entitled, Walls. Leigh Magee won second prize for The Goldfish while third place went to Esther Angust for The Real Me. Rounding out the winners was George Faires for his story, Michael Riggan's Revolution.

All prize winning material will be published in the March issue of Touche with the exception of Michael Riggan's Revolution which will appear in a later issue.

The staff of Touche wishes to thank the judges of the contest, Messrs. Rees, Partridge, Carens, and Shapiro, all of the English department, for the time they spent in judging the material submitted.

In closing, Touche would like to announce that another Short Story and Poetry Contest will take place for the May issue of the magazine, details of which will be made-public just before spring vacation.

Conroy's Corner

by Dave Conroy

ODE TO THE DEPARTING COMEDIANS

Who in the midst of materializing, did ridicule and mock the Sem? It seems like a gradual evolution, that one by one they leave, Who knows who will replace them, with countless jokes up their sleeves? First it was the Fabulous Vizehann, who many world records set, More parties, more good times witnessed here than any other I'll bet; He holds the title for "Most Parking Fines Accumulated"—(127 tickets he garnered).

Yet who can belittle his 22 average; that is what I honor.

Then the Immortal Whelan, that hilarious party prodigy, Finally left the enclosures of old Bucknell, to labor for Chef Boy-ar-dee; His record, too, is one of the best—his humor an indestructible tower, Stands completely above everyone else's—even approach it isn't in our power.

Then the urbane Lambert, one of the "good-time" men, Finally departed last June—and left his pin in the Sem. Who could match his calm, collected manner, his intellect so keen? And who would dare match wits, with this subtle, witty being?

The student body at Bucknell boasts far too many prudent, But they will never compare with the following list of students. Yet one by one even these men slow down, what shame it is to see— Are they at last assuming the serious life—can it be, can it be?

All the trouble started when Razor tossed his pin, The death of one unforgettable character—who can this damage mend? Many other notables obediently follow in his path, Doesn't he realize that he incurs the Party-People's wrath?

The red-headed Kline is accelerating—another good man lost, And gigantic Parsons leaves in June; the Phi Psi's will mourn their loss. The ever-popular "I.C.", whose countless jokes gained fame, Soon leaves for the advertising profession—who can match his name?

And who will replace the unpredictable Mcconachy, who chased away everyone's blues?

Only Buzzy with his limitless repertoire can ever fill his shoes. The same situation at the Quiet House, in the midst of Kirby's behavior— Usually a calm, collected place—he left it, still in disorder.

The subtle, clever Hummel leaves, his devastating wit widely proclaimed; Along with the riotous Bantam-Legged, of snake-hipped dancing fame, Mighty Halsey, the mainstay of the House on the Hill—I say no one will duplicate

His remarkable humor and stinging satire (whose merit none can debate).

And the very likeable Citron—that sly, evasive cuss, Leaves his puns to Leibowitz; he'll use them well, I trust. On and on the list goes, a long parade of wits, Do you doubt their cleverness, in convulsing you into helpless fits?

Ah, yes; one by one they come and go (departing forever from the Hill), Finally leaving beloved Bucknell, but leaving it with an emptiness few can fill.

As for me, I'm completely at a loss; I don't know who can replace them—I'm forced to seek new laughs and diversion—by sarcastically sneering at the blameless Sem.

KAPPA CHI LAMBDA PLANS DISCUSSIONS

For the remainder of the semester, the members of Kappa Chi Lambda, national religion honorary, will be discussing various books dealing with religious topics. The first book to be discussed is Robert Calhoun's book, *God and the Day's Work*. Mr. Calhoun is a professor of historic theology at Yale University.

Another of KCL's activities include debates to churches in the nearby area. Under the leadership of Victor Allison, the group has gone to various churches where it has taken part in both the teaching of Sunday School classes and the leading of the church service. Recently the group has gone to the Shamokin Presbyterian Church where the members have presented

Camp Offers Counselor Jobs

The director of Camp Sharpshoon, Mr. Cal Gertson, will be in the Men's Cafeteria on March 21 at 12:00 a. m. to interview all students interested in working as a counselor at the camp. Sharpshoon is a camp primarily for the underprivileged children of New York. It is located near Poughkeepsie, New York and has a good camp, interdenominational, and interracial.

A new single-engine tractor can tow six miles of automobiles. This powerful tractor can tow over 1750 cars at one time.

A skit to the young people about the different phases of life at Bucknell. In April a debatement to Picture Rocks and Hughesville is planned.

LETTERS TO THE EDITOR

Dear Mr. Conroy:

I assume that you wrote your critical analysis of the Bucknell women and their honor code with the purpose of getting a rise out of the imbecile sem gems of this campus. I should hate to satisfy your conceited expectations if I did not firmly believe, to use a very trite expression, that you are "all wet." Before I get into the real basis of my argument I should like to debate the few but faulty statements of your article.

The 12:30 time limit is not as you seem to think, to keep the women students out of trouble. The Women's Student Government Association assumes that a woman student by the time she reaches college had established her own personal code of social conduct. If her code of conduct is lower than that which is expected of her at Bucknell, she is naturally subject to criticism from the other girls. However, she would have to face this criticism wherever she goes if her standards are lower than those expected of her. Thus a girl who does not want to live up to the Bucknell standards will obviously find ways to deviate. You must remember that the honor system does not guarantee that all of Bucknell's girls are absolute angels.

Please, Mr. Conroy, be a little realistic! The 12:30 time limit is a practical rule rather than a safety precaution. Since you appear to have experienced such a worldly taste of life, it may seem ridiculous to you that our society would look down at Bucknell if it were known that the Bucknell women had no restrictions.

However, ridiculous as this may seem, it is true, therefore the 12:30 time limit is a protection of Bucknell's reputation, rather than that of the reputations of the individual women. Moreover, whether the men of this campus would like to admit it or not, they enjoy having more freedom than the women, and

What's it like to be with IBM?

First of all, what does an Applied Science Representative do? In John Jackson's own words, "I work constantly with key executives of the many and varied customers served by IBM in the territory for which I am responsible, advising them on the use of their electronic data processing machines. I consult with these customers, analyze their scientific and technical problems for solution with IBM machines. Occasionally, I write papers and give talks and demonstrations on electronic computing. All in all, it's pretty fascinating."

In other words, he is a full-fledged computing expert, a consultant . . . and a very important person in this coming age of automation through electronics.

A consulting sales job

During the three years that John Jackson has spent with IBM as an Applied Science Representative, he has guided innumerable customers to new and better ways of doing things with electronic computers.

For example, a leading aircraft manufacturing wanted to experiment with a radically different design for a nuclear reactor. Although the basic format had been established, the project still required many months of toil with mathematical equations. The aircraft people decided that they couldn't afford to wait that long, so they called on IBM. After consultation with top executives, John Jackson helped to map out a computer program that saved the organization over 100 days of pencil-chewing arithmetic. Later, for this same company, he organized the establishment of computer systems for aircraft performance predictions and for data reduction of wind tunnel tests. At the same time, he worked with this company's own employees, training them in the use of IBM equipment. He remains in touch with this customer to assist with new studies and problems as they develop.

Consulting with top executives

Mapping out a computer program

Discussing a mathematics problem

IBM Corp., 405 No. Second Street, Harrisburg, Pa.

IBM INTERNATIONAL BUSINESS MACHINES CORPORATION

DATA PROCESSING • ELECTRO TYPEWRITERS • MILITARY PRODUCTS • SPECIAL ENGINEERING PRODUCTS • SUPPLIES • TIME EQUIPMENT

Why did John Jackson decide to join IBM? Today, he is exercising his mathematical know-how in a field that was practically unheard of ten years ago. Even now, this kind of work may be news to you. It was to him a few years back when he was an undergraduate at the University of Colorado. At that time, he was

women's honor system without going deeper into the psychology behind the system. We believe that this is a way of life that will remain as a part of our individual lives in the future. The system is not to restrict the non students, not to prevent them from acting human, but to give them a basis for mature living. The fact that a girl breaks the rules is not as important as the fact that she, on her own honor, will report herself. You said that it is the gossip, not the rules that keep the girls in line. Well, Mr. Conroy, it is such a crime if a girl feels compelled to report herself because of pressure from her fellow students? Cannot outside pressure help a deviant girl develop a sense of conscience which will guide her in her future actions? Is this the ultimate conscience and honor that the honor system seeks to instill in the Bucknell women, and regardless of your prejudiced opinion, the system is accomplishing this aim.

Conroy's opening phrase expresses doubt that he, or college students in general, occupy ourselves to any extent in meditation on life and its meaning. I must first disagree with you. However, (chancing accusations of being abnormal), I have written many elementary themes on rather immature and foolish philosophical subjects, but which nonetheless have steadily created an interest within me to rectify and further conjecture on these ideas. How much this interest may derive from my rather unique background in coming from a clergyman's family, I can't surmise. But, I have also been involved in conversations instigated by others which have examined similar problems in regard to the efficiency and value of our honor system, are not basing their arguments on any true knowledge of our system? Nor are their opinions of the decency of the girls under this system or the effect of the system on the girls too accurate either. Perhaps if you men, who think you

know all of the answers about women and their habits, took the time and the trouble you may learn a little of the truth. The truth is, Mr. Conroy, that we abide by our honor system, either through our own honor or through outside pressure, because we believe in its worth, and its efficiency. Of you men who do not agree with this opinion perhaps you should try living on your honor to find out how it feels!

Christine Phares

Dear Editor:

I'd like to make some abbreviated comments on "Conroy's Corner", of February 27, and his recent article concerned with the meaning of life, which I found considerably disturbing.

Conroy's opening phrase expresses doubt that he, or college students in general, occupy ourselves to any extent in meditation on life and its meaning. I must first disagree with you. However, (chancing accusations of being abnormal), I have written many elementary themes on rather immature and foolish philosophical subjects, but which nonetheless have steadily created an interest within me to rectify and further conjecture on these ideas. How much this interest may derive from my rather unique background in coming from a clergyman's family, I can't surmise. But, I have also been involved in conversations instigated by others which have examined similar problems in regard to the efficiency and value of our honor system, are not basing their arguments on any true knowledge of our system? Nor are their opinions of the decency of the girls under this system or the effect of the system on the girls too accurate either. Perhaps if you men, who think you

know all of the answers about women and their habits, took the time and the trouble you may learn a little of the truth. The truth is, Mr. Conroy, that we abide by our honor system, either through our own honor or through outside pressure, because we believe in its worth, and its efficiency. Of you men who do not agree with this opinion perhaps you should try living on your honor to find out how it feels!

Along the Bison Trail

Sports Editor, Stratton White

Winter sports at Bucknell were on their last legs until they recently received a badly needed shot in the arm.

Last year's basketball team had its first winning season in who knows when (16-9), but the wrestling team continued to loll around in the doldrums with a 2-5 record. When a swimming pool was added to Davis Gym a new sport was introduced to this campus. I don't know whether this was a last ditch attempt to create some interest in Bucknell's winter athletic program, but it certainly was a failure. Many people felt, as I did, that the swimming team would suffer mediocrity as did most other Bucknell varsity sports. Some people even thought the basketball record was a fluke and we would ever see a season like that again.

Last year's basketball team did not particularly surprise me because I had always thought that those seniors were good ball players and after having played together for four years it was about time they clicked. Near the end of the season all eyes were on the sophomores because everyone knew that they would be the nucleus of this year's team.

Your Hal Danzigs, Jack Flanagan, and Ellis Harleys would have to meet the test of the oncoming season. The name Bob Ericsson was kicked around but no one was willing to bet as to whether he would be of any great use offensively or defensively. As it was the Danzigs, Flanagan and Harleys did meet the test and Ericsson was a great asset to the ball club both offensively and defensively. Consequently, the team was very successful in duplicating last year's record while playing an even tougher schedule. Next year with the starting lineup back including sophomore Tommy Thompson who shows me quite a lot, Bucknell should have the most successful season it has ever had.

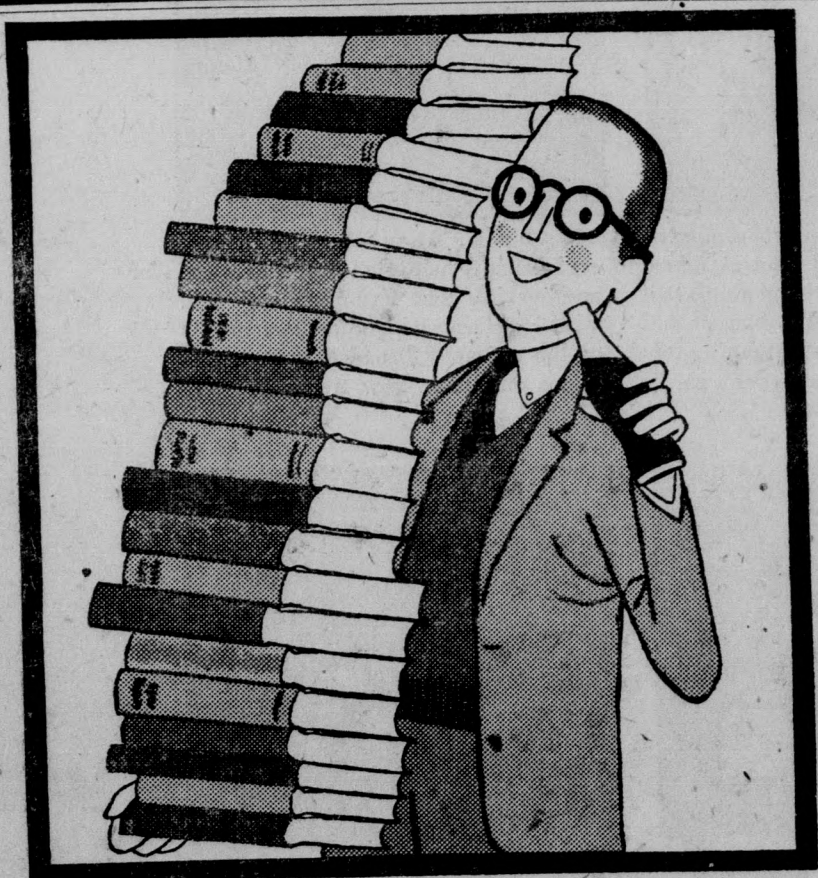

The wrestling team with five sophomores became the surprise of the year by going through seven matches without a defeat. Four of the eight members of the team were undefeated and the team as a whole won 42 individual matches, lost 12 and drew 2. The team also finished fourth out of seventeen teams in the MAC and is expected to do even better next year. The men to watch in the future are John Ayre, Rowland Bell, Pete Fritts, and Dave Murdoch. These fellows, three of whom are sophomores and the other a junior, compiled a very impressive record in 1958. Out of a total of 28 individual contests, they won 25, lost one and drew two. Off hand, I would say that is a rather respectable record.

The swimming team, after having been a failure last year, became a sensational success in 1958. In 1957 the Bisons had a 1-3 record, and this year they ended up with a 7-2 slate. The future of the men's team is very bright due to the fact that the entire team is returning. Last year Bucknell failed to score a single point in the Middle Atlantic Conference championships and this year they moved up to sixth place against very tough competition. There is no doubt that the swimming team has improved tremendously.

Bucknell's record for its three winter sports is 30 wins against 10 losses as compared to last year's 19 wins and 18 losses. The attendance for this year's basketball games has been very good but I feel that the student body has let swimming and wrestling down. I hope very much that the underclassmen, especially the freshmen and sophomores, do not take this extremely successful winter season for granted. Not so long ago Bucknellians were so hungry for a winning team that they were ready to support Penn State Univ. There is no doubt in my mind that Bucknell is going to have another successful winter season next year. I hope the student body acts accordingly.

Courses in Senior Life Saving To Be Given

Courses for Senior Life Saving and Water Safety Instructor Certification will be given at the Press-Rooke Pool on the dates listed below. Senior Life Saving is a pre-requisite to Water Safety Instructor Training. A registration fee of \$3.00 will be charged for the Water Safety Instructor Course. There will be no charge for Senior Life Saving. All students interested must register at the Athletic Office in Davis Gym. The dates for Senior Life Saving: March 17, 20, 24, 27 (7 to 10 p. m.); March 21, 23 (4 to 5:30 p. m.). The dates for Water Safety Instructor Course: April 10, 14, 17, 21, 24, 28, May 1 (7 to 10 p. m.).

"De gustibus"

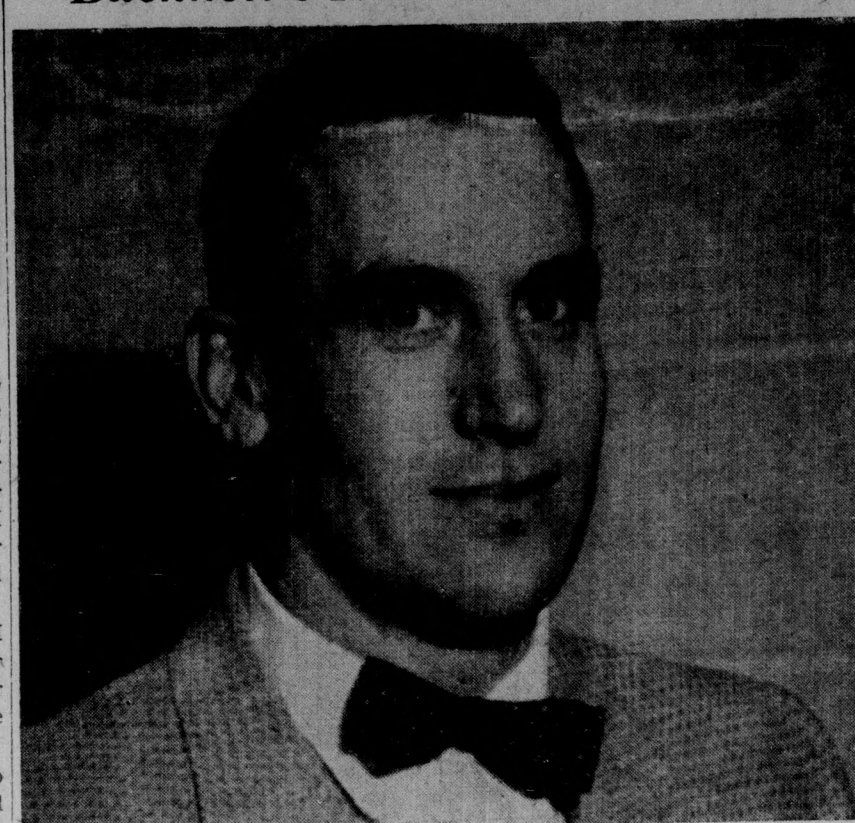

non est disputandum"—and, quite literally, there's no question about it—when it comes to taste, Coca-Cola wins hands down. In Latin, Greek or Sanskrit, "Have a Coke" means the same thing—it's an invitation to the most refreshing pause of your life. Shall we?

SUNBURY, PENNSYLVANIA
G. RUFUS HETTINGER, MANAGER

Bucknell's New Gridiron Coach

by Doug Grigg

This past Tuesday afternoon, at Davis Gym, the new Bucknell football coach, Bob Odell, was formally interviewed by local sports writers. Included among the interviewers were Strat White and myself of the Bucknellian. Concerning his plans for the recruiting of players to come to Bucknell, Bob will leave for Philadelphia this Wednesday to "find the best calibre of football player who can measure up to the standards of Bucknell." He is going to that area first due to the fact that since he played football for the University of Pennsylvania he is very familiar with the coaches and players of that area.

At the interview he told us of the type of offense he plans to employ at Bucknell. He will use the Wing T, with the belly series, that is, the fullback will be carrying the ball a great deal to the inside. He plans to pass a great deal, but, of course, he will have to mold his offense and defense around the caliber of personnel that is on the squad. All in all, Mr. Odell stressed the point that he "will do anything at anytime in order to win."

Asked the question of how he felt towards possession football, Mr. Odell said that he did not care about details, but the scene. He is more interested in having a plan of attack that will meet the situation.

At spring practice, which starts Tuesday, Bob will have much more scrimmaging than has been seen here in previous years. The purpose of this is so that he can separate the men from the boys. The scrimmages will be under game conditions, and will include a full scrimmage every Saturday. Mr. Odell said that the reason of spring practice is for the purpose of teaching fundamentals.

Mr. Odell will keep the same coaching staff at Bucknell that served under Harry Lawrence, for he feels that they are "young, eager, and willing to work." He and his staff will scout the opposition of next year this summer in order to find out their weaknesses and strong points.

Asked a question about the much talked about point after touchdown rule, that was brought in this year, Mr. Odell said "if we score first we will go for the one point, and make the opposition try for the two points."

Mr. Odell seems to be the type of man that can get a great deal out of his ballplayers and coaches.

Lambda Chi's Lead Volleyball League

By Clement Schaefer
Defending champion Lambda Chi Alpha swept its first three volleyball matches to establish itself as the team to beat in League A. Extended an extra game only by SAE, the Lambda Chi's roller over SX and Phi Psi in four straight games. Sigma Alpha Mu moved into first place with LCA with victories on successive nights over SAE and TX. Only Theta Chi with a two and one record has an outside chance to catch the leaders.

League B has turned into a scrap between the folks down at the end of University Avenue. Next door neighbors Phi Gam and Kappa Sigma are both undefeated with three wins and no losses. Phi Gam broke a three way deadlock for first place on Tuesday night by beating Phi Lambda Theta, while Kappa Sigma edged past Tau Kappa Epsilon.

In respect to the over all intramural race, League B is the one to watch. Phi Gam which has vaulted into second place on the strength of bowling and basketball, can close the gap even further on, leading SAE by winning volleyball and thus put the pressure on the leaders for the spring sports. Kappa Sigma the defending champion in boxing and the choice of many to repeat in boxing would throw the whole intramural race wide open with a double victory in volleyball and boxing.

Intramural Meeting March 19
7:15 Davis Gym

TRACK TEAM GOES TO PENN RELAYS APRIL 25

Bucknell's 1958 track schedule: April 25 and 26, Penn Relays, Philadelphia; April 30, F&M, away; May 3, Albright and Ursinus, home; May 6, Dickinson, home; May 16, Juniata, away; May 20, Gettysburg, home; May 24, Muhlenberg, home.

BISON QUINTET ENDS SEASON BESTING MUHLENBERG 79-71

DANZIG SETS SCORING RECORD AS BU COMES FROM BEHIND TO WIN FINAL ENCOUNTER

Completing its torrid stretch drive with its sixth straight triumph, a 120-80 personal triumph, it was certainly a busy and most successful season for the powerful 225-pound Muhlenberg Saturday night. Bucknell's basketball team managed to equal last season's stellar 10-8 record. The Bisons finished stronger than they did a year ago however, winning ten of their last 11 games.

The hero of the hard-earned victory over the bulky Mules was Hal Danzig, the 6-6 junior from Rochester, N. Y. with whom the Herd rises and falls. Forced to the bench with his fourth personal foul midway through the opening half, Danzig watched Muhlenberg grab a 41-39, 78-76 lead. Flanagan also finished second in scoring with 351 points, with Harley's 300 landing him third place. The Danzig-Flanagan-Harley Ben Krills shifted his Bisons into a zone defense the second half and this strategy turned the tide of the battle.

Danzig Breaks Records
Gaining control of the defensive backboard, Danzig wound up with 22 rebounds and his 17 points in the second half gave him a game total of 24 and permitted him to break Bucknell's one-season record of 422 points, set by Joe Gallagher during the 1950-51 campaign. Danzig finished with 426 points, an average of 17.8 per contest, and 287 rebounds, a rate of 16.1 per game. He closed with a mighty rush pouring in 103 points and snagging 31 rebounds in his last four outings.

Danzig paced the Herd in scoring in 12 of its 24 games, and in addition to leading his mates in points and rebounds he also showed the way with 38 assists. The "Moose" topped the squad in these other departments: field goal attempts, 409; field goals scored, 153; free throw

attempts, 181; free throws made, 120; personal fouls, 81. It was certainly a busy and most successful season for the powerful 225-pound Muhlenberg Saturday night. Bucknell's basketball team managed to equal last season's stellar 10-8 record. The Bisons finished stronger than they did a year ago however, winning ten of their last 11 games.

The individual honors that eluded Hal Danzig were claimed by Jack Flanagan, a junior guard. For the second straight year he was Bucknell's most accurate shooter from scrimmage, hitting the target at a .54 clip. The smooth-working guard added foul shooting laurels this season, edging teammate Ellis Harley, 783 to 767. Flanagan also finished second in scoring with 351 points, with Harley's 300 landing him third place. The Danzig-Flanagan-Harley Ben Krills shifted his Bisons into a zone defense the second half and this strategy turned the tide of the battle.

A fourth junior, 6-6 Bob Ericsson, was a vital cog in the Bisons' late surge. Starting each of the last six games, Ericsson unloaded for 73 points and pulled down 77 rebounds. Although hampered by a slow start, the lanky forward was runner-up to Danzig with 206 rebounds and garnered 181 points.

Senior John Strizzi and sophomore Tommy Thompson also went over the 100 mark, registering 141 and 138 counters respectively. A slick playmaker, Thompson also followed Danzig with 33 assists.

Team statistics revealed that BU and its opponents fired more shots from scrimmage, tossed fewer free throws, and scored more points, 3322 to 3174, than a year ago. The BU Bisons, continuing to stress defense to produce their victories, outpointed their foes by a per game average of 70.9 to 65.8.

LITTLE JOHN TRIES TO ICE THE GAME

John Strizzi attempts a layup in the final seconds of the game against Penn State which Bucknell won in overtime.

HAL DANZIG CHOSEN ALL-EAST CENTER

Harold "Moose" Danzig was nominated to the Eastern College Athletic Conference's 1958 All-East major college basketball team. The 6-6 center was picked for his consistently fine play throughout this season.

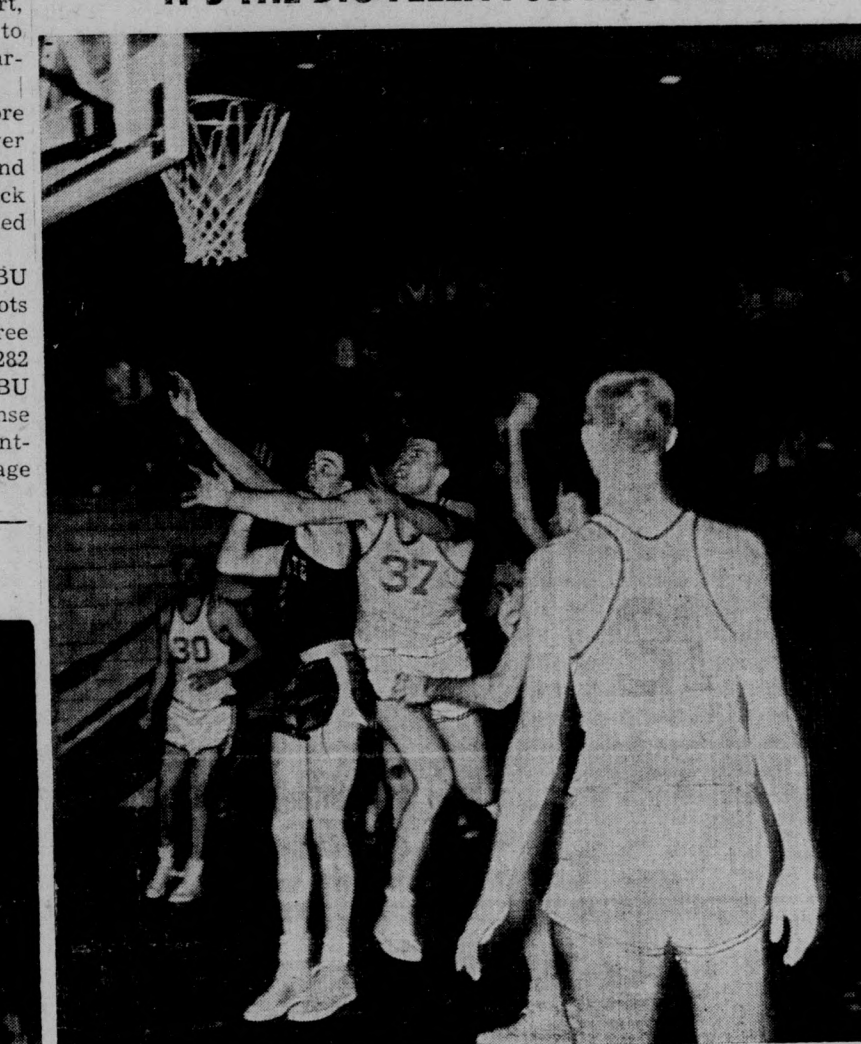

Forwards—Clint Jeffries, Muhlenberg, junior, New York City; Frank Wickes, Delaware, senior, Ocean City, N. J.; Rudy Milkey, Columbia, senior, New York City; Leonard Wilkins, Providence, sophomore, New York City.

Centers—Jon Clinebox, Syracuse, junior, Binghamton, N. Y.; Hal Danzig, Bucknell, junior, Rochester, N. Y.

Guards—Guy Rodgers, Temple, senior, Philadelphia; Don Hemon, Pitt, junior, Warrington, Pa.; Al Seiden, St. John's, junior, Brooklyn, N. Y.; Greg Britten, Canisius, senior, Rochester, N. Y.

Brad Myers, star halfback on Bucknell's undefeated football team in 1957, operates a hotel in Lancaster, Pennsylvania, called The Pilot.

IT'S THE BIG FELLA FOR ANOTHER

The "Moose" battles it out under the boards as Flanagan and Ericsson look on.

BU ROTC RIFLE TEAM BEATS DREXEL TECH.

Bucknell's ROTC rifle team defeated Drexel Tech, 1930 to 1875, in a telegraphic four position 50-foot small bore rifle match last Saturday. The Bison sharpshooters established a team record by accumulating 1930 points. Dick Hartman and Phil Hunter shared scoring honors for the winners, each posting a 388 total, while Herb Wreden followed with a 387. Six of the ten Bucknell marksmen shot better than 380 and the first five averaged 388.

Schwerer paced Drexel with a 381 tally.

Jumping Jack Has The Neck

Jack Flanagan goes high in the air in attempting to score against Penn State with his famous jump shot.

Freshmen Girls Win Interclass Tournament

The girls' basketball season reached its height during the months of February and March. The interclass tournament, played the first few days of the second semester, was won by the freshman team, whose members are "Bink" Buck, Jan Comer, Nancy Fisher, Norma Harris, Jan Laird, Karin Mahler, Betsy Manning, and Marge McGroarty. The intergroup tournament is now under way, and will continue into next week.

Bucknell sent groups for volleyball, basketball, swimming, bowling, ping-pong, and modern dance to two of the freshmen team, whose playdays are at Lycoming on February 15 and the other at Penn State on March 1. A team from Susquehanna University is coming to Bucknell for a basketball sports night on Thursday, March 13.

... Letters to the Editor

(Continued from page 2)

dicament, he might well have no need for a God. I admit that religious compulsion remains a controversial issue in numerous circles; but assume for the purpose the basic need.

I admire Dave's approach to the problem of distinguishing meaning in life, its "surface characteristics" and this reasoning, we are "faced with the unavoidable paradox" of meaninglessness through examination of meaning. I find this difficult to accept even as paradox.

Not only do I find the theme statement erroneous, but the illustration employed, love and sex, hardly applies except on the very surface, the exact thing Conroy tries to eliminate. And in addressing college students, Conroy forgets his place momentarily, for scarcely could he admit presence of such involved "affairs" on campus.

The example suffices for no more than a bit of interesting reading; strangely enough anything with a sex connotation seems to demand and receive immediate attention among us aspirers toward higher learning. Love is something intangibly inexplicable. This has been testified even by those "in love", not to mention those who are not. Whether we "fancy" ourselves in love to relieve boredom, (a horrifying speculation for dreamers), or whether it actually is some power beyond human mental capability, remains incomprehensible and subject to dispute. However this may be, Mr. Conroy obviously takes a most dispassionate view of the matter and definitely does not wish to arrange himself with the categorical dreamers. It seems to me, life without meaning might justify suicide. (I shall deeply regret this statement should Mr. Conroy decide to pursue his philosophy to its evident conclusion.)

My intention has not been to scorch the ears of our illustrious columnist, but to attempt additional illumination on elementary philosophicalizing. I might add, further articles intended to simply supply interesting reading might be based upon less mammoth undertakings.

Sal Archibald

Dear Editor:

At the end of every year each freshman faces the problem of securing a residence for his sophomore term. In the spring there is a big rush to get rooms in East and West colleges. I feel that in all fairness to the freshman, certain facts should be pointed out to them before they sign a room contract with the school.

1. Once a person has signed the contract he is bound to the room for a full year unless:

a. he is elected to a fraternity office

b. he flunks out of school

c. he is able to find someone to take over his contract (this cannot be someone who is already living on the hill wishing to forfeit his money and take on a second room, because as one boy was told he has a moral obligation to stay in the room he signed for).

2. It is unlikely that anyone not signing a room contract in the spring will have much difficulty finding a room in September due to the mortality rate of Bucknellians.

Have you ever been through East or West college?

Sincerely yours,
Ben Zinken

AWAKENING
by Sal Archibald

There have been nights far distant now
Ecstatic passion, all;
How meaningless it all appears
Spring vanished though 'twere fall.

The crocus suddenly jumps up
Exciting pungent air.
The joy of spring exultances
New life—phenomenal, fair.

My lips, my heart burn for his own.
His face: O God I cry
That soul and body might embrace
Beneath the azure sky.

There are 192,820 Quakers in the world, according to British estimates, an increase of 3,560 in the last year.

HARTZEL EXPLAINS
DISMISSAL PROBLEM

by George Meyers

Dismissing a boy from college is a delicate situation to handle. This action, although comparatively unimportant to the school when considering individual cases, is extremely important to the boy, and will, in most cases, have some serious effects on him during his next few years of growing up. How, we may ask, does the administration come to conclusions concerning these cases?

Dean Karl D. Hartzel has answered this question with the following considerations.

He has given three factors that are considered important in determining these cases. The first and most important is the student's grades. Dean Hartzel mentioned that last semester a 0.20 grade point average or under was considered low enough for dismissal. Setting the mark at 0.20 allows the freshman to make a D in every subject except Physical Education and Military Science.

But what about the freshmen who have been kept in school with a grade point average below a 0.20? This certainly shows that there are other factors which assist the administration in deciding these cases. The first additional factor mentioned is a combination of rank in the high school graduating class and scores on the entrance board examinations. These will indicate the student's academic ability and his potential. If a student's standing in these two categories is noticeably above average, he will have a much better chance of staying in school, although his grades are below a 0.20.

The second additional factor is the student's behavior. The administration is able to accumulate information concerning the freshman's behavior in the dormitory and on the campus through the Dean of Men's office and the hall counselors. Such information, according to Dean Hartzel, will give a good indication of a student's actions and his attitude toward studying, and will tell if he is mature enough to be in college in the first place.

Dean Hartzel also mentioned that there are other extenuating circumstances, such as family problems or girl problems which must be considered, if apparent, and, to this extent, the administration does not hold rigidly to the basic factors mentioned above. The Dean also feels that, in theory at least, everyone is entitled to a second chance. The important problem is to determine when this second chance may be given so that it might be most advantageous to both the student and the school. This, of course, implies that a student may not be ready for Bucknell, but will be ready after a year of work or a few years in the service.

It is estimated that ten percent of the bank officers in the United States are women.

Behind The Mike T.V. Enthusiasts
Deluge Campus

by Joel Berger

Ever since Bob Burnett arrived on campus five years ago, he has been a leader in every field that he entered. He was elected as president of his freshman class and despite his rough schedule as a B. S. in Chem engineering and A. B. in chemistry, Bob still found time to work for his first love, Radio. When Bob came down to WVBU, he showed a great aptitude for leadership and by the second semester, he was elected to the Board of Directors as what was then Station Manager; a position which has been discontinued and replaced by several other jobs.

While serving in this position in his sophomore year, Bob began to work with the sports department of the station and was elected as Sports Director. He also started announcing the football games for the school and for the succeeding four years did all the public address work for the school. Bob was reelected as president of his sophomore class also, and this year, started to work on the editorial staff of the *Bucknellian*.

As a student who had been treasurer of his student council in high school, had worked for a full year with a professional station, WJOL, and had won a Wilmington, Delaware Area Scholarship, Bob had gotten off to a good start. His junior year, Bob became a Men's Counselor, a job which he held for two years. This active a person couldn't help but become involved in the workings of his fraternity, S. A. E. He served as the rushing chairman, secretary, and this last semester, was vice president of the house. Bob is the president of S. A. E. now and is quite deserving of this honor.

Among his other marks of distinction, Bob has served as president of several organizations that he has been associated with. These include: Student Faculty Congress, and the American Society of Chemical Engineers. Bob was one of the first members of the Men's Student Assembly, and he also served a term for the Inter-Fraternity Council. WVBU honored Bob by his election to Rho Tau Sigma, and the R. O. T. C. Department recognized his superiority by awarding him the honor of Distinguished Military Student. He has served on the Bucknell Study Committee, and was the chairman of the Chancellery Committee.

I don't believe it is enough to simply list the many organizations that Bob has been affiliated with, and to name his offices. Space pro-

the PRIVATE EYE

by Roger Deutsch

Bucky Elson has joined an ever increasing herd of Bucknellians who have come to college for a TV education.

Reading, writing, and arithmetic are being forfeited in favor of the American Bandstand, Maverick, the Late Show, and any other program connected in no way, shape, or form with activities of a cultural nature.

A survey reveals that television sets have been installed in almost every fraternity house during the past four years. It is now not unusual for a set to be in use from early morning until long after the Vets has closed for the night. Being a healthy specimen, Bucky thinks nothing of cutting classes in order to be fresh for the next day of television.

When not on campus, Bucky seems to divide his "valuable" time between the "Burger", The AI, or any place where textbooks are forbidden and a TV set and plenty of beer are available.

Something should be done about Bucky's growing problem. If each of us "intellectuals" would chip in a dollar, we can construct a cottage in the quad with wall to wall color TV and a fountain spouting Schlitz. All would then be serene for our fellow student.

Phi Kappa Psi — Mr. and Mrs. Pomeroy, Mary Lou Pomeroy, Sandy Glenn, Mr. and Mrs. Ferrara, Betty White, Vaughn Foster, and Mr. and Mrs. Dick Hunn.

Phi Lambda Theta — Diane Krajovic, Ellie Body, Lois Schmeer, Mr. and Mrs. Schmeer, Jack Erdman, Mrs. Struthers, Ellie Michaels, Georgia Rice, and Barb Keldsen.

Sigma Alpha Epsilon — The brothers, pledges and alumni.

abits me from telling you more about his exceptional work in every field he has entered, but I do feel that it is important to mention one organization in particular. To be elected to Omicron Delta Kappa is just about the highest honor that can be given to any male student on campus. Bob was elected to this very select group in his junior year and this year was given the honor of being president of the Men's Leadership Honorary ODK Committee, and was the chairman of the Chancellery Committee.

I don't believe it is enough to simply list the many organizations that Bob has been affiliated with, and to name his offices. Space pro-

HAS THE BUCKNELLIAN Hats Off To The DEGENERATED!

by Richard Sacks

Man, like what are we doing to our Bucknellian? Anyone who has read these pages for the past few weeks will realize the garbage that has infiltrated them. These articles are not of a constructive nature, but a destructive habit. Naturally all the focus is on the social side, for what else are we here for? I've tried to get this point across in past articles, but I think I've pretty well failed. The talk is now centered on one magnanimous theme—girls vs. boys. This is the sort of thing I used to do with my sister when I was 10 years old. We argued for the attention of a mother's love through our jealousy of each other.

Some of the articles that are now on the scene seem to be doing approximately the same type of thing. That is, we are fighting for attention from the rest of the campus, and so we stoop well below the level of a decent person. We mean to dig up trash that will allow everyone to participate. I guess it is one of social life and social pressure. Girls, come to Bucknell for we have two and a half men to each female. Boys, here is your detour before you have to face life. We have 13 fraternities; so there is a place for everyone. Sex is to be treated naturally; not with dirt.

It seems to me that I could spend 1000 dollars a year and have a half of a better time than I'm paying for now. Why waste it on tuition? If you are going to live, do it right, not half and half. I must apologize for my article of a few weeks ago. I did not mean to stir up this boy vs. girl drizzle. I only meant to give the guys a shove in the direction they are paying for. I did this because practically it is more important for the guy to make the most of his chances than it is for the girl. But now the entire

crowd of 15,237, the biggest tennis crowd ever assembled in the United States, turned up to see Lew Hoad and Pancho Gonzales play in Madison Square Garden on Feb. 24.

There are about 250 Mohawk Indians living in Brooklyn.

idea has gotten out of hand, and we are fighting like babies for a reason for our own worth. This is supposed to be a university newspaper with things pertaining to university ideas in it made by university minds. Maybe we should change the title of *The Bucknellian* to *The Explorer*.

PASS IN REVIEW

by William Meister

Once again there is much to write concerning our busy rifle team. With Kenny Ellertson's concluding 382, Bucknell fired its highest team score in a match against University of Pittsburgh. Unfortunately, because it is a postal match, we will not know until next week whether we have won or lost. We do know that we lost a three position postal match to University of Maine by a score of 1424 to 1405. However, we did fire well, even in losing.

At last the results are in concerning the Hearst National ROTC Rifle Competition. Our first team finished eleventh, and our second team twenty-eighth out of 107 entrants. This is a remarkable showing, and we know that with the scores the team is firing now, we could easily have won against the competition as it stood then. Bucknell's riflemen are looking forward to the twenty-eighth of this month when the team is going to fire in the N. R. A. Intercollegiate Regional Championships.

The team will leave with bright hopes to meet at least fifty teams which will be there. We are entering two firing teams of six men each, five who will be principals and one an alternate. The Orange team is: Front, Capt., Hunter; Hartman, Berk; Ellertson; Taylor. The Blue team consists of: Wilcox, Capt.; Wreden; Scheffler; Strout; Waymer; Gillespie. With the fine work these men have done in the past, we have good confidence in a high-caliber performance at the meet.

In other news, Bucknell's Pershing Rifles is going to attend the Regimental Drill Meet, which is being held in Harrisburg on April 9. Hosts Pennsylvania Military College and Penn State have both earned top honors in Eastern Regional Trick Drill and Rifle Firing Competition. At Friday's Common Hour, the seniors voted to be commissioned as lieutenants. This is a regulation, regulation tropical worsted uniforms rather than in greens in June. This is a regulation, regulation, but a lot more comfortable.

Fellowships Meet

Baptist.—A play—"I Have Spoken to My Children" will be presented as a project of the BSP. Our guests will be the members of the other church fellowships and the congregation of the Baptist Church. The play deals with the problem of integration. Dinner will be at 5:15, the program following.

Lutheran.—This Sunday's program will be a panel discussion on "Judaism." The meeting will begin at 6:00.

Newman Club.—This Sunday at 7:00 will be a continuation of the discussion on *The Spirit of Catholicism* by Carl Adams which is "a brilliant and provocative study of the faith." The discussion will be led by faculty members or guest speakers. After the meeting there will be a brief St. Patrick's Day party.

Presbyterian.—The Presbyterian fellowship is in its fifth week of the Lenten program. It meets from 4:00-5:00 at the University Cafeteria on Sunday afternoons and is open to all Bucknell students.

United Church of Christ.—The group is invited to the dinner and program at the Baptist Church, starting at 5:15.

It is estimated that Bucknell students spend an average of \$100 each in town per year.

Phil Reavis, five foot nine and one-half inch senior at Villanova University, has high-jumped six feet ten inches.

rather than in greens in June. This is a regulation, regulation, but a lot more comfortable.

FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure.

So let us today make a scientific survey of the two principal causes of marriage—personality need and propinquity. Personality need means that we choose mates because they possess certain qualities that complete and fulfill our own personalities. Take, for example, the case of Alanson Dusk. As a freshman Alanson made a fine scholastic record, played variety scrabble, and was president of his class. One would think that Alanson was a totally fulfilled man. But he was not. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete. Then one day Alanson discovered what it was. As he was walking out of his class in French, petting, a fetching codd named Grace Ek offered him a handsome red and white pack and said, "Marlboro?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the hearty fulfillment of Marlboro Cigarettes, the soul-repairing mildness of their fine tobacco, the easy draw of their unparalleled filter, the ease and convenience of their crushproof flip-top box. "Yes, I will take a Marlboro!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face. But after a while she removed it and they were married. Today they live happily in Baffin Land where Alanson is with an otter-glazing firm and Grace is a bookie.

Propinquity, the second principal cause of marriage, simply means closeness. Put a boy and a girl close together for a sustained period of time and their proximity will certainly ripen into love and their love into marriage. A perfect example is the case of Fafur Sigafous.

While a freshman at Louisiana State University, Fafur was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe at Baton Rouge and, alone and joyless, he proceeded to crawl north.

As he passed Lafayette, Indiana, he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who, oddly enough, had to crawl through the Big Inch as part of her sorority initiation.

Chatting amiably as they crawled through Ohio, Pennsylvania, and New York State, Fafur and Mary Alice discovered they had much in common—like a mutual affection for licorice, tobaccodling, and the nonsense verse of Arnold Toynbee. When they reached the Vermont border they were going steady, and when they emerged from the pipe at Boothbay Harbor, Maine, they were engaged.

After a good hot bath they were married and today they live in Klamath Falls, Oregon, where Fafur is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman. © 1958, Max Shadash

Propinquity is sure to mean love when you put yourself close to a pack of Marlboros, made for your pleasure by the sponsors of this column.

... Women's Glee Club

(Continued from Page 1)
The coed singers will present four numbers during their portion of the program and later will join with the other groups for the Festival finale to be conducted by Jack S. Crim, assistant professor of music and director of the men's glee club.

"Gloria Patri" by Palestrina will be the opening selection by the women's club. This exciting anthem from the "Magnificat Third Psalm Tone" has been arranged for a cappella choir by Nicola A. Montani and should provide a brilliant beginning for the Festival presentation. It will be followed by "Were You There?", a beautiful spiritual in a new harmonic setting arranged by J. Harold Montague. Miss Phyllis Gersbach, soprano, will be the soloist. A sophomore from Malvern, N. Y., Miss Gersbach sings with both the glee club and the chapel choir. "This Little Babe", taken from Benjamin Britten's famous "Ceremony of Carols" and written especially for women's voices, will be the group's third number, and "The Woodchuck Song", arranged by Miss Carole Faust, student conductor of the club, will be the fourth and final selection. A senior from Ridgway, Miss Faust is also accompanist for the women singers.

To B.
by Kris Diaz

No more
The torturing of jealousies
Of loves of yours,
No more the restless flame
Of unfulfilled desire,
Such doors
Has left its ashes in my heart.
I only want
To smile at you,
My only wish
Be that the world
Shall cherish you.
As I have done,
And joyful shall I be
That love has come
For you through other's eyes.
Have I no pride
You say?
But truly, pride
Is such a foolish thing
To keep alive
When love has filled the heart.
I only want
To lay my hand against your cheek

Total number of enrolled college students is 3,460,000—all-time high.

Clarion, Drexel, East Stroudsburg, George Washington, Hood, Howard, Johns Hopkins, Kutztown, Lehigh, Mansfield, Marjorie Webster, University of Maryland, Penn State, Penn State Opiota, University of Pennsylvania, University of Penn Evening School, Temple, and Towson.

The Catholic students studied in a program directed and executed entirely by Newmanites, such leadership topics as the principles of leadership, members, membership drives, programming projects, program aids, committees, finances, how to run a meeting, the executive committee, publicity, club newspapers, public relations, and the structure of the National Newman Club Federation. Father James Murphy of Philadelphia, who is the province chaplain, attended meetings on Saturday afternoon and spoke briefly. Entertainment and dancing took place Saturday night. In charge of the weekend was Province chairman James Anderson of Johns Hopkins University.

Following the Sunday morning closing session, a meeting of the Province Executive Committee was held at the Lodge.

Those attending parts of the weekend from Bucknell included: John Blake, Ron Carey, Bob Drupieski, Ginnie Glaser, Pat Leidy, Jean Nardi, Linne Peck, Sally Siekman, and Terrie Stechnick.

... Educational Program

(Continued from Page 1)
William I. Miller, Mrs. Mary Moffat, Mrs. Marvin Williams, Miss Jane Scheidt, Mr. John Whitman, and Mrs. Lottie W. Berge will participate. Two films, "Library Store" and "Library Organizations", will be shown.

The upcoming conferences will be "Junior Science Fair" to be held on April 12 at Davis Gymnasium and "Designs for Learning" on May 10 at Bertrand Library Gallery.

... Buddy Morrow

(Continued from Page 1)
tional literature by the band, his reception at the Bainbridge, Maryland Naval Station in 1953 was as enthusiastic as the one given the Glenn Miller band back in the early 40's.

Although a trombone similar to the one Morrow uses can be bought for five or six hundred dollars, his is custom-made of special metals, from a design not available to commercial manufacturers. This trombone is the only one he carries, although most other musicians carry several, for emergencies. Doubly precious for its rarity, Morrow's trombone is insured for \$10,000. Morrow believes in presenting a full concert, one including both the very basic sounds and the newest arrangements. His repertoire covers Dixieland, rhythm and blues, rock 'n' roll, production numbers, small jazz combo; Dick Johnson Quartette, dancing music; featured spots with band members; and the always popular drum solos. Much of Morrow's trombone is arranged into the style of the band itself. Some of his solos are in trumpet register, many steps higher than a trombone. Morrow's exceptional talent enables him to hit some of the extraordinary notes he reaches in, for example, "I Can't Get Started", recorded on RCA Victor.

"I Can't Get Started", recorded on RCA Victor. The greatness of the band seems to lie in this incorporation of Morrow's trombone into the band style.

Morrow promises an evening of the kind of music everyone wants to hear—music of colorful, rhythmic, and swinging.

Morrow is said to have expressed his philosophy of music-making like this: "Do not try to educate the public from the bandstand, instead play the type of music they want to hear."

... Guys And Dolls

(Continued from Page 1)
"Guys and Dolls" will include such romantic pieces as, "I'll Know", and "You Never Been in Love Before."

Robert Beckman, musical director of the show, is in his second year of working with the University Players. He is responsible for conducting the orchestra, training the choruses, and assisting the leading characters in their work with the choruses. The University Players will be making their debut as the excellent one who he directed for "South Pacific" last year. Consisting of twenty voices, the orchestra will at times sound like a regular pit orchestra, and at times like a dance band.

World Famous Actor
To Appear Here

Etienne Decroux, world-famous French actor and the foremost exponent of the mime, will be making one of his rare appearances before an American audience when he visits Bucknell University this weekend.

His demonstration of purely physical expression in the theatre will be in the universally-understood language of gesture. His commentary will be in French which, in turn, will be translated by an American assistant and pupil, Mark Epstein.

Tickets for the performance may be purchased at the University Bookstore or at the door. During the course of his program, Decroux will present four views of the physical life of man: Man in Sport; Man in Society; Man as a Moving Statue; and Man in Dream. Following his presentation of a similar program at Tufts University, George Ryan in the *Boston Pilot* said, "There can be no doubt that Etienne Decroux is among the world's most talented theatre personalities, a great teacher of a great theatrical art. . . . It is impossible to imagine our theatre not profiting by a good healthy dose of Decroux's ideas, many of which are staples of the French style of acting so admired by most Americans."

Currently, Decroux is associated with Actors' Studio and the American Dramatic Workshop in New York where he is giving Broadway actors and actresses the "good healthy dose" of his ideas that Ryan has called for.

Decroux has trod the Parisian boards for over 20 years, both as a

VOLUME LX

University Players Production,
Guys and Dolls Set For March 27

Al Jackson in a scene from "Guys and Dolls".

University Players production of *Guys and Dolls* is now in its last week of rehearsals busily getting ready for its first performance next Thursday, March 27. *Guys and Dolls* is a musical play of Broadway with music and lyrics written by Frank Loesser and book by Abe Burrows and Jo Swerling. It is based on characters and incidents created by Damon Runyon. *Guys and Dolls* was the first big hit for Frank Loesser who has also written the lyrics for the currently running Broadway play, *Meet Happy Falls*.

The production of *Guys and Dolls* marks a change in the type of play produced by University Players. The last three years have found the romantic love stories of Rodgers and Hammerstein being produced while this year's play has a tangy dialogue and a pair of love stories with a satirical edge on both.

FIVE MUSICAL ORGANIZATIONS
FEATURED IN FESTIVAL OF MUSIC

Bucknell University's fourth annual Festival of Music, featuring five student musical organizations, will be presented Saturday evening, March 22, at 8 p.m. in Davis Gymnasium, with nearly 300 students participating.

A capacity audience is expected for this musical event, according to Professor William D. McRae, chairman of Bucknell's music department. The public is invited to enjoy the program for which there will be no admission charge.

Taking part in the Festival will be both the men's and women's glee clubs, the symphonic band, the symphony orchestra, and the chapel choir. The last-named group recently completed a three-day tour for a series of church concerts in New Jersey and New York state.

Each organization will present several of its numbers and then the three choral groups will unite to sing the Festival finale for which members of the orchestra and band will provide the symphonic accompaniment.

Directing the four-part finale will be Jack S. Krim, assistant professor of music, who is also director of the men's glee club. Mr. Crim has selected "Turn Back, O Man" by Holst as the first composition to be performed by the combined chorus. This will be followed by "Silver Swan" by Gibbons. Next will come this popular American folk song, "Skip To My Lou".

The finale will conclude with a concert piece by the Finnish composer, Sibelius, entitled "Onward, Ye Peoples".

Sequence of the Festival will be as follows: the women's glee club, the symphonic band, the men's glee club, the chapel choir, the symphony orchestra, and the finale.

The 75-voice coed group, under the direction of Professor Allen W. Flock, associate professor of music,

DICK HUNN ELECTED
M.S.A. PRESIDENT

The results of the MSA elections show that Dick Hunn will serve as president of that organization for the next year. Other officers for the year will be: Al Jackson, vice president; Myron Sugarmann, secretary; and Bob Howell, treasurer.

Members of the Judicial Board of MSA for next year were also elected. They are: Juniors—Don Avery, Andy Cahn, Terry Carlson, and Leon Diodardo; Sophomores—Pete Pedrick, Tony Rinaldo, and Ed McGinley; Freshmen—Bob Scott and Frank Wood. Chairman of the Judicial Board will be elected by the Board members.

Student Scholarship
Applications Due

Undergraduate students not now holding scholarships or grants-in-aid from the University who wish to apply for financial aid for the next academic year should obtain application forms immediately from Mr. Walling, the secretary of the committee on Scholarship and Student Aid. The completed forms must be filed in Mr. Walling's office not later than April 1. Notification of awards will be made by the first of May.

Undergraduates who now hold scholarships or grants-in-aid from the University are required to file an application for renewal if they wish their present aid to be continued next year. Forms will be available in Mr. Walling's office after March 24 and must be filed in his office between April 20 and May 1.

"Thieves Carnival" Sunday
Try-outs for Jean Anouilh's "Thieves Carnival", a contemporary French comedy, will be held Sunday, March 30 from 2-4 p.m. and on Monday, March 31 from 7-10 p.m. in Bucknell Hall.

Morrow's Music Provides
Atmosphere For Senior Prom

"Around the World" was the theme for the annual Senior Prom held in the Davis Gymnasium on March 14. To carry out the theme, a large disc representing the earth was on the stage. On either side a background of mountains completed the decorations. After a slight delay because of complications with

Frat Changes Seen
By I.F.C. President

During my year in office as I.F.C. President, I have had the pleasure of witnessing a transitional period in the fraternity life on our campus. The major change has been about through the added responsibility of the fraternities in assuming the administrative ability so clearly lacking in prior years.

Fraternities, in general, are primarily concerned with academic, rushing, and social life. It is in these three important fields that I feel the fraternities have made a marked improvement. Last year at this time all that was required for a freshman to pledge a fraternity was the equivalent of a 6.0 point average. Next September, as a result of the I. F. C. initiative, a freshman must possess a 9 average before he may pledge a fraternity

Nancy Umholtz Crowned Queen
At Bucknell's Annual Senior Prom

Miss Nancy Umholtz is presented with the Queen's crown by President Odgers.

Garbed in the royal purple of a queen, Sara Nancy Umholtz of Doylestown, Pennsylvania was crowned queen of the Senior Prom. Nancy is majoring in Commerce and Finance-Biology, a medical secretarial training course leading to a B. S. degree. She hopes to work in a New York City hospital following graduation and now spends much of her time doing secretarial work for Dr. Tasker. An enthusiastic person, Nancy lists swimming as a favorite activity although she also enjoys driving her blue Oldsmobile convertible. The girls in Spanish House, of which Nancy is Head Resident, describe her as being good-natured and one who gives great pleasure from doing things for others. This year Nancy has filled the office of Vice President and Pledge Mother of Kappa Delta sorority. She has served the women students as a member of Honor Council and is also Literary Editor of *Touche*.

Economics Club
Holds Meeting

The newly organized Economics Club held their second meeting on March 10. George Harder acted as temporary chairman. The temporary secretary was not present so the chairman gave a brief recap of what happened at the last meeting.

The officers elected were: president, George Harder; vice president, Lois Crabtree; secretary, Elsie Rubin; and treasurer, Don Ferrara. Mr. Kenneth Rothwell will act as faculty advisor for the club. A discussion concerning the new organization followed. The meeting was adjourned after which members were urged to attend the panel discussion on the current business recession.

A panel discussion was moderated by Dr. Russell Headley. Dr. Donald Voss, Mr. Kenneth Rothwell and Dr. Richard DuWors each gave a brief talk concerning the state of the recession and suggested possible remedies. The discussion was then opened to the audience and their questions.

Lewisburg Policeman's Ball
The Lewisburg Policeman's Ball will be held April 25th at Davis Gym from 9 till 1. It will feature Tommy Tucker and his Band. Tickets will cost 3 dollars per couple and can be purchased from Lee Wentzel at the SAE house. Tickets will also be on sale in town at a future date.

Hilltop To Feature
Film 'The Medium'

The Medium will be shown at Hilltop on Friday, March 21. Marie Powers, Leo Coleman, and Anna Maria Alberghetti are starred. Gian Carlo Menotti blends theatre and opera to produce a thrilling dramatic and musical show with the Symphony Orchestra of Rome. This film won the Grand Prize for "Lyrical Film Drama" of the Cannes International Film Festival.

Students Report
On D.C. Semester

Last semester four adventuresome Bucknellians took a leave of absence from the friendly 300 acres to explore the unknown territory of the District of Columbia. The primary purpose of this venture to our nation's capital, called the Washington Semester Program, was "to see our federal government in action." Upon arrival in Washington, all

NATIONAL ENGINEERING HONORARY
ANNOUNCES SIX NEW MEMBERS

Young Gul Kim, president of the Bucknell Chapter of Tau Beta Pi, National Engineering Honor Society, has announced the election of six new members for this semester. The election was held on March 10. Those elected were:

Second row—George Schaefer, Bob Reichenbach, Blaine Barbo. First row—Suh Young Lee, Margo Hetlich, Steve Thorp.

Blaine Barbo, who is treasurer of The American Society of Mechanical Engineers and a member of Phi Lambda Theta social fraternity. Robert Reichenbach, a member of the American Society of Chemical Engineers. He is a veteran of two

(Continued on page 2)

Parking Problem . . .

Something must be done about the parking problem on the "Hill."

Every morning cars are double-parked to let off administrative workers, because there isn't any place to park.

We wonder how this appears to a prospective student and his parents when they come to see the campus for the first time?

We also wonder how these same people feel when they have to walk a quarter-mile to see the registrar because there isn't any place to park? We are sure this goes a long way toward creating a favorable impression!

This is the problem, but what is the solution? There are two—Bucknell must either build adequate parking facilities or revoke all driving permissions on the "Hill."

The second alternative is almost completely out of the question, because automobiles are a necessity to some administrative personnel.

However, the first suggestion bears a great deal of serious consideration.

The only negative reason against increasing parking facilities is the damage that would be done to the beautiful land. However, we must realize that this is a time of progress—not landscaping.

Another question the administration ponders over is the cost of such a project. We believe that some of the twenty dollars registration fee could be put toward this project.

After all, when you pay twenty dollars to drive on the 300 acres, the whole place should be a parking lot.

It's a shame something hasn't been done already, but only time will tell if the administration has enough foresight to construct a few badly needed parking lots.

Letters to the Editor

Dear Editor,

This letter concerns the quality of writing which has been appearing in the *Bucknellian* lately. I am thinking particularly of articles, by the same author, the most recent of which appeared in last week's issue. Speaking of "drizzle," (I believe the proper word is "drivel") this particular article was the epitome of the word's proper connotation. I'm sorry for becoming so vehement over the situation, but when you are reading college newspapers you like to see writing of college calibre. I make no claims to fame in the literary field, (Mr. Carens will attest to this) yet with my layman's knowledge I detect flagrant errors of rhetoric. It is discouraging and repulsive to see constant malapropisms, awkward and trite phrases, improper use of colloquialism, and lack of unity or a central idea. Not only are there grammatical errors, but all too often, arguments and conclusions are opinionated; they are an emotional or spontaneous line of reasoning rather than sound and logical deductions.

"Man," no wonder you have "pretty well failed." If one has difficulty in composing proper sentences one will have an insurmountable task to make a clearly defined point.

I regret that I must make specific references. There is nothing personal intended. I saw no other course nor any alternative way to make my point clear. However, I must say, if one writes a paper of criticism he must realize that he leaves himself open to criticism in return.

In conclusion I hope that this letter will stimulate action in the *Bucknellian* feature staff for proper proof-reading before the publication of articles and features. Bucknell has prided itself in its publications and we want to continue to do so.

Sincerely,
Jack Brothers

Academic Honor System Questionnaire Results

The results of the questionnaire concerning the proposed academic honor system have been tabulated. The forms were distributed on completion of registration on February 4 under the auspices of the Academic Honor System Subcommittee of S. F. C. The questions were designed to ascertain the opinion of the student body on all aspects of the proposed system and each of the ten questions were tallied individually in respect to the class and the sex of the voters.

The results are as follows:
Question 1—From your observations of honesty during exams do you feel that an Academic Honor System would be desirable? Strong Yes, 14.5%; Yes, 35.7%; Undecided, 15.8%; No, 20.9%; Strong No, 12.9%.

Question 2—Are you in favor of the basic principle of an Academic Honor System? Namely, that the students accept the responsibility to uphold the spirit of honor in the absence of the professor? Strong Yes, 41.5%; Yes, 45.5%; Undecided, 2.7%; No, 4.5%; Strong No, 5.7%.

Question 3—Do you agree with the following clause: We, the students, will neither give nor receive aid in examinations; nor will we give or receive unpermitted aid in classwork, in the preparation of reports, or in any other work that is to be used by the instructor as the basis of grading. Strong Yes, 25.0%; Yes, 42.2%; Undecided, 12.4%; No, 12.3%; Strong No, 8.0%.

Question 4—Do you agree with the following clause: Every student

Washington Semester
Any one interested in the Washington Semester please contact: Harvey Jones, before March 22, 1958.

is required to write and sign the following pledge after all examinations and written quizzes: "I have neither given nor received aid during this examination." (signed) John Doe. Members of the faculty will not grade any examination paper unless this pledge is written and signed? Strong Yes, 19.8%; Yes, 35.5%; Undecided, 22.7%; No, 4.5%; Strong No, 5.7%.

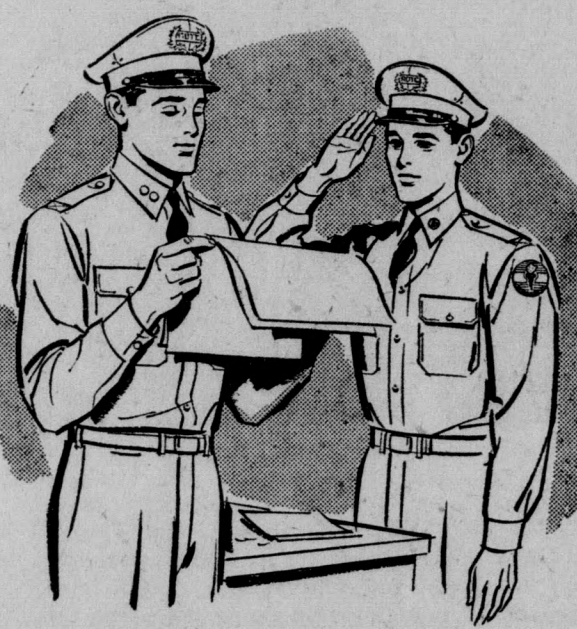

(Continued on page 7.)

Sophomore R.O.T.C. Students:

MAJOR IN LEADERSHIP

with the Advanced ARMY R.O.T.C. course

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:

1. Learn to Lead

With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.

2. Attain Officer's Rank

As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.

3. Receive Extra Income

With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around \$535 for the two-year course. You will also be paid \$117 for your six-week summer camp training and receive a travel allowance of five cents per mile to and from the camp.

ARMY R.O.T.C. "majoring in Leadership"

Conroy's Corner

OPEN LETTER TO LETTERS TO THE EDITOR

Although I feel it would be both ridiculous and fruitless to quibble endlessly over ideas stated in this column, I feel that a few words might be said to any person who has the initiative to jot down a few ideas on a piece of paper and send that letter to either myself or to the desk of the editor. I personally take great pleasure in entertaining any well-thought-through letter sent to me; but may I also ask any prospective letter-writer to please avoid any nonsensical jibbering as I illustrate it in the following paragraphs.

I'll first refer to the letter sent in by Sal Archibald. I find it amusing to see Sal stumble through such awkward and bombastic phrasing as:

"I have written many elementary themes on rather immature and philosophical bits, but which nonetheless have steadily created an interest within me to rectify and further conjecture on these ideas . . ."

before she finally falls flat on her face in the middle of her letter by misconstruing completely the reason I used "love vs. sex" as an illustration of an idea. I believe that Sal was attempting to say in the above quote that she likes to think, but it appears to me that although a flame of thought was definitely kindled in her mind, it was not fanned into ultimate brilliance, but rather was snuffed out by a large, empty, self-anemizing wind of words. And may I advise Sal that if she wishes to make an attempt at "rhetorical splendor" (in her other passages) and if she is forced to write with a dictionary at her side, she might use words whose propriety is consistent with the context in which they are used, rather than to flip aimlessly through the dictionary pages and select words at random on the basis of their aesthetically-appealing sound.

In reference to Miss Phares' letter, I appreciate the fact that the girl makes an attempt at the very start of her letter to define what a rule is, but I'm sorry to see her consume some 300 words of newspaper space to arrive at a truth concerning rules which was self-evident to everyone anyway.

Furthermore, Miss Phares elects to use her complete lack of understanding the purpose with which I wrote the "Bill-Harry" article as a means by which she may babble emotionally about the Honor System, and as it turned out, about most anything in general. (For example, Miss Phares vehemently states that women are not inferior to men simply because women have to be in the dorms by 12:30. Although the statement may be true and although a half dozen of her apostles may applaud its merits vigorously, I still fail to see how it bears the slightest relation to my article. I suppose that if I had asked whether or not the United States is really maintaining her rank among the world powers, I would have been told in reply that Debbie Reynolds and Eddie Fisher will too be happy to gether.

Finally, after several similar arguments, Miss Phares gradually builds up into her final emotional outburst by eloquently stating that a Semgen's honor is based solely on a conscious belief in the honor system and its values and that is what makes the system work—and then she proceeds to say at the conclusion of her letter that pressure makes the system work. My word, what logic!

I might note briefly in closing that in Richard Sacks' most recent literary blab in the *Bucknellian*, he has again succeeded in attacking everybody in general and nothing in particular—and all in one article. Although his intentions are no doubt admirable, I must admit I have difficulty weighing the merits of anything he said—simply because he didn't say anything.

HARTZELL SPEAKS ON AMBITIONS IN LIFE

Bucknell University students were advised this week to employ their talents not in their own interests but in the interests of others, in order to make the fullest possible use of life.

Dr. Karl D. Hartzell, Bucknell's dean, in an address at the weekly chapel exercises, urged the students to use their gifts on behalf of their fellowmen, enemies as well as friends, if they hope to discover their deepest selves.

The dean pointed out that since the beginning of time man has been confronted with the problem of what to do with his life.

"Realization of the relative insignificance of human beings can easily lead to pessimism," he said, "but pessimism is the refuge of a tired mind."

"Christ repeatedly denied man's insignificance and the Gospels are full of his comparisons of the relative importance of man in the sight of God," he declared.

Adding that it matters very much to us today what we do with our lives, Dr. Hartzell reminded his listeners that Bucknell's whole philosophy is based upon the dignity of the individual and the absolute worth of each human being.

"It is up to us to choose the level at which we join the human race," he continued.

"Joining the human race is not only a matter of becoming familiar with the best that others have thought and done through the ages. It is a matter of becoming acquainted with our own gifts, the best that we are capable of thinking and doing now and in the future."

"We develop our abilities through use. Failure to use what we have, even though it is not great, is the equivalent of digging a hole for our talent."

"At one time or another, we all started from scratch, taking the first plunge despite the possibility of failure. Fear of failure, if we let it dominate us, can paralyze the will and put an end to growth."

Deciding what purposes we shall serve is highly important, Dr. Hartzell pointed out. "Our problem is to determine those values which are the highest and to act in accordance with them."

"I am convinced," he continued, "that we make our best decisions when we have time to reflect and to listen to our inner selves."

The dean mentioned man's desire for economic security, for wealth and comfort, "our temptation to turn stones into bread."

"But Christ emphasized that man does not live by bread alone—that cultivation of the life of the mind and of the conscience is as important as care of the body," he declared.

"Comfort and security do not make a life; they can only help." The dimensions of maturity are not only physical or social, but intellectual and spiritual as well, he added.

"It matters not so much what vocation we follow as why we follow it, for whom, and in whose service," he concluded.

Merck Company Hosts To Chem. Engineers

The members of the AICHE, American Institute of Chemical Engineers, will leave Bucknell at 3:00 p. m. on March 25, to be guests at the Merck Pharmaceutical Company in Danville. At the plant they will be provided with a tour and dinner. At 8:00 p. m. they will be guests of the Central, Pa. Section of AICHE and will attend the monthly meeting of the section to get an idea of how a professional group meets.

REFLECTION
I saw a star one moonlit night
So small and dainty was its light
And I perceived, I know not why
No nearer body spirit lies,
Than I to this small star I see.
—M. I.

Chem Engineers Enter Contest

The senior chemical engineers completed work on the Annual Student Contest Problem yesterday. This competition is held between various colleges throughout the country and lasts for thirty days.

It is estimated that 100 hours are necessary to work the contest problem.

The Department will select the two best solutions and send them to the contest. Last year Stevens Institute of Technology captured first place in the contest.

Dr. Levenspiel of the Chemical Engineering Department is hopeful that Bucknell will place among the first three winners or win honorable mention.

APPLICATIONS OFFERED FOR STUDY IN EIRE

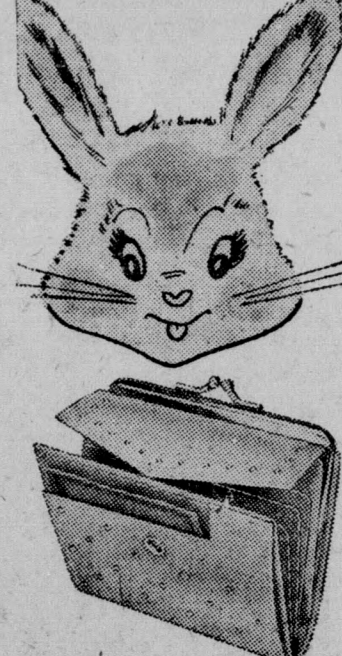

Young Americans will have a chance to study in Ireland next year under a new bi-national educational exchange program with that country, it was announced by the Institute of International Education. The program is being inaugurated as a result of an executive agreement between the Governments of Ireland and the United States signed in Dublin last March.

These awards for pre-doctoral study and research in Eire cover international travel, tuition, books and maintenance for the academic year.

Basic eligibility requirements are U. S. citizenship, a college degree or its equivalent by the time the award will be used, and good health. Preference is given to applicants not more than 35 years of age.

Applications must be submitted to the Institute by April 15. For further information, write to the Institute of International Education in New York City.

Summer Resort Life Appeals To Students

In the spring when a young man's fancy turns to love, a college student's mind turns to the thought of a job for the summer.

For some students, a summer job is required if he or she is to have adequate finances for the coming year. For others, a summer job serves as something to do for the summer months. Whether you fall into either of these categories, now is the time to be thinking about a job for next summer.

A small percentage of college students will stay home and take whatever jobs are available there, while a greater margin will go all over the 48 states to America's resorts and summer wonderlands to work during the summer months in hotels, restaurants, at beaches, canneries, and many other summer jobs that are open to college students.

For most of these resorts, little or no experience is required, and students failing to realize this, do not try to work at summer resorts while they are on vacation from colleges and universities.

At summer resorts, students meet many new and fascinating friends and opportunities. At many resorts, students can save as much as \$1,000 with little effort. Recreation is abundant, Catekill Mountains of New York and many others.

A student information center is located at Chapel Hill, North Carolina and for a \$1 service fee to cover cost of materials and application forms, a student may receive complete information on the exact time to apply to the specific resorts offered by the information center. Anyone desiring this information should send the service fee immediately with information about your self so the jobs suited to you can be referred in information. The address is Student Jobs, 110 Mangum, Chapel Hill, N. C.

Early golf balls were leather covered and stuffed with feathers.

APPO AND RED CROSS BOOST BLOOD DRIVE

Once again this year, in conjunction with the Red Cross, A. P. O. the National Service Fraternity is holding a blood drive. The drive will be held on Friday, March 21, at 10:00 a. m. and times for giving blood at Hunt Hall are as follows:

Monday, March 24—11:45 a. m. to 5:45 p. m.

Tuesday, March 25—9:45 a. m. to 3:45 p. m.

Parental release slips will soon be available at the post offices and more information will be delivered in the mail boxes. If you are still a minor, you must have your parent's permission to donate blood. President, Charles Marvin urges all Bucknellians to help out this year and top all records for blood donation.

student matter, waitress, or other employee working for tips so a student has a definite advantage here.

Some of the resorts that are now hiring college students for next summer are Lake Placid, N. Y., Atlantic City, N. J., Miami Beach, Fla., Nanuet, R. I., Cape Cod, Mass., many summer resorts in the mountains of North Carolina and Virginia, Fontana Village in North Carolina, Myrtle Beach, S. C., Ocean City, Md., Catskill Mountains of New York and many others.

At most resorts, students receive a salary and tips and the tips can be a student to make good money, often exceeding \$100 weekly. Most people will tip a college

Sig Eps Choose Reigning Queen

Pennsylvania Kappa chapter of Sigma Phi Epsilon will hold its "Queen Of Hearts" weekend on March 28 and 29. This will be the first weekend of its kind to be held by the Sig Eps.

The highlight of the weekend will be the crowning of the first queen to reign as the Sig Eps "Queen Of Hearts." In future years the crowning of the queen will be augmented by the presentation of the crown by the previous year's queen.

The weekend will get under way with an informal "Bernadette Bounced" party with music furnished by Les Michener and his orchestra on Friday night at the chapter house. There will be a cocktail party at the chapter house on Saturday afternoon and a formal "Queen Of Hearts" dance at the Milton Country Club on Saturday night.

EMPLOYMENT SERVICE CONDUCTS INTERVIEWS

Interviewers from the Milton local office of the Pennsylvania State Employment Service will be on the campus on Friday, March 21, to discuss job opportunities for the coming summer vacation.

The interviewers will be in the lounge of the Carnegie Building from 9:30 a. m. to 4:30 p. m. on the above-mentioned date. They will take applications for openings in the various summer camps in the Pocono Mountain section of Wayne and Pike Counties in Pennsylvania.

Anyone who has had camp experience, either as a camper, or as a staff member, and who is interested in this type of summer work is urged to contact the State Employment Service interviewers at the Carnegie Building on Friday, March 21.

JOB FACTS FROM DU PONT

BETTER THINGS FOR BETTER LIVING THROUGH CHEMISTRY

LIBERAL EMPLOYEE BENEFIT PROGRAM AT DU PONT INCLUDES INSURANCE, SAVINGS AND STOCK PLANS

WHAT'S YOUR LINE? DU PONT NEEDS ALL KINDS OF ENGINEERS

DuPont has always needed chemists and chemical engineers, and still does. But today, there's critical need for engineers in almost every other field—civil, mechanical, electrical, instrumental and industrial engineering, to name a few.

Expansion is the major reason. In 1957, for example, sales at DuPont were nearly two billion dollars. Four new plants were being built. New research programs were being launched. New products were moving into the production and marketing stages. Engineers and scientists of all kinds work in 75 DuPont plants and 98 laboratories in 26 states. All of this tends to broaden opportunities for the young scientist and engineer at DuPont.

If you're interested in finding full scope for your ability, and this includes a great many special fields, DuPont offers you plenty of opportunity to move ahead.

SEND FOR INFORMATION BOOKLET ON JOB OPPORTUNITIES AT DU PONT

Booklets on jobs at DuPont are yours for the asking. Subjects covered include: mechanical, civil, metallurgical, chemical, electrical, instrumentation and industrial engineering; atomic energy, technical sales, business administration, research and development. Name the subject that interests you in a letter to DuPont, 2949 F. Nemours Building, Wilmington 98, Del.

PERSONALIZED TRAINING

by R. G. Allenman
DuPont Representative

When you join DuPont as a scientist or engineer, you're given an actual project assignment almost at once and begin to learn your job by doing it. That's the essence of our training philosophy at DuPont.

Our objective is to give you responsibility at the outset and quickly you quickly for more, because the more we grow, the more we need trained leaders.

Although there is no one training program at DuPont (each of our many departments runs its own), all have several basic features in common. All are personalized—tailored to the new man's background and interests. All involve close supervision on an informal, day-to-day basis. And all permit periodic evaluation of the new man.

This flexible system helps the new man to move ahead according to his abilities. He gets to know DuPont and his job quickly. He gets a head-start on future responsibility.

You probably have questions about this program and how you'd fit into it. I'll be glad to try to answer them when I visit your campus. Why not sign up for a DuPont interview at your placement office now?

Means More Security, Greater Real Income To Young Graduates

DuPont believes that the employee builds his own job security by the way he does his work, by his contributions to the progress of the Company and by his readiness to accept responsibility.

But DuPont meets the employee more than halfway with a program of benefits designed to help him as he advances.

Your employee benefits go to work the day you join the Company. They grow and build equity for you as the years go by. Vacations, life insurance, group hospital and surgical coverage, accident and health insurance, pension and bonus plans are all part of the program.

Let's look at a special example, the Thrift Plan. You become eligible for it after one year with the Company. For each dollar you invest in U. S. Savings Bonds, the Company contributes twenty-five cents toward the purchase of DuPont common stock in your name. Roughly 65 per cent of the Company's 90,000 employees are now participating in the plan.

When you're deciding on a career, security is only one consideration. But it's an important one to you and your family. At DuPont, security is a bright part of the future awaiting the college graduate.

More than 700 of the some 1100 degree-granting colleges and universities in the U. S. are represented at DuPont. Of these 700, more than half are the smaller liberal arts colleges.

THE DUPONT REPRESENTATIVE WILL VISIT THE CAMPUS MARCH 28
SIGN UP TODAY AT YOUR PLACEMENT OFFICE FOR AN INTERVIEW

V-BALL, BOXING HEAD I-M CARD

LAMBDA CHI'S FAVORED TO WIN VOLLEY BALL; KAPPA SIG'S SEEK THIRD STRAIGHT BOXING TITLE

On Tuesday night the regular league volleyball schedule ended with two undefeated teams and a wild scrambling three-way tie for second place in League A. Unde-fested Lambda Chi 6-0, emerged as the first place representative from League A and is scheduled to battle Kappa Sigma 4-1, the second place representative from League B. Phi Gamma Delta 5-0, champion of League B will have to wait as Sigma Alpha Epsilon, Phi Kappa Psi and Sigma Alpha Mu meet head on to decide a second-place representative for League A. The situation evolved when SAE on the last night beat PKP to knot the whole thing up tighter than the doors of Larion at eleven o'clock.

IM Race Will Get Tigher

As the fraternities go into the fur-ture of the intramural race, the ex-perts seem agreed on one idea. That

day, March 22. Boats will begin Monday, March 24 at 7 p. m. Tuss-day afternoon at 4:30 and the semi-finals Wednesday, March 26 at 7 p. m. The finals will be held Thurs-day, March 27 at 7:30. Medals and exams will be held March 24 be-tween 12:00 and 12:15, which will include the heavyweights. The

weigh-ins will be conducted the day of the fights at noon till 12:30. The Kappa Sigma team rates as an early favorite to retain the title it won a year ago. Proceeds from the tournament are turned over to Bucknell's letterwin-ning "B" Club members.

OCEAN TO OCEAN ACROSS SOUTH AMERICA—AND BACK—IN 41 HOURS! CHEVY'S NEW V8 LEVELS THE HIGHEST, HARDEST HIGHWAY OVER THE ANDES!

To prove the durability of Chev-rolet's radical new Turbo-Thrust V8,* the tremendous flexibility of the new Turboglide transmission,* the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world — the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires — no chance to add oil or water or adjust carburetors for high altitude.

So the run began — across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 2½ miles in the sky! Drivers gasped for oxygen at 12,572 feet — but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes — and the engine was never turned off!

*Extra-cost option.

Golf, Tennis, Track Squads Await Spring

Bucknell's Middle Atlantic Conference golf champions will defend the title they've won for the past two years at Mount Union and play 13 dual matches this season, according to an announcement by Athletic Director Albert E. Humphreys.

Last year's Bison squad, which copped nine of 12 decisions in addition to winning MAC laurels, has been depleted and coach Harold Evans is confronted with a terrific rebuilding task. Evans will be coaching the Herd linksmen for the 29th season.

Bucknell's 1958 golf schedule: April 12, F&M, home; April 18, Lafayette, away; April 23, Gettysburg, away; April 25, Temple, home; April 26, Cornell, away; April 30, Navy, away.

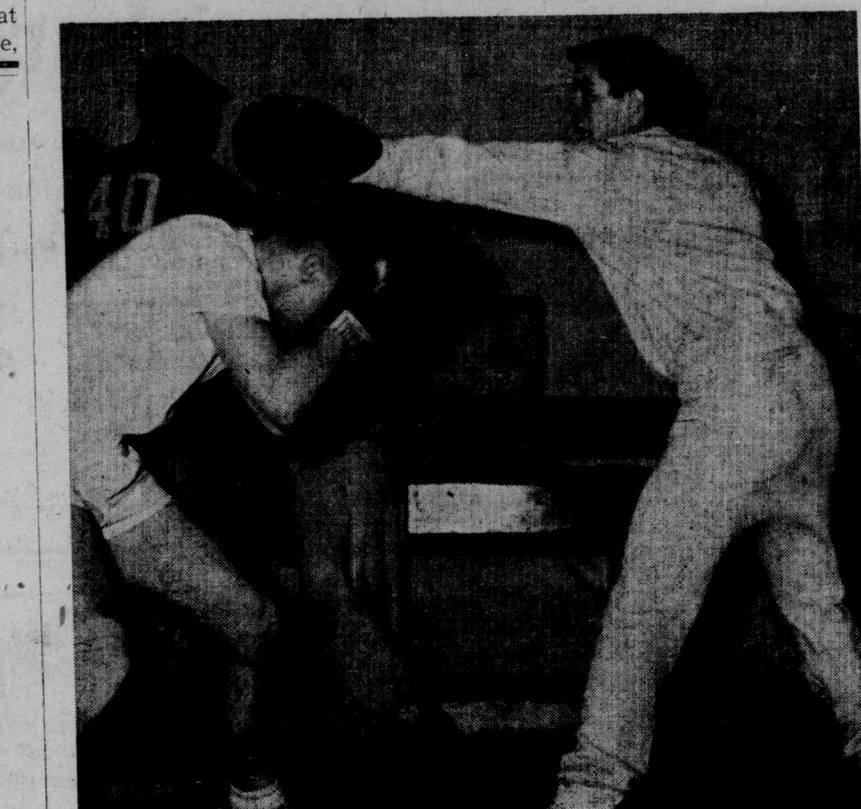

May 2, Lehigh, home; May 6, Colgate, away; May 9 and 10, Middle Atlantic Championship Matches at Mount Union; May 13, Delaware, home; May 16, Albright, away; May 20, Penn State, away; May 23, Scranton, home; May 24, Juniata, away.

Bucknell's track team will engage in six dual and triangular meets and compete for the Middle Atlantic Conference title at West Chester this spring. Athletic Director Albert E. Humphreys also announced that the Bisons would enter the Penn Relays.

Coach Bus Blum will 'send his' trackmen against the same foes who fell before the hurrying Herd last year. Bucknell's trackmen, 6-0 in 1957, have finished undefeated in two of the past three seasons and have triumphed in 14 of their last 15 dual and triangular meets.

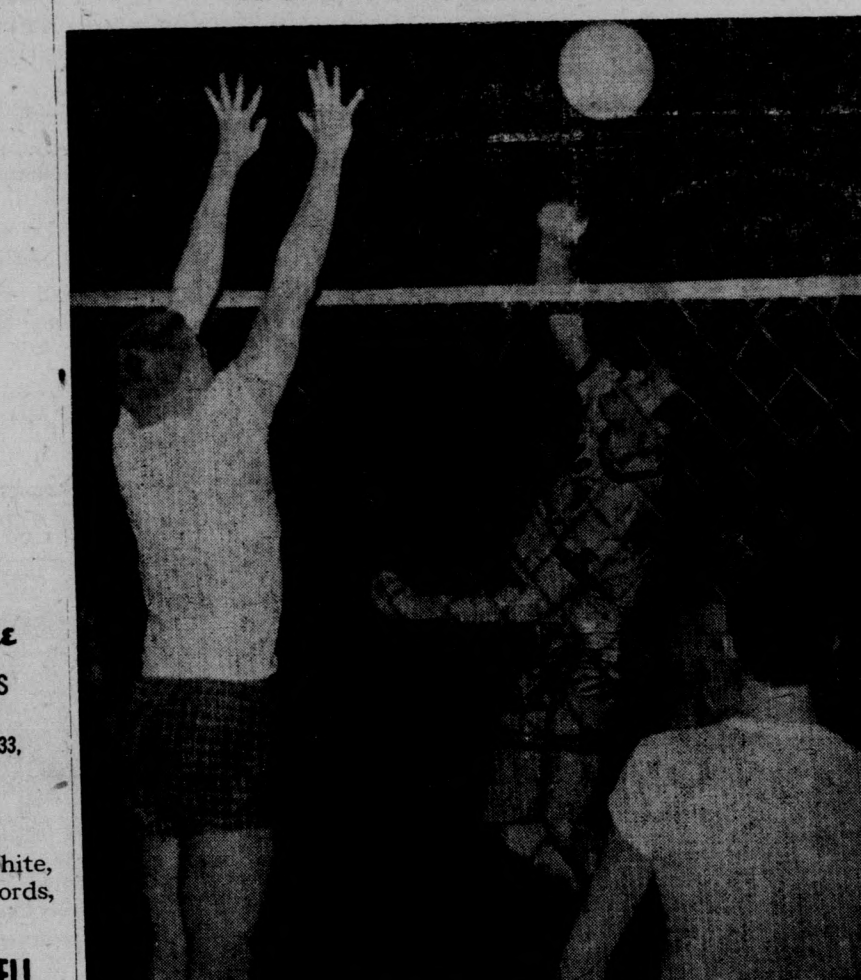

The Herd will be captained by Chuck Siede, Arlington, N. J., who won nine of 13 singles matches a year ago.

Gen. Grant To Speak

"Strategy of the Civil War" will be the topic of an open lecture by Major General Ulysses S. Grant III, U. S. Army retired, who will speak at Bucknell University next Tuesday evening.

His talk under the auspices of the University's ROTC unit is scheduled for 7:30 o'clock in the Vaughan Lecture Auditorium. It will be followed by an open forum from 9:00 until 10:00 p. m. Local historians and students of military tactics will have an opportunity to exchange views and ask questions at that time.

Along the Bison Trail

Sports Editor, Stratton White

Thanks to Bus Blum, Bucknell has an intramural program which can favorably be compared with those of other colleges. However, as in the case of most anything, there lies room for improvement, and it is along this line that I would like to offer a most pertinent and constructive viewpoint.

Without doubt, the weakest point in our intramural set-up lies in the officiating of the different intramural contests. I am speaking specifically about those sports which are referred to by fraternity pledges. This hurts intramurals severely due to the fact that it is exceedingly unfair. Why is it unfair? For the simple reason that most fraternity men do not want to take the time to supervise these contests for nothing, therefore they send pledges. Unfortunately, this is a farce because the pledge does not want to go, nor does he know anything about the job he is to perform, nor does he particularly care one way or the other.

It is easy to see how and why so many of the intramural activities are turned into complete chaos with both teams at each others throats as well as that of the powerless umpire. I have seen so called referees (and I use the term loosely) freeze on a close call so that the team that yelled at him the "firstest and the mostest" was able to sway his decision. Pardon me, I should say make his decision for him!

Such sports as soccer and basketball are more ably handled than are volleyball and softball, which are the poorest officiated sports in our intramural program. Basketball and soccer officials receive one dollar for each game they work, where as volleyball and softball umpires do not receive anything. I am quite sure that there are enough men on campus who would be only too glad to handle these sports for some small remuneration. I also feel that if BU could fit this expense into her athletic budget a great many people would be more satisfied with our intramural program. Because intramurals here at school are a big thing and the I-M race is usually very close, I think it only fair that the school pay for good student officials. Mr. Blum, I know that you take great pains in seeing that your program runs smoothly, why then let it suffer when it can be remedied? I am sure that through the intramural representatives, competent men can be found. I may be idealistic, but I feel that if a man is hired to do a job, he does it with more zeal than if compelled.

A Campus-to-Career Case History

Stan Smith (left) discusses characteristics and color coding of polyethylene insulated cable with A. A. Little, Nebraska Area Transmission Engineer.

"Growth makes opportunities in the telephone company"

In October, 1957, only four years after graduation, Stanley W. Smith was appointed District Plant Engineer in Northwestern Bell Telephone Company. Here Stan tells what his responsibilities are and how his promotion came about.

"I'm responsible for outside plant engineering in a district which includes about one-third of all Bell telephones in Nebraska outside of Omaha," Stan says. "That's about 35,000 phones, and the number is growing every day."

"The most important part of my job is to plan for growth and have facilities ready when needed. This means planning for pole lines, aerial and underground cable, and conduit lines to the central office. I also make cost estimates for all

planned construction so that money can be budgeted for it.

"This is the kind of job I really like—one which combines engineering and management. And it was the continuing growth of the business," Stan points out, "that opened up this new assignment for me. My predecessor was appointed to a newly created position and I was selected to replace him."

"What the future holds for me depends on a lot of things. But I can see from my present job that growth will keep opening opportunities for myself and other engineers like me. I'm more convinced than ever that the telephone company is the place to get ahead in an interesting and challenging career."

Stan Smith graduated from the University of Nebraska in 1953 with a B.S. in E.E. degree. He is one of many young men who are finding rewarding careers in the Bell Telephone Companies. Find out about opportunities for you. Talk with the Bell interviewer when he visits your campus, and read the Bell Telephone booklet on file in your Placement Office.

BELL TELEPHONE COMPANIES

It was sad...

when that great ship went down and the last thing to leave the sinking ship was a bottle of Coca-Cola. That's because all hands stuck to Coke to the end. Now there's popularity! That's the kind of loyalty the sparkling, light, the good taste of Coke engenders. Man the lifeboats, have a Coke!

... Washington Semester

(Continued from Page 1)

the students from the various parts of the country whose schools participate in the program were confronted with the similar problem. We had a few days to tighten before classes began, but who knew how to get around Washington?

Whenever one of us asked a native (we were later to discover there is no such thing as a native Washingtonian) where a certain monument, street, building, etc., was located, his directions were always followed by "you can't miss it." Nonetheless, the first few weeks we "missed it" more often than not. It also soon became apparent that the D. C. Rapid Transit System (buses and street cars) was anything but rapid and its complexity made New York subways look simple by comparison. However, after a few frustrating experiences, we all became familiar enough with the transportation facilities and the layout of the Washington so that they became aids, rather than obstacles, to our academic and social pursuits.

Since we Bucknellians were in Washington to obtain some type of education, it might be interesting to briefly mention our academic pursuits in the nation's capital. Our program was in arrangement with The American University. We received credit for the marks that we obtained.

The outstanding feature of our academic pursuits were the seminars that we attended. Such noteworthy men as Senator Hubert Humphrey, Judge Luther Youngdahl, Ernest Griffith, Director of the Legislative Reference Service, and Joseph L. Raub, a famous lawyer whose picture recently was on the front page of the New York Times, were just a few of our speakers. We had over fifty seminars during the semester, all of which gave us a better understanding and insight into our "federal government in action."

Next, all of the students on this program had to do a project on any topic that they were interested in concerning government. The Bucknell contingent did individual research on the Civil Aeronautics Board, the United States Information Agency, and the recent civil rights bill. We all had a chance to use Washington's unique resources and also to meet many important people in connection with our project.

Finally, we attended graduate courses at night for six or nine hours of credit. Most of our fellow students were working towards their master's degree or doctorate and they were many years our senior. The courses themselves were ones that could not be found at Bucknell, such as Far East International Relations and others in the International Relations field. The professors that we took were exceptional men. Many of them worked for the government during the day and taught a few courses at night.

All in all our academic life was intellectually stimulating and satisfying. We obtained either twelve

or fifteen hours of credit depending upon the number of courses that we took.

However the hours that were devoted to social and cultural pursuits unfortunately can not be counted. Washington is a city with things to do and our advisors told us that we should make the most of our opportunity. We did!

Early in the fall pro football games were the craze, especially in the pouring rain. Friday nights were spent at Churchills or Maggies who served us cut rate prices on pizza pies. On Sunday evenings we sampled in a progressive dinner restaurant each week. The New Baghdad served Turkish delicacies, French and Chinese food were sampled in a progressive dinner one night. Afterwards the National Art Gallery was the popular place to go for a classical music program because it was free.

But most fun of all were the embassy parties that our scrounged invitations to or the night on the town party where a tour of Georgetown after dark or the Bayou would be in order. Then too, there were the ones we held ourselves. The long to be remembered first picnic to get acquainted turned out to be a "real bali".

The theater featured such people as Helen Hayes in "Time Remembered" and Julie Harris in "The Country Wife". The Royal Ballet arrived for a week in November and later the New York Ballet Company staged "The Nutcracker Suite". Washington boasts of the Arena Theater, which is theater-in-the-round; lectures by such noted men as Robert Frost and Frank Lloyd Wright; and plays staged at Constitution Hall and the Library of Congress.

The whole semester really was successful or as everyone from Redlands, California, Simpson in Iowa, to Hollins in Virginia would say, "it was a ball".

... I.F.C. Report

(Continued from page 1)

rushing". During the first semester of each year it has destroyed the basic principles which stand behind fraternities. This year, as in past years, the I. F. C. spent many hours trying to solve the problems that propagated in our present deferred rushing system. With the helpful cooperation of Dean Charles Meyn, our efforts were well spent in that the houses that were involved in "dirty rushing" turned themselves in to the I. F. C. and were consequently fined or reprimanded. Since there is no clear distinction as to precisely what constitutes "dirty rushing" and that which does not, we are faced with the tumultuous problem of determining wherein the suit can be fixed. The important accomplishment, however, is the fact that the I. F. C., through the direct cooperation of the fraternities, has stepped forward in combating the epidemic of the fraternity system, "dirty rushing."

To express my feeling concerning

... Engineer Honorary

(Continued from Page 1)

Stephen Thorp, who has been president and secretary of Alpha Chi Sigma, the Chemical Professional fraternity, past secretary of the student chapter of the American Institute of Chemical Engineers, and an engineer for WVBU. In the ROTC he has served on the rifle team for two years, and was recently selected as a distinguished military student.

All of the above students are seniors. The juniors elected were Margo Hettich, a member of Alpha Lambda Delta. Margo is the second woman to be thus honored from a Bucknell Chapter. In the 74 year history of Tau Beta Pi, less than 150 women have been given recognition by this engineering honor society.

Another interesting thing is that she is married to George Hettich who was elected to membership last spring, and it is very likely that they are the first couple both of whom are thus honored.

Stuh Young Lee, a member of The American Institute of Chemical Engineers and TKE, social fraternity. George Schneider, a member of Phi Mu Epsilon, mathematics honorary, and Phi Lambda Theta, social fraternity.

It is estimated that 200,000 of the nation's ablest students stop their education before the college level each year.

South Pacific. Supporting roles include Jay McConahey as Benny Southstreet, Pat Lannigan as Nicely-Nicely Johnson, Mike Gavin as Rusty Charley, Joel Berger as Arvide, Barry Tague as Harry the Horse, Charlie Negron as Big Jule, and Linda Weaver as General Cartwright.

Guys and Dolls is being directed by Harvey Powers, who has previously directed Oklahoma and Carousel. Robert E. Beckman will conduct the orchestra and chorus. This is his second year as musical director for University Players. The scenery is being designed by George Hersey, who has had considerable experience in summer theatres on the East Coast. Mr. Hersey also advises the scene designs for Cap and Dagger.

The choreography is being done by Joan Moyer of the Moyer's Institute of Dance in Sunbury. Mrs. Moyer also did the dance sequences for Carousel. The lighting design is being done by a Bucknell student, Mark Peterson, who has done much work for Cap and Dagger. Casey Bischoff is the Stage Manager who is in charge of everything once the play is under way.

Guys and Dolls is the Eleventh Annual Production of the University Players which is composed of students and faculty members from the Men and Women's Glee Club.

Band, Orchestra, Cap and Dagger, Orchestra, and Theta Alpha Phi, the dramatic honorary. The Board of Directors selects the musical, picks the directors, and does the general planning. Anyone who works on a production itself automatically becomes a member of the organization.

If you answered "No" to all questions, you obviously smoke Camels—a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. Nothing else tastes as rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco gives you the best smoke. Try Camels and you'll agree!

Have a real cigarette—have a **Camel**

New York's Broadway Life Depicted in Guys and Dolls

Tonight marks the opening of "Guys and Dolls", a colorful comedy based on New York life which is centered on Broadway. According to Mr. Powers, the show has "one of the finest all-around casts for a musical at Bucknell." Included in the cast is Peggy Beckman who plays the part of Sarah Brown, Sergeant of the Save-a-Soul Mission.

WHAT DO YOU SAY BUDDY ???

Men's Honorary Initiates Four Into Chapter

Four freshmen men were initiated into the local chapter of the Freshmen Men's Honorary, Phi Eta Sigma. They were Donald Allen Dewsbury, Ira Mark Brinn, Stephen Willard Smith, and John Hamilton Wilson, all of which had averages above 2.5.

William Hildreth, vice president of the local chapter, conducted the initiation ceremony. A banquet followed the ceremony at which Bill Hildreth gave a short talk on the proposed academic honor system. Dr. Kieft spoke briefly about the history of Phi Eta Sigma and congratulated the new initiates.

Psychology Meeting Scheduled For April

A meeting of the Eastern Psychology Association will take place on April 15-17 at which Dr. Wendell Smith, Dr. William J. Carr, and Dr. Harry Jacobs will read papers on their research investigations. Dr. Wendell Smith's paper is on the topic "Social Conditioning of domestic fowl".

Dr. William J. Carr's topic is "The effect of castration of the male rat upon olfactory sensitivity to estrous female urine". The Classification of Social Stimuli: social and non-social distraction in the albino rat" will be Dr. Harry Jacobs' topic.

Dr. Harry Jacobs is also at work this semester on a research paper for the Air Force. His place is being filled by Miss Dorothy Poster from the graduate faculty, New School of Social Research.

POL. SCI. DEPARTMENT TO HOLD ANNUAL MEET

The Political Science department is sending approximately 15 students to the annual meeting of the Inter-collegiate Conference of Government in Harrisburg, April 17-18. The majority of colleges and universities in Pennsylvania will be sending representatives to this conference which is a model Congress for the passing of bills. The meeting is open to all students but the Political Science department is sponsoring it.

At the same time, April 18-19, in Harrisburg, the Political Science Association will meet. Those attending will be the faculty members of the department. Dr. James A. Guthrie will be chairman of the nominating committee.

Dr. Charles A. Hollister has requested leave of absence for the second year to work in the Bureau of Municipalities of the Department of Interior in Harrisburg. The dean has granted him the leave.

Rifle Club Offers Safety Course

The Rifle Club announces the formation of a Hunter Safety Course to be held at the range on April 16 and 17 from 7 to 9 p. m. The course consists of a lecture, demonstration, and practical work. A color movie and film strips will be shown to illustrate hunting safety measures. Enrollment will be limited to fifty persons on a first come first served basis. Sign up now at the range during any weekday, 9:00-12:00 hours, or 1:30-3:30 hours.

The club also announces a basic pistol course which, however, will be limited to Rifle Club members only. Limited to 24 members, the course will last from 27 March to 27 May. All interested parties are most cordially invited to visit the range during the day or in the evening and inquire about membership in the Rifle Club, which, by the way, is open to everyone.

TOUCHE ANNOUNCES FINAL CASH CONTEST

The staff of Touche wishes to announce its final cash contest for the current school year.

Here are the details:

- I. Poetry Contest:
 1. May be any length.
 2. May be on any theme.
 3. Deadline: On or before Monday, April 21, 1958.
- II. Story Contest:
 1. Requirements:
 - A. Must be either truth or fiction.
 - B. Must be approximately 1500 words in length.
 - C. Deadline: On or before Monday, April 21, 1958.
 2. Submit all typewritten copy to one of the following:

Mayvayne Bunker	Box W-276
Jack Echar	SAE House
Dave Conroy	SAE House
 3. Cash prizes will be awarded separately for EACH contest.

1st prize	\$25
2nd prize	\$20
3rd prize	\$15
4th prize	\$5
 4. All material received becomes the property of Touche magazine.

Jeanne Thomas Honorary Sponsor Of Fifth Regiment

Lieutenant Thomas G. Seabourne, Pershing Rifles Advisor has received word that Jeanne Thomas has been elected Honorary Sponsor of the 5th Regiment. There are 12 Pershing Rifles Regiments, and this means that Jeanne is one of 12 girls from which the national sponsor will be chosen.

It is a great honor to be chosen regimental sponsor; for many schools have entered nominees. In the 5th Regiment there are 20 schools covering Pennsylvania, Maryland, District of Columbia, and Virginia. Included are such large schools as University of Maryland, Penn State, Pitt, Loyola, Johns Hopkins, Lehigh, Lafayette, and Villanova.

Jeanne is a native of Lancaster, Pennsylvania. Attending Dickinson College her freshman year, she transferred to Bucknell this year. While at Dickinson, she was Homecoming and Mayday Ball Queen. Here at Bucknell for a short time, she has already been a member of the Homecoming Court; and she has reigned as Queen of the Military Ball.

A member of Phi Beta Phi sorority, Jeanne is certainly an asset to Bucknell. When the national sponsor is chosen, she will speak on the topic "Free Will" on Sunday, April 22. The program will be preceded by an informal supper and a short women's service.

During the weekend of the 11th, 12th, and 13th, the Pennsylvania Methodist Student Movement is holding its annual convention at Penn State. The get-together of students from all Wesley Fellowships in Pennsylvania will be highlighted by discussions and social events.

DR. DROZIN TO SPEAK ON FREE WILL TOPIC

Dr. V. G. Drozin of the Bucknell faculty will speak on the topic "Free Will" on Sunday, April 22. The program will be preceded by an informal supper and a short women's service.

During the weekend of the 11th, 12th, and 13th, the Pennsylvania Methodist Student Movement is holding its annual convention at Penn State. The get-together of students from all Wesley Fellowships in Pennsylvania will be highlighted by discussions and social events.

Debate Team To Debate

The debate team of the Bucknell University will debate with Harvard University.

MSA REPORT TO STUDENTS

by Myron Sugerman, Secretary M. S. A.

On March 14, general elections were held for all male students to elect the House Executive Board and the Judicial Board of the Men's Student Assembly. In the eyes of many, school elections are merely popularity contests and fraternity political devices, and in reality have no significant value or importance. School government has been severely criticized in the past for over-emphasizing social popularity on campus and for promoting popularity-minded campus heroes, the Jimmy Walkers of the Bucknell scene. Perhaps, there might be validity in this criticism to some degree; however, the newly-elected members of the M.S.A. have a definite desire to accomplish determined goals which they have set for the following year. It will be the explicit purpose of this column to better inform and educate the male population of Bucknell as to the program of the M.S.A. for the 1958-1959 academic year.

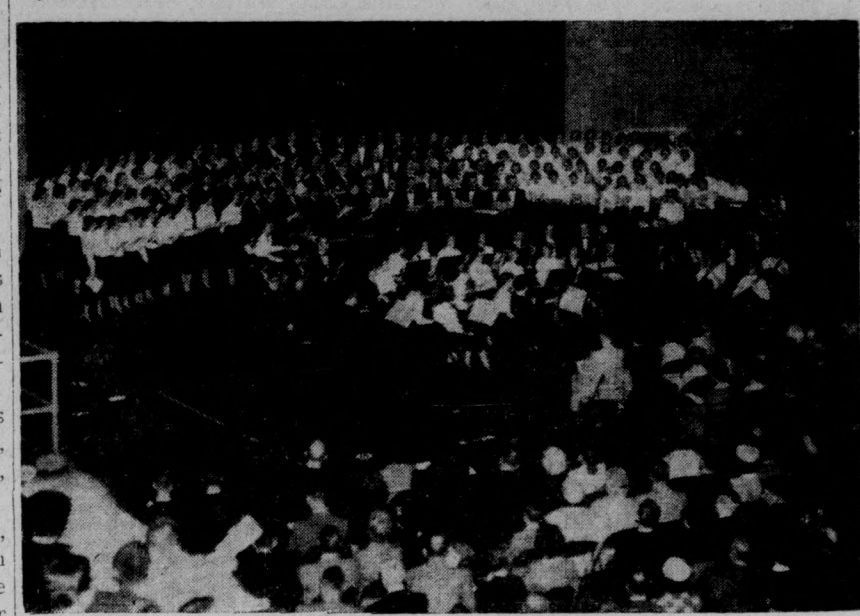

As defined in the Constitution, "the purpose of the M. S. A. is to coordinate the male students into a unified body; to further the common welfare and activities of men students; to act as a medium through which men's student opinion may be presented to the college authorities, and to initiate and carry out programs which promote the best interests of men students." In order to achieve this, the M. S. A. has been divided into three main bodies: the House of Representatives, the House Executive Board, and the Judicial Board. The House Executive Board is composed of Dick Hunk, president; Al Jackson, vice president; Myron Sugerman, secretary; and Bob Howell, treasurer. Along with these four men, two men will be elected from the floor of the house to serve in any capacity in which the president sees fit. In several informal meetings, a general outline has been proposed and many ideas are in the formative stage. In the very near future, a dinner will take place with civic leaders and police chiefs of local municipalities for the sole purpose of creating good relationships between the University and neighboring towns. Of course, consideration is being given to the annual social event that the M. S. A. sponsors each year. However, the primary purpose of the M. S. A. for the coming year will be to elevate the level of importance of the organization and to function properly as the representative system of the male student body.

The Judicial Board is a geometric representation of every class and it serves as a means of encouraging self-independence and development by allowing students to govern themselves in the problem of discipline. Under the Judiciary system, infractions of the law are reported to the Board for review and recommended action.

Throughout the 1958-1959 year, many issues will arise in which the M. S. A. will need your support. To strive without support, will be to function as a defunct organization; only through your suggestions and backing, will the M. S. A. be able to attain its goals.

FOURTH ANNUAL FESTIVAL OF MUSIC PROVES TO BE A GREAT SUCCESS

A large crowd was in attendance for the fourth annual Festival of Music, presented by the music department last Saturday evening in Davis Gymnasium.

MIXED CHORUS SINGS

Frosh Honorary Ribbon Fourteen

The freshman girls' scholastic honorary, Alpha Lambda Delta, recently ribboned fourteen new members with the colors, red, gold and white.

Thirteen of these girls attained a 2.5 average last semester while Marcia Mahan, the only sophomore in the group attained a 2.5 cumulative average last year. The new pledges are: Sally Fackler, Suzanne Friedman, Jacqueline Grill, Linda Harris, Joanne Harris, Eleanor Johnson, Nancy A. Jones, Jean Lambert, Marcia Mahan, Judith Marvin, Janet Powers, Anne Rutledge, Priscilla Teleky, and Mildred Weiterbach.

When they are initiated these girls will elect new officers to replace the present ones who include Carol Rogge, president; Sally Easley, secretary; Ellis L. Treaster, treasurer; and Jo Ziegler, historian. This year's junior advisor was Dawn Beatty.

S.F.C. Firesides Under Development

An outgrowth of a successful Freshman Fireside program led by Elaine Johnston and Howard Rudge, the concept of Student-Faculty Firesides, one of which was a novelty arrangement, "Skip to My Lou," with Joel Berger, doing the narrative; and their final number was the stirring "Onward, Ye Peoples" by Sibelius.

Nearly 300 students participated in the two-hour program, which featured five student musical organizations.

The first organizational Fireside was held Monday evening, March 10, at the home of Dr. James Guthrie, chairman of the political science department, and his wife, with a diverse group of 20 students in attendance. The group was in favor of the Student-Faculty Firesides and decided to meet weekly at the Guthries' home on Thursday evenings from 8 to 9 o'clock.

In addition to the original purpose, this nucleus emphasized the value of exchanging views with people who differ in interests, and stressed that (Continued on Page 8)

FLORIDA BOUND!! KEEP IT DOWN

With the approach of the college spring vacation season, it would be appreciated if you would bring some pertinent information to the attention of those in your student body who plan to spend their vacation in Florida.

We estimate that over ten thousand students from more than 70 colleges and universities will visit Fort Lauderdale during their spring vacation. We also anticipate that many of our winter tourists and visitors will remain in the city until the (Continued on Page 8)

The program was opened with selections by the Women's Glee Club, under the direction of Mr. Allen W. Plock, associate professor of music. Among their selections were "Gloria Patri" by Palestrina, "Were You There," in which Miss Phyllis Gersbach was the soprano soloist, and "The Woodchuck Song," a novelty number arranged by Miss Carole Faust, the student conductor of the group. Mr. Plock also directed the symphonic band, which presented five numbers, including their final number, "Holiday for Winds," which seemed to be the selection most enjoyed by the audience.

The Men's Glee Club, with Mr. Jack S. Crim, assistant professor of music, directed, rendered four numbers, concluding with Gershwin's "I Got Plenty O' Nuttin'." From "Porgy and Bess," Mr. William McRae, the chairman of the music department, then led the chapel choir in three impressive religious numbers, among which was "I Will Lift Mine Eyes Unto the Hills," written by Mr. McRae, in which Miss Sandra Renninger, a senior, was the soloist. Following the symphonic orchestra, conducted by Mr. Lindsey Merrill, presented "Symphony No. 2, Opus 30," by Howard Hanson.

The effective finale, conducted by Mr. Crim, was performed by the three choirs accompanied by the orchestra. They presented four selections, one of which was a novelty arrangement, "Skip to My Lou," with Joel Berger, doing the narrative; and their final number was the stirring "Onward, Ye Peoples" by Sibelius.

Nearly 300 students participated in the two-hour program, which featured five student musical organizations.

Touche On Sale Now!

The March issue of Touche magazine will be on sale Thursday, March 27.

The fair is open to students in the ninth grade through the twelfth grades from 12 counties in central Pennsylvania, most of which will be represented by at least one or two high schools. The number of applicants from each high school is unlimited. Although requests have been received for 1300 to 1400 exhibits, little over half of these will enter competition.

The exhibits fall into five categories: life science (biology), physical sciences (chemistry and physics), engineering and electronics, general science (social sciences, mathematics, earth sciences), and a special category for all ninth grade students.

Thomas Jefferson became the first American amateur archaeologist when he excavated an Indian mound in the banks of the Rivanna River in 1764.

Pretty Weak Show . . .

"The American College Dictionary, Edited by Charles Barnhart with the assistance of 355 Authorities and Specialists," gives the following definitions for the word conformity: "1. Correspondence in form or character; agreement, congruity or accordance. 2. Compliance or acquiescence."

For the present, however, in an atmosphere of growing and changing intellects, each of these definitions represents something distinctly unhealthy, and, above all, completely unchallenging. Except for cases in which the morally right thing to do and way to live are involved, "correspondence in form or character," "agreement, congruity or accordance," and "compliance or acquiescence" seem to represent the lazy man's way of doing things. This attitude does NOT refer to compliance with, and obedience to, rules and regulations set up by families, institutions of which we may be a part, or laws which society sets up for the good and protection of everyone. So long as these are just laws in the eyes of the sound, qualified men and women directly and indirectly responsible for their creation, it is the duty of everyone to obey them.

But consider society's fickle and frivolous side. Also consider, if you will, the silly, foppish ideas and mores bored of society's trends. Certainly, many of these trends especially in fashions, are created by manufacturers and their "idea men" to make money. Some other trends are established by cliques and formal organizations for want of more intelligent activity. Many sorts of groups and their pressures go into the making of trends and fads. But something more silly and more dangerous makes up the other half of the picture: someone gullible and stagnant falls for the trend every time. That SOMETHING is conformity, and that SOMEONE is the conformist.

If you could see the closet or dresser where the clothes of a strict, present-day, collegiate conformist are kept, you could identify it readily. It is full of clothes never worn because they are buckle-less in the back or the collars only button down in two places instead of including the meaningless third button. It may sound silly, but this does represent a danger. The type of thinking at fault in these closets is widespread. It indicates a system of false and stupidly following values. These values belong to people who would rather follow the leader than go anywhere intellectually on their own. People who are learning to live with each other in a half-way decent manner someday are not even thinking of the use they will have to make of the English language. They just plod through their buckle-in-the-back, golf-cap, tennis-shoe, "how-bad-is-that," "big," "strong-shoe," "cool," "sweet," empty lives day after day, man. Can you imagine asking your boss how bad that is when he tells you what has to be done? Can you imagine what it would cost you, when nobody is paying your bills for you any longer, to keep up with every new double-vent, single-vent, extra-button fad when you've shuffled off this collegiate coil? The answer to this part is simple. Fads are fun. So is high school. But shortly after the twelfth grade they're asinine. Simple, intelligent, good taste needs no sewn-on or cut-up gadgetry. And good taste will never be replaced by all the buckles and buttons in the world.

The same applies to learning how to talk again, which some of us really need. But the actual thinking is the difficult part to repair. Conformity as it is meant here, is as it is seen on campuses and in many business areas. It is stagnation and stupidity. If it keeps up we'll all look alike in a thousand years and probably suffer millions of collisions every day, since we'll not only talk alike as we do now, but we'll bump into each other trying to act according to the same thoughts. What on earth is so terrifying about being ourselves? Or don't we have any selves?

—E. H.

UNIVERSITY OFFERS SCHOLARSHIP FORMS

Undergraduate students not now holding scholarships or grants-in-aid from the University who wish to apply for financial aid for the next academic year should obtain application forms immediately from Mr. Walling, the secretary of the committee on Scholarship and Student Aid. The completed forms must be filed in Mr. Walling's office not later than April 1. Notification of awards will be made by the first of May.

Undergraduates who now hold scholarships or grants-in-aid from the University are required to file an application for renewal if they wish their present aid to be continued next year. Forms will be available in Mr. Walling's office after March 24 and must be filed in his office between April 20 and May 1.

READ THE Bucknellian

Conroy's Corner

In some respects, the world of business is a peculiar world, and some of its inhabitants, the businessmen, are even more peculiar.

A few areas of the business world can be described as chess games, and our particular businessman is a player in one of these games. His opponent, directly across the chessboard from him, is another businessman—his competitor in the firm where our player works. The competitor is an obstacle—something he must get by somehow, in order to win this particular match. And he faces several similar opponents, though of greater ability and intelligence, in every match he subsequently plays in this peculiar "tournament." Every day he must face a "stiffer" and more capable opponent; every match is a trial to see just how quickly our businessman can think.

The chessmen in the game are a motley assortment of people, who our players play against each other, before they can capture the king (the Almighty Dollar). Our businessman must know how to handle his rooks (pawns of the "boss", where our player works), must have his knights (family; but it's well worth it—his kings (dollars) are piling up. Gradually he becomes more independent, financially; if he has enough kings, he doesn't have to answer to anyone. He's gaining more control of the situation now. He doesn't need anything or anybody, as long as he's doing well at the office. He's winning his game.

Or is he? Is he really the player, "running the show," gradually becoming more invaluable in his business concern? Or is he rather becoming involved in a game gigantic, all-encompassing game, in which he isn't calling the plays, but rather is being used as the pawn by a more powerful Player, in a game far too complex for him to understand? And while he is conquering opponent after opponent, is he being laughed at by a more brilliant player, who realizes that the King will never be captured—that at any minute may upset the entire chessboard, and force everyone to begin all over again.

True, the businessman has painted a pretty picture of life for himself. A new house, his beloved car, no one may have whatever money can buy are playing in the yard, and the "right" friends are enjoying cocktails on the terrace. Indeed, this oil portrait again, the best money can buy is the physical realization of all his efforts.

But then he takes a few steps backward to gain a better perspective of the portrait, and the whole situation looks different to him. He sees an empty, cold house. The children playing on the lawn don't really know their father; he's spent too much time painting the portrait. And the "friends" on the terrace have artificial expressions on their faces, as if they are using him somehow to further their own particular interests. The beautiful portrait vanishes, and all he has left is an obnoxious mixture of artificial colors, splashed together with no particular design, and composition, creating no real meaning. This painting, his prize possession, begotten

Letters to the Editor

Dear Editor via Dean Hayward:

We wanted to take this opportunity to express the Borough's appreciation for the cooperation extended through us to Mr. Donald Walters, Chief of the Lewisburg Fire Department, by both you and Dean Meyer after the fire on Saturday afternoon at the Kappa Delta Rho house on South Sixth Street.

The inspection of all of the other fraternity houses proved to be most fruitful—for us, insofar as fire prevention was concerned and for the student members, for it brought home to each one the danger lurking in each of the houses because of the decorations.

The inspection again made me realize what a wonderful body of students you have at Bucknell. The emphasis that the faculty has placed on public service and cooperation with local authorities is deserving of the thanks of all of us.

The sense of public service that you all at Bucknell have instilled in the students could not have been emphasized more than in our recent population "head count", in which so many students untingly gave of their time and energy to help this office.

You would be doing this office a tremendous favor if you would thank each of the students who helped in the "head count" for us. It could never have been completed without their assistance. Our appreciation, though it has been so lately expressed, is none the less.

We would also appreciate your informing each of the fraternity house officials, with whom was discussed the dangerous and hazardous manner in which the house had been decorated, of our appreciation of their cooperation in seeing that they were removed before "the moon was high."

It is our hope that the spirit of cooperation and coexistence now existing between the Borough and Bucknell man who can give some constructive advice to us Sem Gens might be able to do a lot of good and get the ball rolling toward solving an old "problem."

(Continued on page 8)

through his ability to play the chess game, is empty, barren, and worthless. Now he wants to try some other game, and play under an entirely different set of rules—but then, it's too late to back out of this chess game; he's been too "successful."

Dear Editor:

Lately there has been a big move to "dump on Sem Gens." To most of the female population of Bucknell this has been a bit disturbing. I am not the one to say if this is wrong or right, I am merely asking what it's all about. When I asked some Bucknell men what the definition of a Sem Gen is, they said it is a hard term to define, but I did get this much of a reply, "There is as much difference between a girl and a Sem Gen as there is between a girl and a woman." Okay, that's a start, but I still want to know more.

There is definitely something wrong, but what it is I don't know. Maybe if we females were given a clue, it would help us correct our errors. No one is perfect, but Sem Gens seem to be looked on as the epitome of imperfection.

I am writing this letter with the hope of getting some kind of reaction—good, bad, or indifferent. We Sem Gens need help from all reports we seem to need a lot of it. Who then is more qualified to give us this help than the people who think we need it? The men of Bucknell complain about us, but maybe if they helped us by telling us what it is that irritates them, we might be able to become women in their eyes rather than Sem Gens.

The person I wish would answer this letter is Dave Conroy. Dave, in my opinion is one of the best writers on the Bucknellian staff. He has his ideas and is not afraid to present them. They are direct, and the reader is not left up in the air about Mr. Conroy's opinions. He is one of the few people on this campus who can really stimulate the interest of everyone.

However, any Bucknell man who can give some constructive advice to us Sem Gens might be able to do a lot of good and get the ball rolling toward solving an old "problem."

(Continued on page 8)

Journals To Publish Levenspiel's Articles

Dr. Octave Levenspiel, associate professor of chemical engineering at Bucknell University, has written two articles scheduled for publication in the March issue of two leading technical journals.

The journals are *Industrial and Engineering Chemistry*, publication of the American Chemical Society, and *Petroleum Refiner*, issued by the Gulf Publishing Company for the petroleum industry.

The first article, written for *Industrial and Engineering Chemistry*, is a report of a theoretical study which correlates all available information and literature on the subject of the mixing of fluids in pipes, plus basic information added in the field of hydrodynamics.

The article will be of interest primarily to the pipe line industry and to the designers of chemical reactors. "How Much Mixing Occurs in a Pipe" is the title of the article prepared for *Petroleum Refiner*. A technical feature, this is a presentation of one of the applications of the general theory as outlined by Dr. Levenspiel.

When products are moved around a refinery, one line can be used to handle a variety of materials, Dr. Levenspiel explains. These materials are transported successively and switching from one to another forms a zone of contamination between the two.

Included in the article are charts to predict the contamination which will exist if two fluids are pumped successively through the same transfer line.

Seniors Choose Alumni Officers

At the Senior Class meeting scheduled for tonight in the Sports Auditorium at 7:30 p. m., "Back Shot" alumni secretary, will outline for the class the activities and describe the organization required to properly carry on the affairs of the group after graduation.

Terry Fetterman, class president, has announced the appointment of a nominating committee to select candidates as alumni officers of the class. The committee consists of Tony Falconieri, Dick White, Pete Clow, Whitney Myers, Ann Sattler, Ann Pfeiffer and Betsy Bean.

The nominating committee will meet in the near future to select candidates for the various alumni offices. The posts to be filled at a class-wide election later are president, vice president, secretary, and treasurer. In order to carry on class reunions and other activities, a class reporter, a class fund manager, and a chairman of a large reunion committee also will be elected, plus area reunion chairmen to promote class activities in New York, Philadelphia, Pittsburgh and other sections of alumni concentration.

Miller Addresses April 16 Chapel

DR. SAMUEL HOWARD MILLER

Dr. Samuel Howard Miller of Cambridge, Massachusetts, will be the guest speaker in Chapel on April 16. His topic will be "The Difficulty of Being Religious." Dr. Miller, who was born in Philadelphia, received his education in South Jersey schools, and his B. T. H. degree and the honorary degree of Doctor of Divinity from Colgate University.

He has held three pastorates in New Jersey and presently is minister of the Old Cambridge Baptist Church, Cambridge, Mass. In addition to his pastoral work, he is now Adjunct Professor of Theology at Andover Newton Theological School and Lecturer in Pastoral Theology at the Harvard Divinity School.

Dr. Miller is also author of four books: "The Life of the Soul," "The Life of the Church," "The Great Realities," and "Prayers for Daily Use," all published by Harper and Brothers.

Dr. Miller is also a member of the editorial board of *The Journal of Pastoral Care* and Secretary of the Department of Worship and the Office of the National Council of Churches of Christ in America.

Ari Prof. To Judge Water Color Show

Blanchard S. Gummo, professor of art at Bucknell University, will serve on the Jury of Selection and Award for the Fifty-Third Annual Exhibition of Water Colors to be held next month by the Baltimore Water Color Club.

The exhibition will be on display in the Baltimore Museum of Art from April 15 through May 11 and will consist of original works never before shown publicly in Baltimore. Professor Gummo and two other judges will select the winners of seven awards which will be made to the exhibiting artists.

LOST—One green and white six-footer scarf. If found please call Jackson 5-4700.

Henderson Collection Appears In Library

The J. Welles Henderson Collection on "the port of Philadelphia" which is currently on display at Bucknell University, was developed by Mr. Henderson after he was unable to locate a history of the maritime activities of Philadelphia.

Speaking at the opening of the exhibit in the Ellen Clarke Beffand Library Sunday afternoon, Mr. Henderson outlined the factors which led to the development of the famous port and cited the important role which Philadelphia continues to play as the nation's number one import cities.

His talk, which was presented under the auspices of the Friends of the Bucknell Library, was followed by reception in the Library's Treasure Room.

The Henderson Collection, which will be on display for the next month, includes more than 150 oil paintings, prints, manuscripts, and other mementoes illustrating the history of the port.

The most famous picture in the collection is an oil painting of the Philadelphia Harbor painted in 1840 by Thomas Birch, noted marine artist. The painting shows the port of Philadelphia and two historic ships, the *Ship-of-the-line*, "Pennsylvania", and the Steamboat "Robert Morris".

The collection, described as the finest in private hands today, presents the port through three centuries of its history and represents more than a decade of research by Mr. Henderson to locate and obtain the various items which it comprises.

An admiralty lawyer, Mr. Henderson is associated with the Philadelphia firm of Rawle and Henderson. His father, the late Dr. Joseph W. Henderson, chairman of the Law- yer's Board of Trustees, was a member of the same firm for more than twenty years prior to his death last summer.

Freshman Class Meeting

There will be a Freshman Class meeting on Thursday, March 27, at 7:00 o'clock in the Sports Auditorium. Nominations will be made for class officers.

Applications Due For Med Exams

Students seeking admission to medical colleges in September, 1959, are now urged to file applications for the necessary examination given by the Educational Testing Service.

The series, consisting of tests of general scholastic ability and of achievement tests in science and in modern society, will be administered on May 3, here at Bucknell. The deadline for the submission of applications is April 19; thus, all those interested should see their advisors immediately.

A ten-dollar fee is required, which will enable the service to report the individual scores to recognized schools of medicine, dentistry, pharmacy, nursing and certain other approved professional schools.

DR. SAUVAIN ATTENDS EDUCATOR'S MEETING

Dr. Walter H. Sauvain, professor of education at Bucknell University, went to Harrisburg March 21 for the 35th annual meeting of the Pennsylvania Association of Liberal Arts Colleges for the Advancement of Teaching of which he is the president.

The Association met on Friday and Saturday at the Hotel Harrisburg, according to the program announced by Dr. Sauvain today.

Friday afternoon's session was devoted to a discussion of "The Junior College and General Education," with representatives from nine junior colleges serving on the panel.

Dr. Sauvain presided at a dinner meeting Saturday evening, when the speaker was Dr. Earl J. McGarh, former U. S. Commissioner of Education and now director of the Institute for Higher Studies at Teachers College, Columbia University.

The Saturday morning program featured presentations of home economics and general education by Miss V. Vivian Crow of the Carnegie Institute of Technology and Mrs. Fred P. Morro of the Philadelphia public schools.

Language Departments Urge Women Students To Reside In Houses

The French and Spanish Departments would like to remind the women students of the opportunity afforded by the language houses on campus. The French House and the Spanish House each has a director from the country where the language is spoken. Any girl who is majoring in French or Spanish is required to live at least one year in the French or Spanish House. Any girl who is taking a double major is advised to live in one house the sophomore year and the other the junior year.

Majors are urged to spend as many years as possible in the houses in order to perfect their use of the language and to become acquainted with the directors. Other students who are interested may also live in the houses whenever there is space available, priority always being given to those majoring in the language. Contact Mrs. Gladys Cook, chairman of the French department, or Miss Beatrice Gonzalez, professor in the Spanish department.

College Qualification Test

The deadline date to make application for the College Qualification Test, to be given May 1, is no later than midnight of April 11, 1958. All men who have not already taken the test or who have not made application to do so, whether in ROTC or not, should bear this date in mind. The test is one of the two criteria by which Draft Boards can judge a student's worthiness of referral to continue his university studies, undergraduate or graduate.

"A company that plans far ahead gives me the chance to work out my future"

"Pleasing design is no accident," says 32-year-old TV set designer Richard Montmeat. "It takes creative planning. At General Electric, we're constantly developing new product designs—including some for products which won't be on the market for several years. Ever since joining General Electric, I've had the opportunity and challenge of working toward the designs of the future. As I see it, a company which plans ahead gives me the chance to work out my own future, too."

The creative accomplishments of Richard Montmeat have already brought him widespread recognition. He was awarded design patents in 1950 and 1955; he won the Industrial Designers Institute Award in 1955; and his design for the 1958 General Electric 17-inch portable television receiver was selected for showing in an international design exposition in Milan, Italy.

Progress in pleasing design—making appliances more enjoyable to own and use—is an important factor in our nation's growing use of electricity and in our constantly rising level of living. Planning now to satisfy future customers is important not only to the continued growth of the electrical industry, but to individual progress as well. Opportunity for long-range planning is part of the climate for self-development which is provided for General Electric's more than 29,000 college-graduate employees.

Progress Is Our Most Important Product

GENERAL ELECTRIC

Along the Bison Trail

Sports Editor, Stratton White

The 1958 Intramural Boxing Tournament swings into the final round with the Kappa Sigs favored to take home their third consecutive trophy. They will send three men into the ring and two of them will be crowned champions.

The D U's are fighting very hard for first place but I don't think they will make it. They also are sending three men into the finals, but only one of them will be crowned champion.

The SAE's, with only two men going into the finals have just about clinched third place. I also feel that their two boys will win championship. This is my personal opinion, and I may be going over my head in these predictions, but if the Demies win they will receive the last laugh.

Monday night saw some very exciting and some very dull fights. The tournament opened up with a very hard fought contest, in the 130 lb. class, between Chuck Wendel (SAE) and Ken Wightman (DU). Wendel won the first two rounds, but ran out of steam and lost the match in the third round to a very tough Wightman.

In the 145 lb. class Bill Hayes (SX) and Emile Elinski (KS) went at it toe for toe for three rounds, but Elinski emerged the victor in a very close decision. It was disputed by some of the spectators, but I think that it was a just verdict. Also in the 145 lb. class, Jim Brown (SAB) boxed beautifully and easily in winning a decision over Lee Steininger (TGD). Then Tuesday night Brown went into the ring against a shorter, stronger, but slower John Ayre (DU). Brown boxed beautifully, and I think that I am qualified to say that a good boxer is a counter-puncher. Ayre stabbed while Brown moved away behind left jabs and hooks, and sneak right and left to the jaw, but Ayre was on his feet before a count was registered. Brown without doubt won the first two rounds and lost the third by a close margin. But two out of the three judges gave Ayre all three rounds while the other judge gave Brown the decision. Why am I mad? Because the two judges who voted against Brown's boxing exhibition were two beings picked at random because the other judges, who usually officiate, did not show up.

In my estimation they know as much about boxing as do the people who inhabit the moon. Another very exciting fight on Monday night pitted Bill Scott (LCA) and Ken Heinze (TC) against each other in what turned out to be a real "Donnybrook." I do not know what Heinze is made of, but he is tough. He took Scott's best shots and just kept shuffling forward throwing right hand bombs that were Scotty down to a frazzle.

At Jackson (KS) and Barry Sellers (PKP) staged a battle that had the fans on their feet for three rounds. Sellers piled up a slight lead in the first two rounds, but Jackson's conditioning proved to be the deciding factor as he came on strong in the third round to win the decision.

In the Heavyweight class, Chuck Wagner (SX), the man of steel, threw his only punch which was a looping right hand, at Mike Goldstein (SAM), but failed to make any impression on his bigger opponent. The tide changed, midway in the second, when Goldstein began to land hard rights on the relatively helpless but gallant Wagner. In the third round the crowd stood on its feet as the dark horse staggered Wagner from corner to corner, but the smaller man had only one thing in mind and that was to stay on his feet. That he did!

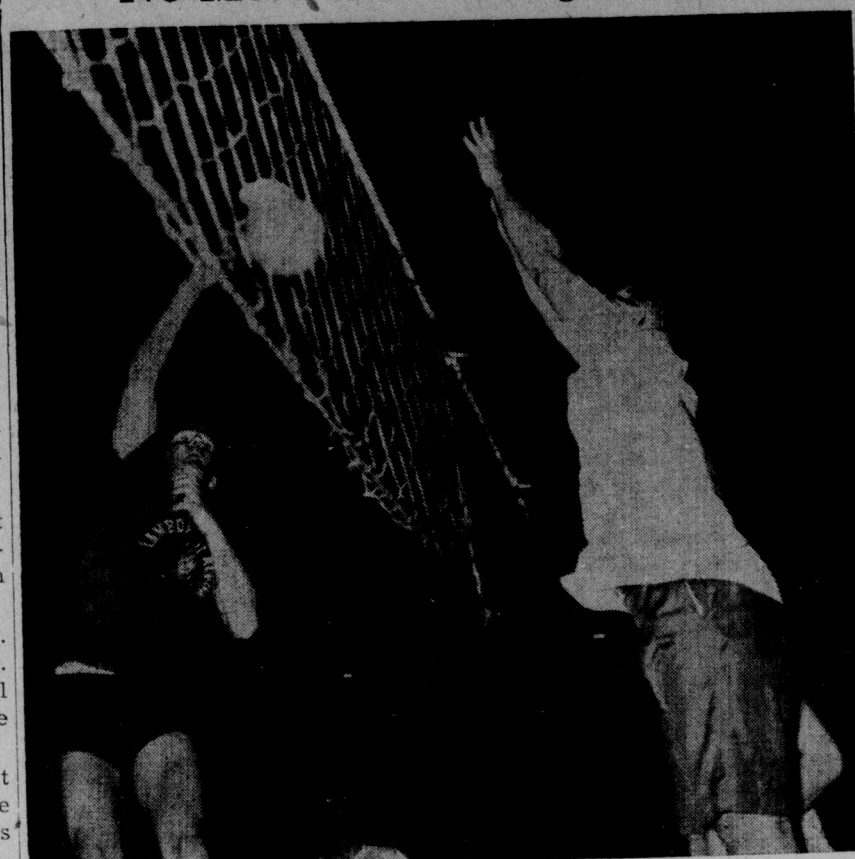

In the semi-finals last night Kauffman (DU) battled Fiester (KS), his smaller opponent, for three rounds to win a decision in the 125 lb. class. In the final tonight, Tony Intretn of (SAE) will defeat Kauffman to become the 125 lb. champion.

Jim Brubaker (KS) outboxed and outlasted a very game Ken Wightman in the 130 lb. class. Brubaker will defeat Coschignanno (SPE) easily to become the 130 lb. champion. This will be the second straight championship. Stu Price (LCA) outboxed Ron Rebetz (KS) while an over anxious Frank Bingham missed too many punches in Koning Pete Rounds (SC).

However, I will have to give Bingham the edge against a very sharp Price. In the 145 lb. division Al Bogar (PLT), backpeddling, jabbing and throwing sneak rights at a very aggressive Emile Elinski (KS), gained a decision that I was rather surprised at. In the same class John Ayre (DU) stalked and bombed Bob Bartlett (LCA) to win easily. I am going out on a limb to say that Ayre will be the new 145 lb. champion.

Pete Fritts at 155 lbs. stopped Roger Boldt (DU) in the third round for the right to meet Ken Heinze, the toughest man by far that Fritts has ever met. I will pick Heinze in a battle that may not go the distance.

No More Shall They Reign

That is what Bill Sponaugle (PKP) is telling Peyton McDonald (LCA) as the latter attempts to spike one past Sponaugle.

PHI PSI'S UPSET LCA

by Clem Schaefer

On Tuesday night, Phi Kappa Psi upset defending champion Lambda Chi Alpha in the volleyball finals, 3 games to 2. In knocking off the favorite, underdog Phi Psi avenged an earlier defeat at the hands of Lambda Chi in regular season play.

When the regular season ended, Phi Psi was given about as much hope as one of Conroy's articles in the Sem. Locked in a three-way tie for second place, they beat Sigma Alpha Mu to gain a semi-final berth. Here they continued their

winning ways by licking undefeated Phi Gamma Delta, the first place representative of League B. Lambda Chi, as expected, gained a place in the finals by defeating Kappa Sigma, the second place representative of League B.

By winning volleyball Phi Psi has strongly moved into contention in the overall intramural race. For they are expected to be tough in the spring sports, especially softball, which they won last year.

—DRIVE CAREFULLY—

In the 165 lb. class Ben Haggard (SC) pounded out a one-sided decision over Chuck Ernst (DU). Haggard is the underdog against Al Jackson to night. Bill Emery (SPE) decisioned John Wilson (PLT) for the right to meet Tony Rinaldo (SAE) who won a gruelling decision over Ollie Maypole (KS). Rinaldo will defeat Emery in the finals of the 175 lb. class.

Heavyweight Mike Goldstein pounded out an easy decision over Dennis Runey (UKP) and will meet Jack Zachus (DU), the defender of Dennis Cox (KS). Goldstein will be the heavyweight champion of BU for 1958. These are my predictions. / I am wrong I will eat my words with a great big smile.

Bucknell Nine Getting Ready For Opener

by Dick Whitney

With only two short weeks remaining before the opening of Penn State, coach Ron Oberlin is in the process of finding a winning combination for the 1958 season.

Need Help in Pitching

Returning varsity performers are numerous, but the Bisons need help in the pitching department where only senior Fred MacDonald returns.

Help is expected from sophomores Dick Thomas, Tommy Thompson, and Herb Pecht, the only left-handers on the squad. Along with them are senior Bill Walasek, Stu Wrigley, last year's starting catcher and junior Frank Moore.

With Wrigley either pitching or playing the outfield, the catching department will be handled by Larry Shapiro, a junior, and Frank Regan, a sophomore.

Infield of Lettermen

Pending any new developments, the returning lettermen will fill most of the infield positions. Captain Jack Brothers, a 271 hitter last year, is at shortstop, along with sophomore Tony Consentino, who has been very impressive in early drills.

Success Depends on Sophs

Success will mainly depend on the sophomores who are filling in the gaps hit by graduation. The hope is that the hitting will improve over last year and that a few young pitchers can be found to help improve last year's 8-8 record.

With the graduation of Bob Beck (5-6) the nucleus of the pitching staff will be young, and the feeling is that an improved hitting team is necessary.

FEATURE ON BOB KEEGAN

by Bill Scott

Early in the 1953 baseball season the Chicago White Sox called on a 32 year old pitcher to relieve starting pitcher Gene Bearden in a game against the Detroit Tigers. The pitcher, Bob Keegan, a student at Bucknell from 1941-1943, had waited 12 years for this opportunity. The New York Yankees had signed this infield star at Bucknell following his military service in 1945 after keeping a watchful eye on him during his collegiate career. Finally in 1953 Keegan got his chance and he held the Tigers to two singles while winning his first major league game, 3 to 2.

Keegan was born in Rochester, N. Y., where he attended John Marshall High School. Following his graduation Bob worked at Eastman Kodak where he played semi-pro baseball. The Yankee scouts saw Keegan and they invited him to their training camp. Keegan decided that he wanted to enroll at Bucknell.

During 1941-1942 Keegan played various spots in the Bucknell infield but the New York scouts informed him that his best chance in baseball was in the pitching spot. Following the 1943 season Keegan entered the Army for three years.

His military service over, Bob made his delayed professional debut in 1946 with Binghamton, N. Y., in the Eastern League. Two successful minor league seasons brought him a tryout with the Yankees but this proved unsuccessful when the Yankee regulars hit him very hard during Spring training. This led to eight frustrating years in the minor leagues when Keegan was not good enough to make a place for himself with the Yankees.

In 1953 the Chicago White Sox bought Keegan from the Yankees and this was the beginning of his successful five year career with the White Sox. In 1953 Keegan had a 7-3 record while in 1954 Keegan became a big winner with a 16-9 record and a 3.09 earned run average. Since that time he has been one of the starting pitchers on the White Sox staff.

During the 1957 season Keegan clinched his baseball career by pitching the only no-hit game in the major leagues. In this effort Keegan beat the Washington Senators, 6-0, in a masterpiece which was highlighted by the fact that only two Senators reached base.

Steiner High For Frosh

Joe Steiner, 6-5 center from Punxsutawney, paced Bucknell's freshman basketball team in scoring during the recently concluded campaign with 215 points, an average of 17.9 per game. Lou Slife, the Bisons' slick basketball operator from Dayton, Ohio, followed with 208 markers, for a 17.3 average. The Steiner-Sliffe combination sparked Ed Pfeiffer's Baby Bisons to nine victories in 12 contests.

W. R. A. Managers Chosen

Managers for W. R. A. spring sports have been chosen. They are: tennis, Chris Peterson; badminton, Bonnie Steele; and softball, Pat DuVernet and Jo Ziegler. Softball practices will begin on April 10, the first Thursday after vacation.

Spring Sports Need Managers

Varsity Football—Assistants from the junior and sophomore classes.

Varsity Soccer—Assistant managers.

Varsity Basketball—Head manager and assistants from junior and sophomore classes.

Varsity Wrestling—Head manager and assistants from junior and sophomore classes.

Varsity Swimming—Assistant managers.

Varsity Baseball—Head manager and assistants from junior and sophomore classes.

Varsity Tennis—Assistant Managers.

All those interested in the program, please sign up at the Athletic Office, Davis Gym.

The President of the Interfraternity Council and the Director of Athletics are in the process of selecting an appropriate trophy for the winner.

REGULATIONS—

1. Fraternity with the highest percentage of member participation will be awarded the Intercollegiate Manager Trophy at the Fall Convocation and will keep it in their possession for the full year. Fraternity winning the trophy three times will gain permanent possession, and the Intercollegiate Department will purchase a new trophy. Total points earned by fraternity for the college year will be divided by the average membership of the fraternity for the year to decide the winner.

2. Fraternity Membership—Take the active membership of each fraternity on the last day of classes each semester, add the figures for the two semesters and divide by two to strike the average membership to use as the figure to compute the percentage of participation for the year.

3. Points Awarded—Head Varsity Intercollegiate Manager—10 points. Assistant Manager for Varsity and Freshman Sports—8 points. Freshman participating as Managers—3 points. (Fraternity gets credit for any points a pledge earned any time during the current year. Manager must complete the sport season to receive credit for participation.)

4. All varsity and freshman sports will be included; spring football will be counted as an additional season with half points awarded for the short season.

Sign up at the Athletic Office, Davis Gymnasium.

BOUGH'S AT BUCKNELL
LEWISBURG, PA.

Letter to Sports Editor

Dear Sports Editor:

Officiating of Intramural contests has been the main topic of discussion in both State and National Physical Education and Intramural conventions, but as yet they have not found the answer.

Paying officials is not the solution. Colleges pay officials good money to officiate intercollegiate basketball and other sports, but still the spectators at times are ready to lynch the man with the whistle.

Intramural basketball officials who are paid (not much) have come to me after a game and refused to officiate again because of the abuse they have been subjected to by fraternity teams—especially by the losing team.

In soccer we need six officials, two to a game, and in basketball we need four officials, two to a game. I have spent the entire noon hour calling fraternities for officials in these sports, and then at game time someone from the crowd has to be pressed into service because the appointed official did not show up.

In volleyball we need twelve officials and in softball we need ten officials each time the fraternities play intramurals. If it is almost impossible to line up four to six officials for basketball and soccer, how are we going to line up ten and twelve men for softball and volleyball?

You may rest assured that I would like to find the solution to the problem of officiating Intramural contests. Our situation can be improved if we get the cooperation of all groups concerned. When the fraternities make up their minds to take it upon themselves to send out their best officials, not pledges, for each contest and contestants and spectators accept the decisions of the officials, then intramural officiating may improve.

S. J. "Bus" Blum,

Supervisor of Intramurals

All men out for freshman or varsity tennis, baseball, track, and golf are ineligible for intramural sports from the first scheduled freshman or varsity meet.

In intramural golf the first round will be completed by April 28.

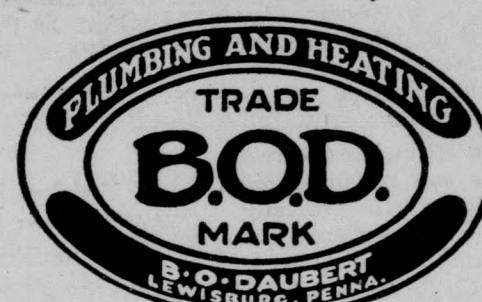

Intramural track meet will be on April 21 and 22. In case of rain the meet will be held on April 24.

Sticklers!

WHAT IS A MAN WHO BLOWS SMOKE RINGS?
(SEE PARAGRAPH BELOW)

SMOKE RINGS come in all shapes and sizes. Like 4-sided smoke rings for squares. Sturdy smoke rings for windy days. Even invisible smoke rings for people who aren't ostentatious. As any competent smoke ringer (Vapor Shaper in Sticklers!) will tell you, the best way to start one is to light up a Lucky. It's best mostly because a Lucky tastes best. A Lucky gives you naturally light, wonderfully good-tasting tobacco, toasted to taste even better. Why settle for less? You'll say a light smoke's the right smoke for you!

DON'T JUST STAND THERE...
STICKLE! MAKE \$25

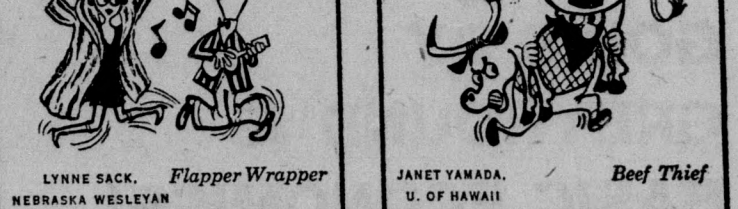

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

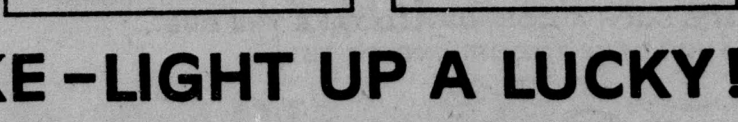

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

POOR UPBRINGING BREEDS BUCKNELLIAN

by Diane Collins

Dear Parents: The University expects to inform you that your son and daughter are among the cheaters living on this campus. By this letter we are trying to understand why the youth of America has lost sight of the honorable way of life.

Did this propensity to plagiarize result from your mishandling and improper training? Did you, for example, ever brag openly about how you "outscored" the local and federal government on your last income tax returns? And you, as the woman of the house, have you given illegal excuses to the public schools as to the absence of your children? Have you ever taken out library books without signing for them? Have you both failed to return extra change mistakenly given to you by the grocers, newspapermen, or sales clerks? Have you as a parent set an example of desirable honesty for your children, or is honesty only for "goodies"?

Are your children lacking in pride and self esteem because of your guidance? The essence of cheating is admitting to everyone around that they are too stupid to do college level work. It means they are strictly high school material. It means they have to rely on someone else to get you through college. It means that you have no pride.

Yes, cheaters are stupid! They do not, we hope, constitute the "Intelligencia" of the University. For this reason they are no asset to any system and therefore we are endeavoring to rid ourselves of this type of academic parasite.

Perhaps you don't realize that real wholesome, mass and unadulterated cheating exists on these "fratified 400 acres." Well, if you would like a sidewalk demonstration, here is what you do. Go to the Sociology building and stand on the path by the parking lot facing the back windows of the lean-to. There, free of charge, you may watch the future protectors of our land, the ROTC boys, display their morose cheating behavioral patterns. These men, pardon, these boys, are leaders! However, the University does not wish to become involved in a battle of the sexes. That would reduce all arguments to the mediocre. There are in various sciences, elementary education, and language courses almost equally astounding distaff dexterity in the methods of cheating. Somehow, the social science system does not extend naturally into academic honor.

Bucknell University does not exaggerate the situation at hand. We hope to enlighten you sufficiently as to the conditions and regret to inform you that your sons and daughters are hereby expelled forever from this University, this state, this nation and the intelligent way of life.

Sincerely yours,
Bucknell

Attention Seniors! Senior Class meeting, Thursday, March 27, in Spots Auditorium at 7:30 p. m. Discussion will pertain to the election of alumni officers and the selection of three seniors to represent the class as speakers in the Senior Recognition Chapel.

Behind The Mike

by Joel Berger

One of the most important people concerned with the problem of keeping us on the air is Dave Towson, our Technical Director. Dave, a 20-year-old junior from Baltimore is now working his third year for station WVBU on the technical staff. He is a B. S. in E. E. and in the past he has worked for Cap and Dagger and the Ham Radio Club, W3RFB.

The duties of the Technical Department include responsibility for anything in the station that runs on electricity, but the main job for Dave has been to increase our listening audience. Last year, when he was co-technical Director with Ross Petzing, and this year by himself, Dave has worked very hard in increasing our transmitter power from 30 to 100 watts. Our transmission was also improved due to the fact that now more people can hear us. At the end of last year Dave and Ross continued to install wires to the "Sen" and Swartz Hall. Dave

LIBRARY: A PLACE TO STUDY

by Joe Denis

Most college students are at their respective institutions of higher learning for the purpose of receiving some degree of education. Many of us think we are here for a good time, or only because "Daddy" forced us to come. However, underneath the hardboiled outer covering, or should I say the carefree, happy-go-lucky impression, attempt is a small, almost latent desire to learn. This is only natural. Keeping in mind the idea that we want to learn, we realize a certain amount of studying is required. The next step is to find a place—a quiet place (can't study in the dorm), a place conducive to studying free of the distractions prevalent everywhere on campus, if there is such a place. I know this is a difficult problem because I had tried to solve it for a long time myself. Then it came to me—"Of course! Why didn't I think of this before?" The Library!

After a long trudge up the hill I arrived at the library, opened the door, and was received by a barrage of smoke rings. It seemed many of my fellow students were taking a break. I went a little farther and noticed an empty seat in the periodical room. I sat down and began to study. Grind! Grind! The q. c.'s began to pileup already. Then all of a sudden I heard the strange, but not uncommon noise of someone snapping their chewing gum. Well, that couldn't stop a real student. The right hand was carefully cupped over the right ear as my gum chewing friend was on my right, and my eyes again descended on the store of knowledge before me.

While I was about ready to begin the second paragraph the sweet and familiar bill-n-coo of a handsome couple, apparently very much in love, flowed gently upon the sound waves directly to me. They had not seen each other for several hours and had much to talk about. Up went the left hand to the left ear. This seemed to be the solution. The right hand had eliminated the gum-snapping, and the left, the lovebirds.

But this was too good to be true. All of a sudden from the end of the room came a loud, howling noise—which sounded like a steam whistle

on an ocean liner. Upon regaining my senses I looked around to investigate the new distraction. I found it. It was the sweet librarian giving a student explicit directions about where to sign his name on a borrowed book slip. Apparently she was also reading him the story. This last interruption was too much. I had to find another place. The second floor reading room looked good. Upon entering the room I was engulfed by a stuffy warmth. The temperature must have been over ninety. As I looked around the room I saw many pairs of drooping eyelids. This place was not really conducive to studying either. However, it was great for sleeping, so I stayed.

A few alterations should be made to convert our library from a recreation center to an "egg-head" builder, or at least to a better student producer. The main change has to be made on the part of the student. We should recognize the library as a place to use to our advantage. When at the library we should be very considerate of the others around us. Any noises we make are distractions to them. It takes just a little effort to show this necessary consideration. The other important change is on the part of the library staff. There must be ways to regulate the temperature in the library. The rooms should be kept comfortably cool to prevent the students from becoming drowsy. The library staff should also show consideration by limiting their conversations and loudness of voice to a minimum in the reading rooms. Let's work together.

Memorial Day was first observed on May 30, 1868, after the Civil War.

Ever meet a dreamer?

Frills instead of fundamentals are what interest him. In his future job he dreams of a carpeted office, a resounding title, an acre of polished mahogany to sit behind. Wide-awake men, on the other hand, look first of all for fundamentals—sound training, advancement opportunity, challenging work, professional associates, good pay. The frills will follow.

The Bell Telephone Companies offer such career fundamentals to wide-awake, ambitious young men majoring in the arts, the sciences, business or engineering. Why not make arrangements to talk with the Bell System interviewer when he visits your campus? And for more information about the careers these companies offer, read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to:

MISS FREDA LOU WILSON

"Hi Yaw!" is a friendly greeting given to anyone meeting Miss Wilson. It was the greeting that I was given when I met with Miss Freda Lou Wilson in an attempt to learn what makes this gracious lady from the South "tick."

Miss Wilson was born in Greenbrier, Arkansas. Greenbrier, a town of 375 people, has always been her home; in fact, she still lives in the same house in which she was born. She graduated from Hendrix College in Conway, Arkansas, in 1954 with an AB degree in Homemaking.

During the school year of 1954-1955, Miss Wilson was one of 21 Danforth Graduates in Christian Student Work. Danforth Graduates are women chosen during their senior year in college to serve during the following year. Only one is chosen from a given state, and only one is sent to a state. The 21 girls attended a five week orientation session at Camp Minawanka on Lake Michigan prior to being placed on a college campus. Miss Wilson had attended a small private church college and she was sent to Oregon State University, a state school with over 6000 students. By placing the woman on a campus that presents a different situation, the Danforth Foundation feels that greater benefits can be derived for all concerned.

In addition, the Graduate is placed on a campus at least 1000 miles from her home.

The purpose of the Danforth Graduate Program is to "integrate religion and higher education". The graduate is free to do anything that she feels will accomplish this goal; she leads discussions, lectures, and seminars. The Program gives the graduate an unusual opportunity to develop spiritually, intellectually, and socially during the year. The graduate stays on one specific college campus, but is at liberty to travel to any campus in the state to attend special religious conferences.

Money for the Danforth Graduate Program is provided by the Danforth Foundation of St. Louis, Missouri. The Foundation gets its funds from the Ralston-Purina Feed Company.

Miss Wilson received her Masters Degree in Personnel Administration from Syracuse in June, 1957.

At Bucknell, Miss Wilson is Assistant Dean of Women in Charge of Juniors, Head Resident of Hunt Hall, and Co-Social Counselor.

When questioned about her past experiences and her future plans, Miss Wilson stated that the year as a Danforth Graduate was a "marvelous year, a unique experience". She added that she likes her life here at Bucknell and plans to return next year.

Pass In Review

by William Meister

Winter's "last gasp" was prematurely forecast by me in last week's column, as last Friday's weather plainly showed. Once again common hour had to be held indoors instead of outdoors as scheduled. This is very unfortunate because the regiment needs all the practice that it can get outdoors to prepare for the annual inspection. We sincerely hope that the weather will be more cooperative in the future.

To fill gaps left by the graduating Seniors and other reasons, a number of promotions have been made in the regiment. Don Beistel has been appointed D Company Commander with the rank of cadet major.

Jor. Strattan White has been moved up to the position of Executive Officer of H Company. Dave Nodine has been placed as a Platoon Leader of I Company. Jay Meconahay has been promoted from Second to First Lieutenant. Congratulations to all these men for their advancement in recognition of their abilities as leaders!

The only news this week from the Rifle Team is that they defeated Vanderbilt University 1887 to 1874 in a four position postal match. No individual scores are available as yet at this time. The team is practicing hard for the trip to Annapolis this weekend. Let's all wish them the best of luck and success.

Letters to the Editor

(Continued from Page 1)
the University will long continue.
We will send you under separate cover copies of the Borough's Fire Prevention Code for your information and that of each fraternity house officer. If there should be an insufficient number so that each house officer may have one copy, please let us know.

Yours for greater service to Lewisburg.

Yours very truly,
R. W. Westerfield
Borough Manager

The opinions I have stated are my own, and I cannot vouch for how my fellow Sen Gens would react, but maybe we could all take time to reflect on ourselves and see what it is about us that displeases our fellow Bucknellians. We are not able to step outside of ourselves and see ourselves as the men do. Only the men can tell us what is wrong—then, it is up to us to help ourselves. Once we know our faults, only we can correct them.

Sincerely,
Ginny Campbell

Dear Editor:

Thank you for printing my poem "To B."

I would appreciate it if you could include the last line in the next issue. I wouldn't inconvenience you if it didn't change the meaning CONSIDERABLY.

Sincerely,
Kris Diaz

(The last line is . . . "And leave you quietly")

Florida Vacation

(Continued from Page 1)
later part of April. This means that the students will create a greater impact than usual on our facilities and accommodations.

It should be emphasized that in the past the vast majority of college students who have spent their spring vacation in our city have conducted themselves in a manner that reflects credit on them and their schools. A few have not. All existing ordinances will be strictly enforced. In instances where students do not abide by the standards applied to others, detailed reports will be sent to the deans of the colleges and to the parents of the students involved. Offenders will be dealt with as any other citizen.

As a means of assisting students in finding accommodations, the Chamber of Commerce, 307 East Las Olas Boulevard, plans to act as a clearing house for housing information. It is suggested that the students contact the Chamber of Commerce upon their arrival. We also wish to encourage the students to report any instances of unfair treatment during their stay in the city to the Better Business Division of the Chamber of Commerce. Students planning to visit Fort Lauderdale should have sufficient funds to cover their housing, meals, and other expenses. Students will not be permitted to sleep in automobiles and on the beach, as some have done in the past.

It would be appreciated if you would bring this letter to the attention of your student body, possibly by publication in your school newspaper, or by any other means you believe desirable.

Thank you for your cooperation.
Very truly yours,
John V. Russell
Mayor-Commissioner

ERHARD, ANGUS, AND SUGERMAN ASSUME NEW TOUCHE TOP POSITIONS FOR COMING YEAR

Esther Angus and Jack Erhard have recently been selected to head the new staff for Touche, the university literary magazine, and Myron Sugerman will serve as new business manager. Others on the new staff include Leon DiDoro and Al Rubel, co-advertising editors, Jane Gronemeyer and Harvey Tucker, co-art editors, Jack Hill, circulation manager, Arnold Putterman, exchange editor, Dave Conroy, literary editor, Diane Collins, publicity chairman, and Mim Mendelson, typing chairman.

First row—Jane Gronemeyer, Myron Sugerman, Esther Angus. Back row—Leon DiDoro, Arnold Putterman, Diane Collins, Jack Erhard, and Jack Hill.

Esther, a French major from Selmsgrove, is vice-president of Pi Delta Phi, the French honorary. She is a member of Commutary Club and was formerly commuter representative to Independent Council.

A junior Sigma Alpha Epsilon brother majoring in civil engineering, Jack was former head of publications. Sigma Alpha Mu, Myron is a political science major who also participates in intramural sports. He is interested in sailing.

The secretary of Men's Student Association and former secretary of Delta Phi, the French honorary, is a political science major who also participates in intramural sports and the Newsmen's Conference.

B.U. TO CONDUCT ASIAN INSTITUTE

An Institute on Asian Studies will be conducted at Bucknell University from June 30 to August 8 as a new feature of the regular summer session.

Dr. Samuel C. Chu, noted Chinese scholar and teacher who has been appointed assistant professor of non-western studies, will direct the Institute which will seek to impart a basic understanding of the various Asian civilizations and their special cultural contributions.

The program is expected to be of special interest to teachers, librarians, students, journalists, and plain citizens who wish to increase their knowledge and understanding of

President—Bob Johns
Vice-President—Tony Reinado
Secretary—Judy Beery
Treasurer—Larry Mathias
Class of 1961
President—Dave Halbert
Vice-President—Phil Spillman
Secretary—Bonnie McLaren
Treasurer—John Hasenpflug
Robert Nicholson was elected to Judicial Board due to the resignation of Don Avery.

Non-Western Studies Offered In Fall Term

Beginning in the fall of 1958 Bucknell University will resume offerings in the field of Non-Western Studies. The new program will be in the hands of Dr. Samuel C. Chu, a native of China who did his undergraduate work at Dartmouth and took his doctor's degree at Columbia University. Dr. Chu will offer next year the following courses:

History 161-162 The Civilizations of Asia—Basic cultural survey of the major Asian civilizations, covering historical development, religion, philosophy, social system, and political and economic foundations.
China, Japan, and Korea will be covered the first semester and India and Southeast Asia the second.

History 266 The Intellectual History of China—The philosophical and religious development of the Chinese people. Emphasis on the way these developments have shaped Chinese outlook and society. First semester, alternate years.

History 262 The Intellectual History of Japan—The philosophical and religious development of the Japanese people. Emphasis on the way these developments have shaped Japanese outlook and society. First semester, alternate years.

History 260 and 262 will be offered in alternate years.

History 269 The Relations of the Far East with the West—The impact of the West on the Far East. The developments of such aspects as nationalism, modern education, science, and industry in the Far East. Consideration will also be given to the contributions of the Far East to the Western world. First semester.

History 264 India since 1948—

Historical development of India in the modern era, covering the coming of the Europeans, the flowering of

(Continued on page 8.)

Senior Alumni Officers

The nominating committee has named and selected nominees for alumni officers for the Class of 1958. All seniors will be mailed ballots and explanatory letters in the near future. Members of the Class of 1958 are urged to return the ballots promptly to the Alumni Office so that we can have our alumni organization well formulated before graduation.

Howard University To Visit Bucknell

Howard University students taking part in an annual exchange program will be guests on the Bucknell Campus next weekend. The Christian Association sponsors this program with Howard, a co-ed negro university in Washington, D. C.

Committees have been at work for some time setting up an eventful program for the weekend. It is planned for some Howard University students to stay in the dormitories and for others to stay at the Phi Lambda Theta fraternity house. The students will be guests at the homes of Bucknell faculty early

(Continued on page 8.)

DR. COLEMAN'S WIFE DIES SUDDENLY

Mrs. William H. Coleman, wife of Dr. William H. Coleman, vice president of the university, died on Sunday, March 23, in Geisinger Hospital. Mrs. Coleman was in the hospital for several days and death was due to a cerebral hemorrhage.

Mrs. Coleman was the former Edna Matthews Wilcox. She was born in Mystic, Connecticut where she attended high school. She later studied at the William Memorial Institute in New London, Connecticut, and at Acadia University where she was a member of the class of 1906.

At the time of her death, Mrs. Coleman was regent of Shikellum Chapter, Daughters of American Revolution. She had also been active in the Society of Magna Carta Dames and several historical societies. Mrs. Coleman was active in community affairs at Bucknell. She served as president of the Campus Club and was a patron of the Pi Beta Phi Sorority.

(Continued on page 8.)

Bucknell's Highest Academic Honorary Elects Fourteen Outstanding Students

Fourteen outstanding students have been elected to membership in Phi Beta Kappa, the highest academic honorary. To qualify for membership, a student must be in the upper tenth of the junior class or the upper fifth of the senior class. Selections are made by these members of the faculty and administration who belong to the society. Four juniors, Dawn Marie Beatty, Norma Kathleen Coyle, Nancy Ann Honker, Elva Mae Nicholson, and ten seniors, Jon Garry Beidler, Janice Millicent Byrns, Carol Davies, Beverly Jane Griner, Claire Alice Halline, James Arthur Herb, James Walter Jefferson, Young Gui Kim, Nile Randolph LeStrange, and Leigh Magee are new members of the society.

Front Row—Bever Griner, Claire Halline, Dawn Beatty, Elva Nicholson, Nancy Honker, Norma Coyle, Janice Byrns. Back Row—Leigh Magee, Nile LeStrangs, Young Gui Kim, Jeff Jefferson.

Dawn Beatty of Shillington, Pennsylvania is working toward an AB degree in biology and plans to attend medical school after graduation. She is also a member of Alpha Lambda Delta, Rho Tau Sigma, and Phi Sigma Tau honorary.

Nancy Honker of Myerstown, Pennsylvania, is working toward a BS degree in biology and plans to attend medical school after graduation. She is also a member of Alpha Lambda Delta, Rho Tau Sigma, and Phi Sigma Tau honorary.

Norma Coyle of Hasbrouck Hts., New Jersey, is working toward an AB degree in political science and plans to work in Europe following

Annual Science Fair Concludes With Awards

Bucknell University was the scene of the Third Annual Susquehanna Valley Science Fair, which was held in Davis Gymnasium last Friday and Saturday.

Dr. Lester Kieft of the chemistry department announces winners of the Science Fair.

The fair was a joint project of the West Branch Manufacturers' Association and Bucknell University and was under the direction of Dr. Lester Kieft, chairman of the department of chemistry.

Over five hundred students, representing more than fifty high schools and technical institutes in the area, participated in the fair through their many original and outstanding exhibits, which were open for public inspection.

Awards for best exhibits included two four-year scholarships, an expense-paid trip to the National Science Fair, a special cruiser award, and a ten-volume set of science books, along with more than 300 dollars in cash prizes and savings bonds.

A special program was presented Friday evening. Speaking at the program were Mr. John Zeller, assistant to the president of Bucknell University; Mr. Ralph Cramer, president of the West Branch Manufacturers' Association; and Dr. Rudolph Hanel, of the U. S. Army Signal Laboratories at Belmar, New Jersey. Saturday evening was the science fair award program, with Dr. Merle M. Odgers, president of the University, speaking on "Science and Education."

Newly elected officers of the student branch assumed their duties for the first time. They were Tom McLaughlin, president; Richard W. denberger, vice president; George Schneider, secretary; and Dave English, treasurer. Refreshments were served following the meeting.

DuPuy Elected C.A. President

Ted DuPuy, recently elected president of the University Christian Association, was installed into office last evening, together with his Cabinet, at a special dinner held at the Conference Center. The other Cabinet members are Dawn Beatty, Ted Biddle, Dave Dayton, Nancy Dean, Dave Mudock, Jo Nielsen, Ann Norriss, and Tom Van Allen.

The installation took place at a joint session of the Advisory Council and of the new and old Cabinets. Other students who will be directly involved in the new year are:

Mike Gavin and Bruce Milton will be the policemen, and Peggy Schaffer and Barb Billings will take the roles of the Vichy visitors. Since all the roles are good-sized ones, there are no parts which are considered leads.

Rehearsals for the next performance began with a general reading of the play before Easter vacation. A schedule of future rehearsal dates will be posted on the board at the Conference Center.

The Sophomore Class will present its version of the famous "Basin Street" in an informal dance and jam session featuring the well-known Yale dixieland band, Eli's Chosen Six, tomorrow night from 8:00 to 12:00 in the Davis Gym Annex.

The Glitzards of SAE, a three-man rock and roll band consisting of Dick Gloss, Herb Glazer, and Dave Wissert will play during intermissions. Together the two bands will provide a continuous flow of dixieland jazz and rock and roll. Tickets are only one dollar and can be purchased from any member of the Class Council and from representatives in fraternities and sororities.

Effective decorations will completely convert the annex into a real "Basin Street." The entire ceiling of the annex will be lowered; murals of "Basin Street" scenes will cover the walls; and tables with candles set up along the walls will give an effective

—Drive Carefully!—

B.U. BUSINESS FORUM HOLDS FINAL SESSION

Final session of the Bucknell Business Forum for the 1957-58 college year will be held Wednesday evening, April 23, at the Lewisburg Club, according to Neil F. Shiffer, Forum director.

The monthly dinner meeting at 6 o'clock will be followed by an address by Nicholas Kelley, vice president and general counsel for the Chrysler Corporation. Mr. Kelley is also president of the American Arbitration Association which has its headquarters in New York City.

Reputation . . .

Bucknellians, in an effort to apply some value to their society, have become so reputation-conscious as to allow it to dominate their whole social perspective, and, consequently, a greater part of their thinking and activity. Reputation seems to be the all-important key to success—the keystone upon which their college future is built. Once it has been made, and has gained recognition for one thing or another, the reputation itself is all that counts. All successive actions, after you've become established, are measured against your pre-determined social rating. Consequently, reputations are fair-weather friends. Little details that are always refreshed now, and then to maintain the social sanction or indictment Buckley's society's judgement has originally passed.

If a reputation does climb a rung or two, or perhaps slips down a few rungs, on the social evaluation ladder, it's invariably for the same questionable reasons which originally set the reputation on a doubtful basis of character estimation. One's social distinction, or insignificance, or notoriety—as the case may be—seems to be based on insubstantial and superficial criteria, which often convey a completely fallacious interpretation of personal worth. Intelligence and moral integrity are incidental to charm, personality, good looks, etc., and—very important—the “herd instinct.” The herd instinct is a quality which is most conducive to the general trend of campus social behavior—that of conformity for the sake of preserving one's reputation. Probably the most valuable social asset is the ability to mimic popular tastes well.

Certainly one can't afford to be seen with someone who is “out of it,” as the expression goes, or anyone who might be detrimental to our own social standing. Besides, someone who doesn't provide another rung for our social-ladder-climbing isn't worth the effort. One must be able to “walk out of this place with one's head up,” having followed all the rules on how to play the game. “Moves of the Mature Bucknellian,” whether one gives a damn about the game and its silly little rules or not. Perhaps this is what is termed “discretion” by the virtuous preachers who want to rationalize on the compensation for succumbing to social pressure.

The non-conformist is the object of derisive mockery; his reputation is “bad news.” He becomes the victim of the most effective molder of reputations: the campus grape-vine and all its sour gossip. Unwittingly, however, the whisperers in the ivy become the butt of their own little game of “mock, mock, also cut, dig, slice.” Bucknellians present an amusing, but also slightly pathetic picture of Buckley-brand social entertainment. They look rather like a bunch of “Yahoes” sitting in a tree, eagerly waiting for the next unsuspecting victim to wander by. (World Lit. students can better appreciate this observation.) For lack of more constructive social diversions, or simple lack of imagination, Bucknell society cultivates this stimulating pastime of excreting the current gossip conspicuously about. One sometimes wonders how so much kinetic energy can produce so damn much heat and not one iota of light.

Somehow there seems to be a lack of integration between the academic objectives of going to college and the social aspects. Certainly there is greater emphasis on the latter to the neglect of the former. The social life is the thing to live for, while barely pulling your grades is the means to this end. College has become a socializing institution instead of a place for intellectual development or liberalization. The social reputation takes precedence over intellectual prowess; the “big wheel” is the “popularity kid.” Certainly the liberal education many Bucknellians are coming to school for, doesn't extend to social enterprising. On the contrary, the whole purpose of college liberalization is deteriorated into a superficial classroom acquiescence to academic values. Unfortunately, the Bucknellian does not make the transition of applying his academic values to his social life. He divorces the two, and academic values to his social life. He divorces the two, and academic values to his social life. He divorces the two, and academic values to his social life.

—A. H. M.

Some 105,000 miles of wire make up the four main suspension cables of the towering which carries some 100,000 automobiles a day across the Hudson river. That's enough wire to circle the world four times.

So long as we are full of self we are shocked at the faults of others. We judge ourselves by what we think we can do. Others judge us by what we have already done.

Conroy's Corner

LOVE POETRY

Oh, gentle lover. When I behold
All those endearing things that remind me of you
Flow like two deep, blue rivers, and then
The soft dew on the grass
The fluffy clouds above in that great blue sea—
I think of your adorable countenance,
And get sick to my stomach.

Oh, gentle lover. Your beautiful face—
Your eyes, ever faithless, ever concealing your real thoughts.
Flow like two deep, blue rivers, and then
At the bridge of your nose they cross!
Why did you leave me, fond lover,
And say adieu—What strange power compelled you to
Go to the ladies' room?

Everything I see reminds me of you, fond lover!
Lampshades, bath tubs, swiss cheese, dental floss—
Your image appears everywhere!
Now love has gone,
And left me only
A cigarette lighter with
No fluid.

I feel at times that I must somehow recapture your love,
To compel you to return to me.
So that we may regain that everlasting happiness—
And then at other times I gaze pensively at my little, empty
Cigarette lighter and say something like
“The h. . . with it!”

Oh, gentle lover. How can I ever forget
Those countless nights of everlasting contentment
Beneath thousands of shining white stars,
In that dark blanket called the sky—
When you, with delicate, rose-colored hands,
Crushed beer cans like they were made of tin foil.

Oh, gentle lover. The seas' tide brings the countless waves
Lapping against the wide expanse of sand,
Forever marking time's endless march.
Ever changing, yet never changing—
It all reminds me, over and over again, of
Seaweed.

Oh, gentle lover. Restless I search,
Plunging along the damp, the cold mole's track, only to find
A mole.

Why should I wait for autumn,
When on both sides of winding country roads
I can see gasoline stations, hot dog stands, and
Stuff like that.

And, when the night grows late,
And those hours approach which we used to spend together
So happily and content—
When those late hours now come, and you are gone,
When you aren't here, where you formerly were, and I grow late,
And you aren't here, where you used to be, but I am here, and you
aren't.

That is the time, fond lover, when I say to myself, over and over
again.

CALENDAR OF EVENTS

THURSDAY, APRIL 17
ALL DAY: Kappa Delta Bunk Sale
4:30 p.m. WSGA House of Representatives Meeting
6:15 p.m. Bucknell Scholar's Club
7:00 p.m. Men's Glee Club Rehearsal
FRIDAY, APRIL 18
Baseball vs. Lafayette
Tennis vs. Dickinson
Golf vs. Lafayette
12:00 Noon. Christian Association—Howard University
Exchange Weekend
Hilltop—“Letters from my Windmill”
9:00 p.m. Sophomore Class Dance—“Elle's Chosen Six”
SATURDAY, APRIL 19
Baseball vs. Dickinson
Tennis vs. St. Joe's
8:15 p.m. Artist Series—Spivakovsky (violinist)
9:30 p.m. Christian Association

Afternoon Programs
4:00-4:30—Music to Listen To
4:30-5:00—The Monday After
5:00-5:30—Nebbish Needle
4:00-4:30—Manhattan Serenade
4:30-5:00—Mood Music
4:00-4:30—Spinning Around
4:30-5:00—Magic Moments
5:00-5:30—M. Kahan and B. Milon

WEDNESDAY
3:30-4:00—Ben Zinkin
4:00-4:30—Sunny Clarke and Judy Angelo
4:30-5:00—Kandy Kane and Nancy Owen
5:00-5:30—M. Kahan and B. Milon

THURSDAY
3:30-4:00—Artistry in Jazz
4:00-4:30—Joy Ride
4:30-5:00—Leavitt, Barton, McClintock, Wrightstone
FRIDAY
4:00-4:40—Big Seat
4:30-5:00—Don Saltzman and Paul Nobel
5:00-5:30—Requestfully Yours
5:30-6:00—B. Wright and B. McLaughlin
EVERY DAY
7:00-8:45—Jam for Breakfast
7:00-8:45—Jam for Breakfast

Letters to the Editor

March 23, 1958

have made some strides toward alleviating the respective problems.

Recently several elections were held for important positions in our student government. I am referring particularly to the S. F. C. and M. S. A. elections. Now that all of the winning candidates are in office, some of us will sit back and consider the procedures and outcome of the elections. I feel that there is one part of our campaigning procedure which definitely should be eliminated. This is the “coalition.”

I think everyone knows the meaning of coalition. It is simply an alliance of individuals for a common purpose. In our specific case it is a secret alliance between two or more candidates from two or more different fraternities for the purpose of winning the election to different offices.

I hope this letter will not be mistaken to mean I disapprove of the candidates who were elected this year. I feel that this situation has been prevalent in all the elections. I have seen during my three years at Bucknell. I think this problem is comparable in type, although not in magnitude, to the “dirty rushing” and “academic cheating” problems from their ivory towers upon their which we are facing at present. The I. F. C. and the committee working for institution of an honor system

Dear Editor:

What has become of that noble myth—the Bucknell Family? Next to “Goldilocks and the Three Bears,” it was a favorite bedtime story of young and old alike. The paternal elders, the administration, were supposed to smile benevolently down upon their ivory towers upon their babbling wards, the students, who joyfully flitted from class to class for institution of an honor system

(Continued on page 8)

ALUMNUS PROVIDES ANNUAL SENIOR PRIZE

A Bucknell University alumnus from Philadelphia who has served his alma mater both as a teacher and as a trustee was honored by some friends on his birthday, April 10, in a unique manner, according to President Marie M. Odgers.

An endowment of \$3,120.00 has been established at the University to make possible an annual award to the senior who most nearly represents the ideal Bucknellian.

The gift was made in honor of Dr. Louis W. Robey, vice chairman of the board of Marts and Lundy, Inc., who for nearly 30 years has been one of the leaders in the fund-raising profession.

Prior to joining the Marts and Lundy firm, Dr. Robey practiced law in Philadelphia, where his office is now located in the Philadelphia National Bank Building.

“The Louis W. Robey Prize,” created by today's gift, will consist of a medalion bearing the Bucknell coat-of-arms, plus a cash award, and will go to the man or woman in the graduating class who most nearly approximates the Bucknell ideal.

Dr. Robert Denkwalter, Executive Director of Developmental Research, plus a cash award, and will go to the man or woman in the graduating class who most nearly approximates the Bucknell ideal.

Dr. Robert Denkwalter, Executive Director of Developmental Research, plus a cash award, and will go to the man or woman in the graduating class who most nearly approximates the Bucknell ideal.

'Hell Week' Vanishes

by Jim Chapman

With the onslaught of Spring, and the change of weather that it stands for, the fraternities across the nation will begin to make preparations for "Hell Week" and the vivid imaginations will go to work in an attempt to conceive various types of pranks and tests that the pledges will be forced to experience. Fortunately, however, "Hell Week" does not contain the same connotation that it had several years back. The Hell is being squeezed out of "Hell Week" and is being replaced with "Help Week."

This very healthy attitude on the part of fraternities has come about because of many grim experiences that were witnessed during "Hell Week." One bitterly cold night two years ago a young university fraternity pledge was abandoned by his fraternity brothers on a lonely road outside the town. Blindly seeking his way back to the campus, he walked onto a frozen reservoir, plunged through the ice, and drowned. On another campus a student died of burns received during an initiation ceremony. Still another was seriously injured when he fell, blindfolded, down a mountainide.

How could this senseless waste of life be justified? This was a question that faced many fraternity men during that year, and they had to admit that it was completely shameful, both to themselves and to their fraternity.

It is very difficult to say exactly when or where fraternity men came to realize their mistake. However, one of the earliest stories of a converted "Hell" to "Help Week" is on record at the University of Washington in Seattle. When "Hell Week" rolled around, the fraternity pledges were told that they were to devise their own work project. One of the pledges worked in a hospital, and knew of a widowed nurse whose three children had never experienced a Christmas, other than the creche that their Mother set up during the holiday season. Enthusiastically, the pledges went around to all the local merchants, and with their backing were able to surprise the destitute family with sports equipment and toys for the boys, a sewing machine, a ton of groceries, and promises of a year's free medical and dental bills. This was truly a Christmas that Yvonne DuPont, her children, the fraternity men, and the town would never forget.

Today, an estimated 75 per cent

of the nation's 3,000 greek letter fraternities have removed the "Hell" pledges to make room for the "Help Week." Many pledge classes do odd jobs around the town, and with the small pay that they receive, buy CARE packages to send to the needy both here and abroad. The Help Week fire is catching and spreading rapidly. Delta Upsilon at the University of Missouri assigned pledges to refinish a rural schoolhouse. At the University of Maine, pledges painted the interior of a church. A University of Tennessee pledge adopted a needy family.

It is gratifying indeed to see that the fraternities here at Bucknell have joined the bandwagon to remove that scourge from the initiation process. Most of our fraternities concentrate on their own house improvements, but some send their pledges out on various projects. If higher in quality and more desirable, our fraternities continue to change in the way they have been, the few remaining "Hell Week" advocates on this campus will also revamp their pledge programs to include a "Help Week."

The Unsilent Generation Depicts Princeton Students

Last Sunday a book, *The Unsilent Generation*, was reviewed by *The New York Times*. This book was written by eleven members of Princeton University's class of 1957. Princeton is described as a university where "intellectual matters are secondary to the social activities." Chapel is a "joke," cultural and racial discrimination is practiced, self-interest and disloyalty are learned, and snobishness is the prevailing characteristic of the student body. Does it all sound too familiar?

One of the contributors to this book describes Princeton as "the country club that it is reputed to be." This comment does not sound completely strange. According to the writers of *The Unsilent Generation*, alcohol and sex occupy most of the student body's time. In fact, liquor is described as Princeton's "major social prop." To crown this crushing attack on what is considered one of America's finest universities, the authors assert that they have "enjoyed a superior education." One is forced to ask, "Superior to what?" These former students believe that they have received an education that is "perhaps the best available in

IS THE ROTC PROGRAM IN DANGER OF ELIMINATION

(ACP) — Look magazine's recent article on ROTC caused comment in the college press. The national magazine quoted high military leaders as considering "drastically reducing or even eliminating" the ROTC program in college. "Failure of ROTC to produce a sufficient number of high-caliber officers is causing the services to take a 'nervous new look' at the system."

Kansas State's *Collegian* reports a student council committee there just completed a study of local ROTC. The group, a steadily increasing male enrollment and an equally steady decrease in ROTC commissions, recommended eliminating compulsory ROTC for an optional program "adequate in quantity, higher in quality and more desirable to all students."

At University of Minnesota, where ROTC is voluntary, the *Minnesota Daily* reported ROTC officials as being "shocked" and not in agreement with the Look story.

One said he knew of no official actions to indicate any dropping of ROTC. "It is true the number entering ROTC is not as high as might be desired . . . The modern generation is apathetic to the services, and when students come to college, they are often immature and thus not capable of making the decision to receive officer's training."

Wayne State University air force ROTC officials declined comment on the Look piece, said the Detroit school's *Daily Collegian*. The newspaper noted, "The local AFROTC has been on shaky ground before. An economy drive in 1956 provided for discontinuing the school's program," but the order was repealed when the university's president made a direct appeal to the air force.

Plans were made then for a period of observation and study of ROTC's future at WSU.

During a chemistry class experiment 17 years ago, Mrs. Clayton Whitmarsh was slightly injured when the test suddenly exploded. Recently, she noticed a spot on her arm. Three small pieces of glass were removed, reminders of the long ago school test explosion.

Pipes from atop the Hanging Garden of Babylon in 600 B. C. sprayed water on flowers and trees 300 feet below.

The only people to get even with are those who help you.

THE POSTMAN COMETH

I have recently received several letters from readers which have been so interesting, so quaint, so *je ne sais quoi*, that I feel I must share them with all of you. The letters and my replies follow:

SIR: Maybe you can help me. I came up to college eight years ago. On my very first day I got into a bridge game in the student union. I am still in the same bridge game. Have never gone to class, cracked a book, or paid any tuition. All I do is play bridge.

To explain my long absence and keep the money coming from home, I told a harmless little lie. I said I was in medical school. This made Dad (my father) terribly proud. It also enabled me to keep playing bridge. We were both very happy.

But all good things must come to an end. Mine ended when I came home for Christmas vacation. I arrived to find that Sister (my sister) was in the hospital with an ingrown spleen. Dr. Norbert Sigafos, the eminent ingrown spleen surgeon, was scheduled to operate, but unfortunately he was run over by a hot-foot cart on the way to the scrubbing room.

"Oh, never mind," chuckled Dad (my father). "Harlow (me) will fix Sister (my sister)."

Well sir, what could I do? If I told the truth I would make a laughingstock out of Dad (my father) who had been bragging about me all over town. Also I would get yanked out of school which would be a dirty shame just when I am beginning to understand the work club life.

There was nothing for it but to brazen it out. I got Sister (my sister) apart all right, but I must confess myself completely at a loss as to how to put her back together again. Can you suggest anything? They're getting pretty surly around here.

Sincerely,

Dear Harlow:

Indeed I do have the solution for you—the solution that has never failed me when things close in: Light up a Marlboro! Knots untie as you puff that fine rich tobacco. Shade becomes light as that grand flavor comes freely and friendly through that splendid filter. Who can stay glum when Marlboro gives you such a lot to like? Not I. Not you. Not nobody.

SIR:

Just off the campus where I go to school there is a lake called Lake Widgwan. Thirty years ago when my father was an undergraduate here he went fishing one day in Lake Widgwan and dropped his Dake pin in the water. He dived for days but never found it.

Just yesterday thirty years later, mark you!—I went fishing in Widgwan. I caught a four-pound bass! I took the fish home, cut it open, and what do you think I found inside?

You guessed it! Two tickets to the Dempsey-Firpo fight.

Sincerely,

Willis Wayde

© 1958 Max Shulman

This column is brought to you by the makers of Marlboro Cigarettes who suggest that if your mail has recently been blessed with some money from home, invest it in the cigarette with the long white ash—Marlboro, of course!

DOWN BEAT

Strictly Ad Lib

Max Roach is one of jazz' most illustrious musicians. As a precedent-setting drummer, he has been an influential figure. According to Roach, "One of the prime functions of the drums is to serve as an accompanying instrument. This can be developed by listening to everything around you and by fitting yourself in without being smothered or smothering others." The drummer, Roach feels, can be lyrical as well as percussive. "You can play lyrically by phrasing and dynamics. You set up lyrical patterns in rhythm which give indications of the structure of the song you're playing," he told Down Beat's Don Gold recently.

Gene Krupa, one of the most colorful drummers in jazz, won fame through diverse experience. His advice to young musicians is sound advice. "I'd say that if a youngster has natural ability, he should study plenty and while still young, and with proper teachers." Krupa told Don Gold recently, "I've been given talent and greatness can be stifled, and even ruined with passe, ridiculous rules and academic cliches," he added.

Drummer Stan Levey was a part of Charlie Parker's first group, in 1944. As he recalls, "It was the first time I really had a chance to hear him play. . . . My first impression of Charlie's playing was that he was a sort of Pied Piper. I'd never heard anything like it. I didn't really know what he was doing, but it made me feel good to listen to him."

Pianist Teddy Wilson has been a part of jazz for more than 28 years. In another of Don Gold's Cross Section features, Wilson offered his views on some of the giants of jazz. A sample Wilson quote: "Earl Hines: One of the giants. One of the three most significant in my lifetime. Tatum was the most phenomenal. Hines and Waller are the others. My playing style is a mixture of the three, pianistically speaking. Years ago, I deliberately set out to imitate their styles. Hines' great talent is being able to play without bass and drums. He has his own built-in rhythm section. That kind of thing is lost in modern piano, except for Garner."

MUSIC NEWS: Bandleader Buddy Morrow announced plans to sponsor a series of jazz concerts on the east coast, with emphasis on college dates. Set to participate are Sal Salvador, Teddy Charles, Don Elliott, Dick Johnson, Eddie Bert, and Rusty Detric.

WVBU Membership Proves Handy

by Joel Berger

It seems that quite a few people don't seem to understand the situation concerning membership in station WVBU. Actually, it is one of the few memberships on this campus that one cannot attain simply by signing his name and attending a few meetings. Consequently, the membership in WVBU is very handy and worthwhile.

Your membership becomes a part of the permanent records of the school and is recognized by the administration. Out of a very large number of people who work for WVBU, a relatively small number have earned their membership, which is a permanent thing. One doesn't lose membership simply through a lack of further participation in station activities with one exception—a member is required to attend WVBU general meetings which are held once a semester for about 45 minutes. A member missing this meeting loses his membership and it can only be regained through three hours of work under the membership supervisor. If the meeting is cut due to illness or obligation, the person may submit a written excuse to the WVBU Board of Directors, which may or may not accept.

Membership gives a person authority around the station and a chance for better program time, which means a better opportunity to do a night show. (However, a few non-members have evening shows.)

Membership also gives a person a chance for advancement in WVBU, since he can become a supervisor, a director, or eventually even be elected to the National Radio and Television Honorary, Rho Tau Sigma.

Besides merely getting a membership card with his name on it signed by the Station Manager and the Secretary, his membership is listed after his name in the *Agenda*, and the *Yearbook* is screened so that no non-members will claim credit for membership.

In order for someone to become a member, he must first contact Cindy Trevor, the membership supervisor, and she will tell you how to earn

My Fair Lady (Contemporary 3527).

CONSTRUCTIVE EVALUATION OF UNIQUE UNIVERSITY COURSE

VOICED BY MEANS OF RECENT STUDENT INTERVIEW

by George Meyers

The Bucknell University Catalog lists the University Courses as, "...a sequence of three courses in which the student examines the major fields of human knowledge in regard to their basic differences and interrelationships."

The student, upon reading this general statement in the catalogue, may still want to know more about the courses and their potential value. In order to get answers to such questions a student who has taken the course entitled Philosophical and Practical Integrations was interviewed. This student's name will not be given, but it will suffice to say that his G. P. A. is above a 2.00, he had taken two courses in Philosophy before taking the University Course, and that he received a B in the course he had taken. The interview brought forth the following questions and answers:

Question: How does the University Course differ from other courses?

Answer: It has four professors instead of one. It is conducted in an informal manner and the professors seem to be more like students. They often learn along with the student.

Also, it covers a much wider scope and tries to take in a lot more than the other courses do. It deals more in generalities.

Question: What do these courses offer that other departments can not offer?

Answer: Other departments can do the same thing, but they don't. I think the science departments or the social science departments could do the same thing. The thing is, they don't.

Question: Does it gear itself to a comparatively high intellectual plane or to the plane of the average student?

Answer: It is definitely geared to a more intellectual student. It calls for a lot of reading and independent thought.

Question: What did you find was the one most valuable factor of the University Course?

Answer: It shows the value of the attempt to have a world view and it teaches you to be critical of philosophies.

Question: Of what practical use is the course?

Answer: That was something I wasn't sure of. In a strict sense, it had no practical value. In a broad sense, I guess you could say, that it broadens you intellectually. It teaches you to read with a wider background.

Question: Does it do what you just mentioned, or does it just attempt to?

Answer: It does do this. Question: Could you justify the University Course's place on this campus?

Answer: Yes, it's one of the best

courses I've taken.

Question: Do you have any other comments to make?

Answer: The course is very good, but sometimes the professors fail in their job of clarification and the presentation of the material.

As one might clearly see this article expresses only one viewpoint on the University Course; many more can be found on this campus, but it is hoped that this article will bring to the curious student more information regarding the University Course program, its nature, and its value.

You're Someone Special!

When you can offer an employee business skills in addition to your college background you're in a special category. That's why it's important for you to receive thorough secretarial training—Berkeley School training! At Berkeley School you'll find sweeper and answerer courses, a distinguished faculty, individual guidance. That's not all! Phi Beta Kappa

(Continued from Page 1)
Bucknell Band, and belongs to Phi Sigma honor.

Jan Byrns of Washington, D.C., is majoring in French and hopes to work with Foreign Embassies in Washington following graduation. Jan's activities include Class Council, Independent Women's Council, Visual Aids Assistant and membership in Alpha Lambda Delta and Phi Delta Phi.

Carol Davies from Long Island, New York, is now completing her AB degree in sociology and religion; she is interested in beginning social welfare work after graduation. Carol is president of Owens House and has helped organize the annual Howard Exchange Weekend. She is a member of Kappa Chi Lambda, Psi Chi, Phi Sigma Tau, and Alpha Kappa Delta.

Rev. Griner of Bridgeton, New Jersey, is now majoring in psychology and hopes to attend graduate school. Among her activities are WRA, Christian Association, Lambda Sigma, Student Handbook, Cap and Dagger, and as well as membership in Psi Chi and Alpha Kappa Delta.

Claire Halline, a senior from Lewisburg, Pennsylvania, is a biology major interested in working with a pharmaceutical company. Claire has served as Lambda Editor, cheerleader, president of CHI Chi, and representative to WSGA Senate and is a member of Mortar Board, Phi Delta Epsilon, Phi Sigma, Phi Sigma Tau, and Alpha Lambda Delta.

James Herb, of Snyderdette, Pennsylvania, is a physics major. He is president of Sigma Pi Sigma, and a member of the Physics Club and of Pi Mu Epsilon.

Jeff Jefferson, of Ashbury Park, New Jersey, is a bio-chemistry major and plans to do graduate work at the University of Wisconsin. His activities include serving as president of Delta Upsilon, business manager of Bucknellian, treasurer of SFC, vice-president of Intramural Council, and representative to IFC and Board of Publications and Radio. Jeff is also a member of Phi Eta Sigma honor.

Seoul Gul Kim, a senior from Seoul, Korea, will receive his BS in chemical engineering and plans to do graduate work at Princeton University. Kim's activities include Chapel Choir, and Christian Association. He is president of Tau Beta Pi, vice-president of Omicron Delta Kappa, and member of Pi Mu Epsilon and Phi Sigma Tau.

Nile Lettrange is a biology major from Pittsburgh, Pennsylvania, who plans to attend medical school at the University of Pennsylvania. A member of Delta Upsilon, Les includes Chapel Choir, Men's Counselor, MSA Judicial Board, and Class President among his past activities. He is also a member of Phi Eta Sigma, Omicron Delta Kappa, Phi Mu Epsilon, and Phi Sigma.

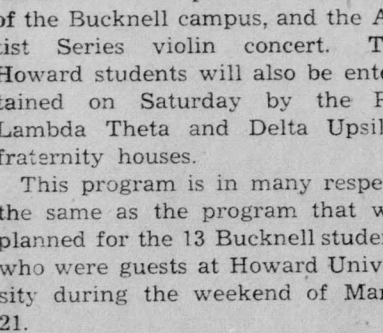

Susie Magee is a senior English major from Rosemont, Pennsylvania and plans to attend graduate school at the University of Pennsylvania. Among her activities are Kappa Delta sorority, secretary of Senate, junior counselor, and Christian Association. Susie is a member of Alpha Lambda Delta, Kappa Delta Epsilon, and Mortar Board.

Howard Students
(Continued from Page 1)
Friday evening and from there will attend the Sophomore dance.

On the agenda for Saturday is a trip to Cowan for lunch and entertainment. Also planned is a tour of the Bucknell campus, and the Artist Series violin concert. The Howard students will also be entertained on Saturday by the Phi Lambda Theta and Delta Upsilon fraternity houses.

This program is in many respects the same as the program that was planned for the 13 Bucknell students who were guests at Howard University during the weekend of March 21.

Sophomore Dance

(Continued from Page 1)
dixieland atmosphere to the room. Refreshments will also be served.

Eli's Chosen Six has been a popular dixieland band on eastern campuses for a number of years. Since the rise in undergraduate jazz, "The Six" are now high on the list of top modern-jazz groups. The band contains Dick Voigt, piano, Lee Lorenz, trumpet, Rex Budd, trombone, Pete Williams, clarinet and soprano saxophone, Bobby Morgan, bass, and Lyman Drake, drums.

This well-known group got its start in the summer of 1953 at the Salisbury School in Connecticut. Dick Voigt, pianist, had been playing there with a few of the members of the faculty at Salisbury. To this nucleus other young musicians were attracted. "One man knew another, and so it grew," says Dick, leader of the band. "Then we found that all except one of us were entering Yale that fall, and we were planning to do so the year after. We decided to stick together. The first night of freshman year we played, and we've been playing ever since."

At first Eli's Chosen Six played for its own fun, then for campus parties and dances. Dates at other schools soon followed. Two engagements as Monday night replacements at Edith's night club in New York worked wonders in spreading the fame of the group. It was Mr. Condon's A-plus report which first peaked up Columbia's Records' interest in recording the group. They now have a high fidelity long-playing album out called "Eli's Chosen Six College Jazz Dixieland."

The repertoire of the band is based mostly on traditional dixieland tunes of which a number were introduced by The Original Dixieland Jazz Band and the New Orleans Rhythm Kings. After graduation, the boys in Eli's Chosen Six will follow various careers. Most of them are planning to do graduate school and only one plans to continue professionally in music. They hope, however, that the undergraduate band they have started will take its permanent place in Yale's extra-curricular activities.

Eli's Chosen Six are certainly worthy of a large audience. The Sophomore Class hopes to give them this chance to hear a terrific night of dixieland jazz. The officers of the class of '60 who have organized the plans for "Basin Street," include Bob Johns, president; Bill Hilditch, vice-president; Judy Beery, secretary; and Larry Mathias, treasurer.

Artist Series

THE BUCKNELLIAN is published weekly during the college year. ANNUAL SUBSCRIPTION, \$4.00, effective September 1, 1958, payable in advance. Entered as second class matter on September 21, 1922, at the post office at Lewisburg, Pennsylvania under the Act of March 3, 1879.

ROTC Advancement . . .

This past year at Bucknell has been one of great strides for many organizations, through the desire for betterment on the part of the individual groups and also through the efforts of the Bucknell Study. It is not hard to see the improvements in the Bucknell Literary Magazine, the Radio Workshop, and the increased efficiency which has been demonstrated by several governmental organizations. However, without doubt the one organization that has made the most progress is the Bucknell R. O. T. C. Unit.

Some of these strides can be seen in the improvements in the Pershing Rifles Company which just recently placed third in the 5th Regimental Drill Meet, and the Rifle Team, which has been averaging 100 points above last year's scores. The cadet officers, also, look and do their best in the new Army uniforms they wear, and of course, this year's Military Ball was as advertised, the Biggest Bucknell Dance Ever. Miss Jeanne Thomas has also been a great help to the R.O.T.C. Department in that she was voted one of the finalists in a national beauty contest for R.O.T.C. Pershing Rifles companies. All these advances have led to one major advance in R.O.T.C., that being the outstanding increase in esprit de corps.

Two basic changes in the organization have been responsible mainly for the progress which has been made. A new system of promoting seniors in rank went into effect this year. Previously, when a senior returned from Summer Camp he received a rank and he kept it all year, unless he made a major infraction of the rules. At present, men are both being promoted and demoted according to the effort they put forth in R.O.T.C. activities. No longer is the department stagnant and carrying dead wood. Another major change was the inclusion of Company Commanders in the Common Hour schedules. This practice is to award to the company that performs the best in a parade, a streamer to attach to their company guidon for the week. This new idea has stimulated quite a bit of interest in improvement, not only among the company commanders, but also among the individual members of the companies who want to be more proud of their company.

Colonel Martin, the Chairman of the Bucknell Military Science Department has said that he is quite pleased with the rapid progress that ROTC is making on this campus, but he adds that it has still a long way to go. Bucknell's ROTC is, however, on the road to becoming one of the nation's best ROTC units.

PANHELLENIC COUNCIL SPONSORS ACTIVITIES

Panhellenic Council reports three of their spring activities.

The Panhellenic Council again sponsored a fashion show featuring spring fashions in cooperation with the Lyons Shop in Lewisburg. On Wednesday, April 23, the Bucknell women students paraded before an audience in Hunt Recreation Room in the latest styles including the famous sack dresses. The show began at 7:30 p. m. and was open to all women students, both freshmen and upperclasswomen.

The First Panhellenic Song Contest was held on Tuesday, April 22, at 7 p. m. in the Davis Gym Annex. Each of the nine sororities presented the contest song, "Brother James Air," arranged by Gordon Jacob, and one sorority sweetheart song to be sung a cappella. The three judges, announced on that night, judged the singing on such points as tone quality, intonation, diction, stage deportment, and expression. A gold trophy was presented to the winning sorority, the president of Panhellenic Council, Ann Blake. All Bucknell students, faculty, and friends were invited.

Panhellenic Council held a workshop on Saturday, April 19 at 2 p. m., for the various offices in the sororities. The purpose of the Workshop was to gather old and new ideas from the outgoing and incoming officers in each specific office. A plan-

I WOULD LIKE TO SEE by Dennis Kelly

1. Certain faculty members abducted by Mafia.
2. Age cards not checked at the A.I.
3. The temperature below 80 degrees at the library.
4. The Administration administrator.
5. Speleological club have Cave Man party.
6. More Sem Gems taking engineering courses.
7. Bucknell win a homecoming game.
8. Beer blasts at TKE.
9. The honor system in effect—many fraternities with 3 averages.
10. A Sig on Larison sun roof. ("That'll be the day")

The Economics Club to Meet

The Economics Club will hold a meeting on Monday night, April 28 at 7:30 in Spots Aud. Payment of dues will be collected at that time from students who wish to become active members.

The longest ride, without changing trains, on New York subways is 26 miles.

ned period of discussion was scheduled for the scholarship. Spontaneous Culture, Rush, and Social Chairmen, Treasurer, and Pledge Mothers. Any sorority woman who had ideas or suggestions for these positions was invited to attend the discussions held in the sorority suites.

Conroy's Corner

by Dave Conroy
ODE TO GERRY

Ah, yes! The time eventually comes. When to speak seriously is seriously too tight. To speak with words that can't really express The feelings in one's heart.

And many things happen to one in life. Many things that make life meaningful. But the only time life really means anything is when, indeed, it is much too mean.

Such was the case with beautiful Geraldine. Beautiful internally as well as without—The epitome of beauty personified. The desire of an intelligent man's soul.

Geraldine, the wife of my brother Bill. A face, once viewed, could never be forgotten—Her mind, brilliant and limitless. Was only matched by her overall character.

It truly could be termed a story-book romance Of love that we often dream, College sweethearts, deeply in love. They were united midst Florida's palms.

Oh, how they were so happy! In their love nest in the South's tropical climate. Blest with a beautiful daughter, Kathy. They had everything they could possibly want.

Twenty-four years old both were they. And still looking forth to life's prime—How happily they planned their beautiful life together. Being married two years to the day.

But then that insidious killer Had already begun his work—That sneaking, lethal, dastardly disease For which no cure can be found.

Cancer is his name—it hurts now just to speak the word. Smashed he into bits that tropical love nest. Without warning, without any outward signs And left my brother a youthful widower, his entire world destroyed before his eyes.

The world's finest doctors, an inexhaustible supply of finance—Neither could curb that indiscriminate killer; He had his day, he won his war. And my brother, with tears in his eyes, daily gazed at cancer's wasting victim.

The funeral was held, shortly before Christmas. And the rain cloaked the entire dismal procession—A multithousand dollar funeral, a multi-thousand people attended But the one person who meant so much to Bill, was mute to the entire proceedings.

I stood before the entire congregation—Completely drenched by the appropriate rain. And winced as that immortal form Was returned once more to her dustial state.

I refused to return to the family car, as one by one the multitude left. I rather chose to stand in the rain, and gaze at that speechless, cold grave. And then I thought I heard the voice of the month-old son, Kevin Cry from the arms of his nursemaid, "Mommy, Mommy, where has my Mommy gone?"

And then, in one great train of thought, in one great wren't of this world; But in my overwhelming sorrow, in that dismal cemetery setting, I still asked, over and over again to myself, "Why, dear Lord, why?"

The Giant Killer

The average guy is a sick gadfly Who doesn't have too much to say; But he still talks a lot, 'bout the cold and the heat Through the night and most of the day.

But he must know this much—that he's shallow and such, So he strives to seem more than a boy . . . So this simple young lad becomes hatched man And insults ladies, much to his joy.

And on he raves, about gals and knaves, Their integrity he likes to malign; But when you huck up others, sisters and brothers, Your own empty head shows through fine!

But he pours it on, like some young moron, Who has not a thing else to do; He turns the free press to a nasty of mess: He's a menace to me and to you.

To just sit around, like a lazy old hound And compose to hurt other folks' feelings, Is a big waste of time in this learning clime Where the business should be MENTAL dealings!

But he burns all us blighters with fluid-less lighters, And belaves with the adds to his stature; But with his thoughts of bed, he'd be better off dead—The things he needs most is to mature.

But the time always comes, and even to bums, When they're faced with some opportunity . . . For a job now they thirst—and they get it at first—And it seems they'll enjoy their impunity . . .

But once he's found out, this mis'able lout, They'll ride him from town on a rail; So until such a time, which will be no crime, We'll put up with this nasty ol' male.

—Ed Halsey

Letters to the Editor

Dear "Queer",
Although I've only been here a short time, I feel that I know enough about Bucknell to dispute your attack on what I hope some day to be my alma mater. First I don't think the Bucknellian should have printed such a letter as yours. The Bucknellian is supposed to be a student newspaper, and shouldn't print letters from members of the faculty as it appears that you are from your concern, for faculty pay and use of stilted language. I don't like to be called a "beebling ward".
Once before Jim Chapman wrote a very good article on how we should not criticize our school and how we should talk up its good points when we are at home. I think that it's awful that such a fine group of people as the administrators of our university should be called "sewing-machine-like creatures". While I've had little contact with most of them, I'm positive that they are not what you say they are.
With the exception of you and a few other people that have not been given their way in everything, I have not heard the "dark mutterings" of which you speak.
How can you attack the administration for the construction of the swimming pool. From what I hear it was given by two men as a gift. Certainly it would be bad economics not to accept this generous offer. While I was not to sure what building you were referring to as "the only seemingly permanent 'temporary' building", I can't see how you can call Coleman Hall a playhouse. This like the swimming pool will only help Bucknell get a better grade of students.
I now that it is spring, and the campus is shedding its winter coat when no birds sang, we loyal Bucknellians can walk around the beautiful campus and be thankful that our parents can afford to send us to such a fine place as Bucknell.
A Content, Babbling Ward

CALENDAR OF EVENTS

THURSDAY, APRIL 24			
3:30 p.m.	Baseball vs. Penn State	Home	
4:30 p.m.	WSGA House of Reps. Meeting	Hunt Rec.	
7:00 p.m.	Men's Glee Club Rehearsal	Vaughan Lit. Aud.	
7:00 p.m.	Cap and Dagger Rehearsal	Bucknell Hall

7:00 p.m.	Cap and Dagger Rehearsal	Bucknell Hall	

DRAMA GROUP SELECT Christian Professors VOGELER AND LANNING Attend Cowan Confab

Theta Alpha Phi, the national dramatic honorary, recently chose two new members: Doris Vogeler and Martha Lanning. Dottie is a junior from Westfield, N. J. In addition to designing the set for Angel Street, she was the assistant designer for South Pacific and Guys and Dolls. She has also been the technical director of St. Joan and the head of the costumes of The Birds. These activities led to her election to the vice presidency of Cap and Dagger. Outside the realm of the theatre, Dottie is a member of the Christian Association, the W. R. A., and she was recently elected Senior Representative of the Independent Women's Council.

Marty Lanning, also a junior, comes from Towson, Maryland. Marty was the head of the costume department for the Glass Menagerie. For a job now they thirst—and they get it at first—And it seems they'll enjoy their impunity . . .

But once he's found out, this mis'able lout, They'll ride him from town on a rail; So until such a time, which will be no crime, We'll put up with this nasty ol' male.

—Ed Halsey

DALE EVERING HEADS NEW HONOR COUNCIL

Four weeks ago ten women were elected by the women students to serve on Honor Council for the year 1958-59. Dale Evering, heading the new Honor Council as chairman, is a junior counselor, vice president of Pi Phi and works in the Bucknell Self-Study. First semester of this year she was assistant head resident of Larison and in the Queen's Court at the Military Ball.

As one of the three senior representatives (excluding the chairman) Joyce Mehring, who is studying for an A. B. degree in math and chemistry, is corresponding secretary for Alpha Chi Omega. Musically inclined, Joyce is a member of the Band and the Women's Glee Club; she is also the social chairman of German House. Shirley Culbertson is the song chairman of Pi Beta Phi. While I've had little contact with most of them, I'm positive that they are not what you say they are.

Brand And Students Attend State Meeting

Walter Speck and William Sharkey, geography majors, will accompany Dr. Brand to the spring conference of the Pennsylvania Council for Geography Education. The meetings will be held in Reading, Pa. on April 25 and 26. The Geography Department of Bucknell University was host to the PCGE conference in the spring of 1956.

The theme of the program is "Setting the Stage for Functional Geography Education". Of special interest to the students will be the Junior Geographers Society Function at the Berkshire Hotel on Friday evening, and special sectional meetings, including a get-together of senior clubs of College Groups with a panel discussion on the subject: "Developing Sound Philosophies and Procedures for Learning and Teaching Geography".

The Friday evening session will feature an illustrated lecture on present day Belgian Congo by Dr. Katherine T. Whittemore of Buffalo Teachers College. The keynote speaker at the Saturday morning general session will be Dr. H. Phil Bacon of Columbia University who will address the group on "Curriculum". Professor Brand is vice president of the organization and is director of publicity for the Reading meeting.

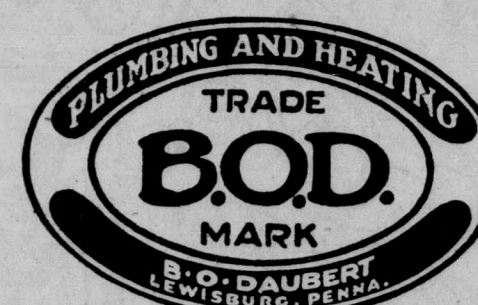

Students Select Nine For Council

The Independent Women elected nine representatives to serve on Independent Council for the coming year. Miss Mary Jean Brand is speaker at the Saturday morning general session will be Dr. H. Phil Bacon of Columbia University who will address the group on "Curriculum". Professor Brand is vice president of the organization and is director of publicity for the Reading meeting.

MENNON SPONSORS 'SMEDLEY' CONTEST

Beginning this month, The Mennon Company (a leading manufacturer of men's toiletries) will give \$25 for each college cartoon situation submitted by a college student and used in this newspaper. The cartoons feature "Smedley," a forlorn-looking collegian who is always shown getting the brushoff because he doesn't use Mennen Spray Deodorant (a man's deodorant). Students wishing to enter the contest should send a sketch or description of their cartoon idea to The Mennen Company, in care of "Smedley," Morristown, New Jersey.

LIBRARY CONVERTS LOUNGE FOR FACULTY

A lounge for use by Bucknell faculty members was opened yesterday afternoon in the Ellen Clarke Bertrand Library, where teachers and administrative officers enjoyed a social hour prior to the regular monthly faculty meeting.

The new Faculty Lounge is located in the Treasure Room on the second floor of the library. The room will continue to serve as both a Treasury Room and Faculty Lounge until other space becomes available for use by the faculty. The Lounge has been attractively furnished and provides facilities for a "coffee break", for afternoon tea, and for bridge or reading. Use of the Lounge will be restricted to faculty members, and students may occupy it by invitation only.

Applications Offered For Naval Careers

The United States Navy is offering a chance to work in the Nation's Civilian Service. Applications are now being accepted for stenographic and secretarial positions (\$3415-\$3670 yearly) located in Navy Headquarters, Washington, D. C. These are permanent or career-status positions with excellent opportunity to advance into supervisory, professional and administrative openings. Housing is arranged prior to appointment's arrival in Washington. Positions are available immediately and continuously throughout the year. Write or call, Miss Julia Behnke, Navy Civilian Representative, Old Post Office Bldg., 300 Smith field St., Pittsburgh, Pa.—EXpress 1-2560 for further information.

WVBU's past program director, Jake Kessler, was interviewed by two Geneva students. The interview was tape recorded and played over station WBVP, a commercial station in Beaver Falls.

WBVP donates fifteen minutes of time to Geneva every Saturday at 9:15 a. m. At this time the Geneva students present a program entitled "Hilltop Highlights" to give the public attention to various campus activities.

Junia College Speaker
Dr. Mark M. Ebersole, associate professor of religion and University chaplain at Bucknell, spoke to the students of Junia College at their chapel exercises Sunday. Subject of his talk was "Living for Today". Dr. Ebersole was a guest chapel speaker at Junia last year and was invited to return for a second sermon.

WSGA Schedules Annual Exercises

WSGA's annual Moving Up Day exercises will take place at the Lewisburg Baptist Church Wednesday, April 30, at 7:00 p. m. Women students should be in front of the church to line up at 6:45 p. m. Highlights of the ceremony will be the Mortar Board Ceremony, presentation of the Pat Dickinson Award, and the announcements of the WRA Board, the Junior counselors and the head counselor, the head residents and assistant head residents, and special permissions granted the classes. A feature this year will be an address on the true significance of the Honor System by Dean Stevenson.

Guides for the classes are as follows:
Freshmen: Bonnie McLaren, Linda Hardy; Sophomores: Nancy Dean, Babs Good; Junior: Linda Louise Thompson, Carole Westerman; and Seniors: Anna Shultz, Alice Brewe. The class song leaders are: Freshman, Mary Lee Foote; sophomore, Rachel Robbins; junior, Ann Blake; senior, Carol Faust.

DR. HAROLD W. MILLER RECEIVES LECTURESHIP

Dr. Harold W. Miller, professor of Greek and Latin at Bucknell University, has been selected as the 1958-59 holder of the Class of 1956

graduate of Wofford College, the well-known B. U. professor received his doctorate in philosophy from Duke University, where he was twice named as Fellow in Greek. Later, he was fellow-by-courtesy at Johns Hopkins University.

BU Drops Two Over Weekend

Last Friday the Bisons traveled to Heggins, Pa., to help honor their home-grown boy, Lafayette shortstop, Tommy Morgan. Bucknell was there, but Morgan and his teammates were the whole show. Collecting three hits, and excelling in the field, Morgan along with pitcher Evanko and third baseman Al Caesar, guided the Leopards to an easy 12-0 win.

Bill Walasek started on the mound for Bucknell and held Lafayette up until the third when singles by Evanko, Morgan and Caesar gave Lafayette a 2-0 lead. Walasek ran into more trouble in the fourth when Evanko walked, Kline singled, and Morgan again singled, bringing in MacDonald for the Bisons, who gave up a single to Caesar, making it 5-0. From this point on Fred MacDonald pitched well, although he was a bit wild. Brian O'Leary pinch-hit for MacDonald in the seventh, and Haley came in to pitch the seventh. Bolman greeted him with a single, Sloan reached first on Haley's error, and Evanko helped his own cause by singling in two runs to give him a safe 7-0 advantage.

That was not all for Lafayette; two walks, another single by Caesar, and two more walks to Nikles and Sloan, the latter with the lead, made it 9-0. Haley was relieved by Moore in the eighth, and Lafayette scored three in the ninth on a walk to Beneder, a double by Tommy Morgan, scoring one, an infield grounder to first by Kesler scoring another, and a single by the clutch-hitting Al Caesar.

Evanko, Morgan, and Caesar were too much for the Bisons, and only singles by Ron Staley, Dale Feder, and Dick Pitko, put the Bisons in the box score. Evanko was very effective, fanning 10 and never in serious trouble. Tommy Morgan deserved the enthusiasm his home town gave him and Caesar was a star in Bucknell's side all afternoon. There is little to say on the Bisons part; just look at the box score.

A FAREWELL TO DA BUMS, GIANTS

by Clem Schaefer

Poets, philosophers and sports-writers have written that the loneliest spot in the world is a ball park in the winter. A stadium empty except for a few pigeons in the rafters, scattered newspapers blowing through the grandstand, with an overcast sky and a touch of snow in the air. But always there is spring and with it, the hope that is eternal in every young heart when a young man's fancy turns to two tickets behind first base for the first Giant-Dodger game.

Spring has returned to New York, the flowers are coming up, all the summer beer ads have been posted, but the Giants and the Dodgers won't be coming back. California has severed the two teams to the west coast. The Polo Grounds and Ebbets field are quiet and the successors to Matty, Jackie Robinson, Mel Ott, Babe Herman, John McGraw and Dixie Walker are playing in front of strangers.

New York has lost more than two ball clubs, what are the guys at the corner newstand going to talk about? Sure Lana and Stompanato are topical and you could blast John Foster Dulles for the weekend, but Mays and Mantle is an all year around hit. How about the kids who use to sit in the centerfield bleachers and knew all the batting averages? The henpecked guy who came to box, and the lady who spills coffee on you at the game.

No more bus excursions from the suburbs and somebody blowing a trumpet in your ear. What will happen to all these good folks.

Maybe they'll build a parking lot at the scene of the Thompson incident under Cogan's Bluff and a playground where Cookie Lavagetto banged a pinch-hit double to win a series game and gain himself a place in the heart of Brooklyn with Coney Island, Brooklyn Bridge and that tree wherever it is. Somewhere a baby will laugh again and the gray clouds will part, but no matter how many Philly games are on television we'll remember Maglie mowing down the Dodgers or Robinson going from first to third on a bunt. The "Barber" just wasn't the type

as today's return encounter with Penn State draws nearer. Ellis Harley at 304 and Larry Shapiro at 1,000 (3 ab's) are the top hitters, and with a little help from potential hitters like Pitko, Dempster, and MacKay, the Bisons may roll, but as of now, too much has depended on the pitching staff and the defense has not been strong enough to help this weakness.

LATE NEWS! Bucknell's tennis team took its fifth straight victory of the season by crushing Gettysburg 5-1. However, the B. U. golf team dropped an 8-10 decision to the Bullets of G-burg.

Bucknell finally got to Caswell of Dickinson in the top of the sixth, when Larry Dempster, opening at first base, doubled home Pederson and Dick Pitko, put the Bisons in the box score. Evanko was very effective, fanning 10 and never in serious trouble. Tommy Morgan deserved the enthusiasm his home town gave him and Caesar was a star in Bucknell's side all afternoon. There is little to say on the Bisons part; just look at the box score.

Along the Bison Trail

Sports Editor, Stratton White

Several weeks ago I stated that Spring was here, etc. but old man winter promptly came storming back for another try. I also mentioned where a young man's fancy was turned. However, most men on this campus are now intently observing the tightest intramural race seen here in many years.

There are five teams very much in the I-M race. SAE is 24 points in first place, but there is only a 4½ point difference between the 2nd place Phi Gam's and the fifth place Phi Psi's.

Track could affect the I-M race in several ways. If the first five teams receive the same amount of points they did last year then the race would narrow down to a two horse duel—probably going right down to the wire. If DU receives 75 points from track they would be in first place with 410½ points. If SAE receives 39 points they would drop to second with 402½ points. If the Phi Gam's pick up 30 from track they would drop to third with 389½ points. Kappa Sigma with 27 in track would fade out of the picture with 360½ points. PKP would also be out of the running if they only pick up 21 points in track, which would give them 354 points and fifth place.

This article will have been completed long before the track results have been tabulated. As I see it the DU's will win the track trophy and win as many points as they did last year. The SAE's will not do as well as they did last year. The Phi Gam's, Kappa Sig's, and the Phi Psi's will do better than they did last year which will keep the race tight. However the big battle will be between the DU's, the SAE's, and the Phi Gam's.

The boys of the purple and gold were bridesmaids last year, but have been fighting very hard for the first all year trophy in their victory. However I am quite sure that after track the Demies will be in first place or so close to it that the point spread might be in the fractions. I think that everyone figured the DU's to win track easily, of course, I had no idea how many points Delta Upsilon would pile up in track, but if it is not an overwhelming amount then they will be in trouble. There is no doubt that the DU's and the men of Minerva will have to show something in softball and golf if either of them expect to win.

Of all the teams in the race the Phi Gam's stand a very good chance for the simple reason that they are figured to be strong in softball and golf. If the Gam's do well in track then they will be very much in the I-M race.

The Phi Psi's stand an outside chance due to their softball prowess. However if they do well in track then they will stand a very good chance. Unless something unforeseen happens, I think that the Kappa Sig's will fade in softball and golf.

As it stands now the outcome in the intramural race will depend upon how well the DU's do in track. The SAE's have fought off spurs by other fraternities but they seem to be fading in the last round and the DU's have them right where they want them—on the ropes.

Netmen Take Two

by Charley Siede

The "Petersmen" earned a four-game winning streak on Friday and Saturday when they surpassed Dickinson, 6-3 at Carlisle, and St. Joe's, 8-1 on our home courts.

The good weather this past week allowed the boys to play every day, and, in my opinion, they are beginning to play as they should have opening day. Of course there still is much to be desired, but if the weather allows outdoor practice the squad should be prepared for the telling match with the University of Pittsburgh here on Friday.

Against Dickinson, the doubles were again called upon to decide matches as the singles score was deadlocked at 3-3. Coach "Hank" Peters laid off his first six men to see what his bench had to offer and was quite pleased with the results. Wiegand and Pulizzi defeated Riley and Gruszka, 6-3, 6-2. Reubel and Sweetman beat Bozzelli and Sullivan, 6-1, 6-0. However, Riggs and Yates, playing their first varsity match, lost a close one to Glynn and Agger, 3-6, 6-3, 1-6.

Bob Poindester, BU's third singles man, lost another three-set heart-breaker to Art Duell, 6-2, 9-11, 3-6. Bob had four match games in the second set, but could not pick up one of them. After this hard loss he was never able to get control of himself, making numerous errors and more or less losing the match to himself.

Hank Livas had no trouble with Dickinson's fourth man, By Quann, 6-3, 6-0. "I should have beaten him love and love," Livas said with a smile.

"Backboard" Goecker was polite in giving fifth man, Chuck Payne, three games, as he decisively won, 6-1, 6-2.

BU's Tommy Cowen, who has not come near to playing his best, lost three sets to Dane Ayers, 5-7, 6-2, 4-6. What Dane lacked in pace was made up by his court coverage—thriving upon Tommy's errors.

In doubles, Poindester and Sweet won by default over Spahr and Duell. Spahr's partner developed cramps and could not continue. Livas and Siede, who have not lost together at doubles matches, controlled Waxman and Quann, 6-3, 6-4. Wiegand teamed up with Goecker and easily conquered Rowe and Willard, 6-2, 6-2.

St. Joe No Match For BU The St. Joe's match did not show too much excitement, but it did offer a few sophomores a chance to gain

some experience. The Bisons had a little trouble with their opponents. The match was decided in the first five singles.

Bill Sweet defeated Vic Riley, 4-6, 6-4, 6-0 at first singles. Jim Agger didn't show too much as Chas. Siede easily obtained a 6-3, 6-2 victory at the number two slot. Third man, Bob Poindester quickly disposed of Phil Glynn, 6-2, 6-2. Hank Livas gave Jim Sullivan a courtesy game, as he tallied a love and one victory.

"Backboard" Goecker, who has the best individual record, thus far, proceeded to pound Bob Gruszka, 6-3, 6-3. I the final singles match Tommy Cowen trounced Jim Bozzelli, 6-3, 6-0.

Coach "Hank" Peters laid off his first six men to see what his bench had to offer and was quite pleased with the results. Wiegand and Pulizzi defeated Riley and Gruszka, 6-3, 6-2. Reubel and Sweetman beat Bozzelli and Sullivan, 6-1, 6-0. However, Riggs and Yates, playing their first varsity match, lost a close one to Glynn and Agger, 3-6, 6-3, 1-6.

Bob Poindester, BU's third singles man, lost another three-set heart-breaker to Art Duell, 6-2, 9-11, 3-6. Bob had four match games in the second set, but could not pick up one of them. After this hard loss he was never able to get control of himself, making numerous errors and more or less losing the match to himself.

Hank Livas had no trouble with Dickinson's fourth man, By Quann, 6-3, 6-0. "I should have beaten him love and love," Livas said with a smile.

"Backboard" Goecker was polite in giving fifth man, Chuck Payne, three games, as he decisively won, 6-1, 6-2.

BU's Tommy Cowen, who has not come near to playing his best, lost three sets to Dane Ayers, 5-7, 6-2, 4-6. What Dane lacked in pace was made up by his court coverage—thriving upon Tommy's errors.

In doubles, Poindester and Sweet won by default over Spahr and Duell. Spahr's partner developed cramps and could not continue. Livas and Siede, who have not lost together at doubles matches, controlled Waxman and Quann, 6-3, 6-4. Wiegand teamed up with Goecker and easily conquered Rowe and Willard, 6-2, 6-2.

St. Joe No Match For BU The St. Joe's match did not show too much excitement, but it did offer a few sophomores a chance to gain

some experience. The Bisons had a little trouble with their opponents. The match was decided in the first five singles.

Third man, Bob Poindester quickly disposed of Phil Glynn, 6-2, 6-2. Hank Livas gave Jim Sullivan a courtesy game, as he tallied a love and one victory.

DEMIES TAKE TITLE

by Doug Grigg
The 1958 intramural track meet, got under way this past Tuesday and Wednesday after being rained out on Monday. The DU's, largely due to the efforts of Dick Boddie, who won the 120 high hurdles, the 220

low hurdles, the broad jump, and placed second in the high jump, walked off, as usual, with another intramural track trophy. Although Dave Lynch won the mile run for the Demies, it was their depth that proved the difference in the outcome

of the meet. By winning the track Broad Jump—(1) Boddie, D. DU; (2) Wagner, C. SX; (3) Thompson, D. PGD. 20 ft. 6 1/4 in.

FOWL PSYCHE PROVES HUMAN

The most dominant bird in a flock of hens—the leader—can be psychologically trained to become the most subordinate member of the flock. This is the conclusion of a study reported today to the annual meeting of the Eastern Psychological Association, by Wendell I. Smith of Bucknell University, Lewisburg, Pa. and E. B. Hale of the Poultry Husbandry Department of Pennsylvania State University at University Park, Pa., who studied groups of White Leghorn hens.

For many years psychologists have studied what is called "the pecking order" among fowl. This is the term describing the regular order by which a flock of chickens for example, may be ranked. A certain bird gets first peck at meal-time, then comes the No. 2 rooster or hen. After No. 2, comes No. 3, and so forth. The other chickens recognize that there is a regular order of pecking. This phenomenon of "pecking order" has been of great interest to sociologists and psychologists because examination of the factors involved has proved illuminating to studies of human behavior. (At diplomatic dinners the Chief of Protocol who calculates which person goes in first and which persons sit at the head table may be said to be dealing with "the pecking order" among that group of human beings.)

Smith and Hale, in their experiments, began by establishing which hens had naturally come to be recognized as the dominant chickens in their groups. Then the experiments began a conditioning procedure which punished these dominant eaters for such things as threatening or attacking their colleagues.

A hen at the bottom or at the top of the social scale was able to change rank, to learn the new order of things, twice as soon as a hen in the "middle class" in the pecking order. Some hens at the very bottom were able to learn that they were now feared (because the others had been punished for attacking them) and ultimately accepted the idea of being No. 1 boss. They went from the bottom to the top of their social scale.

The new pecking orders established by conditioning had remained

Pass In Review

by William Meister

This week I have some very good news to write about Pershing Rifles. Our unit did very well at the Indianapolis Gap Military Reservation where it participated in the fifth Regimental Drill Meet. Competing against 19 other schools, including four military colleges, Bucknell took third place in basic drill competition. PMC finished first, and VPI, second, ahead of Bucknell in this event. Congratulations are in order for Cadet Major Charles E. Lizza, Company Commander of Pershing Rifles.

Bucknell entered two men in the Individual Drill competition. In all, there were 27 men entered in this event, in which one mistake eliminates one. Oliver Cannon, a Bucknell freshman, tied for second place and Thomas Kulp, another freshman placed fourth. We can be very proud of these two men, as well as the whole unit, for competing so successfully against all 19 schools, particularly the four military colleges.

Jeanne Thomas was presented an award by the Cadet Colonel of the Fifth Regiment for her selection as honorary sponsor of this regiment. She is now in competition for the position of National Sponsor of Pershing Rifles. General Vanderheide, Commanding General of the Twenty-first Army Corps, lauded Jeanne for her beauty in an address he delivered. He said that Bucknell's Pershing Rifles' unit, as well as the Fifth Regiment, could not have made a better choice.

Bucknell's Rifle Team journeyed to Pittsburgh to face Carnegie Tech and Gettysburg in a triple meet. Carnegie, divisional champions, won their home range, won with a 1419 score. Bucknell, in firing its worst score of the year, 1368, still defeated Gettysburg by 50 points. The team did very well under the circumstances.

On behalf of the Regiment, congratulations are due Colonel Martin on his promotion to full Colonel. We at Bucknell know that he can wear his "eagles" proudly. The work they now feared (because the others had been punished for attacking them) and ultimately accepted the idea of being No. 1 boss. They went from the bottom to the top of their social scale.

stable for six weeks following the training; Smith and Hale conclude the changes were stabilized.

CAPT. HERBERT F. ECKBERG

by Jim Chapman

Captain Herbert F. Eckberg graduated from the United States Naval Academy on the second day of June, 1927, receiving a Bachelor of Science in Naval Science. From that time until August 31, 1956, when he retired, Captain Eckberg served with the United States Navy, fulfilling many varied jobs. During the Second World War, Captain Eckberg, then an Executive Officer aboard the U. S. Brooklyn, witnessed action on the West Coast of Italy and the invasion of Southern France.

However, not all of his Naval career was spent on ship. The years between 1946 and 1948 found Captain Eckberg in Washington, working in the Office of the Chief of Naval Operations in connection with training Latin-American Naval personnel. In 1950 he was sent to the Canal Zone as the director of Intelligence of a Caribbean Command, co-ordinating the operations of seven U. S. Intelligence agencies. He left the Canal Zone in 1952 and in 1953 became Commander of the Amphibious Fleet of the Sixth Fleet.

As a flashback, Captain Eckberg attended the University of California where he received his Masters degree in Mechanical Engineering in 1937. He is secretary-treasurer of Pi Sigma Alpha, honorary political science fraternity, and a member of Pi Gamma Mu, honorary social science fraternity, and Delta Sigma Phi, social fraternity. Henry received his B. A. to the Bucknell campus in 1956 at Alfred University, Alfred, New

York, when he came here as the Director of Mechanical Engineering. The following year, he was promoted to the Director of the College of Engineering. Concerning his department, Captain Eckberg feels that we are well on the way to becoming one of the best undergraduate engineering schools in the country. To attain this goal, the department is gradually switching from an emphasis in its courses on descriptive work to an emphasis on the fundamentals of engineering. The important thing is not to let the departments lag in the advancements that are being made in engineering, he viewed, and added that it is becoming increasingly difficult to graduate from the Bucknell College of Engineering.

Captain Eckberg feels that the greatest advantage engineers at Bucknell have is that they are mixed with the Liberal Arts students, and consequently are exposed to many different fields of endeavor. Concerning the future, Captain Eckberg can see nothing but improvement in the College of Engineering, and is confident that this improvement will be realized.

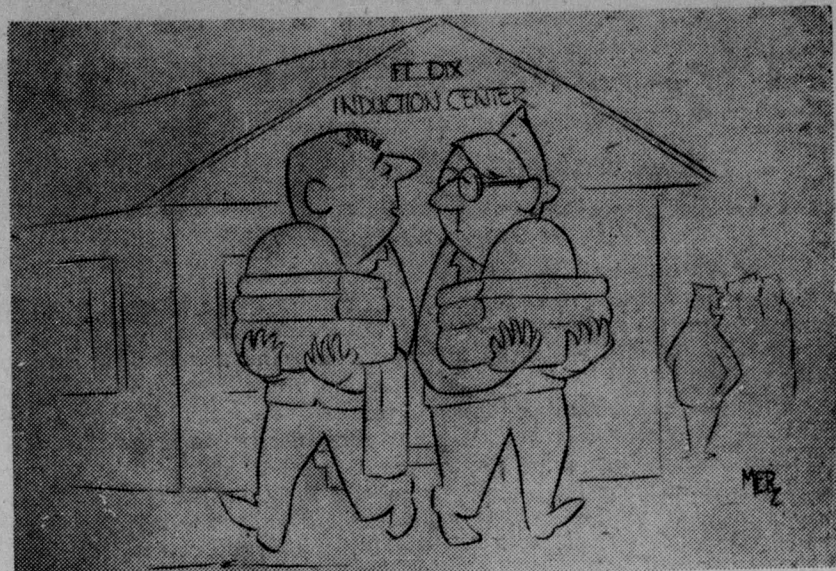

STUDENTS TO ATTEND AMERICAN UNIVERSITY

Two Rochester residents have received awards at The American University, Washington, D. C. They are Henry Kass, Jr., son of Mr. and Mrs. Henry Kass, 1368 Ridgeway Avenue, and Carl A. Weeger, son of Mr. and Mrs. Fred A. Weeger, 155 Manor Parkway.

Henry has been awarded a full tuition government internship and an assistantship to the Director of Evening and Special Studies. A government major, he is now studying in a Washington Semester scholarship and will receive his M. A. from The American University in June and will begin work toward his Ph. D.

He is secretary-treasurer of Pi Sigma Alpha, honorary political science fraternity, and a member of Pi Gamma Mu, honorary social science fraternity, and Delta Sigma Phi, social fraternity. Henry received his B. A. to the Bucknell campus in 1956 at Alfred University, Alfred, New

Sigma Chi — The brothers and their dates.

Sigma Phi Epsilon — Lynne Hodges, pledges, and brothers.

Theta Chi — Nanette Transe, Bonnie Steele, Norma Jean Renninger, Sue Stokes, Suzie Van Pelt and Bert Angerman.

Form Letter Serves To Confuse Parent

A student recently received this letter in the mail.

"Dear . . .

I received a very disturbing letter today in regard to your marks. I don't know whether you received one or not but I just don't understand how I could be on the Dean's List and then have your mid-semester grades below the level of C. Is this a mistake or what is wrong for them to let me know about such marks? It sure has me upset as I thought you were doing so good, being on the Dean's List should warrant you more than a below C average. So will you please let me know what it is all about as I just don't understand it. The letter was sent to me but the heading was to you. In case you didn't get a notice about the marks let me know and I will send it to you. The letter was

signed by a Karl Hartzell, according to the letter I received telling me how proud Bucknell was to have you as a student and saying what an enviable record in your academic work this past semester, was also signed by him. First he writes to congratulate me then sends another letter with a report, I quote, "We hope that you will not be satisfied with grades below C." Will be waiting to hear from you in regards to this and certainly hope it is a mistake.

Love,
Mom
"P. S. In reading the letter sent to me about you being on the Dean's List I see that Mr. Hartzell is the Dean of Bucknell. Should I write to him and let him explain it to me or will you see about the matter and then write and let me know, so I'll know what it's all about."

Private Schools Offer Rewarding Positions

Liberal arts college students graduating this spring should consider the job opportunities in high caliber private schools. According to Miss Mary Watson, Director of the Cooperative Bureau for Teachers, there is a great demand for liberal arts graduates as teachers in the private school field.

"Many liberal arts students do not realize that it is possible to obtain teaching positions without a degree in education," Miss Watson said. "In fact many independent schools prefer teachers with a sound and thorough liberal arts background over those who have specialized in teacher training."

Miss Watson qualified this by pointing out that "this does not mean there is not also a great need for teachers with specialized training in education. It does mean, however, that students who have not taken education courses can also find interesting and rewarding positions in the teaching profession."

Miss Watson represents one of the leading and best known non-profit teachers recruitment and placement agencies in this country. Its policies are determined by a board of educators from private schools, public schools and colleges and universities. Dean Edward K. Graham of Boston University is chairman of the Governing Board.

"Beginning salaries in top-level private schools range from \$3000 to \$4500 depending upon qualifications," Miss Watson said. "Private school teaching positions offer the young man or woman who wishes to devote his life to scholarly pursuits a pleasant and gracious life of service in an attractive and interesting environment. Many of the private schools offer excellent maintenance facilities in addition to salary for married as well as single teachers."

Students interested in further information regarding such job opportunities may do so by writing the Cooperative Bureau for Teachers, 22 E. 42nd Street, New York City. In cases where a personal interview in New York is not possible, arrangements can be made to meet and talk with members of the Board of the Bureau, teachers and administrators in educational institutions throughout the country.

Whatever you may be sure of, be sure of this: that you are dreadfully like other people.

According to a Rutgers survey, 21% of expectant fathers forget that their wives are pregnant. This little fact, however, is brought home to them later.

No, my boy, the Gaza Strip is not a dance.

Camp Positions Available

opportunity to test their practical abilities.

A last chance for a full summer in the country.

For most college upper classmen, it will be year-around work and "two short weeks with pay" after graduation. Camp jobs offer a summer in the country and money to bank as well.

Qualifications for these jobs are at least a semester of college, current day school attendance and some group leadership experience, either

paid or volunteer.

Openings are in camps throughout the North Atlantic States and students can usually pick the location and kind of camp in which they would like to work.

Miss Sobel urged interested students to request applications immediately, or, if they will be in New York City, to visit the Camp Unit of the State Employment Service, 119 Fifth Avenue, for a personal interview.

GRADUATE THEN FLY

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised immediately of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

ESSO RESEARCH works wonders with oil

Oil helps create a new world of fashion

A fine wool sweater owes much of its lovely look to a special oil developed by Esso Research. By lubricating the threads during knitting, it helps them mesh together smoothly and evenly. After knitting, the oil is easily removed. Without oils like this, the springy texture and intricate designs of today's fashionable woolsens wouldn't be possible. Again **ESSO RESEARCH** works wonders with oil.

Renaissance Photos Now On Display

More than 50 photos depicting the work of three Renaissance architects have been placed on display in the Music and Art Building at Bucknell University, where they may be seen by visitors to the campus until May 25.

Some of the photos are located in the Green Room on the ground floor of the building while the others are being shown in the third floor hallway, according to George L. Hersey, instructor in art, who obtained the photos on loan from the American Federation of Arts in New York City.

Architects whose creations are pictured in the exhibit are Filippo Brunelleschi, Leon Battista Alberti, and Andrea Palladio, the outstanding architectural geniuses of the Early and High Renaissance in Italy. The photographs are the work of Rolfe McKenna, foremost architectural photographer, who was commissioned last year by the Museum of Modern Art to photograph modern Latin American architecture in South America.

The exhibition consists of 14 photographic panels, a title panel, and three caption panels and is now being circulated nationally by the American Federation of Arts.

Brunelleschi first attained fame when he designed the huge dome covering the old gothic Cathedral of Florence, a construction that proved to be the greatest engineering feat of the Early Renaissance.

Alberti, who was a painter, poet, philosopher, and musician as well as an architect, wrote the first architectural work published after the invention of printing, a work which influenced many later architects. Palladio, who published a survey of the whole field of architecture, likewise influenced many later architects who adopted his ideas.

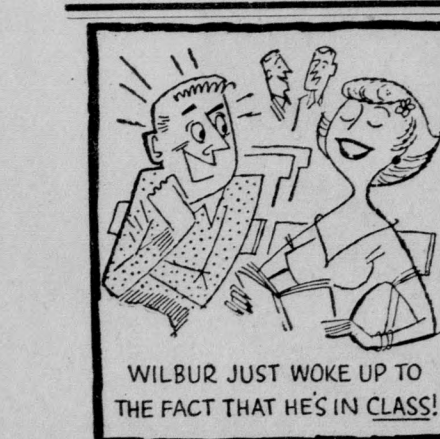

DR. HARLOW SHAPLEY COMES TO BUCKNELL

Dr. Harlow Shapley, noted scientist and former director of the Harvard University Observatory, will spend the week of May 5 and 6 at Bucknell University as a Phi Beta Kappa Visiting Scholar and will give several lectures during his stay on the campus. Dr. Shapley, who retired from Harvard faculty in 1956, is serving during the current college year as a resident lecturer at various American colleges and universities in a program sponsored by Phi Beta Kappa.

Under this program, the fraternity invites some of the country's leading scholars to lecture at institutions having Phi Beta Kappa chapters and to meet informally with students and faculty members. Dr. Shapley, who was director of the Harvard Observatory from 1921 until 1951, became professor of astronomy, emeritus, when he was retired from teaching two years ago.

One of the nation's best known astronomers, Dr. Shapley has served as president of both the American Academy of Arts and Sciences and the American Association for the Advancement of Science. Author of two books, he has been the recipient of numerous scientific awards in recognition of his contributions to the field of astronomy.

A clove tree becomes profitable only after ten years of growth, while a coffee tree produces after four years.

Ham Operators Move Outside

In conjunction with an open house at the Engineering Building scheduled for Saturday, May 10 from 12 a. m. to 1 p. m., the Ham Radio Club will move its station outside the building for the interest of visitors, according to George Drake, president. They will establish antennae and operate as if there were emergency conditions, talking by voice and code in different stations in a 100-mile or more radius.

A "worked-all-states" contest is being held throughout the nation and the Bucknell station, whose call letters are W4RFB, and made twenty-five confirmed contacts up to the present. Within the local group, Mike Ingram, whose call letters are K2HZE, is leading.

During Easter vacation several members of the club contacted each other at a pre-determined time and frequency from their home stations. The purpose of this project was to hear the quality of the various stations, which included those from Philadelphia, Sunbury, and Hadonfield, Princeton, and Trenton, New Jersey.

Recently purchased by the local organization were confirmation or acknowledgement cards containing the station call letters and address.

Engineering Honorary Initiates Five Men

Tau Beta Pi, the national engineering honorary scholarship society, held initiation for five men and presented a Woman's Badge Award Thursday evening, April 17. Those initiated were Blaine Bardo, Robert Reichenbach, and Stephen Thorg, seniors, and George Scherer and Suh Yong Lee, juniors. Mrs. Margot Hettich, whose husband is now a member of the honorary, received the Woman's Badge Award which is presented to women of outstanding achievement because women are not eligible for initiation into Tau Beta Pi.

The initiation ceremony took place in the Engineering Building, and the Lewisburg Hotel was the scene of the banquet which followed. Faculty members and members of the society were in attendance. The speaker was Professor Vadim G. Drozin of the Physics Department.

George Hettich recently took office as president of Tau Beta Pi, and the other officers include Richard Widenberger, vice president; George Scherer, recording secretary, and Suh Yong Lee, corresponding secretary.

Purdue University has come up with the answer to at least one of the problems of its taller male students, including some basketball players. The beds in the spacious dormitories are seven feet long.

SIGMA DELTA PI ELECTS '59 OFFICERS

Sigma Delta Pi, the national Spanish Honorary, elected officers for 1958-1959. Wilma Nies, a junior Spanish major, will serve as president. Carolyn Nalbach, also a junior, is vice president and Don Pieper is secretary-treasurer. Formal installation of these officers will be held on May 7. The purposes of Sigma Delta Pi are to promote a wider knowledge and love of Hispanic contributions to modern culture and to foster friendly relations between nations of Hispanic speech and English speaking countries. At the meetings, speakers lecture on topics of interest to the group. Recently, a student reported on her tour of Spain. Also, a dinner featuring popular Spanish cuisine was served. The advisor of Sigma Delta Pi is Miss Gonzales.

Chapel Speaker

(Continued from page 1) He went on to receive his M. A. from Columbia University; he graduated from Union Theological Seminary and got his Ph. D. from Columbia. Some of the books he has written are *Date with Destiny*, *How to Live and Lord's Prayer*.

Artist Series

(Continued from page 1) Other activities for parents and friends on both Friday and Saturday will include a Calloway System Medal Golf Tournament at the golf course, a student art exhibition in the library and an elementary education art exhibition in the basement of the Carnegie Building.

At 8:30, both Friday and Saturday evenings, Cap and Dagger will present "Thieves Carnival" at the Lewisburg High School and the Men's and Women's Glee Clubs will give a combined performance at Davis Gymnasium.

Saturday morning will be taken up by a ROTC regimental inspection at the Memorial Stadium, and meetings of the Fathers' and Mothers' Associations. The chemistry engineering, biology and physics laboratories will be open to the public from 10:00 a. m. until noon.

In addition to the May Day program, a baseball game with Albright is scheduled for Saturday afternoon.

Lost—by a visitor to the Bucknell campus, a bunch of keys, probably in the vicinity of the gymnasium or science building. It will be appreciated if anyone finding such an item will contact the Science Fair office, Room 123, Engineering Building—or call Ext. 306.

More than 2,800 languages are spoken throughout the world.

Houseparty Weekend Festivities Announced

Dances and picnics will be the order of the day as Bucknell's thirteen fraternities celebrate houseparty weekend on May 4, 3, and 4.

To be eligible for the position of junior counselor a girl must have an overall scholastic average of at least 1.7. Of the eight-three girls selected for the position, approximately 50 girls showed their interest in the position by having an interview with Miss Ginger Wolfram, assistant dean of women in charge of freshmen.

Counselors are then selected from those girls eligible and interested on the basis of recommendations from their own counselors and head residents, a vote of the sophomore women, experience of the present counselors, and approval by the dean of women's office. Those sophomore girls chosen as next year's counselors are:

Sue Allich, Sandy Caryl, Jane Elam, Peggy Hollinshead, Marjory Kuhn, Sandy Hjortberg, head counselor, Marty Lauver, Magy Jane Louis, Barbara MacDougall, Sherry Rhone, Judy St. Clair, Bonnie Steele, Jeanne Thomas, Jane Welhofer, Joan Fierell.

There will be fifteen counselors instead of seventeen as in previous years due to an unusually low drop out rate in the present freshman class.

Head residents and assistant head residents are selected by the dean of women's staff on the basis of campus service, leadership and responsibility. Next year's head residents and assistant head residents will be: Anne Rogers, Dawn Beatty, Barbara Dunning, Molly Wolford, Joyce Mehring, Ann Norris, Joan Trimble, Wilma Nies, Shirley Colbertson, Marilyn Ekkis, Wilma Bauer, Carol Castaldi, Hunt, Cynthia Blunt, Lou Linton, Jane Roudsabah, Harris Kay Anthony, Ruth Ann Walker.

The new members for Mortar Board, National Honorary are: (Continued on Page 8)

DR. BODDIE MAY 7 CHAPEL SPEAKER

The speaker at the chapel service on May 7 will be Dr. Charles E. Boddie, popular and well-known on the campus through his past visits here.

Dr. Boddie was born in New Rochelle, New York, one of a family of eleven children. His father was a Baptist minister, and he was inspired by the great religious faith of their parents.

Although he was obliged to work his way through college, he still found time to participate in college athletics and to belong to the debating, philosophy and senior class honorary societies. He received his A. B. degree from Syracuse University, his B. D. degree from Colgate-Rochester Divinity School, his M. A. degree from the University of Rochester, and his D. D. from Keuka College, in 1951.

Some of Dr. Boddie's most effective work has been his contributions to racial relations. He first worked on this problem while he was pastor of the First Baptist Church of Huntington, West Virginia. There he conducted a joint fellowship service, combining the Negro congregation of his church and the white congregation of the Fifth Avenue Baptist Church and leading the group in a "sing-spoken" of negro spirituals after the program. For this brave enterprise, and for all the other successful work which he did to decrease the racial problem in Huntington, he was cited as Man of the Week.

Besides writing regular articles (Continued on page 8)

All College Dance To Be Held May 16

"Can't Wait for Summer" is the theme for the all-college dance to be held on May 16, from 9-12 p. m. in the street between the Engineering and Olin Science buildings. The dance is sponsored by the members of the class of '61, who have engaged the Moonlighters with the Glitzards stepping in for the intermission.

Lights, tables, and chairs will be provided and refreshments will be sold. The dress for the occasion is Bermuda shorts. Admission is free, and full student support is anticipated.

Fall Counselors Announced

Fifteen junior counselors and 20 student head residents and assistant head residents were announced at the Moving Up Day ceremonies held last night in the Baptist Church.

To be eligible for the position of junior counselor a girl must have an overall scholastic average of at least 1.7. Of the eight-three girls selected for the position, approximately 50 girls showed their interest in the position by having an interview with Miss Ginger Wolfram, assistant dean of women in charge of freshmen.

INVITE TO PARENTS FOR GOLF COURSE

On Spring Festival Weekend the University will again extend to the parents of its students an invitation to use the Golf Course without any charge. Students are reminded that this privilege is extended to parents only and that members of the student body are expected to pay the usual greens fee or membership fee.

So that parents may have the most favorable golfing conditions, the Spring Festival Committee requests that students do not use the course on Spring Festival Weekend unless they are playing in the company of their parents.

WVBU To Broadcast Songfest
WVBU will present a special tape recorded broadcast of the 1958 Songfest contest recently held. This program will be transmitted in high fidelity sound and will go on the air at 2:00 p. m. this Sunday afternoon. The extra entertainment that occurred that night will also be broadcast.

Lunch will be served at the Women's Dining Room at 12:30 and at the fraternity houses and University Cafeteria from 12:30 to 1:30. The Director of Food Service requests that all students wishing to bring their guests to one of the three University dining rooms make reservations in their respective dining rooms any day before Wednesday, May 7 from 8:00 to 12:30 or 5:00 to 7:00 p. m.

Reservations for additional guests may be made at the University Cafeteria and at the John Houghton Harris Cafeteria in Swartz Hall upon payment of the usual \$1.00 charge. Because of the limited capacity of the Women's Dining Room, students may make reservations there for their parents only.

BISONS REMAIN IN DOLDRUMS

by Dick Whitney

Last Thursday, the Lions of Penn State invaded Bucknell and won by the identical score that they did in 1957. Behind the fine pitching of Cal Emory, and Simmers there was never any doubt as to the outcome. Looking strong and not as wild as in his first meeting with the Bisons, Emory fanned 11 in six innings. His teammates hit when it counted, giving Emory and Simmers a good deal to work with.

State opened the game up in the second against loser Bill Walsek on a double by Caldwell, a single by Miller, and a triple by versatile Cal Emory to lead 2-0. They added four more in the third as Pederson's error allowed Rainey to reach first, Sticks, Emory to lead 2-0. They added four more in the third as Pederson's error allowed Rainey to reach first, Sticks, Emory to lead 2-0. They added four more in the third as Pederson's error allowed Rainey to reach first, Sticks, Emory to lead 2-0.

State opened the game up in the second against loser Bill Walsek on a double by Caldwell, a single by Miller, and a triple by versatile Cal Emory to lead 2-0. They added four more in the third as Pederson's error allowed Rainey to reach first, Sticks, Emory to lead 2-0. They added four more in the third as Pederson's error allowed Rainey to reach first, Sticks, Emory to lead 2-0.

Bucknell had no opportunity to score against Emory, who showed his ability as both a pitcher and a hitter, knocking in two runs. The Bison defense again was weak and little more can be said considering the outcome of the game.

Last Saturday at Easton, Pa., the Bisons dropped their fifth straight game, a 7-1 decision to Lehigh University. Again, the Bisons inability to get off to a good start was their downfall. Two errors by Larry Dempster did not help Bucknell's cause, and BU starter Fred MacDonald can not be blamed for his bad first inning. It all started on a walk to Nevil, and then Dempster made two consecutive errors, followed by a two-run single by Serfass. Lehigh scored three runs on one hit in this frame.

MacDonald was strong and held

A DANG BANG RECORD!

Pitko	0	0	0	000	

Lehigh at bay until the fifth when Williams started things rolling with a sharp single. Smith sacrificed him to second. Serfass walked, and Hoogstram doubled them both home to give Lehigh a safe lead. Mackey relieved MacDonald in the sixth. All the while Engineer pitcher, Anderson, was having little trouble with the listless Bucknell attack. It was not until the seventh when Stu Wrigley singled. Then an error by Serfass, and a single by Larry Dempster, enabled the Bisons to score their first run in 17 innings.

Dick Pitko moved in from right field in the eighth to replace Mackey on the mound. He was greeted with a single by Homsher, a double by Smith and a punt towards third which scored Smith. Lehigh now led 7-1. They threatened again in the eighth, leading the bases, but Serfass grounded to short to end the threat.

The Bisons also had a chance to close the gap in the top of the eighth but Anderson struck out Wrigley and Consentino to end the rally. Serfass pitched the ninth for Lehigh, retiring the side.

Again the Bisons showed a weak display of hitting, and a leaky defense, which has committed four errors in five games this season, too many to win these contests where the Bisons have showed weak hitting as their main deficiency. Even though scores like 7-4, 12-0, 7-4, 12-0, and 7-1 do not suggest tight pitching, many of these games could have been closer with a tighter defense. Next home game is with Pitt on Friday and let's hope at that time the BU Bisons will have been able to garner a victory, if not let's win that one.

You Better Make It Good, Coach

Baseball coach, Roger Oberlin, has a man to man talk with his ballplayers in an attempt to get them into the win column.

GET BACK THERE HENRY!

Hank Livas, a sophomore, who is playing his first season on the tennis team, returns a backhand shot to his opponent.

'B' CLUB: AN ACTIVE ORGANIZATION

by Chuck Wagner

The "B" club is composed of male students who have participated in at least one varsity sport and met the requirements to earn his "B". At the present time there are 63 active members in the club. When a person wins his first letter he is given a "B" sweater. If he earns another, he is given a letter, but not another "B".

—Drive Carefully!

president, vice president, secretary, treasurer, and a publicity manager. The "B" club takes care of many things throughout the year. One of its first functions comes at the beginning of each year. The club conducts an all-college dance the night before the first home football game, and also provides the entertainment at intermission for this dance. The next function of the "B" club is the treating of the children at the local orphanage to a home football game. They are brought to the game by members of the club and seated all together in one section. Ice cream, candy, and soda are given to them for refreshments throughout the game. This is all taken care of by the club. During the winter months the "B" club takes care of the selling of programs and refreshments at the home basketball games. They also handle the distributing of the programs for the intramural boxing and wrestling matches.

Each year the "B" club gives a \$150 scholarship to a deserving member who participates in a minor sport for the university. A minor sport is one that does not give any financial help to its members. A trophy is also presented by the club to a member whom they believe has been Bucknell's outstanding athlete. This person must have received a letter in two different sports for the year, and the sport he participated in are inscribed on the blanket.

This is the "B" club, one of the most active organizations on the Bucknell campus.

BOUGHN'S AT BUCKNELL
LEWISBURG, PA.

Along the Bison Trail

by Doug Grigsy

Well, here it is almost the beginning of May and the intramural program is rapidly drawing to a close. At this point four fraternities, Delta Upsilon, Sigma Alpha Epsilon, Phi Gamma Delta, and Phi Kappa Psi are watching each other like a hawk watches its prey. The unseasonal and tension in each of these houses is, most probably, very prevalent, for this is the closest intramural race witnessed at old B. U. in many a year. With just golf and softball remaining on the program all of the teams are undoubtedly doing their best to try and bring home the Pangburn All-Year intramural trophy, won by DU last year.

In my opinion the out-come of the intramural race will not be decided until the conclusion of the softball season for the following reasons. DU, which was leading the intramural standings at the last account with 402 points, has to face Kappa Sigma in the second round of golf. The Kappa Sig's, incidentally, best the Phi Lam's in the first round of golf. The Phi Sig's will probably be defeated in this match, for the news that I have received from various reliable sources indicates that the DU's golf team isn't that spectacular. This will give the LUC's a total of 423 points. (1 pt. for losing to the Kappa Sig's and 20 pts. for entering a team). The SAE's, who were in second place, with 397 pts. lost to Lambda Chi in the first round so their point total will be increased to 418 pts. Phi Gamma Delta received a bye in the first round of golf, and will therefore, meet SAM which defeated PLT in the first round. It is hard for anyone to pick a winner here, especially when one does not know the calibre of players representing each of the houses.

Reaching the finals they will lose to Lambda Chi who I am betting will win the golf title. This will give the Phi Gam's a total of 425 pts. (10 for winning two matches, 1 pt. for losing to Lambda Chi and 20 for entering a team). Phi Psi appears to be out of the running for this reason. With a total of 382 pts. (5 pts. included for defeating TX in golf), the Phi Psi's should, in all probability, lose to the LCA's in the second round of golf. Intramural race they will have to win the softball championship. Don't think that this is improbable for PKP has always been known for fielding strong teams in this sport.

One must remember that in golf one player from each of the houses could have an off day and this could throw the whole race into a mad scramble. I feel, however, that at the conclusion of golf the Phi Gam's will be leading with the DU's second, the SAE's third, and the Phi Psi's fourth.

In softball it is very hard to predict a winner, for the simple reason that a team might be loaded with hitters, but this will get them no place if they don't have an able pitcher. The picture seems to show that the good pitching and batting team and a fairly good pitcher. The Phi Psi's—SAE's have a good hitting team and a fairly good pitcher. The Phi Psi's—SAE's have a good hitting team and a fairly good pitcher. The Phi Psi's—SAE's have a good hitting team and a fairly good pitcher. The Phi Psi's—SAE's have a good hitting team and a fairly good pitcher.

Thinclads won! The past Wednesday the BU baseball team defeated F&M by the score of 8-3.

by Dave Lynch

In their first meet the Bucknell thinclads emerged victorious over Franklin and Marshall College, 78 to 48. At the outset of the meet held at Williamson Field in Lancaster, things looked very close. Bob Wright, Bill Wooster, Brad Green, and Dick Merrill took first, second, and fourth places in the high jump, but F&M followed this up with a vault, followed in third place by Bucknell's Larry Rightmeyer. F&M also was strong in the shotput, taking first, second, and third.

Franklin and Marshall also managed to take first and second in mile followed by Dave Lynch of BU. From this point on, however, the Bisons dominated the meet. Dick Merrill and Chuck Wagner took the first two places in the 100 yd. dash. In the 440 yd. dash, Rog Connors took first place for Bucknell followed by Chris Christensen. Connors also took first place in the half mile, a comparatively new event for him. Bob Wright took first places in the 220 low hurdles and in the 120 high hurdles with Brad Green third. Dave Lynch took first place in the 2 mile run followed by Clapp of F. and M. in second place and Steve Green of Bucknell in third. In the remaining field events, Bill Wooster took first in the broad jump and Buzz Erickson took first place in the javelin.

The summaries:

Discus—Irwin, F&M; Bonitz, F&M; Magoun, F&M—139' 7/4".

Pole Vault—Tie, Wright, F&M and Bingham, F&M; Rightmeyer, B—10' 0".

High Jump—Tie (4-way), Wooster, B; Green, B; Merrill, B; Wright, B—5' 4".

Shotput—Kraft, F&M; Irwin, F&M; Morrow, F&M—43' 10".

Broad Jump—Wooster, B; Clowe, B; Bingham, F&M—21' 9".

Javelin—Erickson, B; Ackerman, B; Magoun, F&M—179' 9 1/4".

1 Mile—Peck, F&M; Clapp, F&M; Lynch, B—4' 52".

440—Connors, B; Christensen, B; Dixon, F&M—53".

100—Merrill, B; Wagner, B; Wright, F&M—103".

120 High Hurdles—Wright, B; Bingham, F&M; Green, B—16".

800—Connors, B; Peck, F&M; Carlsson, B—2:09.6.

220—Gilkey, B; Lee, B; Wagner, B; 2 Mile—Lynch, B; Clapp, F&M; Green, B—10:53.8.

220 Low Hurdles—Wright, B; Wooster, B; Bingham, F&M—26.2.

Drink and Driving Don't Mix!

Netmen Top Pitt; Lose To Delaware

by Chas. Seide

Friday—BU (9)—Pittsburgh (1)

Saturday—BU (4)—Delaware (5)

Friday night we left the courts smiling—we had done a good job of defeating P.H.

Saturday night we left for Lewisburg disgruntled, for we had lost to a underrated Delaware team. I guess we were mostly disgruntled due to the fact that we didn't have our first team. One of the boys "had too much school work to do". It's considerably weak to talk of water over the dam, but all of us know that if we had our first team we would have added our seventh win and not our second loss to the slate.

As captain, I feel that a person should not ask to be excused from a match, or any other varsity contest, much less get the coach's permission.

I would hate to hear what Ben Kribbs would say to "Moose" Dantzig if he were to pull something of the similar nature. I feel that you should play a sport not because you happen to be the best player in that sport, or for the reason that you may become a professional athlete, but rather because you have a love for that particular sport. I myself would probably fold if it wasn't for tennis, and I am quite sure that the fellows who made the trip feel the same way as I do, judging from the comments that were expressed on the trip back. It was really disheartening to mark down that 5-4 loss in the record book.

Perhaps this lack of cooperation and spirit is partly my fault. I really don't know. I do know, however, that there could be a great deal more organization on the part of the coach. Hank Peters is one of the most likable men that I have ever met, but I feel that the team, and especially a varsity team, should be run with an "iron" hand. There should be more of the coach's support and enthusiasm shown through his words inside that it's there, but outwards it's a mock, a joke. "Don't serve like Livas, he can't hit his way out of a paper bag." Or Poindexter, "Oh, he's a bum" or "This shoemaker" will never hit over 500." Funny? Yes! It's quite a laugh at that moment, but it is funny to the team which just suffered a 5-4 defeat! Does all of this kidding build up the team's spirit and morale? I don't know. My only hope is that Saturday's loss will be enough to show us that we have to work as a team from now on to the last man that we have to build up our spirit and confidence—something that every team should have. This outlook may seem harsh and cutting than I meant it to be. Allow me now to say that I don't mean to offend anyone. I only want us to play as a team and to win as a team.

Only seven per cent of the land area, or 2 per cent of the total world's surface, is arable.

My only hope is that Saturday's loss will be enough to show us that we have to work as a team from now on to the last man that we have to build up our spirit and confidence—something that every team should have. This outlook may seem harsh and cutting than I meant it to be. Allow me now to say that I don't mean to offend anyone. I only want us to play as a team and to win as a team.

PICTORIAL L'AGENDA VIEWS STUDENT LIFE

The 1958 L'Agenda is being edited by Claire Halline. The book will be distributed to the entire student body during the last week in May. Before the distribution, the behind-the-scenes work is greater than one would imagine.

It is difficult to outline each step in the preparation of the 224-page book, but a few of the more important positions on the staff can be pointed out.

Working with Editor Halline are Assistant Editors Jean Nardi and Cynthia Dielman, Business Manager Peyton McDonald, Advertising Manager Bob Wright, and Student Photographer Herb Bohler. Jean Nardi will be editor next year and Bob Wright will be business manager.

In addition to the candid campus pictures taken by Herb Bohler, Mr. Robert Breen took the individual pictures of the senior class. Breen is also the photographer for the Penn State yearbook, Mr. Henry Freely of Lewisburg and Mr. Leroy Sweetzer of Milton took the pictures of administration, faculty, organization, and honoraries.

The book is divided into twelve separate sections with a senior as editor and a junior as assistant editor. It is hoped that the junior will move into the editor's post next year. The sections are as follows:

administration, scenic, academic, features, seniors, leadership, publications and radio, music and drama, activities, sororities and fraternities, athletics, and advertising. The scenic and features sections are unique in that they put the emphasis on pictures of Bucknell life.

Although the figures for the 1958 L'Agenda are not available, 1957 can be cited as a typical year. The total budget was \$16,000. Of this amount, \$12,000 came from an S. F. C. appropriation. (This is approximately \$6 per student). The other \$4,000 came from advertisements, sale of books, and payments made by fraternities and sororities for their pages in the book.

Expenditure of this money was broken down as follows: printing, engraving, and photography were the biggest expenses and totaled \$15,342.55. Honorariums for the editor, business manager, advertising manager, and student photographer amounted to \$300. Office supplies and typewriter repairs to

aled \$55.27; transportation \$41.84; Trexler, \$22.11; and telephone \$2.71. Grit Publishing Company of Williamsport prints the L'Agenda. Mr. Darnard Taylor of Grit serves as art advisor.

While talking to Miss Tremmie E. Esley, advisor for the L'Agenda, and Claire Halline, several interesting tidbits about yearbooks were mentioned. Members of the Bucknell senior class decide to whom the book should be dedicated; this dedication is a closely guarded secret until the Wednesday of Senior Chapel when it is made public.

At Bucknell each student pays for a yearbook every year and gets a copy of the book every year; however, at Penn State, for example, every student pays for part of a yearbook every year but receives a copy only in his senior year.

A plan in effect at Susquehanna that Claire Halline spoke very highly of is that of setting aside two or three days at the beginning of the year to take the group pictures; there are no classes on these days. She stated that it is very difficult to get everyone in an organization to gather at a suitable time for a picture. Setting aside a couple of days for the picture taking would alleviate this problem.

The editor noted that the emphasis in the 1958 L'Agenda is being placed on pictures rather than literary copy. Copy is being kept to a minimum and the copy that does appear is short and factual. There are more advertisements this year than last.

Import Relates Candid Opinion

by James Erickson

Every big weekend finds the problem of the import facing the sem-geu. The import, the sem-geu's enemy, takes away the possibility of the big college weekend from some needy co-ed. Miss Carol Lee Miller of Penn State College has consented to face the barrage of questions concerning the problems of the visiting import.

"Carol Lee, when you visit Bucknell where do you usually stay?"

"I find it much more convenient to stay at the girls' dormitories than a hotel or motel."

"Do you feel there is any animosity towards you while you are assuming the role of an import?"

"Although I do know of the problem an import presents to the girl on campus, I must say that I have been received very well for my short stays at Bucknell."

"No, you can feel when someone is sincere, and the girls go out of their way to be helpful and to try to make my stay a pleasant one. By staying in the girls' dormitory I feel that I have an advantage because I get a chance to meet some of them before going to the party. It makes it much easier to be on friendly terms."

"What do you feel is the reason for the popularity of the import?"

"That could best be answered by classifying the import:

1. The pinned girl or the one who is going steady.

2. The last minute date.

3. The home town favorite.

4. For this classification you might use the old saying, "The grass is always greener on the other side of the fence."

"Do you mean that Bucknell men are bored with the girls on campus?"

"No! Don't get me wrong, what I do mean is that the fraternity loss by the same girls day after day and some of the spark is lost in this way. They are looking for a change of

PASS IN REVIEW

by William Meister

Last Sunday, under threatening skies, over 120 Bucknell Juniors and seniors traveled to the Federal Penitentiary rifle range. Here they received an introduction into the use of the M-1 rifle, and fired it under conditions similar to those found at summer camp. This training should enable this year's Bucknellians to far better in rifle at Fort Meade than last year's. It will also prevent the rash of black eyes, sore cheeks, and swollen lips which al-

ways seem to be waiting to greet newcomers to high-powered rifles.

Sergeant Walters and the rifle team were on hand all day to give preliminary rifle instruction to the groups as they arrived. This Sunday, Sergeant Walters announces, the Rifle Club will be firing at the range. All Rifle Club members who wish to come are invited to do so. Members will meet at 9:00 hours at the South side of the Bertrand Library.

Last Friday the regiment enjoyed perfect weather for drill. Company mass formations were practiced in preparation for the annual review on Mother's Day. The regiment as a whole showed great improvement. The cadre and regimental staff were pleased with the results, but look forward to even greater improvement tomorrow.

Whether permitting the regiment will practice the actual review in the stadium. All persons are cordially invited to watch the practice sessions.

See you next week!

He shares his loss with your children

This is the story of a man whose talent to inspire young minds will not be used again. For he is leaving now, leaving his job as a college teacher. The reason? An incredibly low salary for the amount of preparation and the quality of intelligence he possesses.

The loss of this man to higher education is two-fold; for him, the years spent nourishing his teaching skills are now largely wasted years. But the greater loss by far is suffered by students whose abilities would have flowered under his inspiration, and by the nation—even, perhaps, all mankind—which might have benefited by some discovery generated through his teaching.

Unfortunately for America, this same scene is being repeated all over the country with increasing frequency. As a nation whose destiny depends on the development of brainpower, how can we afford to let this situation continue?

Support the college or university of your choice. Help it plan for a stronger, better paid faculty. The returns will be greater than you think.

If you want to know more about what the college crisis means to you, and what you can do to help, write for a free booklet to: HIGHER EDUCATION, Box 36, Times Square Station, New York 36, N.Y.

QUEEG VS ADMINISTRATION IN REGISTRATION BATTLE

(The story you are about to hear is true, the names have been changed to protect me. Any similarity between persons living or dead is purely intentional.)

1st Actor: But, I need that course to graduate.

2nd Actress: Well, you should have taken it last year when it was given.

1st Actor: But last year you suggested that I wait until this year to take it and that I should take "Happiness" instead because it would look good on my record.

2nd Actress: Hmmm.

1st Actor: If I don't get this course how can I graduate?

2nd Actress: I'll have to call Miss Pile on that, I'm not sure about the rule on that. (Short Pause as she phones) You can't, graduate that is. Why don't you take this "drop and add form" to your advisor and have him sign it, then take it to Miss Conk and have her sign it, then take it to Guy Pain and have him sign it, then bring it back to me and I'll sign it.

1st Actor: But what will that accomplish?

2nd Actress: Nothing, but it will get you out of the office for a while.

1st Actor: Please, Miss Hinderson haven't you any suggestions as to what I can do about my schedule?

2nd Actress: Since you've had Happiness why don't you become an elementary education major?

1st Actor: 3:15—I am now an elementary major.

These are the events that change and alter your life and you are there. Miss, would you pass me this, this paper chain is coming apart.

I WOULD LIKE TO SEE by Dennis Kelly

1. Flunkies at fraternity parties.

2. Movies in Lewisburg open on Sundays.

3. Longer ROTC drills—by popular request.

4. Students quoted fair prices when selling books.

5. Beer on tap in Roberts Hall.

6. A live Bison as school mascot.

7. Dean Hayward elected president of Bird Watching Society.

8. More hello's in the "hello spirit".

9. Courses in Brain Washing given by WSGA.

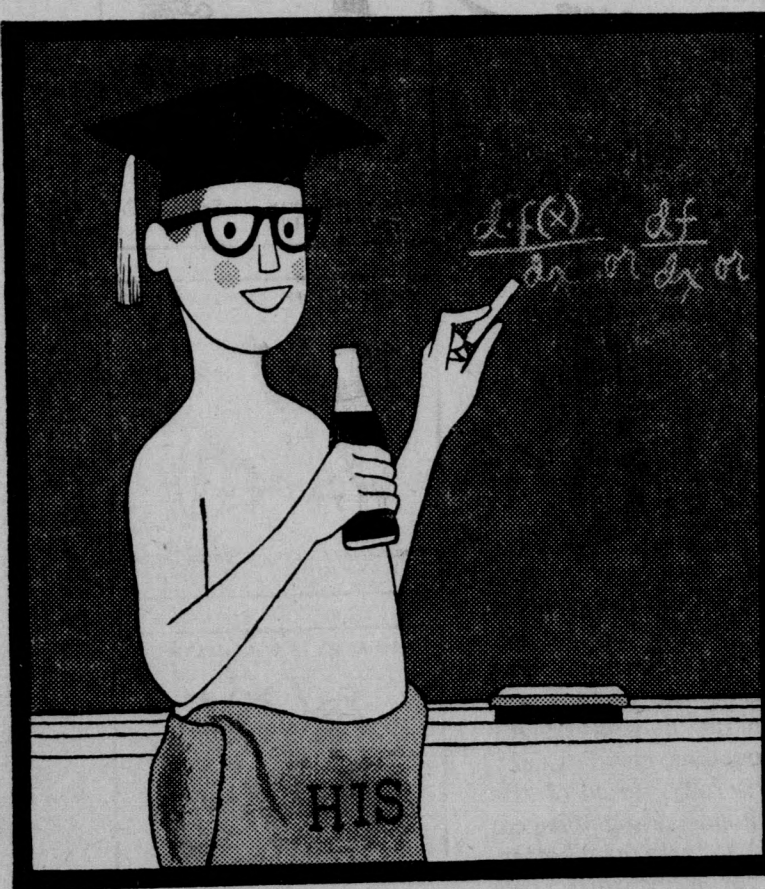

10. Guy Payne ('09) '17, receive the "Good Housekeeping" Seal of Approval.

"THAT'LL BE THE DAY!"

Jerry Lucas, Middletown High School senior who has never played in a losing basketball game, had scored 63 points recently, his highest total. Middletown won 69 in a row.

The screen play of "Compulsion" the drama by Meyer Levin will be written by Richard Murphy. The stage play of the Leopold-Loeb murder case, is scheduled to close its Broadway run soon.

Kentucky Hillbilly Boosts WVBU Morale

by Joel Berger

This week, in accordance with previous practice, I intend to laud a student on the Bucknell campus who has done outstanding work for station WVBU. Without doubt, one of our hardest workers is Ubsky Grabbie, Jr. This, as we call him for short, is a freshman from the back hills of Kentucky, and has had a show on WVBU for two weeks, but his efforts have none the less stood out (like a sore thumb).

When Ubsky first arrived at the station he brought with him a great deal of background and experience in the field of communication. He was the champion "caller" in his village, and several times had been mistaken for a mouse when he sang in the woods. None the less, Ubsky was very anxious to work for the station. After an intensive audition, he was given a show of classical forest noises and symphonic animal tracks. His first show was a success. The phone didn't stop ringing for an hour, until we got him off the air and replaced him with the usual educational show entitled, "Songs of Northern Greenland—with explanations."

This did not appreciate this and to spite the station he started to stamp around and create a tumult. In doing so, he smashed a hole in the walls, which are right next to the holes in the ceiling, which if carefully examined, tend to make the building in which WVBU is situated look like a hole.

It is for this reason that we of the WVBU staff want to thank Ubsky Grabbie. The hole he made finally connected all the other holes in the building, and it was the straw that broke the camel's back, to coin an expression (or steal one whichever the case may be). The university finally saw that we needed a new location for our station, and with complete generosity, we have been given permission to move to the basement of the present location.

WVBU wishes to thank Ubsky Grabbie for his efforts in making the university see our needs. With some luck he will never again be BEHIND THE MIKE.

Bucknell University was the 100th college chartered in the U. S.

Sinatra, Mathis Nab Disc Jockey Awards

Singer Tony Bennett likes to work with jazz musicians. Recently, he told Down Beat's Don Cerulli, "Popular entertainers don't realize the great wealth of talent they could have in their own shows. They seem to be content to pick men who are competent, but who don't have that down-home texture you don't get anywhere but in a jazzman."

The versatile Benny Carter has been a vital part of jazz tradition. He's aware of past developments in jazz and the current roads it is taking. Among his critics of jazz today is one directed at those who blindly follow the model of Charlie Parker. "There are just too many guys who've followed Bird blindly," he told Down Beat's John Tynan.

"I think it's time some of these followers started developing their own musical personalities. The early followers of Louis Armstrong didn't realize in his mold. Look at Roy Eldridge; he went on to grow up with his own personal style."

Aaron Copland is one of America's most distinguished composers. Although he is guided by one of the busiest schedules in music, he finds time to listen to and evaluate jazz. He believes that his own students should be aware of jazz.

If I were giving a course in composition regularly, I'd always bring to my students happenings in the jazz field—for the freedom of invention present," he told Down Beat's Don Gold.

Down Beat's fifth annual Disc Jockey poll, in which 3,000 disc jockeys are polled on their favorite artists and records for 1957, introduced some new faces and maintained the prominence of established artists as well. Frank Sinatra was named the Top Recording Personality of 1957, his recording of All the Way and his A Swingin' Affair LP were named Best Vocal Single and Best Vocal LP of 1957. Johnny Mathis was named Best New Male Singer. Pat Suzuki won Best New Female Singer honor. Neyson Riddle repeated as Best Conductor of a Studio Orchestra.

MUSIC NEWS: George Wein and Marshall Brown returned from Europe after a search for members for the 16-piece Newport festival international band. In announcing the selections made, Brown noted that among the countries represented were Denmark, France, Yugoslavia, Portugal, Belgium, Czechoslovakia,

Germany, Austria, Spain, Sweden, Poland, England, Italy, Holland, Switzerland, and Hungary. A group of rebels from the Los Angeles American Federation of Musicians local broke with the AFM and formed a new labor organization—the Musicians Guild of America.

French horn player John Graas recorded his Jazz Symphony No. 1. Five jazz critics—Leonard Feather, Barry Ulanov, Bill Coss, Gilbert Millstein, and Down Beat's Don Cerulli—were named to bring groups to the Newport jazz festival. A jazz television series—The Subject Is Jazz—debuted out of New York on a network of 39 educational TV stations.

Here are the five best selling jazz albums in the nation, based on a bi-weekly survey of 300 retail record outlets as reported to Down Beat:

(1) Andre Previn and His Pals, Pal Joey (Contemporary 3543).

(2) Shelly Manne and His Friends, My Fair Lady (Contemporary 3527).

(3) The Mastersounds, The King and I (World Pacific 405).

(4) Earl Garner, Concert by the Sea (Columbia 889).

(5) Count Basie, Basie (Roulette R 5209).

THE FIRST DATE

Can there be a pattern, concerning our first date.

Are there rules that you follow, saying we must wait?

Reasons: They are useless, if we are in love.

You and I must find out, what's in the stars above.

Love is so precious, there's not a second to lose.

And what's the use of waiting, if it's I you choose.

Do not feel insulted, for I mean you no harm.

Answer with a yes, dear, yes, answer with your charm.

May our first kiss be pleasant, that is all I crave.

So if it's our last, dear, pleasure to me you gave.

Pennsylvania nicknamed the Keystone state because of its central location among original 13 colonies.

for diversity journals. Dr. Doddie is the author of two books: "A Giant of the Earth" and "The Basis of the Negro Spiritual."

Houseparty

(Continued from page 1)
at the picnic will be provided by Irwin's Seldom Fed Five, a dixieland band from F&M. In the evening members and guests will return for an informal party at the house.

Phi Gamma Delta will offer Rudy Gelmet's band at their dance Friday night. Beginning at noon on Saturday they will enjoy an all-day picnic. After brunch on Sunday there will be a jam session until 5:00 p. m. The theme for the weekend will be **The Reunion.**

Phi Lambda Theta on Friday will have a cocktail party and formal dance with the Ray Sar Combo. Saturday, a picnic at McCall's Dam, will be followed by an informal open house. They plan a dinner on Sunday.

Sigma Alpha Epsilon has no theme for its weekend. Friday night they plan a banquet and formal dance to the music of John Dent's band. Saturday will be spent picnicking on a farm, and will conclude with a party at the house.

Sig's in Hawaii is the theme for the Sigma Chi's houseparty. They will have a formal dance Friday night, and an informal party on Saturday on Saturday. Sunday a jam session open to the campus. Sigma Chi's band will be Johnny Sparrow and the Black Birds.

Sigma Alpha Mu will have a dinner at the Milton Hotel on Friday night, followed by a pledge dance at the house. On Saturday a picnic is scheduled at the American Legion picnic grounds. Saturday evening is a party at the house, while Sunday will include brunch at the house and a party in the yard. A canopy outside the house, as well as inside decorations will carry out the theme of **Penthouse**. S.A.M.'s houseparty magazine will be distributed during the weekend.

Sigma Phi Epsilon has no definite theme for its houseparty. Friday evening will be spent dancing at the Milton Country Club. A cabin party will be held Saturday afternoon, followed by a party at the house. A dinner will conclude the weekend on Sunday.

The Phi Kappa Psi's are planning a cocktail party, dinner and pledge dance for Saturday night. Saturday they will have a picnic, with the music supplied by the Cokers band. Tom Tarper's band will entertain at a party at the house on Sunday afternoon.

Tau Kappa Epsilon will have a formal dinner and dance featuring the music of the Townsman at the Blue Hill, Friday night. Saturday afternoon and evening will be spent picnicking at Cowan, with a formal dinner at the house on Sunday. Several alumni are returning for the weekend.

The Jumps' Jocks will provide music for Theta Chi's semi-formal Friday night. A picnic on Saturday and a dance in the evening, in addition to Sunday dinner will round out Theta Chi's weekend.

MAY DAY TICKETS

AVAILABLE MONDAY

Tickets for the May Day ceremony will be available for students and faculty members, starting Monday in the lounge of the Carnegie Building between the hours of 8:30 and 11:30 a. m. and 1:15 to 5:00 p. m., and continuing at the same hours daily until the supply is exhausted.

The tickets will reserve a seat in Davis Gymnasium until 2:30 o'clock, when the band concert which precedes the May Day ceremony will begin. After 2:30, persons without tickets will be admitted if there is space left. Tickets will be limited to one for each student and one for his or her mother.

The rings around the planet Saturn are composed of tiny highly reflective solid particles or moonlets.

DuWors And Pierce To Leave Soc. Dept.

The sociology department will lose two of its professors, Dr. Richard E. DuWors and Dr. Albert Pierce for next year. Dr. DuWors, the chairman of the Department of Sociology at Bucknell, has resigned to become a professor of sociology at the University of Saskatchewan. Dr. Pierce has accepted a position as an associate professor of sociology at San Fernando Valley State College at Northridge, California.

Dr. Helmut Wagner, the remaining member of Bucknell's Department of Sociology, Dr. DuWors, and Dr. Pierce recently have written papers on subjects within their field. Dr. Wagner has written two papers which are to be given before the annual meeting of the American Sociological Society at Seattle, Washington. One paper, entitled "Religious Background and Higher Education," was written with Victor Fisher, Bucknell, 57 and Kathryn G. Doyle, Bucknell, 58. Dr. Wagner's other paper is called "Religious Action and Symbolic Interaction." Two of his articles have been published in recent months. The Bucknell Review contained "Toward a Theory of Experience," and "The Cultural Socialization of East Germany" appeared in Social Research.

Dr. Pierce is publishing a paper in the memorial volume for the one-hundredth birth year of Emile Durkheim, the great French sociologist. Dr. DuWors, who is a part-time professor of sociology at the Pennsylvania State University where he conducts a graduate seminar for Phi Kappa Psi candidates, will give a paper before the American Sociological Society when it meets next fall at Seattle, Washington. His paper is entitled "The Nature of Evaluative Interaction."

BROWN TO PRESENT P.B.K. ADD RESS

Richard F. Brown, Bucknell University graduate who will make the Phi Beta Kappa address at its alma mater May 8, is attracting national attention for his achievements as chief curator of art at the Los Angeles County Museum in California. Under his direction, the museum has recently acquired many new masterpieces, including a valuable Goya painting, and attendance at its shows has risen to over 1,000,000 persons a year.

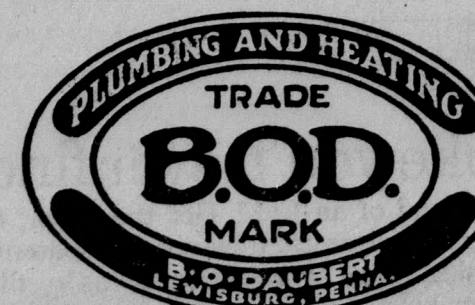

Referring to the acquisition of the Goya painting, Time magazine described it as "a handsome tribute to the scholarship, energy, and tenacity of bustling 41-year-old Richard F. Brown, who in three years as head of the museum's art division has brought it new vitality and stature."

According to the April 14 issue of the newsmagazine, Brown first learned of the painting's whereabouts about five years ago and kept tabs upon it until he could persuade the museum's board of governors to purchase it for \$270,000, the biggest sum spent by the museum in years. "Brown has given Los Angeles museum-goers a taste of the excitement a hard-driving director can give art," Time declared. "By organizing such outstanding shows as 'Tang Dynasty Art, Brown has put Los Angeles back into big time and has just staged the U. S.'s most comprehensive Degas show in two decades."

After his graduation from Bucknell in 1940, Brown received his doctor of philosophy degree from Harvard and then entered the art field in New York City, where he was employed by the Frick Collection from 1952 until 1955, when he was named to his present post. The public is invited to hear his talk at Bucknell, to be given Tuesday evening, May 8, at 8 o'clock, in the Olin Science Auditorium. His subject will be "Science and the Arts: A Modern 'Hercules at the Crossroads'."

Sammie Election Results

Prior, Andy Cahn; Vice Prior, Myron Sugerman; Recorder, Pete Silberfarb; Exchequer, Dick Perlman; Social Chairman, Fred Lieberman.

SCHEDULE FOR SPRING FESTIVAL

FRIDAY, MAY 9	
ALL DAY	Student Art Exhibit—Bertrand Library.
ALL DAY	Calloway System Medal Golf Tournament for interested parents.
ALL DAY	Elementary Education Art Exhibit—Carnegie Basement.
8:30 p.m.	Cap and Dagger's production of Jean Anouilh's "Thieves Carnival"—Lewisburg High School.

Hi Moms...

... and Dads!

VOLUME LX

LEWISBURG, PA., THURSDAY, MAY 8, 1958.

STUDENT CHAPEL SET FOR RECOGNITION DAY

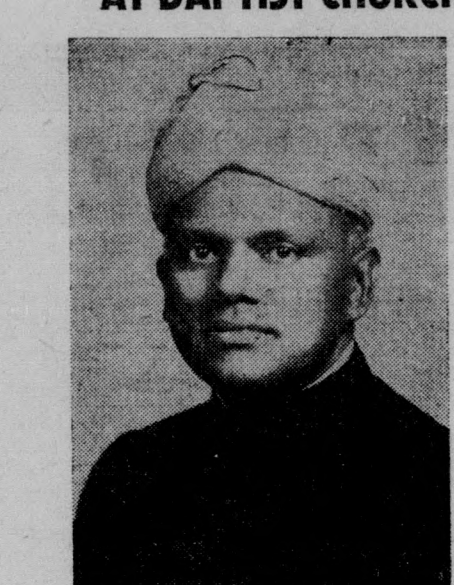

Student Recognition Day, when students who have demonstrated outstanding leadership and scholarship are given public recognition, has been slated as the Chapel program on Wednesday, May 14.

Beginning the program will be the Men's Glee Club singing a series of songs. Jim LaRue, president of Student-Faculty Congress, will preside. The new members of the "B" Club and the outstanding senior athlete will be recognized at that time. Following the sports recognition will be the presentation of the IFC scholarship cup. Next on the agenda will be the introduction of the respective officers of MSA, WSGA, and the officers of all classes. The newly-elected members of the CA Cabinet will be introduced, completing the recognition of leaders of the student organizations.

Various honorary fraternities will present their members next. Following the introduction of the six new Mortar Board initiates, Omicron Delta Kappa will have a tapping ceremony. The four scholarship honoraries, Alpha Lambda Delta for freshman women, Phi Eta Sigma for freshman men, Tau Beta Phi, engineering honorary, and Phi Beta Kappa, highest national scholastic honorary, will also recognize their new members at the Chapel program.

Final on the program will be the presentation of the Burnes-Bucknell Bowl to the student body by President Merle Odgers. The student recognition program will close with the singing of the Bucknell Alma Mater.

CA GUEST TO SPEAK AT BAPTIST CHURCH

DR. EDDY ASIRVATHAM

Dr. Eddy Asirvatham, noted Indian author and lecturer, will give an address on "India's Orbit in the Satellite Age" on Tuesday, May 13, at the First Baptist Church of Lewisburg. All are welcome to hear Dr. Asirvatham, and, in addition, all interested are invited to an informal dinner with him at the University Cafeteria, at 6:00 p. m. the same evening. The price of the dinner will be \$1.25 and reservations must be made not later than May 10 at the Christian Association Office.

Dr. Asirvatham is a professor of political science at Bihar University, Formerly of Nagpur University and Boston University School of Theology; he has studied in India, Britain and America. He has travelled and lectured widely throughout the West, the Orient and the United States. A noted author, Dr. Asirvatham has published "Political Theory," "Spencer's Theory of Social Justice," "Forces of Modern Politics," "A New Social Order," "The Future Constitution of India," and his latest book, "Christianity in the Indian Crucible." E. Stanley Jones, in the foreword of this last publication, wrote "I do not know of any man in East or West who is better qualified to interpret present-day India to the West than the author of this book, Dr. Eddy Asirvatham."

Co-ed Receives Dickinson Award

Louise McCrone, a freshman from Baltimore, Maryland, was awarded the Pat Dickinson award presented by Alpha Chi Omega sorority to a deserving member of the freshman class. This award was presented by Miss Stevenson on April 30 at the Moving-Up Day ceremony in the Baptist Church.

Alumni Day To Feature Stone Laying Ceremony

Laying of the cornerstone for Coleman Hall, Bucknell University's largest classroom building, now under construction, will highlight Commencement Weekend in June. The ceremony has been set for noon on Alumni Day, Saturday, June 7.

Dr. Charles L. Horn, president of the Olin Foundation, Inc., which made a grant of \$147,500 to erect the building, heads the list of dignitaries who will take part in the program as announced today.

Speaker for the University's 108th annual Commencement Monday, June 9, will be Dr. Harold W. Dodds, president emeritus of Princeton University. Dr. Carroll O. Morong, headmaster of the Peddie School, will preach the Baccalaureate sermon Sunday evening, June 8, President Odgers announced today.

The graduating class of approximately 300 men and women will participate in Senior chapel exercises Wednesday, May 21, and will be guests at the traditional Senior Picnic immediately afterwards.

U.S. Steel Foundation Awards Grant To B.U.

Appreciation for the gift of \$20,000 to Bucknell University made by the United States Steel Foundation, Inc., was expressed by President Merle M. Odgers today in a letter to Roger M. Blough, chairman of the board of trustees of the Foundation.

As announced by Foundation officials, Bucknell will be one of 28 privately-supported colleges and universities sharing in capital grants totaling \$455,000 awarded by the Foundation as part of its program in support of higher education.

Writing on behalf of both the student body and the administration, President Odgers praised the understanding shown by Foundation officers in their decision to assist Bucknell and other private colleges in meeting their capital needs at this important period in their development.

The grant to Bucknell has been tentatively allocated to the University's building fund for the complex of the Vaughan Literature Building, President Odgers said, but a final decision on the matter will be made by the trustees at their annual meeting in June.

In all, the Steel Foundation's grants for the current year will amount to 2,000,000 and will be distributed among 65 privately-supported colleges and universities in the United States.

SHAPLEY ADDRESSES STUDENTS ON PHYSICS

Dr. Harlow Shapley, noted scientist and former director of the Harvard Observatory, who was Phi Beta Kappa's Visiting Scholar at Bucknell University May 5 and 6, consented to give an open lecture during his stay on the campus.

Dr. Shapley then described "Some Adventures in Physics" when he lectured Tuesday evening in the Olin Science Auditorium. Dr. Shapley was educated at Carthage Academy, the University of Missouri (degrees of A. B. and A. M.), and at Princeton University (A. M. and Ph. D.). From 1914 to 1921 he was on the staff of the Mount Wilson Observatory, Pasadena, California, and from 1921 to 1953 was Director of the Harvard College Observatory, Cambridge, Mass. From 1953 he has been lecturer on Cosmography in Harvard University.

Honorary degrees have been awarded Dr. Shapley by fifteen universities, including those of Delhi, Honolulu, Mexico, Toronto, Copenhagen, Princeton, and Harvard. He has been the president of eight national-wide scientific organizations.

Among his publications are half a dozen books and more than two hundred technical scientific articles, chiefly in the field of astronomy. His latest include: "Star Clusters," "The Inner Metagalaxy," "Cosmic Change."

Mortar Board, Honorary, Taps Seven New Members

Left to right: Ruth Gortner, Barb Dunning, Marilyn Ekis, Lou Linton, Lois Iffert, Dawn Beatty, and Merle Holden.

Mortar Board, the National Leadership Society for Senior Women, and a member of the Synchronized Swimming Club.

Dawn Beatty, junior counselor, assistant head resident of Larson, member of Senate and Christian Association cabinet, scholarship chairman of KKG, and junior advisor to Alpha Lambda Delta.

Marilyn Ekis, president of Phi Mu, senior representative to Senate, and member of Tau Beta Phi, engineering honorary.

Willie Bauer, who is studying this year in Germany, was a member of House of Reps and active in Christian Association.

ENGLISH APPOINTED MAGAZINE EDITOR

The election for the new editorial staff of the Bucknell Engineer was approved by the Board of Publications on March 31. Each new editor had been chosen by his predecessor and the list of the new staff was sent to the Board of Publications to be approved.

The new edition of the Bucknell Engineer is David M. English, a junior. Dave is also treasurer of the American Institute of Electrical Engineering. The new managing editor is Robert B. Hilliard, also a junior. The assistant editor is Eugene Hetherell. He is a member of the American Society of Civil Engineers, and a junior. Don Miller is the new business manager and Ron Staley is the new circulation manager.

Flight Is Futile . . .

Many Bucknellians, caught in the conflict of college life, can think of only one escape—transferring. To substantiate his decision, the student claims that the stress on social life makes study impossible, that campus conformity is destroying his individualism, and that happiness can certainly be found elsewhere. These arguments seem to be rationalizations concocted by the student who, unable to find satisfaction within himself, shifts the blame on Bucknell.

Bucknell is an accredited school established to promote learning. If the only symbol of college life were a fraternity house, the university would not long exist. However, Bucknell also has a library and class buildings, so that a student can find mental development. It is his responsibility to adjust his schedule and provide the proper balance between social and educational activity. Preventing the ivy from choking the sage is a personal problem a freshman must face at any school.

Neither can Bucknell destroy individualism. If a conviction is firmly planted, no amount of tugging can tear away its roots. And, perhaps some of the "rugged individualism" is grounded in selfishness. If so, conforming to the "Hello" spirit would be an improvement, not a disadvantage.

Finally, running from Bucknell does not assure happiness. What is happiness but a contentment from within? A change of atmosphere is not going to provide that contentment, since living with oneself is inescapable.

Naturally, certain problems arise which can best be solved by transferring. These would include financial difficulties, change of course, or marriage. But if the complaint is "I can't adjust," flight would be futile. Another school might have a more favorable male-female ratio or a larger bed of blue, but the personal problems will be essentially the same.

Conroy's Corner

by Dave Conroy

Some of the members of any society at times have peculiar ideas, and rather odd, self-made philosophies and convictions. Somehow they construct a series of convictions or prejudices which at times guide the outcome of some very important decisions which they must make in their day-to-day existence. One of these "series of convictions" that many are guilty of possessing is the "middle-of-the-road" philosophy. Sometimes the reason for this is the fact that the decision in question, whatever it involves, is much too complex to weigh on the basis of its pros and cons alone, and people find that they must reach back for their already formed middle-of-the-road philosophy to solve the problem. At other times, it is more convenient not to think at all, but to use the pre-made conviction as the criteria for solving the problem. And at other times people would still rather not think, but rather go along with whatever everyone else thinks and does.

Some of us may have convictions which are rather difficult to admit to anyone else. I suppose we all admire the versatile, talented athlete, who is so gifted that he excels in several different sports, and stands head-and-shoulders above his comrades in whatever sport he participates in. Why, then, do we sometimes hold a feeling of resentment toward the versatile, talented intellectual, who is so gifted that he may grasp easily any area of learning that he attempts, and stands far above his friends in any field of thought he enters? Is it because we resent the fact that he may think on a different plane of thought than the rest of us? That he, indeed, frustrates our attempts to dramatically reveal some thought we have developed and of which we are rather proud simply because he has thought in the same manner already, and points out the fallacy of our ideas? Or maybe it is that we simply don't understand what he is talking about, or that his convictions are far too different from our own, or that he destroys some ideas which we have the deepest feeling for, or that he refuses to go along with the conventional mode of thought on our common problems, and, therefore, he must be one of those "pseudo-intellectual snobs"?

Middle-of-the-road thought, on the other hand, appears to be that thought that is stagnant enough to be worthless, but dynamic enough to appeal to one's friends. While 98% of a society may think and act in one way, probably just 2% think and act in an entirely different way. But one wonders just who is right. The member of this 2% group is usually referred to as an "odd-ball thinker". His ideas on so many essential aspects of life are so striking that they nearly scare us. His line of thought, however, is usually frowned upon—not just because it is repulsive to our way of thinking, but usually because we simply have difficulty understanding of thought, but usually because we simply have difficulty understanding of thought. Yet some of the keenest minds of our times are indeed called "odd-balls", and seldom agree with what anyone says. The architecture of Frank Lloyd Wright has probably been ridiculed by people more often than has been admired. Dalí's masterpieces are greeted in the same manner. Yet people like these two are what make the "world of thought" tick. Probably their greatest merit is the fact that they refuse to go along with the conventional mode of thought; for nothing can be more boring than everyone thinking and acting in the same manner, as is often the case in

Letters to the Editor

Dear Charlie,
I wish to comment on your article concerning the tennis team in last week's *Bucknellian*. The article, I'm afraid, was largely misunderstood; I'm sorry for your sake and for that of Hank Peters.

Because you are the captain, you felt that something must be done; it's your job. But what should be done and where do the weaknesses lie? Can an article in the *Bucknellian* suffice for action on the part of the captain? Have you personally spoken to the people whom you have commented upon?

Although you mentioned the fact that the team as a whole should do some serious practicing, you seemed to blame much of the team's weaknesses on Hank Peters. Although I don't know what goes on in practices, I know Hank well, and from your statements on his comments, I feel that perhaps you have misunderstood. His statement that Henry Liva "can't hit his way out of a paper bag," and comments of similar nature, don't build up a team's morale; why should they if the team doesn't deserve them? If Liva can't serve, he should do something about it. A couple of hours of practice a week by himself with a pair of old tennis balls could make a server out of him. If one does not work on individual self improvement, then I don't feel that he should be on the team. To be a college tennis star is nice, but the college degree is much nicer and much more valuable.

Is it Hank's fault that your number one man didn't compete against Delaware? If your player's grades are so low that he cannot go away for matches, then I don't feel that he should be on the team. To be a college tennis star is nice, but the college degree is much nicer and much more valuable.

Charlie, I wish to end my comments as you did; I also, mean no offense. I just feel that to take on the responsibility of self improvement is the job of each man on your team. I know you had this in mind last Saturday when you wrote your article, but it didn't come out that way. When I read your article, I misunderstood as did many others. I feel that you didn't realize the implications involved. Beneath Hank's comments, which on this campus might be considered a "knock," there is a sincere and heartfelt interest in the team and in the sport. Sincerely, M. K. S.

Dear Mr. Conroy,

Is this what you have in mind in your article in the *Bucknellian* of May 1, 1958:

Young love,
Sunning itself in the billowy springtime
Unaware
Of the coming sinewy summer.
Sneaking in
With its dry, hot work.
Young love,
Breezing by with its top down
Unaware
Of the passing seething scenery,
Whipping by
With its stark, dark haste.
Young love,
Walking hand in hand
By the bubbling brooklet,
By the fountain of youth,
Warned by sun-steeped springtime.
Cooled by moon-kissed breezes.

Possibly my conclusions may differ from those of your article. Yet, won't you agree that possibly both viewpoints have their merits?
Bertram Sippola

ON OTHER CAMPUSES

by Chris Petersen

NOTICEABLE NEWS:

The "State College News" informs us that Albany State Teachers College has a practice court for senior law students. Called a Most Court, it has students majoring in Business and Social Studies serving as jurors. The trial is in the form of a problem with written facts and prepared exhibits with two "lawyers" for the defense and two for the plaintiff in a civil case or two for the state in a criminal case. Lawyers and Judges from the immediate area serve as presiding justices, and the cases are based on actual court decisions.

The "Middlebury Campus" reported the findings of a committee studying the problem of overcuts and excessive cutting before and after vacations. They decided that "not all students are sufficiently mature to assume responsibility for class attendance," and although some regulation is necessary, "no loss of credit should be imposed" for pre or post-vacation cuts. These results did not daunt the faculty who voted to have "compulsory attendance at classes on the two days before and after vacations."

"The Pitt News" listed the pros and cons of a trimester plan at the high school level and found that if the school was used on a twelve month—four quarter basis, the school would not decline in value by standing idle in the summer, and the number of students could be increased by one-third. Moreover, teachers would have a twenty per cent salary increase, but they would also have a twenty-five per cent work increase. Finally, students who missed school due to health would have to make up a quarter instead of a semester. On the darker side, three sections of class would have to be taught each quarter and only large institutions could handle this. Repairs would have to be made while school was in session, and teachers would most likely get "tired" of handling youngsters for a whole year, and they would have no time to take professional courses. There would have to be four separate graduations and "vacation quarters would have to be assigned arbitrarily," while "transfers would be hopelessly complicated." The problem also concerns the student who graduates early and finds that he is too young to work and too immature for college.

HUMOROUS HIGHLIGHTS:

The "Mount Holyoke News" on apathy: Jupiter C or Vanguard three
It matters not the least to me
Nassar's Egypt a Russian pawn?
Evokes at most a mighty yawn.
Contain the Reds, Necessity!
That harpy sparks my apathy.
The whole world looks a dingy gray
Because the Dodgers moved away.

At the University of Oxford the coeds have decided to band together and ban all future "kissing and cuddling" unless the unlucky males agree to join their protest against the production and testing of the Hydrogen Bomb. This seems highly unfair since Spring has sprung.

From the Wilkes College "Beacon": "Drunk: 'Say, Oseifer, what 'cha want one for?'" Cop: "We're looking for a drowned man fan." Drunk: "Say, Oseifer, what 'cha want one for?" And for our morbid joke fans, "Mommy! Mommy! Daddy's on fire!" Reply: "Well, What are you waiting for? Get the marshmallows!"

QUOTABLE QUOTES:

From the "Varsity News" of the University of Detroit, "the course title of embryology is not 'The Egg and I'."
C'est fini!

You'll be sittin' on top of the world when you change to L&M

Light into that L&M Live Modern flavor

You get a more effective filter on today's L&M Look for the patent number... on every pack... your assurance that you are getting L&M's exclusive filtering action

Best tastin' smoke you'll ever find! Put yourself behind the pleasure end of an L&M. Get the flavor, the full rich taste of the Southland's finest cigarette tobacco. The patented Miracle Tip is pure white inside, pure white outside, as a filter should be for cleaner, better smoking.

LIZBETH SHAW LOO WRITES HER THANKS

Miss Lizbeth Shaw Loo, who was Bucknell's guest during and following the Burma-Bucknell Program this year, recently wrote this note to the many friends she had met during her visit. She is the daughter of Bucknell's first foreign student graduate. After leaving here, she visited various friends throughout the United States. She will leave for San Francisco next week on her return journey.

To my many good Bucknell friends, On the eve of my departure, I joyfully express through the *Bucknellian*, my heartfelt thanks and appreciation to President Odgers, the entire Staff of the Library, the many students and friends, who as groups and individuals have entertained me to teas, luncheons, and dinners.

I also appreciate Miss Arline Johnson's and Miss Kitty Seller's kind acts as hostesses.

I shall long cherish the various scenes of pictures presented me through Mr. Brown, by the Christian Association; you may rest assured that on my return home, I shall daily gaze dreamily at them, from a very distant land and will always remember the real happy days.

I have spent here with you, and teachers would most likely get "tired" of handling youngsters for a whole year, and they would have no time to take professional courses. There would have to be four separate graduations and "vacation quarters would have to be assigned arbitrarily," while "transfers would be hopelessly complicated." The problem also concerns the student who graduates early and finds that he is too young to work and too immature for college.

Lourey Attends Research Confab

Dr. W. Norwood Lourey, professor of physics at Bucknell University, attended a two-day conference held last week at the Research and Development Center of the Armstrong Cork Company at Lancaster.

Entitled "A Symposium on the Phenomenological Aspects of Viscoelasticity," the conference dealt with some properties of rubber, resins, and plastics which are only partially understood at the present time but which may have considerable practical application in the public use of these products if and when certain problems are solved.

Some of the leading scientists in the field, including mathematicians, engineers, chemists, and physicists, were among the 100 guests from industry and colleges and universities in attendance at the conference at the invitation of the Armstrong Company.

HILLEL
This Sunday morning, May 11, at 10:30, Hillel will hold its annual Mother's Day Brunch for all members and their parents, in the Hunt Room. Anyone who is not a member can still become one by either contacting Joel Berger, or buying their card at the door.

Working in the various roles are the following:
Nanki-Poo is the hero of the show and son of the Mikado (emperor of Japan). This role is sung by Stu Sharp.

The Mikado: This is the title role. Herb Bohler, veteran of many Cap and Dagger productions and part-time professional singer, will perform this role.

Ko-Ko: The Lord High Executioner (hatchet man). The drama is provided by George Lyon.

Katisha is a beauty lady in the Mikado's court who must marry George Lyon. Tyke Bly will have this part.

Yum-Yum: a girl who represents Miss Miss Sem-Gen 1958, but who, under Japanese law, is not permitted to neck. Bob Buys will be in this role.

Peep-Bo: A conceited character, played by Dave Noll.

Pitt-Sing: A girl played by Don Shields, 59.

Peep-Bo: Another girl played by Fred Boren.

Fish-Tush: "Yes man" employed by the rest of the cast. Les LeStrange will be in this role.

Nobleman: This character has a single line. Ted Grabe will be the performer.

Chorus members will include Bill Keech, Chris Christensen, John Trainer, Ken Wightman, Ken Mott, Jeff Jefferson, Marty Holmes, Rich Naugle, George Coogan, Al Kunschner, Dave Welsh, Bill McConnell, Bob Thieck, Hank Pulizzi, Dave Lynch, Roland Bell, Roy Duesen, and Ros Boldt. In the roles of soldiers are Chuck Vosburg, Ray Bures, John Fisher and Bob Kjellberg.

Students Cause University Fire

A recent fire in the Engineering Building has necessitated closing the building to study. Captain Eckberg, who is responsible for the building, stated that he is adopting the policy followed by others in his position who have been forced to close their buildings in the interests of safety. The fire was created with papers in a lavatory by students whose names were not disclosed.

Economics Honorary Names New Officers

Dorothy June Neiman and Janet Elaine Corwin were initiated into Delta Mu Delta, the national economics honorary, at the annual banquet, which was held at the Lewisburg Inn. The banquet was attended by members and associate members of Delta Mu Delta and their guests. Mr. K. J. Rothwell, assistant professor of economics at Bucknell, was the guest speaker.

The newly elected officers of Delta Mu Delta for 1958-59 are President, Joyce Ellen Anderson; secretary, Linda Grauer; treasurer, Dorothy June Neiman. Miss Harriet A. Love is the faculty advisor for the honorary.

In order to become a member of Delta Mu Delta, one must be enrolled in the Commerce and Finance curriculum, pursuing a degree of Bachelor of Science. Other requirements are the completion of five semesters or 124 quality credits, an overall average of 80 or better, and at least an 85 in all economic subjects taken.

M.S.A. REPORTS ---

In the past several weeks, the M. S. A. has sponsored and planned some excellent programs and functions which will lead to the production of some future results. On April 20, the executive board and members of the judiciary board played hosts to a group of local police chiefs at a dinner held at the university cafeteria. Problems concerning the Bucknell students and local municipalities were discussed and a strong effort was made to create firm relations between the men student's representative government and the chiefs from Sunbury, Milton, Lewisburg, Danville and State Police. In connection with this type program, other similar functions will continue as a follow-up in order that the ties between students and local citizens be strengthened.

Since there has been an unorganized demand for lacrosse, the M. S. A. has assumed the leadership to put this sport on the Bucknell campus. There have been several objections to lacrosse as part of the Bucknell athletic program, however, it is now being investigated by a committee led by Al Jackson and Rick Elliott and consisting of Wayne Blair, Arnold Putterman, and Howard McDevitt. This committee is considering the expense of equipment, the possibility of a coach, and the amount of student interest in order to determine whether or not lacrosse would be feasible. If any student is interested in assisting to initiate lacrosse, he should submit his name to Al Jackson of Kappa Sigma.

A unique program that M. S. A. has introduced is a movie that will portray life on the Bucknell campus, covering all aspects: fraternity life, athletics, social, etc. This movie being done by a professional group would be beneficial publicity for all parts of the university system. Other governmental organizations have approved the idea and have pledged their financial and physical support. Since this would be quite an expensive project, the total amount would be amortized over a period of time, thereby making it equitable to everybody. Bob Howell of Kappa Sigma is in charge of this particular committee on preparations.

Besides these proposed programs, the M. S. A. has performed a few outside investigations of the governmental set-ups of other colleges in order to improve our own system. Dick Hunn, president of the general assembly, a few I. F. C. representatives, traveled north to Bowdoin, Amherst and Williams. Leon Diodoro, president of the judiciary board and Myron Sugarman, visited with Dean Perkins of Penn State. Ideas were exchanged and although Penn State is not going to rearrange their student government, we did return with some very good possibilities for next year in regard to freshman men.

Although the 1957-58 academic year is drawing to a close, please don't be apathetic in the support to the programs that you want.
Myron Sugarman, Secretary of M. S. A.

Sig Derby Comprises Dance And Contests

The annual Sigma Chi Derby will be held Friday and Saturday, May 16 and 17. The Sigma will entertain the girls chosen as beauty candidates by their respective sorority pledges, classes and by the Independent, Friday evening from 9 to 12 o'clock at an open dance. At this time the Sigma Chi Derby Queen will be chosen.

Each sorority pledge class and the freshmen independents will enter various contests at 2:30 p.m. day afternoon on Tusin Gym fields.

The highlight of an afternoon of sack, pie-eating and three-legged races will be the costumeing of a Sig pledge by each participating group. A trophy will be awarded to the queen and the winning organization.

THEIR FUTURE AND YOURS
DEPEND ON OUR COLLEGES

As Americans, all of us are proud of our national growth. But it is a sobering thought that the number of young men and women who want and deserve a college education will double by 1967.

Right now our colleges and universities are making a valiant effort to take care of the hosts of eager-eyed young people who are already clamoring for admittance. They have an enormous job to do, for the necessary expansion is far more than a matter of adding classrooms, laboratories and dormitory space. There must be a corresponding increase in faculty and in faculty caliber. The profession of college teaching must attract more first-rate men and women or it will be in danger of turning out second-rate graduates.

This problem of the capacity of our colleges to meet the challenge that is now upon us is vital not only to students and their parents but to business—to industry—and to you.

It is easy to point to current shortages of engineers and scientists. Less obvious but just as pressing is the need for civic leaders—for teachers—for business administrators—for people who have learned to think soundly and choose wisely. They are and will continue to be the backbone of our strength as a nation.

Freedom needs educated people. In this country, those who lead are those who know. Help the colleges or universities of your choice—now!

If you want to know what the college crisis means to you, write for a free booklet to: HIGHER EDUCATION, Box 36, Times Square Station, New York 36, New York.

THE BUCKNELLIAN

BISONS SPLIT

by Dick Whitney

Behind the steady pitching of sophomore Tom Thompson, and the hitting of third baseman Ron Staley with five hits, Bucknell snapped a five-game losing streak in a come-from-behind 8-3 victory over F&M last week at Lancaster. Thompson, effectively scattering ten hits and fanning three, was in complete control of the game, walking only two. Thompson also helped his own cause by knocking in two runs in the Bisons' big six-run ninth inning. Dale Peterson and Larry Mathias with two hits apiece joined Staley in giving the Bisons their best hitting attack of the season.

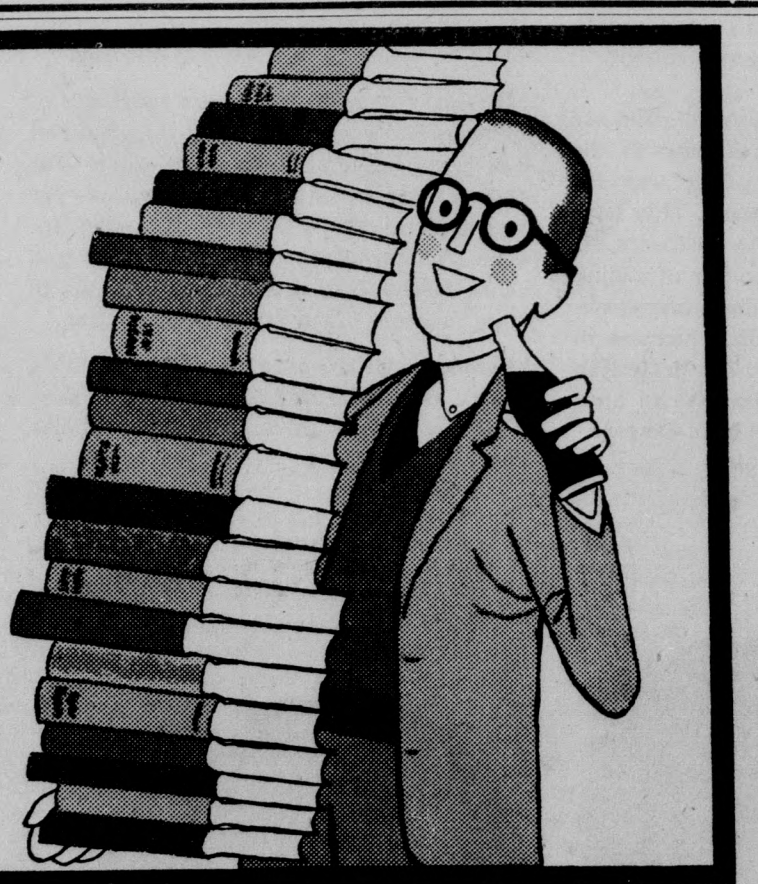

Thompson was in trouble in the first inning when with the bases loaded, Hesse bounced out in front of the plate, ending the threat. The BU Bisons opened the scoring in the second when Larry Mathias' triple scored Dave Conroy from second. They added another in the third on Dick Pitko's sacrifice fly to left that scored Tony Consentino. The F&M pitcher, Trail, held Bucknell until their big ninth inning rally, when the BU Bisons almost upset their over-rated rivals from the once smokey city.

P and M opened their scoring off Thompson as Jacobs scored on Pete Fritz's error at first base in the fourth, and with the help of singles by Darrah, Harnish, and Hesse, they took a 3-2 lead in the eighth; but it proved to be short-lived.

Staley opened the ninth with a double and went to third on Consentino's single. Ellis Harley scored Staley with a fly to right and the score was tied. Pitko walked, setting the stage for the tie-breaking run as Consentino scored on a wild throw by F&M pitcher, Trail. Peterson walked, Kilroy greeted Trail, and Larry Dempster replied him with a single to make it 5-3. Thompson followed with his two-run single, making it 7-3. Then Staley got his fifth hit of the day, a run scoring single to make it 8-3. After Consentino walked, F&M reliever, Kilroy struck out Harley to end the rally.

Thompson ran into a little trouble in the bottom of the ninth, but with the bases loaded, Darrah tied to Consentino to give Thompson and Bucknell their first win of the season.

HINKLE BEST BU PLAYER

by Chuck Wagner

W. Clark Hinkle, Bucknell's most renowned football player, was the Thunderbolt fullback in 1929, 1930, and 1931, and then went on to the Green Bay Packers, with whom he performed for another decade. Hinkle was the fullback on every important all-East team selected in 1931, including the Associated Press, United Press, I. N. S. and N. E. A. He also made the I. N. S. all-American, as well as several other "all" eleven, in 1931. Harry Stuhldreher, who coached Villanova, ranked Hinkle as the greatest fullback in the entire country. Heine Miller, Temple coach at that time, was even more definite about it; he called Hinkle the country's greatest fullback for three straight years.

Coach Clark Snively, Princeton coach, who usually praises his players very little, says, "Hinkle is a back without a weakness. He kicks, passes, runs, and defends with the best of them." Hinkle ran especially well to the left, a weakness with many backs.

As a collegian Hinkle, a native of Toronto, Ohio, weighed 196 lbs. and stood 5 feet 11. In 1929 he led Eastern backs in scoring with 123 points. In 1931 he took over the signal calling job, and ran the ball less than in preceding years; he piloted Bucknell in 1931 through an unbeaten season, the only such record in the East.

He continued his success with the Packers, being named all-league fullback half a dozen times during the 30's. In a magazine article, Curly Lambeau, Packers coach, described Hinkle as an ideal back, equally well-equipped for offense and defense.

Without a doubt, Clark Hinkle is the greatest football player ever to play here at Bucknell University.

Bucknell Golf Team Record
 The record of this team is as follows: Bucknell 12, F&M 6, Lafayette 14, Bucknell 34; Gettysburg 10, Bucknell 8; Bucknell 17, Temple 1; Cornell 6, Bucknell 0; Navy 6, Bucknell 1; Lehigh 11, Bucknell 7. Their record so far is 2 wins and 5 losses.

Kodiak Island, off Alaska, has given the largest species of brown bear—Ursus middendorffi—its common name.

What a big difference there is between giving advice and lending a hand.

Great Moments in Sports

by Strat White

They wanted to use the stadium for this one because it was figured to be a very interesting battle between a double big man with little punch and a good small man with dynamite in each hand.

The big man was Joey Maxim, the light heavyweight champion of the world. The small man was Sugar Ray Robinson the former welterweight and current middleweight champion.

Maxim was strictly a standup boxer who possessed a fair left hand, but not much of a right. Joey was champ because he was a good boxer and took a punch very well.

Robinson was champ because he moved with the speed of a light-weight and hit with the shock of a heavy. At the time, Sugar was voted by sports writers as the best fighter in the world pound for pound. Ray had an uncanny ability for being able to knock a man out while moving away from him.

On the day of the fight Robinson was installed as a 2 to 1 favorite. The fight was given the big play in the papers that day while the eventual deciding factor was ignored by most of the people. That factor was the heat.

As the day grew older the heat became more intense, so much so in fact that the sun blistered the paint on the bleachers seats. Consequently, that night it did not let up much, and the humidity became more enhanced.

Because there was no television or radio for this bout, the people poured in from the suburbs and the different parts of the city to fill Yankee Stadium to capacity. By fight time the heat was still stifling, in fact the temperature in the ring was reported to be 110 degrees.

For the first five rounds Robinson fought easily and beautifully staying with his left hand and moving in and out behind combinations.

From the 6th to the 10th rounds he took the fight to Maxim, staggering him several times with left hooks and straight rights. The fight was very lopsided and Ray handled his opponent with ease. However he continued to make a mistake that eventually proved costly. He tried to wrestle and move his bigger opponent around in the circles wasting valuable energy needlessly.

In the tenth round Robinson began to slow down. During the latter part of the 11th round he was visibly slowed down, but still managed to maintain a commanding lead. His combinations, what few he now threw, were slow, forced, and feeble. To their utter amazement the sellout crowd was beginning to sense the turning of the tide as they watched the greatest fighting machine in the world disintegrate.

The same mouths that cheered the left jab, left hook, and right cross combinations that staggered Maxim in the 6th and 7th rounds and the stunning straight right and crushing left hook that had the lightweight champ floundering at the bell in the 8th round, unleashed a roar that erupted from the bowels of the stadium, caromed off of the multi-eyed monsters, starting sleepily down into the ballpark, and disappeared into the star infested heaven, when they saw the infallible Robinson flat on his face after missing a wild right. Some 65,000 people saw Sugar Ray on the canvas for the first time in his fantastic career. Robinson remained prone for a couple of seconds until he was able to rise to his knees and then to his feet. While the referee wiped the rosin from his gloves, Ray slumped against the ropes and watched his tormentor move toward him through the fog.

Maxim's toothless punches bounced off of the fading champion. The Kappa Sigma outfit was supposed to be in the first place in the intramural league.

Let us not make any predictions this week for as I had previously stated anything can happen. If the Phi Psi's and Phi Gam's meet in the finals of golf I wouldn't be too surprised if the best score was one that I could beat—as horrible as I am. If they do meet which is quite probable, I'm sure that anyone could see the word *clutch* written all over their faces, for a win or a loss could mean the difference of ten points either way.

In softball the Phi Gam's and Phi Psi's appear to be the favorites. As of now they both have the identical records of 1 and 0. I rate the Phi Gam's over the Phi Psi's for the simple reason that Phi Psi is in a much stronger league which includes SAE, DU and SX. I am sure that the Phi Gam's will enjoy leaving back in their easy chairs watching these teams fight it out among themselves.

Concerning Delta Upsilon and Sigma Alpha Epsilon, the DU's have a record thus far of 1-1, while the SAE's have won none and lost 1. The DU's do not appear that strong in softball, but one must not underestimate this house for the simple reason that the Pangburn trophy has been a part of them for quite some time, and I am sure they would feel lost without it. We can look for the house to fight until the last out. The S. A. E.'s after leading the intramural league for almost the entire campaign were finally forced to relinquish this lead at the conclusion of track. With just softball remaining the picture does not appear to bright for the men of Minerva, but this fall picture is not for unknown reasons.

Well, the situation might change before the end of next week, so let's all relax and see if the picture becomes any clearer by then.

Lung Training Course
Open For All Males
 A course open to any male student interested in SCUBA (self-contained underwater breathing apparatus) will be held each Monday and Thursday evening from 7:30 to 10:00 for the next two weeks.

Any male student holding Junior or Senior Lifesaving Certification may register at the Athletic Office, Davis Gymnasium.

Stuck for dough? START STICKLING! MAKE \$25
 We'll pay \$25 for every Sticker we print—and for hundreds more that never get used! Start Sticking—they're so easy you can think of dozens in seconds! Stickers are simple, fun, and profitable. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe Lucky, Box 67A, Mount Vernon, N. Y.

Along the Bison Trail

by Doug Grigg

This is one of those typical, most wonderful weeks at school where all is id and rain. But along the intramural paths things were still rolling along at the usual speed—with no team still sure of winning the intramural trophy. Since my last article, however, the situation has almost completely changed. I stated that Lambda Chi Alpha would be the eventual golf champion, and would almost run away with that trophy thus leaving Phi Kappa Psi out of the running for the all-year trophy. Phi Psi proved that I was wrong by defeating Lambda Chi. This victory by the Phi Psi's virtually threw the whole race wide open, for if they can win the golf championship they will be in second place with a total of 432 points.

The number 1 and 2 leaders of the league before the start of golf, DU and SAE, have both been knocked out of the running in this sport, therefore, the DU's have a total of 423 points and the SAE's, 418 points. The Phi Gam's just managed to squeak by the Sammies in their first round of golf. In fact, the match was so close that it wasn't decided until the 9th hole of the third match. I felt that Phi Gam would defeat SAE and then go on to beat Kappa Sigma, but the way the ball has been rolling lately I actually don't know. At this point anything could happen. If the PGD's defeat KS, thus putting themselves in the finals, they will have a total of 435 points—good for first place.

Next week could tell the whole story, and finally let a lot of people relax. Phi Kappa Psi should beat the Sig's by using a little strategy as they did against LCA. Moreover, this strategy usually pays off, for in nine cases out of ten it is not only the house with the best athletes that win, but also the house that starts juggling the chystal ball. The Kappa Sigma golf team is supposedly pretty good, but all the Phi Gam's have to do is just get by this club and they would be in first place in the intramural league.

The third heat was the most exciting and controversial of the day. Both DU and SAE beat Phi Psi's time in a blazing finish and both were disqualified. Thus Phi Psi was crowned champion of the 1958 push-derby. Humming "My Old Kentucky Home", I trudged away.

On Tuesday afternoon the big meet of the season took place. Bucknell's opposition was a strong Dickinson team who had lost only one meet last year (at the hands of BU) and had already posted a 1958 log of 6 wins against BU.

Our potential competition I'm sure would not prove insurmountable, either in talent or effort. If we can afford to play and win over such teams as Cornell, Navy, Rutgers, Boston University, and Harvard in other major sports, we certainly can meet them equally on the water, given a relative build-up period.

I am thinking in particular of rowing or crew racing, a sport that has achieved a high degree of popularity in collegiate circles. Bucknell is logically endowed with one of the primary requisites—a relatively large body of water—why not take full advantage of it?

PHI PSI'S TAKE PUSH CART DERBY

by Clem Schaefer

Saturday morning the street was lined with fans as far as I could see, which was not very far since it was raining hard. The official starter gave directions and the nine pushcart derby teams huddled together for last minute instructions and warmth. It was about that time in Louisville the horses for the Kentucky derby were being exercised for their afternoon meeting. I closed my eyes and imagined Churchill Downs, beautiful women, stately Southern Colonels and Mint Juleps, despite the lack of Juleps I could see plenty of spirit in the crowd around me.

A raindrop dripped off a cute up turned nose at my elbow and hit the pavement simultaneously with the starters gun for the first heat. Three pushcarts rounded the corner and were gone from sight. They ran as if Silky Sullivan were in pursuit.

The cute up turned nose sneezed and looked pensively at her date. He gallantly put down his glass of beer and offered his sleeve for her to wipe—ah, but now the cars came into sight, there was a quick exchange of drivers and they were gone again.

The first heat was won by Phi Psi's cheer began to break up at the finish. In the second heat one of the fraternities had trouble rounding the brothers out of the training quarters and an import ended up pushing the third lap. Since she was rather muscular, the judges didn't notice and no one was hurt. Actually she ran rather well.

The third heat was the most exciting and controversial of the day. Both DU and SAE beat Phi Psi's time in a blazing finish and both were disqualified. Thus Phi Psi was crowned champion of the 1958 push-derby. Humming "My Old Kentucky Home", I trudged away.

THINCLADS LOSE 1ST IN 2 YEARS

by Bob Wright

This week was a busy one for the Bucknell trackmen. On Saturday afternoon, May 3, the team played host to Albright and Ursinus. Although it was a very nasty day, the meet was held without delay. The track was partly under water and was sloppy and muddy throughout the meet.

The times and heights were relatively poor but the Bucknell men emerged victorious by the scores of Bucknell 65, Albright 48, and Ursinus 25.

There were no outstanding accomplishments during the meet but there were a few apparent weak spots in the Bison line.

Neither Albright nor Ursinus could offer much competition and as a result, the home team advanced another step forward in their unbeaten string of 9 straight meets.

The summaries are as follows:
BU—65; Albright 48; Ursinus 25;
 100—103; Merrell, B; Wagner, B; Fox, U; Dickinson, U.
 220—240; Fox, U; Gilkey, B; Lee, B; Croley, U.
 440—535; Conners, B; Croley, U; Mack, A; Christensen, B.
 600—1122; Maw, A; Conners, B; Manning, B; Carlson, B.
 Mile—4:52; Lynch, B; Morgan, U; Thrasher, A; Green, B.
 L. H.—27.6; Wright, B; Diehm, A; Dickinson, U; Smith, A.
 2 Mile—11:03; Lynch, B; Thrasher, A; Green, B; Jenner, U.
 Javelin—150; Ackerman, B; Erickson, B; Feich, A; Walton, U.
 Shotput—42 11; Hart, B; Setteccia, B; Buelens, B; Erickson, B.
 Discus—113 2 1/2; Francis, A; Walton, U; Mueller, B; Hart, B.
 Pole Vault—10 6; Brennerman, A; Mueller, B; Peterson, U; Wright, B; Gery, D.
 High Jump—5 6"—Wright, B; Merrell, B; Wooster, B; Brennerman, A.
 Broad Jump—19 10"; Wooster, B; Clowe, B; Smith, A; Brennerman, A.

CALENDAR OF EVENTS

THURSDAY, MAY 8		
4:30 p.m.	WSGA House of Representatives	Hunt Rec.
5:00 p.m.	Phi Beta Kappa Initiation	Hunt Liv. Rm.
7:00 p.m.	May Day Rehearsals	Davis Gym
7:00 p.m.	Women's & Men's Glee Club Rehearsals	Davis Annex
8:00 p.m.	Lecture—Richard F. Brown, Chief Curator of Art, Los Angeles County Museum	Olin Sci. Aud.
FRIDAY, MAY 9		
9:30 a.m.	Board of Publications	Lewisburg Inn
9:30 p.m.	Cap and Dagger's: "Thieve's Carnival"	L. H. S.
8:30 p.m.	May Day Ceremonies	Davis Gym
8:30 p.m.	Track, Tennis and Golf—Middle Atlantic	Away
SATURDAY, MAY 10		
9:30 a.m.	ROTC Regiment, Federal Inspection	Stadium
2:00 p.m.	Baseball game with Albright College	Davis Gym
2:30 p.m.	Bucknell Symphonic Band Concert	Davis Gym
3:00 p.m.	May Day Ceremonies	Davis Gym
4:00 p.m.	Open House	7th Street House
8:30 p.m.	Cap and Dagger's: "Thieve's Carnival"	L. H. S.
8:30 p.m.	Men's & Women's Glee Clubs Concert	Davis Gym
SUNDAY, MAY 11		
9:30 a.m.	Nine-thirty Class	Hunt Rec.
1:30 p.m.	Mortar Board Coffee Hour	Larison Liv. Rm.
2:00 p.m.	Open House	Spanish House
10:30 a.m.	Hill	Hunt Rec.
MONDAY, MAY 12		
3:00 p.m.	Baseball vs. Juniata	Home
2:00 p.m.	Scholarship and Student Aid	E. W. Rm. 118
6:45 p.m.	Pantheil Rushing Rules Committee	Hunt Liv.
7:00 p.m.	Men's Glee Club Rehearsals	Vaughan Lit. Aud.
7:30 p.m.	Physics Club Meeting	Olin Sci. Aud.
8:00 p.m.	Bucknell Wives	Carnegie Lounge
TUESDAY, MAY 13		
1:00 p.m.	Tennis vs. Delaware	Away
6:30 p.m.	Golf vs. Delaware	Home
7:00 p.m.	Independent Women's Marshmallow Roast	Hunt Rec.
8:15 p.m.	Judy Davis—Violin	Baptist Church
WEDNESDAY, MAY 14		
11:00 a.m.	Chapel—Student Recognition Day	Davis Gym
6:15 p.m.	Scholar's Club Dinner	Univ. Dining Hall
7:00 p.m.	Phi Sigma (Biol. Hon. Meeting)	Spotts Aud.
8:00 p.m.	Bridge Club Social	Larison Sunporch
THURSDAY, MAY 15		
4:30 p.m.	Phi Beta Phi Retreat	Cowan
4:30 p.m.	WSGA House of Representatives	Hunt Rec.
7:00 p.m.	Men's Glee Club	Vaughan Lit. Aud.

... Conroy's Corner

(Continued from page 2)

any small, isolated society. As a matter of fact, the state of boredom often develops to such a point that one can almost guess what anyone else is thinking.

Probably the thing people resent most about the "off-beat thinker" is the fact that he uses a brilliant mind to attack our deepest convictions—whether they concern religion, the meaning (or absence of meaning) of life, politics, or for that matter most anything. We sort of inwardly fear him, for we realize unconsciously that at times he may very well be right. And then the point arises that we may even have to start preparing valid arguments to prove that he is wrong, for our own satisfaction.

We won't argue, though—for then we'd have to start thinking ourselves, and that's much too difficult.

... Spring Festival

(Continued from page 1)

will be conducted through the departments of chemical, civil, electrical, and mechanical engineering in the Engineering Building from 9:00 a. m. to 12 noon on Saturday, from 10:00 a. m. to 12 noon on Saturday special exhibits and demonstrations will be displayed in the physics laboratory in the Olin Science Building for parents and guests interested in the work of the physics department. The chemistry laboratories in the Olin Science Building and the biology laboratory in Taylor Hall will also be open at this time.

The Board of Directors of the Fathers' Association will hold its annual Spring meeting at 10:00 a. m. in the library of the Vaughan Literature Building. A meeting of the full membership of the Fathers' Association conducted by its president, Mr. Irwin P. Seese, will be held at 11:00 a. m. in the Vaughan Literature Auditorium. The major business of this meeting will be to consider and act on the proposals of the joint committee composed of representatives of the Mothers' and Fathers' Associations and the University. Fathers of all Bucknellians are urged to attend this meeting.

Mothers of all Bucknellians are invited to attend the annual meeting of the Bucknell Mothers' Association, chaired by Mrs. Zella M. Hardy, president of the association at 11:00 a. m. in the Music and Art Building Auditorium.

The Saturday afternoon events will begin with a baseball game with Albright College at the field by Memorial Stadium at 2:30 p. m. The Bucknell Symphonic Band will present a concert at 2:30 p. m. before the May Day Ceremonies. Tickets are necessary for admission to the concert and ceremonies until 2:30 p. m.

Sunday morning church services will be held in the various Lewisburg churches at 10:30 a. m. and at 10:45 a. m.

Spring Festival is sponsored by the Bucknell University Student Faculty Congress under the direction of Daniel L. Moore, vice president of the Congress. The student chairmen include Sandra Caryl, program editor; Jay McConahay and Vernald Howard, Men's Glee Club managers; Dorothy Fuchter and Ann Blake, Women's Glee Club managers. The student chairman for the May Day Ceremonies is Pat Head.

Marlin Cops Renewal In Fulbright Research

Dr. F. David Martin, professor of philosophy at Bucknell University who has been engaged in advanced research in Italy during the past year under a Fulbright grant, has been awarded a renewal of the grant for another year.

For the past eight months Dr. Martin has been studying the aesthetics of late 18th century architecture, sculpture, and painting and has made his headquarters at Fiesole. He plans to move with his family to Rome in September, in order to avail himself of the library facilities there.

An article by Dr. Martin entitled "The Beautiful as Symbolic of the Holy" with special reference to Grunewald's "Crucifixion" was published in the March issue of *The Christian Scholar*.

... Moving-Up Day Address

(Continued from page 1)

A college campus is as ideal a place as one can find in the everyday world, and she believes that we can expect in such an atmosphere a far greater degree of idealism than elsewhere.

WSGA is gradually trying to have the Honor System so accepted that the rules will be unnecessary and in which all women students will be governed by standards and their spirit of honor. We must strive to perfect the Honor System, not only

University Hosts State Librarians

Bucknell University was host to the college and reference librarians of central Pennsylvania at a meeting in the Ellen Clarke Bertrand Library Saturday.

Librarians from the Pennsylvania State University, Lock Haven State Teachers College, Lycoming College, Wilkes College, Susquehanna University, and Bucknell participated in the program which included a brief report from each college concerning its library.

Ralph W. McComb of the Pennsylvania State University, councilor from the Pennsylvania Library Association, reported on behalf of the American Library Association, and Harold W. Hayden of the Bucknell Library, reported on the Pennsylvania Library Association, of which he is the president. A report on the State Library was presented by Ralph Blasingame, Jr., state librarian.

After luncheon in the University cafeteria, the visiting librarians heard a talk on "Earth Satellites" by Emil J. Polak, associate professor of mathematics and astronomy at Bucknell.

Inflation a dollar is worth 50 cents but you have borrowed it. In deflation a dollar is worth 50 cents but somebody owes it to you.

The computer will increase the facilities of the college's department of electrical engineering and will be available also for use by other departments, according to Dr. George A. Ireland.

Phi Psi Wins Derby; Gams Place Second

Phi Kappa Psi pledges won the Annual Push Cart Derby held on Saturday, May 3. Since nine entries were present, three heats with three entries competing in each were run. The winner was the entry completing the course in the fastest time. In the first heat PKP placed first, PGD second and LCA third; SX won the second heat with KS coming in second and SAM third. In the final heat DU won a close battle with SAE, while TKE placed third. Although the time of DU and SAE was faster than that of the other heats they did not win because of disqualification, DU because of a passing foul and SAE because of an improper crossing of the finish line.

The other members of the cheerleading squad for next year will be Sue Braun, Jane Elam, Sue Brady, Jim LaRue, John Yerkes, and Jack Fleck. Miss Marcia Scurlie is the chemistry and mathematics major.

She is a member of Pi Mu Epsilon, national mathematics honorary, and the Modern Dance Club. She is also a member of Delta Delta Delta fraternity, of which she will be treasurer next year.

leading squad for next year will be Sue Braun, Jane Elam, Sue Brady, Jim LaRue, John Yerkes, and Jack Fleck. Miss Marcia Scurlie is the chemistry and mathematics major.

Memorial Foundation Allocates Computer

A gift of \$500 towards the purchase of an analogue computer has been received by Bucknell University from the Robert L. Kirt Thomas R. Muller Jr. Memorial Foundation, Inc., on behalf of the Lehigh Structural Steel Company.

The computer will increase the facilities of the college's department of electrical engineering and will be available also for use by other departments, according to Dr. George A. Ireland.

The pledges served Lewisburg by repairing books at the library, cleaning two of the community's parks, washing and painting the walls of the Community House, and doing outdoor work at Cowan.

Cheerleaders Choose Gayle Myers Captain

Gayle Myers, a junior from Montclair, New Jersey, has been elected captain of Bucknell's cheerleading squad for next year. Gayle is a chemistry and mathematics major.

She is a member of Pi Mu Epsilon, national mathematics honorary, and the Modern Dance Club. She is also a member of Delta Delta Delta fraternity, of which she will be treasurer next year.

Pledges Assist Local Community

Approximately half of the fraternity and sorority pledges joined in a united Pantheil-IFC Help Project on April 10, 19 and 26. The purpose of the project was in accordance with the national trend of fraternal organizations to be of service to the college community.

The pledges served Lewisburg by repairing books at the library, cleaning two of the community's parks, washing and painting the walls of the Community House, and doing outdoor work at Cowan.

Test your personality power

(Taboo or not taboo—that is the question)

1. Do you feel unqualified to judge a campus beauty contest? (For men only)	YES	NO
2. Do you think going to a big party the night before is the best way to overcome pre-exam jitters?		
3. Do you find the company of the opposite sex annoying?		
4. Do you think fads and fancy stuff can give you the full tobacco flavor of a real cigarette?		
5. Whenever one of your professors makes a grammatical error, do you call it to his attention?		
6. Do you and your date sit in the back row of the balcony only because you're both farsighted?		
7. Do you think cowboy shows will ever be banned from television?		
8. Do you consider Ibid. the most quoted Latin author?		

If you answered "No" to all questions, you obviously smoke Camels—a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco gives you the best smoke. Try Camels and you'll agree!

Have a real cigarette—have a Camel

ODK LAPS THIRTEEN; PHI TAM COPS AWARD

The Davis Gymnasium annex was the scene for this year's Eighth Annual Student Recognition Day ceremonies. Speaking before a capacity crowd, Student Faculty Congress president James LaRue introduced the program, which went first into the presentation of officers and new B Club members, who took their oath of membership from Charles Appar. Robert Fitzsimmons then presented the John D. Plant Memorial Award to the outstanding senior athlete Larry Dempster.

Interfraternity Council president Donald Avery followed with the awarding of the Interfraternity Scholarship Cup to Sigma Alpha Mu. James LaRue then presented the class officers, and the next order of business went over to Miss Ruth Gortner who presented the Women's Student Government Association officers.

President Dick Hann then announced the members of the Men's Student Assembly who would be working with him next year.

Following presentation of the officers of the Christian Association by president Ted DuPuy, Robert Burnett, president of Omicron Delta Kappa, proceeded to the tapping exercises for new members of the organization. Omicron Delta Kappa is the activity honorary which gives recognition to students who have proven themselves outstanding in many varied fields of Bucknell life.

This organization, which is represented in many other colleges across the nation, is one of the most highly respected fraternities of its type. The men who were tapped were Dick Burnett, Lawrence Dempster, Leon Dondardo, Ron Fisher, Ellis Harley, James Jefferson, Peyton McDonald, Professor William McRae, John Miller, Professor Emil Polak, Donald Spear, Robert Toal and Robert Wright.

Following the tapping ceremonies, Phi Lambda Theta was awarded the Burns-Bucknell Bowl. This award (Continued on page 6)

Board Of Publications Honors Past Members

The second annual Board of Publications Banquet was held Friday evening, May 9, at the Lewisburg Inn in honor of the retiring members of the Board, the past editors and business managers of Bucknell's five publications and WVBU. The banquet also marked the twenty-fifth anniversary of the Board of Publications.

Dean John C. Hayward was toastmaster for the occasion. Miss Trennie Eshley, chairman of the Board, introduced the speaker, Mr. Kenneth Slifer. A member of the class of 1928, Mr. Slifer is the vice president in charge of advertising in the firm of N. W. Ayer and Son, Inc. While a Bucknellian, he worked on the *Bucknellian*, *L'Agenda* and the *Bell-hop*, the forerunner of *Touche*. Mr. Slifer has had much experience as a writer and cartoonist.

In preparation for his talk to the Board of Publications, Mr. Slifer asked his staff to fill out a questionnaire he had prepared to determine the importance of experience on college publications in regard to obtaining a position in a field related to journalism. The consensus of opinion was that such first-hand experience had been extremely beneficial in this regard, perhaps even more than courses in journalism.

The following retiring members of the Board were honored: Virginia Emmitt and James Jefferson, *L'Agenda*—Claire Halline and Peyton McDonald; *Touche*—Mary Anne Bunker, Philip Nerhood and Wallace Hunter; *Student Handbook*—Patricia Burnside and WVBU—Elizabeth Jones and Roger Neiman.

Commencement Tickets Tickets for all Commencement events will be available to all Seniors on May 27 and May 28 in the Carnegie Building Lounge.

Following the tapping ceremonies, Phi Lambda Theta was awarded the Burns-Bucknell Bowl. This award (Continued on page 6)

"Rainbow Rumble" will be the theme of the annual Sem Night festivities to be held Friday evening, May 23, from 8 to 12 in the Sem. There will be a band, dancing on the street, refreshments, games, and prizes. Each house and dormitory will sponsor one of the decorated booths, which will be placed around the Sem and along Sixth Street.

All of the decorations will be in the colors of the rainbow, and each booth will be a different color.

Evelyn Solomon is chairman of the affair, with Jenny Chase, publicity chairman, June Poline, decoration chairman, Jane Stiles, entertainment chairman, and Ellie Body, refreshment.

Area chairman, Bob Ackerman, Maplewood, N. J.; reunion book editor, Claire Halline, Lewisburg, Pa.; assistant editors, Sue Smith, Pittsburgh, Pa.; Jan Byrnes, Chevy Chase, Md.; Barbara Pausser, Merion Station, Pa.; and Nan, Doylestown, Pa.; social meeting hostesses, Merle Holden, Drexel Hill, Pa.; Ginny Davis, Danville, Pa.; and Sally Gilliam, Merion, Pa.; class regalia chairman, Alice Brewen, Wormleysburg, Pa.

At their meetings on October 5, 1957, the Boards of Directors of the Bucknell University Fathers and Mothers Associations approved the appointment of members to serve together with representatives of the University, as a joint committee to consider ways and means by which parents could most effectively contribute to the general betterment of Bucknell and to make such recommendations as seem desirable. After thorough consideration, the Joint Committee offered the following recommendations to the two parent associations and to the University:

1. The Bucknell University Fathers and Mothers Associations merge into a single organization under the name "Bucknell Parents".

2. The officers and directors of the two present associations serve as an interim administration group to conduct necessary business and to plan the new organization.

3. Any balance of the Mothers Association pledge to Cowan remaining unpaid after the new organization has been established be paid from the Bucknell Parents Loyalty Fund.

4. To undertake projects to contribute to all phases of Bucknell's progress.

5. To stimulate interest in higher education and in the opportunities offered by Bucknell particularly.

The Joint Committee that drew up these recommendations was headed by Mr. John C. Hayward. Members included Mr. Carl Beery, Mrs. V. R. Hardy, Mr. Raymond K. Irwin, Mr. Charles A. Mery, Mr. Henry W. Ott, Miss Mary Jane Stevenson, Mr. Homer W. Wieder, and Mrs. Edwin A. Ziegler.

Panel discussion with professors and upperclassmen, square dances, and sports are planned for the three days, September 11-13 inclusive.

Freshman camp counselors, selected for friendliness and interest, include Joan Berlin, Ann Wiley, Jack Erdmann, Bill Keech, Bob Scott, and Dave Welsh, freshmen; Barbara Fisher, Barb Trecker, Dick Boddie, Bill Hayes, sophomores; and Barb Dunning, Ann Norris, Ted DuPuy, Jack Ehrhart, juniors.

The purpose of B. U. Parents are: 1. To promote better understanding between parents and the University.

2. To provide opportunities for parents to become acquainted with other parents.

3. To continue to improve the lines of communication among students, parents, faculty and administration.

4. To undertake projects to contribute to all phases of Bucknell's progress.

5. To stimulate interest in higher education and in the opportunities offered by Bucknell particularly.

The Joint Committee that drew up these recommendations was headed by Mr. John C. Hayward. Members included Mr. Carl Beery, Mrs. V. R. Hardy, Mr. Raymond K. Irwin, Mr. Charles A. Mery, Mr. Henry W. Ott, Miss Mary Jane Stevenson, Mr. Homer W. Wieder, and Mrs. Edwin A. Ziegler.

Beneficial?

It all began when the administration took over the kitchens of the fraternity houses. What had seemed to be a harmless move towards a more stable economy for the fraternity caterers had turned into the first step towards a "fraternity-less" campus. That was back in 1953. The administration had come to the fraternities with the suggestion that the houses together and unite under a central food buying plan. Certain members of the administration had even said that this suggestion had arisen by request of the fraternities themselves, but none of the houses which one of them had supposedly motivated the idea. There were some dark murmurings to the effect: "since when has the school been doing us favors?" and "what's in it for them?" There was of course, "something in it for them," because they could at long last realize a long desired addition to the campus, that is, the central storage and refrigeration plant for the University Cafeteria, and at a savings, since the fraternities would share the financing of it.

Some suggested that a compromise could be effected whereby the University would allow freshmen to eat in fraternities second semester in exchange for their endorsement of the food plan, but although the administration "considered" this proposal, they rejected the idea, since this would substantially reduce their profits. So the plan went into effect. But, as the fraternities at Penn State had discovered, the savings were not as great as they seemed on paper. The houses that had a below average caterer did realize a minimum of savings, but they were forced to conform to a little more in their eating habits to do so. The fraternities that had a more clever caterer did not show a greater profit, because the element of competition which had been his means to secure "good deals" with salesmen was removed.

A few years later the position of caterer was eliminated completely since his job was just a superficial one, as all the buying was being done by the administration.

The next step was a standardized menu. "It will mean a bigger savings," they said, and without anyone experienced in food buying, the fraternities had no way of knowing if this was true or not. It was an easy matter once this was accomplished to take over the kitchens completely, then, with the parallel "restrictive rooming" plan, which had been introduced "University dormitory facilities must be filled first before we can allow men to live in fraternities."—it wasn't long before the fraternity at Bucknell was a thing of the past.

And now in 1954, as I sit here in what was once my fraternity house, eating a meal of peanut butter and egg salad sandwiches provided by the University Cafeteria staff on this the 25th reunion of my class, I can't help but think if we wouldn't have been better off if we had refused to support the food buying plan of 1953. Oh, I'm sorry I didn't know I was only allowed one bottle of milk.

Beneficial.

Centralized purchasing agency for fraternity food—or not? The establishment of a centralized purchasing agency would render a more efficient system than the existing method. At present a caterer from each fraternity buys the food for his group from surrounding towns. Some caterers are new and inexperienced; therefore, this inefficiency adds a greater expense to the fraternity. Through a centralized system, a greater quantity of food at lower prices could be purchased.

Some people believe that the administration, in financially supporting this new idea, is actually going to exploit it for its own ulterior motives. Suspicion which is justified is good, but suspicion which is not justified is harmful. First, the University can exist without the fraternities. Second, the University can receive higher profits by investing in stocks and bonds; therefore, it would be an aid rather than a hindrance. If the University did not charge some interest rate, they would be operating at an economic loss.

Dick Hunn, president of MSA, recently investigated the centralized purchasing agency in effect at Bowdoin College which is very efficient and successful. Bucknell would not be experimenting with a new idea because it has already been effectively established elsewhere. Now Penn State failed to maintain the system simply because there is little cohesion between the fraternities. At Williams, the town merchants tried to undersell the central purchasing agency until it failed, and then they put the prices back to normal.

This system is being considered for the benefit of the fraternities. "As a fraternity man, I don't want to see the present system ruined, but this system isn't efficient now," said Dick Hunn.

Conroy's Corner

It would seem to me that an intellectual atmosphere should not just appear in the classroom, but originate in the classroom and then be carried outside the classroom by the student to apply to the rest of his activities here at Bucknell. A college education isn't the end of a few years of formal education; it is rather the beginning of a life-time of thought. In the same manner, an intellectual atmosphere might begin in the classroom and then be applied to student life outside of class.

It is really a shame to see that an intellectual atmosphere doesn't prevail outside of class. Rather, there seems to be some sort of invisible line outside of each classroom door, over which each student crosses—and then he discards his intellectual interests in favor of his old habits and customs of amusing himself.

I suppose the disregard of an intellectual approach to the enjoyment of life here can be seen in many ways on the campus—the student's choice of musical entertainment (that combination of conflicting noises often referred to as "Rock and Roll"), the refusal to strengthen and enlarge one's vocabulary by the use of words that can be applied to most any idea ("weak show", "strong show", "suave", "sweetie"), and the neglect of the individual dignity of each student by his identifying himself with everyone else in dress, conduct, and recreational outlets.

While I definitely wouldn't advocate that a student should become a rather one-sided individual by applying the classroom procedure to his every leisure hour, I would like to see an intellectual approach to any activity in which the student may partake in his spare time. I should think that only by developing this attitude of "intellectual curiosity" that the student could honestly say to his parents upon graduation, "I have acquired a college education."

Now I suppose it is fairly obvious that the criteria that forms the basis for many students' spare-time recreation is not on the same plane as the criteria required for his academic pursuits in the classroom. Under that assumption, then, I believe the process of altering the student's methods of entertaining himself in his leisure hours would be an overwhelming task. Therefore, I should think that the only way to develop an attitude of intellectual curiosity that student would be for the faculty members to (1) take the diversions that the student is interested in and (2) study and analyze these diversions on an intellectual basis. If such were the case, the hour exams given to the student might look something like this:

1. (50 points)

THOUGHTS
By T. Doctor

Ooh, ee, ee,
Ooh, ah, ah;
Ting, tang,
Walla-walla
Bing-bang.

SHADES
By T. Platters

Heavenly shades of night are falling,
It's twilight time.
(1) Why are the shades heavenly? Is there a celestial reference in the use of this word?
(2) Are the shades really falling? If so, why doesn't someone fix them?
(3) How do you know it's twilight time? Are shades usually drawn

MEYN CONGRATULATES PLEDGES ON PROJECTS

On the successive weekends of April 19 and April 26, ITC and Panhellenic Council sponsored a combined fraternity and sorority pledge project to aid the community of Lewisburg. The purpose of such an endeavor was to show the community that the Greeks were not only interested in their own affairs but also willing to help out in a general improvement plan.

Various projects were undertaken which included painting the interior of the community house, cleaning up two parks in Lewisburg and also doing some outdoor work at the Cowan conference center. Under the combined efforts of June Poline and Bill Sweet, over one hundred and seventy-five pledges representing eleven fraternities and nine sororities were organized to do this work.

Although this is not the first time a project of this nature has been attempted, both townspeople and student leaders concluded that never before has a more successful program been carried out in the community. The I. F. C. and Panhellenic, however, thought it was necessary that the people of Lewisburg learn how Bucknell fraternities and sororities can serve both the university and surrounding area. Considering the community and university interest which was aroused by such an endeavor, it is hoped that this student project will become an annual affair.

The following letter was just received from the office of the Dean of Men.

April 29, 1958

Memorandum

To: All Fraternity Presidents

From: Office of the Dean of Men

I had the opportunity to speak with the Lewisburg Borough Manager, Mr. Westfield, recently. Mr. Westfield discussed the fine job that was done by the fraternity house pledges painting the borough offices, cleaning the building, and cleaning the two city parks. I wish to personally congratulate the fraternities and their pledges for making contributions to these projects.

I am certain that the continuing efforts and support of this program and similar programs will greatly

ON OTHER CAMPUSES

by Chris Peterson

INTERESTING ITEMS:

The following story actually appeared on the front page of the "State College News" from Albany State Teachers College under the headline, "State Inhibitor Chugabugs; Literally Becomes True Blue". So for your pleasure, a story. Picture this: Norman Median Mode was the most average guy at State. Only, he had a taste for exotic drinks. One dark night, he staggered down Washington Avenue. An armored car from the Atomic Energy Commission raced past him. It hit a bump; the only known bottle of Cattyum—the 106rd element—bounced out from its thick lead-lined container. Norm touched it. Poof . . . his brain lit up; he glowed white. Being blind drunk he couldn't read the label. He yelled, "Tequila," and chug-a-lugged it. He hiccupped. Norm was never the same. He cut-got hundreds. He pitched like Peller, outpaced Landy, jump-shot like Pettit, and passed like Graham. He grew to 6'6" overnight and could outstage a blattunace. He played the organ and bongo drums in 39 languages. Bunnies appeared from his hats; then he read their minds. He built a better mousetrap; followed it with a book in mouse-language called "How to be a Better Mouse to Outwit a Better Mousetrap". His voice range went from a low Henry Lind to a low Jerome Hines.

One morning he flew from Sayles to the State Capitol Building. The same day, he erupted in a rash that resembled a spine curve. It stretched from his left ear to his right. He played the organ and had everything from tired blood to tired taste. A Dr. Hypo Dermic thought he recognized the symptoms. The next day, Norm's liver turned to leather, and his kidneys turned to rubber. Dr. Dermic took a letter opener and slit Norm's now-paper chest. The heart on exposure to air turned to glass. Poor Norm . . . his brain turned into a watermelon and broke his tongue apart. When Dr. H. D. M. D. returned the next morning, Median-Mode was a flaming green negative. From this state he changes to a drop of blue-green ink. This is how they buried him; on the next day he turned into a bomb, and blew up the cemetery. Epilogue: Dr. Dermic found in Median Curi's books the mention of the existence of catdium. She died of it. Yes, Cattyosity killed a Curie.

Visitor Questions

Absence of Flag

Lehigh University
Bethlehem, Penna.
May 5, 1958

Editor-in-Chief "Bucknellian,"
Bucknell University
Lewisburg, Penna.

Dear Sir:

It came to my attention last weekend, while I was visiting Bucknell University, that nowhere was there displayed an American Flag. It seems to me "only fitting and proper" that an American university should display the nation's flag. I

at twilight time? Why not at 2 p. m., or 10 a. m., or anytime?

(4) Why not at Chef's coffee time?

(5) The author's subtle use of the words "It's twilight time" are the most mysterious in all modern literature. Have the shades really fallen down after all? Or have they been secretly pulled down by a wizard and a wandering minstrel? Explain.

At any rate, it would be a change.

Respectfully yours,
Howard Smith

Majorette Try-outs
Majorette try-outs will be held Monday, May 26, at 4:30 p. m. at Tustin Gym facility. Those interested should contact Margie de Groot at JA 3-5600.

Express Agency Notes Methods Of Handling

The manner in which baggage for students will be handled was announced today by the Lewisburg Express Agency. Luggage will be handled in the following way during the closing of this school term. May 27-June 9: Residents of Bucknell Cottage, Larison, Hunt, Harris and Swartz Halls, East College, East Wing, West College, West Wing, and the residence houses must have janitors take shipments to the first floor. Fraternity men and off-campus students can expedite movement by accumulating baggage and phoning the Agency for pickup service. Two tags should be addressed and attached to each piece of luggage shipped. It is also advisable to place an additional address tag inside. These tags will be furnished by the Railroad Express. There is no additional charge for pickup service and free delivery will be made to homes within prescribed mileage limits, in a principal city or town. Free insurance of \$50 is allowed. Additional insurance may be taken out at a reasonable cost. Shipments may be sent, with charges either collect or prepaid. No pickups on Saturdays or Sundays.

Barbara Wilkes Crowns Queen

Highlighting the Annual Spring Festival Weekend was the presentation of the May Court and the crowning of Anna Schultz as May Queen. Anna was crowned by Barbara Wilkes, last year's queen. Her court included: Faith Bonnell, Alice Brewen, Virginia Davis, Claire Halline, Patricia Head, Merle Holden, Gail Kelly, George Ann MacKay, Leigh Masce, Barbara Pausser, Karen Reynolds, Margaret Smith, and Nancy Umholtz. The members of the court were senior women chosen on the basis of leadership, personality, and service.

After the crowning of the Queen, WRA presented "Holiday Festival," for the court and its spectators. May Day, Fourth of July, Halloween, Thanksgiving, Christmas, St. Patrick's Day, and Easter were depicted in dance and routines by Orchestra, the Freshman Modern Dance Group, and the Physical Education Club. The Women's Glee Club sang two numbers, "Waters Ripple and Flow" and "Holiday For Strings" and the band presented a concert before the program.

The Men's and Women's Glee Clubs and Cap and Dagger provided entertainment Friday and Saturday evenings. The Glee Clubs each presented several numbers and combined under the direction of Mr. Allen W. Flock to sing Verdi's "Aida," as the finale with Mr. Jack S. Crim as tenor soloist. The drama enthusiasts of Jean Anouilh's "Thieves Carnival," a modern French comedy about three thieves who tried to steal two girls and their millions.

On Friday and Saturday many parents participated in the Calloway System Medal Golf Tournament. Saturday morning the ROTC Department presented their review with a special drill by the Pershing Rifles and held Federal Inspection. Also on Saturday afternoon a student crowd witnessed Bucknell's victory over Albright in baseball. An Elementary Education Department Art Exhibit and a Student Art Exhibit were open to the public in the library throughout the weekend.

DR. SAUVAIN SPEAKS AT WILSON COLLEGE

Dr. Walter H. Sauvain, professor of education at Bucknell University, will be the principal speaker at a testimonial dinner next Wednesday at Wilson College at Chambersburg.

The dinner will honor Frank Chambersburg, and Thomas Smith, country school superintendent, both of whom are retiring in June. Sponsored by the Department of Education at Wilson, the dinner will also honor the cooperating teachers of the faculty who work with Wilson's student teachers.

—DRIVE CAREFULLY—

HOFFMANN RE-ELECTED

Frank A. Hoffmann, director of audio-visual aids at Bucknell University, has been re-elected to third term as editor of the *Keystone Folklore Quarterly*, publication of the Pennsylvania Folklore Society. The election occurred at the spring meeting of the Society held in Harrisburg last weekend. At that time Mr. Hoffmann was elected to a three-year term on the Society's Board of Directors.

American Chem. Society Picnic
The American Chemical Society will hold its annual picnic on Saturday, May 17, at Cowan.

Council Selects P. Hess Prexy

At a regular monthly meeting of the Interfaith Council held Tuesday noon, May 13, at the University Cafeteria, Phyllis Hess was elected new chairman of the council. She is a sophomore Phi Mu who will be president of the Presbyterian student fellowship next year. In addition, Phyllis is also a reporter for the Bucknellian and a member of the Chapel Choir. Jean Reitz is secretary of the group, and Dave Dayton serves as representative of the Christian Association. In attendance at each monthly meeting are three representatives from each of the fellowships, the president, the pastor or advisor, and one other student representative.

The purpose of the Interfaith Council is to coordinate activities of the various independent student fellowships connected with the community churches with those of the Christian Association. In attendance at each monthly meeting are three representatives from each of the fellowships, the president, the pastor or advisor, and one other student representative.

ALONG THE BISON TRAIL

by Doug Grigg

It is hard to believe that just two more weeks remain of the school year, 57-58, but it is even harder to realize, or I should say try and realize why the intramural race of this year was so knotted up. Of course the race is still very close, but the eventual winner of the Pangburn trophy appears to have narrowed down to two clubs namely, Phi Kappa Psi and Phi Gamma Delta. Sigma Alpha Epsilon and Delta Upsilon appear to have dropped out of contention for the trophy, but there are some pretty sound reasons why the race has ended up as it has thus far. Last year the DU made a runaway of the race, but this year the path of events has taken a different course.

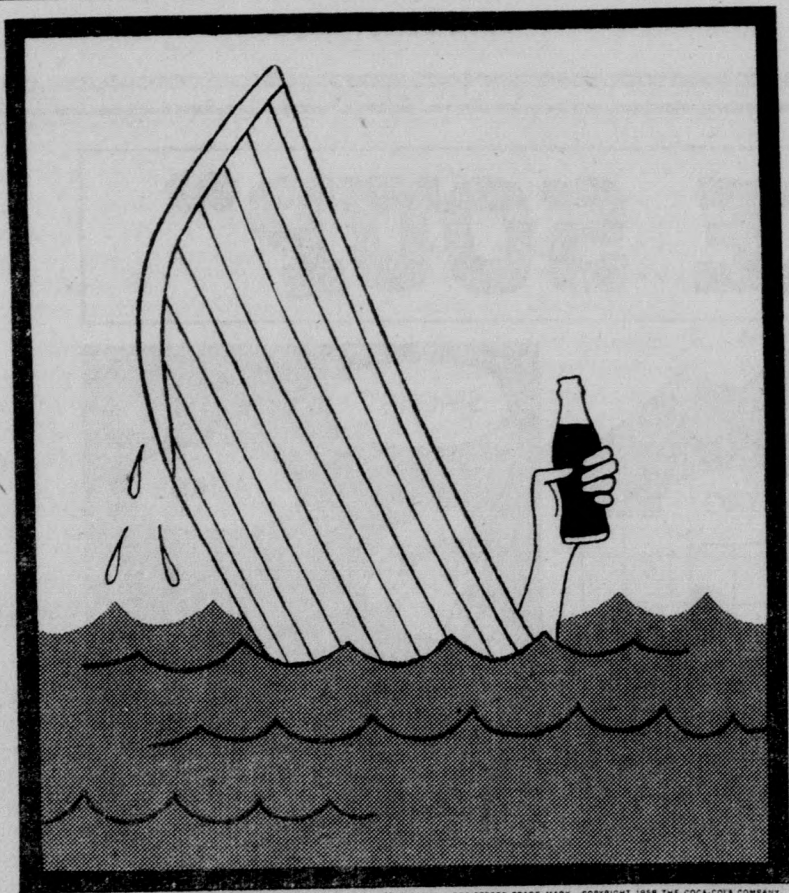

The Demies have always been known for training hard in each particular sport, but this training does not necessarily always pay off. Any team must have the potential, and then through the training of this potential they develop an outfit that works together and knows how to capitalize on the other teams errors. If a team doesn't have the material to start with then not much can be expected from them. I'm not saying that Delta Upsilon doesn't have any athletes because they do—some outstanding ones it is a matter of fact. I'm not saying that they don't have any men who have the ability or leadership to carry their house to a championship because they have that too. The only trouble is that these athletes are too few and far between. There are excellent athletes in that house, but four, five, or even six men cannot be expected to carry a house to a championship. DU also suffered a great deal this year due to the fact that they lost some top notch athletes to last year's graduation. This hurt them tremendously. I might say here that I was surprised to see the DU's go as far as they did, and although they aren't completely out of the race their chances appear to be very slim. I congratulate that house for going as far as they did. Give a house like that the athletes to work with and they would walk away with the cup.

Phi Kappa Psi has surprised everyone. Here is a house that lost an awful lot in last year's senior class, and wasn't expected to show anything in this year's race. To my surprise, and I'm sure to a lot of other people, they did, but this is not for reasons unknown. Here's a house that stayed behind the pack for the major part of the race, and then closed in to take over second place. This house is by no means loaded with athletes, but they have about ten good men who can play in any sport. These men have carried the house the whole year, and will probably carry them right to the Pangburn trophy. The Psi's also picked up points because they capitalized on the minor sports. I'm speaking of volleyball, bowling, and golf. They also managed to win just enough games or matches in almost every other sport so as not to fall too far behind the leaders.

The Phi Gamma Delta's have always been known to emerge as one of the top teams in the past intramural races. It, therefore, is no surprise to see them in this point, in first place. Here's a house that has a lot of fair athletes. Maybe they are not that outstanding, but in each sport they had someone who was capable of getting his share of the points. The turning point for Phi Gamma Delta, as far as I'm concerned, was in the spring sports. In track they amazed everyone by taking second place. Their weight man came through for them and they had pledges who managed to gather up a fair number of points. The draw in golf gave the Gamma's a big advantage because they definitely drew the weaker division. No one can say what would have happened if they were pitted against LCA, PKP, SAE, who are all in the upper division, but I think it would have made a big difference. No one can complain, however, for as Strat White would say, "that's the way the ball rolls".

Sigma Alpha Epsilon, after winning tennis and soccer, appeared to be the team to beat. By mid-season they were leading the league by quite a few points, and still appeared to be strong in all of the remaining sports. The turning of the tide can be centered around golf. After track they were trailing first place by just five points, and many of the SAE's felt that the golf team had the potential to go all the way. As we all know it didn't. The SAE's knew that everything relied on golf, for when a team is defeated in this sport it is virtually eliminated. The SAE's went down to a good LCA club, and as the golf team felt so did all of the hopes and aspirations of the men of Minerva. When Phi Psi defeated LCA, everyone at SAE realized that the contest was between the Psi's and Gamma's. Sure, they still had a chance if they could win softball, but that was a big if. By losing to Phi Psi in softball all of the expectations the SAE's had of winning their first intramural trophy had been wasted.

Well, the race seems to be centered on two houses, namely Phi Kappa Psi and Phi Gamma Delta. These two houses will meet in the finals of golf and this could tell the whole story. If Phi Psi beats Phi Gamma then they will only be trailing first place by 3 points. If they lose then it will be a different story, for they then will be trailing the Gamma's by 21 points. Both of these houses appear to be the favorites in their respective softball leagues, but if the Psi's win golf, their softball league, and then meet the Phi Gamma's in the playoffs then it will be the winner of that game that will win the all-year trophy.

It was sad...

when that great ship went down and the last thing to leave the sinking ship was a bottle of Coca-Cola. That's because all hands stuck to Coke to the end. Now there's popularity! That's the kind of loyalty the sparkling lift, the good taste of Coke engenders. Man the lifeboats, have a Coke!

PGD AND PKP LEAD MURALS

by Joe Kabella

Here in the twilight of the school year all attention is being focused on the coming end of the semester. For seniors it will mark the end of four happy years, and for the underclassmen a welcome rest. The one thing, however, that is not being overshadowed by this coming blessed occasion is the intramural race that is advancing to the wire very rapidly.

At the beginning of the golf and softball seasons the speculation on who was going to win the all year trophy was very diversified. As the teams turned in to the home stretch four strong teams were huddled close together. Phi Gamma Delta, Phi Psi, and SAE. All had high hopes of kicking in the stretch and coming home the victor. As the golf and softball seasons have gotten under way some of these top teams have begun to show signs of wear and tear. The race has been a long one and it is very likely that the big winner might very well be the strong finisher.

In the opening match of the golf season on April 27, LCA eliminated the SAE three-some from the tournament. Phi Psi took honors over TX and SX over TKK. KS defeated SPE and SAE defeated PLT. On May 4, Phi Psi continued to battle it's way to the top eliminating a strong favorite, LCA. SX controlled the greens over KDK and DU, a strong contender for the trophy left the fairways for the hands of KS. Phi Gamma continued to shine by defeating SAM.

On May 11, Phi Psi took another big stride by defeating SX. Phi Gamma stayed abreast by defeating Kappa Sigma.

May 18 will be the Big Day. The two top teams, Phi Psi and Phi Gamma, will meet on the greens and only one can emerge the winner. The victors of this match will more than likely have one more large size trophy for their pledges to dust. While the golf tournament is coming to a close the all important softball league is definitely taking shape. The season started out on April 30 with Phi Gamma defeating TX 12 to 4. PLT hammered LCA, 20 to 7, and DU scored a victory over KS, 18 to 8. Phi Psi continued to re-

36 Students Complete Water-Safety Course

The Water-Safety Instructor Course which was completed last week prepared 36 Bucknell students as instructors to teach swimming and life saving courses during the year ahead. This training program was held each Monday and Thursday evening for the past month. Elementary swimming and life saving is offered during the school year in the regular physical education program. This advanced training is offered to all qualified students in order to prepare them for summer employment in water safety work.

Latour Invited To Join N.R.C. Aquatic School

Bob Latour, varsity swimming coach has been invited to join the faculty of a National Red Cross Aquatic School at Brookline, New Hampshire from June 12th to the 22nd. There are nineteen Aquatic Schools throughout the country where extensive training in teaching methods is offered to public school teachers and college students each year. Mr. Latour has also been a member of the faculty at Aquatic Schools near Rochester, New York and Butler, Pennsylvania.

The modern man will stand for almost anything—except a woman on a bus.

will be Harry A. Stuhldreier, one of the "four horsemen" from Notre Dame in 1927.

H. Stuhldreier To Speak At MSA All-Sports Dinner

On Friday, May 23, 1958, at 6:30 P.M., the Men's Student Assembly (MSA) will present an All Sports Banquet that will be held at the American Legion Home, 119 Buffalo Road in Lewisburg. All students who have participated in a Varsity or Freshman sport for the 1957-58 school year are cordially invited to attend. The guest speaker for the banquet

BU ADVANCES TO SEMI-FINALS IN MAC TOURNEY

by Chas. Siede

Haverford, Pa. Veteran Bud Poindexter and Soph. Bill Sweet, the Bison number one doubles team, worked their way to the semi-finals at the Middle Atlantic Conference Tennis Tournament, before bowing to Haverford's combination, this past weekend. In singles Bill Sweet and I were both bounced out in the second round. The tourney this year was on an individual basis only recognizing the best singles player and doubles duo in the Conference. This year the results were not completed to determine the top school in the M.A.C. as had been done in the past years.

Sweet and Poindexter, in their first round match Thursday morning, easily controlled P and M's, Witter and Spangler, to the tune of 6-2, 6-3. Late that afternoon, they defeated Bell and Good of Lebanon Valley, 6-4, 5-7, 6-4. They then eliminated Martella and Morita of Ursinus 8-10, 7-5, 6-1 on Friday. On Saturday, where extensive training in teaching methods is offered to public school teachers and college students each year.

Mr. Latour has also been a member of the faculty at Aquatic Schools near Rochester, New York and Butler, Pennsylvania.

The modern man will stand for almost anything—except a woman on a bus.

will be Harry A. Stuhldreier, one of the "four horsemen" from Notre Dame in 1927.

WHAT HAPPENS WHEN A BANK OFFICIAL IS DEPRIVED OF HIS LUCKIES? (SEE PARAGRAPH AT RIGHT)

BANK ROBBERS often try to get rich through no vault of their own. So often, in fact, that bank officials rarely get rattled by ordinary hold-ups. But sometimes the gangsters go too far. Sometimes (Curses!) they lift the officials' Luckies! That dastardly act is bound to cause real Banker Rancor! Why? Simple. Every Lucky (You can bank on this!) tastes like a million bucks. Every Lucky is made of fine tobacco... naturally light, good-tasting tobacco, toasted to taste even better. But don't accept our account—check it yourself. Get Luckies right now!

BU Upsets Lehigh For Biggest Win

by Chuck Siede

During my three years on the varsity, I have never experienced such a great thrill as when our dauntless Bisons edged out Lehigh, last year's MAC champions, 5-4. The match was played at Steel Field, Bethlehem this past Tuesday afternoon. "This was by far the best win the Bisons have chalked up since the Bucknell-Penn State match seven years ago," said Hank Peters smiling. In the last two years Lehigh has taken us over the coals 9-0 and 7-2, respectively.

Not only did the big win contribute to our fine record but it also put us in first place in the northern division of the Middle Atlantic Conference. If we can take F&M and Muhlenberg, the only MAC schools remaining on our schedule, we will play the southern division champ for the entire MAC championship.

Bill Scarlett, ex-MAC singles champ, defeated Bill Sweet, 10-8, 1-6, 6-3. Sweet played very hard throughout the entire match but a few bad breaks and costly errors gave Scarlett the match.

Lowell Lathaw, a promising sophomore, seeded number three in the Conference, defeated me at the second singles slot, 6-3, 6-1, even though I had a better than average day.

Playing at number three, Hank Livas, blasted Tom Earl, 6-1, 6-2. Hank really played like an "Aussie" forcing Tom to make numerous er-

rors with deep accurate ground strokes and net volleys. Bob Goecker had a tough match with fourth man Ed Sullivan, losing 6-3, 6-4. "Goeck" exhausted his opponent, running him all over the court, however, Ed had just enough stamina to carry him through.

Tommy Cowen, who has only lost one match this season, defeated Frank Weiss, 6-4, 2-6, 6-4. Tommy relaxed after the first set, quickly lost the second set, and finally got hold of himself, coming back in the third from a three game handicap.

Frank Weigand, who has showed the most improvement, defeated Bill Kohut, 6-1, 6-1. Frank played as fine a match as he has all season, making very few errors and serving with precision.

The doubles once again came through under the pressure to decide the match on our favor. Sweet and Reubel dropped the first doubles to Scarlett and Lathaw, the MAC champs, 6-1, 6-1. Hank Livas and I remained undefeated at the second doubles by defeating Sullivan and Earl, 6-2, 10-8. Finally at the third doubles, Cowen and Goecker beat Weiss and Kohut, 6-4, 10-8. Our record now stands at seven wins opposing two losses.

BISONS WALLOP ALBRIGHT; LOSE TO JUNIATA NINE

Reaching For The Sky

Larry Dempster, BU's regular first baseman, goes high in the air to prevent a wild throw. Larry, who has been one of the mainstays of the team, this year is leading the team at hitting.

By Dick Whitney
Before a large Mother's day crowd, the Bucknell Bisons pounded out their second victory of the year, an easy 19-2 victory over hapless Albright. After a seven run first inning, over the Albright coach realized it was no contest, and he asked that the game be halted. His permission was granted, much to the dismay of the Bison hitters who were fattening up on their averages.

Dick Pitko with five hits, Larry Dempster with two hits, Jack Brothers with three hits and a home run started the Bison attack in the first, and Ellis Harley with two hits including a homer, led the BU attack. Starter Fred MacDonald was nicked for nine hits, but was never in serious danger in a game which saw the Bisons leading 17-0 after four innings. The only damage against MacDonald was a two-run homer by Albright's third baseman, Pictzel, in the fifth inning. Except for that the game was no contest, and the Bisons capitalized on weak Albright pitchers to collect their highest hit total of the season.

A hard hitting nine from Huntingdon, Pa. invaded Lewisburg last Monday and went home with an easy 12 to 3 victory. The game was won by the smart and steady pitching by slender Ron Reynolds, along with sharp hitting by Sipes, a stocky second baseman who batted eighth; Ross, a good looking third baseman who knocked in five runs; and two boys from Harrisburg who also played football in the fall, Jim and Bob Merrier.

Bucknell starter Tommy Thompson was not helped at all by his teammates' poor showing in the field, although Thompson did not look as nearly effective as he has in earlier showings. He was wild especially in the first inning; but he lasted the full nine, mostly due to the Bisons' noticeable shortage of pitchers. Thompson came through with two singles, and, along with hits by Ron Staley, Ellis Harley, and Tony Consentino, was all the Bisons had to offer at the plate. Harley, incidentally, played a very steady game at short, and is looking more and more like a polished ballplayer if he can only correct a few fielding flaws.

Thompson loaded the bases in the first on walks to Jim Berrier, Meenan, and Bob Berrier and Ross's long fly brought home the first run. An error by Harley in the second and a single by Sipes helped Juniata to an early 2-0 lead, and Bucknell never caught up. The Bisons did make it 2-1 in the bottom of the second on a single by Consentino and two errors; but Juniata exploded for four runs in the third against Thompson to lead 6-1.

With Thompson still on the hill, they added 3 in the seventh, one more in the eighth, and two in the ninth. All 14 Juniata hits were singles except for one double by first baseman Shover. Thompson did a good job in the middle three; but he tired in the late innings and the ball game was already decided when the Bisons added two unearned runs in their half of the eighth.

BOB WRIGHT BISON OF THE WEEK

by Bill Bannik

This week's Bison of the Week is Bob Wright from Floral Park, Long Island. Bob attended Swanekah High School where he played soccer, basketball, and track. In his senior year, Bob was elected president of the Varsity Club and took third in the high jump at the state meet.

In his freshman year Bob participated singlehandedly won the intramural track meet for Delta Upsilon. He won the high jump, low and high hurdles—setting a record in both the high jump and high hurdles. Last year he was the intramural 800 and again set the record, which was beaten in this year's track meet. In his sophomore year Bob went out for the varsity track team and led the entire team in total points. Again, this year, Bob was up for the leading scorer when he suffered a pulled muscle and therefore might not be able to compete in any of the remaining meets.

Bob is advertising and business manager of the yearbook and freshman counselor of fourth West Wing. He was also elected as treasurer of I. F. C. and a member of ODK. Last year he was vice president of DU and last night was elected president. It seems that Bob is active in every campus organization except the Sem. Sports are Bob's hobby. He has participated in every intramural sport except golf. For the past two years he has reached the semi-finals in wrestling and boxing and hopes to take them both next year.

Bob is majoring in accounting and maintains a 1.5 average. After graduation he hopes to get his C. P. A.

Tennis Clinic To Be Held Next Monday

There will be a tennis clinic next Monday at 4 p. m. on the Bucknell courts. Bill Bosc, the Wilson Sporting Goods Pro, who travels around the country conducting tennis clinics for the Wilson Sporting Goods Co., will be in charge of the clinic. The clinic will be open to both men and women, and racquets and balls will be furnished. At the conclusion of the clinic an exhibition match will be played between Bill Sweet, BU's No. 1 player, and Bill Bosc. Sweet and Dr. Clyde Jacobs will oppose Bosc and Don Ross in a doubles exhibition match.

Cartoonist Schultz States Sentiments Behind Peanuts

Charlie Brown, Patty, Pig Pen, Lucy, Linus, Snoopy, Schroeder and Beethoven were at University of Minnesota this month, brought by their creator Charles Schulz.

The cartoonist creator of "Peanuts" talked about his characters "as if they were real people, not the products of a grease pencil," reported the *Minnesota Daily's Ivory Tower* magazine.

Schulz drew as he talked. "Lucy says you can draw Charlie Brown's head by using a pie plate," Schulz said as he drew something that looked very much like it could be drawn with a pie plate, "but this is not necessarily so."

He put a sad little face in the circle, drew a much-too-small body under it and introduced Charlie Brown. Then he covered the drawing with vertical streaks.

"That is rain," he explained. "Charlie Brown says, 'It always rains on the unloved'."

The strip, says Schulz, "depicts high-toned sayings jammed down into the little people." He does all the work himself. "After all, there's not much there—just figures and graphs."

"I'm ignorant as far as fine arts go. But cartooning is a lively art—something which sometimes surpasses fine arts."

He drew Snoopy the dog in a frantic motion trying to find his way out of a patch of grass "caught

Behind The Mike

by Joel Berger

This week, I want to tell you about two of our announcers and their show, *Concepts in Sound*. The two men are Jim Chapman and John Yaukey. First, I'll tell you about the show. *Concepts in Sound* is a new and different idea for WBU as it is a changing program every week.

It runs in a four part cycle, with the first week of each month being used for big bands. The second week is for vocals, the third is comedy, and the fourth week in their cycle is for hit tunes. In this way, Jim and John are able to appeal to the tastes of everyone. They present this show every Monday evening from 9:00 to 9:30.

Jim is 20 years old and is in his third year of a five year engineering course. He hails from Elmira, New York, and serves as feature editor of the *Bucknellian*, corresponding secretary of S. A. E. and is in advanced R. O. T. C.

John, a 20 year old York, Pennsylvania junior is in the C. A., is the treasurer of S. A. E. and expects to work for the *Bucknellian* next semester. He is presently in advanced R. O. T. C. and is taking a C and F course to become a C. P. A.

The next show that these two men have will be the last scheduled one for the semester and on it they expect to play the best works from each of the four categories they used all year. Why don't you tune in to meet to play the best works from each of the four categories they used all year. Why don't you tune in to meet to play the best works from each of the four categories they used all year.

"How in the world could anybody eat that many pancakes after undergoing such an emotional experience?"—ACP Feature service.

COMMUNITY EFFORT CURBS DELINQUENCY

by Bruce McCullough

Juvenile delinquency in America today seems to be almost as important a problem as how to curb the present recession or how to end the cold war without getting into a hot one.

There is no doubt about the fact that juvenile delinquency is on the upswing in almost all American cities, and there is also no doubt the fact that there has not been any sound solution in stemming the tide of this evil to society.

One can pick up the paper daily and be reasonably sure of reading some article on teenage vice. Every one in urban society seems to be aware of this problem, but few are actually doing anything about it. No coordinated, vigorous effort is being made to apply on permanent basis known methods for improving the conduct of juveniles.

Recently Harrison E. Salisbury, a noted authority on the subject of juvenile delinquency, wrote a series of articles for the *New York Times* in which he tried to analyze juvenile gangs in New York. He tried to show why they are formed, how they exist in a world they help to make, what might be done about them, and what the city is doing.

Mr. Salisbury says the problem must be curbed at its roots, which are the neighborhood and family. This situation cannot be relieved until some of our responsible leaders become active in solving the problem. At the present time our most able leaders are too much concerned about business, banking, and national politics.

The causes of delinquency, seem to come largely from the home. The family is no longer able to control their offspring, and they in turn throw their responsibilities onto the community. The community in turn does not get stirred up until the actual harm has been done.

It seems then, that a strong community effort on the part of the family, church, school, community leaders and social institutions all together, is the one and only way of snuffing out this problem to society. It is time people stop talking about juvenile delinquency and start taking action. If the churches will work hard along with everybody else this problem will be one of the past, and no more talk will be needed.

SEA-LIFE

I sometimes wonder what it's like beneath the salty sea. Beneath the foam and 'whelming waves

That seek to cover me. The ocean's call is deep and strong And echoes with each wave; He seems to plead and cry to all "Come settle in my grave."

And I am tempted by this call To linger by his side, Then crawl into his salty home And there forever hide.

EX-BUCKNELLIAN RELATES DAY AT HOWARD UNIVERSITY

by Biff Ries

It's 9:30 a. m. by the library clock and you jump out of bed at the same moment you realize you've ten minutes to make that room sparkle for Wednesday inspection, and get down to breakfast. Your roommate is already up and out so you throw her books and yours into a desk drawer, push the spreads up over the beds, damp-mop the floor and pull down the window shade.

You throw a coat over your pajamas, telling yourself this is no time for convention and you're on your way. You brush your teeth on the way down the hall swallowing the toothpaste, and remove your bobby pins simultaneously.

You take a place on line trying to assume that "I've been up since seven a.m.," but you feel yourself break out in a cold sweat when you realize you've neglected to roll up your pajama legs.

Having cleverly chosen a tray without bumps so your sorghum won't spill in your lap, you make your way to a table, not too anxiously anticipating an eye opener of fried potatoes, grits and bologna.

Seated across from you is "Dead Pan Denney" who looks exactly like everyone else, with his cap pulled down to his eyebrows, from which point a pair of huge black sunglasses take over, carrying the disguise almost to his trim mustache. The remaining part of his face is submerged in the newspaper, but you hear him mumble, "Slick chick, join the clique!"

You feel sure this wild chick took a stab in the dark regarding your gender, due to the fact that he has not yet raised his glance from the printed page. Taking a deep breath, you remark confidently, "Cat, I glory for those fading shades below that phat frst hair!"

He deserves a fair reply, but his only response is:

"Later sugar, scatty eighty things to do!"

Two months ago you might have inquired if that were the financial page that Dead Pan has buried himself in. But by now, it has occurred to you that there is no stock on the market listed as "Black Beauty" or "Whirlaway" so you figure that this is the racing form that Denney is studying and he is a victim of the daily double habit.

After eating and returning to your room to dress, you race across Death Valley to your morning classes. This is your largest class and all eight of you in one room makes it rather stuffy. The professor calls for your opinion constantly, and if you can scarce one up in time, he will pound on the desk and quote theories until you surrender.

You finish your morning schedule at 12:00 o'clock and walk out on to campus to the blending songs of four fraternities which gather at the sun dial, fountain, memorial tree and marble bench to make themselves known.

On the way back to the dorm, you meet one of the many commuters who invites you home for spaghetti dinner. Both stomach and pocket-book tell you not to argue, so you don't, and spend a wonderful afternoon "at home."

Once back at the dorm, you stop into the room next door to find that the pinocle game which has been thriving for three days and nights is still "shuffling" on.

A glance out of the window tells you it's 4:30 and the kids are returning from their afternoon joy rides and beach parties down at Rock Creek. Fellow line the brick fence outside of the dorm and the girls lean out of the windows naming the brands of the snappy convertibles.

parked on both sides of the street.

Chapel bells are ringing for the evening service and once again you are on your way across the valley and up the hill. In chapel the atmosphere is quite different. It's cool and quiet, and the searching music makes you wonder where you've been running all day. Here, black, yellow and white find time to sing and pray together knowing for sure that no one laughs and no one frowns.

The fellowship continues as you walk across campus to the School of Religion with some friends and sit down to talk in the little library, empty until now. You share some of the day's happenings and are shocked to find that things you thought important only to you are the concern of these other folks. Seems only a few minutes have passed when time for night classes is here. You've forgotten to eat and wonder if you can last three hours until nine o'clock. Anyway, you know you're going to find out.

When the last class is over, your prof, who is also new at Howard, walks you home, and upon discovering that you haven't eaten, insists on buying you a box of fried chicken which you eat on the way to the dorm.

Having signed the familiar "bed sheet" at the desk to signify that you're in for the night, you're laid by some strange males who implore you to take them up to the recreation room. You agree, knowing that they cannot go up alone, and are glad you did, when you hear "Birdland" music floating down the stairs.

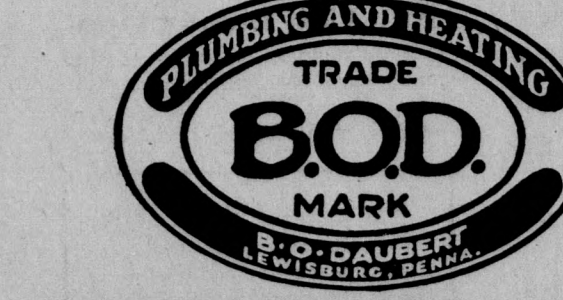

The rec room is packed to night. Ping pong, T. V., piano music and record player are all in full swing. The fellows line up for your admitting them to the party by supplying you with a private stat line and cutting in on your dances constantly. After an hour, you're pretty well beat, so you take your new friends back to where you found them and head for the elevator.

You're so pooped, you press the wrong button and the elevator must go down to the basement first, but you're too tired to care.

You wander aimlessly around the room for a few moments until you realize that you have no classes tomorrow and drop the alarm clock into a bureau drawer. Seconds later you fall down into the bed. But your rest is not to go undisturbed, the gears ringing in the hall mean it's fire drill time. Your Bucknell training forces you out of the bed instinctively to collect your shoes, coat and towel! Hey, wait a minute! You're at Howard now! Roommate, look that door!

Pass In Review

by William Meister

Under sunny skies, a crowd of over 1000 witnessed the performance given by the Regiment last Saturday. The review was marked by many bursts of applause from the audience. Inspecting officer, Colonel Clery awarded the review with a rating of "Superior," the highest rating that can be given. The overall ROTC rating at Bucknell was "Excellent."

President Odgers took the review and trooped the line with Colonel Clery and Martin. Miss Jeanne Thomas, queen of the Military Ball, assisted in the awarding of the decorations to outstanding cadets. Those honored were: Richard Koloski, Ronald Cipolla, Robert Holmes, Raymond Bures, Bob Voxheimer, Bob Bartlett, and Phil Hunter.

The "Best Company" streamer was awarded to F Company and was accepted by Company Commander Peyton McDonald. The girls chosen

as company sponsors witnessed the review from a platform just behind the Reviewing Party. The presence of these girls both brightened the occasion and honored them for their selection as sponsors in the Fall.

The review was provided with excellent music by the band, who thereby contributed a great deal to the success of the occasion. Penning Rites performed an intricate drill which completely won the attention of the crowd. The firing of blanks to end their fine performance was soon drowned by applause.

Every man in the regiment seemed to be outdoing himself as the companies "Passed in Review" with snap and precision.

Tomorrow the companies will drill under the command of juniors. Seniors will supervise the juniors and assist them in order that they will be prepared for the positions they assume in summer camp and next semester. See you next week!

Interfraternity Council Boasts Quality Members

As the new president of Interfraternity Council, Don Avery will strive to lead IFC in its drive to better fraternity life at Bucknell. The "Best Company" streamer awarded to F Company and was accepted by Company Commander Peyton McDonald. The girls chosen

as company sponsors witnessed the review from a platform just behind the Reviewing Party. The presence of these girls both brightened the occasion and honored them for their selection as sponsors in the Fall.

Wellsville, New York, claims the new president of IFC, Donald James Avery, who has already made a name for himself in college life. At Bucknell he is working toward a BS degree in mechanical engineering on the five year program. Before the recent election of officers, Don served as IFC representative from Phi Gamma Delta where he now holds the office of president. In between classes, he spends many hours working on the cabinet for Student Faculty Congress. For two consecutive years his classmates have elected him to serve on the Judicial Board of Men's Student Assembly. Athletically, Don has been active in intramurals for Phi Gam.

Recently Andy Cahn was re-elected as president of Sigma Alpha Mu. A second semester junior, Andy is also vice president of Interfraternity Council. Before becoming president at the Sammy house, he had been vice president, secretary, and rushing chairman. His home town is Rye, New York, and he attended Exeter Prep School before entering Bucknell. He is presently an economics major and plans to enter into the accounting field. Andy is also a member of the MSA Judicial Board.

Richard Burnett, newly elected secretary of IFC, has already had much experience in student government. Dick, better known as "Ebu" to many people, was the IFC representative from his fraternity, Sigma

Alpha Mu. A reward will be given.

There is a growing body of opinion which holds that the tassel should be worn on the same side you keep your Marlboro Cigarettes on. Thus a quick glance will show you where your Marlboros are and save much time and fumbling.

This makes a good deal of sense because when one wants a Marlboro, one wants one with a minimum of delay. One does not wish being kept, even for a second, from the joys of the Marlboro, the source of content, the loads of glee, the lumps of ecstasy, that one gets from that filter, that flavor, that flip-top box.

There is another group, small but vocal, which insists the tassel should hang over the back of the cap. The tassel, they say, is a symbol like the bullfighter's pigtails, signifying honor and courage.

They are wrong. Bullfighters wear pigtails for only one reason: to keep the backs of their necks warm. Do you have any idea what a draft a bull makes when he rushes past you? A plenty big one, you may be sure.

In fact, upper respiratory infections, contracted in the wake of passing bulls, is the largest single cause of bull-ringing fatalities. I have this interesting statistic from the Bullfighters Mutual Insurance Company of Hartford, Connecticut. Incidentally, Hartford, the insurance capital of America, is a delightful city and well worth a visit if you are ever in New England, as northeastern United States is laughingly called. Try to make your visit in spring when the actuaries are in bloom.

But I digress. We were talking about what side to wear the tassel on. An ingenious solution to this problem was proposed not long ago by Humboldt Signafos, perhaps better known as "The Quoit King of Delaware." An early forerunner of Mr. Signafos was granted a monopoly by King George III, on all quoits manufactured in Delaware. Somehow this royal patent was never renewed and from that day on, this every quito made in Delaware has been a Signafos Quoit.

Well sir, Mr. Signafos suggested that the way to solve the great tassel controversy was to starch the tassel so it stood upright and hung on no side of the cap at all. But I'm afraid that sly Mr. Signafos was only seeking to broaden his market because after graduation, what can you do with an upright tassel except hurl quoits at it?

The makers of Marlboro have no opinion about what side to hang your tassel on. But with cigarettes, they say firmly: Stay on the light, mild, tasty side... with Marlboro, of course!

THE GREAT CAP AND GOWN CONTROVERSY

It will soon be cap and gown time again, so let us, without delay, take up the vexing question: which side of the cap should the tassel hang on?

For many years the practice was to hang the tassel over the front of the cap. This practice was abandoned in 1948 when the entire graduating class of Northwestern University, blinded by tassels hanging in their eyes, made a wrong turn during commencement exercises and ended up at the Great Lakes Naval Training Center where, all unwittingly, they were inducted into the submarine service for five-year hitchies.

There is a growing body of opinion which holds that the tassel should be worn on the same side you keep your Marlboro Cigarettes on. Thus a quick glance will show you where your Marlboros are and save much time and fumbling.

This makes a good deal of sense because when one wants a Marlboro, one wants one with a minimum of delay. One does not wish being kept, even for a second, from the joys of the Marlboro, the source of content, the loads of glee, the lumps of ecstasy, that one gets from that filter, that flavor, that flip-top box.

There is another group, small but vocal, which insists the tassel should hang over the back of the cap. The tassel, they say, is a symbol like the bullfighter's pigtails, signifying honor and courage.

They are wrong. Bullfighters wear pigtails for only one reason: to keep the backs of their necks warm. Do you have any idea what a draft a bull makes when he rushes past you? A plenty big one, you may be sure.

In fact, upper respiratory infections, contracted in the wake of passing bulls, is the largest single cause of bull-ringing fatalities. I have this interesting statistic from the Bullfighters Mutual Insurance Company of Hartford, Connecticut. Incidentally, Hartford, the insurance capital of America, is a delightful city and well worth a visit if you are ever in New England, as northeastern United States is laughingly called. Try to make your visit in spring when the actuaries are in bloom.

But I digress. We were talking about what side to wear the tassel on. An ingenious solution to this problem was proposed not long ago by Humboldt Signafos, perhaps better known as "The Quoit King of Delaware." An early forerunner of Mr. Signafos was granted a monopoly by King George III, on all quoits manufactured in Delaware. Somehow this royal patent was never renewed and from that day on, this every quito made in Delaware has been a Signafos Quoit.

Well sir, Mr. Signafos suggested that the way to solve the great tassel controversy was to starch the tassel so it stood upright and hung on no side of the cap at all. But I'm afraid that sly Mr. Signafos was only seeking to broaden his market because after graduation, what can you do with an upright tassel except hurl quoits at it?

The makers of Marlboro have no opinion about what side to hang your tassel on. But with cigarettes, they say firmly: Stay on the light, mild, tasty side... with Marlboro, of course!

CIRCULATION STAFF HAS FRUSTRATING JOB

by Jeff Lloyd

As a working member of The *Bucknellian* circulation staff, I feel qualified to explain just what type of work the staff does, and how this work is accomplished.

In the first place, The *Bucknellian* is published weekly during the college year at a rate of \$4.00 per annum. As one can easily surmise, it is the job of the circulation staff to make sure the paper is distributed to its readers on Thursday of each week.

The actual distribution job begins early Thursday afternoon when the circulation manager, Carolyn Saxton, along with a group of other co-eds, begins carrying the finished copies of the paper from the press room of the Focht Printing Co. to sort them for delivery later that day. This sorting process entails two specific jobs. First, the girls sort the papers for local and campus distribution. Secondly, the *Bucknellian* which are to be sent to national advertisers, alumni, and other subscribers off campus are separated and placed in mail bags for delivery to the post office.

By the time the girls have finished their jobs, some two hours have elapsed. Now the papers are ready for actual delivery. At approximately four o'clock Thursday afternoon, Brian Gobel and I pick up the sorted newspapers from the *Bucknellian* office and begin distribution.

This delivery process takes us to all the major points on campus, thus giving every student, faculty member, or Bucknell employee a chance of procuring his or her copy of the newspaper. After the papers are ready for actual delivery, we return to the office to pick up the outgoing mail bags. On leaving said bags at the post office, the job of the circulation staff comes to a close for another week.

The seam between deflation and inflation is fine as a flea's spine.

MSA Head Airs Views

by Bob Hubbard

If any organization on Bucknell's campus is under-rated, it is the Men's Student Assembly. With the recent election of new officers, the MSA was temporarily in the spotlight—only to fade back into the shadows after the campaigning and elections were completed. I decided to find out what plans Dick Hunn, the newly elected president of MSA, has that will give this group the importance it should have. The best place to get this information was to ask Dick personally. These are the results of my probing.

Question: What prompted you to run for MSA president?

Answer: I wanted to see the MSA become an organization of responsibility.

Q.—Do you think the administration will help or hinder the growth of the MSA?

A.—By giving mature advice and unbiased decisions to proposals involved, they can, and probably will, help our program.

Q.—What plans do you have for giving the MSA the responsibility it deserves?

A.—I would like to see the athletes, both varsity and intramural, covered by insurance against injuries sustained in various events. It might be possible to obtain a

group insurance policy to cover accidents in dormitories.

2. I would also like to see MSA have the power to investigate men's parties. This would save the administration a lot of leg work.

3. Since there are no freshmen representatives in IFC, I think MSA should have jurisdiction over the Freshman class.

4. Public relations can be improved with the town. We have a meeting planned with the local police department to discuss student actions in town.

5. The MSA has a \$1300 budget which in the past has been used for a party. I would rather see MSA sponsor a bowling team to compete in national events. This is just an example, but you can see it would be good for Bucknell's Public Relations Program.

6. A weekly report of the MSA's activities will appear in the *Bucknellian*.

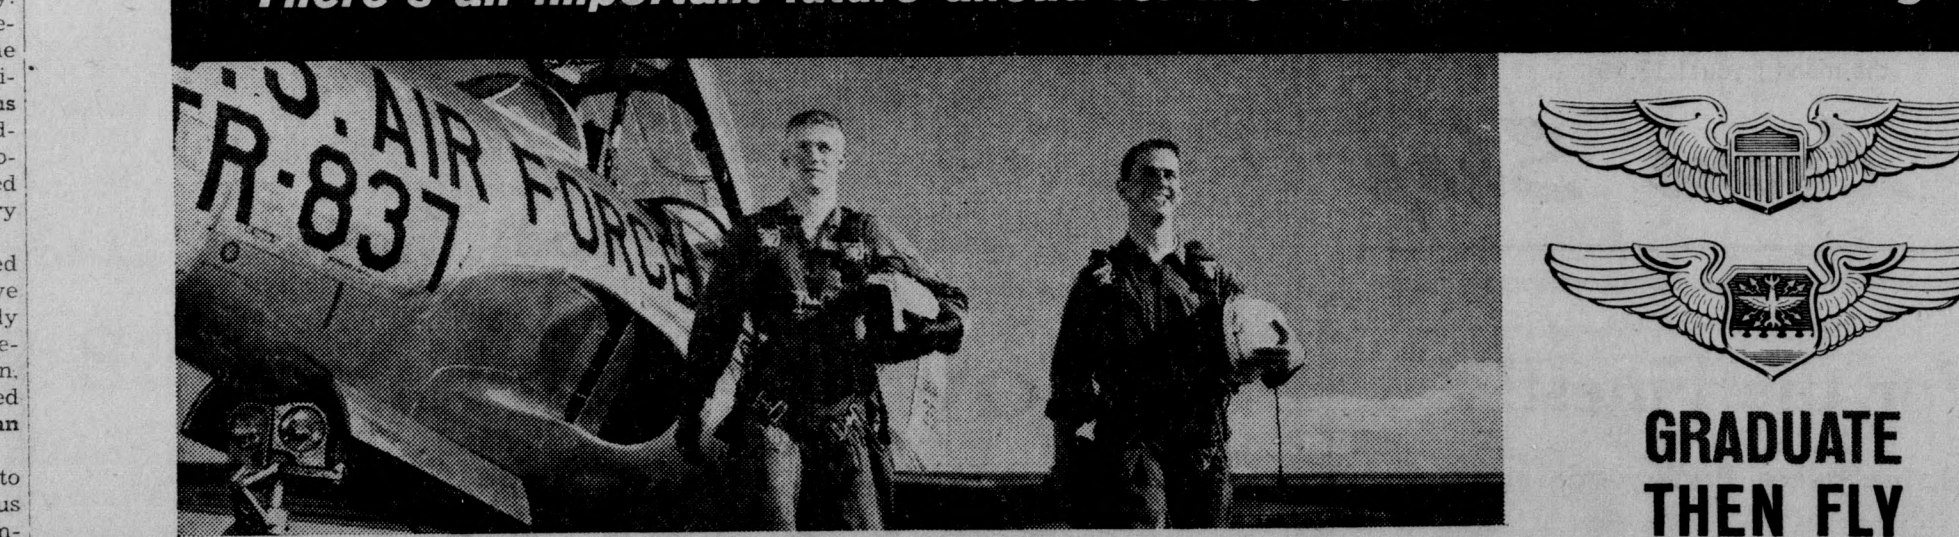

Q.—Do you think that MSA and IFC can work together?

A.—Certainly. I also think they should.

Q.—What obstacles might stand in the way of these plans?

A.—Work and cooperation can make MSA an important and respected organization. Without these, we are nothing.

There's an important future ahead for the men who wear these wings

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for

an important career in the new Age of Space. As a college graduate, you

Zeller Announces University Policy

Dean Charles A. Meyn, dean of men, and Dean John S. Carhart, assistant dean of men, introduced the program at a meeting of representatives from the thirteen fraternities, including caterers and presidents, to present the suggestion of centralized food purchasing for the fraternities. The meeting was held Friday afternoon, May 9, at 4:30.

Dick Hume, president of Men's Student Association, reviewed the findings of the group which visited New England colleges to investigate their systems, especially the one in effect at Bowdoin. Mr. John F. Zeller, assistant to the president, then stated the University's position on the subject: "The University wishes the fraternities to undertake the co-operating food purchasing plan completely separate from University sponsorship, if they wish to do so. If the fraternities decide they want the system, the University will be willing to negotiate a financial loan at minimum interest rate in order to provide initial capital for the project. However, the University makes it clear that it does not wish to become involved with the administration of the organization, except as its advice is requested by the organization."

There was then a question-answer period during which the majority present indicated that they agreed with the plan and thought the principle of the plan was good. Under the auspices of Interfraternity Council a committee will be established to further investigate the Bowdoin plan in all its phases. They will prepare data during the summer, showing how such a plan would effect the fraternities, and make plans to organize a cooperative food purchasing plan.

PRESENTATION OF ANNUAL MAY COURT HIGHLIGHTS SPRING FESTIVAL WEEK-END

Those in the May Day court are left to right: Peggy Smith, Faith Bonnell, Susie Magee, Pat Head, Alice Brewen, Merle Holden, Anna Schultz, Gail Kelly, Barbara Pausser, Claire Halline, Nancy Umholtz, Ginny Davis, and George MacKay.

... Freshman Dance

(Continued from Page 1)

Bruce Steinbach, Dick Harman, and Bob Scott.

Dave Halbert, president of the class, served as general chairman of the dance committee and should be commended for his splendid supervision. The Social Committee appreciates the interest and enthusiasm shown by the members of the freshman class.

A pedestrian always has the right of way, especially in an ambulance.

French Honor Society Elects New Members

On Tuesday, May 12, three Bucknell students became members of the national French society, Phi Delta Phi. Those elected to the honorary were Norma Coyle, a junior; Carol Sindt, a sophomore; and Daniel Pette, a freshman.

... Recognition Day

(Continued from Page 1)

was based on the universal brotherhood that Phi Lambda Theta has exhibited since its conception in 1946. The award was received by William Shough.

Miss Susan Magee was awarded recognition for her 2.738 Cumulative Grade Point average and Miss Carol Rogge presented Miss Magee with a book.

The ceremonies were concluded with the Alma Mater and a prayer by Jack Brothers.

Dean of Men

Tel-Ray Film Producer Hires Three Students

Mr. Wallace Orr, owner of Tel-Ray Sports Films Productions, recently visited Bucknell to show a film to the Radio-Television Writing class, in hopes of finding prospective workers for his plant. Mr. Orr, whose daughter Cynthia told him about the course, which is taught by Mr. Ewing of the Journalism Department, interviewed six students for the possible job openings. Last Tuesday and Wednesday, four of these students went to Philadelphia for further interviews. Tel-Ray recently hired three Bucknell students: Robert G. Fitzsimmons, John M. Kelley, and Willard J. Scott.

—KEEP OFF THE GRASS!—

METHODIST GROUP APPOINTS HARDER

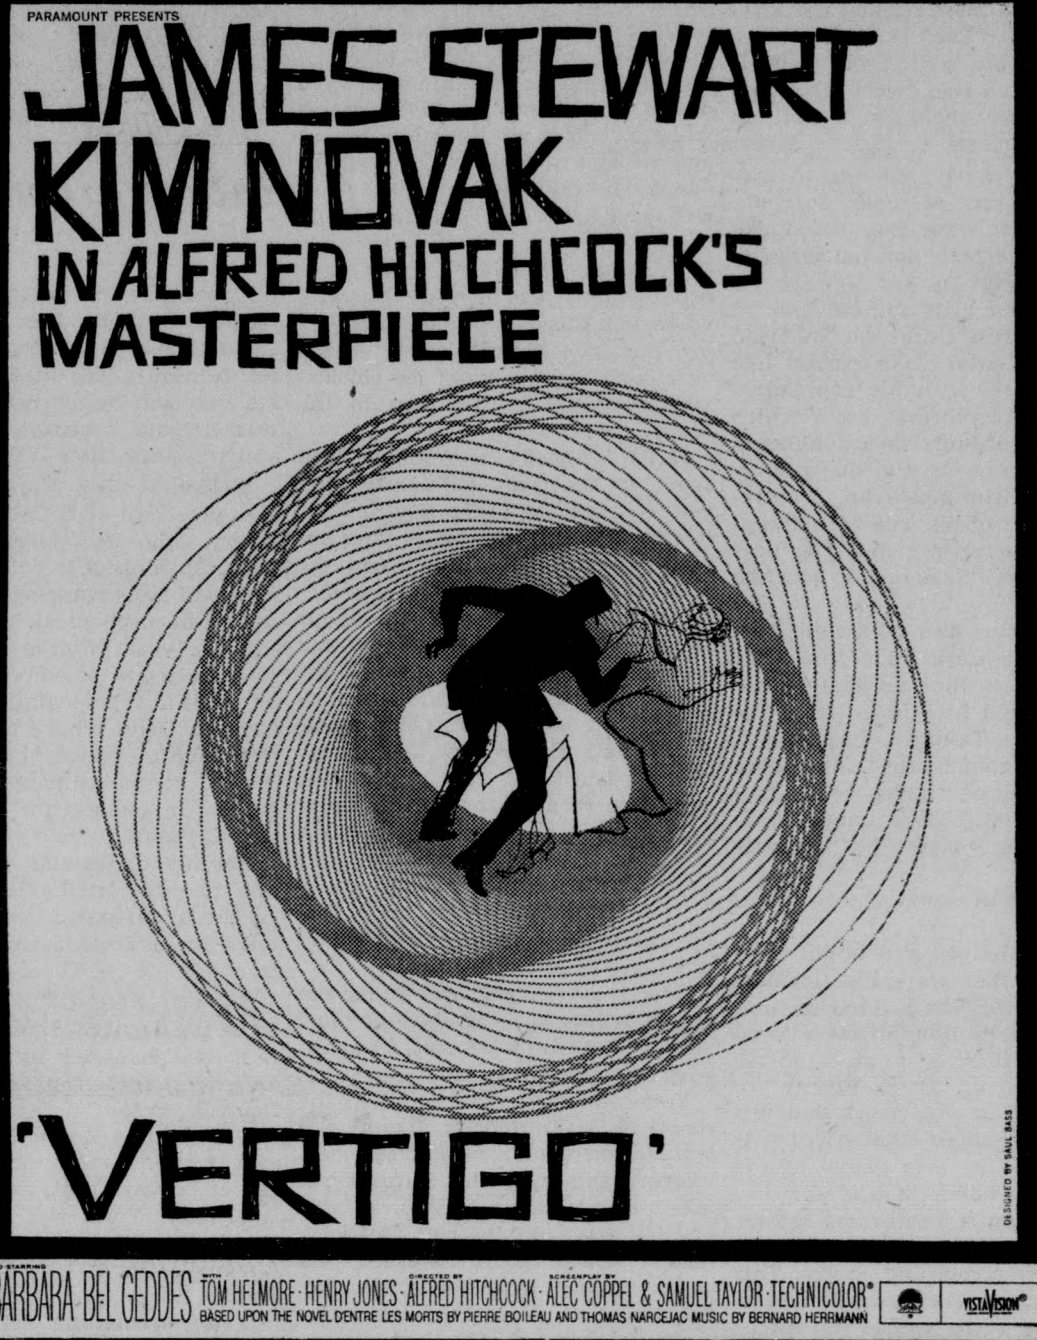

The speaker at the fellowship on April 27 was Dr. Drozin, of the Bucknell faculty, who spoke on "Cancer of the Body and Cancer of the Soul". On Sunday, May 4, supper and a business meeting were held at the home of Mr. and Mrs. Harry McCormick. New officers for 1958-1959 were elected. They are as follows: president, Bob Harter; vice president and area representative, Sue Pogue; secretary, Alice Eaton; treasurer, Alan Gardner; program chairman, Pat Burdett; publicity chairman, Elaine Johnson; worship chairman, Lu Haigh; recreation chairman, Joan Berlin. The new officers will begin their duties next September.

Flock Conducts All State Band

Allen W. Flock, associate professor of music at Bucknell University will be guest conductor for the Pennsylvania Eastern All-State Band at Springfield in Delaware County, May 15, 16, and 17.

The Band, sponsored by the Pennsylvania Music Educators Association, will be comprised of 190 students selected from the eastern half of Pennsylvania, and will include representatives from 175 schools.

It will rehearse for approximately 20 hours before giving concert Friday afternoon, Friday evening and Saturday evening. Directors of the band groups will attend a clinic given by instrumentalists of the Philadelphia Symphony Orchestra.

VOLUME LX

DEAN'S OFFICE ISSUES REVISED CAR PERMITS

The following policy has been issued by the Dean of Men's Office to be effective September 1, 1958, and subject to present and future regulations established by the Car Permit Committee.

1. Students officially classified as juniors, seniors, or graduates are permitted to have automobiles while attending Bucknell.

2. For a trial period, students officially classified as sophomores are permitted to have automobiles at Bucknell subject to the following provisions:

a. The student shall have attained a minimum grade point average of .800 at the close of the spring semester preceding the sophomore year.

b. Autos registered by sophomores will display a special registration sticker.

c. At no time may sophomores park their cars on public streets in Lewisburg borough south of Market Street between Route 15 and the river. Sophomores will park only in the university parking lot behind Coleman Hall or in off-the-street fraternity parking areas.

d. Penalties for violation of this rule are in Section F1 of the regulations.

3. Freshmen and sophomores, not qualifying under #2, are not permitted to maintain or operate a car unless they are:

a. over twenty-one years of age, or

b. living at home with their parents, or

c. married and either are parents or need a car so that their spouse can maintain a remunerative job.

4. The use of motorcycles and similar vehicles is forbidden.

Important
If according to the excerpts from the automobile regulations listed above, you are eligible to have an automobile at the University and intend to bring one here next Fall, you should call at the Office of the Dean of Student Affairs (Room 114, East Wing) beginning May 26, to pick up the proper application form before leaving campus this spring. This application form should be completed fully and returned together with a check for \$20.00, payable to the University, to the Office of the Dean of Student Affairs. The application and check should be addressed to Dean John C. Hayward, Chairman, Car Permit Committee, Bucknell University, Lewisburg, Pa. It will be helpful if you return these materials early in the summer. The check and application form must be received not later than September 1, 1958.

People are the only ones that can smile.

Firesides Provide Discussion Opportunities; Supplement Orientation Program Knowledge

Pictured above are the new Fireside leaders, who will conduct Fireside discussions for freshmen next year.

The new Fireside Leaders, in preparation for next year, met with two of last year's leaders to discuss the purpose of Firesides. The Fireside meetings should provide a chance for the freshmen to meet each other socially, to discuss with upperclassmen the Bucknell traditions and customs, and to supplement the knowledge gained at orientation programs.

Next year's leaders will have an orientation program to enable them to present material effectively to the new students. The Fireside meetings should last about four weeks depending upon the group.

Informality Highlights B.U. Summer Session

The Summer School at Bucknell is running an eight-week session for engineering and chemistry students from July 16 to August 8 and a six-week session for all the students from June 30 to August 4.

The classes will be small and informal, and they will be taught by members of the University staff or guest instructors. This academic program is intended for undergraduates, graduates, and those who do not necessarily desire college credit but do wish to extend their cultural and intellectual interests.

There are courses offered in art, chemistry, economics, education, history, English, geography, mathematics, philosophy, physical education, political science, psychology, religion, and sociology along with the engineering and science institute courses.

In addition to these courses there will be many advantageous opportunities. The League of Women Voters of Pennsylvania and Bucknell are sponsoring a study conference on the Pennsylvania Constitution from June 23 to June 26 to acquaint state citizens with their constitution. From June 30 to August 8 there will be a Summer Institute for Asian Studies to achieve two goals: to make more competent those who intend to deal with Asia in their professional work, and to increase and provide a continuing interest in Asia.

This Institute will be established in co-operation with The Asia Society, The Asian Foundation, and the University.

Kappa Delta Captures '58 Intergroup Trophy

The annual WRA banquet was held last night in the Women's Dining Hall. WRA Shields and "B" Awards were presented to girls who had earned 100 and 250 points, respectively, in various sports. This year five girls had accumulated over 400 points, and were entitled to the highest WRA award, which is a charm bracelet. They were Sally Gillilan, Pat Head, Marcia Samuel, Carol Stevens, and Carol Westerman. For each 100 points over 400, a girl receives a sports medalion.

Depicting the sport in which she excelled, Sally Gillilan and Carol Westerman received charms this year. The Outstanding Senior Award was given to Pat Head, and the All-Year Intergroup Trophy was presented to Kappa Delta.

On Thursday, May 22, the old and new boards held a picnic at a cabin owned by Miss Stevenson and Miss Bryn in Old Gap. This was the final activity for the Board of 1957-1958.

ODK Initiates Outstanding Men; Honors Professors McRae, Polak

On Student Recognition Day, Omicron Delta Kappa, national activities honorary for outstanding men, tapped eleven students and two professors. Dr. William D. McRae and Dr. Emil J. Polak.

Omicron Delta Kappa is a national activities honorary for outstanding men. Members are chosen on the basis of character, scholarship, service, and democratic ideals. Recently tapped to the honorary on Student Recognition Day were 11 students and two professors. Dick Burnett of Pitman, New Jersey is a junior pre-med student. He has served as a men's counselor, class treasurer, secretary of IPC and is active in "B" Club, Christian Association, and pre-med society.

Lawrence Dempster of New Bethlehem, Pa., is a senior civil engineer who was recently named the outstanding senior athlete. His activities include men's counselor, letters in baseball and wrestling, and "B" Club.

Leon Diodorato, a junior from Oceanside, New York, is an economics major. He has served as chairman of MSA judicial board, men's counselor, advertising manager of the swimming team, and Phi Gamma Delta.

Ron Fisher of Franklinville, New York is a major in civil engineering. He has served as editor of the Bucknell Engineer, vice president of Tau Beta Pi, president of ASCE, men's counselor, and manager and is a member of Pi Mu Epsilon and DU.

Ellis Harley is a junior C&F major from Clearfield, Pennsylvania. He has filled the positions of men's counselor, vice president of "B" club, co-captain of basketball team and is a member of Lambda Chi Alpha.

James Jefferson, a senior pre-med from Neptune, New Jersey has served as treasurer of SFC, president of Bucknellian, and vice president of Intramural Council. He is also a member of Phi Beta Kappa and Pi Eta Sigma.

General Thomas D. White, chief of staff for the U. S. Air Force, and Harry G. Schad, vice president of the Atlantic Refining Company, will be recipients of the Doctor of Laws degree.

General White, who attained the four-star rank of a full general in 1953, was named Air Force chief of staff last July. Mr. Schad, a Bucknell trustee, is director or executive officer of at least a dozen shipping, banking, and other firms.

Evie Solomon is general chairman with Jenny Chase, publicity, Jane Stiles, entertainment, Ellie Body, refreshments, and June Poline, decorations, assisting her. MSA men are giving their assistance on various committees.

UNIVERSITY CONFERS HONORARY DEGREES

Bucknell University will confer honorary degrees upon six leaders in the field of education, industry, and national defense at the 1958 annual Commencement on June 9. President Merle M. Odgers announced today.

The degree of Doctor of Humane Letters will go to Dr. Harold W. Dodds, president emeritus of Princeton University, who will make the Commencement address. Since leaving the Princeton post last June, Mr. Dodds has begun a study of the office of the college and university presidency in America, supported in part by the Carnegie Foundation for the Advancement of Teaching.

Dr. Carrol O. Morong, headmaster of the Peddie School, who will preach the Baccalaureate sermon June 8, will receive the degree of Doctor of Divinity. An ordained minister, Dr. Morong has been a frequent contributor to educational and religious journals.

General Thomas D. White, chief of staff for the U. S. Air Force, and Harry G. Schad, vice president of the Atlantic Refining Company, will be recipients of the Doctor of Laws degree.

General White, who attained the four-star rank of a full general in 1953, was named Air Force chief of staff last July. Mr. Schad, a Bucknell trustee, is director or executive officer of at least a dozen shipping, banking, and other firms.

Evie Solomon is general chairman with Jenny Chase, publicity, Jane Stiles, entertainment, Ellie Body, refreshments, and June Poline, decorations, assisting her. MSA men are giving their assistance on various committees.

DR. HAROLD W. DOBBS ADDRESSES SENIORS; ACTIVITIES INCLUDE LUNCHEON, SYMPOSIUMS

The 108th Annual Alumni and Commencement Weekend will begin on Friday, June 6, and will end Monday, June 9, with commencement exercises at 10:00 a. m. in Davis Gymnasium.

Stuldreher Speaks At Sports Banquet

Harry Stuldreher, member of the famed Notre Dame Four Horsemen, now assistant to the vice president of the United States Steel Corporation, has accepted an invitation to speak at Bucknell University's annual All-Sports Dinner Friday evening, May 23.

Sponsored by the Men's Student Assembly, the dinner will honor more than 200 athletes who have been members of varsity or freshman teams at the University during the current year. Members of the coaching staffs and representatives of the faculty and of the administration have also been invited to the dinner which will be held at American Legion Post 182.

Andrew R. Mathieson of Pittsburgh, chairman of the trustees' Board of Trustees, and University officials will be present at the program which will take place at noon.

1200 To Attend Luncheon

At the conclusion of the cornerstone laying, reunion classes will assemble and parade by classes to Davis Gymnasium for the alumni reunion luncheon. About 1200 alumni are expected at the luncheon which is not only a reunion for the alumni but also the first reunion for the seniors who will be recognized as the youngest alumni class. Three classes will be honored at the luncheon: the class of '06 celebrating its 50th reunion with approximately 25 members present, the class of '33 celebrating its 25th reunion with over a 100 present, and the class of '58. Members of the senior class will receive complimentary tickets for the luncheon.

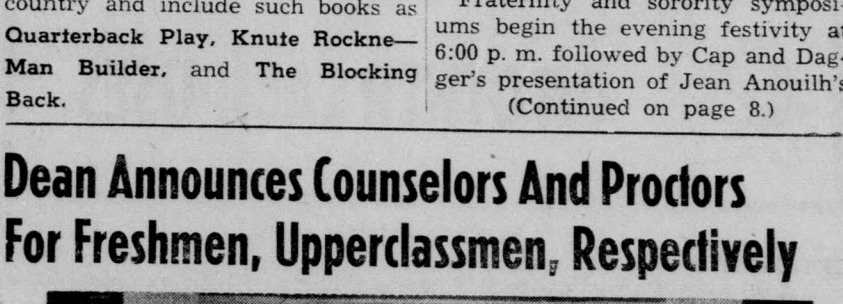

Special awards will be given to three outstanding alumni. The awards are: the annual alumni award for distinguished service to Bucknell University; the Alumni Meritorious Achievement award given for achievement in the field of one's chosen profession; the Alumni Meritorious award in recognition of contribution and service to one's fellow man.

During the afternoon, reunion class socials will be held at different places on campus. The Freas-Rooke swimming pool will be open for free swims from 3:00-4:30 p. m. on Saturday and from 8:00-10:00 p. m. on Friday evening.

Fraternity and scholarly symposiums begin the evening festivity at 6:00 p. m. followed by Cap and Dagger's presentation of Jean Anouilh's Back.

Dean Announces Counselors And Proctors For Freshmen, Upperclassmen, Respectively

The freshman men's counselors and proctors for upperclass dorms for the year 1958-59, as recently announced by the dean of men's office, are pictured above.

The Dean of Men's Office announced the following men have been assigned positions as Freshman Men's Counselors and Upperclass Proctors for the year 1958-59. The Counselors are: Robert Bartlett, Joseph Bellace, Loren Ely, Walter Bollinger, William Toal, Richard Sacks and Kenneth Wightman.

These men have met the requirements of a good average, friendliness, leadership and service to the University. The Upperclass Proctors are as follows: Rowland Bell, John Howell, Edward McGinley, Charles Bergfeld, Harold Dandley, Larry Miller, David Murdoch, Roger Mutzel, David Pearrah, Mark Peterson, Charles Reed, Richard Skelton, Ronald Staley, Roger Strout, John Toal, Richard Sacks and Kenneth Wightman.

These men have met the requirements of a good average, friendliness, leadership and service to the University. The Upperclass Proctors are as follows: Rowland Bell, John Howell, Edward McGinley, Charles Bergfeld, Harold Dandley, Larry Miller, David Murdoch, Roger Mutzel, David Pearrah, Mark Peterson, Charles Reed, Richard Skelton, Ronald Staley, Roger Strout, John Toal, Richard Sacks and Kenneth Wightman.

These men have met the requirements of a good average, friendliness, leadership and service to the University. The Upperclass Proctors are as follows: Rowland Bell, John Howell, Edward McGinley, Charles Bergfeld, Harold Dandley, Larry Miller, David Murdoch, Roger Mutzel, David Pearrah, Mark Peterson, Charles Reed, Richard Skelton, Ronald Staley, Roger Strout, John Toal, Richard Sacks and Kenneth Wightman.

These men have met the requirements of a good average, friendliness, leadership and service to the University. The Upperclass Proctors are as follows: Rowland Bell, John Howell, Edward McGinley, Charles Bergfeld, Harold Dandley, Larry Miller, David Murdoch, Roger Mutzel, David Pearrah, Mark Peterson, Charles Reed, Richard Skelton, Ronald Staley, Roger Strout, John Toal, Richard Sacks and Kenneth Wightman.

These men have met the requirements of a good average, friendliness, leadership and service to the University. The Upperclass Proctors are as follows: Rowland Bell, John Howell, Edward McGinley, Charles Bergfeld, Harold Dandley, Larry Miller, David Murdoch, Roger Mutzel, David Pearrah, Mark Peterson, Charles Reed, Richard Skelton, Ronald Staley, Roger Strout, John Toal, Richard Sacks and Kenneth Wightman.

BISONS LOSE G-BURG; CRUSHED BY DELAWARE

by Dick Whitney

Led by three letterman Frank Capitani and the tight pitching of Jack McCracken, the Bisons of Gettysburg routed the Bisons 9-1 at Gettysburg last Thursday. Capitani led the G-burg attack with four hits, and it was his triple in the third which gave them an early 2-0 lead. Capitani added another two-run triple in the sixth which was more than starter Jack McCracken needed. McCracken scattered eight hits and fanning 14 was in complete control of the game. Bucknell's only run came in the fourth as Tony Consentino scored Ellis Harley from second base with a single. McCracken had little trouble except for the eighth when Dale Peterson's lead off triple gave the Bisons some hope. But McCracken fanned Brothers and Consentino and got Harley on a hot grounder to end the threat. He was stronger in the ninth as he struck out Pete Fritts and Dennis Cox to preserve the victory.

Pete MacDonald started for Bucknell, but was routed after Long's single in the fourth. Frank Moore and Dick Pitko, who came in from right field in the 9th, finished up for the Bisons.

Powerhouse Delaware crushed any ideas the Bisons had of an upset as they drove the Bisons into the dust with an easy 20-5 victory here last Saturday. Bucknell was in conten-

It's Another Hit

Ellis Harley, BU's regular shortstop, pounds out a double down the left field line. Coach Oberlin has used Ellis mostly at the clean-up position so that the team can take advantage of his power.

tion as late as the third inning when Dale Peterson's single tied the game at 4-4 following a single by Ron Staley who raised his average to .341 by leading the Bisons with three singles. This tie was short-lived though as a double by Holden along with singles by Frantz and Walters, and three walks by Bucknell reliever Dick Pitko, who replaced starting pitcher Frank Moore in the third, gave Delaware an 8-4 lead. The Bisons narrowed the margin to 9-3 in the fifth on Dick Pitko's double, scoring Tony Consentino. After that the ball game was all Delaware's. Walsh's double scored one in the sixth; Eli's single added another in the seventh; and Alger's double made it 11-5 in the eighth, setting the stage for the climactic uprising in the ninth.

BISON OF THE WEEK CHARLES SIEDE

by Bill Bannak

Charlie Siede from Kearny, New Jersey is this week's Bison of the Week. In high school Charlie played four years of varsity football and tennis. In his senior year he captained the tennis team.

Charlie has played three years of varsity tennis for the Bisons and he was elected captain this year. In the past three years he has 55 wins and only 25 losses, which includes both singles and doubles. For the last four years he has played intramurals which included soccer, bowling, softball, badminton, tennis, basketball, and volleyball for Lambda Chi. It looks like Charlie's graduation will be quite a blow to the Lamb chops.

Charlie's hobbies are music and carpentry. This summer he plans to build a stereophonic tape recording system. In music he prefers the classics to Elvis but taste varies with his company and his mood at the time. Last summer Charlie built a summer home for his family. He also plays tennis and feels that it has great carry over value for money and women.

After graduation he is going to give up carpentry and go into sales although at this point he feels that his carpentry might come in handy. Before going into the Army next fall, Charlie plans to instruct tennis at a resort area this summer.

Racquetmen Split

by Chas. Siede

Our tennis team has been balancing on a see-saw all season—oftimes finding ourselves, up, on top; but now and then regrettably discovering our lowly position in the cellar. It came out once again this past weekend as we glided up smoothly on Friday when we completely overbalanced F&M, 7-2 at Lancaster; then we slipped on Saturday and down, down, down we went to Penn State, 8-4.

Against F&M we had no trouble gaining four out of the six singles and sweeping easily the three doubles, making doubles matches. We were not concerned solely with the match itself, or with the fine 8-2 record, but rather with the important Penn State match Saturday. Even with this in our minds we were not to be won and we handed F&M a more severe loss than they ever expected.

In singles, Bill Sweet defeated Don Spangler, 6-1, 6-0; Chas. Siede defeated Bob Renna, 6-4, 6-4; Bob Poindexter lost to Bill Witmer, 0-6, 0-6; Hank Livas lost to Merrill Clark, 1-6, 5-7; Bob Goetker trimmed Barry Thoma, 6-1, 6-3; and Tom Cowen beat Steve Romeo, 6-3, 6-1. In doubles, Sweet and Poindexter defeated Clark and Witmer by default; Siede and Livas beat Renna and Thoma, 6-3, 6-3; and Cowen and

Goetker won over Spangler and Romeo, 6-3, 6-3.

Against the Nittany Lions, Bill Sweet was the only Bison affiliate to meet with success. There after the tally was filled with Penn Staters. Even though the score seems to signify the netmen from State College were far superior, the individual matches were extremely close. Four matches in fact, extended into three sets—fourth, fifth and sixth singles and second doubles, respectively. With a few breaks we could have grabbed these "three setters" and the match would have been ours, but that's enough dreaming—we lost and that's that. And, I might add, it was a tough loss, for we all felt this was the year to beat State, especially after beating the Engineers from Lehigh.

In singles, Bill Sweet defeated Chuck Questa, 11-9, 7-5; Chas. Siede lost to Fred Trust, 6-3, 6-3; Bob Poindexter bowed to Chuck Bibleheimer, 1-6, 3-6; Hank Livas was defeated by Dick Pacols, 4-6, 6-4, 5-7; Bob Goetker lost to Gene Flick, 1-6, 6-0, 3-6; and Tom Cowen lost to Mel Rayer, 4-6, 6-3, 2-6. In doubles, Sweet and Poindexter lost to Questa and Trust, 2-6, 9-11; Livas and Siede lost to Bibleheimer and Flick, 5-7, 6-2; and Renna and Weigand lost to Harnett and Rayer, 3-6, 4-6.

Minds, too, need cultivating

Good crops spring from fertilized and tended land—great thoughts from enriched and disciplined minds. Nourish the mind, and the harvest can be bountiful beyond all measure, for the mind contains the most precious of all seeds—the ideas that shape our world.

Our nation, up to now, has been richly rewarded by the quality of thought nourished in our colleges and universities. The kind of learning developed there has been responsible in no small part for our American way of life, with all its freedom, all its idealism, all its promise.

That is why the following facts should be of deep concern to every American:

1. Low salaries are not only driving gifted college teachers into other fields, but are steadily

reducing the number of qualified people who choose college teaching as a career.

2. Many classrooms are already overcrowded, yet in the next decade applications for college enrollment will DOUBLE in number.

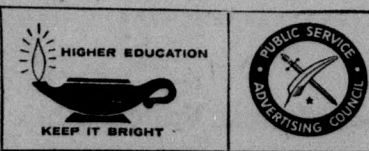

Our institutions of higher learning are doing their utmost to meet these challenges, and to overcome them. But they need the help of all who hope for continued progress in science, in statesmanship, in the strengthening of our democratic ideals. And they need it now!

If you want to know more about what the college crisis means to you, and what you can do to help, write for a free booklet to:

BU TOPS JUNIATA; BOWS TO G-BURG

by Dave Lynch

Last Friday the thin-clads traveled to Huntingdon, Pa., to encounter the Juniata track team in a dual meet. BU emerged victorious in a meet which was expected to be very close. At the start, the Bisons jumped into an early lead. Steve Greene captured first place in the high jump followed by a four-way tie for second place including Dick Merrill, Brad Greene, and John Hueller of BU and Heading of Juniata. Lou Hart took a first place in the shotput while Vince Burleson tied for second with Wicker of Juniata. John Mueller tied for first place with Cline of Juniata in the pole vault.

Juniata had a very strong distance man in Don Layman who took first in the mile followed by Dave Lynch and Marty Holmes of BU. Rog Connors and Chris Christiansen took first and second in the quarter mile and Chuck Wagner, Dick Merrill, and Clint Gilkey took all three places in the 100 yd. dash. At this point, Bucknell seemed to be pulling away, but the meet remained fairly close until the end.

In the 120 yd. high hurdles, Juniata took first and second places followed by Brad Greene of BU who took third. Juniata also took first place in the 880 yd. run, but was followed closely by Rog Connors and John Carlson of the Bisons. Don Layman came back to take another first in the two mile, Marty Holmes took second and Dave Lynch, third. Dick Merrill and Clint Gilkey were again strong, this time in the 220 yd. dash, taking first and second places.

Juniata took the first two places in the 220 low hurdles and first in the broad jump, but this was not enough to catch the Bisons as Mueller and Burleson took first and second, respectively, in the shotput, and John Mueller took first place honors in the pole vault to give Bucknell a temporary edge in the score.

At the outset of the running events, Marty Holmes exhibited a fine finishing kick to take first place honors in the mile. Dave Lynch placed second and he was followed by Dave Hertzler of G-burg. However, the Bison thin-clads ran into trouble at this point. G-burg had a very strong sprint man by the name of Apple. He succeeded in taking first places in the 100 yard dash, 220 yd. dash, 120 yard high hurdles and a second place in the 220 yard low hurdles. Dick Merrill and Clint Gilkey placed second and third in the 100 yard dash behind Apple. Merrill came back to take third in the 220 yard dash. Brad Greene took second place in the 130 yard HJ. Gettysburg, however, put the meet on ice by taking first

Mile—1 Layman, J; 2 Lynch, B; 3 Holmes, B—4:40.

FITZ PRAISES BOB ODELL

by Bob Fitzsimmons

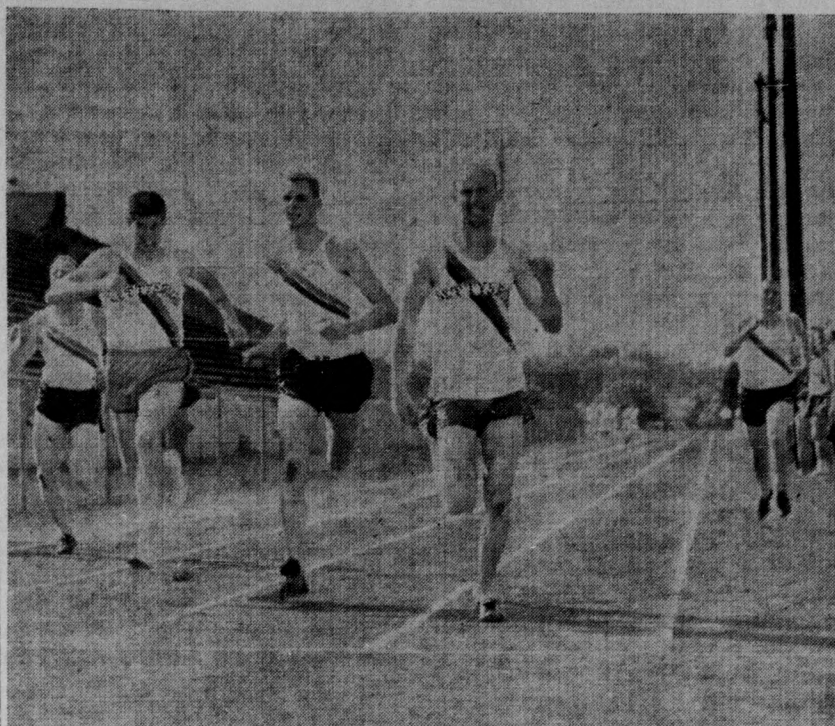

This spring it has been my privilege to work with Bob Odell, Bucknell's newly appointed grid mentor, in conducting his first drills on the Bucknell campus. Odell is assuming his first head coaching position after having been backfield coach at the University of Wisconsin for nine years. At Wisconsin, Bob turned out such outstanding backs as Alan "The Horse" Ameche, Harland Carl, and Jim Haskins.

Bob greeted 54 candidates, most of whom were shockingly green, and inexperienced. From the very outset Bob conducted his practices with an air of Big Ten know how which rubbed off on the boys and his coaching staff. The players went about learning Odell's new formation with refreshing zest and spirit, the likes of which have not been seen on the Bucknell campus in quite some time. Odell uses a "T" formation which is quite different from the split "T" formation employed by Harry Lawrence, former Bucknell coach.

Most of the practices were used to teach the basic fundamentals of the new offense, and a definite emphasis was placed on pass defense, a perennial Bucknell weakness. The team improved each day, and on the final day a full game scrimmage was conducted.

In their first performance, under game like conditions, the 1958 Bucknell football team showed that it will be a rough, tough, and a very aggressive football team. Odell's type of coach who can draw the best out of his players. Next football season should offer many interesting Saturday afternoons for Bucknell football fans.

Down To The Wire

Dick Merrill of BU is just being edged out at the finish by Apple of Gettysburg. Dick has been one of the teams top sprinters for the season.

Pole Vault—1 (tie) Mueller, B and Cline, J; 3 Pearson, J—11' 0½".
Tuesday afternoon the Bucknell track team lost a close meet to Gettysburg College.

The field events began with Langsam of Gettysburg taking first in the high jump. Ollie Clowe, Dick Merrill and John Mueller tied for second place. Lou Hart and Vince Burleson took first and second, respectively, in the shotput, and John Mueller took first place honors in the pole vault to give Bucknell a temporary edge in the score. However, Ford and Kieck, both of G-burg, took first places in the discus and broad jump, respectively. John Mueller and Vince Burleson took second and third places in the discus, while Ollie Clowe took second in the broad jump.

At the outset of the running events, Marty Holmes exhibited a fine finishing kick to take first place honors in the mile. Dave Lynch placed second and he was followed by Dave Hertzler of G-burg. However, the Bison thin-clads ran into trouble at this point. G-burg had a very strong sprint man by the name of Apple. He succeeded in taking first places in the 100 yard dash, 220 yd. dash, 120 yard high hurdles and a second place in the 220 yard low hurdles. Dick Merrill and Clint Gilkey placed second and third in the 100 yard dash behind Apple. Merrill came back to take third in the 220 yard dash. Brad Greene took second place in the 130 yard HJ. Gettysburg, however, put the meet on ice by taking first

PHI GAMMA DELTA TAKES GOLF; WINS PANGBURN ALL-YEAR TROPHY

by Joe Kabela

Possibly we would not be out of order in saying that the intramural race for the year 1957-58 was the finest we have seen here in a long time. It is very evident at this time that the Phi Gams have won themselves an all year trophy by winning the golf championship. It was a long hard race and the Gam people are to be congratulated for their fine play and strong determination right up to the very end. All of the teams displayed fine enthusiasm and all the way there was more than one strong contender for the crown.

The year's softball championship however has not been decided. The season will come to a close very soon. On May 13, Phi Kappa Psi set TXK back on its heels by a score of 39 to 9. KS beat SAE by a score of 13 to 10. SX over DU 18 to 3, and one of the big decision battles came when LCA beat Phi Gam 7 to 5.

On May 14 the rainout games from May 5 were played. PGD edged out Sig Ep 16 to 15. SAM

over TX by a score of 6 to 5. SAE B, PLT and LCA are tied for second again entered the losers column at place. By the time this is printed the hands of DU 13 to 12. KS upset these playoff games will have been the favorite Phi Psi by a score of 7 to 2.

On May 15 a group of games were called early because of showers. The results are as follows: KDR doubled the score of TXK 12 to 6. KS beat SX 16 to 11. PKP returned to their winning column on the rebound by beating DU, and TX beat SPE 10 to 4.

On May 16 TKE forfeited to SAE. PKP squeaked by KDR by a score of 11 to 10. LCA beat TX 11 to 9, and PGD sweltered PLT 11 to 2.

Up to now this is how the league stands. In league A, KS and SX are tied for second place. In league

Young Gul Kim Draws Picture Of Student Attitude At Bucknell

"Oh, was some power the giftie give us
To see ourselves as others see us.
It was true mornie a blader free us.
An' foolish notion."

—Robert Burns

To come to America for study was the dream that I had cherished for a long time before it was finally realized. This is the dream still cherished by a vast number of students in Asia today, and while they wait for their opportunity, they also dream about American youth. Because America emerged from the second World War as the undisputed leader of the world, a proportionate importance is given to the youth of America. Since the future of any nation lies with the youth of that nation, serious questions like "What are American young men thinking of?" How are they preparing for their future task as leaders of the world? What are their dreams and aspirations?" are constantly being asked in Asia by all those who watch the world scene closely.

I know because I asked these questions myself very often while I was still in Korea. I formed many ideas about the American youth, fellow students in America, endeavoring them with all those qualities that I thought I could expect of the students of the vigorous nation depicted to, and practicing, the highest yet conceived by men in their hope to live peacefully with one another.

I am happy to say that many of my expectations proved correct. I even discovered many qualities that I had not thought of, and my discoveries thereby brought all the more joy to me. But it is not of these favorable experiences that I wish to speak to you tonight. I want to relate to you some of my disappointments, stating that you would generously tolerate a friendly criticism from one who has so graciously accepted into your family.

Disappointed in Student Attitudes
At Bucknell there are two specific areas where I discovered disappointments. The first involves attitudes of students toward the University as a place of educating oneself in a broader sense; and the second the narrow outlook of students on world affairs.

I am disappointed to find that to a large number of students the University does not seem to mean what it should. A place of learning, a place where we cultivate our intellect, a place where young men and women become enthusiastic about great ideas and ideas and eager to learn from the rich heritage of past millennia, a place where students are mutually encouraged to seek broader knowledge and an understanding of life, and above all, a place where the guiding principle should be excellence in whatever academic or non-academic activities we are engaged in; these were the images of a university that I had expected my fellow students to envisage.

I find, to my dismay, that a majority of students regard their college education as a tedious chore that must be tolerated if they are to secure better jobs. I find that to get through four years of school by taking the least trouble and satisfying

the minimum requirements is the accepted practice for many. I find that only a small minority of students aim toward excellence in their academic undertakings. And the intellectual climate around the campus is such that one needs strong will power and determination to resist main undiscouraged and undistracted.

Lack Drive For Excellence
I find that there are too many substitutes for excellence in attainments. Instead of maintaining a high standard and challenging students to come up to that standard, the University in many cases imperceptibly lowers it, thereby depriving serious students of incentive and acting as an implicit encouragement for those whose purpose is anything but serious study. Social activities, which should complement our intellectual and cultural activities, emerge as alternatives and convenient substitutes and prove to be seductive to a great number of students.

I expected to find in Bucknell students with a wide range of interests and understandings commensurate with the vast influence that their nation wields in the world as the champion of western civilization. Instead, I find that the interests of many students seldom go beyond their required assignments and the gay times at fraternity houses. One of the best cultural programs on campus, the Artist's Series is conspicuous for poor student attendance.

Narrow Mindedness Observed
My second disappointment is the discovery that all too many students have a narrow horizon. I expected to find in Bucknell young men and women who fully realize the important position which their nation has assumed in the affairs of the world, who can transcend their narrow locality and think of the whole world as their domain.

Instead, I find that the majority of students never bother to occupy their mind with anything except getting through college, getting decent jobs, buying new cars, and having cozy houses of their own. These are the necessities of life, but they fall short when students treat them as their ultimate concerns.

In my frustration I ask "Why can't young people dream bigger dreams? If they don't dream significantly big dreams now, when will they ever?"

While I was still in high school at the end of the second World War, I observed with much interest communist students organizing themselves into groups, not only for immediate action, but for study. I saw tenth-grade students get together by themselves, read the Communist Manifesto by Marx and Engels and carry on heated discussions on its ideas. They were, in their youthful and naive way, dreaming of a classless society and discussing the means of helping create one. I wonder how many students graduate from Bucknell without even a rudimentary knowledge about communism.

In Asia students are expected to be, and they are, the liberal and progressive elements in their society. Their actions are in most cases radical. They take a leading role in the least trouble and satisfying

(Continued on page 7.)

PASS IN REVIEW

by Roger Nieman

Last Friday, for the last Common hour of the year, the cadet regiment was turned over to the juniors. The seniors, many for the first time, watched the regiment "pass in review."

Since the awards were presented at the Mother's Day Review, another cadet has been honored. Karl Klose, a Cadet Lt. Colonel who is 2nd Battalion Commander, received from the Chief of Ordnance the Army Ordnance Association Scholarship Key. Karl, who is going into the regular army as a 2nd Lt. in the Ordnance, was given this award for his academic and military achievements.

As this will be the last article of the year, it would be appropriate to give credit to some of the behind-the-scenes people who have kept the regiment functioning as well as it has for the past year. Mention should be made of the fact that many other people deserve recognition here, but space limits us from mentioning all those who deserve it. Therefore, the cadet regimental staff follows:

Robert Toal, the Regimental Commander, is in charge of the entire regiment and all its aspects. In addition to this job which consumes several hours a day, Bob has managed to be on Dean's List almost every term. As a transfer from Valley Forge Military Academy to Bucknell in his junior year, Bob has proven to be one of the most active people in his class in less than two years. A men's counselor, Bob is active on several of Bucknell's Self-Study Committees. He is a member of the senior class council, Phi Sigma Tau philosophy honorary, and has received two letters in soccer.

He was vice president of Alpha Phi Omega service fraternity and has been selected to "Who's Who in American Colleges and Universities." Bob was also very recently honored by his election to Omicron Delta Kappa, the national leadership society for men.

Robert Todd, the Regimental Executive Officer, is second in Command, and is the assistant to the Regimental Commander. Bob's main function within the regiment this year was the handling and coordinating of promotions and demotions. Apart from ROTC, Bob has managed to be on Dean's List several times, and is a member of Lambda Chi Alpha.

William Meister, as Regimental Public Information Officer, has been in charge of training the guidon bearers, the weekly writing of this column, and the drawing up of an Honor Code, which is expected to be put into effect in ROTC next year. In addition to his work on the Bucknellian, Bill has been on the swimming team. A history major, he

Men's Glee Club Reveals New Ideas For Next Year

The Men's Glee Club, although enjoying a successful concert season this year, has many new plans for the future, according to business manager Vernard Board.

The Glee Club consisted this year of approximately sixty members including a feature singing group, The Pavna, two soloists, and the accompanist, Clifford Dye. The group will be larger next year, with hopes of a membership of eighty-five. Plans are also being made to feature an quartet in place of the Pavna. Next year the Glee Club will travel through New Jersey, Pennsylvania, and New York for four days, stopping at Pottstown, Elmhurst, N. J., Newburgh, Bridgeport and New York City. Their usual schedule during the tour called for afternoon

concerts at local high schools and performances during the evening for the general public. The Glee Club will pay room and board Saturday night through Monday noon, inclusive.

Enjoy 36 hours at Bucknell with no homework to plague you. About 33 of these hours will be your own time.

Plans can be made now to concentrate on senior farewells this office will handle reservations for Half Way, the "All", the Milton, or Eagleman.

Fifteen positions are still available. If you are interested, please contact Don Booth at the S. E. house or at JA 4-2441 by noon, Saturday, May 24.

There are twenty foreign cars on this campus.

Sticklers!

LAST CALL FOR STICKLERS! If you haven't Sticklers by now, you may never get the chance again! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings!) Send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y.

WHAT'S A SENIOR WHO DOESN'T GET LUCKIES FOR A GRADUATION PRESENT?
(SEE PARAGRAPH BELOW)

GRADUATION PRESENTS? You may get a (Grown!) 6-cylinder European sports car or a (Yawn!) 6-month European vacation. These silly baubles just prove that parents don't understand the college generation. What every senior really wants (C'mon now, admit it!) is a generous supply of Luckies! Luckies, as everyone knows, are the best-tasting cigarettes on earth. They're packed with rich, good-tasting tobacco, toasted to taste even better. So the senior who doesn't receive 'em is bound to be a *Sad Grad!* Why let parents spoil commencement—it only happens (Sob!) once. Tell 'em to gift-wrap those Luckies right now!

... Letters to the Editor

(Continued from page 2)

by a large school. Also to be considered is the opportunity to be responsible to oneself rather than to other people. This is often thwarted at a school where a certain manner of talking, behaving and dressing is common to everyone on campus. Any deviate from this established code faces social ostracism. To my mind the purpose of a college education is to teach people to think—not to mimic.

I was also interested to learn that "Bucknell is an accredited school established to promote learning." As I see it, it is academically lopsided in that some departments seem to be weaker than others. Those majoring in a weak department might be more apt to get adequate preparation in another school which places more emphasis on their interests.

Location provides another reason for transfer to some Bucknell students. Perhaps they find that there would be more opportunities for natural developments in a more cosmopolitan locale. Unfortunately neither Lewisburg nor Bucknell offer the cultural attraction that some people miss. (When there is an intellectually valuable function, student response is apathetic and disinterested—so why should Bucknell even try to increase events of this sort?)

For these reasons some students have made mistakes in choosing Bucknell. To make a mistake and still be a social misfit are two different things. On this basis, to my mind, **light is essential—not futile!**

Sincerely,
Kirstin Diaz

Dear Editor:

May I preface my remarks by saying that I am not a member of the fraternity upon whose heads I desire to heap laurels. On the contrary, I am a member of a Greek lettered group that is oft times in bitter conflict with this house. Nevertheless, I am a fraternity man and as such must heartily applaud their actions.

Last week I had the good fortune to see the DU presentation of THE MIKADO. While it wasn't a good production in terms of a dyed-in-the-wool Gilbert and Sullivan addict, it was humorous, bordering on slapstick, and, in general, provided a pleasant evening's entertainment. But the main point of achievement was beyond that of the entertainment value of the production. The DU's in this effort, presented a good picture of what fraternity life should be like: a group of young men doing things together and appearing in the public's eye favorably, rather than as something to be damned by townspeople. Other houses have had this spirit in other phases of fraternity action; the SAE's have shown unity on the field of sports, the Fijis in their manner of dress, the Sigs in their sojourns to the Neff, and perhaps with some consideration, one could find a particular characteristic of unity in every fraternity. But even if each fraternity on campus were ideally and completely united in every phase of their activity, we would still have the problem which is at hand. There is an element lacking in the fraternity movement on this campus; that element being unity among the various houses.

Currently, there are a number of programs sponsored directly or indirectly by the administration, which, if the fraternities are going to receive an advantageous result from, they must act not as thirteen separate groups, whether united internally or not, but as a single body. When the decision about the central buying plan comes, however, be it in accordance with my views or not, the important thing is that the fraternities are in complete agreement on the decision. I have heard it said that certain groups such as the IFC and the Interscholastic Athletic Council are merely rubber stamps for the administration. I do not comply completely in this opinion. However, if we hope to solve such problems as deferred rushing, etc., we must do it together. As long as the administration can keep us as 13 separate groups in conflict with each other, they can successfully promote almost any anti-fraternity action. There are, on some campuses, programs in which each fraternity has their Greek Week or Help Week or Hell Week, whatever you wish to call it, at the same time, with pledge class competition, and climaxed by a large banquet attended by all houses. Their own internal program is not disrupted by this, but is, on the contrary, enhanced. The majority of the faculty, recognizing the occurrence of this event, consequently "take it easy" on the fraternity men in their assignments.

Such a program may not be completely applicable in our system, and one might hastily comment that our faculty would never agree to the plan. The key to the success of this plan at other schools has been the complete unification on the part of the fraternities in backing such a program. If we are going to let the administration know that we are a vital part of Bucknell, we must do it as a body and not as separate groups. If we are going to survive the anti-fraternity movement that is upon us, we must do it as a body and not as separate groups. BROTHERS UNITE.

Sincerely yours,
Queeg (Al Steiss)

... Summer School

(Continued from page 1)

Japan Society. Also at this same time, the Summer Institute for High School Teachers of Science will be sponsored by the National Science Foundation. This will offer for undergraduates and graduates an extensive selection of courses in liberal arts, sciences, commerce and finance, education, and engineering. During the same six weeks period a practicum in social studies, science, and arithmetic for elementary school teachers is offered. This is designed for group and individual work by participants interested in preparing curriculum units for classroom use.

In addition to the regular curriculum and the particular studies mentioned, the summer session offers a number of programs for special studies. There will be studies in art (Bruce Mitchell is giving a series of three lectures in art; English teachers' conferences; an Air Age Workshop; a training program for administrators and guidance counselors; and a secondary curriculum conference.

The summer session provides an interesting extra-curricular program too. There will be three lecture recitals in music by Elwood Derr, a former Bucknellian and presently a composer. They are "Beck's Comic and Satirical Secular Works", "Möhler, Song-Symphonist", and "Charles Ives, American Rebel". Two art exhibitions are being rented from the American Federation of Arts. The first is "Art and Science" and it will be on display from June 30 to July 16. It will contain paintings, drawings, and prints from the pages of the Scientific American Magazine. From July 16 to August 8 will be an exhibit of portraits of Victorian children; "Charm of Youth". Professor Blanchard Gumm will give the lecture on this exhibition.

In connection with the Science Institute, lectures will be given by outstanding scientists. These lectures will be held in the afternoons, and are open to the public. Also open to all will be three literature lectures which will be held in Pro-

fessor Garvin's seminar on American literature.

A treat for good children and adventures in Japan is candy flavored with green tea.

... Commencement

(Continued from page 1)

modern French comedy, "Thieve's Carnival." Tickets are \$1.05 and may be bought at the registration desk on Friday and Saturday.

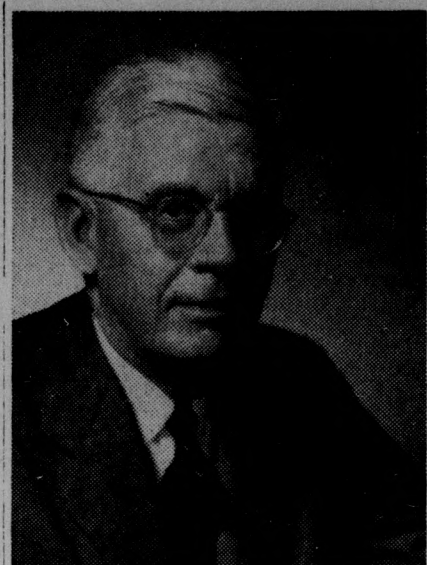

Saturday evening will feature the Alumni Jamboree in Davis Gymnasium. The Jamboree, which will commence at 9:00 p. m. and last until midnight, is free and is open to all alums and seniors. It is not only a welcome back party for the alumni but also a farewell party to the senior class. Music will be provided by Les Michner's orchestra. Mr. Allen Flock, associate professor of music, is in charge of arranging alumni and student entertainment.

Sunday afternoon at 3:30 p. m. the President's Reception for the class of '58, parents, faculty, and administration will be held on the lower campus. In case of rain the reception will be held in Davis Gymnasium. Baccalaureate services will be held at 8:00 p. m. with Rev. Dr. Carol O. Morong, Headmaster of the Peddie School, delivering the sermon entitled, "Precious Argosy."

Dr. Morong studied at American University, George Washington University and Harvard University, and received his B. D. degree from Andover-Newton Theological Seminary and his Ph. D. degree from Boston University. He has held Baptist pastorates in various cities, has been a frequent contributor to educational and religious journals, and is presently chairman of the Editorial Board of *Cruiser*, the Baptist news magazine. Dr. Morong is also a trustee of several theological schools and has been a leader of affairs in the American Baptist Convention. His daughter, Barbara, was a 1956 graduate of Bucknell.

300 To Be Graduated

Approximately 300 men and women will be graduated at the 108th Commencement on Monday, June 9. Dr. Harold W. Dodds, president emeritus of Princeton University, will give the commencement address. Dr. Dodds retired from his job as president of Princeton last

Bucknellians Write Broadway Production

A comedy-drama written by two Bucknellians, Edward H. Davis, '53, and Lionel Krantz, '55, has been scheduled for Broadway production next fall.

Entitled "Far Away the Train-Birds Cry", the script represents the first cooperative writing effort of the two young men. Milton H. Greene, former vice president of Marilyn Monroe Productions, and Louis d'Almeida, an actor, have formed a new company and will sponsor the play, scheduled to open in New York in October.

FRESHMEN ANNOUNCE ORIENTATION PLANS

A committee, in conjunction with class officers under the chairmanship of Ann Wiley and Chris Phares, has recently planned several organized social activities for Freshmen Orientation, which will be given in September for the new freshman class by the members of the sophomore class.

The first tentative activity would be a picnic to be held in Swartz Hall on September 21. A committee headed by Joan Berlin and Debbie Milton have suggested a typical Sunday night supper. After getting their food on trays from the Swartz Cafeteria the freshmen would meet outside for a song fest and a skit to be presented by the committee.

Next on the agenda would be a mixer dance for freshmen only, which is to be held on Saturday the 27th. Bobbie Runk has been appointed general chairman of the dance. Other dance committee chairmen are as follows: decoration, Jackie Warner; refreshments, Buzzy Vainhoff; and entertainment, Jan Niddie.

The meal exchange program between the freshman men and women will be continued again next year. This shall be started the first Sunday and continued by hall group arrangement, as it was done at the beginning of this year, until Thanksgiving vacation.

Women Voters League Furnishes Scholarships

Fifty scholarships have been made available for persons wishing to attend the Study Conference on the Pennsylvania Constitution to be held at Bucknell University June 23 to 24 by the League of Women Voters of Pennsylvania.

The scholarships, covering the registration fee and some other expenses, have been provided by the Council of the League of Women Voters of Delaware County, headed by Mrs. Brudinet Stinson of Hadron.

Military Honors
Nineteen Juniors

The following juniors have been designated as tentative Distinguished Military Students for the coming year: Ray Burns, Dick Burnett, Terry Carlson, Roger Connors, Leon Diodoardo, Bob Fahringer, George Fantes, Don Ferrara, Ellis Harley, Bob Harder, Pete Hood, Dick Hunn, Bill Lembeck, George Mandakas, Greg Ogden, Dave Ott, Rick Ryer, Bill Sharkey, and Bob Yostheimer.
